Independent Auditor's Report

Board of Regents
Clarendon College
Clarendon, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Clarendon College (the College) as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College as of August 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 2 to the financial statements, in 2018, the College adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of the College's Proportionate Share of the Net Pension Liability, and the Schedule of the College's Contributions and Notes to Required Supplementary Information on pages 9-20 and pages 62-66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements of the College. The accompanying supplemental information listed in the table of contents, Schedules A, B, C and D (Other Supplemental Information), is likewise presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, Schedule E, and Schedule of Expenditures of State of Texas Awards, Schedule F, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the State of Texas Uniform Grants Management Standards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, the Schedule of Expenditures of State of Texas Awards, and the Other Supplemental Information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards, the Schedule of Expenditures of State of Texas Awards, and the Other Supplemental Information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2018, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CLARENDON COLLEGE
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending August 31, 2018

Discussion of Currently Known Facts, Decisions, or Conditions:

Clarendon College has seen positive growth in the last three years. With enrollment this fall and registration for Fall 2018 being the highest enrollment in the College's history.

The personnel changes made in the financial aid offices continue to improve operations, and the office is functioning extremely well. We have expanded offerings and this office has been instrumental in those operations. Financial Aid continues to offer staff development training resulting in greater efficiency for our students as well as fewer mistakes.

This year saw another balanced budget with a decrease in tuition and fees due to increase growth in Dual Credit Students. Revenue is also seen increasing on the Auxiliary budget as the headcount in the residence halls also increased. Although revenues were increased slightly, the college maintains a careful approach as expenses were maintained as flat, the College did not raise tuition and fees for our students.

Clarendon College takes great pride in its role in our community as a leader and partner to increase the economic development and educational attainment of our communities.
Thank you for your assistance to the Bulldog Nation.

CLARENDON COLLEGE
MANAGEMENT'S DISCUSSION AND ANALYSIS
Fiscal Year Ending August 31, 2018

This section presents the management's discussion and analysis of the financial performance of Clarendon College (the College) during the fiscal year ending August 31, 2018. This discussion and analysis focuses on current activities, resulting changes and currently known facts, and should be read in conjunction with the accompanying financial statements and footnotes. The financial analysis is for fiscal year 2018, with fiscal years 2017 and 2016 data for comparative purposes. The financial statements, footnotes and discussion are the responsibility of the College management.

Using the Annual Financial Report:

In June 1999, the Governmental Accounting Standards Board (GASB) released Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. Statement No. 34 requires a comprehensive look at the entity as a whole and the depreciation of capital assets. In November 1999, GASB issued Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities,* which applies the provisions of Statement No. 34 to public colleges and universities.

The financial report for the College includes the Statements of Net Position, Statements of Revenues, Expenses, and Changes in Net Position, and Statements of Cash Flows. These statements are prepared under the accrual basis of accounting and in accordance with GASB principles.

There was a decrease of $1,129,000 in the total current assets for 2017-2018 when compared to 2016-2017. Cash and short-term investments showed a decrease due to changes in investment strategy. Accounts receivable showed an increase of 3.6%. The increase in student accounts receivable of $57,000 going from $1,590,000 in 2016-2017 to $1,647,000 in 2017-2018, is the result of a change in calculating unearned revenue. The overall change in calculation on unearned revenue had no material effect on the financial statements. The change in calculation is also reflected in the $106,000 increase in current liabilities. The unearned revenue accounted for most of this change, going from $1,865,000 in 2016-2017 to $2,097,000 in 2017-2018.

Noncurrent assets decreased $272,000 in 2017-2018. They went from $20,521,000 in 2016-2017 to $20,249,000 in 2017-2018. The change in restricted cash and cash equivalents was a increase of $193,000 in 2017-2018, going from $57,000 in 2016-2017 to $250,000 in 2017-2018.

Net capital assets for 2017-2018 were $16,272,000, for 2016-2017 were $17,027,000, and for 2015-2016 were $17,167,000. The capital additions for 2017-2018 totaled $152,000. At August 31, 2018, there was no construction in progress. Depreciation expense for 2017-2018 was $884,000 and $892,000 for 2016-2017.

In 2016-2017 current liabilities were $3,233,000 and increased to $3,339,000 in 2017-2018. The $106,000 increase was a combination of a decrease of $300,000 in accounts payable and accrued liabilities, an increase of $174,000 in other current liabilities, and an increase of $232,000 in unearned revenue. Accounts payable decreased $139,000 in 2017-2018, going from $ 253,000 in 2016-2017 to $114,000 in 2017-2018. Unearned revenue showed an increase of $232,000. This increase was due to a change in the calculation of unearned revenue, as discussed earlier. Other current liabilities increased $174,000 in 2017-2018.

Noncurrent liabilities increased by $4,958,000 in 2017-2018 when compared to 2016-2017, $11,224,000 compared to $6,266,000, respectively. This was due to the implementation of GASB 75 which added a net OPEB liability of $5,700,000.

The net of this activity resulted in a decrease in total net position of $7,787,000, from $14,843,000 in 2016-2017 compared to $7,056,000 at the end of 2017-2018. The College had prior period restatements of $6,858,000 which was primarily due to GASB 75 implementation of $6,640,000 another $218,000 was due to corrections of prior year health benefits and reclassification of an agency account.

The following is a comparison of net position and net investment in capital assets at August 31, 2018, 2017, and 2016:

Operating revenue includes tuition and fees, net of scholarship discounts and allowances, federal, state, and local grants and contracts, auxiliary enterprises and other. The College's total operating revenue decreased slightly, going from $4,601,000 in 2016-2017 to $4,112,000 in 2017-2018. Tuition and fees (net of discounts) showed a decrease of $192,000 in 2017-2018, from $1,764,000 in 2016-2017 and $1,572,000 in 2017-2018. The College's rate of tuition and fees remained the same per semester credit hour between 2016-2017 and 2017-2018. Contact hours went from 649,584 in 2015-2016 to 693,276 in 2016-2017 and 688,080 in 2017-2018. Total head count for the Fall term went from 1,343 in 2015-2016; 1,486 in 2016-2017, and to 1588 in the fall of 2018. The increase in head count came from:

- The College has continued to increase the scope of dual credit offerings to service area high school and as a results enrollment in dual credit has increased directly and accounts for a significant portion of overall enrollment increases from fall 2015 to fall 2017.

