Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Ursula Parks, Director, Legislative Budget Board
Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of Lamar University for the year ended August 31, 2017, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Ms. Jamie Larson at 409-880-7126. Contact Ms. Cindy Brown at 409-880-7925 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Dr. Kenneth R. Evans
President

Hurricane Harvey and LU

Timeline

- Classes were scheduled to begin August 28, 2017
- Hurricane Harvey was predicted to come ashore around Corpus Christi
- Students were invited to move in to the dorms early to avoid the rain weather reports estimated
- It came ashore and then wandered back out into the Gulf
- It made landfall in the Beaumont/ Houston area August 29
- Harvey brought record rains—as much as 50 inches in 24 hours
- Then upriver, the U.S. Army Corps of Engineers released water from the dams, making a bad situation worse

HARVEY *Heroes*

Notes to the Basic Financial Statements

More than 500 students stayed in the LU residence halls throughout the storm. The City of Beaumont lost its water supply, and drinking water as well as bathroom facilities became an issue. Having it rain for so many days, LU students had time on their hands. Some of the local students had already started to volunteer with their church or community groups.

So was born...**HARVEY HEROES**

The Numbers

- 294 student volunteers initially signed up
- 112 student volunteers who completed at least 40 hours

Volunteer Areas

- Salvation Army and Red Cross—distribution and shelter
- Humane Society—rescue animals
- Habitat for Humanity, local churches and homes—pulling up carpet and cutting sheetrock
- Schools—distribution and shelter
- SETX Food Bank, Red Cross, Meals on Wheels and HEB—food and water distribution

Lamar University students completed **more than 5,000 hours** of volunteer work through Harvey Heroes.

LAMAR UNIVERSITY
NOTES TO THE FINANCIAL STATEMENTS
For the year ended August 31, 2017

NOTE 1: Summary of Significant Accounting Policies

Entity

Lamar University is considered an Institution of Higher Education of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Government*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the state auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

Proprietary Funds

Business Type Activity

Business type funds are used for activities that are financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type; because, the predominance of their funding comes through charges to students, sales of goods and services and grant revenues.

Component Units

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business activity type funds (proprietary funds) are accounted for using the full accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Position

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Securities Lending Collateral

Investments are generally stated at fair value with certain exceptions in accordance with [**GASB Statement No. 72**](#) *Fair Value Measurement and Application*. Invested security lending collaterals are measured at fair value. Securities lent are reported as assets on the balance sheet.

The costs of securities lending transactions are reported as expenditures or expenses in the operating statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are used or consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all “exhaustible” assets. “Inexhaustible” assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is depreciated over the estimate of average useful life of a grouping of assets using composite method. Other depreciable assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost if actual historical cost is not available. Donated capital assets are reported at acquisition value. Depreciation is charged to operations over the estimated useful life of each asset using the straight-line method.

Other Receivables – Current and Noncurrent

The disaggregation of other receivables as reported in the financial statements is shown in Note 24, “Disaggregation of Receivables and Payables Balances.” Other receivables include year-end accruals not included in any other receivable category. This account can appear in governmental and proprietary fund types.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables – Current and Noncurrent

Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions. The disaggregation of other payables as reported in the financial statements is shown in Note 24, “Disaggregation of Receivables and Payables Balances.”

Employees’ Compensable Leave Balances

Employees’ Compensable Leave Balances represent the liability that becomes “due” upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee’s salary or wage compensation was paid.

Capital Lease Obligations

Capital lease obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or noncurrent in the statement of net position.

Bonds Payable-General Obligation Bonds

General obligation bonds are accounted for in the long-term liabilities adjustment column for governmental activities and in proprietary funds for business-type activities. These payables are reported as long-term liabilities (current for amounts due within one year) and long-term liabilities (noncurrent for amounts due thereafter in the statement of net position/balance sheet). The bonds are reported at par, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities.

For governmental activities, bond proceeds are accounted for (when received) as an “other financing source” in the governmental fund receiving the proceeds. Payment of principal and interest is an expenditure recorded in the debt service fund. All bond transactions and balances for business-type activities are reported in proprietary funds.

