INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Victoria County Junior College District
Victoria, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the Victoria County Junior College District, as of and for the year ended August 31, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Victoria County Junior College District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Victoria College Foundation, Inc. (the "Affiliated Organization"), which reflects total assets of \$11,861,541 and revenues of \$2,600,282. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and in our opinion, insofar as it relates to the amounts included for the Victoria College Foundation, Inc., are based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Victoria County Junior College District, as of August 31, 2014 and 2013, and the respective changes in financial position, and, where applicable, cash flows thereof, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 2 to the financial statements, in 2014 the District adopted new accounting guidance, GASB Statement No. 65, Items Previously Reported as Assets and Liabilities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Victoria County Junior College District's financial statements. The introductory section, and combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. The accompanying schedule of expenditures of State Awards is presented for purposes of additional analysis as required by the *State of Texas Single Audit Circular*, and is also not a required part of the basic financial statements of the Victoria County Junior College District.

The supplementary information and financial assistance section, which includes the schedule of expenditures of federal awards and the schedule of expenditures of state awards, are the responsibility of management and were derived from and relate directly to underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, the supplementary information and financial assistance section are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2014, on our consideration of the Victoria County Junior College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Victoria County Junior College District's internal control over financial reporting and compliance.

**Management's Discussion and Analysis
(Unaudited)
Year Ended August 31, 2014**

Management Discussion and Analysis is included to provide a narrative introduction, overview and analysis of the financial position and changes in financial position of the Victoria County Junior College District (Victoria College, District, or College) for the fiscal year ended August 31, 2014. The discussion is prepared by management and should be read in conjunction with the accompanying financial statements and notes.

The financial statements are prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) as established by the Governmental Accounting Standards Board (GASB) and comply with reporting requirements as set by the Texas Higher Education Coordinating Board (THECB). The annual financial report is presented in a "business type activity" format. The statements are prepared on the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided by the District and expenses and liabilities are recognized when services are provided to the District, regardless of when cash is exchanged. The notes to the financial statements are considered an integral part of the financial statements and should be read in conjunction with them. Management is responsible for both the accuracy of the data and the completeness and fairness of the presentation of the financial statements and notes.

The District's annual financial report consists of three basic financial statements: the Statements of Net Position provide a summary of assets, liabilities and net position as of August 31, 2014; the Statements of Revenues, Expenses and Changes in Net Position provide a summary of operations for the fiscal year; and the Statements of Cash Flows provide categorized information about cash inflows and outflows for the fiscal year. Fiscal years ended August 31, 2014 and 2013 are presented in the audited financial statements. The discussion and analysis is limited to the Statements of Net Position and the Statements of Revenues, Expenses and Changes in Net Position for the primary government and is designed to focus on current activities, the resulting change, and currently known facts.

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The statement is effective for financial statements beginning after December 15, 2012. The District adopted GASB Statement No. 65 for the fiscal year ended August 31, 2014. A prior period adjustment (note 26) was required to remove bond issuance costs from the Statement of Net Position.

In March 2012, the GASB issued Statement No. 66, *Technical Corrections – 2012 – An Amendment of GASB Statements No. 10 and No. 62*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement is effective for financial statements for periods beginning after December 15, 2012. Adoption of this Statement had no impact on the financial reporting of the District.

Statements of Net Position

The Statements of Net Position present the District's financial position at the end of the fiscal year and includes all assets, liabilities, deferred outflows and inflows of resources, and the resulting net position. The focus is to report the total net resources available to finance future services. Assets and liabilities are presented in the order of their liquidity with noncurrent defined as greater than one year. Net positions are displayed in three components: invested in capital assets, net of related debt; restricted; and unrestricted.

Increases or decreases in net position are one indicator of whether the overall financial condition has improved or deteriorated during the year when considered with other factors such as enrollment, contact hours of instruction, and other non-financial information. The Statement of Net Position is useful in determining the assets available to continue operations as well as how much the District owes to vendors, bondholders, and other entities at the end of the year.

Highlighted information from the Summary Statements of Net Position:

- Total assets decreased by \$230,327 or 0.3%.
- Total liabilities decreased by \$1,266,955 or 2.9%.
- Total net position increased by \$1,036,628 or 2.9%.