- Clarendon College's graduation rate for students who do not take developmental education courses is over double that of the state at 39.3% compared to the statewide average of 24.9%. The Graduation rate for fulltime students is the 5th highest at 38.1% compared to the state average of 18.6%. According to the *2017 Texas Higher Education Almanac* published by the Texas Higher Education Coordinating Board.

- The College started and concluded calendar year 2018 with record enrollments for every scheduled term.

However, there was a 2.13% decrease in academic contact hours, going from 440,224 in 2016-2017 to 430,896 in 2017-2018. Technical contact hours increased 1.68%, from 252,928 in 2016-2017 to 257,184 in 2017-2018.

Federal grants and state grants decreased $324,000 down from $978,000 in 2016-2017 to $654,000 in 2017-2018. There was an increase of $294,000 in auxiliary revenue. There was a decrease of $320,000 local grants and contracts. This decrease is the result of decline in the College maintenance tax in 2017-2018 when compared to 2016-2017. There was an increase of $53,000, in other operating revenue.

Operating expenses increased $1,453,000 in 2017-2018 over 2016-2017. Instruction increased $703,000, and academic support increased by $128,000. Institutional support increased $197,000 while student services decreased by $85,000. Maintenance of plant expenses increased $230,000 and depreciation decreased $8,000. increases in expenditures were found in scholarship expense by $198,000 and auxiliary enterprises by $90,000. Part of the increase in operating expenses was due to the implementation of GASB 75 and an increase in salaries due to across the board raises.

Total non-operating revenue for 2017-2018 increased $1,015,000 from $5,586,000 in 2016-2017 to $6,601.000 in 2017-2018. The federal aid received by the students, which is classified as federal revenue–non-operating, increased $326,000 in 2017-2018 when compared to 2016-2017 and up from $1,982,000 in 2016-2017 compared to $2,308,000 in 2017-2018. This is a 1.64% increase in the total amount awarded. State appropriations for 2017-2018 increased $443,000, largely due to GASB 75 implementation. The total appropriations went from $3,213,000 in 2016-2017 to $3,656,000. Investment income for 2017-2018 decreased $46,000. The College saw an increase of $293,000, in gifts for 2017-2018. Overall, total net position, end of year 2017-2018 decreased $7,787,000 with the prior period restatement.

Cash and cash equivalents, beginning of year	457	709	434
Cash and cash equivalents, end of year	$ 916	$ 457	$ 709

This statement is used to determine the College's ability to meet its obligations and to determine if external financing is needed.

The net cash used by operating activities increased by $1,915,000, going from $4,027,000 in 2016-2017 to $5,942,000 in 2017-2018. The net cash provided by noncapital financing activities went from $5,125,000 in 2016-2017 to $5,992,000 in 2017-2018. The net cash that is provided by noncapital financing activities increased $867,000; the majority of this increase is due to the increase in federal financial aid received by our students. The net cash used by capital and related financing activities is due to the annual bond and lease payments and the purchase of capital assets in the amount of $152,000. The change in net cash provided by investing activities is due to the investment practices of the College. Overall, there was a net cash increase of $459,000

Significant Capital Assets and Long-Term Debt Activity:

During 2017-2018 the College invested $152,000 in buildings, computers, equipment, and facility improvements. A Public Property Finance Agreement was utilized to improve the energy efficiency of the physical plant in 2015-2016.

The notes, lease, and bond payable portions of noncurrent liabilities decreased by $457,000 in 2017-2018 when compared to 2016-2017, $4,374,000 compared to $4,830,000, respectively. Principal payments during 2017-2018 totaled $457,000 and an additional $474,000 was moved to current liabilities for the 2017-2018 year.

The net pension liability decreased by $255,000 from $1,892,000 in 2016-2017 to $1,637,000 in 2017-2018.

Due to GASB 75 implementation a net OPEB liability was recorded in 2017-2018. The net OPEB liability as of August 31, 2018 was $5,688,000.

Please refer to the financial statement footnotes, Note 6 - Capital Assets, Note 7 - Noncurrent Liabilities, and Note 8 - Debt Obligations for more information.

NOTE 1 - REPORTING ENTITY

Clarendon College (the College) was established in 1927 in accordance with the laws of the State of Texas, to serve the educational needs of Clarendon, Texas, and the surrounding communities. The College is considered to be a special-purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity.* While the College receives funding from local, state, and federal sources, and must comply with the spending, reporting, and record-keeping requirements of these entities, it is not a component unit of any other governmental entity.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Guidelines

The significant accounting policies followed by the College in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges.* The College applies all applicable GASB pronouncements. The College is reported as a special-purpose government engaged in business-type activities.

Tuition Discounting

Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Title IV, HEA Program Funds

Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the award is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts

The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used by the student for tuition and fees, the amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The financial statements of the College have been prepared on the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Budgetary Data

Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Regents adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Deferred Inflows

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Governments are only permitted to report deferred inflows in circumstances specifically authorized by the GASB. The College has deferred inflows related to the recording of the net pension liability and the OPEB liability.

Deferred Outflows

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Governments are only permitted to report deferred outflows in circumstances specifically authorized by the GASB. The College has deferred outflows related to the net pension liability and the OPEB liability.

Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments (Continued)

are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase or are funds which have donor-imposed restrictions (endowments).

Inventories

There is $55,256 in inventory at August 31, 2018; the College has partnered with the E-Campus for textbooks. Materials and supplies are charged to expense when purchased.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair value at the date of donation. The capitalization policy includes items valued at $5,000 or more and an estimated useful life of greater than one year. Renovations to buildings, infrastructures, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are charged to operating expense in the year in which the expense is incurred.

