Honorable Rick Perry, Governor
Honorable Susan Combs, State Comptroller
Ursula Parks, Director, Legislative Budget Board
John Keel, CPA, State Auditor

Ladies and Gentlemen:

We are pleased to submit the Annual Financial Report of Midwestern State University for the year ended August 31, 2014, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with GAAP. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Mr. Chris Stovall at (940) 397-4273

Sincerely,

Jesse W. Rogers
President

Management's Discussion & Analysis - Unaudited

The objective of Management's Discussion and Analysis is to help readers of Midwestern State University's financial statements better understand the financial position and operating activities of the university for the fiscal years ended August 31, 2014 and 2013.

Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with the university administration.

The following discussion should be read in conjunction with the accompanying transmittal letter, financial statements, and note disclosures.

The following graph illustrates the comparison and movement of total student enrollment and full time equivalent (FTE) student growth since 2010. Increased academic standards, a decline in local college age population, and a statewide consistent pattern of very flat student enrollment explain this variance.

Beginning in 2006, and again in 2011, the university changed its academic standards to ensure students were prepared to pursue higher education. The increase in standards has created growth in student retention as more of our freshmen are better prepared for college which also improves graduation rates. Graduation rates may become financially important to the university as future state appropriations are contingent on such successful outcomes. In addition, the university is one of the few institutions in Texas capable of offering in-state tuition rates plus a \$65.00/semester credit hour assessment to all US citizens, which is a great positive impact on future enrollment.

ANNUAL FINANCIAL REPORT

The Statement of Net Position

By reporting information on the university as a whole, these comparative statements highlight for the reader whether or not the year's activities strengthened or weakened the university's financial position. When revenues and other support exceed expenses, the result is an increase in net position. The relationship between revenues and expenses may be thought of as the university's operating results.

These comparative statements report the current status and changes to the university's net position. Net position, the difference between assets and liabilities, is one way to measure the university's financial position. Increases in net position show an improvement in financial health while decreases often indicate declining financial stability. However, many other non-financial factors, such as the trend in admission applicants, enrollment, student retention, and condition of the buildings must be considered to accurately assess the overall health of the university.

The University's Results of Operations

The statement of revenues, expenses, and changes in net position reflects the university's operating results for the fiscal years ended August 31, 2014 and 2013. The comprehensive statements indicate the financial condition of the university, and comparatively analyze in what direction the university is moving. The following statements reveal the operating results of the university, as well as the non-operating revenues and expenditures. Operating revenues include all transactions that result in the sales and/or receipts from goods and services such as tuition and fees, housing, and food services. Certain federal, state, and private grants are considered operating revenues if they are not for capital purposes and are considered a contract for services. Annual state appropriations, while budgeted for operations, are considered non-operating revenues according to generally accepted accounting principles.

The statement below compares the operating results of the university for the years ended August 31, 2014 and 2013.

The University's Cash Flows

The Statement of Cash Flows represents the university's significant sources and uses of cash. It is designed to help users assess the university's ability to generate future cash flows, its ability to meet obligations as they come due, and its need for external financing.

	<u>Cash Flows</u>	
	<u>2014</u>	<u>2013</u> <u>Restated</u>
Cash provided (used) by:		
Operating activities	\$(30,362,385.42)	\$ (26,869,460.32)

Investing activities	<u>(1,056,488.65)</u>	<u>299,695.68</u>
Net increase (decrease) in cash	(778,625.13)	1,148,648.67
Cash – Beginning of year	<u>7,985,250.87</u>	<u>6,836,602.20</u>
Cash – End of year	<u>\$ 7,206,625.74</u>	<u>\$ 7,985,250.87</u>

There was a net decrease in cash of \$778,625.13.

Exhibit III, the Statement of Cash Flows, shows that the major sources of funds for operating activities are from student tuition and fees, grants and auxiliary enterprises. Tuition and fees accounted for \$29.9 million, grants accounted for \$5.87 million, and auxiliary enterprises, including housing and dining, accounted for \$9.6 million.

State appropriations in the amount of \$20.7 million were the primary sources of non-capital financing. Although the university is dependent on these appropriations to continue the current level of operations, accounting standards require that this source of funding be reflected as non-operating. Other non-capital financing activities include gifts in the amount of \$7.9 million, additions to endowments in the amount of \$337 thousand, and \$8.6 million in Federal non-operating grants.

