Independent Auditors' Report

The Board of Trustees
Midland College District
Midland, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Midland College District (the "District") as of and for the years ended August 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of August 31, 2019 and 2018, and the respective changes in financial position, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management discussion and on pages 5-16 and the Schedule of District's Proportionate Share of Net Pension Liability and Schedule of District's Contributions for Pensions Teacher Retirement System of Texas on pages 50-51 and the Schedule of District's Proportionate Share of Net OPEB Liability Employee Retirement System of Texas State Retiree Health Plan and Schedule of District's Proportionate Contributions for OPEB Employee Retirement System of Texas State Retiree Health Plan, pages 52-53, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The organizational data and statistical supplement on page 1 and pages 68 through 76 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards, and is also not a required part of the basic financial statements. The accompanying schedule of expenditures of state awards is presented for purposes of additional analysis as required by the *Provisions of the State of Texas Single Audit Circular* and is not a required part of the basic purpose financial statements. In addition, the supplementary data presented in schedules A, B, C and D is presented for additional purposes and is not a required part of the basic financial statements.

The schedules of expenditures of federal and state awards, Schedules E on page 59 and F on page 61 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditures of federal and state awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Matters (Continued)

Other Information (Continued)

The Organizational Data and Statistical Supplement, Schedules 1 through 9 on pages 1 and 68 thru 76 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report December 12, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Overview of the Financial Statements and Financial Analysis

The Management's Discussion and Analysis is designed to provide an easy to read analysis of Midland College District's financial activities for the years ended August 31, 2019, 2018 and 2017. This overview is based on facts, decisions and conditions known as of the date of the independent auditor's report. There are three financial statements presented: the Statements of Net Position, the Statements of Revenues, Expenses, and Changes in Net Position and the Statements of Cash Flows. These statements provide both long-term and short-term financial information on the District as a whole and should be read in conjunction with the notes to the basic financial statements.

Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with the preparers.

Change in Accounting Principle

The District adopted Governmental Accounting Standards Statement Number 75 ("GASB 75"), *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, in 2018. The adoption of this standard has resulted in dramatic changes in the presentation of the District's Statements of Net Position.

Financial and Enrollment Highlights

- The District's total net position was \$85.7 million compared to \$75.6 million in 2018.
- The District's financial standing was strengthened as total net position increased by approximately \$10.2 million during fiscal year 2019 and by approximately \$6.4 million during fiscal year 2018.
- The net assessed valuation of the tax district increased by approximately \$3.9 billion or 17%, from 2018 to 2019 and increased by \$2.5 billion or 12.5% from 2017 to 2018. Taxable values were approximately \$26.8 billion in 2019 and \$22.9 billion in 2018.
- Bonded indebtedness decreased by approximately \$3.3 million in fiscal year 2019 and by approximately \$3.3 million during fiscal year 2018.
- During fiscal year 2019, the unduplicated head count of credit students decreased by 156, duplicated head count of credit students decreased by 403, and total contact hours decreased by approximately 107,000.
- During fiscal year 2018, the unduplicated head count of credit students decreased by 1,214, duplicated head count of credit students decreased by 3,262, and total contact hours increased by approximately 102,000.

The Statements of Net Position

The Statements of Net Position includes all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private-sector organizations. Net position - the difference between assets and deferred outflows of resources, less liabilities and deferred inflows of resources is one way to measure the financial health of the District. The purpose of the Statements of Net Position is to present a fiscal snapshot of the District.

From the data presented, readers of the Statements of Net Position are able to determine the resources that are available to continue the operations of the institution. Readers are also able to determine the amount the institution owes vendors, bondholders and lending institutions.

Condensed Statements of Net Position					
(in thousands)

Total Liabilities	<u>82,335</u>	<u>68,334</u>	<u>49,979</u>	<u>14,001</u>	<u>18,355</u>
Deferred Inflows of Resources	<u>12,294</u>	<u>7,658</u>	<u>2,019</u>	<u>4,636</u>	<u>5,639</u>
Net Position:					
Invested in capital assets, net of related debt	71,521	66,158	65,124	5,363	1,034
Restricted-Nonexpendable	5,298	5,168	5,245	130	(77)
Restricted-Expendable	11,396	6,026	5,649	5,370	377
Unrestricted	(2,475)	(1,813)	19,544	(662)	(21,357)
Total Net Position	<u>\$ 85,740</u>	<u>75,539</u>	<u>95,562</u>	<u>10,201</u>	<u>(20,023)</u>
Current Ratio	2.86	3.38	2.90		

The increase in current assets in 2019 is primarily related to an increase in cash and cash equivalents and short-term investments. These assets increased due to (1) the maturity of approximately \$4.5 million in long-term investments that were reinvested in shorter-term investments at year-end, (2) the receipt of \$3.6 million from the Midland College Foundation, Inc. near the end of the year to fund construction of the Cowden Dining Hall, and (3) the receipt of insurance proceeds of approximately \$7.4 million to fund storm repairs.

The Statements of Net Position (Continued)

In 2019 capital assets increased by approximately \$2.3 million net of \$4.6 million in depreciation expense. This increase is due to building additions, including approximately \$4.8 million in capitalized construction costs related to the June & Frank Cowden Dining Hall and approximately \$900 thousand in improvements to the softball complex.

Current liabilities increased primarily because of large construction invoices received subsequent to the end of the year for work completed during the month of August. In addition, the receipt of \$7.4 million in insurance proceeds were deferred, as the related expenses will be incurred in future periods.

In 2018, the District adopted Governmental Accounting Standards Board, Statement 75 *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The adoption of this standard resulted in the recognition of \$22.7 million in other post-employment benefits liability. The standard also required recognition of deferred outflows of resources of \$2.7 million and deferred inflows of resources of \$5 million. In addition, a cumulative effect adjustment of \$26.5 million was made to the beginning unrestricted net position.

In 2019, the District's proportionate share of the OPEB liability was determined to be 0.0920% compared to 0.0665% in 2018. Accordingly, this liability increased by approximately \$4.6 million in 2019. In addition, deferred outflows and deferred inflows of resources related to this plan increased by approximately \$8.2 million and \$5.5 million respectively.

In 2019, the TRS pension plan made certain changes in assumptions. These changes included a reduction in the long-term expected rate of return from 8% to 7.25% and a reduction of the discount rate from 8.0% to 6.907%. These changes resulted in an increase in the District's net pension liability of approximately \$4.7 million, and an increase in the related deferred outflows of resources of approximately \$3.4 million and a decrease in the related deferred inflows of resources of approximately \$903 thousand.

Net Position

Net position is divided into three major categories. The first category, net investment in capital assets, reflects the institution's equity in property, plant and equipment. The next category, restricted net position, is further divided into nonexpendable and expendable. The corpus, or nonexpendable restricted resources, is only available for investment purposes. Expendable restricted net position is available for expenditure by the institution, but must be spent for purposes determined by donors and/or external entities that have placed time or purpose restrictions on the use of the funds. The final category is unrestricted net position, which is available to the institution for any lawful purpose.