The College reports depreciation under a single line item as a business-type unit. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The following lives are used:

Buildings	50 years
Facilities and other improvements	20 years
Library books	15 years
Furniture, machinery, vehicles, and other equipment	10 years
Telecommunications and peripheral equipment	5 years

Unearned Revenues

Tuition, fees, and other revenues received and related to the following fiscal year have been deferred. Tuition and fees of $1,875,134 have been reported as unearned revenue at August 31, 2018.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources,

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pensions (Continued)

and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS' fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits

The fiduciary net position of the Employee Retirement System of Texas (ERS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of information about assets, liabilities and additions to / deductions from ERS's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating and Nonoperating Revenue and Expense Policy

The College distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. The principal operating revenues are tuition and related fees. The major nonoperating revenues are state appropriations, federal Title IV revenue and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The College has contracted with Great Western Living for food service. Payments under this agreement were $465,153 for the year ended August 31, 2018.

When both restricted and unrestricted resources are available for use, it is the College's practice to use restricted resources first and then unrestricted resources as they are needed.

Change in Accounting Principles

During the fiscal year 2018, the College adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,* which was effective for financial statements for periods beginning after June 15, 2017. This Statement improves financial reporting by enhancing the reporting of the other postemployment benefits (OPEB) and a more comprehensive measure of OPEB expense. With GASB 75, the College must assume their

Change in Accounting Principles (Continued)

proportionate share of the Net OPEB of the Employee Retirement System of Texas (ERS). Adoption of GASB 75 required a prior period adjustment to report the effect of GASB 75 retroactively. There is added information available through new note disclosure and required supplementary information.

Restatement of Beginning Net Position

The College restated its Beginning Net Position by $(6,857,982). The decrease in net position was due to the following items:

Decrease in net position due to the implementation of GASB 75	$ (6,640,067)
Decrease in net position due to change in agency accounts	(54,024)
Decrease in net position due to an error in recording the prior year health benefits	(163,891)
Beginning Net Position, restated	$ (6,857,982)

Beginning net position was $14,842,890 and has been restated to $7,984,908.

NOTE 3 - AUTHORIZED INVESTMENTS

The College is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

NOTE 4 - DEPOSITS AND INVESTMENTS

Certificates of deposit	410,000	12.80%	0.08	-
Total investments	$ 3,203,115	100.00%	4.63	

Interest Rate Risk: In accordance with state law and College policy, the College does not purchase any investments with maturities greater than 10 years.

Concentration of Credit Risk - The College does not place a limit on the amount the College may invest with one issuer. All of the certificates of deposit are held at a local bank. The College has 14.73% with FHLMC and 19.65% in U.S. Treasuries NTS.

***Credit Risk*:** In accordance with state law and the College's investment policy, with the exception of endowed investments, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations from other states, municipalities, counties, etc. must be rated at least A. As of August 31, 2018, the College did not have any investments in commercial paper or no-load money market mutual funds.

Custodial Credit Risk: For investments and deposits, this is the risk that, in the event of the failure of the counterparty, the College will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The College is not exposed to custodial credit risk for its investments as all are insured, registered, and held by the College or by its agent in the College's name.

NOTE 5 - FAIR VALUE MEASUREMENTS

The College adopted Financial Accounting Standards Board’s (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, as guidance on fair value measurements. The standard established a three-level valuation hierarchy for disclosure based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset's fair value measurement level within the hierarchy is based on the lowest level of input that is significant to the valuation.

The three levels are defined as follows:

- Level 1 – Quoted prices for identical assets or liabilities in active markets.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The College uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the College measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Assets Measured at Fair Value on a Recurring Basis

		Fair Value Measurements Using:		
	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
August 31, 2018:				
Money market funds	$ 26,049	$ 26,049	$ -	$ -
Certificate of deposits	410,000	-	410,000	-
U.S. Government securities and other Government agencies	1,681,588	1,681,588	-	-
Mortgage-backed securities	61,801	61,801	-	-
Corporate bonds	1,023,677	1,023,677	-	-
Real estate held for investment by endowment	502,750	-	-	502,750
Total	$ 3,705,865	$ 2,793,115	$ 410,000	$ 502,750

For the valuation of certain government and corporate bonds and notes, mortgage-backed securities, at August 31, 2018, the College used quoted prices in principal active markets for identical assets as of the valuation date (Level 1).

For the valuation of certificates of deposit at August 31, 2018, the College used significant observable inputs, particularly dealer market prices for comparable investments as of the valuation date (Level 2).

For the valuation of land (Level 3) at August 31, 2018, the College uses the Donley County Tax Appraisal Value (Level 3). The land is valued on an annual basis, which are unobservable inputs.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

Assets Measured at Fair Value on a Recurring Basis (Continued)

A summary of investments classified according to any restrictions at August 31, 2018 is as follows:

NOTE 8 - DEBT OBLIGATIONS (CONTINUED)

- Original principal amount $1,103,000.
- Secured by a pledge of revenues, including certain tuition and fees, 20% of the gross revenues received from the cafeteria and 60% of the gross revenue received from the dormitory system.
- Bonds payable are due in annual installments varying from $165,000 to $283,000 with an interest rate of 2.42% with the final installment due in 2021.

On October 21, 2015, the Clarendon College District issued refunding revenue bonds in the amount of $1,103,000 with an interest rate of 2.42%. As a result of the refunding, the College reduced its total debt service requirements by $252,844 which resulted in an economic gain of $54,386.

Note Payable

Debt service requirements for note payable at August 31, 2018, were as follows:

For the Year	Notes Payable		
Ended August 31,	**Principal**	**Interest**	**Total**
2019	$ 114,255	$ 30,832	$ 145,087

Note payable to Public Property Finance Contract provided by Prosperity Bank to finance upgrades to the infrastructure of campus buildings. Note dated December 23, 2015. Original principal of note $1,237,655. Secured by a security interest in all property listed in Schedule B of the finance contract. Notes payable are due in annual installments of $145,087 with an interest rate of 2.99% with the final installment due December 1, 2025.