The main uses of capital and related financing activities came from the expansion of the McCoy School of Engineering, renovation to the Wichita Falls Museum of Art at Midwestern State University, and construction of the Dalquest Desert Research Station. Cash was used to purchase capital assets in the amount of \$3.1 million and for the payment of principal and interest on capital debt in the amount of \$8.9 million.

Capital Assets and Debt Administration

Capital Assets

As of August 31, 2014, the university had \$128.8 million invested in capital assets. This figure is net of accumulated depreciation and amortization of \$128 million. Depreciation and amortization charges totaled \$11.7 million for the current fiscal year. The category of other capital assets includes library holdings, artwork, and collections. Assets by classification are shown below:

Capital Assets Before Accumulated Depreciation and Amortization

	<u>2014</u>	<u>2013</u>
Land and Land Improvements	\$ 5,919,952.66	\$ 5,434,952.66
Construction in Progress	479,967.98	842,447.77
Buildings and Building Improvements	189,483,965.51	187,171,528.01

Total	<u>\$256,892,430.24</u>	<u>\$245,096,743.98</u>

Additions to assets of \$12.1 million during fiscal year 2013-2014 included: completion of the renovations to the McCoy School of Engineering and the Wichita Falls Museum of Art at MSU, the significant donation of computer software for the new petroleum geology program, and a gift of land to the university.

The construction in progress at the end of the year includes exterior renovations of the Wichita Falls Museum of Art at MSU, the West Campus Annex Project, and additions to the Dalquest Research Station.

Further financial information about the university's capital assets is presented in Note 2 of the notes to the financial statements.

Debt

At year-end, the university had \$106.2 million in outstanding debt. Outstanding debt for the year ended August 31, 2013 was \$114.8 million. The table below summarizes the amount of outstanding debt by type of instrument for the year ended August 31, 2014 compared with August 31, 2013.

	<u>2014</u>	<u>2013</u>
Revenue Bonds	\$ 73,124,784.49	\$ 77,064,754.04
General Obligation Bonds (HEAF)		1,455,000.00

Factors Affecting the Future of Midwestern State University

Midwestern State University (MSU), like universities throughout the United States, faces numerous future challenges. MSU has developed a strategic plan to provide a framework to address these challenges with an eye to the long-term prosperity of the university.

INTERNAL STRENGTHS

The following are areas of strength that MSU can use to advance itself toward its goals.

Positive reputation – MSU has a positive reputation and a loyal base of donors. This strength enhances the ability to recruit students and benefit from external gifts. MSU has received substantial gifts from members of the local community.

Council of Public Liberal Arts Colleges (COPLAC) membership – MSU is a member of COPLAC, which complements the university's standing as a public liberal arts institution. MSU is committed to a strong liberal arts experience for students in all majors. COPLAC values interdisciplinary opportunities, close faculty and student interactions, and opportunities for faculty-supervised research.

Educational value – MSU, given its student orientation and highly qualified faculty, is able to provide excellent educational outcomes at a moderate price. In 2013, MSU was ranked a top college in Texas for greatest lifetime return on investment by AffordableCollegesOnline.org (AC Online). The ranking identified the 49 colleges in Texas where degrees pay off the most and MSU ranked No. 15 on the list.

EXTERNAL ENVIRONMENT

A number of patterns in the operating environment will affect MSU in the future.

LOCAL AND STATE DEMOGRAPHICS

The local area's population growth is expected to remain flat during the next 10 years.

The proportion of the local population that will be college age in the next decade is declining. Census data from 2000 and 2010 indicate that the number of 10- to 14-year-olds dropped from just more than 9,000 to just more than 8,000, and the number of 15- to 19-year-olds declined from approximately 12,000 to approximately 10,500.

Texas state population will continue to grow into the next decade. The rate of growth may be slightly lower than in the past, but it will remain robust. Much of the population growth will occur in Texas' metropolitan areas including Dallas/Fort Worth, Austin, San Antonio, and Houston.

PREPARATION OF STUDENTS

A sizable proportion of students seeking admission to MSU will continue to be under-prepared for college-level work. Texas ranks in the middle of states on measures of math and reading proficiency for fourth- and eighth-graders and mean SAT scores for Texas indicate that Texas students are under-performing compared to students throughout the United States.

Students admitted to MSU will continue to be from groups for which retention is challenging, including first-generation college students, students from low-wage families, and students with outside employment.

