LAMAR STATE COLLEGE-ORANGE

NOTES TO THE FINANCIAL STATEMENTS

AUGUST 31, 2011

Note 1: Summary of Significant Accounting Policies

Entity

Lamar State College - Orange is a state funded two-year Institution of Higher Education of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Institutions of Higher Education.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No 34. *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds. A fund is considered a separate accounting entity. The fund designation for institutions of higher education is a Business Type Activity within the Proprietary Fund Type.

Proprietary Funds

Business Type Activity

Business type funds are used for activities that are financed through the charging of fees and sales for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type; because, the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

Component Units

The fund types of the individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 18.

UNAUDITED

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business activity type funds (proprietary funds) are accounted for using the full accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The operating budget is prepared annually and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Assets

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Securities Lending Collateral

Investments are stated at fair value in all funds except pension trust funds in accordance with **GASB Statement 31-Accounting and Financial Reporting for Certain Investments and for External Investment Pools**.

For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with **GASB Statement 25 - Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans**. Securities lent are reported as assets on the Statement of Net Assets. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

UNAUDITED

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost if actual historical is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset using the straight-line method.

Current Receivables - Other

The disaggregation of other receivables as reported in the financial statements is shown in Note 24, "Disaggregation of Receivables and Payables Balances." Other receivables include year-end accruals not included in any other receivable category. This account can appear in governmental and proprietary fund types.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the Statement of Net Assets date for which payment is pending.

Other Payables – Current and Noncurrent

Other payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions.

UNAUDITED

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the Statement of Net Assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or noncurrent in the Statement of Net Assets.

Bonds Payable - General Obligation Bonds and Revenue Bonds

General Obligation and Revenue bonds are generally accounted for in the proprietary funds by institutions of higher education. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current or noncurrent in the Statement of Net Assets. Bond proceeds and principal payments are reported in the Statement of Cash Flows.

FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is "Net Assets" on the government-wide, proprietary and fiduciary fund statements, and the "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

Reservation of Fund Balance

Fund Balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditures.

Reserved for Encumbrances

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

Reserve for Consumable Inventories

This represents the amount of supplies, postage and prepaid assets to be used in the next fiscal year.

UNAUDITED

Unreserved/Undesignated

This represents the unappropriated balance at year-end.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted net assets consist of net assets which do not meet the definition of the two *preceding* categories. Unrestricted net assets often have constraints on resources which are imposed by management, but can be removed or modified.

INTERFUND TRANSACTIONS AND BALANCES

Lamar State College Orange has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as "Transfers In" by the recipient fund and as "Transfers Out" by the disbursing fund.
- (2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment for two (or more) years is classified as "Non-Current".
- (4) Interfund Sales and Purchases: Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund.

The composition of Lamar State College - Orange's Interfund activities is presented in Note 12.

Bonds Payable

See Note 6 for a discussion of Bonds Payable.

Claims and Judgements

As of August 31, 2011 no lawsuits involving Lamar State College – Orange were pending.

Note 6: Bonded Indebtedness

All bonded indebtedness for Lamar State College – Orange is issued by System Administration through the Texas State University Revenue Financing System. System Administration and each component institution within the System are members of the Revenue Financing System. The Board of Regents pledged all of the funds (revenues) and balances derived or attributable to any member of the Revenue Financing System that is lawfully available to the Board for payments on Parity Debt.

System Administration issues the debt; therefore, the bonds payable attributable to the College are included with the Bonds Payable reported by System Administration. The College must repay the debt that was issued on its behalf; consequently, the following debt amortization schedule is presented for informational purposes only.

Note 17: Risk Management

The State provides coverage for workers' compensation and unemployment compensation benefits from appropriations made to other State agencies for Lamar State College-Orange employees. The current General Appropriations Act provides that the College must reimburse General Revenue Fund-Consolidated, from the College's appropriations, one-half of the unemployment benefits paid and twenty-five percent of the worker's compensation benefits paid for current and former employees. The Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each fund type. The College must reimburse the General Revenue Fund one hundred percent of the cost for worker's compensation and employment compensation for any employees paid from funds held in local bank accounts. Workers' compensation and unemployment plans are on a pay-as-you-go basis, in which no assets are set aside to be accumulated for the payment of claims. No material outstanding claims are pending at August 31, 2011. The following insurance coverage is maintained by Lamar State College – Orange.

The College is required by certain bond covenants and FEMA to carry Fire and Extended Coverage and Boiler insurance on buildings financed through the issuance of bonds using pledged Auxiliary Enterprise, Educational and General Funds and other Non-Educational and General Funds. The insurance protects the bondholders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments and the federal government for storm damage.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum limits of liability in the amount of \$20,000/\$40,000 bodily injury and \$15,000 property damage. However, Lamar State College - Orange has chosen to carry liability insurance on their licensed vehicles in the amount of \$1,000,000 combined single liability amount. The coverage exceeds the extent of the waivers of state immunity in the Tort Claims Act.

Lamar State College – Orange is exposed to a variety of civil claims resulting from the performance of its duties. It is College’s policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

Lamar State College – Orange assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance, nor is the College involved in any risk pool with other government entities for these risks.

Note 18: Management Discussion and Analysis

Management Discussion and Analysis is a required part of the basic financial statements. Management Discussion and Analysis is omitted because Lamar State College – Orange is reported in a consolidated format with Texas State University System which is reported as a component of the State of Texas. Management Discussion and Analysis as it relates to Texas State University System can be found in the State of Texas basic financial statements.

Note 19: The Financial Reporting Entity

Lamar State College - Orange is a state-supported college, governed by an elected nine-member board. As required by generally accepted accounting principles, these financial statements are presented for Lamar State College - Orange. There are no component units.

Lamar State College – Orange Foundation, Inc. is a non-profit organization, which was established in December 1983, to support the development and promotion of Lamar State College – Orange, its students, faculty, staff, and physical facilities. Neither the balance nor the transactions of this organization’s fund are reflected in the financial statements during the year ended August 31, 2011.
