ANNUAL FINANCIAL REPORT **Year Ended August 31, 2017**

Texas State University System Administration

November 15, 2017

Honorable Greg Abbott
Governor of Texas

Honorable Glenn Hegar
Texas Comptroller of Public Accounts

Ms. Ursula Parks
Director, Legislative Budget Board

Ms. Lisa Collier
First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the Texas State University System Administration for the year ended August 31, 2017, in compliance with Texas Government Code Annotated, Section 2101.011 and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Roland Smith, Vice Chancellor for Finance at (512) 463-1808.

Sincerely,

Brian McCall
Chancellor

NOTE 1: Summary of Significant Accounting Policies

Reporting Entity

Texas State University System Administration (System Administration) is a Public System of Higher Education of the State of Texas. The financial records comply with state statutes and regulations, including compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Institutions of Higher Education.

The Texas State University System is comprised of System Administration and the following institutions: Lamar University, Sam Houston State University, Sul Ross State University, Texas State University, Lamar Institute of Technology, Lamar State College - Orange, and Lamar State College - Port Arthur. System Administration's primary role is to provide administrative support services for the component entities. Other groups served by System Administration include the Board of Regents, other state agencies, and the citizens of Texas, including the staffs and students of the component institutions.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. The Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

Business Type Activity funds account for activities financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education report their financial activities as business type because the institution's funding comes primarily through charges to students, sales of goods and services, and grant revenues.

Component Units

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business Type Activity funds are accounted for using the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the accounting period when they are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The operating budget is prepared annually and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act) and other revenues generated by System Administration. Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Securities Lending Collateral

Investments are stated at fair value in all funds except pension trust funds in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with GASB Statement 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets and Related Debt

Purchases of assets with an estimated useful life in excess of one year exceeding System Administration's capitalization thresholds are recorded as capital assets at their acquisition cost on the date of acquisition. Donated assets with an estimated useful life in excess of one year exceeding the capitalization thresholds are recorded as capital assets at their fair market value on the date of acquisition. Intangible capital assets are defined as assets that lack physical substance, are nonfinancial in nature and have an initial useful life extending beyond a single reporting period. Routine repairs and maintenance that do not increase the value of buildings are charged to operating expense in the year in which the expense was incurred.

System Administration's capitalization thresholds are:

<u>Asset Category</u>	<u>Threshold</u>
Land, land improvements, and land use rights	All acquisitions
Books and materials for academic and research libraries	All acquisitions
Works of art and historical treasures not held for financial gain	All acquisitions
Furniture, equipment, and vehicles	\$5,000
Buildings and building, facilities, and other improvements	\$100,000
Purchased computer software and land use rights (A)	\$100,000
Infrastructure	\$500,000
Internally generated computer software	\$1,000,000

(A) Applies only to land use rights considered to have a limited useful life (TERM.)

UNAUDITED

Texas State University System Administration
Notes to the Financial Statements
For the Year Ended August 31, 2017

Assets are depreciated or amortized over the estimated useful life of the asset using the straight-line method as follows:

<u>Asset Category</u>	<u>Useful Life</u>
Furniture and Equipment	4-15 years
Purchased and Internally Developed Software	5 years
Vehicles	5-10 years
Other Tangible Assets	10 years
TERM Land Use Rights	10 years
Buildings, Infrastructure and Facilities	10-30 years
Other Assets	15 years

All land, land improvements, land use rights, and works of art and historical treasures not held for financial gain are considered to have an indefinite useful life. Because these assets are inexhaustible, they are not depreciated.

Bonded indebtedness is issued by the Texas State University System Revenue Financing System. The System Administration Office and each component institution within the system comprise the Revenue Financing System. Debt service requirements are disclosed in Note 6, Bonded Indebtedness.

Current Receivables - Other

Other receivables include year-end revenue accruals not included in any other receivable category.

Deferred Outflows of Resources

For debt refunding, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and reported as deferred outflows or inflows. The gain or loss is amortized as a component of interest expense using the straight-line method over the remaining life of the old debt or the life of the new debt, whichever is shorter.

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables – Other

Other payables are the accrual at year -end of expenditure transactions not included in any of the other payable descriptions.