Lease Payable to Gray County

Lease payable to Gray County, Texas, issued on September 1, 2009, in the amount of $4,175,000, interest varies from 4.5% to 5.125%, annual principal installments varying from $195,000 to $315,000 plus interest due semi-annually, with a maturity date of August 1, 2029. The loan proceeds were used for the construction of two new buildings and equipment at the Pampa, Texas, Campus. The College paid $330,456 lease expense, principal, and interest, in the year ended August 31, 2018.

NOTE 8 - DEBT OBLIGATIONS (CONTINUED)

Obligations under capital leases at August 31, 2018 were as follows:

For the Year Ended August 31,	Total
2019	$ 331,669
2020	327,406
2021	327,407
2022	331,906
2023	330,656
2024-2028	1,652,800
2029	331,144
Total minimum lease payments	3,632,988
Less: Amount representing interest costs	(892,988)
Present value of minimum lease payments	$ 2,740,000

NOTE 9 - DISAGGREGATION OF RECEIVABLES AND PAYABLES BALANCES

Accounts receivable at August 31, 2018, consisted of the following:

Taxes receivable	$ 165,375
Student receivables	2,377,998
Grants receivable	95,085
Other receivables	15,713
Allowance for doubtful accounts	(1,007,140)
Total accounts receivable, net	$ 1,647,031

Accounts payable at August 31, 2018, consisted of amounts payable to vendors.

Accrued liabilities at August 31, 2018, consisted of the following:

Accrued interest payable	$ 42,589
Other accrued liabilities	125,864
Total accrued liabilities	$ 168,453

NOTE 10 - CONTRACT AND GRANT AWARDS

Contract and grant awards are accounted for in accordance with the requirements of the AICPA Industry Audit Guide, *Audits of Colleges and Universities*. Revenues are recognized on Exhibit 2 and Schedules A and C. For federal and nonfederal contract and grant awards, funds expended, but not collected, are reported as accounts receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed, e.g., multi-year awards or funds awarded during fiscal year 2018 for which monies have not been received nor funds expended, totaled $156,509. All of these funds are on federal contract and grant awards. Additionally, the College deferred state grant awards in the amount of $242,605 in 2018 and deferred federal awards of $-0- for 2018. These funds are to be spent in the year following their deferral.

NOTE 11 - EMPLOYEES' RETIREMENT PLANS

Plan Description

The College participates in a cost-sharing, multiple-employer defined benefit pension plan (the Plan) that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code (IRC). The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefits.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System’s fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable

NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Benefits Provided (Continued)

salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, whose formulas use the three highest annual salaries. The normal service retirement is at age 65 with 5 years of service credit or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic cost of living adjustments (COLAs). Ad hoc postemployment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions

Contribution requirements are established or amended pursuant to Article XVI, Section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code Section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2017 and 2018. Contributions are as follows:

	Contributions Required and Made
2018 College (Employer) Contributions	$ 204,323
2018 Member (Employee) Contributions	344,968
2017 Non-employer contributing agency (State)	119,037

Contribution rates for Plan fiscal years (September to August) 2017 and 2018 follow:

	Contribution Rates Plan Fiscal Year	
	2017	2018
Member	7.7%	7.7%
Non-Employer Contributing Entity	6.8%	6.8%
Employer	6.8%	6.8%

NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Contributions (Continued)

Contributors to the plan include members, employers, and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the GAA.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including junior colleges are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the TRS, the employer shall pay both the member contribution and the state contribution as an employment-after-retirement surcharge.

Actuarial Assumptions

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

The total pension liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

Valuation date	August 31, 2017
Actuarial cost method	Individual Entry Age Normal
Asset valuation method	Market Value
Single discount rate	8.00%
Long-term expected investment rate of return	8.00%
Inflation	2.50%

NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Actuarial Assumptions (Continued)

Salary increases including inflation	3.50% to 9.50%
Payroll growth rate	2.50%
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

Changes Since the Prior Actuarial Valuation

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Discount Rate

The discount rate used to measure the total pension liability was 8.0 %. There was no change in the discount rate since the previous fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2017, are summarized below:

Asset Class	Target Allocation	Real Return Geometric Basis	Long-Term Expected Portfolio Real Rate of Return*

Sensitivity of the College's Share of the Net Pension Liability

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2017 Net Pension Liability:

	1% Decrease in Discount Rate 7%	Current Discount Rate 8%	1% Increase in Discount Rate 9%
College's proportionate share of the net pension liability	$ 2,758,960	$ 1,636,586	$ 702,027

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2018, the College reported a liability of $1,636,586 for its proportionate share of the TRS's net pension liability. This liability reflected a reduction for State pension support provided to the College. The amount recognized by the College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the College were as follows:

NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

College's proportionate share of the net pension liability	$ 1,636,586
State's proportionate share of the net pension liability associated with the College	1,163,776
Total	$ 2,800,362

The net pension liability was measured as of August 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The College's proportion of the net pension liability was based on the College's contributions to the pension plan relative to the contributions of all participating entities to the Plan for the period September 1, 2016, through August 31, 2017.

At August 31, 2017, the College's proportion of the collective net pension liability was 0.0051183914%, which is an increase of 0.0001126524% from its proportion measured as of August 31, 2016.

For the year ended August 31, 2018, the College recognized pension expense of $88,768 and revenue of $88,768 for support provided by the State.

At August 31, 2018, the College reported its proportionate share of the TRS's deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 23,944	$ 88,259
Changes of assumptions	74,549	42,678
Net difference between projected and actual earnings on pension plan investments	-	119,271
Changes in proportion and differences between College contributions and proportionate share of contributions	32,945	46,589
College contributions subsequent to the measurement date	204,323	-
Total	$ 335,761	$ 296,797

The $204,323 reported as deferred outflows of resources related to pensions resulting from College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Optional Retirement Plan – Defined Contribution Plan

Plan Description. Participation in the Optional Retirement Program (ORP) is in lieu of participation in the TRS. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined, but are established and amended by the Texas State Legislature. The percentage of participant salaries currently contributed by the state is 6.6% for fiscal years 2018 and 2017. The participant contribution rate is 6.65% for both years. Benefits fully vest after one year plus one day of employment.

Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. S.B. 1812, effective September 1, 2013, limits the amounts of the state's contribution to 50% of eligible employees in the reporting district.

The ORP expense to the state for the College was $-0-, $-0-, and $2,299 for the fiscal years ended August 31, 2018, 2017, and 2016, respectively. This amount represents the portion of expended appropriations made by the state legislature on behalf of the College.

The total payroll of employees covered by the ORP was $-0-, $-0-, and $70,000, for fiscal years 2018, 2017, and 2016, respectively.

College-Sponsored Benefit Plans

The College has a voluntary employee defined contribution 403(b) plan administered by the Plan's trustee. The Plan is funded by employee deferrals of compensation. Plan funds are held in trust and are administered by the College's Vice-President of Administrative Services with oversight by the Board of Regents. Full-time employees and certain part-time employees are eligible to

NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

College-Sponsored Benefit Plans (Continued)

participate and are fully vested at all times. At August 31, 2018, 2017, and 2016, there were 6, 6, and 7, respectively, Plan participants. The College does not contribute to this plan.

NOTE 12 - HEALTH CARE AND LIFE INSURANCE BENEFITS

Certain healthcare and life insurance benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The state recognizes the cost of providing these benefits by expending the annual insurance premiums. The state's contribution per full-time employee was approximately $622 per month for the year ended August 31, 2018, ($617 per month for the year ended August 31, 2017) and totaled $472,947 for the year ended August 31, 2018, ($495,055 for the year ended August 31, 2017). The cost of providing those benefits for retirees in the year ended 2018 was $138,192 (retiree benefits for retirees cost $154,030 in 2017). For active employees, the cost of providing benefits was $334,755 for the year ended 2018 (active employee benefits for employees cost $341,025 for the year ended 2017).

Beginning September 1, 2013, S.B. 1812 limited the state's contribution to 50% of eligible employees for community colleges.

NOTE 13 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN

Plan Description

The College participates in a cost-sharing, multiple employer, other post-employment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

OPEB Plan Fiduciary Net Position

Detailed information about the GBP’s fiduciary net position is available in the separately issued ERS Comprehensive Annual Financial Report (CAFR) that includes financial statements, notes

NOTE 13 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

OPEB Plan Fiduciary Net Position (Continued)

to the financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at https://ers.texas.gov/About-ERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management; or by writing to ERS at: 200 East 18th Street, Austin, TX 78701; or by calling (877)275-4377. The fiduciary net position of the plan has been determined using the same basis used by the OPEB plan.

Benefits Provided

Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

Contributions

Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds.

The following table summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

Actuarial Assumptions

The total OPEB liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Additional Actuarial Methods and Assumptions:

Valuation date	August 31, 2017
Actuarial cost method	Entry Age
Amortization	Level percent of pay, open
Discount rate	3.51%
Remaining Amortization	30 Years

Healthcare trend rates	8.5% for FY 2019, decreasing 0.5% per year to 4.5% for FY 2027 and later years
Inflation assumption rate	2.5%
Ad hoc postemployment benefit changes	None

NOTE 13 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

Actuarial Assumptions (Continued)

Mortality assumptions:	
Service retirees, survivors and other inactive members	Tables based on TRS experience with full generational projection using Scale BB from Base Year 2014
Disability retirees	Tables based on TRS experience with full generational projection using Scale BB from Base Year 2014 using a 3-year set forward and minimum mortality rates of four per male members and two per 100 female members
Active members	Sex District RP-2014 Employee Mortality multiplied by 90% with full generational projection using Scale BB

Many actuarial assumptions used in this valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2014 for higher education members.

Changes Since the Prior Actuarial Valuation

Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- New demographic assumptions, assumed aggregate payroll increases and rate of general inflation were updated to reflect an experience study;
- The percentage of current and future retirees and retiree’s spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan who will elect to participate at the earliest date at which coverage can commence has been updated to reflect recent plan experience and expected trends.
- The proportions of future retirees covering dependent children and future retirees assumed to be earned and electing coverage
- Assumptions for administrative expenses, assumed per Capita Health Benefit Costs, Health Benefit Cost and Retiree Contribution trends to reflect recent health plan experience; and its effects in short-term expectations and revised assumed rate of general inflation.

NOTE 13 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

Changes Since the Prior Actuarial Valuation (Continued)

- The discount rate was lowered from 5.5% to 3.51% as a result of requirements of GASB 74 to utilize the yield or index rate for 20-year, tax exempt general obligation bonds rated AA/Aa (or equivalent or higher).

The following benefit revisions have been adopted since the prior measurement date.

- An increase in the out-of-pocket cost applicable to services obtained at a free-standing emergency facility;
- An elimination of the copayment for virtual visits;
- A copay reduction for Airrosti and for out-of-state participants;
- Elimination of the deductible for in-network services and application of a copayment rather than coinsurance to certain services like primary care and specialist visits.

These minor benefit changes have been reflected in the fiscal year 2018 Assumed Per Capita Health Benefit Costs.

Investment Policy

The State Retiree Health Plan is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The System's Board of Trustees adopted the amendment to the investment policy in August 2017 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 2.4%.

Discount Rate

Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate in the prior fiscal year was 5.5%. The discount rate assumption was lowered as a result of requirements by GASB No. 74. At the beginning of the measurement year the discount rate was 2.84%. The discount rate used to measure the total OPEB liability as of the end of the measurement year was 3.51%, which amounted to an increase of 0.67% from the beginning of the year. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp's AA rating. Projected cash flows into the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go (PAYGO) basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable to zero years.

Healthcare Cost Trend Rates Sensitivity Analysis

The initial healthcare trend rate is 8.5% and the ultimate rate is 4.5%. The following presents the College's proportionate share of the collective net OPEB Liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB Liability would be if it were calculated using a healthcare cost trend rate that is one-percentage point lower or one-percentage point higher than healthcare cost trend rate that was used (8.5% decreasing to 4.5%) in measuring the Net OPEB Liability.

