INDEPENDENT AUDITOR'S REPORT

UNQUALIFIED OPINIONS ON THE BASIC FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION - SINGLE AUDIT-GOVERNMENTAL ENTITY

The Board of Trustees Trinity Valley Community College 100 Cardinal Drive Athens, Texas 75751

Members of the Board of Trustees:

We have audited the accompanying financial statements of Trinity Valley Community College (the "College"), a special purpose government engaged only in business - type activities, as of and for the year ended August 31, 2012, which collectively comprise the College's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the College's administration. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business - type activities of the College as of August 31, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2012, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget *Circular A-133*, *Audits of States*, *Local Governments*, *and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the College. The schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Texas Coordinating Board requires Texas colleges to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. This information is in schedules identified in the Table of Contents as Schedules A through D and F, and portfolio composition with compliance report. The schedules A through D and F and portfolio composition have been subjected to the auditing procedures applied in the audit of the basic financial statements and , in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Respectfully submitted,

SMITH, LAMBRIGHT & ASSOCIATES, P. C.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Trinity Valley Community College's financial statements provides an overview of the College's financial activities for the year ending August 31, 2012. Please read it in conjunction with the independent auditor's reports, the College's basic financial statements, footnotes, and schedules.

Trinity Valley Community College is a comprehensive community college providing both credit and non-credit courses. Courses are taught at the Athens campus, Palestine campus, Terrell campus, Kaufman Health Science Center, Texas Department of Criminal Justice, area high schools and through distance education. In order to maintain financial stability, the College strives to have adequate revenue streams to accumulate net assets to ensure sufficient funding to accomplish its mission.

USING THIS REPORT

The College's financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) Statement 33 "Accounting and Financial Reporting for Nonexchange Transactions," Statement 34 "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments," and Statement 35 "Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities." These statements require a comprehensive one-line look at the entity. Financial data is presented in a form similar to that used by corporations. This presentation contrasts with financial statements prepared prior to implementation of GASB 33, 34 and 35 which focused on accountability of funds ,i.e., current, auxiliary, endowment, loan and plant funds.

The annual financial report is presented in two sections: organizational data and financial data. The organizational section includes the College's Board of Trustees and principal officers. The financial section includes the independent auditor's report, this management's discussion and analysis, the financial statements, notes to the financial statements, other auditor reports, and schedules.

FINANCIAL INFORMATION

There are three basic financial statements in this report. The financial statements focus on the financial condition of the College, the results of operations, and cash flows of the College, and assist the reader in assessing the College's financial health. The basic financial statements are:

- The Statement of Net Assets,
- The Statement of Revenues, Expenses, and Changes in Net Assets, and
- The Statement of Cash Flows.

The Statement of Net Assets

The Statement of Net Assets (SONA) includes all assets and liabilities and is presented as Exhibit 1 on page 13. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service to us, regardless of when cash is received or paid. This statement reflects the status of the College's financial resources after the revenues and expenses have been recorded for the year.

The College's net asset balance (the difference between assets and liabilities) is one indicator of the College's financial health. Over time, increases or decreases in net assets is one indicator of the improvement or deterioration of the College's financial health. Of course, other non-financial data such as enrollment levels and condition of facilities should also be considered in this assessment.

As shown on the SONA, net assets increased by \$1,673,718, a 4% over net assets at fiscal year-end 2011.

Presented on the following page is a condensed SONA showing fiscal years 2012, 2011 and 2010 for comparative purposes.

The Statement of Revenues, Expenses, and Changes in Net Assets

The Statement of Revenues, Expenses, and Changes in Net Assets (SRECNA) presents the revenues earned and expenses incurred during the year and is presented as Exhibit 2 on page 15. The activities of the College are classified as either operating or non-operating.

GASB 33, 34, and 35 accounting requirements define *operating* and *non-operating* revenues for public colleges. Operating revenues are activities that generate income that result from "exchange transactions", i.e., payments received for the college's services. Under this definition, although they are budgeted for operational use, state appropriations and ad valorem tax revenues are considered non-operating revenue because these revenues do not meet the above mentioned definition for operating revenue, i.e., income resulting from "exchange transactions". Similarly, current GASB interpretation advocates the classification of federal Title IV funds as non-operating revenue as well.