Net Position (Continued)

In 2015, the District adopted GASB 68, *Accounting and Financial Reporting for Pensions*. The adoption of this new accounting standard required the recognition of a cumulative effective adjustment, which resulted in the reduction of the beginning unrestricted net position by approximately \$7.3 million. In 2018, the District adopted GASB 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. Because of the adoption of this standard, unrestricted net position was reduced for a cumulative effective adjustment of approximately \$26.5 million. In 2019, the District's proportionate share of OPEB liabilities was increased from 0.06650% to 0.0920%, once again resulting in the recognition of substantial changes to the presentation of both the Statements of Financial Position and the Statements of Revenues, Expenses and Changes in Net Position. Accounting for post-retirement benefits has become the most dominate aspect the District's financial statement presentation and has confused and obscured the presentation of the District's core financial operations. The accounting changes described above have resulted in a deficit in unrestricted net position and a substantial decrease in total net position. Expendable net position, specifically unrestricted net position is an important indicator of an entity's financial stability. While the relationship of expendable net position to operating expenses is important, the change in expendable net position over a period of years is equally important. The table below is included to reflect each category of net position excluding the impact of changing accounting standards and the impact of post employment obligations.

Schedule of Net Position					
Adjusted for Pensions and Other Postemployment Benefits					
(in thousands)					
		2018-19	2017-18	2016-17	2015-16

Net Position Adjusted for Postemployment Obligations		122,291	109,806	104,803	101,156

Net Position (Continued)

When post-employment obligations are excluded, net position as well as unrestricted net position increase in each year presented. This adjusted schedule of net position indicates how net position would be reported without the adoption of GASB 68 and GASB 75. The following chart graphically reflects the growth in each category of net position after adjustment to remove the effects for post-employment benefits.

Statements of Revenues, Expenses and Changes in Net Position

The Statements of Revenues, Expenses and Changes in Net Position present the operating results of the District, as well as the non-operating revenues and expenses. Generally, operating revenues are those revenues received in exchange for the District providing goods and services. Operating expenses are those amounts paid to acquire or produce the goods and services in return for the operating revenues. Non-operating revenues are funds received with no direct relationship to the goods and services being provided. Accordingly, state appropriations and ad valorem taxes, while budgeted for operations, are classified as non-operating revenue for financial reporting purposes.

Total revenues and total expenses should be considered in assessing the change in the District’s financial position. When total revenues exceed total expenses, the result is an increase in net position. When the reverse occurs, the result is a decrease in net position. Further detail is presented in the Statements of Revenues, Expenses and Changes in Net Position and notes to the financial statements.

The following table reflects a summary of the Statements of Revenues, Expenses and Changes in Net Position for the years ended August 31, 2019, 2018 and 2017. This summary indicates the operating loss and the overall increase in net position for each of the years displayed.

Statements of Revenues, Expenses and Changes in Net Position (Continued)

Condensed Schedule of Revenues, Expenses and Changes in Net Position					
(in thousands)					
	Fiscal Year			Changes	
	2019	2018	2017	2018 to 2019	2017 to 2018
Operating Revenues and Expenses:					
Operating revenues (see detail below)	\$ 25,218	17,596	16,498	7,622	1,098
Operating expenses	60,126	55,930	58,219	4,196	(2,289)
Operating loss	(34,908)	(38,334)	(41,721)	3,426	3,387
Non-operating Revenues (Expenses):					
State appropriations	8,526	10,098	10,681	(1,572)	(583)
Ad valorem taxes	31,104	29,170	28,023	1,934	1,147
Federal, non-operating	4,257	4,477	5,400	(220)	(923)
Gifts	1,412	1,724	2,094	(312)	(370)
Interest on capital related debt	(1,213)	(1,170)	(1,321)	(43)	151
Other non-operating revenues	1,023	461	319	562	142
Total non-operating revenues, net	45,109	44,760	45,196	349	(436)
Increase in net position	10,201	6,426	3,475	3,775	2,951
Net position - beginning of year (restated)	75,539	69,113	92,088	6,426	(22,975)
Net position - end of year	<u>\$ 85,740</u>	<u>75,539</u>	<u>95,563</u>	<u>10,201</u>	<u>(20,024)</u>

Major changes in operating and non-operating revenue are as follows:

2018 to 2019 Changes

Total revenues increased by approximately \$8 million in 2019. Of this amount, operating revenues increased by approximately \$7.6 million and non-operating revenues increased by approximately \$392 thousand. Tuition and fees decreased by approximately \$478 thousand. The decrease in tuition and fees is due to a decrease in enrollment as tuition rates were the same as 2018. Gifts grants and contracts increased by \$7.6 million in 2019 compared to the prior year. This is because the District received \$3.6 million toward the construction of the Cowden Dining Hall, \$2.5 million from Midland County for paving projects, \$600 thousand toward a new Engineering Academy initiative and several grants related to the implementation of a new Pre-K program.

Total ad valorem taxes were approximately \$1.9 million or 6.6% higher in 2019 as compared to 2018. The net assessed valuation of the District increased in 2019 by approximately \$3.9 billion. The total tax rate for the district was \$0.114721 per \$100 of valuation compared to \$0.12525 for 2018.

Statements of Revenues, Expenses and Changes in Net Position (Continued)

2017 to 2018 Changes

Total revenues increased by \$511 thousand from 2017 to 2018. Of this amount, operating revenues increased by \$1.1 million from 2017 to 2018 and non-operating revenues decreased by \$586 thousand. Decreases in tuition and gifts, grants and contracts were offset by increases in ad valorem taxes, investment income and general operating revenues.

Total ad valorem taxes were approximately \$1.2 million or 4.1% higher in 2018 as compared to 2017. The net assessed valuation of the district increased in 2018 by approximately 2.5 billion or 12.5%. The total tax rate for the District was \$0.12525 per \$100 of valuation compared to \$0.1372 for 2017.

In 2018, the District faced enrollment pressures related to a very robust economy. In addition, the conversion to a new ERP system caused disruption to the admissions process affecting summer enrollments. This disruption primarily affected out-of-district and non-resident student enrollments.

Revenues

As illustrated in the preceding chart, local ad valorem taxes have become the District’s largest and most reliable revenue component. Although tuition revenue has decreased in recent years, over the long-term, tuition and fees have increased as a percentage of total revenues. State appropriations as a percentage of total revenues has decreased.

The following chart reflects revenues from all sources. For purposes of this presentation, tuition, fees and auxiliary revenues are shown prior to scholarship discounts. The Statements of Revenues, Expenses and Changes in Net Position reflect these revenues net of scholarships.

