VICE PRESIDENT
DIVISION OF ADMINISTRATION & FINANCE
OFFICE: 713-313-7302; FAX: 713-313-7070

November 14, 2014

The Honorable Glenn O. Lewis, Chairman
TSU Board of Regents
3100 Cleburne Street
Hannah Hall, Room 104
Houston, TX 77004

We are pleased to submit this independently audited Annual Financial Report for the fiscal year ended August 31, 2014 for Texas Southern University ("TSU").

TSU's administration is responsible for designing, establishing and maintaining internal controls intended to ensure that the assets of the university are protected from loss, theft, or misuse. Management also ensures that adequate accounting processes are in place to allow for the preparation of financial statements, in conformity with governmental accounting standards. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of the controls should not exceed the benefits expected to be derived, and (2) the evaluation of cost and benefits require estimates and judgments by management.

We believe TSU's accounting controls provide reasonable assurance that errors or irregularities that could be material to the financial statements are prevented, or would be detected within a timely period, by employees in the normal course of performing their assigned function.

TSU is among the nation's largest Historically Black Colleges and Universities, offers an impressive array of undergraduate and graduate academic programs, comprises a diverse faculty, over 80 student organizations, and an alumni network comprised of educators, entrepreneurs, public servants, health practitioners, lawyers, pilots, artists and more. The campus encompasses 150 acres and serves as a cornerstone for developing the greatest potential in leaders from various socio-economic, cultural and racial backgrounds.

Texas Southern University is located in Houston, Texas – the seat of Harris County (the most populous county in the state), the fourth largest city in the US, one of the fastest-growing and forward-moving cities in the world and has been recognized as the next global city in the country. Houston's economy is based on energy production and research, petrochemicals, shipping, health services and research, refining, space exploration, manufacturing, education and tourism. As residents of this international city, Texas Southern students are afforded numerous and unique opportunities and experiences.

TSU is situated in the heart of the city, in Houston's historic Third Ward, giving its students and faculty easy access to the Museum district, neighboring educational institutions (Houston Community College, University of Houston, Rice University and the University of St. Thomas), the Texas Medical Center, City Hall, downtown Houston, many cultural and athletic venues, and all of the city's major freeways.

The preparation of this report was accomplished with the dedicated services of the entire accounting staff and the cooperation of other departments within Business Affairs. We would also like to express our appreciation to all members within the Division of Administration and Finance, the staff of Internal Audit, and others who contributed to and assisted in the preparation of the report. Credit must also be given to the Board of Regents and the State of Texas for their continued support and interest in planning and conducting the financial operations of TSU in a responsible and professional manner.

This annual financial report is designed to provide an overview of Texas Southern University's finances for interested parties. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director of Business Affairs, 3100 Cleburne Street, Suite 145, Houston, Texas 77004-4501.

Sincerely,

Edward Craig Ness

INDEPENDENT AUDITOR'S REPORT

To the Board of Regents
Texas Southern University

Report on the Financial Statements

We have audited the accompanying financial statements of Texas Southern University, an agency of the State of Texas as of and for the year ended August 31, 2014, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Texas Southern University, an Agency of the State of Texas, as of August 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of Texas Southern University, an Agency of the State of Texas, are intended to present the financial position, the changes in financial position, and, where applicable, cash flows of only that portion of Texas Southern University that is attributable to the transactions of the University. They do not purport to, and do not present fairly the financial position of the State of Texas as of August 31, 2014, the changes in its financial position, or, where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As also discussed in Note 1, Texas Southern University adopted the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* as of August 31, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 21 through 28 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Texas Southern University's basic financial statements. The Supplementary Information, as listed in the table of contents, is presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2014 on our consideration of Texas Southern University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering Texas Southern University's internal control over financial reporting and compliance.

TEXAS SOUTHERN UNIVERSITY
 (An Agency of the State of Texas)
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
 For the Year Ended August 31, 2014

The purpose of the Management's Discussion and Analysis (MD&A) is to give the readers an objective and easily readable analysis of the annual financial activities of Texas Southern University (TSU). The analysis is based on currently known facts, decisions, or economic conditions. It presents short and long-term analysis of TSU's activities, compares current year results with those of the prior year, and discusses the positive and negative aspects of that comparison. Please read the MD&A in conjunction with the transmittal letter at the front of this report and TSU's financial statements, which follow this section.

