Dallas County Community College District

December 5, 2017

Joe D. May

On behalf of the Dallas County Community College District and the community of Dallas County, I am pleased to submit to the members of the DCCCD Board of Trustees our Comprehensive Annual Financial Report for the fiscal years which ended August 31, 2017 and 2016.

Thanks to your leadership as members of our Board of Trustees – and your commitment to the District’s fiduciary responsibilities – we continue to sustain a strong fiscal position and to provide services and programs which help ensure that Dallas County is vibrant, growing, and economically stable for future generations. DCCCD’s tuition and property tax rates continue to rank among the lowest for Texas community colleges. The value of an education at all of our colleges is accessible for our students and the citizens of Dallas County.

We know that student and community success is vital to the prosperity of Dallas County and we are involved in a number of programs that support their success. I would like to share several key examples:

- DCCCD has partnered with the Dallas Independent School District to offer dual credit learning opportunities through 19 early college high schools. This significant program will enable more than 2,000 students to receive both a high school diploma and an associate degree when they graduate, at no cost to those students or their parents. As you know, the District already has a history of building student success through several other ECHS facilities with Dallas ISD and other area school districts, totaling 31 early college high schools and collegiate academies.
- Our early college high school program will help the state meet its goals through the Texas Higher Education Coordinating Board’s “60X30TX” initiative, which says that 60 percent of “Generation Texas” (adults ages 18 to 34) will have a postsecondary credential or degree by 2030. Our education network with Dallas ISD is one example of how DCCCD seeks to be inclusive. We want to build our reputation based on the people we include in our higher education network and the ways in which we connect them to the resources they need to succeed.
- In 2017, you – as members of the Board of Trustees – increased the property tax exemption for homeowners over age 65 or for disabled persons by 38 percent. These homeowners will see a reduction in property taxes, which is a significant benefit, in 2018.
- The District laid the groundwork for the Dallas County Promise program, which was announced in late October 2017. This “last-dollar” program provides free tuition to graduating seniors from Dallas County who make the commitment to pursue a post-secondary certification or degree. In partnership with the DCCCD Foundation, the Dallas

A Letter from the Chancellor

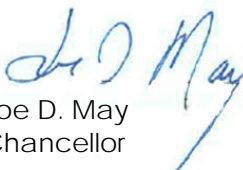

County Promise program will be open to high school seniors from the 31 early college high schools who are graduating in Spring 2018 for the program's first year. The number of high schools will expand as the program grows.

We will continue to build our higher education network; remove barriers to student success; and concentrate on providing training and courses in those programs that meet the needs of employers and businesses who are filling high-demand jobs. We will provide "higher education that actually gets you hired."

As I have mentioned on many occasions, the jobs and workforce of the future will all require some postsecondary education. DCCCD is a viable education partner with businesses and the communities we serve. We will continue to find ways to help students succeed, earn credentials that help them earn a living wage, and support their families and communities.

In closing, I want to thank you, as a member of our Board of Trustees, for your dedication and direction as well as our faculty and staff across the District who make a difference in the lives of our students. We will honor the past and continue to build for the future together.

Respectfully,

Joe D. May
Chancellor

Dallas County Community College District

December 5, 2017

To the Board of Trustees:

Respectfully submitted for your review is the comprehensive annual financial report for the Dallas County Community College District (“DCCCD”) for the fiscal years ended August 31, 2017 and 2016. The purpose of this report is to provide detailed information about the financial condition and performance of DCCCD. Management assumes full responsibility for the completeness and reliability of the information contained in this report based upon a comprehensive framework of internal controls. The objective of internal controls is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatement. The concept of reasonable assurance ensures that the costs of the controls do not exceed the benefits derived.

Comprehensive Annual Financial Report

DCCCD’s comprehensive annual financial report (CAFR) is prepared by the Business Affairs office in accordance with Generally Accepted Accounting Principles as established by the Governmental Accounting Standards Board (GASB) and complies with the Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges as set forth by the Texas Higher Education Coordinating Board (THECB). The Notes to the Financial Statements are considered essential to fair presentation and adequate disclosure for this financial report. The Notes are treated as an integral part of the financial statements and should be read in conjunction with them. Additionally, attention should be given to Management’s Discussion and Analysis that provides the reader with a narrative introduction, overview, and analysis of the financial statements.

Reporting Entity

DCCCD is a special-purpose government engaged solely in business-type activities (BTA). In compliance with GASB Statements No. 34 and No. 35, this reporting model is intended to make government financial statements similar to corporate financial statements. It also serves to make the financial statements more comparable across organizations.

The Dallas County Community College District Foundation, Inc. (“Foundation”) has been discretely presented in DCCCD’s statements as a component unit by inclusion of the statements and footnotes of the Foundation in DCCCD’s statements and footnotes. Because the financial statements of the Foundation are presented in a different format from DCCCD and are incompatible with DCCCD’s financial statements, the Foundation’s financial statements are presented on separate pages from DCCCD’s financial statements. The Foundation is a non-profit organization established in 1973 with its sole purpose being to provide benefits such as scholarships and grants to DCCCD.

Richland Collegiate High School (“RCHS”) began its first full year of operations in the fiscal year ended August 31, 2007. RCHS was granted a charter by the Texas Education Agency (“TEA”) in October 2005. The Board of Trustees of DCCCD subsequently approved the charter in May 2006. RCHS receives state reimbursement based on average daily attendance. TEA requirements necessitate

tracking RCHS revenues and expenses separately from those of DCCCD. Because the high school contracts with the college for instructional and administrative services, the legal identity is the same as DCCCD. RCHS shares the same Board of Trustees with DCCCD and RCHS is included as an operating unit in DCCCD's financial statements. More information can be found in Note 25, including Statements of Net Position, Statements of Revenues, Expenses, and Changes in Net Position, Statements of Cash Flows, and other schedules.

Organization of DCCCD

In 1965, Dallas County voters created the Dallas County Junior College District and began operations at El Centro College in 1966 in downtown Dallas. Since then, DCCCD has expanded and is currently comprised of seven separately accredited colleges:

- El Centro College (1966)
- Eastfield College (1970)
- Mountain View College (1970)
- Richland College (1972)
- Cedar Valley College (1977)
- North Lake College (1977)
- Brookhaven College (1978)

A seven-member Board of Trustees is the governing body of DCCCD. The Trustees are elected from single member districts for staggered six year terms. The Chief Executive Officer of DCCCD is the Chancellor. The Chancellor's executive staff, comprised of the vice chancellors, general counsel, chief talent officer, chief financial officer, chief strategic initiatives officer, chief innovation officer, chief advancement officer, and college presidents, is responsible for the management and daily operation of DCCCD.

Mission and Values

The mission of DCCCD is to equip students for successful living and responsible citizenship in a rapidly changing local, national and world community. Our purpose is to ensure that Dallas is vibrant, growing and economically stable for future generations. The Board of Trustees has established the thematic priorities of:

- Employee Success
- Student Success
- Community Engagement
- Institutional Effectiveness

The Board has developed strategic priorities and initiatives that engage and impact individuals, communities, business sectors, employers, and organizations within each of the thematic priorities.

Together, our colleges enroll more undergraduate (freshman and sophomore) students than any other college, university or community college system in the state of Texas. Since 1965, we have served more than 3 million students by providing:

- the first two years of a bachelor's degree
- more than 100 high-demand career programs
- enrichment and certification classes for a lifetime of learning
- professors who are dedicated to student success, not a research grant
- unparalleled quality at a tuition that students can afford

Our student population is 24.9 percent Anglo, 37.1 percent Hispanic, 24.8 percent African-American, 8.0 percent Asian, and 5.2 percent all others combined. DCCCD's workforce is becoming increasingly diverse: 51.1 percent Anglo, 15.1 percent Hispanic, 23.5 percent African-American, 7.3 percent Asian, and 3.0 percent all others combined.

Economic Conditions and Outlook

Other than Federal grants used for scholarships, DCCCD has three main sources of revenue:

- Ad Valorem Taxes – increased by \$21.2 million due to the taxable assessed value increasing by 9.7%. The maintenance and operations tax rate remained unchanged.
- Tuition and Fees – increased by \$4.1 million due to increased enrollments.
- State Appropriations – increased by \$2.5 million due mainly to an increase in state benefit funding and a small increase in instructional funding.

Taxable property values increased by 9.7% in fiscal year 2017 driven primarily by commercial and business personal property increases, especially in the central business district of Dallas.

The Board approved a \$7 per credit hour increase in the In-District tuition effective with the Spring 2015 semester. Out-of-District, Out-of-State and Out-of-Country tuition rates were also increased. This investment will provide funds necessary to improve the students' learning experience and the Board's strategic initiatives.

In fiscal year 2017, the credit student headcount increased by approximately 3.1% while continuing education headcount decreased by 2.8%. DCCCD expects that enrollments will increase in fiscal year 2018 and in future years as the District invests in dual credit programs, workforce initiatives, and targets non-consumer markets.

The State legislature completed the budget process for the 2016-2017 biennium and overall Texas Community Colleges had a slight decrease in the amount of funding for instructional expenses but an increase in employee benefit funding. For fiscal year 2017, the second half of the biennium, DCCCD had an increase in total State Appropriations mainly due to the state's group benefit funding.

Operating expenses increased \$17.1 million in fiscal year 2017 due largely to the addition of new full-time positions specifically in Safety and Security personnel, a 3% salary increase, and increases in instructional and facilities spending.

Moody's Investors Service, Inc., Standard & Poor's Rating Services, and Fitch Ratings have all reaffirmed their AAA rating on DCCCD's General Obligation bonds and the AA rating on our Revenue bonds in recent years. In 2017, the Board of Trustees approved a debt management policy.

Financial Planning and Budgeting

DCCCD's financial planning is comprised of three planning processes for all seven colleges and District operations:

- Strategic Plan
- Facilities Master Plan
- Annual Budget, including three-year projections

The annual budget process uses an allocation method based largely on three factors:

- Revenues from tuition and state appropriations
- Performance funding based on strategic initiatives
- Facility operations based on building square footage.

Each college receives a lump-sum budget allocation, based on total forecasted revenues, that is used to develop the college departmental budgets. This allocation, together with the colleges' fund balances, makes up the total available resources for each college's budget. Each college is responsible for the development and control of the college's budget, expenditures, and fund balance. District-wide initiatives are budgeted at the District level and then transferred to each college as necessary. The Board of Trustees approves an operating budget and college level budget each fiscal year including any revisions. The Board of Trustees is given updates at least semi-annually on the three-year projections of revenues and expenditures.

The Facilities Master Plan is developed on a rolling five-year basis and presented to the Board of Trustees. Currently, each college is finalizing their new master plans for presentation to the Board of Trustees during fiscal year 2018.