Statements of Revenues, Expenses and Changes in Net Position (Continued)

The following table illustrates the composition of total revenue for 2019 compared to 2002.

	Percentage of Total Revenues	
	2019	2002
State Appropriations	11%	30%
Local Property Taxes	41%	26%
Tuition and Fees (Gross)	17%	14%
Gifts Grants & Contracts	25%	23%
Auxiliary Services	2%	3%
Other	4%	4%
	<u>100%</u>	<u>100%</u>

Operating Expenses by Functional Classification

Functional classifications are the traditional categories that have been used to show expenses. They represent the types of programs and services provided. The following chart shows the District's 2019 expenses compared to the 2018, 2017, 2016 and 2015 expenses.

Total operating expenses were approximately \$4.2 million more in 2019 than in 2018. Of this amount, the proportionate share of post-retirement expenses was approximately \$1.6 million more in 2019 than in 2018. Depreciation expense exceeded the 2018 amounts by approximately \$684 thousand. In addition, there were grant expenses related to the start-up cost of the engineering academy and pre-K charter school.

Operating expenses were approximately \$2.3 million less in 2018 than in 2017. Approximately \$2.7 million in health insurance cost that would have been reported as expenses using the accounting standard used in 2017 were reported as deferred outflows in 2018. If the difference in accounting principle is considered, expenses would have only increased by approximately \$400 thousand in 2018.

Statements of Cash Flow

The Statements of Cash Flows provides information about cash receipts and cash payments during the year. These statements also help users assess the District's ability to generate net cash flow needed to meet its obligations as they come due and its need for external financing.

Summary of Statement of Cash Flows			
	<u>2019</u>	<u>2018</u>	<u>2017</u>
Cash Provided By (Used in):			
Operating Activities	\$ (19,696,045)	(34,235,028)	(34,873,941)
Non-Capital Financing Activities	42,332,811	41,124,950	41,014,496
Capital and Related Financing Activities	(8,276,882)	(3,369,247)	(3,064,633)
Investing Activities	(6,369,185)	795,636	324,856
Changes in Cash and Cash Equivalents	<u>\$ 7,990,699</u>	<u>4,316,311</u>	<u>3,400,778</u>

The primary cash receipts from operating activities consist of tuition and fees, housing, board and grant revenue. Cash outlays include payment of wages, benefits, supplies, utilities and scholarships. State appropriations and ad valorem taxes are the primary source of non-capital financing. Accounting standards require that these sources of revenue be reported in the statements as non-operating, even though they are considered to be operating revenues in the District's budget.

Cash flows from Capital and Related Financing Activities include proceeds from the issuance of debt, principal and interest disbursements and payments for buildings and other capital acquisitions.

Cash flows from investing activities represent the annual effect of the purchase, sale and maturity of investments, along with interest received from those investments.

Capital Assets and Debt Administration

The following table reflects the District's year-end capital asset balances, net of accumulated depreciation. Capital asset additions totaled approximately \$7.1 million and \$2 million in 2019 and 2018, respectively. Depreciation expense was approximately \$4.6 million and \$4 million in 2019 and 2018 respectively.

Schedule of Capital Assets			
(in thousands)			
	<u>2019</u>	<u>2018</u>	<u>2017</u>
Land	\$ 2,550	2,550	2,550
Library Books & Collections	434	426	435
Construction in Progress	4,807	287	1,064
Buildings & Improvements	77,594	79,141	80,045
Land Improvements	7,997	8,362	8,820
Furniture, Equipment, Vehicles	5,195	5,436	5,227
	<u>\$ 98,577</u>	<u>96,202</u>	<u>98,141</u>

Capital Assets and Debt Administration

During 2016, Moody's Investors Service ("Moody's") and Standard and Poor's (S&P) confirmed their bond ratings of "Aa2" and "AA", respectively. In 2016, Revenue Refunding Bonds were issued for the purpose of refunding a portion of the 2008 Revenue Bonds. Outstanding debt was approximately \$28.1 million and \$30.9 million as of August 31, 2019 and 2018, respectively.

Schedule of Outstanding Debt			
(in thousands)			
	<u>2019</u>	<u>2018</u>	<u>2017</u>
General Obligation Bonds	\$ 19,310	21,752	24,135
Revenue Bonds	8,870	9,740	10,685
	<u>\$ 28,180</u>	<u>31,492</u>	<u>34,820</u>

Economic Factors That Will Affect the Future

The economic condition of the District is influenced by the State of Texas, Midland County and the Permian Basin area. The unemployment rate for Midland County has been among the lowest in the nation. The Midland general economy continued its impressive expansion through the second quarter, even as the Permian Basin Petroleum Index declined for the fourth straight month. Average home sale prices and average home sales dollar volume continue to reflect year over year increases. As a result, the District expects steady increases in the assessed taxable values although at a much slower rate than recent years.

Due to the robust local economy and low unemployment rate, the District's enrollment has been under pressure. Enrollment levels are expected to be relatively stable going forward.

As of August 31, 2019, Midland College had two construction projects underway. The June and Frank Cowden Dining Hall has an expected completion date of March 2020. This project is budgeted for approximately \$11 million. Additions and improvements to the softball complex were being completed near the end of the fiscal year. The softball complex had a budget of approximately \$915 thousand. Upon completion of the June and Frank Cowden Dining Hall, the current Jack E. Brown Dining Hall will be renovated in order to house the Petroleum Profession Development Center.

State support for community college education continues to decline on a per unit basis. State appropriations are now the lowest component of the three primary revenue sources. Midland College and all Texas community colleges will continue to be required to transfer the cost of community college education to students and local taxpayers. Fortunately, generous scholarship programs are mitigating some of the student costs.

The District is not aware of any additional facts, decisions or conditions that are expected to have a significant impact on the financial position or results of operations during 2019-20 or subsequent fiscal years.

Requests for Information

This annual financial report is designed to provide interested stakeholders with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning the information provided in this report or requests for additional information should be addressed to the Vice President of Administrative Services at Midland College, 3600 N. Garfield, Midland, TX 79705.

Midland College District

NOTES TO FINANCIAL STATEMENTS

August 31, 2019 and 2018

NOTE 1 – REPORTING ENTITY

Midland College District (the “District”) was established in 1972, in accordance with the laws of the State of Texas, to serve the educational needs of the public and the surrounding communities. The District is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (“GASB”) Statement No. 14. While the District receives funding from local, state and federal sources, and must comply with the spending, reporting and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Guidelines

The significant accounting policies followed by the District in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board’s Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The District is reported as a special-purpose government engaged in business-type activities (“BTA”).