Bonds Payable - General Obligation Bonds and Revenue Bonds

General Obligation and Revenue Bonds are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current

or non-current in the statement of net assets. Bond proceeds and principal payments are reported in the Statement of Cash Flows.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes due upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets.

Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or non-current in the statement of net assets.

Net Position

The difference between assets and liabilities is Net Position.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Beginning balances for the restricted net assets were adjusted for fiscal year 2017. Restricted net assets, expendable of \$13,810.22 were reported in the 2016 AFR as restricted net assets, nonexpendable. No restatement is required to overall net assets.

Unrestricted Net Position

Unrestricted net assets consist of net assets which do not meet the definition of the two *preceding* categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

Interfund Activities and Balances

System Administration has the following types of transactions among funds:

UNAUDITED

**Texas State University System Administration
Notes to the Financial Statements
For the Year Ended August 31, 2017**

Transfers

Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund.

Reimbursements

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Interfund Receivables and Payables

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as “Current”, repayment for two (or more) years is classified as “Non-Current”.

Interfund Sales and Purchases

Charges or collections for services rendered by one fund to another are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of interfund activities is presented in Note 12.

See Note 6 for a discussion of Bonds Payable.

Notes and Loans Payable

The notes and loans payable consists of loan for the purchase of an office building from the Board of Regents of the University of Texas System at a rate of 1.50%.

Employees' Compensable Leave

Accrued compensable leave is System Administration's liability for unpaid overtime accrued by classified employees and unused vacation time for all employees. Any obligation to System Administration personnel is paid at the time an employee is dismissed, resigns, or separates from the university, provided the employee has had six months of continuous employment with the State of Texas in their lifetime. An expense and liability are recorded annually as the benefits accrue to employees. Accrued sick leave is only paid when an employee is off due to illness or to the estate of an employee

As of August 31, 2017, System Administration had no claims and judgments.

NOTE 6: Bonded Indebtedness

The Board of Regents approved the order establishing the Master Resolution for the Texas State University System Revenue Financing System in August 1998. The Master Resolution provides a financing structure under which revenue supported indebtedness of the Revenue Financing System can be incurred. Each component institution and the System Administration of TSUS are members of the Revenue Financing System. The Board pledged all of the funds (revenues) and balances derived or attributable to any member of the Revenue Financing System that is lawfully available to the Board for payments on Parity Debt. Specifically exempted from pledged revenues are:

- (a) Amounts received on behalf of any member under Article 7, Section 17 of the Constitution of the State of Texas, including the income there from and any balances relating thereto, and
- (b) General Revenue Fund appropriations, except to the extent so specifically appropriated for debt service to the Board by the Legislature of the State of Texas.

Members may use the Revenue Financing System to acquire, purchase, construct, improve, renovate, enlarge, or equip property, buildings, structures, facilities, roads, or related infrastructure. An institution's request for the use of the Revenue Financing System is evaluated for an adequate revenue stream and bonding capacity for the specific institution prior to Board approval of issuing additional parity debt.

Each component institution receives its portion of the bond proceeds and accounts for the earnings and disbursements of the bond proceeds. Assets created and/or acquired as a result of the Revenue Financing System bond proceeds expended and subsequently capitalized are reported on the component institutions' Financial Reports. The associated bond liability and debt service activities are reported in total by System Administration.

The following outstanding bonds have been issued utilizing the Revenue Financing System:

\$52,825,000.00 in principal of Revenue Financing Revenue Bonds, Series 2009. The combined liability of \$80,055,000.00 has been removed from the Statement of Net Position for System Administration.

The refunding resulted in an economic gain of \$6,894,767.44 representing the net present value of the decrease in cash flows required to service the new debt. An accounting loss of \$7,078,081.09 was incurred as the reacquisition price of \$87,133,081.09 exceeded the net carrying amount of \$80,055,000.00.

Funds Available for Debt Service

GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, as amended, makes a basic distinction between sales of receivables and future revenues, on the one hand, and the pledging of receivables or future revenues to repay a borrowing (a collateralized borrowing) on the other.

