Honorable Greg Abbott, Governor  
Honorable Glenn Hegar, Texas Comptroller  
Sarah Keyton, Assistant Director, Legislative Budget Board  
Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of Lamar Institute of Technology for the year ended August 31, 2018, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, including questions related to the Schedule of Expenditures of Federal Awards, please contact Bonnie Albright at 409-880-7633.

Sincerely,

Dr. Lonnie L. Howard, President  
Lamar Institute of Technology

**NOTE 1: Summary of Significant Accounting Policies**

**Entity**

Lamar Institute of Technology is considered an Institution of Higher Education of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies and Universities.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Government, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

**Fund Structure**

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

**Proprietary Funds**

**Business Type Activity**

Business type funds are used for activities that are financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type; because, the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

**Component Units**

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 18.

**Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business activity type funds (proprietary funds) are accounted for using the full accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary

funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

**Budget and Budgetary Accounting**

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

**Assets, Liabilities, and Fund Balances/Net Assets**

**ASSETS**

**Cash and Cash Equivalents**

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

**Securities Lending Collateral**

Investments are stated at fair value in all funds except pension trust funds in accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with GASB Statement 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

**Restricted Assets**

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

**Inventories and Prepaid Items**

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method.

**UNAUDITED  
LAMAR INSTITUTE OF TECHNOLOGY (789)**

**NOTES TO FINANCIAL STATEMENTS**

---

The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

**Capital Assets**

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost if actual historical is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset using the straight-line method.

**Other Receivables – Current and Noncurrent**

The disaggregation of other receivables as reported in the financial statements is shown in Note 24, "Disaggregation of Receivables and Payables Balances." Other receivables include year-end accruals not included in any other receivable category. This account can appear in governmental and proprietary fund types.

**LIABILITIES**

**Accounts Payable**

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

**Other Payables – Current and Noncurrent**

Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions. The disaggregation of other payables as reported in the financial statements is shown in Note 24, "Disaggregation of Receivables and Payables Balances."

**Employees' Compensable Leave Balances**

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

**UNAUDITED  
LAMAR INSTITUTE OF TECHNOLOGY (789)**

**NOTES TO FINANCIAL STATEMENTS**

---

**Capital Lease Obligations**

Capital lease obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

**Bonds Payable-General Obligation Bonds**

General obligation bonds are accounted for in the long-term liabilities adjustment column for governmental activities and in proprietary funds for business-type activities. These payables are reported as long-term liabilities (current for amounts due within one year) and long-term liabilities (noncurrent for amounts due thereafter in the statement of net assets/balance). The bonds are reported at par, net of unamortized premiums, discounts, issuance costs and gains/ (losses) on bond refunding activities. For governmental activities, bond proceeds are accounted for (when received) as an "other financing source" in the governmental fund receiving the proceeds. Payment of principal and interest is an expenditure recorded in the debt service fund. All bond transactions and balances for business-type activities are reported in proprietary funds.

**Bonds Payable-Revenue Bonds**

Revenue bonds are generally accounted for in the proprietary funds. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current or noncurrent in the statement of net assets.

**FUND BALANCE/NET ASSETS**

The difference between fund assets and liabilities is "Net Assets" on the government-wide, proprietary and fiduciary fund statements, and the "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

**Reservation of Fund Balance**

Fund Balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditures.

**Reserved for Encumbrances**

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

**Reserve for Consumable Inventories**

This represents the amount of supplies, postage and prepaid assets to be used in the next fiscal year.

**UNAUDITED  
LAMAR INSTITUTE OF TECHNOLOGY (789)**

**NOTES TO FINANCIAL STATEMENTS**

---

**Unreserved/Undesignated**

This represents the unappropriated balance at year-end.

**Invested in Capital Assets, Net of Related Debt**

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

**Restricted Net Assets**

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

**Unrestricted Net Assets**

Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

**INTERFUND ACTIVITY AND TRANSACTIONS**

Lamar Institute of Technology has the following types of transactions between funds:

- (1) **Transfers:** Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.
- (2) **Reimbursements:** Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) **Interfund receivables and payables:** Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current." Balances for repayment due in two (or more) years are classified as "noncurrent."
- (4) **Interfund Sales and Purchases:** Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of Lamar Institute of Technology's Interfund activities and balances are presented in Note 12.

**UNAUDITED  
LAMAR INSTITUTE OF TECHNOLOGY (789)**

**NOTES TO FINANCIAL STATEMENTS**

**Compensable Leave**

A state employee is entitled to be paid for any unused vacation time accrued in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the state for at least six months. Both an expense and a liability for business-type activities are recorded in the accounts as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

**Bonds Payable**

See Note 6 for a discussion of Bonds Payable.