THE STRUCTURE OF OUR ANNUAL REPORT

TSU's basic financial statements include statement of net position; statement of revenues, expenses, and changes in net position; statement of cash flows; and notes to the financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statement themselves.

Basic Financial Statements

The basic financial statements report information for TSU as a whole. These statements include transactions and balances relating to all assets, including infrastructure capital assets. These statements are designed to provide information about cost of services, operating results, and financial position of TSU as an economic entity. The statement of net position and the statement of revenues, expenses, and changes in net position, which appear first in the financial statements, report information on TSU's activities that enable the reader to understand the financial condition of TSU. These statements are prepared using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account even if cash has not yet changed hands.

TEXAS SOUTHERN UNIVERSITY
(An Agency of the State of Texas)
MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued
For the Year Ended August 31, 2014

The statement of net position presents information on all of TSU's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of TSU is improving or deteriorating. Other nonfinancial factors, such as TSU's customer base and the condition of TSU's infrastructure, need to be considered to assess the overall health of TSU.

The statement of revenues, expenses, and changes in net position presents information showing how TSU's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows – the accrual method.

The statement of cash flows presents information about TSU's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balances during the reporting period.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements.

The basic financial statements can be found after the MD&A within this report.

FINANCIAL ANALYSIS OF TSU

As noted earlier, net position may serve over time as a useful indicator of TSU's financial position. Assets exceed liabilities by \$152,798,917.74 of August 31, 2014. The largest portion of TSU's net position (75 percent) reflects its investments in capital assets (e.g., land, buildings and improvements, equipment, construction in progress, and infrastructure), less any debt used to acquire those assets that is still outstanding. TSU uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although TSU's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued
 For the Year Ended August 31, 2014

Expenses totaled \$199,074,985.26 for the year ended August 31, 2014. This represents a decrease of \$12,868,114.21 from last year. The majority of this decrease can be attributed to a reduction in the amount of salary and wages, scholarships and other operating expenses.

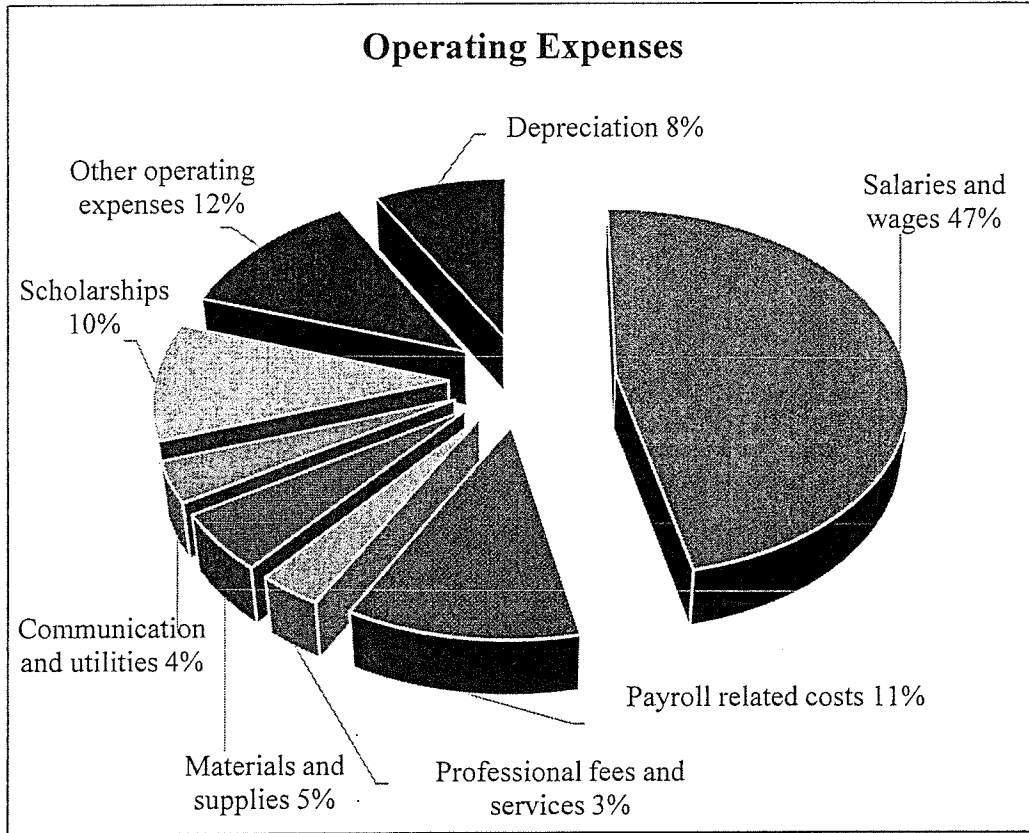

Key elements to these changes are as follows:

- Operating revenues decreased by \$11,278,845.32 (10 percent) primarily due to a decrease in federal revenue and an increase due to discount of tuition and fees.
- Non-operating revenues increased by \$2,163,178.79 (2 percent) primarily due to the fair market value of investments.
- Operating expenses less depreciation decreased by \$13,389,957.69 (8 percent) as a result of a decrease in salaries and wages, scholarships, and other operating expenses.
- Non-operating expenses decreased by \$1,194,875.49 (14 percent) due to an decrease in the Interest Expense and Fiscal Charges from close-out of bonds.
- Depreciation expense increased \$1,222,079.71 (8 percent) due to the new technology building that was placed into operations in FY14.

Graphic presentations of selected data from the summary tables follow to assist in the analysis of TSU's activities.

CAPITAL ASSETS

At year end, TSU had invested \$264,165,777.18 in a variety of capital assets and infrastructure (net of accumulated depreciation). This represents a net decrease of \$68,165.35.

Major capital asset events during the current year include the following:

- Building improvements completed at a cost of \$29,447,443.39.
- Various building renovations and equipment were added as construction in progress at a total cost of \$9,987,121.93.
- Construction continues on the new residential housing unit estimated to cost \$55 million.

More detailed information about TSU's capital assets is presented in note 2 to the financial statements.

LONG-TERM DEBT

TSU's revenue bonds carry the rating of "Baa2" with Moody's Investors Service. At year end, TSU had \$85,333,590.30 in revenue bonds outstanding versus \$94,281,387.50 last year. TSU had \$4,015,000.00 in general obligation bonds outstanding compared to \$9,240,594.93 last year. Also, at year end, TSU had \$65,698,152.26 in notes payable to the Department of Education. This includes \$6,805,421.99 in advances drawn on \$55 million dollars in financing obtained to build an 800 bed Housing Unit.

More detailed information about TSU's long-term liabilities is presented in note 5 to the financial statements.

ECONOMIC FACTORS

TSU's revenue declined in fiscal year 2014 due to reductions in State funding across the board including decreases in State and additional appropriations. In addition to State funding, TSU received less Federal grant awards for scholarships to students.

CONTACTING TSU'S FINANCIAL MANAGEMENT

This financial report is designed to provide our students, alumni, citizens, taxpayers, and creditors with a general overview of TSU's finances and to show TSU's accountability for the money it received. TEXAS SOUTHERN UNIVERSITY

(An Agency of the State of Texas)

NOTES TO FINANCIAL STATEMENTS

For the Year Ended August 31, 2014

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Texas Southern University (TSU), reported as a business-type activity in the State of Texas' Comprehensive Annual Financial Report, have been prepared in conformity with generally accepted accounting principles (GAAP) for local governmental units and with State statutes. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

TSU's annual financial report is prepared to satisfy both the requirements of GAAP and the Texas Comptroller of Public Accounts' (the "Comptroller") requirements as specified in the Comptroller's *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*. The Comptroller specifies, among other items, account captions, note organization, and does not allow the rounding of financial statement amounts to whole dollars.

The most significant accounting and reporting policies of TSU are described in the following notes to the financial statements.

A. Reporting Entity

TSU is an agency of the State of Texas (the "State"). TSU serves the State by providing education, research, and extension work in the fields of the arts, business, education, law, pharmacy, public affairs, science, and technology. No component units have been identified which should be presented within TSU's report.

B. Financial Statement Presentation

In fiscal year 2014, TSU implemented new accounting standard GASB Statement No. 65 ("GASB 65"), *Items Previously Reported as Assets and Liabilities*. GASB 65 establishes accounting and financial reporting standards that reclassify as deferred outflows of resources and deferred inflows of resources, certain items that were previously reported as assets and liabilities. Implementation of GASB 65 is reflected in the financial statements.

These financial statements include implementation of (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*. Requirements of the statement include the following:

- A Management's Discussion and Analysis (MD&A) section providing an analysis of TSU's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of TSU's activities.