TECHNOLOGY

Technological change will continue to be very rapid, requiring frequent updates and additions to keep pace with technological applications outside of the university.

Entering students will expect the use of technology such as social networking, computer-based interactive educational programs, webinars, and learning modules that can be downloaded to smart phones. Required investments in technology will not only be for discipline-specific purposes, but also for all areas of instruction.

FINANCIAL

MSU continues to receive less than 25% of its funding from the State of Texas, while costs increase. Capital investment to keep pace with technology is needed and, as federal financial aid dollars are diminished, the demand for university financial aid support increases.

Midwestern State University continues to seek private funding to supplement tuition and fees and state funding in order to provide the rigorous education that will allow students to compete in an ever increasingly competitive job environment.

ENROLLMENT

Fall 2014 enrollment is essentially the same as Fall 2013, with a student headcount of 5,874. Please consider the following:

The beginning freshman class is within four students of the record 2013 beginning freshman class.

The geographic distribution of the beginning freshman class is similar to that of 2014, with some 34% from the Dallas/Fort Worth metropolitan area.

The two large beginning freshman classes of 2013 and 2014 who will live on campus have resulted in university housing being oversubscribed by 200 students.

The Fall 2014 class' academic records are similar to Fall 2013.

Fall-to-Fall retention for the Fall 2013 beginning freshman class increased some five percentage points as compared to the Fall 2012 cohort.

MSU experienced a decline of some 67 transfer students in the Fall 2014, as compared to Fall 2013. The decline in transfer students is the chief reason university enrollment did not increase.

We are pleased that the large beginning freshman class of 2013 replicated for the Fall 2014, and we are confident in this trend. Additional resources are being allocated to address transfer students and distance education courses. Moving forward, we expect to see a growth in enrollment given three broad conditions:

1. The trend of large beginning freshman classes continues.
2. The smaller beginning freshman classes through the Fall 2012 will continue to move through the classification levels.
3. Additional resources and effort dedicated to transfer and distance education enrollment.

Note 1: Summary of Significant Accounting Policies

Introduction

Midwestern State University is a public institution of higher education and is an agency of the State of Texas. The university's Board of Regents is appointed by the Governor of the State. Accordingly, the university's financial position is in the State of Texas' Consolidated Annual Financial Report. Transactions with the State relate primarily to appropriations for operations and capital improvements and grants from various state agencies.

Basis of Presentation

The financial statements of Midwestern State University have been prepared in accordance with the requirements established by the Comptroller of Public Accounts' Annual Financial Reporting Requirements. These requirements follow, as near as practicable, the generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), including Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* issued in June 1999, Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis of Public College and Universities* issued in November 1999, and Statement No. 63 *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* issued in June 2011. The financial statements also incorporate the requirements set forth in GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which was issued by the GASB on December 30, 2010 and significantly reduces the need to rely on sources outside of the GASB's literature to locate the necessary accounting guidance for the governmental environment. The university does not apply FASB pronouncements issued after November 30, 1989 in the preparation of the accompanying financial statements.

The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas' Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

The university follows the "business-type activities" reporting requirement of GASB Statement No. 34 that provides a comprehensive one-line look at the university's financial activities. Accordingly, the university's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting.

Basis of Accounting – Proprietary Fund Accounting

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial positions, and cash flows. The financial statements of the university have been prepared on the accrual basis. Accrual accounting attempts to record a transaction's financial effects in the period in which the transaction occurred, rather than when cash is received or paid. Revenues are recorded when they are earned or when the university has a right to receive the revenues. Expenses are recognized when they are incurred.

There are four essential elements of accrual accounting. They are:

- Deferral of expenditures and the subsequent amortization of the deferred costs.
- Deferral of revenues until they are earned.
- Capitalization of certain expenses and the subsequent depreciation of the capitalized costs.
- The accruals of revenues that have been earned and expenses that have been incurred.

Proprietary funds use the flow of economic resources measurement focus, which is similar to the focus used by commercial entities. Proprietary funds focus on whether the enterprise is economically better off as a result of the events and transactions that occurred during the fiscal period reported. Transactions and events that improved an enterprise's financial position are reported as revenues or gains. Transactions and events that diminished the economic position of the enterprise are reported as expenses or losses. Both current and long-term assets and liabilities are shown on the statement of net position.

The proprietary statement of revenues, expenses, and changes in net position is segregated into operating and non-operating sections.