Tuition Discounting

Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (“TPEG”), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act (HEA) Program Funds

Certain Title IV HEA Program funds are received by the District to pass through to the student. These funds are initially received by the District and recorded as restricted revenue. When the student is awarded and uses these funds for tuition and fees, the amounts are recorded as revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts

The District awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The financial statements of the District have been prepared on the accrual basis of accounting. All revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. Encumbrances outstanding at year end, that were provided for in the subsequent year's budget, are reported as designations of net assets since they do not constitute expenditures or liabilities.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Deferred Inflows

In addition to liabilities, the District is aware that the statement of Net Position will sometimes report a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so, is not recognized as an inflow of resources (revenue) until that time. Governments are permitted only to report deferred inflows in circumstances specifically authorized by GASB.

Deferred Outflows

In addition to assets, the District is aware that the statement of Net Position will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so, will not be recognized as an outflow of resources (expense) until then. Governments are permitted only to report deferred outflows in circumstances specifically authorized by GASB.

Pledges

The District recognizes pledges in the financial statements when all applicable eligibility requirements, including time requirements, are met. Pledges are reported as restricted revenues prior to the fulfillment of all applicable eligibility requirements.

Unearned Revenue and Prepaid Expenditures

Unearned revenue relates to student tuition and fees received during the current fiscal period for classes to be held in the following period. Similarly, prepaid expenditures represent funds expended in the current period relating to the following period.

Inventories

Inventories consist of consumable physical plant and food service supplies. Inventories are stated at the lower of cost or market, determined using the first-in, first-out method. They are charged to expense as consumed.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase. The District considers investments in public fund investment pools to be short-term.

Budgetary Data

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for current operating funds for the fiscal year beginning September 1. The budget, which is prepared on the accrual basis of accounting, is adopted by the District's Board of Trustees. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library and Governor's Office of Budget and Planning by December 1.

Capital Assets

Capital assets are recorded at cost. Donated capital assets are valued at their estimated fair market value on the date received. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. The District reports depreciation under a single-line as a business-type unit. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The following lives are used:

Buildings	50 years
Facilities and Other Improvements	20 years
Library Books	15 years
Furniture, Machinery, Vehicles and Other Equipment	10 years
Telecommunications and Peripheral Equipment	5 years

Deferred Revenue

Deferred revenue relates to student tuition, fees and other revenues received during the current fiscal period for classes or activities to be held in the following period.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating and Non-Operating Revenue and Expense Policy

The District distinguishes operating revenues and expenses from non-operating items. The District reports as a business type activity and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations and property tax collections. Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. The operations of the dining hall and bookstore are not performed by the college.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Characterization of Title IV Grant Revenue

In response to guidance provided by the Government Accounting Standards Board (GASB) as question/answer 7.72.10 in the Implementation Guide, revenue received for federal Title IV grant programs (i.e. Pell grants) is now characterized as non-operating revenue as opposed to operating revenue.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Prior Year Restatement

Effective for fiscal year 2018, the District implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions ("OPEB"). Accordingly, a restatement to beginning net position was required for the recording of the beginning net OPEB liability and for the recording of deferred outflows of resources related to OPEB for contributions made to the ERS OPEB plan subsequent to the measurement date of the beginning net OPEB liability.

Because audited beginning balances could not be obtained for all of the deferred outflows of resources and deferred inflows of resources related to OPEB, the District determined it was impractical to restate its fiscal year 2017 financial statements. As such, the District recorded a restatement to beginning net position in the fiscal year 2018 financial statements as a cumulative effect of a change in accounting principle.

Beginning net position as of September 1, 2017 was restated as follows for the implementation of GASB Statement No. 75:

Beginning Net Position as of September 1, 2017	\$	95,562,491
Cumulative effect of change in accounting principle (GASB 75):		
Beginning Net OPEB liability (measurement date as of August 31, 2017)		(27,072,687)
Deferred outflow for District contributions to ERS plan during FY17		<u>623,003</u>
Beginning Net Position, as of September 1, 2017 as restated	\$	<u>69,112,807</u>

New Accounting Pronouncements

GASB Statement 84, "Fiduciary Activities."

The objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement establishes criteria for identifying fiduciary activities of all state and local governments. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The requirements of this statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements (Continued)

GASB Statement 87, “Leases.”

The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. The requirements of this statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged.

GASB Statement 89, “Accounting for Interest Cost Incurred before the End of a Construction Period.”

This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged and the requirements of this statement should be applied prospectively.

GASB Statement 90, “Majority Equity Interests – an amendment of GASB Statements No 14 and No. 61.”

The primary objectives of this statement are to improve the consistency and comparability of reporting a government’s majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The requirements of this statement will improve financial reporting by providing users of financial statements with essential information related to presentation of majority equity interests in legally separate organizations. The requirements of this statement are effective for reporting periods beginning after December 15, 2018 and should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis.

GASB Statement 91, “Conduit Debt Obligations.”

The primary objectives of this statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers’ conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period. The requirements of this statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 3 – AUTHORIZED INVESTMENTS

The Board of Trustees of the District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act (Section 2256.001, Texas Government Code). The investments of the District are in compliance with Trustees' investment policies. Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit and (5) other instruments and obligations authorized by statute.

NOTE 4 – DEPOSITS AND INVESTMENTS

The District is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act of 1995 (Section 2256.001, Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, (4) other obligations, the principal and interest of which are unconditionally guaranteed or insured by this state or the United States or its instrumentalities, (5) obligations of political subdivisions rated not less than A by a national investment rating firm, (6) certificates of deposit, (7) repurchase agreements and (8) other instruments and obligations authorized by statute.

Cash and Short-Term Investments: Investment policies for cash and short-term investments, as set forth by the Board of Trustees, authorize the District to invest in interest-bearing time deposits, short-term cash funds, money market funds, intermediate cash funds, U.S. Government-backed obligations, municipal bonds and commercial paper. All investments must be held by the financial institutions organized under Federal or State law.

Investments: Investment policies as set forth by the Board of Trustees also authorize the District to invest in bonds or other securities.

Deposits: At August 31, 2019 and 2018, the carrying amount of the District's deposits was \$15,756,498 and \$9,032,787, respectively; and bank balances equaled \$13,187,335 and \$7,134,916. Bank balances of \$524,928 and \$542,646 are covered by federal depository insurance and \$12,662,407 and \$6,592,270 were covered by collateral pledged in the District's name. The collateral was held by the District or by its Agent. There were no uncollateralized bank balances at either year end. (This would have included any bank balance that was collateralized with securities held by the pledging financial institution's department or agent but not in the District's name). The District held \$2,151,533 and \$578,806 in state approved public investment pools at August 31, 2019 and 2018, respectively.