GASB 33, 34, and 35 also require the following treatment of revenues and capital expenditures:

- The reporting of tuition and fees and auxiliary (housing, food service and bookstore) revenue is *net of discounts*. Discounting is the practice of accepting less than the stated charge for tuition, fees, room, board and/or books in payment for the goods and services provided. Common terminology for methods of discounting are: "institutional scholarships" when self-funded by the institution, "waivers" and/or "exemptions" when state mandated, "financial aid" and "allowances". Prior to GASB 34 and 35, reporting gross tuition and fee revenue, and reporting an offsetting expense as "scholarships and financial aid" was the generally acceptable accounting treatment for public colleges and universities. GASB 34 and 35 now require the reporting of scholarship/financial aid as a deduction (discount) from revenue; and
- The utilization of long-lived assets, referred to as capital assets, is reflected in the financial statement as depreciation expense, which allocates the cost of an asset over its expected useful life.

• Due to the above accounting treatments and especially since state appropriations, ad valorem taxes and federal Title IV funds are three of the four primary sources of revenue (state appropriations, tuition and fees, federal funds and property taxes), it is typical to have an *operating loss* on the Statement of Revenues, Expenses, and Changes in Net Assets. If state appropriations, property tax revenue, and federal Title IV funds are added to operating revenues, overall income will usually be positive as is the case this year.

Additional factors that affect the levels of revenues and expenses include:

Revenues:

- Enrollment levels directly affect tuition and fee revenues and auxiliary (housing, food service, and bookstore) sales, services and fee revenues.
- The State of Texas contributes a significant portion of the College revenues through state appropriations. Thus, the economic health and budget priorities of the State may directly affect revenues.
- The College derives a significant amount of grant and student financial aid from the Federal and State governments. Again, changes in their budget priorities may affect revenues.
- Increases or decreases in property tax valuations and property tax rates will affect tax revenues.
- Investment income is affected by changes in interest rates, the stock market, etc.

Expenses:

- Enrollment levels may directly affect expenses by increasing or decreasing the resources required to support the students.
- The implementation of new programs or additional services within the existing functional expense categories directly affects the level of services required and resources needed.
- Economic factors, such as changes in prices caused by inflation or changes in energy prices, will impact operating costs.

Note: In the SRECNA, the terminology "scholarships" used under operating expenses are monies paid directly to students and were not included as a "discount" against tuition, fees, room, board and book revenues. (See paragraph on tuition discounting above.) The majority of these monies are Federal Financial Aid that flow from the U.S. Department of Education through the College to the students for their own use after educational costs have been paid.

Total operating revenue was \$12,750,505, a decrease of \$1,914,788 or 13% over the prior year. The primary contributor to the decrease was that prior year revenue contained one-time grant-provided (non-governmental) revenues of \$1,900,000 representing the value of software licenses for the college's new mechanical engineering technology program.

Operating expenses totaled \$43,999,370 a decrease of \$3,575,397 or 7.8% over the previous year. The primary components of this decrease were 1) lower scholarship expenses (which are cash balances paid out to students after TVCC charges have been paid) of approximately \$2,000,000 comprised of a) a reduction in Pell funds paid to students because the college increased tuition and fee rates for the academic year, thereby increasing the amount of Pell funds paid to the college and less directly to the student, b) the elimination of the Academic Competitiveness Grant by the US Department of Education, and c) the elimination of the JET and ADN scholarships by the State of Texas; and 2) the absence of one-time grant-funded (non-governmental) expenditures of \$1,900,000 for software licenses associated with the college's new mechanical engineering technology program incurred in the prior year. These decreases were offset by an increase of approximately \$205,000 in the cost of employee benefits, and an increase in Auxiliary Enterprise expenses of approximately \$321,000 due to a price increase in the college's food services contract and an increase in bad debt expense to more adequately allow for outstanding Room & Board and Bookstore accounts receivable (mostly due to Return of Title IV funds) that will likely need to be written off over the next year or two.