Generally, operating activities are those that directly result from the provision of goods and services to customers or are directly related to the principal and usual activity of an enterprise. GASB 34 indicates that a consideration for defining a proprietary fund's operating revenues and expenditures is how individual transactions would be classified for purposes of preparing a statement of cash flows according to GASB Statement No. 9.

Since certain grants are actually contracts for services, they are classified as operating activities. Although loan activity would normally be classified as an investing activity, lending activities in a university are directly related to the principal and usual activity of the university, and are classified as operating activities.

Net Position

GASB Statement No. 63 reports equity as "Net Position" rather than "Net Assets," as previously required under GASB Statement No. 34. Net position is classified according to external donor restrictions or availability of assets for satisfaction of university obligations.

Restricted Net Position represents amounts over which third parties have imposed restrictions that cannot be changed by the Board, including amounts that the Board has agreed to set aside under contractual agreements with third parties. Nonexpendable restricted net position includes gifts that have been received for endowment purposes, the corpus of which cannot be expended. Expendable restricted net position represents funds that have been gifted for specific purposes. Restricted Net Position includes the university's permanent endowments and donor restricted funds.

Unrestricted Net Position are funds that are available for university use, and have been internally designated or reserved for specific purposes such as renewals and replacements, quasi-endowments, capital projects, student loans, budget commitments, and reserves for working capital.

Cash and Cash Equivalents

All highly liquid investments with a maturity of three months or less at the time of purchase are considered cash and cash equivalents. Cash in the investment portfolio is not included in cash and cash equivalents as it is held for investing purposes.

Investments

The university reports investments at fair value in the Statement of Net Position.

Restricted Assets

Restricted assets are those assets that have third party restrictions or are restricted for specific uses by a contractual obligation. Restricted assets include donor restricted funds and proceeds from bond issuances that can only be used for capital projects.

Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost and utilize the last-in, first-out method.

Capital Assets

Property, plant and equipment are recorded at cost, or, if acquired by gift, at the fair market value as of the date of the acquisition. Depreciation is provided on physical properties on a straight-line basis over the estimated useful life of the asset.

Type of Capital Asset	Capitalization Threshold	Range of Useful Life (in months)

Note 3: Deposits, Investments and Repurchase Agreements

Authorized Investments

Midwestern State University is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Governmental Code). Such investments include:

1. Obligations of the United States or its agencies,
2. Direct obligations of the State of Texas or its agencies,
3. Obligations of political subdivisions rated not less than A by a national investment rating firm,
4. Certificates of deposit,
5. Investment pools managed by State of Texas universities exempt from this act (see additional disclosures), and
6. Other instruments and obligations authorized by statute.

The university also employs two investment managers to manage the assets of the university's endowments which total \$20,614,134.10 and are invested under a separate investment policy that permits equities as well as fixed income and alternative assets. Additionally, the university entered into a contract with the Texas A&M University System in September 2013 to manage university investments. The fair value of the investments managed by the Texas A&M University System at August 31, 2014 was \$20,885,258.26. Additional information about these investments is disclosed separately on pages 30-33.

Deposits of Cash in Bank

At August 31, the carrying amount of the university's deposits is presented below:

	<u>2014</u>	<u>2013</u>
Cash on Hand	\$ 16,300.00	\$ 16,300.00

Custodial Credit Risk for Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the university will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The university's policies and State Statute require the university's deposits be deposited into authorized commercial banks and savings and loan associations. State statutes also require that these financial institutions pledge securities as collateral to secure university deposits if they are not fully insured by FDIC.

The university's bank balance at August 31, 2014 was \$4,180,898.04. \$250,000 of this amount was covered by FDIC Insurance, and \$3,899,446.60 was collateralized with securities pledged by the bank granting the university a first priority security interest in the collateral which was held by the Federal Reserve Bank of New York acting as Custodian for the university and the bank (as defined above).

Note 3: Continued

Concentration of credit risk is the risk of loss attributable to the magnitude of investment in a single issuer. As of August 31, 2014, the university's concentration of credit risk is immaterial to any single issuer.

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a debt investment to changes arising from movements in interest rates. Duration is the weighted average maturity of an instrument's cash flows, where the present value of the cash flows serves as the weight. The duration of an instrument can be calculated by first multiplying the time until receipt of cash flow by the ratio of the present value of that cash flow to the instrument's total present value. The sum of these weighted time periods is the duration of the instrument. Modified duration estimates the sensitivity of the university's investments to changes in interest rates.