	1% Decrease in Healthcare Trend Cost (7.5% decreasing to 3.5%)	Current Healthcare Cost Trend Rate (8.5% decreasing to 4.5%)	1% Increase in Healthcare Cost Trend (9.5% decreasing to 5.5%)
Proportionate share of the Net OPEB Liability	$ 4,781,730	$ 5,687,999	$ 6,863,934

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2018, the College reported a liability of $5,687,999 for its proportionate share of the ERS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the College. The amount recognized by the College as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the College were as follows:

College's proportionate share of the collective Net OPEB Liability	$ 5,687,999
State's proportionate share that is associated with the College	4,830,458
Total	$ 10,518,457

NOTE 13 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (Continued)

The net OPEB liability was measured as of August 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The College's portion of the net OPEB liability was based on the College's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2016 through August 31, 2017.

At the measurement date August 31, 2017, the College's proportion of the collective net OPEB liability was 0.01669356%. Since this is the first year of implementation, the College does not have the proportion measured as of August 31, 2016. The Notes to the Financial Statements for August 31, 2016 for ERS stated that the change in proportion was immaterial and, therefore, disregarded this year.

For the year ended August 31, 2018, the College recognized total OPEB expense of $419,852 and revenue for support provided by state and federal sources of $258,507.

At August 31, 2018, the College reported its proportionate share of the ERS's collective deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	$ -	$ 68,351
Changes in actuarial assumptions	-	1,189,292
Differences between projected and actual investment earnings	1,684	-
Changes in proportion and differences between the employer's contributions and proportionate share of contributions	-	-
Total as of August 31, 2017 measurement date	$ 1,684	$ 1,257,643
Contributions paid to ERS subsequent to the measurement date	142,546	-
Total as of fiscal year end	$ 144,230	$ 1,257,643

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended August 31,	
2019	$ (282,832)
2020	(282,832)
2021	(282,832)

NOTE 14 - DEFERRED COMPENSATION PROGRAM

College employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001.

NOTE 15 - ENDOWMENTS

The College has received several contributions of endowed funds over the years. These endowments include land, cash, and investments. Most of the endowed funds are to be used for scholarships while maintaining the corpus. The College currently holds land valued at $502,750 and investments of $1,195,372 as endowments.

NOTE 16 - AD VALOREM TAX

The College's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the taxing jurisdiction.

At August 31, 2018:

Assessed valuation of the College	$ 232,739,356
Less: Exemptions	(1,391,764)
Net assessed valuation of the College	$ 231,347,592

	Current Operations	Debt Service	Total
Tax rate per $100 valuation for authorized	$ 0.85000	$ -	$ 0.85000
Tax rate per $100 valuation for assessed	0.25115	-	0.25115

NOTE 16 - AD VALOREM TAX (CONTINUED)

Taxes Collected	Current Operations	Debt Service	Total
Current taxes collected	$ 525,720	$ -	$ 525,720
Delinquent taxes collected	17,351	-	17,351
Penalties and interest collected	6,386	-	6,386
Total collections	$ 549,457	$ -	$ 549,457

Taxes levied for the year ended August 31, 2018, were approximately $552,000 (which included penalty and interest assessed, if applicable).

Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

Tax collections for the year ended August 31, 2018, were 95% of the current tax levy for the year. Property tax revenues are recognized in the year for which they are levied. The use of tax proceeds is restricted for the maintenance and operations of the College.

NOTE 17 – TAX ABATEMENTS

The College receives reduced property tax revenues as a result of abatements granted by Donley County. The abatements are intended to promote economic development in the Clarendon area. For the fiscal year ended August 31, 2018, the College's property tax revenues were reduced by $331,988 under these abatements. There are no significant abatements made by the College.

NOTE 18 - EXTENSION CENTER MAINTENANCE TAX

A maintenance tax was established by election in 2009 and is levied by Gray County tax office and Childress County Appraisal District. It is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the College. Collections are transferred to the College to be used for operation of a campus at Gray and Childress counties. This revenue is reported under local grants and contracts. Collections in fiscal year 2018 (including penalties and interest) from Gray County totaled approximately $798,000 and from Childress County totaled approximately $238,000.

NOTE 19 - INCOME TAXES

The College is exempt from income taxes under Internal Revenue Code Section 115, *Income of States, Municipalities, Etc.*, although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511 (a)(2)(B), *Imposition of Tax on Unrelated Business*

NOTE 19 - INCOME TAXES (CONTINUED)

Income of Charitable, Etc. Organizations. The College had no significant unrelated business income tax liability for the year ended August 31, 2018.

NOTE 20 - RELATED PARTIES

The Clarendon College Foundation (CCF) is a nonprofit organization with the sole purpose of supporting the educational and other activities of the College. The College does not appoint a voting majority of CCF's Board of Directors, and it does not fund, nor is it obligated to pay, debt related to CCF. CCF solicits donations and acts as coordinator of gifts made by other parties as well as providing scholarships to students attending the College. During the fiscal year, the College furnished certain services, i.e., office space, utilities, and some staff assistance, to CCF for which CCF did not reimburse the College. CCF is controlled by an autonomous Board of Directors and is not considered a component unit of the College for financial reporting purposes. During the year ended August 31, 2018, the College received funds consisting of donations and scholarships for students from CCF totaling $24,311.

The Pampa Center Foundation (PCF) was organized by the residents of the city of Pampa, Texas, for the purpose of providing educational support for the Pampa Center of Clarendon College. PCF is controlled by an autonomous Board of Directors and is not considered a component unit of the College for financial reporting purposes.

NOTE 21 - COMMITMENTS, CONTINGENCIES AND LAWSUITS

The College participates in various state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies. In the opinion of the College's management, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies. Additionally, the College’s students participate in the Federal Direct Loan Program for which the proceeds are used for tuition and education-related costs. Regulations require that default rates pertaining to loans to persons attending the College not exceed certain levels at the College. In the event that specific levels were exceeded, the program could be discontinued at the College; however, the College does not anticipate this occurring. The total amount of Direct Loans made during 2018 was $1,866,205.