Net non-operating revenue, the majority of which is state appropriations, property tax revenue and federal Title IV funding, decreased \$488,972 or 1.5% compared to the previous year. The decrease is primarily attributable to 1) a reduction in state funding of \sim \$238,000, 2) a reduction in federal Title IV funding of \sim \$532,000 due to

the elimination of the Academic Competitiveness Grant by the US Department of Education (\$305,000) and a reduction in Pell Grant funding of ~\$265,000 (although more students received Pell Grants this year vs. last year, the total dollar amount awarded was lower) and 3) a decrease of ~\$63,000 in investment income due to lower interest rates. These revenue decreases were offset by an increase in property tax revenue of ~\$313,000 due to an increase in tax rates and a decrease in miscellaneous other non-operating expenses of ~\$29,000.

Presented on the following page is a condensed SRECNA showing fiscal years 2012, 2011 and 2010 for comparative purposes

Statement of Cash Flows

Another way to assess the financial health of an institution is to analyze cash flow. The college's Statement of Cash Flows is presented as Exhibit 3 on page 17. Its primary purpose is to provide relevant information about actual cash receipts and cash payments during the period. It also helps users assess the institution's ability to generate future net cash flows, its ability to meet its obligations as they come due and whether or not there is a need for external financing.

Cash provided (used) by *operating activities* represents the difference in the incoming and outgoing cash for educational and administrative activities (primarily receipts for tuition and fees, auxiliary services, and grants and payments for salaries, goods and services and scholarships).

Cash provided by *non-capital financing activities* represent state appropriations, collections for local ad valorem taxes, federal Title IV funds and agency transactions.

Cash provided (used) in *capital and related financing activities* represent bond proceeds received and payments for acquisitions and construction of capitalized assets.

Cash provided (used) by *investing activities* may include proceeds from sales of investment instruments, receipts of interest and dividends, and purchases to acquire investment instruments.

For fiscal year 2012, there was more cash provided (inflow) than used (outflow) resulting in positive cash flow of \$1,537,185 as compared to fiscal year 2011 negative cash flow of \$7,514,946. While the increase in positive cash flow over the prior year is attributable to many offsetting inflows and outflows, the change can be primarily attributed to the absence of significant capital spending in 2012 compared to capital spending for the new residence hall in 2011.

Capital Asset and Debt Administration

Capital Assets

At August 31, 2012, the College had \$36,476,311 invested in capital assets, net of accumulated depreciation of \$17,429,513. Refer to Note 6 in the Notes to the Financial Statements (page 23) for further details on the College's capital assets.

The College remains committed to maintaining adequate physical resources to support its mission, and in early 2009 completed a major update to the campus master plan. A new residence hall was completed in 2011 and funded with cash reserves. Architectural plans for the Health Science Center expansion have been prepared; the college is building back up its cash reserves before moving further with the project.

There were no significant capital projects undertaken during the year.

Debt

The College refunded the remaining obligation under its Series 2005 general revenue bond with a new Series 2012 general revenue bond in order to take advantage of lower interest rates; the rate was reduced from 4% to 1.7%. Outstanding debt on the new bond at fiscal year-end is \$1,875,000 with \$595,000 (plus interest) due in fiscal year 2013.

Outstanding debt under the College's lease/purchase agreement entered into in 2011 to finance the acquisition of a new telecommunications and telephone system is \$221,723 with \$33,519 due in fiscal year 2013.

The college has no other debt as of August 31, 2012.

Refer to Notes 7 and 9 in the Notes to the Financial Statements (pages 25 and 26) for additional information regarding debt.

Contingencies

As explained further in Note 29 regarding TRS/ORP employee retirement system funding: The State of Texas contributed six percent of each community college district's unrestricted general revenue appropriation for each year of the legislative biennium spanning fiscal years 2012 and 2013, rather than the constitutionally provided minimum of six percent of the aggregate compensation paid to individuals participating in the system.

There is no pending litigation concerning this issue to construe the constitutional funding requirements; or to hold that the State biennium appropriations satisfy those requirements; or to attempt to collect any shortfall contributions from any community college district.

The college has calculated that as of August 31, 2012 the contribution that has not been paid to TRS on behalf of college employees is \$260,091.

Affiliated Organization

The Trinity Valley Community College Foundation is not a component unit as defined in GASB 39. However, we have reported the Foundation as an affiliated organization.