Major Initiatives

The Board approved two major facility initiatives in fiscal year 2012:

- \$86 million repair and restoration program to be funded from operations over the next 5-6 years. Approximately \$16 million is dedicated each fiscal year to complete the projects on a priority basis. Continuing through fiscal 2019.
- \$12 million ADA upgrade program completed in 2016.

The Board also approved Labor Market Alignment strategies in fiscal year 2017 to fund high-demand educational programs in the Dallas area, a free pass for students on DART (Dallas Area Rapid Transit), and upgrades to Safety and Security including centralization of the police force.

Independent Audit

State statute requires an annual audit by independent certified public accountants. The purpose of an independent audit is to provide assurance, based on independent review and testing, that the basic financial statements and accompanying notes are fairly stated in all material respects. The independent firm of certified public accountants of Grant Thornton LLP was selected by DCCCD's Board of Trustees starting in fiscal year 2015. In addition to meeting the state statute requirements, the audit is designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related Uniform Guidance and the state of Texas single audit related to the Uniform Grant Management and Standards Single Audit Circular. The auditors' report related specifically to the single audit is included in the Required Schedules for Federal and State Single Audit in the Required Supplementary Information section of DCCCD's comprehensive annual financial report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to DCCCD for its comprehensive annual financial report for the fiscal year ended August 31, 2016, for the fifth consecutive year. In

order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy generally accepted accounting principles and all applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our comprehensive annual financial report for the fiscal year ended August 31, 2017 continues to meet the Certificate of Achievement program's requirements and we will be submitting it to the GFOA to determine its eligibility for another certificate.

Financial Transparency

The District continues to provide financial information on its website <http://www.dcccd.edu> through the "Financial Transparency" link on the homepage. The site includes current and historical data for budgets, audited annual financial reports, check registers, bonds, and property tax information.

Acknowledgements

The staff thanks the Board of Trustees for their integrity, interest, and insight concerning the fiscal operations of DCCCD. Also, we wish to thank the Chancellor and the Chancellor's executive staff for their responsible fiscal approach. The timely completion of this report was made possible by the dedication and hard work of the entire Business Affairs staff. We would also like to thank the accounting firm of Grant Thornton LLP for their experience and dedication in completion of this report.

Report on the financial statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of the Dallas County Community College District (the "District") as of and for the years ended August 31, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the discretely presented component unit were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the District as of August 31, 2017 and 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other matters

Required supplementary information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 16 through 29 and the Required Supplementary Information on pages 102 through 106, be presented to supplement the financial statements. Such information, although not a required part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. This required supplementary information is the responsibility of management. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America. These limited procedures consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Expenditures of Federal Awards and the Schedule of Expenditures of State Awards for the year ended August 31, 2017, as required by Title 2 *U.S. Code of Federal Regulations (CFR) Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and the State of Texas *Uniform Grant Management Standards* on pages 118 through 128, and the Texas Higher Education Coordinating Board ("THECB") supplemental schedules on pages 109 through 112, are presented for purposes of additional analysis and are not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other information

The introductory section and statistical section on pages 2 through 10 and on pages 140 through 161, respectively, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Summary of Revenues and Expenses and the Analysis of Unrestricted Net Position Components and Other Financial Stability Indicators of the Individual Colleges and the Central Administration of the District on pages 136 through 138 are presented for purpose of additional analysis as required by the Southern Association of Colleges and Schools. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other reporting required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report, dated December 5, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016

(UNAUDITED)

Management's discussion and analysis of the annual financial statements of the Dallas County Community College District ("DCCCD") is designed to help readers understand some of the conditions and events contributing to the current financial position of DCCCD as well as to point out trends and changes in the results of operations. Please read it in conjunction with the Chancellor's letter, the transmittal letter, DCCCD's basic financial statements, and notes to the financial statements. Responsibility for the completeness and fairness of this information rests with DCCCD. For purposes of the summary and discussion, the terms "2017", "2016" and "2015" refer to fiscal years ended August 31, 2017, August 31, 2016, and August 31, 2015, respectively.

FINANCIAL HIGHLIGHTS FOR 2017

- Total assets for 2017 were \$1,069.6 million, increasing by \$19.0 million from 2016 due to increases in cash that was held in investment pools. Total liabilities were \$452.5 million, a decrease of \$42.2 million due to the refunding of bonds combined with reductions in accounts payable and net pension liability. Deferred outflows were \$29.0 million and deferred inflows were \$24.2 million.
- Net position at August 31, 2017 was \$621.9 million, of which, \$251.6 million was unrestricted and may be used to meet DCCCD's ongoing obligations.
- Operating revenues were \$109.7 million, up \$3.1 million and operating expenses were \$497.1 million, up \$17.1 million primarily due to compensation increases. Net non-operating revenues were \$440.5 million, for an increase of \$17.5 million primarily attributed to increases in ad valorem tax revenue.
- Total bond payments for 2017 decreased \$7.9 million. General Obligation bond payments increased by \$7.6 million for 2017 due to the advance refunding of \$64.1 million of the Series 2009 General Obligation Bonds offset by a decrease of \$15.5 million on the defeased Revenue bonds.

OVERVIEW OF FINANCIAL STATEMENTS

While the Financial Statements are reported as a unit, DCCCD is comprised of seven separately accredited colleges:

- El Centro College (1966)
- Eastfield College (1970)
- Mountain View College (1970)
- Richland College (1972)
- Cedar Valley College (1977)
- North Lake College (1977)
- Brookhaven College (1978)

Supplemental financial reporting and analysis on the colleges and district operations is included in these Financial Statements for informational purposes.

DCCCD qualifies as a special-purpose government engaged in business-type activities according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial*

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

(UNAUDITED)

Reporting Entity: Omnibus-An Amendment of GASB Statements No. 14 and No. 34, and the financial statements are prepared on that basis. The resulting financial statement format focuses on DCCCD as a whole. The basic financial statements are designed to emulate the corporate presentation model whereby DCCCD's fiscal activities are consolidated into one column total. Comparative data from the prior year is shown in a separate column on the face of each of the statements.

The financial position is presented as of August 31, 2017 and 2016 and consists of three primary statements: Statements of Net Position; Statements of Revenues, Expenses, and Changes in Net Position; and Statements of Cash Flows. As required by GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, an accrual basis of accounting is employed. This means that transactions are recorded as incurred rather than when cash changes hands.

The Dallas County Community College District Foundation, Inc. (the "Foundation") has been discretely presented in DCCCD's financial statements as a component unit by inclusion of the statements and Notes of the Foundation in DCCCD's statements and Notes per GASB Statement No. 61, *The Financial Reporting Entity: Omnibus-An Amendment of GASB Statements No. 14 and No. 34*. Because the financial statements of the Foundation are presented in a different format from DCCCD and are incompatible with DCCCD's financial statements, the Foundation's financial statements are presented on separate pages from DCCCD's financial statements. The Foundation is a non-profit organization established in 1973 with its sole purpose being to provide benefits such as scholarships and grants to DCCCD.

The Richland Collegiate High School ("RCHS") is operated by DCCCD under a charter issued by the Texas Education Agency ("TEA") in October 2005 and approved by the Board of Trustees of DCCCD in 2006. While RCHS receives state reimbursement based on average daily student attendance, DCCCD receives state funding based on the class contact hours. Because RCHS is not a separately incorporated entity and functions as an operating unit of DCCCD, the legal identity of RCHS is the same as DCCCD. In accordance with TEA's requirement for separate financial reporting for the charter school's activities, more information about RCHS can be found in Note 25, including separate Statements of Net Position, Statements of Revenues, Expenses, and Changes in Net Position, Statements of Cash Flows, and other schedules.

Statements of Net Position

The focus of the Statements of Net Position is to illustrate the financial position at a point in time. These statements present the current financial resources (short-term spendable assets) along with assets planned to be held for more than a year. It also shows amounts owed against those assets and reveals the amount of remaining net position available to DCCCD for further endeavors. In order to show the trends for the two years presented in the Statements of Net Position, a summary of three years of data for the fiscal years ended August 31, 2015 through 2017 is presented in Table 1 below.

Changes in Assets

Current assets increased by \$47.3 million in 2017 compared to 2016 as a result of an increase in cash of \$81 million due to an increase in investment pool balances; offset by decreases in commercial paper of \$20 million and accounts receivable of \$15 million, due to a decrease in Federal grants receivables. Long-term investments decreased \$22.6 million due to securities called in July and August of 2017, and the proceeds were held in investment pools.

Change in Deferred Outflows

Deferred outflows on the loss of bond refunding increased \$0.9 million for 2017 due to the advance refunding of the Series 2009 General Obligation bonds and a decrease of \$4.7 million related to the pension liability future expense.

Changes in Liabilities

Current liabilities increased by \$8.5 million in 2017 due to an increase in current bonds payable as a result of the advanced refunding of the Series 2009 General Obligation bonds.

Non-current liabilities decreased by \$50.7 million in 2017, as long-term bonds decreased by \$39.0 million, attributable to the advance refunding and net pension liability decreased \$11.7 million.

Changes in Deferred Inflows

Deferred Inflows increased \$4.2 million due to pension liability future contributions.

Changes in Net Position

At August 31, 2017, the difference in assets and liabilities was \$621.9 million. While at August 31, 2016, the difference was \$568.7 million, an increase of \$53.2 million. The beginning Net Position for 2015 was restated as DCCCD implemented GASB Statement No. 68.

Statements of Revenues, Expenses, and Changes in Net Position

The Statements of Revenues, Expenses, and Changes in Net Position presents the operating results, as well as non-operating revenues and expenses. Of the three main sources of revenue — ad valorem taxes, state appropriations, and tuition — only tuition represents an exchange for services. Taxes and state appropriations represent non-exchange transactions and thus are considered non-operating revenues. This approach to presenting revenues and expenses is intended to summarize and simplify the user's analysis of the various services offered to students and the public. Depending on whether revenues or expenses are greater for the year, a net increase or net decrease in net position is created. The ending balances of net position on these statements agree with those shown on the Statements of Net Position (Exhibit 1). Results of operations and non-operating activities are summarized in Table 2 on the following page, which was prepared from the Statements of Revenues, Expenses, and Changes in Net Position (Exhibit 2).

Operating Revenues

The two major sources of operating revenues are tuition and various grants and contracts. Tuition revenue is reported net of discounts for tuition paid by various federal, state and local grants, including those associated with the Title IV Higher Education Administration Program. Additionally, state mandated or locally approved remissions and exemptions are reported as discounts against tuition. Tuition increased by \$4.1 million in 2017 due mainly to increased enrollments. Overall, credit student enrollments are up 3.2% from 2016 and continuing education decreased slightly. Grants and contracts provided 27.5% of operating revenue for 2017, which is down slightly compared to 2016. Auxiliary revenues, bookstore commissions, vending and food service providers, were flat in 2017. In 2016, the District reduced textbook commissions to zero to reduce the cost of textbooks to students by approximately 13%.