System Administration's pledged revenues consist of unrestricted gifts, investment income, and other nonoperating revenues. The following table provides the pledged revenue information for the System's revenue bonds:

Pledged Revenue Required for Future Principal and Interest on Existing Revenue Bonds	\$1,612,618,614.72

NOTE 9: Defined Benefit Pension Plan and Defined Contribution Plan

Teacher Retirement System of Texas (TRS)

System Administration participates in a cost-sharing, multi-employer, defined benefit pension plan administered by TRS. The plan provides retirement, disability annuities and

UNAUDITED

**Texas State University System Administration
Notes to the Financial Statements
For the Year Ended August 31, 2017**

death and survivor benefits. The benefit and contribution provisions of the TRS Plan are authorized by state law and may be amended by the Legislature.

All System Administration personnel employed in a TRS-eligible position on a one-half time or greater basis that is projected to last for 4½ months or more are eligible for membership in the TRS retirement plan. Students employed in positions that require student status as a condition of employment do not participate.

The pension benefits formulas are based on members' average annual compensation and years of service credit. The standard annuity is 2.3% of the average of the five highest annual salaries multiplied by years of service credit. For grandfathered employees who were hired on or before August 31, 2005 and meet certain criteria, the standard annuity is based on the average of the three highest annual salaries. The plan does not provide automatic post-employment benefit changes; including automatic cost of living adjustments.

Normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule.

TRS is primarily funded through State and employee contributions. TRS contribution rates are established by the State Legislature. Contributions by employees were 7.7 percent of gross earnings for 2017, while employer contribution were 6.8 percent of the participants' gross earnings for 2017. Depending upon the source of funding for a participant's salary, System Administration may be required to make contributions in lieu of the State.

TRS currently does not separately account for each of its component government agencies because TRS itself bears sole responsibility for retirement commitments beyond contributions fixed by the State Legislature. Further information regarding actuarial assumptions and conclusions, together with audited financial statements are included in TRS's annual financial report, which may be found on the TRS website at www.trs.texas.gov.

In accordance with the *Reporting Requirements for Annual Financial Reports of State Agencies and Universities* promulgated by the Texas Comptroller of Public Accounts, The Texas State University System annual financial report (combined) includes the net pension expense, net pension liability, and related deferred inflows and outflows of all components of the System. Therefore, System Administration's financial statements do

UNAUDITED

Texas State University System Administration
Notes to the Financial Statements
For the Year Ended August 31, 2017

not record or disclose the net pension expense, net pension liability, or related deferred inflows and outflows attributable to System Administration.

Optional Retirement Program (ORP)

The State has also established the Optional Retirement Program (ORP) for institutions of higher education, which is available to certain eligible employees in lieu of participation in the TRS. Employees eligible for participation in ORP are defined in Texas Administrative Code § 25.4.

ORP provides for the purchase of annuity contracts and mutual funds. Participants are vested in the employer contributions after one year and one day of service. Depending upon the source of funding for the employee's compensation, System Administration may be required to make the employer contributions in lieu of the State.

Employee and employer contribution rates are established by the State Legislature. The State provides an option for a local supplement on top of the state base rate. Fiscal year 2017 contributions were made by participants at a rate of 6.65 percent of annual compensation. Employer contributions were 8.50 per cent of annual compensation, comprised of the state base rate of 6.60 percent plus 1.90 percent as a local supplement.

Contributions made by participants and System Administration for the fiscal year ended August 31, 2017, were as follows:

Participant contributions	\$ 61,809
Employer contributions	\$ 79,003
Total	<u>\$ 140,812</u>

Since contributions are invested in individual annuity contracts, neither the State nor System Administration have any liability for this program.

NOTE 10: Deferred Compensation

The state of Texas offers a deferred compensation plan to all state employees. This plan is in accordance with Internal Revenue Code Section 457 and permits employees to defer a portion of their salary until future years. The deferred compensation funds are not available to employees until distribution due to termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts and all income attributable to those amounts, property or rights are held in trust by the Employees Retirement System (ERS) Board of Trustees for the

exclusive benefit of participants and their beneficiaries and may not be used for, or diverted to, any other expense, except to defray the reasonable expenses of administering the plan.

The Board of Trustees is not liable to participating employees for the diminution in value or loss of all or part of the participating employees' deferred amounts or investment income because of market conditions or the failure, insolvency or bankruptcy of a qualified vendor.