Total assets decreased by \$230,327 or 0.3% due primarily to a reduction in cash and cash equivalents of \$12,717,430 and a reduction in other assets of \$1,156,993. Of the \$1,156,993 reduction in other assets, \$722,569 was attributable to a change in accounting treatment for unamortized bond issuance costs. A prior period adjustment was required to remove unamortized bond issuance costs from the financial statements in order to comply with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. These reductions were offset by an increase of \$13,644,096 in capital assets, net of depreciation. A significant portion of the increase in capital assets (and the offsetting reduction in cash and cash equivalents) represents recognition of construction in progress on the Emerging Technology Complex, an on-going construction project. Capital assets are discussed below and in note 7 in the accompanying financial statements.

Total liabilities decreased by \$1,266,955 or 2.9%. Reduction in liabilities is due to principal payments made on outstanding bond issues. See discussion of long-term debt below and notes 8 through 12 in the accompanying financial statements.

Statements of Revenues, Expenses, and Changes in Net Position

The Statements of Revenues, Expenses, and Changes in Net Position present the District's results of operations for the fiscal year. The statements detail how net position changed during the fiscal year and is divided into operating revenues and expenses and non-operating revenues and expenses. Operating revenues are received for providing goods and services to various customers and constituencies of the District. Operating expense are those expenses paid to acquire or produce the goods and services provided in return for the operating revenues and to carry out the mission of the District.

**Management's Discussion and Analysis
(Unaudited)
Year Ended August 31, 2014**

Tuition and auxiliary revenues are shown net of allowances and discounts, depreciation is provided for capital assets, and a subtotal is required for net operating income or loss. This required subtotal will generally reflect a "loss" for community colleges in Texas due to the way operating and non-operating items are defined by generally accepted accounting principles. For community colleges, State appropriations, ad valorem taxes, and Federal Title IV revenues, while budgeted for operations, are non-exchange transactions and, as such, are treated as non-operating revenues for financial statement purposes.

**Management's Discussion and Analysis
(Unaudited)
Year Ended August 31, 2014**

Highlighted information from the Summary Statements of Revenues, Expenses, and Changes in Net Position:

- Operating revenues increased by \$2,328,532 or 13.6%.
- Operating expenses increased by \$975,273 or 2.2%.
- Operating loss was reduced by \$1,353,259 or 4.8%.
- Non-operating revenue increased by \$1,674,069, while non-operating expenses decreased by \$625,896 for a net non-operating revenues and expenses increase of \$1,048,173 or 3.8%.

For fiscal year ended August 31, 2014, net position increased by \$1,036,628 (2.9%) from \$35,770,797 to \$36,807,425. Operating revenues increased by \$2,328,532 or 13.6%. A significant portion of the increase was due to a \$1,764,127 (47.7%) in local, state, and federal grants and gifts. Tuition and fees (net of discounts) increased by \$409,618 or 4.6% due to an increase in the per credit hour rate from \$43 to \$46 and due to non-credit instruction tuition for specialized training made possible by grant awards.

Operating expenses increased by \$975,273 (2.2%). The increase in operating expenses was offset by increases in operating and non-operating revenues (\$2,328,532 and \$1,674,127, respectively) and a reduction in non-operating expenses (\$625,896 in interest on capital related debt). A substantial portion of the increase in non-operating revenue was due to an increase in ad valorem tax revenue (\$2,022,780) and a reduction in Title IV revenue (\$646,172).

The Victoria College Board of Trustees set the tax rate at \$0.1823 per \$100 valuation, an increase from the prior year rate of \$0.1606. The increase in the tax rate was to accommodate debt service on bonds issued during fiscal year 2013 to construct the Emerging Technology Complex.

Interest and related investment income decreased by \$18,107, or 13.6%. Poor market conditions and reduction in cash balances as bonds funds are expended for on-going construction resulted in lower investment income.

Tuition and fee revenue increased by \$409,618 (4.6%) for the year ended August 31, 2014. Increased per hour credit tuition rates (from \$43 per credit hour in fiscal year 2013 to \$46 per credit hour in fiscal year 2014) and specialized training tuition provided by grant awards offset enrollment and contact hours declines for the fiscal year ended August 31, 2014. An analysis of enrollment and contact hours is provided immediately below.