Non-Operating Revenues

State appropriations increased for 2017 by \$2.5 million. Instructional related state funding and special items increased slightly with the majority of the increase from state group benefit funding and RCHS.

Ad Valorem Tax revenue, net of collection fees and bad debt, increased in 2017 by \$21.2 million as the taxable assessed value increased 9.7% and the rate for maintenance and operations (M&O) was maintained at \$0.104 per \$100 valuation. Ad Valorem Tax revenue is the DCCCD's primary funding source in all three fiscal years shown, representing over half of the total non-operating revenues. Investment income decreased by \$0.2 million in 2017 over 2016 as the District continued to invest in shorter term investments with lower returns.

Federal revenue was \$70.9 million, a decrease of \$2.3 million from 2016 as fewer students qualified due to the effect of changes in Title IV grants (Pell).

DCCCD transferred the endowment balance and related revenue for a Quasi-endowment fund to the Foundation. The total amount transferred was \$6.2 million and is included in Non-Operating Revenue (Expense).

Revenues by Source

Generally accepted accounting principles, promulgated by GASB, prohibit reporting state appropriations and ad valorem tax revenues — two major sources of revenue — as operating revenue, on the basis that each represents revenue from non-exchange transactions. Accordingly, state appropriations and revenues recognized from ad valorem taxation are reported as non-operating revenues. This results in reporting large operating losses which are significantly decreased after inclusion of these non-operating revenues and others that really are intended to contribute to operations. State appropriations are restricted by law to be used only for the educational and general expenses of DCCCD, its prime operations. Ad valorem tax revenues are broken into two types: those for maintenance and operations and those for debt service. The maintenance and operations portion is specifically designed to apply to operations, although a portion can be used for paying the debt service on maintenance tax notes. The debt service portion is restricted to pay the principal, interest, and other costs associated with tax backed bonds (General Obligation bonds). Interest revenue is obtained through pooled investments, a large portion of which is attributable to operations. Also,

federal financial aid is classified as non-operating revenue by GASB even though the portion that relates to tuition is required to be reported as a tuition discount against operations.

All revenues, both operating and non-operating, are presented on the following page in Table 3 and a graph of Revenue by Source (Figure 1).

Operating Expenses

Total Operating Expenses were \$497.1 million in 2017 and \$480 million in 2016 for an increase of \$17.1 million due largely to employees' salary increases of approximately 3% offset by a decrease in Scholarships as fewer students qualified for Title IV grants and an increase in Institutional Support due to increased central services and district-wide initiatives.

Operating Expenses are presented in two formats: Natural Classification and Functional Classification. The Natural Classification is intended to show "what" the dollars were spent on and the Functional Classification shows "who" spent the dollars.

Natural Classification

In 2017, salary expense increased as the Board of Trustees approved employee salary increases. Salaries increased \$11.5 million over 2016. Benefits increased in 2017 due to the effect of the salary increases on variable benefits and an increase in the rates of health benefits. As a percentage of salary expenses, benefits were 23.4% in 2017, 24.0% in 2016, and 23.4% in 2015. Supplies and Services increased due to educational initiatives and increased maintenance projects. See Table 4 and Figure 2.

Functional Classification

As would be expected, the bulk of operating expenses are for instruction, which increased \$8.9 million in 2017 as compared to 2016 with the salary increases accounting for the majority of the increase. The same is true for the other functional classifications as employee expense is the largest single type of expense. Institutional support increased due to new safety and security initiatives approved by the Board. Operation and maintenance of plant increased \$4.8 million due to improvements to buildings. Depreciation decreased \$1.9 million, the same as previous years. See Table 5 and Figure 3.

The Foundation

As required when meeting the criteria delineated in GASB Statement No. 61, DCCCD began including the statements of the Foundation starting in fiscal year ended August 31, 2004. For the fiscal year ended August 31, 2017, the Foundation's net assets were \$52.7 million, an amount that represents 9.3% of DCCCD's net position for the same period. For the fiscal year ended August 31, 2016, the Foundation's net assets were \$43.1 million, which represents 8.3% of DCCCD's net position for the same fiscal year. The income from the Foundation is partially used to fund scholarships and grants for the students and employees of DCCCD. However, most of the Foundation's net assets are permanently restricted and therefore not available for DCCCD's direct use. Permanently restricted net assets of the Foundation were \$32.8 million and \$27.2 million for the fiscal years ended August 31, 2017 and 2016, respectively.

Statements of Cash Flows

The Statements of Cash Flows combines information from the Statements of Net Position and the Statements of Revenues, Expenses, and Changes in Net Position to illustrate the effect of various actions of DCCCD on the availability and ultimate change in the amount of cash from one year to the next. The cash provided or used by operations, capital and non-capital financing, and investing activities combine to show the net change in cash and cash equivalents. The final portion of the Statements of Cash Flows reconciles the net loss from operations to the cash used by operating activities.

Cash Flows from Operating Activities decreased \$5.7 million primarily attributable to increases in payments to vendors and employees. Cash Flows from Non-Capital Financing Activities increased \$22.0 million due mainly to the increase in ad valorem taxes offset by the transfer of the quasi-endowment to the Foundation. Cash Flows from Capital and Related Financing Activities decreased \$9.4 million due to decreases in debt service due to refinancing activities. Cash Flows from Investing Activities increased \$52.0 million as securities matured and were reinvested in investment pools.

Capital Asset and Debt Administration

For the fiscal year ended August 31, 2017, net capital assets decreased by \$5.6 million. Since 2013, DCCCD has dedicated \$16 million a year for deferred maintenance projects. Some of these are capitalized and are shown as additions to Buildings and Improvements. More information on Capital Assets can be found in Note 5 and Notes 6-10 for Long-Term Debt activity.

In July, 2017, DCCCD advanced refunded \$64,105,000 of its outstanding Series 2009 General Obligation bonds by issuing Series 2017 General Obligation Refunding Bonds, reducing future debt service by \$15.6 million.

In June, 2016, DCCCD defeased all of the outstanding Revenue bonds and issued Series 2016 General Obligation Refunding Bonds to refund \$122.4 million of the Series 2008 General Obligation Bonds. The defeasance of the Revenue bonds, paid from operating reserves, will save the District over \$2.9 million in future debt service and the Advance Refunding General Obligation bonds will save \$28 million. Total general bonded debt service per capita decreased to \$102 in 2017 from \$115 in 2016.

Standard & Poor's Rating Services, Moody's Investors Service, Inc., and Fitch Ratings all assigned their highest credit rating of "AAA" for the District's General Obligation bonds. Some of the reasons cited for the rating were (1) a strong tax base, (2) flexible revenue sources, and (3) strong fiscal management. There are only a handful of community colleges in the country that have the highest rating from all three rating agencies. Fitch Ratings, Moody's and Standard & Poor's reaffirmed their ratings in 2016.

Currently Known Facts, Decisions and Conditions

The certified tax assessed value increased for fiscal year 2018 by 6.9% and the Board approved the same maintenance and operations tax rate of \$0.104 per \$100 valuation. The debt service rate increased to \$0.020238 per \$100 valuation due to advanced refunding that accelerated the debt service.

In fiscal year 2018, DCCCD will start improvements to Information Technology infrastructure and Public Safety and Security at all locations. Also, a new Construction Technology building at North Lake College is currently under design. These capital improvements will require the issuance of revenue bonded debt in fiscal year 2018 or 2019.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO THE FINANCIAL STATEMENTS FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016

1. REPORTING ENTITY

The Dallas County Community College District (the "District") was established in 1965 in accordance with the laws of the State of Texas to serve the educational needs of Dallas County and the surrounding communities. The District is considered to be a special purpose, primary government involved in business-type activities in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 61, *The Financial Reporting Entity: Omnibus---An Amendment of GASB Statements No. 14 and No. 3*. While the District receives funding from local, state, and federal sources and must comply with the spending, reporting, and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

While the Financial Statements are reported as a unit, the District is comprised of seven separately accredited colleges:

- El Centro College (1966)
- Eastfield College (1970)
- Mountain View College (1970)
- Richland College (1972)
- Cedar Valley College (1977)
- North Lake College (1977)
- Brookhaven College (1978)

Financial reporting on the individual colleges and the District's central administration operations is included in the Financial Section, "Supplemental Financial Reporting by College."

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units, including the Dallas County Community College District Foundation, Inc. (the "Foundation"). The Foundation is a separate non-profit organization, and its sole purpose is to provide benefits such as scholarships and grants to the students, faculty and staff of the District, as well as raise money to support capital projects. The Foundation is a legally separate entity which does not provide a financial benefit or impose a financial burden on the District. The District does not appoint any of the Foundation's board members. The financial position and results of operations of the Foundation are included in these financial statements in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 61, *The Financial Reporting Entity: Omnibus---An Amendment of GASB Statements No. 14 and No. 34*, and Statement No. 39, *Determining Whether Certain Organizations Are Component Units - An Amendment of GASB Statement No. 14*, as an affiliated entity because the Foundation's sole function is to fund the District and its students. The complete financials of the Foundation are located on their website at: <http://www.foundation.dcccd.edu/financials> or request a copy by writing to: DCCCD Foundation, 1601 South Lamar St., Dallas, TX. 75215-1816.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Guidelines—The District is classified as a special-purpose government engaged in business-type activities. The Statements of Net Position display the financial position of the District at the end of each fiscal year and the Statements of Revenues, Expenses, and Changes in Net Position display the operations of the District for the fiscal years ended August 31, 2017 and 2016. The financial statements are prepared using the economic resources measurement focus and the full accrual method of accounting.

The significant accounting policies followed by the District in preparing these financial statements are in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). The accompanying financial statements also comply with the *Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges* established by the Texas Higher Education Coordinating Board (THECB). The District applies all applicable GASB pronouncements.

Budgetary Data—Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The District's Board of Trustees (the "Board") adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with THECB, Legislative Budget Board, Legislative Reference Library, and the Governor's Office of Budget and Planning by December 1.

Tuition Discounting

Texas Public Education Grant (TPEG)

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition revenue amounts on Schedule A as a separate amount (Texas Education Code §56.0333). When the award for tuition is used by the student, the amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Administration (HEA) Program Funds

Certain Title IV HEA Program funds are received by the District to pass through to students. These funds are initially received by the District and recorded as revenue. When the student is awarded these funds for tuition, the amount is recorded as a tuition discount. If the funds are disbursed directly to the student, the amount is recorded as a scholarship expense.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016

Other Tuition Discounts

The District awards certain tuition scholarships from institutional and grant funds to students who qualify. The District also applies certain State or District programs that provide full or partial tuition exemptions to students who qualify. When these amounts are transferred to the student for tuition, the amounts are recorded as tuition revenue and a corresponding amount is recorded as a tuition discount.

Basis of Accounting—The financial statements of the District have been prepared on the accrual basis, whereby all revenues are recorded when earned and expenses are recorded when they become a legal or contractual obligation to pay.

