REPORT OF INDEPENDENT AUDITORS

To the Board of Trustees
El Paso County Community College District

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of El Paso County Community College District (the College) as of and for the years ended August 31, 2014 and 2013 and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

To the Board of Trustees
El Paso County Community College District

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the El Paso County Community College District as of August 31, 2014 and 2013, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 5 through 15 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the El Paso County Community College District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards and Schedule of Expenditures of State Awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, Non-Profit Organizations (Circular A-133) and the State of Texas Single Audit Circular are presented for purposes of additional analysis and are not a required part of the basic financial statements.

To the Board of Trustees
El Paso County Community College District

Additionally, the accompanying Schedule of Operating Revenues, Schedule of Operating Expenses by Object, Schedule of Non-Operating Revenues and Expenses, and Schedule of Net Position by Source and Availability also are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, Schedule of Expenditures of State Awards, Schedule of Operating Revenues, Schedule of Operating Expenses by Object, Schedule of Non-Operating Revenues and Expenses, and Schedule of Net Position by Source and Availability are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards, Schedule of Expenditures of State Awards, Schedule of Operating Revenues, Schedule of Operating Expenses by Object, Schedule of Non-Operating Revenues and Expenses, and Schedule of Net Position by Source and Availability are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 7, 2015 on our consideration of the El Paso County Community College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the El Paso County Community College District's internal control over financial reporting and compliance.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of El Paso County Community College District's (College's) annual financial statements, prepared by the financial managers of the College, provides an overview of the College's financial operations for the years ended August 31, 2014 and 2013. This section is designed to assist the reader in the interpretation of the financial statements and should be read in conjunction with the disclosure notes that accompany the basic financial statements. Responsibility for the completeness and fairness of the information rests with the management of the College.

OVERVIEW OF FINANCIAL STATEMENTS

The financial statements are prepared in accordance with the GASB Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments" and Statement No. 35, "Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities." The College is reported as a special-purpose government engaged in business-type activities and uses the accrual method of accounting, which means that revenue is recognized when earned, and expenses are recorded when incurred regardless of when cash is received or paid. The core financial statements required by GASB 34 as amended by GASB 63 are the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. Effective fiscal year ending August 31, 2014, GASB 65 was implemented to reflect certain items that were previously reported as assets and liabilities to be now reported as deferred outflows and inflows of resources. In addition, this statement requires that debt issuance costs be expensed in the year they are incurred.

Statement of Net Position

The purpose of the Statement of Net Position is to report at a point in time the total net assets available to finance future services, and to give the reader a snapshot of the financial condition of El Paso County Community College District (EPCCCD). According to GASB 34, the classification of the components of the Statement of Net Position is as follows:

Current Assets:	assets available to satisfy current liabilities.
Long-term Assets:	include capital assets and other assets not classified as current.
Deferred Outflows of Resources:	include consumption of resources applicable to a future period.
Current Liabilities:	include obligations due within one year.
Long-term Liabilities:	include bonds payable and other long-term commitments.
Deferred Inflows of Resources:	include acquisitions of resources applicable to a future period.
Net Position:	difference between assets and liabilities and presented in three categories as follows:

- Invested in Capital Assets - Net of Related Debt represents the College's net investment in property, plant and equipment net of accumulated depreciation and amortization on the assets and the related outstanding debt used to construct, purchase or renovate them.
- Restricted Net Position is classified as expendable (available for expenditure in accordance with the restrictions of donors and other external entities) and nonexpendable (permanent endowment corpus only available for investment purposes).
- Unrestricted Net Position is available for any lawful purpose of the College's and maintained to ensure sufficient reserve funds for long-term viability of the District.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

Statement of Revenues, Expenses and Changes in Net Position

The intent of the Statement of Revenues, Expenses and Changes in Net Position is to report the burden of the government's functions on non-operating (general) revenues, defined as the amount of the functions that are not supported by charges to users (GASB 34, Par. 38). The statement is divided into Operating Revenues and Expenses, and Non-Operating Revenues and Expenses. Operating revenues are generated from the services provided to students and other customers of the District and represent an exchange for services. Operating expenses are incurred in the production of goods and services that result in operating revenues. Property taxes, state appropriations and Title IV funds represent non-exchange transactions and thus classified under Non-Operating Revenues, which means that Texas community colleges will generally report an operating deficit before taking into account other support. Therefore, revenue and expenses should be considered in total when assessing the change in the College's financial position.