Statement No. 34 established standards for external financial reporting for all public colleges and universities, which includes a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows. It requires the classification of net position into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- **Net investment in capital assets** - This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

TEXAS SOUTHERN UNIVERSITY
(An Agency of the State of Texas)
NOTES TO FINANCIAL STATEMENTS, Continued
For the Year Ended August 31, 2014

- **Restricted** - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, laws, regulations of other governments or constraints imposed by law through constitutional legislation.
- **Unrestricted** - This component of net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.”

C. Measurement Focus and Basis of Accounting

For financial reporting purposes, TSU is considered a special-purpose government engaged only in business-type activities. Business-type activities are those that are financed in whole or in part by fees charged to external parties for goods or services. Accordingly, TSU’s financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when an obligation has been incurred.

D. Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriation Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

E. Assets, Liabilities, and Net Position

1. Cash and Cash Equivalents

TSU’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Balance in State Appropriations

This item represents the balance of general revenue funds at August 31, 2014 as calculated in the Texas Comptroller’s General Revenue Reconciliation.

3. Current Receivables – Other

Other receivables include year-end accruals. All receivables are shown net of an allowance for uncollectible accounts.

4. Investments

In accordance with GASB Statement No. 31, *Accounting and Reporting for Certain Investments and External Investment Pools*, TSU reports all investments at fair value. Changes in unrealized gain (loss) on the carrying value of the investments are reported as a component of investment income in the statement of revenues, expenses, and changes in net position.

5. Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements, including those related to sponsored programs, donors, bond covenants, and loan agreements.

TEXAS SOUTHERN UNIVERSITY
 (An Agency of the State of Texas)
NOTES TO FINANCIAL STATEMENTS, Continued
 For the Year Ended August 31, 2014

6. Inventories and Prepaid Costs

Inventories are valued at cost, utilizing the first-in and first-out method. The consumption method of accounting is used, meaning these items are expensed when the items are consumed. Certain payments to vendors made in advance of the scheduled due date have been recorded as prepaid costs.

7. Capital Assets

Capital assets are defined by the State as follows:

<u>Class of Asset</u>	<u>Threshold</u>
Land and Land Improvements	Capitalize all
Buildings and Building Improvements	\$100,000
Facilities and Other Improvements	\$100,000
Infrastructure-Depreciable	\$500,000
Infrastructure-Non-Depreciable	Capitalize all
Furniture and Equipment/Vehicles	\$5,000
Library Books (collections)	Capitalize all
Works of Art/Historical Treasures	Capitalize all
Leasehold Improvements	\$100,000
Internally Generated Computer Software	\$1,000,000
Other Computer Software	\$100,000
Land Use Rights – Permanent	Capitalize all
Land Use Right – Term	\$100,000
Other Intangible Capital Assets	\$100,000
Construction in Progress	Capitalize all

These assets are capitalized at cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed. Depreciation is reported on all exhaustible assets. Inexhaustible assets such as works of art and historical treasures are not depreciated. Assets are depreciated or amortized over the estimated useful life of the asset using the straight-line method over the following estimated useful years:

<u>Asset Description</u>	<u>Estimated Useful Life</u>
Buildings and improvements	15 to 50 years
Machinery and equipment	3 to 10 years
Infrastructure	30 to 50 years
Computer software	5 to 6 years
Land use rights	10 years
Capital leases	5 years

8. Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

TEXAS SOUTHERN UNIVERSITY
(An Agency of the State of Texas)
NOTES TO FINANCIAL STATEMENTS, Continued
For the Year Ended August 31, 2014

9. Compensated Absences

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

10. Bonds Payable – General Obligation Bonds

General obligation bonds are reported as short-term liabilities (current for amounts due within one year) and long-term liabilities (noncurrent for amounts due thereafter) in the statement of net position. The bonds are reported at par, net of unamortized premiums, discounts, issuance costs, and gains (losses) on bond refunding activities, if applicable.

11. Bonds Payable – Revenue Bonds

Revenue bonds are reported as short-term liabilities (current for amounts due within one year) and long-term liabilities (noncurrent for amounts due thereafter in the statement of net position). The bonds are reported at par, net of unamortized premiums, discounts, issuance costs and gains (losses) on bond refunding activities, if applicable.

12. Net Position

Net position is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. TSU does not have any deferred inflows/outflows of resources as of August 31, 2014.

F. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

G. Operating versus Non-operating Revenues

TSU categorizes revenues as operating versus non-operating following the Comptroller's guidelines. Generally, all revenues are considered operating revenue unless they are non-exchange transactions, such as State appropriations, gifts, or investment related earnings.