The university's investments exposed to interest rate risk as of August 31, 2014, were as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Modified Duration</u>

Employees' Compensable Leave

Benefit eligible staff and 12-month faculty members can earn annual leave from eight to twenty-one hours per month depending on the respective employee's years of state employment. The State's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum of hours up to 532 for those employees with thirty-five or more years of state service. A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, separation from State employment, or transfer to a position that no longer accrues vacation, provided the employee has had continuous employment with the State for six months. For proprietary fund types an expense and liability are recorded as the benefits accrue to the employee. The liability is determined through the summarization of each employee's annual leave balance multiplied by their respective salary rate. The estimated cumulative amount of this liability is \$1,618,357.73. The University made lump sum payments totaling \$98,555.86 for accrued vacation to employees who separated from state service during the fiscal year ended August 31, 2014, and payments of \$290,694.00 for August 31, 2013. The large increase in the lump sum payments in 2013 was due to the voluntary separation program that was offered to qualifying state employees.

The University has an undetermined and unrecorded liability for employee's earned sick leave. Sick leave accumulation of which is unlimited, is earned at the rate of eight hours per month and is paid only when an employee is absent due to illness or to the estate of an employee in the event of his/her death. The maximum sick leave that may be paid an employee's estate is one-half of the employee's accumulated entitlement or 336 hours, whichever is less. The University's policy is to recognize the cost of sick leave when paid. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Note 7: Derivative Instruments

Midwestern State University invests funds in The Texas A&M University System’s (A&M System) investment pool, which includes investment derivatives in the form of forward currency exchange contracts used for the purchase or sale of a specific foreign currency at a fixed quantity and price on a future date as a hedge against either specific transactions or portfolio positions. Additional information on these contracts can be found in the A&M System’s financial statement note disclosures.

The following disclosure summarizes MSU’s share of the A&M System’s derivative activity. Note 3 also discloses details about these investment derivatives.

Note 8: Leases

Midwestern State University has entered into a long-term lease for financing the purchase of a capital asset. Such leases are classified as capital leases for accounting purposes; therefore, such leases are recorded at the present value of the future minimum lease payments at the inception of the lease. The following is the original capitalized cost of such property under lease in addition to the accumulated depreciation as of 8/31/14.

Business-Type Activities	Year Ended August 31, 2014

Note 9: Pension Plans

Teacher Retirement System Pension Plan

The State of Texas has joint contributory retirement plans for substantially all of its benefit eligible employees. One of the primary plans in which the University participates is a cost-sharing multiple-employer defined benefit pension plan administered by the Teacher Retirement System of Texas. Participating employers in the TRS Plan include public schools, service centers, charter schools, and colleges as well as the State of Texas, which covers employees of colleges, universities, medical schools, and certain other state agencies. Employees of the University are members of the TRS Plan if they are employed on a half-time or greater basis, unless they participate in the Optional Retirement Program, described below, or are students employed in a position that requires student status as a condition of employment.

Benefits under the TRS Plan are established or amended by the Texas Legislature in state law, as provided by the Texas Government Code, Chapter 824. Benefits include retirement and disability annuities and death survivor benefits. A member is vested after earning five years of creditable service. Eligibility for service retirement is determined by age and years of TRS service credit. The Teacher Retirement System issues a comprehensive annual financial report that includes the TRS Plan. That report may be obtained by writing to TRS at the Teacher Retirement System of Texas, 1000 Red River Street, Austin, Texas 78701-2698, or from the TRS Web site at www.trs.state.tx.us.

Contribution requirements for employees and employers are not actuarially determined but are established in the Texas Constitution and pursuant to state law passed by the Texas Legislature each biennium. The state constitution requires the legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation of all members of the system during the fiscal year. For the year ended August 31, 2014, the statutorily required contribution rate was 6.4% of annual compensation from active plan members and 6.8% of annual compensation from the University.

The Teacher Retirement System does not separately account for each of its component government agencies because the Teacher Retirement System itself bears sole responsibility for retirement commitments beyond contributions fixed by the State Legislature. Further information regarding actuarial assumptions and conclusions, together with audited financial statements, are included in the Teacher Retirement System's annual financial report.