Cash and Cash Equivalents—The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments—In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair value is based on published market rates. Short-term investments consist of investments that have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase.

Inventories—Inventories consist of consumable office and physical plant supplies. Inventories are valued at cost under the first-in, first-out method and are charged to expenses as consumed.

Accrued Charges—Current accrued charges of \$21,199,364 and \$19,981,923 represent expenses for grants, scholarships, and fellowships related to the periods after August 31, 2017 and 2016, respectively.

The District defers and amortizes the production costs associated with instructional television programs and other related materials on a straight-line basis over the estimated useful life of such media, which ranges from two to five years. These materials are produced and used both internally for instruction and for lease by the District to other educational institutions. Aggregate deferred production costs, net of accumulated amortization, amounted to \$0 and \$127,936 at August 31, 2017 and 2016, respectively, and have been included in the accompanying Statements of Net Position as non-current accrued charges.

Capital Assets—Capital assets are stated at cost as the date of acquisition. Donated capital assets are stated at acquisition value in accordance with GASB Statement No. 72, defined as the price that would be paid to acquire an asset with equivalent service potential in an orderly market transaction at the acquisition date. The District reports depreciation under a single-line

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016

item as a business-type unit. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. Library materials purchased during the fiscal year in an aggregate amount of \$5,000 or more are subject to capitalization and depreciation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operating expenses in the year in which the expense is incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Equipment, furniture, telecommunications, and peripheral equipment apply depreciation on a half-month convention. A full-year convention is applied for buildings, facilities, land improvements, and library books. Estimated useful lives of capital assets are established according to the following:

Buildings	50 years
Facilities and other improvements	20 years
Library books	15 years
Furniture, machinery, vehicles, and other equipment	10 years
Major maintenance initiatives	10 years
Telecommunications and peripheral equipment	5 years

Pension—In the year ended August 31, 2015, the District implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. The District participates in the Teacher Retirement System of Texas (TRS) pension plan, a multi-employer cost sharing defined benefit pension plan with a special funding situation. The fiduciary net position of TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, pension expense, and information about assets, liabilities and additions to/deductions from TRS' fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Unearned Revenues—Tuition of \$43,975,272 and \$43,433,129 and federal, state and local grants of \$31,045,437 and \$30,909,144 have been reported by the District as unearned revenues at August 31, 2017 and 2016, respectively.

Deferred Outflows of Resources—The Statements of Net Position include a separate section for deferred outflows of resources, which represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense) until then. Governments are permitted only to report deferred outflows in circumstances specifically authorized by GASB. For fiscal years 2017 and 2016, the deferred loss on bond refunding and the future expense related to pension is presented as Deferred Outflows of Resources.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016

Deferred Inflows of Resources—The Statements of Net Position also include a section for deferred inflows of resources, which represents a consumption of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until then. Governments are permitted only to report deferred inflows in circumstances specifically authorized by GASB. For fiscal years 2017 and 2016, the Deferred Inflows of Resources were due to future revenues related to the pension.

Estimates—The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating and Non-Operating Revenues and Expenses Policy—The District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues are tuition and contracts and grants. Other Operating Revenues consist of a variety of miscellaneous revenues that include such items as payments for parking citations, room rental income, ticket sales, credit by exam income, and other miscellaneous income not applicable to any other category. The major non-operating revenues are state appropriations, property tax collections, and Title IV federal revenues not discounted against tuition. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The operations of the bookstore and food service are performed by a third party contracted by the District.

Use of Restricted Resources—The District's practice is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

Compensable Absences—The District's policy is to accrue employee annual leave as earned. Sick leave and extenuating circumstance leave is not accrued, as a terminated employee is not paid for accumulated balance of either.

Self-Insurance—The District is self-insured for a portion of workers' compensation losses. A liability has been recorded for the estimated amount of eventual loss which will be incurred on claims arising prior to the end of the fiscal year.

Prior Year Restatement—The college makes a prior year restatement, as necessary, in accordance with APB 20. The District restated the fiscal year 2016 Net Position to correct the classification of restricted funds.

3. AUTHORIZED INVESTMENTS

The Board has adopted a written investment policy for the investment of its funds as defined in the Public Funds Investment Act (PFIA) of 1995, Section 2256.005 of the Texas Government Code, as amended. This policy is reviewed and approved by the Board annually.

The College District may make investments only in the following types of instruments:

- Treasury bills, treasury notes, and treasury bonds of the United States and other direct obligations of the agencies and instrumentalities of the United States as permitted by Government Code 2256.009.
- Fully collateralized repurchase agreements and reverse repurchase agreements permitted by Government Code 2256.011.
- Certificates of deposit and share certificates that are fully guaranteed or insured by the FDIC, through an authorized broker/dealer, to one or more than one depository institution, as permitted by Government Code 2256.010.
- Public funds investment pools as permitted by Government Code 2256.016.
- A securities lending program as permitted by Government Code 2256.0115.
- No-load money market mutual funds as permitted by Government Code 2256.014.
- A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements established by Government Code 2256.015.
- Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than "AA" or its equivalent as permitted by Government Code 2256.009(a).
- Investments that are fully guaranteed or insured by the FDIC.
- Commercial paper with a maximum maturity of 181 days, rated A1/P1 by a nationally recognized rating agency.

Investment in any and all types of derivatives is prohibited.

4. DEPOSITS AND INVESTMENTS

Under the terms of a bank depository agreement, District bank deposits are to be fully insured at all times. The District maintains investment pools included in the Statements of Net Position as “Cash and Cash Equivalents” for those items with original maturities of 90 days or less, as “Short-term Investments” for those items with original maturities of 91 days to one year, and as “Long-term Investments” for those items with maturities of greater than one year.

Various restrictions on deposits and investments, including repurchase agreements, are imposed by statute and District policy. These restrictions are summarized below:

Deposits—Custodial credit risk for deposits is the risk that in the event of a bank failure, the District’s deposits may not be returned or the District will not be able to recover collateral securities in the possession of an outside party. All deposits with the depository bank of the District must be collateralized in an amount equal to at least 100% of the amount of uninsured collected funds. The collateral must be held by a third-party collateral bank in the name of the District or there may be a surety bond issued by a company mutually agreeable to the District and the depository.

The carrying amount of the District’s deposits with financial institutions as of August 31, 2017 was \$7,736,213, and the bank balance was \$11,718,482. The carrying amount of the District’s deposits with financial institutions as of August 31, 2016 was \$9,361,086, and the bank balance was \$10,565,946. At August 31, 2017 and 2016, all of the District’s non-interest bearing deposits with banks were either insured by FDIC or were collateralized with securities through third-party agreements.

Cash and cash equivalents included on the Statements of Net Position consist of the following:

FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016**

Investments—Disclosures are presented in accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures - An Amendment of GASB Statement No. 3*. The District is authorized to invest in obligations and instruments as defined in applicable sections of the current Texas Education Code and the Public Funds Investment Act of 1995 (Chapter 2256, Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than “A” by a national investment rating firm, (4) certificates of deposit, (5) Commercial paper with maximum maturity of 181 days, and (6) other instruments and obligations authorized by statute. The investment policies of the District are governed by formally adopted procedures and allow investments as permitted under state laws for public institutions. Permissible investments under District policy include U.S. Treasury notes, certificates of deposit purchased from FDIC-insured state or nationally chartered U.S. banks, fully collateralized repurchase agreements and reverse repurchase agreements, investment pools, and securities issued by U.S. government agencies or municipalities.

At August 31, 2017 and 2016, long-term investments consisted of U.S. government and agency securities.

Investments made by the District are carried at fair value, defined as the price at which two willing parties would complete an exchange.

At August 31, 2017, the District had the following cash equivalents, investments, and maturities:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. As previously described, the District's investment policy limits credit risk based on meeting requirements of State law.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The District policy provides that investment maturities are limited to six years with the average maturity of no more than five years as a means of managing exposure to fair value losses arising from increasing interest rates. The District's philosophy is to hold all investments to their maturity.

Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The District's investment policy sets guidelines for the maximum percent of portfolio for any one type of investment. However, all of the District's investments are backed by the U.S. Government and are not subject to concentration of credit risk. Investment in U.S. Agency Securities, as the largest component of the portfolio, comprises 65.3% of the District's total portfolio at August 31, 2017 and meets the District's guideline of no more than 85% of the portfolio being in U.S. Agency Securities.

TexPool represents an investment service authorized by the Texas Legislature and is under the direction of the State Comptroller. TexPool investments are subject to the same safety requirements maintained by the State Treasury for all state funds, including but not limited to compliance with the Public Funds Investment Act. The investment in TexPool plus accrued interest may be redeemed by the District at any time. TexPool is rated AAAM by Standard & Poor's. The District's investment in TexPool is included within cash and cash equivalents in the accompanying Statements of Net Position, as the investment is redeemable on demand.

Created in April 2002 through a contract among its participating governing units, TexSTAR is governed by a board of directors to provide for the joint investment of participants' public funds under their control and meets requirements under the Public Funds Investment Act. TexSTAR is rated AAAM by Standard & Poor's. Investments in TexSTAR plus accrued interest may be redeemed by the District at any time. Therefore, investments in TexSTAR are included within cash and cash equivalents in the accompanying Statements of Net Position.

Local Government Investment Cooperative (LOGIC) is managed by JP Morgan Chase and First Southwest Asset Management, Inc. in compliance with the Texas Public Funds Investment Act. LOGIC carries Standard & Poor's AAAM rating. In addition to investing in U.S. Treasury and Agency Securities, LOGIC provides additional diversification by investing in repurchase agreements and prime commercial paper. Investments in LOGIC are included within cash and cash equivalents in the accompanying Statements of Net Position.

Lone Star Investment Pool, managed by First Public, LLC., a subsidiary of Texas Association of School Boards, was created in 1991 with the goal of making the management of public funds

safer and easier. Lone Star maintains a Standard & Poor's AAA rating and only holds investments authorized under the Public Funds Investment Act. Investments in Lone Star are included within cash and cash equivalents in the accompanying Statements of Net Position.

Established in 1996, the Texas Cooperative Liquid Assets Securities System Trust (CLASS) was created as an investment pool for its participants and is administered by Public Trust Advisors, LLC with Wells Fargo Bank Texas N.A. as the custodian. Texas CLASS invests solely in securities which are permitted pursuant to the Texas Public Funds Investment Act and carries Standard & Poor's AAAM rating. Investments in Texas CLASS are included within cash and cash equivalents in the accompanying Statements of Net Position for 2016 only.

The Texas Term Local Government Investment Pool was created by and for Texas local governments to provide investment programs tailored to the needs of Texas public investors. Texas Term portfolios seek to provide these investors with safety, flexibility and competitive yields. Texas Term investments are designed to comply with all Texas statutes, including regulations for the allowable investment of public funds. Texas Term is rated AAAM by Standards & Poor's.