Cash and Deposits included on Exhibit 1, Statements of Net Position, consist of the items reported below:

As of August 31, 2019 the District had the following investments and maturities:

Investment Type	Investment Maturities in Years				
	Fair Value	Less than 1	1 to 2	2 to 5	5 to 10
Public Funds Investment Pools	\$ 2,151,533	2,151,533	-	-	-
U.S. Government Securities	19,081,409	14,582,328	2,876,900	1,622,181	-
Municipal Bonds	9,114,393	3,704,117	4,137,895	1,272,381	-
Certificates of Deposit	<u>15,096,000</u>	<u>14,608,000</u>	<u>488,000</u>	-	-
 Total Fair Value	 <u>\$ 45,443,335</u>	 <u>35,045,978</u>	 <u>7,502,795</u>	 <u>2,894,562</u>	 <u>-</u>

As of August 31, 2018 the District had the following investments and maturities:

Investment Type	Investment Maturities in Years				
	Fair Value	Less than 1	1 to 2	2 to 5	5 to 10
Public Funds Investment Pools	\$ 578,806	578,806	-	-	-
U.S. Government Securities	15,203,819	5,190,657	7,808,832	2,204,330	-
Municipal Bonds	8,185,704	5,751,672	626,663	1,807,369	-
Certificates of Deposit	<u>12,931,000</u>	<u>10,755,000</u>	<u>1,928,000</u>	<u>248,000</u>	-
 Total Fair Value	 <u>\$ 36,899,329</u>	 <u>22,276,135</u>	 <u>10,363,495</u>	 <u>4,259,699</u>	 <u>-</u>

Interest Rate Risk: In order to limit exposure to fair value losses arising from increasing interest rates, the District has established maturity limitations for each fund group. Operating funds are primarily invested in instruments that offer high liquidity and have maturities corresponding with the short to intermediate operating needs of the District. Plant funds and other capital project funds have maturities which correspond to the associated project or debt service dates. Endowment funds are invested in long-term treasury, agency, municipal securities, and certificate of deposit. In addition, state law limits the maturities of collateralized mortgage obligations to no more than 10 years and limits maturities of commercial paper and banker's acceptances to no more than 270 days. Repurchase agreements are limited to 2 years and reverse repurchase agreements are not to exceed 90 days.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 4 – DEPOSITS AND INVESTMENTS (CONTINUED)

Credit Risk: In accordance with state law and the District’s investment policy, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1 and investments in obligations of states, agencies, counties, cities and other political subdivisions must be rated at least A. Applicable credit ratings of investments at August 31, 2019 and 2018 are reported below:

Investment Type	Credit Rating
Municipal Bonds	S&P: A thru AAA
U.S. Government Securities	S&P: AA+
TexPool	S&P: AAAm
Lone Star Government Overnight	S&P: AAAm
TexSTAR	S&P: AAAm
Texas Daily	S&P: AAAm

Concentration of Credit Risk: The District does not place a limit on the amount the District may invest in any one issuer. More than 5% of the District’s investments are in FHLM Bonds (30.48%), FHLB Bonds (15.49%), FNMA Bonds (21.06%) and US Treasury Notes (32.97%).

Custodial Credit Risk: The District’s investments have no custodial credit risk.

NOTE 5 – FAIR VALUE OF FINANCIAL INSTRUMENTS

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Fair value measurements were arrived at using the following inputs at August 31, 2019 and 2018:

Investment Type	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	2019
U.S. Government Securities	\$ 2,151,533	-	-	2,151,533
Public Funds Investment Pools	19,081,409	-	-	19,081,409
Municipal Bonds	9,114,393	-	-	9,114,393
Certificates of Deposit	-	15,096,000	-	15,096,600
Total	\$ 30,347,335	15,096,000	-	45,443,335
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	2018
U.S. Government Securities	\$ 578,806	-	-	578,806
Public Funds Investment Pools	15,203,819	-	-	15,203,819
Municipal Bonds	8,185,704	-	-	8,185,704
Certificates of Deposit	-	12,931,000	-	12,931,000
Total	\$ 23,968,329	12,931,000	-	36,899,329

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 6 – AD VALOREM TAXES RECEIVABLE (CONTINUED)

Tax collections (including penalties, interest and delinquent collections) for the years ended August 31, 2019 and 2018 were in excess of 100% of the respective year tax levy. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and operations or interest and sinking expenditures.

Ad valorem taxes receivable includes the following:

	2019	2018
Current unrestricted fund	\$ 637,870	877,824
Debt service fund	70,932	102,596
	708,802	980,420
Allowance for uncollectible taxes	(248,081)	(343,147)
Net ad valorem taxes receivable	\$ 460,721	637,273

NOTE 10 – BONDS PAYABLE

2008 Revenue Bonds

- District Building Revenue Bond and Refunding, Series 2008
- The bond was used to complete construction and purchase equipment for college buildings and facilities.
- Issued on July 30, 2008
- Original amount issued, \$12,355,000; amount authorized, \$12,355,000
- Source of payment – pledged revenues

The bonds payable are due in semi-annual installments varying from \$133,418 to \$639,033, at an interest rate of 4.94%. The final installment was originally due in 2008, but due to refunding the final payment was made in October of 2018.

NOTE 10 – BONDS PAYABLE (Continued)

2012 General Obligation Refunding Bonds

- General Obligation Refunding Bonds, Series 2012
- The bonds were used for an advance refunding of the General Obligation Bonds, Series 2005.
- Issued May 23, 2012
- Original amount issued \$26,839,052; amount authorized \$26,839,052.
- Bond issued at a net premium of \$3,443,375.
- Source of payment – Ad valorem taxes

The bonds payable are due in semi-annual installments varying from \$45,825 to \$3,100,825 with interest rates ranging from 2% to 22.9%. The average coupon rate is 3.7%. The final installment is due in 2026.

2016 Revenue Refunding Bonds

- District Building Refunding Revenue Bonds, Series 2016
- The bonds were used for an advance refunding of the Revenue Refunding Bonds, Series 2008.
- Issued May 1, 2016
- Original amount issued \$9,710,000; amount authorized \$9,710,000.
- Source of payment – pledged revenues

The bonds payable are due in semi-annual installments varying from \$180,107 to \$551,231 with interest rate of 2.25%. The final installment is due in 2022.

NOTE 13 – DEFINED BENEFIT PENSION PLAN

The State of Texas has joint contributory retirement plans for almost all its employees.

A. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

B. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

C. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 13 – EMPLOYEES’ RETIREMENT PLANS (CONTINUED)

D. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member’s annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS’ unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The 85th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2018 and 2019.