Note 9: Continued

Optional Retirement Program

The state has established an Optional Retirement Program (ORP) for institutions of higher education. Participation in ORP is in lieu of participation in the Teacher Retirement System and is available to certain eligible employees. The ORP is authorized by the Texas Government Code, Chapter 830, and is administered by the University, subject to policies, practices, and procedures developed by the Texas Higher Education Coordinating Board to provide greater uniformity in the administration of the program. The ORP provides for the purchase of annuity contracts and mutual funds. The contributory percentages of participant salaries provided by the State and by each participant enrolled in the plan on or before August 31, 1995, are 8.5% and 6.65%, respectively. The 8.5% is composed of 6.6% contributed by the State and an additional 1.9% contributed by the University. For participants who enrolled after September 1, 1995, State and participant contributions are 6.6%, and 6.65%, respectively. Because there are individual annuity contracts, the State has no additional or unfunded liability for this program, and the University bears no responsibility for retirement commitments beyond contributions.

The contributions made to the ORP by the plan members and employer for the fiscal year ended August 31, 2014 compared to the previous year, are shown below:

	Year Ended August 31, 2014	Year Ended August 31, 2013
Member Contributions	\$1,092,969.35	\$1,078,889.68
Employer Contributions	1,205,946.26	1,148,237.73
Total Remittance	\$2,298,915.61	\$2,227,127.41

Note 10: Deferred Compensation

The university's Board of Regents approved a non-qualified deferred compensation plan which provided for \$3,750.00 per month to be set-aside for the President for twenty-four months beginning September 1, 2013 and ending August 31, 2015. The Board of Regents amended the monthly set-aside amount to \$5,125.00 beginning with the September 1, 2014 contribution.

University employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Texas Government Code, Sec 609.001. Deferred compensation plans are administered by the Employees Retirement System.

The State's 457 Plan complies with Internal Revenue Code, Section 457. This plan is referred to as the TexaSaver Deferred Compensation Plan and is available to all employees. Deductions, purchased investments, and earnings attributed to the 457 Plan are the property of the State and subject only to the claims of the State's general creditors. Participant rights under the plan are equal to those of the general creditors of the State in an amount equal to the fair market value of the 457 account for each participant. The State has no liability under the 457 Plan, and it is unlikely that plan assets will be used to satisfy the claims of general creditors in the future.

The University also administers a Tax-Deferred Account Program, created in accordance with Internal Revenue Code, Section 403(b). All eligible employees can participate. The Tax-Deferred Account Program is a private plan, and the deductions, purchased investments, and earnings attributed to each employee's 403(b) plan are held by vendors chosen by the employee. The vendors may be insurance companies, banks, or approved non-bank trustees such as mutual fund companies. The assets of this plan do not belong to the University, and thus it does not have a liability related to this plan.

Note 14: Adjustments to Fund Balance/Net Position

In fiscal year 2013, items related to facilities were capitalized and moved to construction in progress based on the assumption that the total project costs would exceed the capitalization threshold of \$100,000. In fiscal year 2014, the project was postponed indefinitely. Therefore, an adjustment to fund balance was made to reflect the amount expensed in a prior year. The adjustment of \$17,500.00 was made to the fiscal year 2013 balances in Construction in Progress and Net Investment in Capital Assets. The adjustment is also reflected in Note 2, Capital Assets, within the adjustments column.

Note 15: Contingencies and Commitments

There is no pending or threatened litigation.

Note 16: Subsequent Events

Midwestern State University submitted a capital expenditure for consideration in the Legislative Appropriations Request for the 84th Texas Legislature. The \$73 million request includes the construction of a new Gunn College of Health Science and Human Services building, improvements to Moffett Library, the relocation of IT to a more secure building, and many electrical, HVAC and ADA upgrades and improvements.

The generous support from donors has allowed the university to continue current capital construction projects. Significant external improvements at the Wichita Falls Museum of Art at Midwestern State University have begun. The project includes improvements to surrounding parking lots and access to the museum, the addition of a terrace to the entryway, and construction of an outdoor stage overlooking Sikes Lake.

Additionally, Phase II of the Joe B. Hood Research Lab at Dalquest began in September. The Dalquest Research Station is located in west Texas on the Presidio/Brewster County line, north of and adjoining the Big Bend Ranch State Park. The majority of the site has little human influence. With the construction of the Joe B. Hood Research Lab, scientists, naturalists, educators, and students will be able to conduct field research for generations to come.

The West Campus Annex project began in late August. The project includes a renovation of a portion of the Christ Academy building. The renovation will allow the football administrative offices to relocate from various locations on campus to one central office.