TexPool, TexSTAR, LOGIC, Lone Star, Texas CLASS, and Texas Term are not registered with the Securities & Exchange Commission (SEC) as investment companies but they operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. GASB Statement No. 31 allows 2a7-like pools to use amortized cost (which excludes unrealized gains and losses) rather than market value to report net positions to compute share price.

Derivatives are investment products which may be a security or a contract that derives its value from another security, currency, commodity, or index, regardless of the source of funds used. The investment policy of the District prohibits investments in derivative securities.

Fair Value of Financial Instruments

GASB Statement No. 72 regarding Fair Value Measurement and Application for financial reporting purposes categorizes financial instruments within three different levels of risk dependent upon the measurement of their fair value and pricing.

If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to their fair value measurement of the instrument. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the District can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016**

Because the District investments are restricted by Policy and State law to active secondary market, the *market approach* is being used for valuation. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities, or a group of assets and liabilities.

The *exit* or fair market prices used for U.S. Government Agencies' valuations of the portfolio are all Level 1 and represent unadjusted quoted prices in active markets for identical assets and liabilities that have been accessed at the measurement date. Commercial paper valuations are recorded at amortized cost. Level 2 inputs are utilized for valuations at the measurement date.

Fair Value Hierarchy of investments at August 31, 2017 and 2016 are:

	Fiscal Year 2017				Fiscal Year
	Level 1	Level 2	Level 3	Total	2016 Total

7. DEBT AND LEASE OBLIGATIONS

The District has authorized debt of General Obligation (GO) bonds only as the Revenue bonds were defeased in 2016. GO bonds are authorized by the Board and approved by the voters of the District's service area and secured by an ad valorem tax rate Interest & Sinking (I&S) portion to cover the debt service of the bonds. The following table shows the debt service for the GO bonds for the next five years and thereafter:

	<u>General Obligation Bonds</u>		<u>Total</u>

8. BONDS PAYABLE

Bonds payable are due in annual and semi-annual installments at interest rates ranging from 1.5% to 5.0% as well as different maturity dates through 2030. A chart of each bond issue is listed below.

Series	Bond Type	Bonds Issued to Date	Range of Interest Rates	Maturities		
				First Year	Last Year	First Call Date
2008	General Obligation Bonds	\$ 211,975,000	3.50%-5.00%	2009	2028	2/15/2019
2009	General Obligation Bonds	\$ 102,985,000	1.50%-5.00%	2010	2029	2/15/2020
2010	General Obligation Bonds	\$ 47,060,000	2.00%-5.00%	2011	2030	2/15/2020

On September 4, 2008, the District issued its second tranche of GO bonds approved by voters in the May 2004 \$450 million bond election. With a par amount of \$211,975,000, these bonds, Series 2008 Bonds, were sold with a reoffering premium of \$9,629,583 and accrued interest of \$983,667. The bonds were sold in \$5,000 increments with interest rates varying from 3.5% to 5.0% and maturity dates from February 15, 2009 to February 15, 2028. A call option can be exercised for maturities after February 15, 2019. The cost of issuance and underwriter's discount totaled \$1,513,305. Proceeds of the bond were utilized to refund the \$125,000,000 outstanding of commercial paper, which matured on September 4, 2008, the same day as the bond proceeds were received. Remaining bond proceeds of \$95,000,000 were utilized for constructing and equipping buildings in the District. The bonds were issued and the tax levied for their payment, pursuant to authority conferred by the Constitution and laws of the State of Texas. Part of these bonds were advance refunded in 2016 (See Advance Refunding Bonds Note 9).

On June 4, 2009, the District issued the third tranche of GO bonds, Series 2009 Bonds, for the \$450 million bond election. The Series 2009 Bonds have a par amount of \$102,985,000 and were sold with a reoffering premium of \$7,904,650 and accrued interest of \$439,704. The bonds were sold in \$5,000 increments with interest rates varying from 1.5% to 5.0% and maturity dates from February 15, 2010 to February 15, 2029. The cost of issuance and underwriter's discount totaled \$869,233. Proceeds of the bonds were utilized to continue the constructing and equipping of buildings in the District. The bonds were issued and the tax levied for their payment, pursuant to authority conferred by the Constitution and laws of the State of Texas. Part of these bonds were advance refunded in 2017 (See Advance Refunding Bonds Note 9).

On January 15, 2010, the District issued its fourth and final tranche of GO bonds, Series 2010 Bonds, for the \$450 million bond election. The Series 2010 Bonds have a par amount of \$47,060,000 and were sold with a reoffering premium of \$3,394,071. The bonds were sold in \$5,000 increments with interest rates varying from 2.0% to 5.0% and maturity dates from February 15, 2011 to February 15, 2030. The cost of issuance was \$158,879 and underwriter's discount was \$295,193. Proceeds of the bonds were utilized to continue the constructing and equipping of buildings in the District. The bonds were issued and the tax levied for their payment, pursuant to authority conferred by the Constitution and laws of the State of Texas.

9. ADVANCE REFUNDING BONDS

On December 15, 2006, the District advance refunded \$27,050,000 of its outstanding Series 2001 Bonds for maturities 2011 and later by issuing \$25,275,000 in Series 2006 Revenue Financing System Refunding Bonds ("Series 2006 Refunding Bonds"). All Series 2006 Refunding Bonds authorized have been issued to date. The average interest rate of the Series 2006 Refunding Bonds is 4.408% with a coupon range of 4.000-5.000%. After payment of \$413,578 in underwriting fees, insurance, and other issuance costs, all resources from the Series 2006 Refunding Bonds including transfers of \$2,965,199 of Series 2001 Bonds, debt service funds were used to purchase U.S. Government securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the refunded Series 2001 Bonds. The Series 2001 Bonds are considered fully defeased for maturities 2011 and later and the liability for those bonds has accordingly been removed from the Statements of Net Position. Advance refunding of the Series 2001 Bonds reduces the District's debt service payments by \$2,444,134. An economic gain (the difference between net present values of the debt service payments on the old and new debt adjusted for cash paid out) of \$1,208,966 was obtained by the advance refunding. At August 31, 2016, there was no liability for these bonds as the bonds were defeased during fiscal year 2016.

On June 1, 2010, the District advance refunded \$50,635,000 of its outstanding Series 2004 General Obligation Bonds ("Series 2004 Bonds") by issuing \$49,290,000 of Series 2010 General Obligation Refunding Bonds ("Series 2010 Refunding Bonds"). All Series 2010 Refunding Bonds authorized have been issued to date. The average interest rate of the refunded bonds is 5% as all remaining outstanding bonds were 5% interest. After payment of \$839,077 in issuance costs and underwriting fees, including issuance costs carried forward from the refunded bonds, net proceeds were \$55,099,048. Debt service funds were placed in an irrevocable trust with an escrow agent to provide for all future debt payments on the Series 2004 Bonds. The Series 2004 Bonds are considered fully defeased for maturities 2013 and later and the liability for those bonds has accordingly been removed from the Statements of Net Position. An economic gain of \$3,118,507 was obtained by the advance refunding. The accounting "loss" that resulted from the bond refunding is \$2,757,407 and is being amortized over the life of the new debt by the effective interest method.

On June 2, 2016, the District advance refunded \$131,580,000 of its outstanding Series 2008 General Obligation Bonds ("Series 2008 Bonds") by issuing \$122,415,000 of Series 2016 General Obligation Refunding Bonds ("Series 2016 Refunding Bonds"). All Series 2016 Refunding Bonds have been issued to date. The average interest rate is 1.603% with coupons of 3% or 5%. After payment of \$665,812 in underwriting fees and issuance costs, all resources from the Series 2016 Refunding Bonds, including a transfer of \$2,167,946 from prior issue debt service funds, were used to purchase U.S. Government securities. These were deposited in an irrevocable trust with an escrow agent for all future bond payments on the refunded Series 2008 Bonds. The Series 2008 Bonds that were refunded are considered fully defeased for maturities 2019 and later and the liability for those bonds have been removed from the Statements of Net Position. Advance Refunding of the Series 2008 Bonds reduces the District's debt service by \$28,302,750. An economic gain of \$22,580,683 was obtained by the advance refunding. The difference of the reacquisition price of the new debt and the net carrying amount of the defeased bonds resulted in a \$7,421,376 deferred outflow and is being amortized over the life of the new debt by the effective interest method.

On July 6, 2017, the District advance refunded \$64,105,000 of its outstanding Series 2009 General Obligation Bonds ("Series 2009 Bonds") by issuing \$60,665,000 of Series 2017 General Obligation Refunding Bonds ("Series 2017 Refunding Bonds"). All Series 2017 Refunding Bonds have been issued to date. The average interest rate is 1.780% with coupons of 3% or 5%. After payment of \$441,703 in underwriting fees and issuance costs, all resources from the Series 2017 Refunding Bonds, including a transfer of \$1,290,002 from prior issue debt service funds, were used to purchase U.S. Government securities. These were deposited in an irrevocable trust with an escrow agent for all future bond payments on the refunded Series 2009 Bonds. The Series 2009 Bonds that were refunded are considered fully defeased for maturities 2020 and later and the liability for those bonds have been removed from the Statements of Net Position. Advance Refunding of the Series 2009 Bonds reduces the District's debt service by \$15,619,702. An economic gain of \$10,541,225 was obtained by the advance refunding. The difference of the reacquisition price of the new debt and the net carrying amount of the defeased bonds resulted in a \$2,461,665 deferred outflow and is being amortized over the life of the new debt by the effective interest method.

11. EMPLOYEES' RETIREMENT PLAN

The State of Texas has joint contributory retirement plans for almost all its employees. Full-time employees participate in either the Teacher Retirement System of Texas (TRS) or the Optional Retirement System (ORP).

Teacher Retirement System of Texas – Defined Benefit Plan

Plan Description - The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by TRS. The TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position - Detailed information about the TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at http://www.trs.texas.gov/TRS%20Documents/cafr_2016.pdf ; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided - TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, whose formulas use the three highest annual salaries. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions - Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code Section 821.006 prohibits benefit improvements if, as a result of the particular action, the time

required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

<u>Contribution Rates</u>	<u>2017</u>	<u>2016</u>
Member rates	7.70%	7.20%
Non-employer contributing entity (State)	6.80%	6.80%
Employers	6.80%	6.80%
Fiscal Year 2016 Member contributions	\$4,258,872	
Fiscal Year 2016 State of Texas on-behalf contributions	\$5,976,228	
Fiscal Year 2016 District Contributions	\$4,596,819	

The District's contributions to the TRS pension plan Fiscal 2017 were \$6,499,645 as reported in the Schedule of District Contributions in the Required Supplementary Information section of these financial statements. Estimated State of Texas on-behalf contributions for fiscal year 2017 were \$4,705,346.