The Foundation plays a key role in helping the college fulfill its mission primarily through the awarding of scholarships to TVCC students. The Foundation's Net Asset balance at fiscal year-end August 31, 2012 is \$3,426,271, a net increase of approximately \$187,000 after scholarship and other expenses. The Foundation's Statement of Net Assets and Statement of Activities are presented on pages 14 and 16 respectively. Endowment funds of the Foundation are under professional investment management.

The Foundation's overall goal is to strengthen scholarship endowment funds in hopes of providing some type of scholarship for every deserving student who desires a college education at Trinity Valley Community College.

FUTURE FINANCIAL AFFECTS

Trinity Valley Community College strives to provide quality educational programs at an affordable cost. The College maintains one of the lowest tuition rates as well as one of the lowest property tax rates among all Texas community colleges. Through fiscally responsible leadership by the Board of Trustees and the College's administration, the College has generated continued growth in net assets. The financial statements attest to its sound financial base and financial stability.

The Trinity Valley Community College mission statement reads:

Trinity Valley Community College is a learning-centered college that provides quality academic, workforce, and community service programs to meet the educational needs of our students and the citizens of our service area.

The Trinity Valley Community College's service area consists of 28 independent school districts covering Henderson, Anderson, Kaufman and Rains counties and part of Van Zandt and Hunt Counties. The area has experienced population growth in past years with an emphasis among minority groups. The number of students in the service area identified as economically disadvantaged has risen over the years as well. Along with its open-door admissions policy, meeting the needs of this growing and changing population continues to be a challenge. The College must prepare students for transfer to a university, provide opportunities for students to obtain workforce skills, participate in non-credit courses and earn certificates and associates degrees. The College strives to provide programs which will enhance learning for all students.

Trinity Valley is committed to its mission. However, the ability to fulfill its mission is directly influenced by enrollment, state appropriations, and federal funding. Additionally, escalation of salaries, benefits, and unfunded state and federal mandates require continual fiscal oversight. The College will scrutinize potential avenues for additional revenue and will endeavor to keep operating costs at a minimum while striving to keep the price of education affordable for all students.

The Accompanying notes are an integral part to the financial statements.

1. REPORTING ENTITY

Trinity Valley Community College (the College) was established in 1946, in accordance with the laws of the State of Texas, to serve the educational needs of the Trinity Valley Community College District and the surrounding communities. The College is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 14. While the College receives funding from local, state, and federal sources, and must comply with the spending, reporting and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Report Guidelines

The significant accounting policies followed by the College in preparing these financial statements are in accordance with the Texas Higher Education Coordinating Board's *Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The College applies all applicable GASB pronouncements and all applicable Financial Accounting Standard Board (FASB) statements and interpretations issued on or before November 30, 1989, unless they conflict or contradict GASB pronouncements. The College has elected not to apply FASB guidance issued subsequent to November 30, 1989, unless specifically adopted by the GASB. The College is reported as a special-purpose government engaged in business-type activities.

B. Tuition Discounting

Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.0333). When the award is used by the student for the tuition and fees, the amount is recorded as tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act Program Funds

Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the award is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other tuition discounts

The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Basis of Accounting

The financial statements of the College have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

D. Budgetary Data

Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Trustees adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

E. Cash and cash equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments (including certificates of deposit) with original maturities of three months or less from the date of acquisition.

F. Investments

In accordance with GASB Statement No 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. The governing board has designated public funds investment pools comprised of \$ -0- to be short-term investments. Long-term investments have an original maturity of greater than one year at the time of purchase.

G. Inventories

Inventories consist of consumable office supplies, physical plant supplies, food service supplies, and bookstore stock. Inventories are valued at cost and are charged to expense as consumed.

H. Capital assets

Capital assets are recorded at cost at the date of acquisition, or fair value at the date of donation. For equipment, the College's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. Renovations to buildings, infrastructure and land improvements that significantly increase the value or extend the useful life of the structure as well as the cost of new buildings are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 20 years for land improvements, 15 years for library books, 10 years for furniture, machinery, vehicles and other equipment and 5 years for telecommunications and peripheral equipment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Deferred revenues

Tuition, fees, and other revenues received and related to the period after August 31, 2012 have been deferred.

J. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

K. Operating and Non-Operating Revenue and Expense Policy

The College distinguishes operating revenues and expenses from non-operating items. The College reports as a BTA and as a single proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets.

L. Characterization of Title IV Grant Revenue

In response to guidance provided by the Government Accounting Standards Board (GASB) as question/answer 7.72.10 in the implementation Guide, revenue received for federal Title IV grant programs (i.e. Pell grants) is now characterized as non-operating revenue as opposed to operating revenue.

3. AUTHORIZED INVESTMENTS

Trinity Valley Community College is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). Such investments include (1) obligation of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

4. **DEPOSITS AND INVESTMENTS**

Cash and Deposits included on Exhibit 1, Statement of Net Assets, consist of the following items reported below.

| Cash and Deposits | 2012 | 2011 |
|--|---------------------|--------------|
| Bank Deposits: Demand Deposits | <u>\$ 1,920,773</u> | \$ 2,627,833 |

| Total Fair Value | \$ 5,801,113 | | | |

The College has no investments exposed to credit or custodial risk. All deposits are either insured by federal deposit insurance or covered by collateral pledged in Trinity Valley Community College's name and held in the safekeeping departments of unrelated banks which act as the pledging bank's agents.

5. DERIVATIVES

The College had no derivatives at August 31, 2012.

6. CAPITAL ASSETS

Capital assets activity for the year ended August 31, 2012 was as follows:

| 2013 | \$ 32,963 |
| 2014 | 32,963 |
| 2015 | 32,963 |
| 2016 | 32,963 |
| 2017 | 32,963 |
| Total Minimum Lease Payments | \$ 164,815 |

9. BONDS PAYABLE

General information related to bonds payable is summarized as follows:

A. Consolidated Fund Revenue Bonds, Series 2005

Purpose of the bond issue - To construct a classroom building

Issue date - June 27, 2005

Original amount of issue - \$5,500,000

Source of revenue for debt service - Pledged tuition fee, building use fee, student services fee, laboratory fee, other fees and Auxiliary Enterprise Fund System revenue including all interest income on such funds.

Bonds payable were due in annual installments varying from \$670,000 to \$681,200 with an interest rate to maturity of 4.0 percent with the final installment due in 2015.

This bond issue was refunded on April 5, 2012 with the issuance of the Series 2012 bonds.

B. Consolidated Fund Revenue Bonds, Series 2012

Purpose of the bond issue - To refund the Series 2005 bonds

Issue date - April 5, 2012

Original amount of issue - \$2,469,000

Source of revenue for debt service - Pledged tuition fee, building use fee, student services fee, laboratory fee, other fees and Auxiliary Enterprise Fund System revenue including all interest income on such funds.

Bonds payable are due in annual installments varying from \$595,000 to \$655,000 with an interest rate to maturity of 1.7 percent with the final installment due in 2015.

10. REFUNDING BONDS

The Consolidated Fund Revenue Bonds, Series 2005 were refunded on April 5, 2012 with the issuance of the Consolidated Fund Revenue Bonds, Series 2012. The proceeds of the Series 2012 were used to repay the principal balance of the Series 2005 bonds and to provide funds to pay the costs of issuance.

11. DEFEASED BONDS OUTSTANDING

The College had no defeased bonds outstanding for the year ending August 31, 2012.

12. SHORT - TERM DEBT

The College had no short - term debt for the year ending August 31, 2012.

13. EMPLOYEES' RETIREMENT

The State of Texas has joint contributory retirement plans for almost all its employees. One of the primary plans in which the College participates is administered by the Teacher Retirement System of Texas.

Teacher Retirement System of Texas

Plan Description. The Trinity Valley Community College District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan. TRS issues a publicly available financial report with required supplementary information which can be obtained from www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of a particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal years 2012 and 2011 and a state contribution rate of 6.4% for fiscal year 2012 and 6% for fiscal year 2011. In certain instances the reporting district is required to make all or a portion of the state's contribution.

Optional Retirement Plan

Plan Description. The state has also established an optional retirement program for institutions of higher education. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The percentages of participant salaries currently contributed by the state and each participant are 6% and 6.65%, respectively. The College contributes 2.5% for employees who were participating in the optional retirement program prior to September 1, 1995. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program.