Contribution Rates

	2018	2019
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
District	6.8%	6.8%
2018 District Contributions	\$ 694,489	
2018 State of Texas On-behalf Contributions	\$ 490,997	
2018 Member Contributions	\$ 1,299,308	

The District’s contributions to the TRS plan in 2019 were \$720,736 as reported in the Schedule of District Contributions in the Required Supplementary Information section of these financial statements. Estimated State of Texas on-behalf contributions for 2019 were \$511,769.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

Public junior colleges or junior college districts are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment.
- When any part or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 13 – EMPLOYEES' RETIREMENT PLANS (CONTINUED)

D. Actuarial Assumptions

The total pension liability in the August 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2017 rolled forward to August 31, 2018
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Single Discount Rate	6.907%
Long-term expected Investment Rate of Return*	7.25%
Municipal Bond Rate*	3.69%
Last year ending August 31 in the 2016 to 2115	2115
Projection period (100 years)	
Inflation	2.30%
Payroll growth rate	1.51%
Salary Increases	3.05% to 9.05%
Benefit changes during the year	None
Ad-hoc post-employment benefit changes	None

* Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial methods and assumptions were selected by the board of trustees based upon analysis and recommendations by the system's actuary. The board of trustees has sole authority to determine the actuarial assumptions used for the plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three-year period ending August 31, 2017 and were adopted in July 2018. There were no changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period. Assumptions, methods, and plan changes were updated from the prior year's report. The net pension liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 8 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- The long-term assumed rate of return changed from 8 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 13 – EMPLOYEES’ RETIREMENT PLANS (CONTINUED)

F. Discount Rate

The discount rate used to measure the total pension liability was 6.907%. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent and a municipal bond rate of 3.69 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on these assumptions, the pension plan’s fiduciary net position and future contributions were sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS’ target asset allocation as of August 31, 2018, are summarized below:

Asset Class	Target Allocation	Long-Term Expected Geometric Real Rate of Return	Expected Contribution to Long-Term Portfolio Returns*
Global Equity:			
U.S.	18%	5.7%	1.04%
Non-U.S. Developed	13%	6.90%	0.90%
Emerging Markets	9%	8.95%	0.80%
Directional Hedge Funds	4%	3.53%	0.14%
Private Equity	13%	10.18%	1.32%
Stable Value:			
U.S. Treasuries	11%	1.11%	0.12%
Absolute Return	-%	-%	-%
Stable Value Hedge Funds	4%	3.09%	0.12%
Cash	1%	(0.30)%	-%
Real Return:			
Global Inflation Linked Bonds	3%	0.70%	0.02%
Real Assets	14%	5.21%	0.73%
Energy and Natural Resources	5%	7.48%	0.37%
Commodities	-%	-%	-%
Risk Parity:			
Risk Parity	5%	3.70%	0.18%
Inflation expectation			2.3 %
Volatility drag			(0.79) %
Total	100%		7.25%

* The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 13 – EMPLOYEES’ RETIREMENT PLANS (CONTINUED)

G. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used 6.907% in measuring the 2018 Net Pension Liability.

	<u>1% Decrease in Discount Rate 5.907%</u>	<u>Discount Rate 6.907%</u>	<u>1% Increase in Discount rate 7.907%</u>
The District’s proportionate share of the net pension liability: \$	17,176,897	11,381,158	6,889,164

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2019, the District reported a liability of \$11,381,158 for its proportionate share of the TRS’s net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

The District’s proportionate share of the collective net pension liability	\$	11,381,158
State’s proportionate share that is associated with the District		<u>7,908,667</u>
Total	\$	<u><u>19,289,825</u></u>

The net pension liability was measured as of August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer’s proportion of the net pension liability was based on the employer’s contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2017 thru August 31, 2018.

At the measurement date of August 31, 2018 the employer’s proportion of the collective net pension liability was 0.020677%, which was a decrease of 0.0002243% from its proportion measured as of August 31, 2017.

For the year ended August 31, 2019, the District recognized pension expense of \$782,747 and revenue of \$782,747 for support provided by the State. Refer to the 2018 schedule of On-Behalf Contributions for this information posted on the TRS website under GASB 67 & 68.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 13 – EMPLOYEES’ RETIREMENT PLANS (CONTINUED)

I. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

At August 31, 2019, the District reported its proportionate share of the TRS’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 70,941	279,249
Changes in actuarial assumptions	4,103,456	128,233
Difference between projected and actual investment earnings	591,471	807,420
Changes in proportion and difference between the employer’s contributions and proportionate share of contributions	-	529,990
Contributions paid to TRS subsequent to the measurement date	720,736	-
Total	\$ 5,486,604	1,744,892

* THECB Comment: Per paragraph 71b of GASB 68, collective deferred outflows of resources and deferred inflows of resources arising from differences between projected and actual pension plan investment earnings in different measurement periods should be aggregated and included as a net collective deferred outflow of resources related to pensions or a net collective deferred inflow of resources related to pensions.

The net amounts of the employer’s balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2020	753,644
2021	299,203
2022	208,537
2023	654,612
2024	663,547
Thereafter	441,433

NOTE 14 – OTHER RETIREMENT PLAN

Optional Retirement Plan

Plan Description. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The Optional Retirement Program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by Texas state legislature. The percentages of participant salaries currently contributed by the state and each participant are 6.65% and 6.6%, respectively. The District contributes .71% for employees who were participating in the Optional Retirement Program prior to September 1, 1995, and .2% for all other employees. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. Effective September 1, 2013, Senate Bill (S.B.) 1812 limits the amount of the state’s contribution to 50% of the cost of eligible employees in the reporting district.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 14 – OTHER RETIREMENT PLAN (CONTINUED)

Optional Retirement Plan (Continued)

The retirement expense for the Optional Retirement Program to the State for the District was \$206,261 and \$226,909 for the fiscal years ended August 31, 2019 and 2018, respectively. This amount represents the portion of expended appropriations made by the state legislature on behalf of the District.

The total payroll for all District employees was \$27,372,761 and \$27,338,633 for fiscal years 2019 and 2018, respectively. The total payroll of employees covered by the Optional Retirement Program was \$6,704,069 and \$7,318,813 for fiscal years 2019 and 2018, respectively.

NOTE 15 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description. The District participates in a cost-sharing, multiple-employer, other post-employment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

OPEB Plan Fiduciary Net Position. Detailed information about the GBP's fiduciary net position is available in the separately issued ERS Comprehensive Annual Financial Report (CAFR) that includes financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at <https://ers.texas.gov/About-ERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management>; or by writing to ERS at: 200 East 18th Street, Austin, TX 78701; or by calling (877) 275-4377.

Benefits Provided. Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

Contributions. Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds.

NOTE 15 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

Contributions (Continued)

The following table summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium. The District reimburses retirees only for dental insurance up to \$27.41 and optional life insurance up to \$23.40. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

Maximum Monthly Employer Contribution
Retiree Health and Basic Life Premium
Fiscal Year FY18

Retiree only	\$	622
Retiree & Spouse		1,335
Retiree & Children		1,099
Retiree & Family		1,812

Contributions of premiums to the GBP plan for the current and prior fiscal year by source is summarized in the following table.