- As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

Public junior colleges or junior college districts are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016

- In addition to the employer contributions listed above, when employing a retiree of TRS, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions – The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation date	August 31, 2016
Actuarial cost method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Actuarial assumptions:	
Single discount rate	8.00%
Long-term expected investment rate of return	8.00%
Municipal bond rate*	N/A*
Last year ending August 31 in the 2016 to 2115 projection period (100 years)	2115
Inflation	2.50%
Salary increases	3.5% to 9.5% including inflation
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

* If a municipal bond rate was to be used, the rate would be 2.84% as of August 2016 (i.e. the weekly rate closest to but not later than the Measurement Date). The source for the rate is the Federal Reserve Statistical Release H.15, citing the Bond Buyer index of general obligation bonds with 20 years to maturity and an average AA credit rating.

Actuarial methods and assumptions were updated based on a study of actual experience for the four-year period ending August 31, 2014, and adopted on September 24, 2015, by the TRS Board of Trustees, who have sole authority to determine the actuarial assumptions used for the plan. There were no changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Discount Rate – The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016**

The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the District's target asset allocation as of August 31, 2017, are summarized in the following chart.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Geometric Real Rate of Return</u>	<u>Expected Contribution to Long-term Portfolio Returns</u>

FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016**

Discount Rate Sensitivity Analysis – The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1 percent less than and 1 percent greater than the discount rate that was used (8%) in measuring the 2016 Net Pension Liability.

	1% Decrease in Discount Rate (7.0%)	Discount Rate (8.0%)	1% Increase in Discount Rate (9.0%)
District's proportional share of the net pension liability	\$ 84,613,921	\$ 54,672,053	\$ 29,275,296

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At August 31, 2017, the District reported liability of \$54,672,053 for its proportional share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportional share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportional share of the collective net pension liability	\$ 54,672,053
State's proportional share that is associated with District	36,957,144
Total	\$ 91,629,197

The net pension liability was measured as of August 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 through August 31, 2016.

At the measurement date of August 31, 2016, the employer's proportion of the collective net pension liability was 0.1446790%, which was a decrease of 0.0432220% from its proportion measured as of August 31, 2015 (0.1879010%).

For the fiscal year ended August 31, 2017, the District recognized pension expense of \$7,361,559 and revenue of \$7,361,559 for support provided by the State. Refer to the fiscal year 2016 Schedule of On-Behalf Contributions for this information posted on the TRS website under GASB Statements No. 67 and 68.

Optional Retirement Plan – Defined Contribution Plan

Plan Description – Eligible faculty and administrative personnel may participate in an optional retirement plan in lieu of the Teacher Retirement System plan. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy – Contribution requirements are not actuarially determined but are established and amended by the Texas Legislature. In certain circumstances, the reporting district is required to make all or a portion of the State’s contribution amounts. Since these are individual annuity contracts, the State has no additional or unfunded liability for this program. Senate Bill 1812, effective September 1, 2013, limits the amount of the State’s contribution to 50% of eligible employees in the reporting district.

12. DEFERRED COMPENSATION PLAN

The District has established a deferred compensation plan under which selected executives may elect to defer a portion of their earnings for tax and investment purposes pursuant to authority granted in Government Code §609.001. For the fiscal years ended August 31, 2017 and 2016, the District had one employee participating in the program.

It is the opinion of the District's legal counsel that the District has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

13. COMPENSABLE ABSENCES

Full-time staff and administrators earn annual leave from one to two days per month. The policy of the District is that an employee may carry his or her accrued leave forward from one fiscal year to another fiscal year with a maximum number of 48 days. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed. Sick leave, which can be accumulated up to 66 days, is earned at the rate of one day per month. The policy of the District is to recognize the cost of sick leave when paid. Employees are not entitled to be paid for sick leave accrued but not taken upon termination. Accordingly, no liability for sick leave is reflected in the accompanying Statements of Net Position. The same applies to extenuating circumstance leave, which accrues at a rate of 2 days per year to a maximum of 4 days, and is not payable on termination.

14. HEALTH CARE AND LIFE INSURANCE BENEFITS

In addition to providing pension benefits, the State provides certain health care and life insurance benefits for retired employees. Almost all of the employees may become eligible for those benefits if they reach normal retirement age while working for the State. Those and similar benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The State recognizes the cost of providing these benefits by expending the annual insurance premiums.

15. POSTEMPLOYMENT BENEFIT PLANS OTHER THAN PENSIONS

Plan Description—The District contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit post-employment healthcare plan administered by the Employees Retirement System of Texas (ERS). These medical benefits are provided to retired employees of participating universities, community colleges, and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contribution provisions of the SRHP are authorized by State law and may be amended by the Texas Legislature. ERS issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained from ERS via their website at <http://www.ers.texas.gov>.

Funding Policy—Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution. The employer's share of the cost of retiree healthcare coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS Board of Trustees sets the employer contribution rate based on the implicit rate subsidy, which is actuarially determined in accordance with the parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for PostEmployment Benefits Other than Pensions*. The employer contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The District's contributions to the plan for the fiscal years ended August 31, 2017 and 2016 were \$24,009,509 and \$21,634,740 respectively, which equaled the required contributions each year.

16. COMMITMENTS AND CONTINGENCIES

Commitments—The District has entered into contracts for the planning and construction of new facilities, as well as for the renovation and repair of existing campuses within the District. Commitments remaining under such contracts at August 31, 2017 are \$5,817,868.

Pending Lawsuits and Claims—Various claims and lawsuits are pending against the District. In the opinion of District management, the potential loss on all claims and lawsuits, to the extent not provided for by insurance or otherwise, will not be significant to the financial statements of the District.

Contingencies—The District has received Federal, State, and other financial assistance in the form of contracts and grants that are subject to review and audit by the grantor agencies. Such audits could result in requests for reimbursement by the grantor agency for expenses disallowed under terms and conditions specified in the grant agreements. In the opinion of District management, such disallowed expenses, if any, will not be significant to the financial statements of the District.

On August 25, 2008, the District sold a building to the University of North Texas. A clause in the original deed requires that the District remain in the line of guarantors on two ground leases, which are in effect through 2047 and 2048. The probability of having to pay the ground leases is remote since the University of North Texas is the current owner and the District follows them or any future owners in the line of priority for the guarantee. The potential amount owed through the end of the leases is in excess of \$3.5 million. However, because the probability of having to pay is remote, the District has not accrued a liability.

Insurance Proceeds—In 2017 and 2016, the District received insurance proceeds for losses related to damage to two buildings. The amount of insurance proceeds did not exceed the cost of repairs in fiscal 2017 and 2016, respectively.

19. CONTRACTS AND GRANT AWARDS

Contracts and grant awards are accounted for in accordance with generally accepted accounting principles in the United States. Funds received but not expended during the reporting period are shown as deferred revenues on the Statements of Net Position. Revenues are recognized on the Statements of Revenues, Expenses, and Changes in Net Position as funds are actually expended. For Federal contract and grant awards, funds expended but not collected are reported as accounts receivables on the Statements of Net Position. Non-federal contract and grant awards for which funds are expended but not collected are also reported as accounts receivables on the Statements of Net Position. Contracts and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contracts and grant award funds already committed or funds awarded during fiscal years 2017 and 2016 for which monies have not been received nor funds expended totaled \$55,168,643 and \$48,685,801, respectively.

These amounts are comprised of the following:

<u>Contracts and Grant Awards</u>	<u>2017</u>	<u>2016</u>
Federal	\$ 41,138,251	\$ 39,103,248
State	13,623,087	8,241,149

20. SELF-INSURED PLANS

The District is exposed to various risks of loss related torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District fully insures its buildings, structures, contents, and equipment with the purchase of commercial property insurance and also procures general and excess liability insurance and auto coverages. Insurance claims settled with the District's carriers during fiscal years ended August 31, 2017 and 2016 did not exceed insurance coverages.

Prior to August 31, 1998, the District was self-insured for workers' compensation. Effective September 1, 1998, the District implemented a guaranteed cost workers' compensation insurance program to handle workers' compensation claims. The District returned to a self-insured plan effective September 1, 2002. The accrued liability balance is based upon third party actuarial information. Future payments for the incurred claims will be paid from the accrued liability.

Self-insurance activity for the plan prior to 1998 for the fiscal years ended August 31, 2017 and 2016 was as follows:

Accrued Claim Liability for the Fiscal Year Ended August 31	Balance September 1	Additions	Reductions in Liability/ Claims Paid	Balance August 31
2017	\$ 244,361	\$ -	\$ -	\$ 244,361

21. AD VALOREM TAX

Taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent February 1 of the following year. Taxes levied for the fiscal years ended August 31, 2017 and 2016 were \$266,592,759 and \$244,302,623, respectively (which includes any penalties and interest assessed, if applicable).

Tax rates for the fiscal years ended August 31, 2017 and 2016 are as follows:

	2017		
	Current Operations	Debt Service	Total
Authorized tax rate per \$100 valuation (Maximum per enabling legislation)	\$ 0.16000	\$ 0.50000	\$ 0.66000

Assessed tax rate per \$100 valuation	\$ 0.10400	\$ 0.01965	\$ 0.12365

At August 31, 2017 and 2016 certified valuation for property taxed by the District was as follows:

	2017	2016
Assessed valuation of DCCCD	\$ 271,612,210,010	\$ 246,799,391,250
Less exempt property	24,971,705,980	23,738,621,211
Less exemptions and Capped Loss	30,112,527,039	25,781,439,167
Net assessed valuation of DCCCD	\$ 216,527,976,991	\$ 197,279,330,872

The Dallas County Tax Assessor-Collector is the Collecting Agency for the levy and remits the collections to the District, net of a collection fee. Tax proceeds are used for either maintenance and operations of the District or restricted for the funding interest and sinking requirements for GO bond debt service.

Tax collections for the fiscal years ended August 31, 2017 and 2016 were approximately 99% of the current tax levy for both years. Allowances for uncollectible taxes (See Note 4) are based upon historical experience in collecting ad valorem taxes.

Under GASB Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*, ad valorem taxes are imposed non-exchange revenue. Assets from imposed non-exchange transactions are recorded when the entity has an enforceable legal claim to the asset or when the entity receives resources, whichever comes first. The enforceable legal claim date for ad valorem taxes is the assessment date. Accordingly, the District has recognized all assessed taxes in the current year and recorded a receivable for uncollected taxes.

**DALLAS COUNTY COMMUNITY COLLEGE DISTRICT FOUNDATION, INC. —
DISCRETELY PRESENTED COMPONENT UNIT**

Dallas County Community College District Foundation, Inc. (the "Foundation") was established as a separate non-profit organization in 1973 to raise funds to provide student scholarships and assistance in the development and growth of the District. Under GASB Statement No. 61, *The Financial Reporting Entity: Omnibus---An Amendment of GASB Statements No. 14 and No. 34*, and Statement No. 39, *Determining Whether Certain Organizations Are Component Units - An Amendment of GASB Statement No. 14*, an organization should report as a discretely presented component unit those organizations that raise and hold economic resources for the direct benefit of a government unit. Accordingly, the Foundation's financial statements are included in the District's comprehensive annual financial report as a discretely presented component unit as Exhibit 1A – Statements of Financial Position and Exhibit 2A – Statements of Activities for August 31, 2017 and 2016.