H. Restricted versus Unrestricted Resources

Expenses incurred by TSU for items that could be applied to restricted or unrestricted sources are first applied to unrestricted sources, unless such items were specifically budgeted for use from a restricted source.

I. Economic Dependency

TSU relies extensively on State appropriations as well as resources from grantor agencies to support its operations.

B. Investments

TSU has adopted written investment policies regarding the investment of its endowment and non-endowed funds. All investments shall be made in accordance with applicable laws, the investment policies, and resolutions of the Board of Regents. In summary, TSU is authorized to invest in the following:

- Direct obligations of the U.S. Government or its agencies and instrumentalities
- Obligations of this State, or its agencies or its instrumentalities
- Fully collateralized certificates of deposit
- Fully collateralized repurchase agreements or reverse repurchase agreements
- Bankers' acceptance notes
- Commercial paper
- Mutual funds
- Investment pools
- Cash management and fixed income funds exempt from federal income taxation
- Negotiable certificates of deposit
- Corporate bonds rated in one of the two highest categories
- Common or convertible preferred stock
- Foreign government bonds
- Foreign corporate bonds

Fixed Income Money Market Funds	11,386,543.83
Total Fair Value	<u>\$ 58,668,373.04</u>

Credit risk. Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. TSU's investment policy limits investments in obligations of states, agencies, counties, cities, and other political subdivisions of any investments rated greater than A or its equivalent. Corporate bonds, debentures, or similar debt instruments must be rated by a nationally recognized investment rating firm in one of the two highest long-term rating categories, without regard to gradation within those categories. The following table presents each applicable investment type grouped by rating as of August 31, 2014:

Investment Ratings

Investment Type	AAA	AA	AA+	AA-	A

Concentration of credit risk – investments. TSU's investment policy contains diversification as an investment risk but does not contain any limitation on a dollar amount that may be invested in a specific maturity, issuer, or class of investment for its non-endowment funds and endowment funds.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, TSU will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. TSU's investment policy requires safekeeping securities at financial institutions,

avoiding physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in TSU's safekeeping account prior to the release of funds.

Interest rate risk-investments. For an investment, this is the risk that changes in interest rates will adversely affect the fair value of an investment.

The following table demonstrates TSU's interest rate risk.

A. Notes and Loans Payable

1. Student Housing-Wheeler and Sampson Streets

On September 27, 2012, pursuant to the Board resolution made on July 6, 2012, TSU secured financing to construct new student housing, consisting of 800 beds, to be located on the eastside of the campus at Wheeler and Sampson streets. The financing of this project is through the U.S. Department of Education's Historically Black Colleges and Universities loan program initiative. The amount of the loan is not to exceed \$55,000,000.00. As of August 31, 2014, the total amount of proceeds advanced under this loan is \$6,805,421.99. Pursuant to the terms of the loan agreement, the last day to advance funds is March 1, 2015. Interest will be capitalized through March 1, 2015. The interest rate will be fixed for each advance equal to U.S. Treasury yields prevailing at the dates at each advance plus 22.5 basis points (.225%). Scheduled payment dates are May 1st and November 1st of each year. The first principal payment date is November 1, 2016 and the maturity date is May 1, 2034. The debt service is secured by Housing rental revenues.

2. Parking Garage

On September 26, 2011, pursuant to the Board resolution made in June 2011, TSU acquired the East and West parking garages from the Central Houston Parking, L.L.C. The acquisition was financed through U.S Department of Education's Historical Black Colleges and Universities loan program initiative. The loan amount was \$64,180,000.00. Existing debt service funds and reserves held by the trustees in Bank of New York Trust Company, NA., were also applied in the satisfaction of the purchase agreement and terms. Consequently, Central Houston Parking has since relinquished all beneficial interests, rights and title of the properties. The cost of the purchase was \$33,307,026.59. The debt service is secured by parking revenues.

3. Student Housing - Tierwester Oaks and Richfield Manor Apartments

On September 26, 2011, pursuant to the Board resolution made in June 2011, TSU acquired the Tierwester Oaks and Richfield Manor Apartments from the Houston Student Housing II, L.L.C. The acquisition was financed through U.S Department of Education's Historical Black Colleges and Universities loan program initiative. The loan amount was \$64,180,000.00. Existing debt service funds and reserves held by the trustees in Bank of New York Trust Company, NA., were also applied in the satisfaction of the purchase agreement and terms. Consequently, Houston Student Housing II has since relinquished all beneficial interests, rights and title of the properties. The cost of the purchase was \$21,442,969.78. The debt service is be secured by housing rental revenues.