Premium Contributions by Source
Group Benefits Program Plan
For the Years Ended August 31, 2019 and 2018

		2019	2018
Employers	\$	307,028,461	890,735,173
Members (employees)		203,123,120	195,806,162
Nonemployer Contributing Entity (State of Texas)		16,585,270	46,092,316

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 15 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

Actuarial Assumptions. The total OPEB liability was determined by an actuarial valuation as of August 31, 2018 using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Assumptions ERS Group Benefits Program Plan

Valuation date	August 31, 2018
Actuarial cost method	Entry Age
Amortization method	Level Percent of Payroll, Open
Remaining amortization period	30 years
Asset valuation method	Marked to Market
Discount rate	3.96%
Projected annual salary increase (includes inflation)	2.5% to 9.50%
Annual healthcare trend rate	7.30% for FY2020, 7.40% for FY2021, 7.00% for FY 2022, decreasing .05% per year to 4.50% for 2027 and later years
Inflation assumption rate	2.50%
Ad hoc postemployment benefit changes	None
Mortality assumptions:	
Service retirees, survivors and other Inactive members	2017 State Retirees of Texas Mortality table with a 1 year set forward for male CPO/CO members and Ultimate MP Projection Scale projected from the year 2017.
Disability retirees	RP-2014 Disabled Retiree Mortality with Ultimate MP Projection Scale projected from the year 2014.
Active members	RP-2014 Active Member Mortality tables with Ultimate MP Projection Scale from the year 2014.

Source: 2018 ERS CAFR except for mortality assumptions obtained from ERS 2018 GAS #74 Actuarial Valuation

Many of the actuarial assumptions used in this valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2017 for higher education members.

Investment Policy. The State Retiree Health Plan is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The System's Board of Trustees adopted the amendment to the investment policy in August 2017 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 2.4%.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 15 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

Discount Rate. Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate used to determine the total OPEB liability as of the beginning of the measurement year was 3.51%. The discount rate used to measure the total OPEB liability as of the end of the measurement year was 3.96%, which amounted to an increase of 0.45%. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp's AA rating. Projected cash flows into the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go (PAYGO) basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable is zero years.

Discount Rate Sensitivity Analysis. The following schedule shows the impact on the District's proportionate share of the collective net OPEB Liability if the discount rate used was 1 percent less than and 1 percent greater than the discount rate that was used 3.51% in measuring the net OPEB Liability.

	1% Decrease in Discount Rate 2.96%	Discount Rate 3.96%	1% Increase in Discount Rate 4.96%
District's Properties share of the net OPEB liability	\$ 32,357,247	27,254,343	23,392,019

Healthcare Trend Rate Sensitivity Analysis. The initial healthcare trend rate is 8.5% and the ultimate rate is 4.5%. The following schedule shows the impact on the District's proportionate share of the collective net OPEB Liability if the healthcare cost trend rate used was 1 percent less than and 1 percent greater than the healthcare cost trend rate that was used (4.5%) in measuring the net OPEB liability.

	1% Decrease Healthcare Cost Trend Rates (6.30% decreasing to 3.5%)	Current Healthcare Cost Trend Rates (7.3% decreasing to 4.5%)	1% Increase in Healthcare Cost trend Rates (8.3% decreasing to 5.5%)
District's Properties share of the net OPEB liability	\$ 23,080,904	27,254,343	32,638,088

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. At August 31, 2019, the District reported a liability of \$27,254,343 for its proportionate share of the ERS's net OPEB liability. This liability reflects a reduction for State support provided to the District for OPEB. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

The District's Proportionate share of the collective net OPEB liability	\$ 27,254,343
State's Proportionate share that is associated with District	<u>22,216,096</u>
	<u>\$ 49,470,439</u>

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 15 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

The net OPEB liability was measured as of August 31, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2017, thru August 31, 2018.

At the measurement date of August 31, 2018, the employer's proportion of the collective net OPEB liability was 0.0920%, 0.0255% higher than August 31, 2017.

For the year ended August 31, 2019, the District recognized OPEB expense of \$132,066 and revenue of \$132,066 for support provided by the State.

Changes Since the Prior Actuarial Valuation – Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- Demographic assumptions (including rates of retirement, disability, termination, mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the trustees from the Teachers Retirement System of Texas.
- Assumed expenses, assumed per capita health benefit costs, and assumed health benefit cost, retiree contribution, and expense trends have been updated to reflect recent experience and its effects on our short-term expectations.
- The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence
- The percentage of future retirees assumed to be married and electing coverage for their spouse have been updated to reflect recent plan experience and expected trends.
- The discount rate assumption was increased from 3.51% to 3.96% to utilize the updated yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

Changes of Benefit Terms Since Prior Measurement Date – The following benefit revisions have been adopted since the prior valuation:

- An increase in the out-of-pocket maximum for both HealthSelect and Consumer Directed HealthSelect for those HealthSelect retirees and dependents for whom Medicare is not primary.

These minor benefit changes have been reflected in the fiscal year 2018 Assumed Per Capita Health Benefit Costs.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 15 – POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

At August 31, 2019 the District reported its proportionate share of the ERS plan’s collective deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ -	998,511
Changes in actuarial assumptions	-	9,550,669
Difference between projected and actual investment earnings	12,906	-
Changes in proportion and difference between the employer’s contributions and the proportionate share of contributions	10,669,657	-
Contributions subsequent to the measurement date	234,705	-
Total	\$ 10,917,268	10,549,180

The net amounts of the employer’s balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended August 31:	OPEB Expense Amount
2020	\$ (363,477)
2021	(363,477)
2022	(363,477)
2023	507,989
2024	715,825
Thereafter	-

NOTE 16 – COMPENSATED ABSENCES

Accumulated unpaid vacation pay is accrued as incurred in accordance with NCGA Statement 4, *Accounting and Financial Reporting for Claims and Judgments and Compensated Absences*.

To accrue vacation, an individual must be employed on a full-time basis for a twelve-month appointment. Employees can earn annual vacation leave at the rate of 80 hours per year for the first 9 years up to a maximum of 160 hours per year after 20 years of service. There is no requirement that annual leave be taken, but the maximum permissible accumulation is 120 hours for employees with less than 10 years of service. Employees with 10-19 years of service may accumulate up to 180 hours and employees with 20 years of service or more may accumulate up to 240 hours. At termination, employees are paid for any accumulated annual vacation leave not to exceed their annual entitlement. The liability for accumulated unpaid vacation leave was approximately \$678,876 and \$713,354 on August 31, 2019 and 2018, respectively.