NOTES TO FINANCIAL STATEMENTS

August 31, 2017 and 2016

NOTE A - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Dallas County Community College District Foundation, Inc. (the "Foundation") is a nonprofit organization established in 1973. The Foundation's purpose is to provide financial support such as scholarships and grants to the Dallas County Community College District (the "District"), and to the students, faculty, and staff of the District's seven colleges, and R. Jan LeCroy Center for Educational Telecommunications.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting. The Foundation reports information regarding its financial position and activities according to three classes of net assets:

- **Unrestricted Net Assets** – Net assets that are not subject to donor-imposed restrictions and may be used for any operating purpose of the Foundation.
- **Temporarily Restricted Net Assets** – Net assets that are subject to donor-imposed stipulations that require the passage of time and/or the occurrence of a specific event, for them to be used.
- **Permanently Restricted Net Assets** – Net assets required to be maintained permanently, with only the income used for operating activities, due to donor-imposed restrictions.

Reclassifications

Certain reclassifications between cash equivalents and investments have been made to the prior year's balances to conform to the current period presentation. These reclassifications have no effect on previously reported changes in net assets or net asset classes.

Cash and Cash Equivalents

Cash and cash equivalents include all cash in banks and investments that are available for current use with maturity dates of less than three months from the date of acquisition. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

NOTES TO FINANCIAL STATEMENTS

August 31, 2017 and 2016

NOTE A - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statements of financial position. Fixed income securities and mutual funds are measured at net asset value (NAV). In accordance with FASB ASC Topic 820, *Fair Value Measurements*, certain investments that were measured at NAV have not been classified in the fair value hierarchy. Realized and unrealized gains and losses are reported in the statements of activities.

Investment managers manage the Foundation's investments in a manner consistent with the investment goals and policies established by the Foundation's Board of Directors.

Revenue Recognition

The Foundation records contributions received as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions.

Contributions are recognized as revenues in the period unconditional promises to give are received by the Foundation. Conditional promises to give are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted using the risk-free rate as of the date the unconditional promise to give was received by the Foundation. Amortization of discounts is recorded as additional contributions in accordance with donor-imposed restrictions, if any, on the contributions. An allowance for uncollectible receivables is provided based upon management's judgment including such factors as prior collection history, type of contribution and nature of fund-raising activity. Amounts deemed by management to be uncollectible are charged to expenses. Recoveries on receivables previously charged-off are credited to expenses. Management believes that all outstanding pledges are collectible and no allowance is necessary as of August 31, 2017 and 2016.

Interest income is recognized on the accrual basis. Dividends are recorded on the ex-dividend date.

Federal Income Taxes

The Foundation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code (the Code) of 1986, as amended, as an organization described in Section 501(c)(3) of the Code. Income generated from activities unrelated to the Foundation's exempt purpose is subject to tax under Section 511 of the Code. The Foundation did not conduct any unrelated business activities in fiscal years 2017 and 2016. Contributions to the Foundation are tax deductible within the limitations prescribed by the Code. The Foundation has also been classified as a publicly-supported organization which is not a private foundation under Section 509(a) of the Code. The Federal income tax returns, Form 990, filed by the Foundation are subject to routine examinations generally for three years after they are filed. The Foundation is current with the filing of Form 990 and there are no current examinations in progress.

NOTES TO FINANCIAL STATEMENTS

August 31, 2017 and 2016

NOTE A - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates included in the financial statements are (a) present values of contributions receivable expected to be received beyond one year, and (b) the valuation of the investments at fair value.

NOTE B - INVESTMENTS

Investments are composed of the following as of August 31:

	2017		2016	
	Cost	Fair value	Cost	Fair value
Fixed income securities	\$ 3,146,445	\$ 5,349,709	\$ 3,158,250	\$ 5,334,768
Equity investments	5,788,020	7,133,150	5,203,289	6,119,408
Mutual funds	21,408,303	25,574,108	20,906,194	22,752,272
Certificates of Deposit	1,500,000	1,498,305	1,500,000	1,500,075
U.S. Treasury Bills	495,995	497,350	499,670	499,720
Total Investments	\$32,338,763	\$40,052,622	\$31,267,403	\$36,206,243

Investment securities are exposed to various risks, such as interest rate, custodial and market credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term, and that such changes could significantly affect the amounts reported in the financial statements. Certificates of Deposit and U.S Treasury Bills are classified as investments due to their maturity dates at the time of purchase. The maturity dates exceed the three month period that determines how cash equivalents are defined.

For the years ended August 31, 2017 and 2016, the components of investment earnings are:

	2017	2016
Interest and dividend income	\$ 729,036	\$ 962,927
Net gain on investments carried at fair value	3,339,006	816,186
Total return on investments	\$4,068,042	\$1,779,113

NOTE C - CONTRIBUTIONS RECEIVABLE

Contributions receivable consist of the following unconditional promises to give:

	August 31,	
	2017	2016
Contributions receivable	\$300,000	\$400,000
Less unamortized discount of .49% at August 31, 2017 and 2016	(4,852)	(4,852)
	\$295,148	\$395,148

The maturity of contributions receivable as of August 31, is as follows:

	2017	2016
Maturing in less than one year	\$100,000	\$100,000
Maturing between one and five years	195,148	295,148
Total contributions receivable	\$295,148	\$395,148

NOTE D - TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets are available for the following purposes:

	August 31,	
	2017	2016
Student scholarships for tuition and books	\$ 7,212,082	\$10,996,940

NOTES TO FINANCIAL STATEMENTS

August 31, 2017 and 2016

NOTE E - PERMANENTLY RESTRICTED NET ASSETS

Permanently restricted net assets are maintained for the benefit of the following:

	<u>August 31,</u>	
	<u>2017</u>	<u>2016</u>
Student scholarships for tuition and books	\$31,035,296	\$25,686,713
Professional development, student related activities, and program support	<u>1,754,009</u>	<u>1,536,866</u>
Total permanently restricted net assets	<u>\$32,789,305</u>	<u>\$27,223,579</u>

The Foundation's permanently restricted net assets are restricted to investments in perpetuity, although the income from these permanently restricted assets is available for scholarships and grants.

NOTE F - NET ASSETS RELEASED FROM RESTRICTIONS

Net assets released from restrictions consisting of temporarily and permanently restricted funds were due mainly to satisfaction of purpose restrictions. Net assets released from restrictions amounted to \$2,533,996 and \$2,548,378 for the years ended August 31, 2017 and 2016, respectively.

NOTE G - CONCENTRATION OF CREDIT RISK

The Foundation maintains deposits in financial institutions which may at times exceed amounts covered by insurance provided by the U.S. Federal Deposit Insurance Corporation. The Foundation's deposit account balance exceeded the federally insured limit by \$240,584 as of August 31, 2017, which was not otherwise insured. The Foundation did not experience any losses in such accounts.

NOTE H - RELATED PARTY TRANSACTIONS AND CONTRIBUTED SERVICES

The Foundation's payments to the District for scholarships and grants totaled \$1,889,064 and \$2,134,525 for fiscal years 2017 and 2016, respectively. At August 31, 2017 and 2016, the Foundation recorded a total of \$155,859 and \$193,770, respectively, for scholarships and grants payable to the District.

The salaries of Foundation employees have been donated by the District. The estimated fair value of these contributed services is \$1,080,191 and \$991,478 for fiscal years 2017 and 2016, respectively, and has been included in contributed salaries in revenue and management and general expenses in the accompanying statements of activities. The District also provided office space and equipment at no cost to the Foundation. Because the Foundation does not have a clearly measurable basis to estimate the value of these contributed facilities and equipment, no amounts have been reflected in the Foundation's financial statements.

NOTE I - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, provides a framework for measuring fair value. FASB ASC Topic 820 also establishes a fair value hierarchy that distinguishes between inputs based on market data from independent sources (observable inputs) and a reporting entity's internal assumptions based upon the best information available when external market data is limited or unavailable (unobservable inputs).

The fair value hierarchy in FASB ASC Topic 820 prioritizes fair value measurements into three levels based on the nature of the inputs. The three levels of the fair value hierarchy under FASB ASC Topic 820 are as follows:

Level 1 – Investments are valued based on quoted prices in active markets for identical assets that are accessible at the measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Investments are valued based on inputs, in the absence of actively quoted market prices, which are observable for the asset, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets in active markets, (b) quoted prices for identical or similar assets in markets that are not active, (c) inputs other than quoted prices that are observable for the asset such as interest rates and yield curves observable at commonly quoted intervals, and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Investments are valued based on unobservable inputs for asset. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investments measured at NAV				<u>28,087,040</u>
Investments at fair value				<u>\$36,206,243</u>

Change in valuation techniques may result in transfers in or out of an investment's assigned level within the hierarchy. The investment Portfolio recognizes transfers between fair value hierarchy levels at approximate date of the event or change in circumstances that cause the transfer. There were no transfers between Levels 1, 2 and 3 during the year.

NOTE J - ENDOWMENTS

The Foundation's endowment consists of several individual funds established for a variety of purposes. These individual funds consist of both donor-restricted endowment funds and funds designated by the Board to function as endowments. As required by generally accepted accounting principles net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

In September 2007, the State of Texas enacted the Uniform Prudent Management of Investment Funds Act ("UPMIFA"). UPMIFA provides standards and guidelines for the management, investment, and expenditure of charitable funds and for endowment spending by institutions organized and operated exclusively for a charitable purpose.

Interpretation of Relevant Law

The management of the Foundation has interpreted the UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. Any remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund.
2. The purposes of the Foundation and the donor-restricted endowment fund.
3. General economic conditions.
4. The possible effect of inflation and deflation.
5. The expected total return from income and the appreciation of investments.
6. Other resources of the Foundation.
7. The investment policies of the Foundation.

NOTE J - ENDOWMENTS - Continued

Investment Return Objectives and Risk Parameters

The Foundation board has adopted investment and spending policies for endowed assets that attempt to preserve the real (inflation-adjusted) purchasing power of the trust assets, to provide an adequate level of income to meet the original intent of the Foundation's benefactors and to maximize the total rate of return earned by the trust without assuming an unreasonable degree of risk. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy

The Foundation will make earnings available each year for use by endowment supported funds. The available funds will be up to 5% of the three year average of the aggregate investment portfolio market value at December 31st of the year preceding the disbursement of the funds. The spending limit will not exceed 5% of the December 31st market value. An amount in excess of the annual spending limit will be permitted for programs and endowments where donors have determined a need for a higher level of spending.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEARS ENDED AUGUST 31, 2017 AND 2016**

25. RICHLAND COLLEGIATE HIGH SCHOOL - CHARTER HIGH SCHOOL OPERATED BY THE DISTRICT

In January 2005, the District's Board of Trustees approved application to the Texas Education Agency (TEA) for a charter to operate the Richland Collegiate High School of Mathematics, Science, and Engineering, designed to enroll students only at the junior and senior levels. TEA approved the application in October 2005. In May 2006, the Board approved the contract with TEA for operating a charter through July 31, 2010. The charter agreement has since been renewed and is in effect indefinitely at this time. The charter high school opened in August 2006 with its first class of 176 students at the junior level. Students receive high school and college credit concurrently. Funding is received from the State of Texas for the charter high school based on average daily attendance. Expenses consist of contracted services for instruction and other functions provided through Richland College as well as direct expenses for equipment and supplies. The high school has no direct employees.