**NOTE 6: Bonded Indebtedness**

All bonded indebtedness for Lamar Institute of Technology is issued by System Administration through the Texas State University System Revenue Financing System. System Administration and each component institution within the system are members of the Revenue Financing System. The Board of Regents pledged all of the funds (revenues) and balances derived or attributable to any member of the Revenue Financing System that are lawfully available to the Board for payments on Parity Debt.

System Administration issued the debt; therefore, the bonds payable attributable to the institution are included with the Bonds Payable reported by System Administration. The institution must repay the debt that was issued on its behalf; consequently, the following debt amortization schedule is presented for informational purposes only.

**NOTES TO FINANCIAL STATEMENTS**

expects future Legislative appropriations to meet debt service requirements for Tuition Revenue Bonds.

**NOTE 7: Derivative Investments**

Lamar Institute of Technology has no derivative instruments of August 31, 2018.

**NOTE 8: Leases**

Lamar Institute of Technology has no operating lease obligations as of August 31, 2018.

**NOTE 9: Pension Plans**

The State of Texas has joint contributory retirement plans for substantially all its employees. One plan in which Lamar Institute of Technology participates is administered by the Teachers Retirement System of Texas. Future pension costs are the liabilities of the Retirement System. The System does not account for each State agency separately.

The State has also established an optional retirement program for institutions of higher education. Participation in the optional retirement program is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts. Since these are individual annuity contracts, the State has no additional or unfunded liability for this program.

**NOTE 10: Deferred Compensation**

State employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in the TEX. GOV'T. CODE ANN., Sec. 609.001. Two plans are available for employees' participation. Both plans are administered by the Employees Retirement System.

The State also administers another plan: "TexaSaver" created in accordance with Internal Revenue Code Sec. 401 (k). The assets of this plan do not belong to the State. The State has no liability related to this plan.

**NOTE 11: Post Employment Health Care and Life Insurance Benefits**

Not Applicable to Lamar Institute of Technology.

**NOTE 12: Interfund Activity and Transactions**

As explained in Note 1 on Interfund Activity and Transactions are numerous transactions between funds and agencies. At year end amounts to be received or paid are reported as:

**UNAUDITED  
LAMAR INSTITUTE OF TECHNOLOGY (789)**

**NOTES TO FINANCIAL STATEMENTS**

- Interfund Receivables or Interfund Payables
- Due From Other Agencies or Due to Other Agencies
- Due From Other Funds or Due to Other Funds
- Transfers In or Transfers Out
- Legislative Transfers In or Legislative Transfers Out

Lamar Institute of Technology experience routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

**NOTE 13: Continuance Subject to Review**

Lamar Institute of Technology is not subject to a review of continuance.

**NOTE 14: Adjustments to Fund Balance/Net Assets**

Lamar Institute of Technology had no adjustments to Fund Balances/Net Assets.

**NOTE 15: Contingencies and Commitments**

At August 31, 2018 various lawsuits and claims involving Lamar Institute of Technology were pending. While the ultimate liability with respect to litigation and other claims asserted against the Institute or the Board of Regents cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the Institute.

**NOTE 16: Subsequent Events**

Lamar Institute of Technology does not have any subsequent events for fiscal year August 31, 2018.

**NOTE 17: Risk Management**

Lamar Institute of Technology is exposed to a variety of civil claims resulting from the performance of its duties. It is Institute policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The Institute assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance, nor is the Institute involved in any risk pool with other government entities for these risks. Lamar Institute of Technology incurred no losses during the fiscal year ended August 31, 2018 and no claims were pending at that date.

The Institute is required by certain bond covenants and FEMA to carry Fire and Extended Coverage and Boiler insurance on buildings financed through the issuance of bonds using pledged Auxiliary Enterprise or other non-Educational and General Funds. The insurance protects the bond holders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments and the federal government for storm damage.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum liability in the amount of

**UNAUDITED  
LAMAR INSTITUTE OF TECHNOLOGY (789)**

**NOTES TO FINANCIAL STATEMENTS**

\$20,000/\$40,000 bodily injury and \$15,000 property damage. However, the Institute has chosen to carry liability insurance on its licensed vehicles in the amount of \$1,000,000 combined single liability. The coverage exceeds the extent of the waivers of state immunity specified in the tort claims act.

**NOTE 18: Management Discussion and Analysis**

Management Discussion and Analysis is a required part of the basic financial statements. Management Discussion and Analysis is omitted because Lamar Institute of Technology is reported in a consolidated format with Texas State University System which is reported as a component of the State of Texas. Management Discussion and Analysis as it relates to Texas State University System can be found in the State of Texas basic financial statements.

**NOTE 19: The Financial Reporting Entity**

The Lamar Institute of Technology Foundation is a nonprofit organization with the sole purpose of supporting educational activities of Lamar Institute of Technology. The Foundation solicits donations and acts as coordinator of gifts made by other parties. The Foundation remitted restricted gifts of \$150,670 to the Institute during the year ended August 31, 2018.