Statement of Cash Flows

The primary purpose of the Statement of Cash Flows is to provide relevant information about the cash receipts and cash payments of the College during the fiscal period. This statement is intended to complement the accrual-basis financial statements by providing functional information about financing, capital and investing activities and reports the effects of the College's operations, capital and non-capital financing transactions, and investing transactions on the College's financial position. This statement also helps users to determine the entity's ability to meet its obligations as they come due and the potential need for external financing. The final portion of the statement reconciles the net income or loss from operations to be provided or used by operations. The statement is structured as follows:

- Cash flows from operating activities
- Cash flows from noncapital financing activities
- Cash flows from capital financing activities
- Cash flows from investing activities

Total Net Position	\$ <u>143.5</u>	\$ <u>131.6</u>	\$ <u>125.1</u>	\$ <u>11.9</u>	\$ <u>6.5</u>

Total Assets increased by \$6.7 million from fiscal year 2013 to fiscal year 2014 as compared to \$.5 million in the previous fiscal year. The following analysis describes this increase by asset category.

As a major component of the Statement of Net Position, cash increased from fiscal year 2013 by \$9.4 million. This amount represents the net of the following activities:

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

Net Cash used by operating activities decreased by \$3.5 million from fiscal year 2013 mostly related to the student enrollment decline experienced during both fall and spring semesters, which is reflected in the \$2.8 million decrease in Receipts from students and other customers and offset by the related decrease of \$3.7 million in Payments of scholarships. Also related to this enrollment decline is the modest decrease in Payments to or on behalf of employees. Although all employees received a 3% salary increase effective September 1, 2013, judicious enrollment management allowed for less sections to be offered, therefore minimizing the cost of adjunct faculty salaries. In addition, the 83rd Legislature provided more funding for benefits through the 50-percent cost share agreement with community colleges, which decreased the College's contribution towards health insurance and retirement. Also related to the enrollment decline is the decrease of \$1.7 million in Payments to suppliers for goods and services.

Net Cash provided by noncapital financing activities increased by approximately \$2.4 million due a combination of factors: state appropriations and ad valorem taxes increased by \$1.3 million and \$4.6 million, respectively, due to additional formula funding from the State and the 8% increase to the effective tax rate applied to the growing tax base. This \$5.9 million increase was offset mostly by the decrease of \$3.7 million in non-operating federal revenue related the drop in Pell awards due to the decrease in student enrollment. Finally, the decrease of \$2.2 million in Net Cash used in capital and related financing activities is directly related to the decrease in procurement of capital assets.

Other Assets remained fairly flat with an increase of only \$.1 million due a combination of factors: Increases in accounts receivables (net of tuition increase and enrollment decline), and prepaid expenses of \$.5 million were offset by a decrease in Notes Receivable of \$.4 million, which reflects the 3% decrease in student credit hours for fall 2014.

Capital Assets decreased by \$2.8 million due to the completion of capital projects and the purchase of equipment and library books offset by (1) the disposition of capital assets through public sales and (2) depreciation expense of \$4.5 million.

When comparing fiscal years 2013 and 2012, total assets increased by \$.5 million due to a combination of (1) increase in Cash of \$1.2 million, (2) decrease in Other Assets of \$.3 million and (3) decrease of \$.4 million in Capital Assets.

As required by GASB 65, grants and scholarships paid in advance are now reflected as deferred outflows of resources previously reported as deferred charges on the statement of net position. The total amount includes mostly the Pell grant awards disbursed to the students for fall 2014 and is fairly comparable to the amounts reported for prior years with small increases of \$.8 million and \$1.0 million in fiscal years 2013 and 2012 respectively. These increases reflect the additional amount awarded to Pell grant students offset by declining enrollment during the last two fiscal years.

Total liabilities decreased from the prior year by \$3.8 million, the combination of \$.3 million increase and \$4.1 million decrease in Current Liabilities and Long-Term Liabilities, respectively. The increase in Current liabilities is mostly related to the \$ 1.1 million increase in Accounts payable, Accrued liabilities and Funds held for others offset by the \$.8 million decrease in Worker's compensation reserve and Unearned revenue. The \$4.1 million net decrease in Long-Term Liabilities is mostly related to the following factors: (1) the payment of revenue bonds offset by the amortization of bond premium and (2) the decrease in the Notes Payable for the annual payment on the note to the State Comptroller's office for the energy efficiency project completed in fiscal year 2009.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

As required by GASB 65, grants and tuition received in advance are reported as deferred inflows of resources. The total amount includes mostly those funds received by the federal government for the disbursement by the College of Pell awards and tuition to the fall 2014 students, and is fairly comparable to the amounts reported for prior years with a small decrease of \$.8 million from fiscal year 2013 and an increase of \$1.0 million from fiscal year 2012 to fiscal year 2013. This increase can be attributed to the increase in the Pell award by the federal government to the students offset by enrollment declines since fiscal year 2012.