The retirement expense to the State for the College was \$1,427,111 and \$1,007,320 for the fiscal years ended August 31, 2012 and 2011, respectively. This amount represents the portion of expended appropriations made by the State Legislature on behalf of the College.

The total payroll for all College employees was \$19,975,901 and \$19,961,651 for fiscal years 2012 and 2011, respectively. The total payroll of employees covered by the Teacher Retirement System was \$12,426,996 and \$12,141,575, and the total payroll of employees covered by the Optional Retirement Program was \$5,600,382 and \$5,974,763 for fiscal years 2012 and 2011, respectively.

14. DEFERRED COMPENSATION PROGRAM

College employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. The College acts as a withholding agent for the employee contracts with their individual plan. The College has no liability to the employee other than withholding from their salary check and remitting to their designated plan. For the year ended August 31, 2012 the College withheld and remitted \$198,642 for 32 employees. For the year ended August 31, 2011, the College withheld and remitted \$183,675 for 29 employees.

15. COMPENSABLE ABSENCES

Full-time non-faculty employees earn annual vacation leave of one day per month of employment during their first ten years of employment. After ten years of employment annual leave is earned at the rate of one and one-half days per month. This leave can accumulate up to one year. Nonexempt employees may receive compensatory time off, rather than overtime pay, for overtime work. Compensatory time may not accrue beyond a maximum of 75 hours and should be used within the duty year in which it is earned. Faculty employees are allowed two personal days per contract year. Personal days do not carry over to subsequent contract years, but effective with the contract year beginning September 1, 2009, are paid upon termination or separation of employment.

Compensable absence balances have been recorded. The College recognized the accrued liability for unused annual vacation leave, compensatory time and personal days in the amounts of \$327,304 at August 31, 2012. The College recognized the accrued liability for the unused annual vacation leave and personal days in the amount of \$348,277 at August 31, 2011. Also, all full-time employees are granted sick leave at the rate of one day per month of service to up 45 days depending on length of employment. If this leave is not used for medical purposes, it lapses upon the retirement or resignation of the employee and the employee is not paid for it. Therefore, no accrued liability has been recorded for sick leave.

16. PENDING LAWSUITS AND CLAIMS

There were no pending lawsuits or claims during the current period according to Trinity Valley Community College personnel.

17. DISAGGREGATION OF RECEIVABLES AND PAYABLES BALANCES

Receivables

Receivables at August 31, 2012, were as follows:

| | 20 |)12 | | 2011 | | | | |

| Total | \$ 966,863 | \$ 6 | \$ 1,439,003 | <u>\$ 1,429</u> | | | |

18. FUNDS HELD IN TRUST BY OTHERS

There were no known funds held in trust by others on behalf of Trinity Valley Community College for the year ending August 31, 2012

19. CONTRACT AND GRANT AWARDS

Contract and grant awards are accounted for in accordance with the requirements of the AICPA Industry Audit Guide and Audits of Colleges and Universities. Revenues are recognized on Exhibit 2 and Schedules A and C. Contract and grant awards for which funds are expended, but not collected, are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed, e.g. multi-year awards, or funds awarded during fiscal years ending August 31, 2012 and 2011 respectively for which monies have not been received nor funds expended totaled \$531,268 and \$586,592. Of these amounts, \$512,567 and \$447,321 were from Federal Contract and Grant Awards; \$18,701 and \$139,271 were from State Contract and Grant Awards; \$-0- and \$-0- were from Private Contract and Grant Awards for the fiscal years ended August 31, 2012 and 2011, respectively.

20. SELF-INSURED PLANS

The College did not participate in any self-insured plans as of August 31, 2012.

21. POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

In addition to providing pension benefits, the State provides certain health care and life insurance benefits for retired employees. Almost all the employees may become eligible for those benefits if they reach normal retirement age while working for the State. Those and similar benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The State recognizes the cost of providing these benefits by expending the annual insurance premiums. The state's contribution per full-time employee was \$438.30 per month for the year ended August 31, 2012 (\$413.26 per month for year ended August 31, 2011) and totaled \$2,664,672 for the year ended August 31, 2012 (\$2,509,316 for the year ended August 31, 2011). The cost of providing those benefits for 112 retirees in the year ended August 31, 2012 was \$693,203 (retiree benefits for 112 retirees cost \$655,758 for the year ended August 31, 2011). For 287 active employees, the cost of providing benefits was \$1,971,468 for the year ended August 31, 2012 (active employee benefits for 286 employees cost \$1,853,558 for the year ended August 31, 2011).