Tuition and fee rates per semester credit hour are shown below:

| Fiscal Year | In-District Tuition | Non-Resident Tuition | Out of District Fee | General Fee | Technology Fee |
|------------------------|--------------------------------|---------------------------------|------------------------------------|------------------------|---------------------------|
| 2014 | \$ 46 | \$ 100 | \$ 47 | \$ 22 | \$ 15 |
| 2013 | \$ 43 | \$ 100 | \$ 47 | \$ 22 | \$ 15 |
| 2012 | \$ 43 | \$ 100 | \$ 47 | \$ 22 | \$ 15 |

Enrollment Highlights:

Credit student enrollment and contact hours decreased by 0.9% and 2.0%, respectively, for the fall term. Headcount was 4,406 for the fall 2013-2014 term compared to 4,445 for the fall 2012-2013 term. Credit student enrollment and contact hours decreased by 3.8% and 8.0%, respectively, for the spring term. Headcount was 3,922 for the spring 2013-2014 term compared to 4,076 for the spring 2012-2013 term. Overall credit student enrollment and contact hours decreased by 4.7% and 6.7%, respectively due to a drop in enrollment and contact hours during each semester of fiscal year 2014: reduction in headcount and contact hours of 39 and 15,488 for fall; reduction in headcount and contact hours of 154 and 59,920 for spring; and reduction in headcount and contact hours of 240 and 41,968, respectively, for the summer term.

Year Ended August 31, 2014**

Fundable non-credit enrollment and contact hours increased 37.6% and 17.9%, respectively from Quarter 1 2012-2013 term (832 enrollment; 50,562 contact hours) to the Quarter 1 2013-2014 term (1,145 enrollment; 59,624 contact hours). Fundable non-credit enrollment and contact hours decreased 9.8% and 10.0%, respectively from Quarter 2 2012-2013 term (799 enrollment; 43,458 contact hours) to the Quarter 2 2013-2014 term (721 enrollment; 39,119 contact hours). Quarters 3 and 4 increased enrollment and contact hours by 6.7% (enrollment 137; contact hours 4,376). Overall, fundable non-credit enrollment decreased by 4.3% and contact hours increased by 5.7%. Fluctuations in fundable non-credit enrollment is due, in part, from timing related to Skills Development Grants received from the Texas Workforce Commission (TWC). Grants obtained through the TWC allow the District to offer specialized training to industry partners within its service area, thereby increasing the skill level of incumbent and new workers. The impact on enrollment and contact hour levels is dependent upon grant begin and end dates and availability of funding. The District will continue to seek funding from the TWC in order to offer courses that enhance the quality of workers in its service area.

Strategic and Operational Planning

Victoria College is committed to an institution-wide focus on strategic and operational planning. Year Two results of the 2012-2015 Strategic Plan indicate a significant percentage of the plan has been fully implemented and the remaining action items are on target for completion by the end of the 2014-2015 academic year. Three teams, composed of a cross-functional representation of administration, faculty and staff continue the work developed to address the three priority goals of Fostering Student Success, Meeting Community Needs and Ensuring Institutional Excellence.

Key performance indicators are evaluated against the base year of 2011-2012. Early indicators suggest that the initiatives implemented are having a significant positive outcome. Some highlights of the strategies implemented include:

- Fostering Student Success
 - Improved student engagement through evaluation and implementation of a revised faculty advising plan, an Early Alert System, expanded childcare opportunities through a partnership with the local YMCA and full operation of the Center for Academic and Professional Excellence
- Meeting Community Needs
 - Targeted recruitment to areas of high need, enhanced retention programs and services for students, development of new career pathways, and increased partnerships with area high schools to offer additional dual credit opportunities in career and technical education programs

- Ensuring Institutional Excellence
 - Final reaffirmation from the Southern Association of Colleges and Schools Commission on Colleges, completion of the Campus Safety and Emergency Management Plan, and a focus on employee professional development

As the college enters the final year of the plan, teams will begin working on developing the next plan in early spring 2015. Priority Goals will be established based on results of the current plan and the identified needs of the college constituents.

Reaffirmation of Accreditation

The Southern Association of College and Schools Commission on Colleges reaffirmed Victoria College's accreditation and approved its Quality Enhancement Plan in June 2014. This approval acknowledges and reaffirms the high standards, institutional effectiveness and quality of Victoria College's programs and services.