Bonds Payable-Revenue Bonds

Revenue bonds are accounted for in proprietary funds for business-type activities and in the long-term liabilities adjustment column for governmental activities. These payables are reported as long-term liabilities (current for amounts due within one year) and long-term liabilities (noncurrent for amounts due thereafter) in the statement of net position/balance sheet. The bonds payable are reported at par, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities.

For governmental activities, bond proceeds are accounted for when received as an “other financing source” in the governmental fund receiving the proceeds. Payment of principal and interest is an expenditure recorded in the debt service fund. All bond transactions and balances for business-type activities are reported in proprietary funds.

FUND BALANCE/NET POSITION

“Fund balance” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. “Net position” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

When both restricted and unrestricted resources are available for use, it is the university’s policy to use unrestricted resources first, then restricted when they are needed. When only unrestricted resources are available for use, it is the university’s policy to use committed resources first, then assigned resources and unassigned resources last.

Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

- **Nonspendable fund balance** includes amounts not available to be spent because they are either:
 - Not in spendable form
 - Legally or contractually required to be maintained intact.
- **Restricted fund balance** includes those resources that have constraints placed on their use through external parties — such as creditors, grantors, contributors, laws or regulations of other governments — or by law through constitutional provisions or enabling legislation.
- **Committed fund balance** can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state’s highest level of decision making authority.
- **Assigned fund balance** includes amounts constrained by the state’s intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by either:
 - The Texas Legislature
 - A body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- **Unassigned fund balance** is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Net Investment in Capital Assets

Net investment in capital assets, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on net resources use are either externally imposed by creditors, grantors, contributors, and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consist of net resources that do not meet the definition of the two *preceding* categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

INTERFUND ACTIVITIES AND TRANSACTIONS

Lamar University has the following types of transactions between funds:

- (1) **Transfers:** Legally required transfers that are reported when incurred as “Transfers In” by the recipient fund and as “Transfers Out” by the disbursing fund.
- (2) **Reimbursements:** Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) **Interfund receivables and payables:** Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as “current.” Balances for repayment due in two (or more) years are classified as “noncurrent.”
- (4) **Interfund Sales and Purchases:** Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund (interfund services provided) and expenditures or expenses of the disbursing fund (interfund services used). The composition of Lamar University’s interfund activities and transactions are presented in Note 12.

NOTE 3: Deposits, Investments, and Repurchase Agreements

Lamar University is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256. 001 Texas Government Code). Endowment Funds may be invested in accordance with the Uniform Management of Institutional Funds Act, Property Code Chapter 163. Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

Lamar University is authorized by statute to make investments following the “prudent person rule.” There were no significant violations of legal provisions during the period.

Deposits

As of 08/31/17, the actual bank balance was \$33,377,997.41. The carrying balance was \$33,209,492.29 as presented below.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The university's investment policy requires that investments in debt securities be rated in the top three investment grade ratings (Standard & Poor's AAA to A or comparable ratings with other agencies for operating funds and BBB and above for endowments) at the time of purchase. Two nationally recognized statistical rating organizations must rate the security. Risk is further limited through the Investment Policy by term limitations, and maximum single purchase and maximum aggregate position percentages. As of 08/31/17, the university's credit quality distribution for securities with credit risk exposure was:

FUND TYPE	INVESTMENT NAME	AAA	AA	A	UNRATED
05	Fixed income money market and bond mutual fund				\$34,691,921.40

NOTE 4: Short Term Debt

Lamar University has no short term debt as of August 31, 2017.

NOTE 5: Long Term Liabilities

Changes in Long-term Liabilities

During the year ended August 31, 2017, the following changes occurred in long-term liabilities:

Business Type Activities	Balance 09/01/16	Additions	Reductions	Balance 08/31/17	Due Within One Year
Deposit Payable	\$466,687.76	\$349,983.14	\$348,109.23	\$468,561.67	\$162,598.00

Employees' Compensable Leave

See Note 1 for discussion of Employees' Compensable Leave.