B. Compensated Absences

A State employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. An expense and liability are recorded as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source from which the employee's salary or wage compensation was paid.

C. Arbitrage Liability

The Tax Reform Act of 1986 instituted certain arbitrage consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed or are not performed correctly a substantial liability to TSU could result. TSU periodically engages an arbitrage consultant to perform the calculations in accordance with the IRS rules and regulations and the arbitrage liability is adjusted accordingly.

NOTE 9: RETIREMENT PLANS

A. Teacher Retirement System

The State of Texas has joint contributory retirement plans for substantially all of its employees. One of the primary plans in which TSU participates is a cost-sharing, multi-employer, public employee retirement system administered by the Teacher Retirement System of Texas (TRS). TRS is primarily funded through State and employee contributions. Depending upon the source of funding for a participant's salary, TSU may be required to make contributions in lieu of the State.

All TSU personnel employed in a position on a half time or greater basis for four and a half months or more are eligible for membership in TRS. Members with at least five years of service at age 65 or any combination of age plus years of service which equals 80, have a vested right to retirement benefits. Additionally, reduced benefits are available at age 55 with at least five years of service or at any age below 50 with 30 years of service. Members are fully vested after five years of service and are entitled to any benefits for which the eligibility requirements have been met.

TRS contribution rates for both employers and employees are not actuarially determined but are legally established by the State Legislature. Contributions by employees are 6.4 percent of gross earnings. Depending upon the source of funding for the employee's compensation, the State or TSU contributes a percentage of participant salaries totaling 6.8 percent of annual compensation. TSU's contributions to TRS for the year ended August 31, 2014 were \$1,998,671.93, which equaled the amount of the required contributions for the year.

TRS does not separately account for each of its component government agencies since the retirement system itself bears sole responsibility for retirement commitments beyond contributions fixed by the State Legislature. Further information regarding actuarial assumptions and conclusions, together with audited financial statements are included in the retirement system's annual financial report, which may be found on the TRS website at www.trs.state.tx.us.

B. Optional Retirement Program

The State of Texas has also established an Optional Retirement Program (ORP) for institutions of higher education. Participation in the ORP is in lieu of participation in TRS. The ORP provides for the purchase of annuity contracts and mutual funds. Participants are vested in the employer contributions after one year and one day of service. The contributory percentages of participant salaries currently provided by the State of Texas and each participant are 6.60 percent and 6.65 percent, respectively. Depending upon the source of funding for the employee's compensation, TSU may be required to make the employer contributions in lieu of the State. Additionally, the State or TSU must make additional contributions above 6.00 percent depending upon the employee's date of hire. Since these are individual annuity contracts, the State and TSU have no additional or unfunded liability for this program.

NOTES 10 and 11: RETIREMENT PLANS

These notes are not applicable to TSU.

NOTE 12: INTERFUND ACTIVITY AND TRANSACTIONS

TSU reports their financial statements in accordance with GASB Statement No. 35. The statement requires TSU to report as one fund. Accordingly, no interfund balances and activities are reported.

NOTE 13: CONTINUANCE SUBJECT TO REVIEW

TSU's continuance is not subject to review.

NOTE 14: RESTATEMENT OF NET POSITION

Due to the adoption of GASB 65, net position was restated at August 31, 2013. TSU is eliminating amortization of all bonds issuance cost. Prepaid bond insurance policy was expensed in error in FY14 and is being restated to amortize remaining amount.

NOTE 15: CONTINGENCIES AND COMMITMENTS

A. Grants

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although TSU expects such amounts, if any, to be immaterial.

B. Lawsuits

TSU is a defendant in numerous lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of TSU's management that resolution of these matters will not have a materially adverse effect on the financial condition of TSU.

C. Perkins Loan

TSU is recording maximum liability – Due to Perkins Loan Program for \$1.1 million. The actual liability could be less than this amount and the final number will be known when the Perkins Loan close-out process is complete and final numbers are provided by Department of Education.

NOTE 16: SUBSEQUENT EVENTS

None.