Resource Management & Development

Victoria College remains committed to maintaining the affordability of higher education and works diligently to develop and enhance its resources in order to balance the needs of its students with the needs of its entire constituency of taxpayers, community members, and business and industry. As State financial support continues to decrease and the cost of doing business continues to increase, achieving this balance becomes progressively more difficult. Administration, faculty and staff work diligently to control expenses while not allowing services to suffer.

To offset the loss in state funding, the college increased the property tax rate from \$0.1606 to \$0.1823, per \$100 valuation and increased the general fee per semester credit hour from \$22 to \$27 for fiscal year 2014-2015. The tax rate increase was less than the anticipated increase projected when the \$22 million general obligation bond was passed by voters in 2012.

Victoria College strategically and aggressively seeks external support through donations and grants to help offset the cost of new program development, to enable the granting of student financial support, and to provide necessary funds for expansion and growth. The College strives to secure, for all area students seeking postsecondary education and training, the resources necessary to facilitate college enrollment and successful completion without accumulation of excessive financial burden. Generous community support and a strategic focus on investment management allowed the VC Foundation to award over \$476,000 in student scholarships and inject nearly \$438,000 to enhance College programs, facilities, and initiatives. In addition, numerous private, State and Federal grants, totaling nearly \$1.3 million, were awarded to Victoria College during the year to support students' financial needs and programs.

Expanded Educational and Training Programs and Facilities

Construction continues on the Emerging Technology Complex. In 2012, Victoria County voters approved by 66% a \$22 million general obligation bond to support VC's master plan, which included construction of the facility. The 119,000 square-foot facility will include specialized training labs for industrial applications and rapid response labs that can be configured to meet emerging needs. Additionally, the facility will include computer labs for instruction, traditional classrooms and flexible-use rooms for large-scale corporate training events. In addition to supporting the training needs of current and future students and employers, VC's Emerging Technology Complex will provide additional space for corporate and industrial training programs. It will also allow VC to develop new, in-demand certificate and degree programs that support regional economic development while freeing up space on VC's main campus for growing academic programs. Nearly \$3 million in private donations has been secured to provide funding for state-of-the art technology and training equipment. The building project is on time and on budget, with expected opening spring 2015.

Through a partnership with the City of Gonzales, the Gonzales Economic Development Corporation and numerous area donors, the College expanded program offerings at its Gonzales Center. A new science lab and an Industrial Training Center allows new certificates and degrees to be offered to residents and address the workforce training needs of business and industry in the area.

VICTORIA COUNTY JUNIOR COLLEGE DISTRICT
VICTORIA, TEXAS
Notes to the Financial Statements
August 31, 2014

1. Reporting Entity

Victoria County Junior College District (the “District”) was created by a vote of the electorate of Victoria County, Texas, at an election held on December 2, 1947, in accordance with the laws of the State of Texas to serve the educational needs of Victoria County and the surrounding communities. The Board of Trustees (the “Board”), a seven-member group, is the level of government which has governing responsibilities over all activities related to public junior colleges within the jurisdiction of the District. Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters, including taxing authority. The District is considered to be a special-purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement 14, *The Financial Reporting Entity*. While the District receives funding from local, state, and federal sources, and must comply with the spending, reporting, and record keeping requirements of these entities, it is not a component unit of any other governmental entity. Furthermore, all activities and organizations over which the Board exercises oversight responsibility have been included in the basic financial statements.

2. Summary of Significant Accounting Policies

Reporting Guidelines

The significant accounting policies followed by the District in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The District applies all applicable GASB pronouncements. The District is reported as a special-purpose government engaged in business type activities.

The District adopted GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which was effective for financial statement periods beginning after December 15, 2011, established reporting standards for deferred outflows and inflows and changed the presentation and titles of the financial statements accordingly during the prior year. With the implementation of GASB Statement No. 63, the Statement of Net Assets has been renamed to the Statement of Net Position and net assets now becomes net position. Additionally, the Statement of Net Position now includes two new classifications, deferred outflows and deferred inflows of resources, separate from assets and liabilities. Amounts reported as deferred outflows of resources are required to be reported in the Statement of Net Position in a separate section following assets. Likewise, amounts reported as deferred inflows of resources are required to be reported in the Statement of Net Position in a separate section following liabilities. The totals of these new classifications are added to the total for assets and liabilities, respectively, to arrive at net position. During fiscal years 2014 and 2013, the District reports unamortized premium on bonds as deferred inflows of resources.