Bonds Payable

See Note 6 for a discussion of Bonds Payable.

NOTE 6: Bonded Indebtedness

All bonded indebtedness for Lamar University is issued by System Administration through the Texas State University System Revenue Financing System. System Administration and each component institution within the system are members of the Revenue Financing System. The Board of Regents pledged all of the funds (revenues) and balances derived or attributable to any member of the Revenue Financing System that are lawfully available to the Board for payments on Parity Debt.

System Administration issued the debt; therefore, the bonds payable attributable to the institution are included with the Bonds Payable reported by System Administration. The institution must repay the debt that was issued on its behalf; consequently, the following debt amortization schedule is presented for informational purposes only.

**DEBT SERVICE REQUIREMENTS ATTRIBUTABLE
TO LAMAR UNIVERSITY**

Description	Year	Principal	Interest	Total

	Totals	161,082,790.31	58,765,202.34	219,847,992.65

A portion of the debt represents Tuition Revenue Bonds historically funded by the Texas Legislature through General Revenue Appropriations. The institution was appropriated \$7,097,856 during the current fiscal year for Tuition Revenue Bond debt service. The institution expects future Legislative appropriations to meet debt service requirements for Tuition Revenue Bonds.

NOTE 7: Derivative Instruments

Lamar University has no derivative instruments as of August 31, 2017.

NOTE 8: Leases

Operating Leases

Included in the expenditures reported in the financial statements are the following amounts of rent paid or due under operating lease obligations:

Fund Type	Amount
Designated	31,500.00
Auxiliary	14,917.44
	\$46,417.44

Future minimum lease rental payments under non-cancellable operating leases having an initial term in excess of one year are as follows:

Fiscal Year Ended August 31	Amount
2018	35,914.44
2019	14,917.44
2020	14,917.44
2021	3,729.36
2022	0.00
Total Minimum Future Lease Rental Payments	\$ 69,481.68

Capital Leases

Lamar University has no capital leases as of August 31, 2017.

NOTE 9: Pension Plans

The state established an optional retirement program for institutions of higher education. Participation in ORP is in lieu of participation in the Teacher Retirement System and is available to certain eligible employees. The contributions made by plan members and employers for the fiscal year ended 08/31/17 are:

	Year Ended August 31, 2017
Member Contributions	\$ 2,135,993.00
Employer Contributions	2,333,416.00
Total	\$ 4,469,409.00

NOTE 10: Deferred Compensation

State employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in the TEX. GOV'T. CODE ANN., Sec. 609.001. Two plans are available for employees' participation. Both plans are administered by the Employees Retirement System.

The State also administers another plan: "TexaSaver" created in accordance with Internal Revenue Code Sec. 401 (k). The assets of this plan do not belong to the State. The State has no liability related to this plan.

NOTE 11: Post Employment Health Care and Life Insurance Benefits

Not Applicable.

NOTE 12: Interfund Activity and Transactions

As explained in Note 1 on Interfund Activity and Transactions are numerous transactions between funds and agencies. At year-end, amounts to be received or paid are reported as:

- Interfund Receivables or Interfund Payables
- Due From Other Agencies or Due to Other Agencies
- Due From Other Funds or Due to Other Funds
- Transfers In or Transfers Out
- Legislative Transfers In or Legislative Transfers Out

Lamar University experienced routine transfers with other state agencies that were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

NOTE 13: Continuance Subject to Review

Lamar University is not subject to a review of continuance.

NOTE 14: Adjustments to Fund Balances and Net Position

Lamar University has adjustments to the beginning Fund Balances and Net Position in the amount of \$41,853.50 due to adjustments in capital assets.

NOTE 15: Contingent Liabilities

As of August 31, 2017, various lawsuits and claims involving Lamar University were pending. While the ultimate liability with respect to litigation and other claims asserted against the University or the Board of Regents cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the University.

During the fiscal year August 31, 2017, there were two (2) lawsuits and claims involving Lamar University. At August 31, 2017, one (1) lawsuits and claims involving Lamar University were pending.