Construction of the Mustangs Walk began in October. The Board of Regents approved a campus master plan in August 2014, and it indicated the need for a safer, more pedestrian-friendly campus. The Mustangs Walk will provide students a safe, pedestrian walkway through the middle corridor of campus with the goal of eventually connecting the main campus with south campus.

Finally, during its November meeting, the Board of Regents approved construction of a new 500-bed student dormitory at a cost of approximately \$33.25 million. The new housing facility will be located east of Sunwatcher Village and adjacent to McCullough-Trigg Hall. The Board of Regents also approved an approximately 18,500 square foot addition to the Fain Fine Arts building to accommodate the growth of the mass communications department. The addition will cost approximately \$5 million. Revenue bonds, once approved by the Board of Regents, will be issued in 2015 to fund both projects, at a cost not to exceed \$38.25 million.

Note 17: Risk Management

The university is exposed to a variety of civil claims resulting from the performance of its duties. It is the university's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. Currently there is no purchase of commercial general liability insurance for the university. The university participates in the statewide property insurance program and purchases educators legal liability insurance. The university also purchases Directors' and Officers' Liability insurance through the State Office of Risk Management. This coverage protects insured directors and officers against claims involving allegations of wrongful acts occurring while in their capacity as directors and officers. Coverage also extends to employees and includes Employment Practices Liability claims for harassment, discrimination, wrongful termination, retaliation, etc.

The university's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. At August 31, 2014, there were no known claim liabilities.

The State provides coverage for workers' compensation and unemployment benefits from appropriations made to other state agencies for university employees. The university was assessed \$75,710.50 and \$84,288.86 for worker's compensation coverage for fiscal years ending August 31, 2014 and 2013, respectively. Unemployment compensation is funded on a pay as you go method, with the State contributing half of the cost of benefits and the university contributing the other half for employees paid by State appropriated funds. The university must pay 100% of the cost of benefits for employees paid from local funds.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum limits of liability in the amount of \$30,000/\$60,000 bodily injury and \$25,000 property damage. However, the university has chosen to carry liability insurance on its licensed vehicles in the amount of \$250,000/\$500,000/\$100,000 with a combined single limit of \$1,000,000 if the Texas Tort Claims Act is not applicable.

Note 18: Management's Discussion and Analysis

See Introduction.

Note 19: The Financial Reporting Entity and Related Parties

The university is an agency of the State of Texas. The ten members of its Board of Regents are appointed by the Governor, and include one non-voting student Regent. The university has no component units, joint ventures, or related parties; however, there are two affiliated parties described below.

The Midwestern State University Foundation and MSU Charitable Trust are nonprofit organizations with the sole purpose of supporting the educational and other activities of the university. The Foundation solicits donations and acts as coordinator of gifts made by other parties. The Foundation remitted restricted gifts of \$1,366,493 to the university during the year ended August 31, 2014, and \$1,474,951 for the prior year. The MSU Charitable Trust remitted restricted gifts of \$812,134 to the university during the year ended August 31, 2014 and \$830,279 for the prior year. The assets of the Midwestern State University Foundation and the MSU Charitable Trust as of August 31, 2014 are reported by their trustees in the amount of \$23,350,954 and \$29,549,469, respectively.

Notes To The Financial Statements - Unaudited

Note 20: Stewardship, Compliance and Accountability

Financial information is reported in accordance with the requirements established by GASB No. 34, GASB No. 35, and GASB No. 63. The university administration is not aware of any noncompliance items.

Note 21: Not Applicable to the AFR Reporting Requirements Process

Note 22: Donor Restricted Endowments

The university is subject to the Uniform Prudent Management of Institutional Funds Act (UPMIFA), Property Code Chapter 163. UPMIFA allows the university to distribute net appreciation on donor restricted endowment investments to the extent prudent. This includes cumulative realized and unrealized appreciation in the fair market value of the endowment assets in excess of historical dollar value of the gifts.

For the fiscal year ended August 31, 2014, the net appreciation on investments of donor restricted endowments available for authorization of expenditure, after distributions, is as follows:

<u>Donor-Restricted Endowment</u>	<u>Amounts of Net Appreciation</u>	<u>Reported in Net Position</u>
True Endowments	None	Restricted for Nonexpendable
Term Endowments	\$ 1,067,569.19	Restricted for Nonexpendable