Employees earn sick leave at the rate of 12 hours per month for the first six months of employment, and at a rate of 8 hours for each month thereafter. Sick days may be accumulated up to 720 hours. Upon retirement, or upon termination with 10 years or more service, the employee may be paid for any accumulated sick leave in excess of 240 hours, at a rate of 1/2 of the employee’s current base hourly rate. If an employee terminates prior to 10 years of continuous full-time service, all accumulated sick leave is forfeited. The accrued sick leave amounted to approximately \$1,094,902 and \$1,144,455 on August 31, 2019 and 2018, respectively. As of August 31, 2019 and 2018, non-exempt employees have accrued approximately \$155,363 and \$158,401, respectively, in compensatory time.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 17 – FUND BALANCES

Ending fund balances at August 31 were as follows:

	<u>2019</u>	<u>2018</u>
Current funds:		
Fund balance, unrestricted	\$ (3,460,008)	(2,798,065)
Fund balance, auxiliary enterprises	984,959	984,959
Fund balance, restricted	<u>11,396,187</u>	<u>6,025,548</u>
Total current fund balance	8,921,138	4,212,442
Fund balance, endowment and similar funds	5,297,604	5,168,087
Fund balance, plant funds	<u>71,521,434</u>	<u>66,158,105</u>
Fund balance, primary government	<u>\$ 85,740,176</u>	<u>75,538,634</u>

NOTE 18 – LITIGATION

In the ordinary course of business, the District is involved with various claims and potential litigation. Management does not believe that any of these matters will have a material adverse effect on the financial position of the District.

NOTE 19 – CONTRACTS AND GRANT AWARDS

Contract and grant awards are accounted for in accordance with the requirements of the AICPA Industry Audit Guide, *Audits of Colleges and Universities*. Revenues are recognized on Exhibit 2 and Schedule A. For federal contract and grant awards, funds expended, but not collected, are reported as Federal Receivables on Exhibit 1. Non-federal contract and grant awards for which funds are expended, but not collected, are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contract and grant award funds already committed, e.g., multi-year awards, or funds awarded during fiscal years 2019 and 2018 for which monies have not been received nor funds expended total \$631,003 and \$403,376, respectively. All of these amounts were from federal contract and grant awards.

NOTE 20 – INCOME TAXES

The District is exempt from income taxes under Internal Revenue Code Section 115, Income of States Municipalities, Etc., although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511 (a)(2)(B), Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations. The District had no unrelated business income tax liability for the years ended August 31, 2019 and 2018.

NOTE 21 – SPLIT INTEREST AGREEMENTS

The District has a beneficial interest in a split interest agreement in which it will receive 25% of the remaining assets upon the death of the lead beneficiaries. The District recognized \$3,691 and \$3,482 representing the discounted present value of the expected distributions for the years ended August 31, 2019 and 2018, respectively. The contribution receivable was approximately \$65,205 and \$61,514 as of August 31, 2019 and 2018, respectively.

Midland College District

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2019 and 2018

NOTE 22 – COMMITMENTS

As of August 31, 2019, the District has awarded the following contracts for projects that are in progress:

Dining Hall Construction Project	\$	6,093,932
Softball Construction Project	\$	403,407

NOTE 23 – RELATED PARTY

Midland College Foundation, Inc. (the “Foundation”), an independent corporation organized for the purpose of fund raising to benefit the District, made contributions of \$7,809,568 and \$3,528,719 in fiscal years 2019 and 2018, respectively. Two trustees of the District are also on the Board of Directors of the Foundation.

NOTE 24 – BRANCH CAMPUS MAINTENANCE TAX

A branch campus maintenance tax that is established by election is levied by Pecos County. It is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the county. Collections are transferred to the college to be used for operation of a Branch Campus at Fort Stockton, Texas. This revenue is reported under Local Grants and Contracts.

	<u>2019</u>	<u>2018</u>
County or Independent School District:	Collections (including penalties and interest)	Collections (including penalties and interest)
Pecos County	\$ 989,728	990,251

NOTE 25 – SUBSEQUENT EVENTS

Management of the District has performed an evaluation of the District’s activity through December 12, 2019, the date these financial statements were available for issuance and noted no significant event that would require recording or disclosure.

REQUIRED SUPPLEMENTARY INFORMATION

Midland College District

SCHEDULE OF DISTRICT'S PROPORTIONATE SHARE OF NET PENSION LIABILITY

For the Year Ended August 31, 2019

Fiscal year ending August 31,*	2018	2017	2016	2015	2014**
District's proportionate share of collective net pension liability (%)	0.020677 %	0.0209193 %	0.0210081 %	0.0214909 %	0.0240000 %
District's proportionate share of collective net pension liability (\$)	\$ 11,381,158	6,688,879	7,938,654	7,596,747	6,410,732
State's proportionate share of net pension liability associated with District	<u>7,908,667</u>	<u>4,490,670</u>	<u>5,568,440</u>	<u>5,178,200</u>	<u>4,326,729</u>
Total	19,289,825	11,179,549	13,507,094	12,774,947	10,737,461
District's covered-employee payroll	\$ 16,884,581	16,349,262	16,106,059	15,265,625	14,206,012
District's proportionate share of collective net pension liability as a percentage of covered-employee payroll	67.41 %	40.91 %	49.29 %	49.79 %	45.13 %
Plan fiduciary net position as percentage of the total pension liability	73.74 %	82.17 %	78.00 %	78.43 %	83.25 %

*The amounts presented above are as of the measurement date of the collective net pension liability

**Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

NOTE 1: CHANGES OF BENEFIT TERMS INCLUDE:

Information about factors that significantly affect terms in the amounts reported in the RSI Schedules should be presented (for COLA increases).

NOTE 2: CHANGES OF ASSUMPTIONS:

The following changes of assumptions occurred during the year ending August 31, 2019:

- The total pension liability as of August 31, 2018 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 8 percent as of August 31, 2017 to 6.907 percent as of August 31, 2018.
- The long-term assumed rate of return changed from 8 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

SINGLE AUDIT REPORTS

JOHNSON MILLER & CO., CPA's PC

Certified Public Accountants

A Professional Corporation

An Independent Member of BDO Alliance USA

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Trustees
Midland College District
Midland, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Midland College District (the "District"), as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon December 12, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Compliance with the Texas Public Funds Investment Act

We have performed tests designed to verify the District's compliance with the requirements of the Texas Public Funds Investment Act. During the year ended August 31, 2019, no instances of noncompliance were noted.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of management, the District's trustees, audit committee, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Midland, Texas
December 12, 2019

**Independent Auditors' Report on Compliance for
Each Major Program and Internal Control Over
Compliance Required by the Uniform Guidance and the
Provisions of the State of Texas Single Audit Circular**

The Board of Trustees
Midland College District
Midland, Texas

Report on Compliance for Each Major Federal Program

We have audited Midland College District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement and the Provisions of the State of Texas Single Audit Circular* that could have a direct and material effect on each of the District's major federal and state programs for the year ended August 31, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the *Provisions of the State of Texas Single Audit Circular*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2019.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the Provisions the State of Texas Single Audit Circular. Accordingly, this report is not suitable for any other purpose.