The major impact on Net Position as a result of the implementation of GASB 34 is that capitalized expenses with a threshold of \$5,000 are now depreciated. Depreciation for the year ended August 31, 2014 was \$4.5 million or a modest increase of \$55,000 over the 2013 depreciation.

Notwithstanding the impact of depreciation on the increase of Net Position, the College experienced an overall increase in Net Position of \$11.9 million, which represents a healthy increase for the College in light of the fiscal challenges imposed upon the College due to the enrollment decline during the fiscal year. This increase is a combination of the increases and decreases in the various components of net position: the decrease in Net Investment in Capital Assets of \$1.7 million is attributable to the disposition of capital assets; Restricted Net Position increased by \$6.8 million mostly due to additional funding available for student scholarships and capital projects; the increase in the Unrestricted Net Position of \$6.8 million represents the total of the \$6.4 million and the \$.4 million increases in the unrestricted and auxiliary funds respectively. The \$6.4 million increase in the unrestricted fund is a result of prudent budgeting and cost containment measures while experiencing the student enrollment decline, which generated staff and faculty salary savings.

The beginning Net Position for 2013 was restated as the College implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This restatement reflects the prior period adjustment for bond issuance costs from prior years totaling \$786,314, as disclosed in Note 23 of the Notes to the Financial Statements.

**EL PASO COUNTY COMMUNITY COLLEGE DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Increase in Net Position is affected by the revenues generated and the expenses incurred by the College. The following condensed financial information shows total revenues and expenses for fiscal years 2014, 2013 and 2012:

Condensed Statement of Revenue, Expenses, and Changes in Net Position

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

Total operating revenues decreased by \$1.8 million due to the following factors: Tuition and Fees (net of discounts) had a net decrease of \$1.9 million mostly due to the student enrollment decline during the fall 2013 and spring 2014 semesters. Federal, State, and Local grants and contracts increased by \$.6 million mostly due to the increase of \$.9 million in state grants attributable to the Texas Grant program offset by a combined decrease of \$.3 million in Adult Basic Education and Puente grants. Auxiliary revenue decreased by \$.1 million mostly related to the decrease in bookstore commissions due to the enrollment decline. Other Income also had a decrease of \$.4 million over last fiscal year mostly due to the decrease in testing fee revenue attributable to the change in testing rules imposed by the State of Texas.

Total operating expenses decreased by \$2.7 million due to a combination of factors: except for Scholarships and Fellowships that decreased by \$3.6 million due to the enrollment decrease, all elements of costs either remained comparable to last fiscal year or increased slightly due to the 3% salary increase approved by the Board of Trustees for all faculty and staff offset by a decrease in faculty salaries due to prudent enrollment management related to the enrollment decline. Embedded in those modest increases are the salary savings generated by vacant positions in the respective elements of costs. Auxiliary Enterprises decreased by \$1.4 million as compared to the 2013 fiscal year, which reflect a more normal spending pattern for Auxiliary Services. The previous year increase of \$1.8 million was mostly related to the renovation of the athletic fields. It is important to note that the 83rd Legislature held in spring 2013 restored effective fiscal year 2014 funding for benefits at a 50% cost share between the State of Texas and the community colleges, for both health insurance and retirement as compared to fiscal year 2013 when all Texas community colleges had to reimburse the State during fiscal year 2013 for retirement benefits not appropriated by the 82nd Legislature during the 12-13 biennium. Although the prior period potential liability was reserved in fund balance, the cost containment measures allowed for the 2013 budget to absorb the \$1.7 million reimbursement to the State for fiscal year 2012 in the 2013 fiscal year. The budgeted retirement expense for fiscal year 2013 not funded by the State was \$1.9 million.

Depreciation expense at \$4.5 million remained fairly comparable to the previous fiscal year. Information regarding policies for depreciation is disclosed in the Notes to the Financial Statements.