Beginning with Fall 2010 classes, a new area of emphasis for students to select from was added - performing and other arts. Because of the expanded offerings, the "Mathematics, Science, and Engineering" portion of the school name has been dropped and is now simply Richland Collegiate High School.

The Richland Collegiate High School has the same legal identity as the District and is governed by the same Board. For operating purposes, in accord with TEA requirements, all revenue and expenses are tracked through a separate general ledger account. For financial reporting purposes, fiscal information for the charter high school is included in the financial statements of the District.

The Statements of Net Position, the Statements of Revenues, Expenses, and Changes in Net Position, a Statements of Cash Flows, and a Schedule of Expenses for the fiscal years ended August 31, 2017 and 2016 for Richland Collegiate High School alone are presented below. Included also is a Budgetary Comparison Schedule for 2017.

26. Related Parties

During the year, the District furnished certain services such as office space, utilities, and some staff assistance to the Foundation as discussed in Notes 1 and 24.

The Foundation's payments to the District for scholarships and grants amounted to \$2,598,825 and \$2,651,656 for fiscal years 2017 and 2016, respectively. At August 31, 2017 and 2016, the Foundation recorded a total of \$155,859 and \$193,770, respectively, for scholarships and grants payable to the District.

The District paid the salaries and benefits of certain Foundation employees. The value of these contributed services is \$1,080,191 and \$991,478 for fiscal years 2017 and 2016, respectively. Also, the District provided office space and equipment at no cost to the Foundation. Because DCCCD does not have a clearly measurable basis to estimate the value of these contributed facilities and equipment, no amounts can be disclosed.

In fiscal year 2017, the District elected to transfer \$6,211,880 of funds held in its quasi-endowment fund to the Foundation for student scholarships. The quasi-endowment fund was used to fund student scholarships prior to the transfer. The quasi-endowment was funded with designated receipts from a land lease agreement of one of its properties. As collections continue on the land lease agreement, the District will transfer additional funds to the Foundation in the period collected.

27. SUBSEQUENT EVENTS

At the November 7, 2017 Finance Committee meeting, the Board of Trustees accepted a budget plan to improve DCCCD's Informational Technology infrastructure and a new construction technology building for North Lake College. These projects will require a future issuance of revenue bond debt.

Management has evaluated subsequent events through December 5, 2017. The financial statements were available on this date. No additional changes are necessary to be made to the financial statements as a result of this evaluation.

**NOTES TO SCHEDULES FOR NET PENSION LIABILITY
FOR THE FISCAL YEAR ENDED AUGUST 31, 2017**

Net Pension Liability – The District implemented GASB Statement No. 68 in fiscal year 2015 restating its beginning of the year Net Position. As part of the implementation, Schedules G – Schedule of District’s Share of Net Pension Liability and Schedule H – Schedule of District’s Contributions were added to the District’s Required Supplementary Information section of its financial statement footnotes. Each of these schedules are required to present 10 years of comparative information. Additional information will be presented on Schedules G and H as it becomes available.

The District’s pension liability is measured as of August 31st of each year preceding the most recent fiscal year end. Pension expense, and positions of liability, deferred inflows and deferred outflows recognized in the fiscal year presented is based on the preceding year’s August 31st measurement date. Contributions made on behalf of the State and payments of contributions made by the District in Fiscal 2017 will be measured as of August 31, 2017 and recognized in the Fiscal 2018 financial statements.

Changes in Benefit Terms include:

There were no changes in benefit terms for the fiscal year ended August 31, 2017.

Changes in the Size or Composition of the Population covered by the Benefit Terms:

There were no changes in size or composition of the population covered by the benefit terms for the fiscal year ended August 31, 2017.

Changes of Assumptions:

There were no changes of assumptions for the fiscal year ended August 31, 2017.

Change in the District’s Contributions to the Pension Plan:

Legally required contributions from fiscal year to year have increased. Cost of living salary raises issued by the District’s Board of Trustees and staffing additions reflecting District initiatives primarily resulted in the year over year increases. In fiscal 2016 and 2017, the District’s Board of Trustees approved on average a 3% cost of living increase to the majority of its staff. In fiscal year 2015, the District’s Board of Trustees approved a cost of living increase to the majority of its staff of 2.5% and additionally revised its salary schedules to increases ranging from 7.5% to 8.5% which primarily effected rates of pay to new hires.

The table below depicts dollar amount and percentage of changes each fiscal year when compared to the prior year.

Board of Trustees
Dallas County Community College District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Dallas County Community College District (the "District") which comprise the statements of financial position as of and for the years ended August 31, 2017 and 2016, and the related statements of activities and, where applicable, cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 5, 2017.

Internal control over financial reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") to design audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in the District's internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and other matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Intended purpose

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Board of Trustees
Dallas County Community College District

Report on compliance for each major federal and state program

We have audited the compliance of Dallas County Community College (the “District”) with the types of compliance requirements described in the U.S. Office of Management and Budget’s *OMB Compliance Supplement* and the State of Texas *Uniform Grant Management Standards* that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2017. The District’s major federal and state programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to the District’s federal and state programs.

Auditor’s responsibility

Our responsibility is to express an opinion on compliance for each of the District’s major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and State of Texas *Uniform Grant Management Standards (UGMS)*. Those standards, the Uniform Guidance and the *UGMS* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District’s compliance.

Opinion on each major federal and state program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2017.

Report on internal control over compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of compliance requirements that could have a direct and material effect on each major federal and state program to design audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the *UGMS*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in the District's internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this Report on Internal Control Over Compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the *UGMS*. Accordingly, this report is not suitable for any other purpose.

**NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2017**

1. GENERAL

The accompanying Schedules of Expenditures of Federal and State Awards ("Schedules") present the activity of all Federal and State award programs of the Dallas County Community College District (the "District"). The reporting entity of the District is defined in the notes to the financial statements of the District. All Federal and State awards received directly from Federal or State agencies or Federal awards passed through other government agencies are included on the schedules.

2. BASIS OF ACCOUNTING

The expenditures included in the Schedules are reported for the District's fiscal year ended August 31, 2017. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported represent funds which have been expended by the District for the purposes of the awards. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the Schedules may differ from amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The District has followed all applicable guidelines issued by various funding agencies in the preparation of the Schedules.

3. RELATIONSHIP TO FINANCIAL STATEMENTS

Federal and State award revenues are reported in the financial statements of the District for the fiscal year ended August 31, 2017, as follows:

	Federal	State
Total revenues per Schedule A	\$ 17,088,766	\$ 9,158,045
Federal revenue, non-operating per Exhibit 2	70,883,073	-

5. STUDENT LOANS PROCESSED AND ADMINISTRATIVE COST RECOVERED

Although Direct Loans “are made to students (not the institution of higher education)” as confirmed in the June 2010 A-133 *Compliance Supplement*, page 5-3-48, they also recommend the amounts for such loans be included on the face of the Schedule of Expenditures of Federal Awards (SEFA). Subtracting the effect of including these loans on the SEFA, actual expenditures of Federal awards for the 2017 fiscal year are \$88,729,866.

6. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules may not agree with the amounts reported in the related Federal and State Financial reports filed with grantor agencies because of differences between the fiscal year of the District and various program years, as well as accruals that would be reflected in the next report filed with the agencies.

7. INDIRECT COST

As a non-federal entity, the District has a negotiated indirect cost rate approved by a federal agency, therefore, the District is not eligible to elect the 10% de minimis indirect cost rate.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

SUMMARY OF PRIOR YEAR AUDIT FINDINGS

Year ended August 31, 2016

Finding #: 2016-001

CFDA Title: Student Financial Assistance Cluster

CFDA Numbers: 84.007, 84.033, 84.063, 84.268

Federal Award Numbers: None

Federal Agency: Department of Education

Compliance Requirement: Special Tests: Enrollment Reporting

Type of Finding: Significant Deficiency and Non-Compliance (finding does not involve students of Richland Collegiate High School, a charter high school of the District)

Criteria: Under 34 CFR 685.309, the District is required to report to the Secretary of the Department of Education when a student who has received a loan ceases to be enrolled on at least a half-time basis. The method for this reporting is the National Student Loan Data System (NSLDS). Per the NSLDS Enrollment Reporting Guide, enrollment information must be reported within 30 days whenever attendance changes for students, unless a roster will be submitted within 60 days.

Condition: During our testing of this compliance requirement, we noted that four out of the forty judgmentally selected students tested did not have their change in status reported to the NSLDS within thirty days of their attendance change.

Questioned Costs: None

Context: Students that attended classes at more than one campus within the District did not have their change in status reported to the NSLDS within the required time period.

DALLAS COUNTY COMMUNITY COLLEGE DISTRICT

SUMMARY OF PRIOR YEAR AUDIT FINDINGS

Year ended August 31, 2016

**SECTION III - FINDINGS AND QUESTIONED COSTS RELATED TO FEDERAL AWARDS -
Continued**

Cause: Each District campus is separately accredited and must report changes in student enrollment status to the NSLDS for each individual campus on a separate basis. Since many District students attend classes at multiple campuses, their enrollment status is reported separately for each campus. The District uses the National Student Clearinghouse (Clearinghouse) to report student status changes to the NSLDS. However the Clearinghouse did not combine the students hours when they attended classes at multiple campuses, and therefore when a student dropped a class at another campus, or if the class began or ended prior to the end of the standard semester, the Clearinghouse, did not accurately update the student's withdrawn status and effective date to the NSLDS within the thirty day requirement.

Identification of a repeat finding: This is not a repeat finding from the immediate previous audit.

Effect: Lenders are not able to correctly assess a student's enrollment status and determine when students should begin their grace period or enter loan repayment.

Prior Year Recommendations: We recommended that the District implement enhanced monitoring controls to ensure that all required reporting is completed timely and accurately. We also recommend that the District conduct regular reviews of the system-generated reports to ensure compliance.

Status of Planned Corrective Action: In Fiscal 2017, the District formed a team of specialists targeting the training of personnel and review of procedures. The team has addressed immediate needs for accurate reporting. The team will remain in place to further develop training, complete procedures and provide ongoing oversight of the reporting processes.