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The statement is effective for financial statements beginning after December 15, 2012. The District adopted GASB Statement No. 65 for the fiscal year ended August 31, 2014. A prior period adjustment (note 26) was required to remove bond issuance costs from the Statement of Net Position.

In March 2012, the GASB issued Statement No. 66, *Technical Corrections – 2012 – An Amendment of GASB Statements No. 10 and No. 62*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement is effective for financial statements for periods beginning after December 15, 2012. Adoption of this Statement had no impact on the financial reporting of the District.

Basis of Accounting

The financial statements of the District have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Budgetary Data

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The District's Board of Trustees adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

In accordance with GASB Statement No. 31 *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. [The governing board has designated public funds investment pools comprised of \$450 and \$3,006,720 at August 31, 2014, and 2013, respectively, to be short-term investments.] Long-term investments have an original maturity of greater than one year at the time of purchase.

Inventories

Inventories consist of consumable office supplies, physical plant supplies, concession supplies, and bookstore stock. Inventories are valued at cost on a first in, first out basis for supplies and at retail method for bookstore stock. Inventories are charged to expense as consumed.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair value at the date of donation. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. Renovations of \$100,000 to buildings, infrastructure and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 20 years for land improvements, 15 years for library books, 10 years for furniture, machinery, vehicles and other equipment, and five years for telecommunications and peripheral equipment.

Deferred Revenues

Tuition and fees of \$4,117,785 and \$4,155,729, federal, state and local grants of \$246,708 and \$248,387, and deferred other of \$96,518 and \$429,589 have been reported as deferred revenues at August 31, 2014 and 2013, respectively.

Tuition Discounting

Texas Public Education Grants – Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award is used by the student for tuition and fees, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act Program Funds – Certain Title IV HEA Program funds are received by the District to pass through to the student. These funds are initially received by the District and recorded as non-operating restricted revenue. When the award is used by the student for tuition and fees, the amounts are recorded as revenue and a corresponding amount is recorded as tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts – The District awards tuition and fee scholarships from institutional funds to qualifying students. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Management Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires the District's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating and Non-Operating Revenue and Expense Policy

The District distinguishes operating revenues and expenses from non-operating items. The District reports as a BTA and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Income Taxes

The District is exempt from income taxes under Internal Revenue Code Section 115, *Income of States, Municipalities, Etc.*, although unrelated business income may be subject to income tax under Internal Revenue Code Section 511 (a)(2)(B), *Imposition of Tax on Unrelated Business Income of Charitable, Etc., Organizations*. The District had no unrelated business income tax liability for the years ended August 31, 2014 and 2013.

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During its fiscal year ended August 31, 2014, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past year.

Reclassifications

Certain 2013 amounts have been reclassified to conform to current year presentation.

3. Authorized Investments

The Board of Trustees of the District has adopted a written investment policy regarding the investments of its funds as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). The investments of the District are in compliance with the Board of Trustees' Investment Policy and the Public Funds Investment Act. Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

| Total Uncategorized Investments | \$ 450 | \$ 450 | \$ - | \$ - | |

Interest Rate Risk – In accordance with state law and District investment policy, the District does not purchase any investments with maturities greater than 5 years.

Credit Risk – In accordance with state law and the District’s investment policy, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations from other states, municipalities, counties, etc. must be rated at least A. All Tex Pool investments of the District are rated AAAM.

Concentration of Credit Risk – The District does not place a limit on the amount the District may invest in any one issuer.

5. **Derivatives**

The District did not invest in derivative investment products or repurchase agreements during the fiscal year ended August 31, 2014.

10. Refunding Bonds

In previous years, the District issued refunding bonds to defease certain bond issues. The refunded obligations represent a legal defeasance and are no longer a liability of the District; therefore, they are not included in the District's financial statements.

Combined Fee Revenue Refunding Bonds, Series 2010

On October 29, 2010, the Districted issued \$3,455,000 of Combined Fee Revenue Refunding Bonds, Series 2010. The bonds mature serially through August 2019. The interest rates range from 2.0% to 4.0%. The bonds are to refund the Combined Fee Revenue Bonds, Series 1999. The par value of the refunding bonds was \$3,455,000 with a premium of \$137,395.