NOTE 16: Subsequent Events

Lamar University has no subsequent events to report as of August 31, 2017.

NOTE 17: Risk Management

Lamar University is exposed to a variety of civil claims resulting from the performance of its duties. It is university policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The University assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance, nor is the University involved in any risk pool with other government entities for these risks. Lamar University incurred no losses during the fiscal year ended August 31, 2017 and no claims were pending at that date.

The University is required by certain bond covenants and FEMA to carry Fire and Extended Coverage and Boiler insurance on buildings financed through the issuance of bonds using pledged Auxiliary Enterprise or other non-Educational and General Funds. The insurance protects the bond holders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments and the federal government for storm damage.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum liability in the amount of \$20,000/\$40,000 bodily injury and \$15,000 property damage. However, the University has chosen to carry liability insurance on its licensed vehicles in the amount of \$1,000,000 combined single liability. The coverage exceeds the extent of the waivers of state immunity specified in the tort claims act.

NOTE 18: Management Discussion and Analysis

Management Discussion and Analysis is a required part of the basic financial statements. Management Discussion and Analysis is omitted because Lamar University is reported in a consolidated format with Texas State University System which is reported as a component of the State of Texas. Management Discussion and Analysis as it relates to Texas State University System can be found in the State of Texas basic financial statements.

NOTE 19: The Financial Reporting Entity

The Lamar University Foundation is a nonprofit organization with the sole purpose of supporting educational activities of Lamar University. The Foundation solicits donations and acts as a coordinator of gifts made by other parties. The Foundation remitted restricted gifts of \$2,684,211.15 to the University during the year ended August 31, 2017. During the fiscal year the University furnished certain services, such as office space and utilities, to the Foundation, for which the Foundation was billed at cost, \$254,198.21. Accounts receivables of \$850,101.03 are due from the Foundation at August 31, 2017.

NOTE 20: Stewardship, Compliance and Accountability

Not used.

NOTE 21: No reference of Note 21 on FMX website

Not used.

NOTE 22: Donor-Restricted Endowments

Net appreciation of \$4,052,791.70 related to true endowments were classified as restricted, for expendable on the Statement of Net Position. The net appreciation included a positive fair value adjustment totaling \$1,211,047.81 for fiscal year 2017.

Distributions are calculated using the ending fair market value at August 31st multiplied times an authorized distribution rate. The authorized distribution rate for the fiscal year 2017 was 4%. The individual endowments own units in a restricted investment pool and the annual distributions are allocated on a per unit basis.

Changes from Prior Year Balances

True Endowment Funds	2017 Increase/(Decrease)	Reason for Change
Expendable Balances	\$921,856.55	Fair value fluctuations, earnings, fees and distributions.
Non-expendable Balances	\$1,360,657.70	New gifts

The balances, or transactions, of funds held in trust by others on behalf of Lamar University are not reflected in the financial statements. At August 31, 2017, there was one such fund for the benefit of the University. Based upon the most recent available information, the assets of this fund as reported by the Trustees are valued at \$5,690,612.13.

Impact on Faculty, Staff and Students

Like millions of other Texans, Lamar University students faced mandatory evacuation, loss of electricity, non-potable water, recovery costs and the loss of personal possessions.

After the storm, faculty and staff members and administrators responded swiftly to accommodate students:

- creating three additional fall semesters, or “Harvey Sessions,” with later start dates to give time for students to recover from the storm
- extending registration for fall
- waiving late registration fees
- implementing a revised academic calendar

Lamar University delayed the start of the Fall 2017 semester to Sept. 5 by initiating all courses online until they could transition back to campus. Although overall numbers will be down slightly, some areas still grew or remained steady:

- Occupancy in the university’s residence halls, Cardinal Village, is at an all-time high.
- Transfer student enrollment rose.
- The incoming freshmen class is among one of the best prepared to date based on average SAT and ACT scores
- This fall’s undergraduate student enrollment of 10,287 was virtually tied with 2016 numbers.