22. AD VALOREM TAX

The College's ad valorem property tax is levied each October 1, on the assessed value listed as of the prior January 1 for all real and business personal property located in the College. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

22. PROPERTY TAX (continued)

Tax levied during the year ended August 31, 2012 and 2011 is \$7,853,355 and \$7,546,436 which includes any penalty and interest assessed if applicable. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

| | 2012 | | 2011 | | |
|--|--------------|--------------|--------------|----|-----------|
| | Current | _ | Current | | |
| Taxes Collected (Includes Maintenance Tax) | Operations | Total | Operations | | Total |
| Comment Towns College | ¢ 7.551.427 | ¢ 7.551.427 | ¢ 7.259.072 | ¢ | 7 259 072 |
| Current Taxes Collected | \$ 7,551,437 | \$ 7,551,437 | \$ 7,258,072 | Þ | 7,258,072 |
| Delinquent Taxes Collected | 234,798 | 234,798 | 253,456 | | 253,456 |
| Penalties and Interest Collected | 154,170 | 154,170 | 159,092 | | 159,092 |
| Total Collections | \$ 7,940,405 | \$ 7,940,405 | \$ 7,670,620 | \$ | 7,670,620 |

Tax collections for the year ended August 31, 2012 and 2011 were 96.2% and 96.2%, respectively of the current tax levy. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and/or operations.

23. BRANCH CAMPUS MAINTENANCE TAX

A branch campus maintenance tax which is established by election is supposed to be levied by the Palestine Independent School District. However, due to an agreement by the College and the Palestine Independent School District, this tax is completely administered by the College. It is levied each October 1, on the assessed value listed as of the prior January 1 for all real and business personal property located in the college. Collections are made by Anderson County Tax Assessor-Collector and are transferred to the College to be used for operation of a Branch Campus at Palestine, Texas.

| County or Independent School District | Penalties and Interest) 2012 | Penalties and Interest) 2011 | | | |
|---------------------------------------|-------------------------------|-------------------------------|--|--|--|
| Palestine ISD | \$ 562,299 ** | \$ 561,812 ** | | | |

^{*} This amount included in the amount of the preceding notes.

24. INCOME TAXES

The College is exempt from income taxes under Internal Revenue Code Section 115, <u>Income of States, Municipalities, Etc.</u> Unrelated business income may be subject to income taxes under Internal Revenue Code Section 511 (a)(2)(B), <u>Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations</u>. The College had no unrelated business income tax liability for the year ended August 31, 2012.

25. COMPONENT UNITS

The Trinity Valley Community College Foundation is not a component unit as defined in GASB 39. However, we have reported Trinity Valley Community College Foundation as an affiliated organization. The Trinity Valley Community College Endowment Fund was transferred to the Trinity Valley Community College Foundation during fiscal year 2011.

TRINITY VALLEY COMMUNITY COLLEGE NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2012

26. RELATED PARTIES

The only noted and possible related party instance is that Brenda Boyd, sister of Texas Agriculture Commissioner, Todd Staples, is an instructor at Trinity Valley Community College.

27. SUBSEQUENT EVENTS

No notable subsequent events were present as of the date of this report.

28. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description. Trinity Valley Community College contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit post-employment healthcare plan administered by the Employees Retirement System of Texas (ERS). SRHP provides medical benefits to retired employees of participating universities, community colleges and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contribution provisions of the SRHP are authorized by State law and may be amended by the Texas Legislature.

ERS issues a publicly available financial report that includes financial statements and required supplementary information for SRHP. That report may be obtained from ERS via their website at http://www.ers.state.tx.us/.

Funding Policy. Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS board of trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution.

The employer's share of the cost of retiree healthcare coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS board of trustees sets the employer contribution rate based on the implicit rate subsidy which is actuarially determined in accordance with the parameters of GASB statement 45.