The total cash flows required to service the refunded bonds as of the effective date of the refunding were \$3,984,488. The aggregate debt service payments of the refunded bonds of \$4,284,479 is \$299,991 less than the aggregate debt service payments of the refunding bonds of \$3,984,488.

Limited Tax Refunding Bonds, Series 2012

On May 9, 2012, the Districted issued \$8,480,000 of Limited Tax Refunding Bonds, Series 2012. The bonds mature serially through August 2026. The interest rates range from 2.0% to 3.5%. The bonds are to refund a portion of the Limited Tax Bonds, Series 2006. The par value of the refunding bonds was \$8,480,000 with a premium of \$1,445,958.

The total cash flows required to service the refunded bonds as of the effective date of the refunding were \$12,269,117. The aggregate debt service payments of the refunded bonds of \$12,992,314 is \$723,197 less than the aggregate debt service payments of the refunding bonds of \$12,269,117.

11. Defeased Bonds Outstanding

The proceeds of the Districts Limited Tax Refunding Bonds, Series 2012 were placed in an escrow fund to provide for the future debt service payments on the old bonds. Accordingly, the trust account assets and defeased bonds are not included in the District's financial statements.

For the fiscal years ended August 31, the District had the following defeased bonds outstanding:

| <u>Bond Issue</u> | <u>Year Refunded</u> | <u>Par Value Outstanding</u> | |
|--------------------------------|--------------------------|------------------------------|---------------------|
| | | <u>2014</u> | <u>2013</u> |

13. **Short Term Debt**

The District used no short-term debt for the year ended August 31, 2014.

14. **Rental Agreement and Operating Lease Commitments**

Operating Lease Commitments

The District's negotiated a non-cancellable operating lease contract for copiers beginning November 27, 2012 and ending November 26, 2015.

The future minimum lease payments are as follows:

| <u>Fiscal Year</u> | <u>Amount</u> |
|--------------------|-------------------|
| 2015 | \$ 96,081 |
| 2016 | <u>16,013</u> |
| | <u>\$ 112,094</u> |

Rental expense paid for the years ended August 31, 2014 and 2013 for operating leases totaled \$167,669 and \$187,493, respectively.

15. **Employees' Retirement Plan**

The State of Texas (state) has joint contributory retirement plans for almost all of its employees. One of the primary plans in which the District participates is administered by the Teacher Retirement System of Texas (TRS).

Teacher Retirement System of Texas - Defined Benefit Plan

Plan Description. The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing, multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provision of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publically available financial report with required supplementary information which can be obtained from www.trs.state.tx.us, under the TRS Publications heading, by calling TRS Communications Department at 1-800-223-8778, or by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended pursuant to the following state funding policy: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10% of the aggregate annual compensation of all members of the system during the fiscal year; (2) state statute prohibits benefit improvements, if as a result of a particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal years 2014, 2013 and 2012. The state's contribution rates are 6.8% for fiscal year 2014, 6.4% for fiscal year 2013, and 6.0% for fiscal year 2012. In certain instances, the reporting District is required to make all or a portion of the state's 6.8% contribution for fiscal year 2014 and 6.4% for fiscal years 2013 and 2012. Senate Bill (S.B.) 1812, effective September 1, 2013, limits the amount of the state's contribution to 50% of eligible employees in the reporting district.

Optional Retirement Plan

Plan Description. The state has also established an optional retirement program (ORP) for institutions of higher education. Participation in ORP is in lieu of participation in the TRS. ORP provides for the purchase of individual annuity contracts and operates under the provision of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas legislature. The percentage of participant salaries currently contributed by the state for each participant are 6.6% for fiscal year 2014 and 6.4% for fiscal year 2013. Employee contributions percentage was 6.65% for fiscal year 2013 and 6.4% for fiscal year 2013. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, neither the state nor the District has any additional or unfunded liability for this program. Senate Bill (S.B.) 1812, effective September 1, 2013, limits the amount of the state's contribution to 50% of eligible employees in the reporting district.

The retirement expense related to TRS and ORP contributions paid by the state for the District was \$405,910 and \$715,387 for the fiscal years ended August 31, 2014 and 2013, respectively. This amount represents the portion of expended appropriations made by the state legislature on behalf of the District. On-behalf payments of these benefits were recognized as restricted revenues and restricted expenses during the period.