On August 31, 2018, claims involving the College were pending. While the ultimate liability with respect to claims asserted against the College cannot be reasonably estimated at this time, this liability, if any, to the extent not provided for by insurance, is not likely to have a material effect on the College.

NOTE 22 - NEW GASB PRONOUNCEMENTS

The Governmental Accounting Standards Board has issued several new pronouncements that the College has reviewed for application to their accounting and reporting.

Recently Issued Accounting Pronouncements

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,* replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Among other things, Statement 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide and requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information about their OPEB liabilities. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2017. The College implemented this statement in 2018.

GASB Statement No. 83, *Certain Asset Retirement Obligations*, establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations (AROs). It requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred and requires that a deferred outflow of resources associated with an ARO to be measured at the amount of the corresponding liability upon initial measurement. In addition, this statement requires the current value of a government's AROs to be adjusted for the effects of general inflation or deflation, at least annually, and requires a government to evaluate all relevant factors, at least annually, and requires a government to evaluate all relevant factors, at least annually, to determine whether the effects of one or more of the factors are expected to significantly change the estimated asset retirement outlays. In cases where governments are legally required to provide funding or other financial assurance for their performance of asset retirement activities, this statement requires disclosure of how those funding and assurance requirements are being met, as well as the amount of any assets restricted for payment of the government's AROs, if not separately displayed in the financial statements. This statement also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. GASB 83 is effective for financial statements for reporting periods beginning after June 15, 2018. The College implemented this statement in 2018.

GASB Statement No. 84, *Fiduciary Activities*, the objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement establishes criteria for identifying fiduciary activities of all state and local governments. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. GASB No. 84 is effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged. The College is currently evaluating the effect of this statement on their financial statements.

NOTE 22 - NEW GASB PRONOUNCEMENTS (CONTINUED)

Recently Issued Accounting Pronouncements (Continued)

GASB Statement No. 85, *Omnibus 2017,* the objective of this statement is to address practice issues that have been identified during implementation and application of certain GASB statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). GASB 85 is effective for reporting periods beginning after June 15, 2017. Earlier application is encouraged. The College implemented this statement in 2018.

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, the primary objective of this statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources – resources other than the proceeds of refunding debt – are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance debt that is extinguished and notes to financial statements for debt that is defeased in substance. GASB 86 is effective for reporting periods beginning after June 15, 2017. The College implemented this statement in 2018.

GASB Statement No. 87, *Leases,* the objective of this statement is to better meet the information needs of the financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB 87 is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 88, *Certain Disclosures Related to Debt, Including Borrowing and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. The

requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 89, *Accounting For Interest Cost Incurred Before the End of a Construction Period.* The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5-22 of *Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements,* which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of this Statement should be applied prospectively. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 90, *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100

NOTE 22 - NEW GASB PRONOUNCEMENTS (CONTINUED)

Recently Issued Accounting Pronouncements (Continued)

percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis. The College is currently evaluating the effect of this statement on their financial statements.

NOTE 23 - SUBSEQUENT EVENTS

The College has evaluated for inclusion as a subsequent event disclosure only those events that occurred prior to December 13, 2018, the date the financial statements were available to be issued.

CLARENDON COLLEGE
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
Year Ended August 31, 2018

NOTE 1 - CHANGES OF BENEFIT TERMS FOR PENSION LIABILITY

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

NOTE 2 - CHANGES OF ASSUMPTIONS FOR PENSION LIABILITY

There were no changes of assumptions that affected measurement of the total liability during the measurement period.

NOTE 3 - CHANGES OF BENEFIT TERMS FOR OPEB

The following benefit revisions have been adopted since the prior measurement date.

- An increase in the out-of-pocket cost applicable to services obtained at a free-standing emergency facility;
- An elimination of the copayment for virtual visits;
- A copay reduction for Airrosti and for out-of-state participants;
- Elimination of the deductible for in-network services and application of a copayment rather than coinsurance to certain services like primary care and specialist visits.

These minor benefit changes have been reflected in the fiscal year 2018 Assumed Per Capita Health Benefit Costs.

NOTE 4 - CHANGES IN ASSUMPTIONS FOR OPEB

Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- New demographic assumptions, assumed aggregate payroll increases and rate of general inflation were updated to reflect an experience study;
- The percentage of current and future retirees and retiree's spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan who will elect to participate at the earliest date at which coverage can commence has been updated to reflect recent plan experience and expected trends.
- The proportions of future retirees covering dependent children and future retirees assumed to be earned and electing coverage
- Assumptions for administrative expenses, assumed per Capita Health Benefit Costs, Health Benefit Cost and Retiree Contribution trends to reflect recent health plan experience; and it's effects in short-term expectations and revised assumed rate of general inflation.
- The discount rate was lowered from 5.5% to 3.51% as a result of requirements of GASB 74 to utilize the yield or index rate for 20-year, tax exempt general obligation bonds rated AA/Aa (or equivalent or higher).

The expenditures included in the schedule are reported for the College's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds which have been expended by the College for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The College has elected not to use the 10% de minimis indirect cost rate as permitted in the Uniform Guidance, section 200.414. The College has followed all applicable guidelines issued by various entities in the preparation of the schedule.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Regents
Clarendon College
Clarendon, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Clarendon College (the College), as of and for the year ended August 31, 2018 and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated December 13, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of

noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

Board of Regents
Clarendon College
Clarendon, Texas

Report on Compliance for Each Major Federal Program

We have audited Clarendon College's (the College) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the College's major federal programs for the year ended August 31, 2018. The College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of it's federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the College's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the College's compliance.

Opinion on Each Major Program

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2018.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2018-001, 2018-002, 2018-003, and 2018-004. Our opinion on each major federal program is not modified with respect to these matters.

The College's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of the federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2018-001, 2018-002, 2018-003 and 2018-004, that we consider to be significant deficiencies.