NOTE 17: RISK FINANCING AND RELATED INSURANCE

TSU is exposed to a variety of civil claims resulting from the performance of its duties. It is TSU's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. TSU assumes substantially all risks associated with tort and liability claims due to the performance of its duties.

TSU has commercial insurance policies for general liability, directors and officers, and commercial property. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements for the past three years. Currently, TSU is not involved in any risk pools with other government entities.

TSU has various self-insured arrangements for coverage in the areas of employee health insurance, workers' compensation, unemployment compensation, and medical malpractice. Employee health and medical malpractice plans are funded.

The State provides coverage for workers' compensation and unemployment benefits from appropriations made to other State agencies for TSU employees. The current General Appropriations Act provides that TSU must reimburse the general revenue fund, consolidated from TSU appropriations, one-half of the unemployment benefits and 25 percent of the workers' compensation benefits paid for former and current employees. The Comptroller determines the proportionate amount to be reimbursed from each appropriated fund type. TSU must reimburse the general revenue fund 100 percent of the cost for workers' compensation and unemployment compensation for any employees paid from funds held in local bank accounts and local funds held in the State treasury. Workers' compensation and unemployment plans are on a pay-as-you-go basis, in which no assets are set aside to be accumulated for the payment of claims. No material outstanding claims are pending at August 31, 2014.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a State highway be insured for minimum limits of liability in the amount of \$20,000 / \$40,000 bodily injury and \$15,000 property damage. However, TSU has chosen to carry liability insurance on its licensed vehicles in the amount of \$250,000 / \$500,000 bodily injury and \$100,000 property damage, the extent of the waivers of State sovereign immunity specified in the tort claims act.

NOTE 18: MANAGEMENT'S DISCUSSION AND ANALYSIS

Although normally included as Note 18 following the Comptroller's requirements, Management's Discussion and Analysis is included as a separate section in the front of this report to comply with GASB.

NOTE 19: THE FINANCIAL REPORTING ENTITY

A. Related Parties

TSU is affiliated with the Texas Southern University Foundation. The stated purpose of the foundation is "to solicit and receive gifts, grants, devices, or bequests and to maintain, use, and apply the income there from and the principal thereof exclusively for charitable, scientific, literary or educational activities in order to aid and benefit Texas Southern University." According to foundation bylaws, the President of TSU and a representative of TSU's Board of Regents shall be ex officio members of the foundation's Board of Directors with full voting rights.

TSU is also affiliated with the Texas Southern University Alumni Association. The alumni association is a non-profit organization created for the purpose of promoting, fostering, and advancing the educational goals of TSU and the interests and welfare of its students; to provide the means for continuing relationships between TSU, former students,

and the community; and to enable them to contribute to and share in the progress of TSU. All former students are eligible for membership in the alumni association. The Board of Directors of the alumni association is elected by the membership. TSU administration has no controlling interest in the alumni association.

The financial statements of TSU encompass the financial activity only of TSU. TSU does not have any component entities that should be included in these financial statements.

NOTE 20: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

TSU has no material violations of finance related legal and contract provisions. Per the laws of the State of Texas, TSU cannot spend amounts in excess of appropriations granted by the Texas Legislature and there are no deficits reported in net position.

True Endowments	\$ 11,892,232.78	Restricted for expendable
Term Endowments	5,288,390.90	Restricted for expendable
Total	<u>\$ 17,180,623.68</u> *	

In the table above, amounts reported as “Net Appreciation” represent net appreciation on investments of donor or constitutionally restricted endowments that are available for authorization for expenditure by the TSU Board of Regents. For donor restricted endowments, pursuant to the Uniform Management of Institutional Funds Act, as adopted by Texas, the TSU Board of Regents may distribute net appreciation, realized and unrealized, in the fair market value of the assets of endowment holdings over the historic dollar value of the gifts, to the extent prudent.

The primary long-term investment objective of the endowment is to earn a total rate of return that exceeds the spending rate plus the cost of managing the investment fund. The university all inclusive spending rate of 7%, which includes 5% spending rate, 1.5% university advancement assessment and 0.5% costs of managing the investment fund. In order to preserve purchasing power parity, the Endowment’s spending policy shall not exceed 5%. The calculation of the 5% spending rate will be based upon a three year moving average of Endowment Fund earnings with the most recent year removed. The 5% annual spending rate is required to be applied to each individual endowment. The University will calculate the average market value based upon the time period that these endowments are in existence.

*There was a fair market value increase of \$ 7,272,905.68 for fiscal year 2014.