The total payroll for all District employees was \$16,707,495 and \$16,348,473 for the fiscal years ended August 31, 2014 and 2013, respectively. The total payroll of employees covered by the state for TRS was \$8,806,564 and \$7,813,393 and the total payroll of employees covered by the state for ORP was \$3,226,878 and \$3,364,529 for the fiscal years ended August 31, 2014 and 2013, respectively.

16. Deferred Compensation Program

District employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. This plan is essentially an unfunded promise to pay by the employer to each of the plan participants.

At August 31, 2014 and 2013, the District had no employees electing to defer compensation.

17. Compensable Absences

Full-time employees of the District accrue sick leave based on the length of their contract. Sick leave may be accumulated up to eighty days, but no employee will receive compensation for sick leave upon termination of employment with the District. Since the District has no obligation for the accumulated sick leave until it is actually taken, no accrual for sick leave has been made. Administrative, clerical, and maintenance personnel receive vacation time based on length of employment. Vacation must be taken by August 31; carry-over of 40 hours of vacation time is permitted. In the opinion of the administration, the liability for compensable absences is not material to the basic financial statements of the District.

18. Pending Lawsuits and Claims

On occasion, the District may become party to litigation and claims arising in the normal course of operations. The District is currently involved in litigation. The parties to the lawsuit are currently negotiating settlement.

19. Funds Held in Trust by Others

No funds are held in trust by others on behalf of the District.

20. Contract and Grant Award

Contract and grant awards are accounted for in accordance with the requirements of the AICPA Industry Audit Guide, *Audits of Colleges and Universities*. Revenues are recognized on Exhibit 2 and Schedule A. For federal contract and grant awards, funds expended but not collected are reported as restricted accounts receivable on Exhibit 1. Non-federal contract and grant awards for which funds are expended but not collected are reported as restricted accounts receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the District has not yet performed services are not included in the financial statements. Contract and grant award funds already committed, e.g. multi-year awards, or funds awarded during fiscal year August 31, 2014, and 2013, for which monies have not been received nor funds expended totaled \$2,544,017 and \$4,416,252, respectively. Of these amounts \$1,274,892 and \$1,523,327 were from Federal Contracts and Grant Awards; \$1,246,557 and \$2,846,614 were from State Contracts and Grant Awards; and \$22,568 and \$46,311 were from Local Contract and Grant Awards at August 31, 2014 and 2013, respectively.

21. Self-Insured Plans

The District has a self-insured arrangement for coverage of workers' compensation. Workers' compensation plans are on a pay-as-you-go basis, in which no assets are set aside. Estimated future payments for incurred claims are charged to current operations.

22. Post Retirement Health Care and Life Insurance Benefits

In addition to providing pension benefits, the state provides certain health care and life insurance benefits for retired employees. Almost all of the employees may become eligible for those benefits if they reach normal retirement age while working for the state.

Those and similar benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The state recognizes the cost of providing these benefits by expending the annual insurance premiums.

The state's contribution per full-time employee with individual coverage was \$503 per month for the year ended August 31, 2014 (\$470 per month for fiscal year 2013) and totaled \$690,936 for the year ended August 31, 2014 (\$631,034 for the year ended August 31, 2013). The state's contribution per full-time employee with individual and children coverage was \$696 per month for the year ended August 31, 2014 (\$651 per month for fiscal year 2013) and totaled \$338,832 for the year ended August 31, 2014 (\$332,458 for the year ended August 31, 2013). The state's contribution for a full-time employee with individual and spouse coverage was \$791 per month for the year ended August 31, 2014 (\$740 per month for fiscal year 2013) and totaled \$180,386 for the year ended August 31, 2014 (\$212,999 for the year ended August 31, 2013).

The state's contribution for a full-time employee with family coverage was \$984 per month for the year ended August 31, 2014 (\$920 per month for fiscal year 2013) and totaled \$354,240 for the year ended August 31, 2014 (\$286,984 for the year ended August 31, 2013).

The cost of providing those benefits for 133 retirees in the year ended August 31, 2014 was \$926,930 (retiree benefits for 133 retirees cost \$906,431 in fiscal year 2013). For 288 active employees, the cost of providing benefits was \$2,052,881 for the year ended August 31, 2014 (active employee benefits for 212 employees cost \$1,463,475 for the year ended August 31, 2013).