The College's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

$ 300,000 - State

Auditee qualified as a low-risk auditee?	X	yes	_____	no

SECTION II - Financial Statement Findings

None

SECTION III - Federal and State Award Findings and Questioned Costs

Finding 2018-001

Program:	84.031A - Title III, Strengthening Institutions Program 84.007 - Federal Supplemental Educational Opportunity Grant 84.033 - Federal College Work Study Program 84.063 - Federal Pell Grant Program 84.268 - Federal Direct Student Loans
Compliance Requirement:	Cash Management
Condition:	Reimbursement requests are not being reviewed, approved and agreed to the general ledger by a second individual prior to drawdown of funds.
Criteria:	Per uniform guidance, the College is required to have segregation of duties so that all requests for reimbursements of expenditures are reviewed, compared to the general ledger, and approved by someone other than the person requesting the drawdown of funds. During FY 2018, drawdown requests were submitted without proper review and comparison to the general ledger.
Effect:	The failure to review and approve reimbursement requests and agree them to the general ledger could cause the College to request the incorrect amount of grant funds.
Context:	We audited five of six reimbursement requests noting none of them had been properly approved and agreed to the general ledger.
Recommendation:	We recommend that the College implement procedures to have the Vice President of Administrative Services review all reimbursement requests and agree to the general ledger prior to drawing the funds.
View of Responsible Officials:	The office of VP Administrative Services will review all expenditures related to federal grants prior to authorization of drawdowns. VP Academic Affairs will subsequently request the drawdowns.

Finding 2018-002

Program:	84.031A - Title III, Strengthening Institutions Program

SECTION III - Federal and State Award Findings and Questioned Costs (Continued)

Finding 2018-002 (Continued)

Compliance Requirement:	Allowable Costs
Condition:	The College has not been recording salaries and benefits correctly in the general ledger related to the Title III grant.
Criteria:	The general ledger is required to be the source of requesting reimbursements and documenting expenses.
Cause:	The grant project director was keeping a spread sheet on the salaries and has been using this spread sheet to request drawdowns and perform his reporting requirements. A new Vice-President of Administration was hired in November of 2017 and it was not ever communicated to him that the general ledger posting of salaries was not occurring properly.
Effect:	The improper recording of salaries could cause an improper amount of funds to be requested for reimbursement and a misrepresentation of actual grant expenses.
Context:	The error was discovered during Allowable Costs test work.
Recommendation:	We recommend that the College implement procedures to set up all employee salaries in the payroll system to allocate to the proper grant accounts. These salary allocations from payroll should be reviewed on a monthly basis to ensure they are correctly allocated.
View of Responsible Officials:	Payroll system functions are being employed to ensure salaries are allocated properly each payroll. Review to ensure proper recording will be performed each month by the Grant Administrator and Payroll personnel.

Finding 2018-003

Program:	84.031A - Title III, Strengthening Institutions Program
Compliance Requirement:	Cash Management
Condition:	The grant manager is not using the grant budget approved by the Department of Education (DOE) as a guide to ensure they are utilizing the grant funds properly.

SECTION III - Federal and State Award Findings and Questioned Costs (Continued)

Finding 2018-003 (Continued)

Criteria:	The budget approved by the DOE should be used to ascertain all expenses are in compliance with the grant.
Cause:	Grant project director misunderstood the requirements to properly use the budget.
Effect:	The College could request funds for items not approved by the grant.
Context:	We noted this in inquiry with the grant project director.
Recommendation:	We recommend that the College implement procedures that require the grant project director to compare all expenses to the grant budget prior to being approved and funds drawndown.
View of Responsible Officials:	VP of Academic Affairs will verify the Title III Budget prior to requesting funds.

Finding 2018-004

Program:	84.031A - Title III, Strengthening Institutions Program
Compliance Requirement:	Reporting
Condition:	The Annual Performance Report filed in July 2018 for the year 2016/17 did not reconcile to the general ledger or the Schedule of Expenditures of Federal Awards (SEFA) for 2016/17.
Criteria:	The general ledger should be used as the basis for preparing the financial reports. Additionally, the grant expenses should be reconciled on a monthly basis.
Effect:	The Annual Performance Report does not agree to the financial statements and SEFA. Also, the College could be requesting incorrect amounts of funding.
Context:	CMMS reviewed the Annual Performance report for 2016/17 year filed in July 2018.

SECTION III - Federal and State Award Findings and Questioned Costs (Continued)

Finding 2018-004 (Continued)

Recommendation: We recommend that the general ledger information be used and reconciled to the Annual Performance Report prior to submission.

View of Responsible Officials: VP of Academic Affairs and VP Administrative Services will verify that Title III expenses and requests reconcile to the general ledger on an ongoing basis.

CLARENDON COLLEGE
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Year Ended August 31, 2018

Finding 2017-001

Condition: The bank reconciliations are not being agreed to the general ledger.

Recommendation: A detailed review of the monthly bank accounts should be done by the VP of Administrative Services.

Current Status: See the College's response on page 101.

Finding 2017-002

Condition: Health and dental insurance payments are not being paid in a timely manner. April 2017 through August 2017 premiums were not paid until November 2017.

Recommendation: Remit payment for the insurance premiums in the month after the liability is incurred.

Current Status: See the College's response on page 101.

Finding 2017-003

Condition: The individual recording the investing or borrowing transactions is reconciling, reviewing the accounts, and investigating any discrepancies.

Recommendation: The College should separate the duties of investing, reconciling, and reviewing between College employees.

Current Status: See the College's response on page 103.

Finding 2017-004

Condition: During the fiscal year ended August 31, 2017, payroll was being processed by the Vice-President of Administrative Services. The College did not have proper review procedures in place to ensure payroll changes were properly authorized. Due to this lack of segregation of duty, when the Vice-President of Administrative Services resigned she paid herself the balance of her unused vacation days. This is not in compliance with the College's policy which states that there is no payment for unused vacation days.

Finding 2017-004 (Continued)

Cause: During 2015/16 the employee that handled payroll resigned. This employee was not replaced and the Vice President of Administrative Services took over the payroll functions. The College did not involve other management personnel to ensure proper segregation of duties.

Recommendation: We recommend that an employee be hired to process payroll and that management implement review procedures.

Current Status: See the College's response on page 103.