NOTE 11: Post Employment Health Care and Life Insurance Benefits

In addition to providing pension benefits, the state of Texas contributes to a plan that provides health care and life insurance benefits for retired System employees. These other postemployment benefits (OPEB) are authorized by statute.

As the administrating agency, the Employees Retirement System reports the plan, balances, and liabilities.

The state also administers the TexaSaver 401(k) plan. The assets of this plan do not belong to the state and the state has no liability related to this plan.

As the administrating agency, the Employees Retirement System reports the plans, balances, and liabilities.

NOTE 12: Interfund Activity and Transactions

System Administration experienced routine transfers with other State agencies, which were consistent with the activities of the fund making the transfer. Repayment of interagency balances will occur within one year from the date of the financial statements.

NOTE 13: Continuance Subject to Review

System Administration is not subject to the Texas Sunset Act.

NOTE 14: Adjustments to Fund Balances and Net Position

System Administration had no restatement of net position.

NOTE 15: Contingencies and Commitments

At August 31, 2017, various lawsuits and claims involving System Administration were pending. While the ultimate liability with respect to litigation and other claims asserted cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is unlikely to have a material effect on System Administration. Under Texas law, System Administration, as an agency of the State of Texas, enjoys immunity from most causes of action. A solid majority of such claims are dismissed prior to trial.

NOTE 16: Subsequent Events

System Administration had no subsequent events to report for the year ended August 31, 2017.

NOTE 17: Risk Management

System Administration may be subject to a variety of civil claims or complaints arising from the performance of its duties; however, no claims or complaints are currently pending against System Administration for actions arising from performance of its duties. It is System Administration's policy periodically to assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. Currently purchase of commercial insurance is not planned, nor is System Administration involved in any risk pool with other government entities for these risks.

NOTE 18: Management's Discussion and Analysis (MD&A)

Although MD&A is a required part of the basic financial statements, MD&A is omitted because System Administration is reported in a consolidated format with the combined Texas State University System (TSUS). TSUS is reported as a component of the State of Texas. MD&A, as it relates to TSUS, can be found in the State of Texas Consolidated Annual Financial Report.

NOTE 19: The Financial Reporting Entity

Component Units (CUs) are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, CUs can be other organizations for which the nature and significance of their relationship with the primary government is such that exclusion would create misleading or incomplete financial statements. System Administration has determined that no legally separate organizations should be considered a CU.

The following foundation, while not component unit, is disclosed due to its significant relationship with System Administration:

The Texas State University System Foundation, Inc. was established in 1977 by the Board of Regents to assist the System in gaining private financial support, and to help component institutions pursue additional education-related activities and outreach. It is a nonprofit corporation that exists solely for the benefit of the Texas State University System. It has an independent board of directors that governs Foundation activities and manages Foundation funds. For the fiscal year 2017 ended August 31, 2017, the Foundation had net assets of \$4,801,914 and the Foundation provided \$1,173,947 in scholarships and faculty/staff awards, as well as assistance to constituent schools, the Chancellor and Board of Regents.

NOTE 20: Stewardship, Compliance and Accountability

System Administration is not aware of any non-compliance items or material violations of finance related legal and contract provisions.

NOTE 22: Donor Restricted Endowments

Net appreciation of \$42,808.70 related to true endowments were classified as restricted, expendable on the Statement of Net Position. The net appreciation included a positive fair value adjustment totaling \$28,998.48 for fiscal 2017.

The amount reported as net appreciation represents net appreciation on investments of donor restricted endowments that are available for authorization for expenditure. Pursuant to the Uniform Prudent Management of Institutional Funds Act (Property Code Chapter 163.001), net appreciation, realized and unrealized, in the fair market value of the endowment assets in excess of historical dollar value of the gifts may be distributed to the extent prudent.

Under the terms of the will establishing the endowment, 90% of the income received by the endowment is distributed for spend. The remaining 10% of the income is retained in the endowment and reinvested in corpus.

Changes from prior year balances for expendable and non-expendable balance of true endowments for the year ended August 31, 2017 were:

<u>Net Position Category</u>	<u>Increase/(Decrease)</u>	<u>Reason for Change</u>