The employer contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years.

The college's contributions to SRHP for the years ended August 31, 2012 and 2011 were \$693,203 and \$655,758 respectively, which equaled the required contributions each year.

29. Contingencies

Texas Constitution article 16, section 67(b)(3) provides that the State of Texas must contribute "not less than six percent nor more than ten percent of the aggregate compensation paid to individuals participating in the system," referring to the State's Teacher Retirement System (TRS) including the related faculty Optional Retirement Program (ORP). During the 2011 legislative session, the Texas Legislature appropriated retirement funds for various types of educational institutions other than community and junior colleges in satisfaction of this requirement, but the community college appropriations restricted the State's contribution to TRS/ORP on behalf of community colleges to only six percent of each district's unrestricted general revenue appropriation for each year of the biennium state budget.

There is no pending litigation concerning this issue to construe the constitutional funding requirements; or to hold that the State biennium appropriations satisfy those requirements; or to attempt to collect any shortfall contributions from any community college district.

The college has calculated that as of August 31, 2012 the contribution that has not been paid to TRS on behalf of college employees is \$260,091.

Note 2: Significant Accounting Policies Used in Preparing the Schedule

The accompanying schedule is presented using the accrual basis. See notes to the financial statements for Trinity Valley Community College's significant accounting policies.

The expenditures included in the schedule are reported for Trinity Valley Community College's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds which have been expended by the college for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The college has followed all applicable guidelines issued by various entities in the preparation of the schedule.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees Trinity Valley Community College 100 Cardinal Drive Athens, Texas 75751

Members of the Board of Trustees:

We have audited the basic financial statements of Trinity Valley Community College as of and for the year ended August 31, 2012, and have issued our report thereon dated November 16, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

The management of the College is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Trinity Valley Community College's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over financial reporting

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the College's Board of Trustees, management and others within the College, Coordinating Board, and federal and state awarding agencies and pass-through entities, and is not intended to be used and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND STATE OF TEXAS SINGLE AUDIT CIRCULAR

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees Trinity Valley Community College 100 Cardinal Drive Athens, Texas 75751

Members of the Board of Trustees:

Compliance

We have audited Trinity Valley Community College's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* and *State of Texas Single Audit Circular* that could have a direct and material effect on each of the College's major federal and state programs for the year ended August 31, 2012. Trinity Valley Community College's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of Trinity Valley Community College's management. Our responsibility is to express an opinion on Trinity Valley Community College's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB *Circular A-133 Audits of States, Local Governments, and Non-Profit Organizations* and *State of Texas Single Audit Circular*. Those standards and OMB *Circular A-133* and *State of Texas Single Audit Circular* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about Trinity Valley Community College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Trinity Valley Community College's compliance with those requirements.

In our opinion, Trinity Valley Community College complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2012.

Internal Control Over Compliance

The management of the College is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the College's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with *OMB Circular A-133* and the *State of Texas Single Audit Circular*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the College's Board of Trustees, management and others within the College, Coordinating Board, and federal and state awarding agencies and pass-through entities, and is not intended to be used and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH PROVISIONS OF THE PUBLIC FUNDS INVESTMENT ACT

The Board of Trustees
Trinity Valley Community College
100 Cardinal Drive
Athens, Texas 75751

Members of the Board:

We have completed our audit of the Trinity Valley Community College for the year ended August 31, 2012. During the course of our audit, we noted that you have an investment policy which complies with the Public Funds Investment Act (Act). This compliance report is in response to the provisions of Chapter 2256.005 (m) of the Act.

We reviewed your investment policy, the monthly reports and other provisions of the policy including the types of investments you made during the year under audit. We noted no matters of noncompliance with the Act, lack of adherence to the College's investment policy, internal control weaknesses over the investment function or any other investment issues during the audit.

Please see the following schedule that is a schedule of portfolio composition as of August 31, 2012, which is part of this compliance report.

⁽¹⁾ An investment pool with a constant net asset value (market value/book value) means that money is deposited and withdrawn at a stable price of \$1.00 per share. In a variable net asset value pool, the share price fluctuates with the market value of the pool's portfolio.