23. Postemployment Benefits Other than Pensions

Plan Description. The District contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit postemployment healthcare plan administered by the Employees Retirement System of Texas (ERS). SRHP provides medical benefits to retired employees of participating universities, community colleges and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contribution provisions of the SRHP are authorized by state law and may be amended by the Texas Legislature.

ERS issues a publically available financial report that includes financial statements and required supplementary information for SRHP. That report may be obtained from ERS via their website at <http://www.ers.stsate.tx.us/>.

Funding Policy. Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS board of trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution.

The employer's share of the cost of retiree healthcare coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS board of trustees set the employer contribution rate based on the implicit rate subsidy which is actuarially determined in accordance with the parameters of GASB statement 45.

The employers contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years.

The District's contributions to SRHP for the years ending August 31, 2014, 2013, and 2012 were \$57,277, \$60,668 and \$58,439, respectively, which equaled the required contributions each year.

24. **Ad Valorem Tax**

The District's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real, business/land personal property located in the District.

At August 31:

25. Discrete Component Unit

Victoria College Foundation, Inc. (the “Foundation”) was established as a separate nonprofit organization in 1978, to raise funds to provide student scholarships and assistance in the development and growth of the District. Under Governmental Accounting Standards Board (GASB) Statement 39 *Determining Whether Certain Organizations are Component Units*, an organization should report as a discretely presented component unit those organizations that raise and hold economic resources for the direct benefit of a government unit.

Accordingly, the Foundation financial statements are included in the District’s annual report as a discrete component unit (see table of contents). Complete financial statements of the Victoria College Foundation, Inc. can be obtained from the administrative office of the Foundation and/or the District.

26. Prior Period Adjustment to Net Position for Change in Accounting

As a result of implementing GASB Statement No. 65, The District has decreased beginning net position as of September 1, 2013 by \$722,569. The decrease results from no longer deferring and amortizing bond issuance costs.

Unamortized bond premium, previously reported as a component of non-current liabilities, has been reclassified to deferred inflows of resources. The effect of this change decreases non-current liabilities by \$2,154,925 and \$2,317,801 for fiscal years ended August 31, 2014 and 2013, respectively. The change does not impact net position.

29. Subsequent Events

The District’s administration has determined that no subsequent events require disclosure in these financial statements.

**OVERALL COMPLIANCE AND
INTERNAL CONTROLS SECTION**

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees
Victoria County Junior College District
Victoria, Texas

We have audited , in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Victoria County Junior College District, as of and for the year ended August 31, 2014 and 2013 and the related notes to the financial statements, which collectively comprise the Victoria County Junior College District's basic financial statements, and have issued our report thereon dated December 5, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Victoria County Junior College District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Victoria County Junior College District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Victoria County Junior College District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

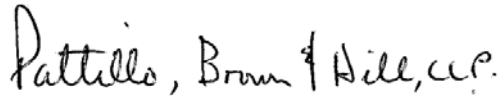

As part of obtaining reasonable assurance about whether the Victoria County Junior College District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Public Funds Investment Act

We have performed tests designed to verify the Victoria County Junior College District's compliance with the requirements of the Public Funds Investment Act. During the year ended August 31, 2014, no instances of noncompliance were found. However, providing an opinion on compliance with the Public Funds Investment Act was not an objective of our audit, and accordingly, we do not express an opinion.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

To the Board of Trustees
Victoria County Junior College District
Victoria, Texas

Report on Compliance for Each Major Federal and State Program

We have audited the Victoria County Junior College District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Victoria County Junior College District's major federal and state programs for the year ended August 31, 2014. Victoria County Junior College District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Victoria County Junior College District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Victoria County Junior College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Victoria County Junior College District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Victoria County Junior College District, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2014.

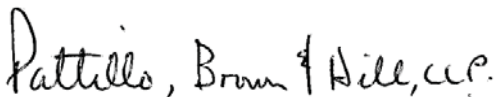

Report on Internal Control Over compliance

Management of the Victoria County Junior College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance referred to above. In planning and performing our audit, we considered the Victoria County Junior College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Victoria County Junior College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of the testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