When comparing fiscal year 2013 to fiscal year 2012, total operating expenses had decreased by \$1.8 million due to a combination of factors: except for Scholarships and Fellowships that decreased \$4.1 million due to the continued decline in student enrollment associated with the economic recovery, all elements of costs either remained comparable to the previous fiscal year or increased slightly due to the 3% salary increase approved by the Board of Trustees for all faculty and staff offset by a decrease in adjunct faculty salaries due to prudent enrollment management. Embedded in those modest increases were the salary savings generated by vacant positions in the respective elements of costs. Auxiliary Enterprises increased by \$1.8 million due to the one-time expense incurred from the renovation of the athletic fields, and increase in bad debt expense associated with student loans and financial aid overpayments.

Non-Operating Revenues and Expenses include State Appropriations, Maintenance Ad-Valorem Taxes, and Federal Revenues that now include Pell Grant receipts as non-operating revenue. Non-Operating Revenues also include Other State Revenue to account for state student aid.

Non-Operating Revenues increased by \$3.7 million from fiscal year 2013 as compared to the decrease of \$3.1 million from 2012 to 2013. These increases were caused in large part by decisions made during the 83rd Legislature that affected all Texas community colleges.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

Fiscal year ending August 31, 2014 represented the first year of the 14-15 biennium and benefitted from the 83rd Legislature that appropriated more funding not only in formula but also in benefits for the 2014-15 biennium. The outcome of the legislative session was a new and historical funding pattern for community colleges that allocated funding to three main areas: (1) core operations, (2) student success points and (3) traditional contact hour formula. In addition, the legislators passed Senate Bill 1812 that codified a cost share agreement of 50% for both health insurance and retirement benefits. Unless amended in future legislative sessions, the bill guarantees that the State will contribute 50% of benefits costs to community colleges. This new funding pattern in concert with an overall increase in funding for community colleges explains the increase of \$3 million in state appropriations over fiscal year 2013.

Fiscal year 2012/13 represented the second year of the 12-13 biennium and normally would not have benefited from any additional funding from the State. However, due to a rider attached to the House Appropriation Bill 1, the College received additional formula funding to the tune of \$1.6 million related to an increase in contact hours during the first year of the Biennium. This additional funding in concert with a 6% and 50% tuition increase for resident and non-resident students respectively allowed for a balanced budget that included a 3% salary increase for all faculty and staff. The \$1.6 million increase in formula funding was offset by a decrease in retirement benefits funding of \$1.7 million as a result of the various funding cuts approved during the 82nd Legislature.

Contrasting with the modest increase of \$.6 million in revenue in fiscal year 2013 over the prior year, revenue from Maintenance Ad-Valorem taxes increased by a significant \$4.4 million due to (1) additional revenue generated by the 8% tax rate increase approved by the Board of Trustees and (2) additional revenue from new property added to the 2013 tax roll. Tax revenue for fiscal year 2014 is based on the tax rate of \$.124359 per \$100 valuation, which still represents the lowest tax rate of all major taxing entities in the El Paso County.

Included in the \$3.7 million increase in Non-Operating Revenue is the decrease in Federal Revenue of \$3.6 million, as compared to the decrease of \$4.3 million in 2013, mostly due to the decrease in Pell Grant awards as a result of continuing decline in student enrollment during fiscal year 2014. This enrollment decrease is attributable to (1) a notable improvement in the El Paso economy also experienced throughout the State of Texas, and (2) the change in eligibility criteria for the Pell grant. A strategic enrollment task force has been created to address this unusual enrollment decline and has developed strategies to identify and reach all populations of the serving area. In addition, student success initiatives are focused on identifying at-risk students to promote retention and a college-going culture.

As a reflection of the challenging U.S. economy, the interest rate environment remains low. During fiscal year 2014, the College continued to invest in Repurchase Agreements with J.P. Morgan Chase Bank. Also the College earned an interest rate of 40 basis points on \$20 million set aside towards the Earnings Credit Rate used to offset bank service charges. As a result, interest income exceeded the annual budget by 95% for the year. In addition, with an annual average yield on investments of .1974% for the year, the benchmark (annual average 13-week T-Bill rate .0431%) was exceeded in compliance with the College's Investments Policy. In comparison to the prior year, interest income was higher by 2.86%. Although it is expected that the interest rates will continue to slowly increase as the economy recovers, the college administration continues to budget conservatively for interest income.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

Description of significant capital asset and long-term debt activity

As the College continues to grow, the administration is in the process of completing the district-wide master plan to address capital improvement needs for its five main campuses and the upcoming new campus on Fort Bliss military base property. Although there were not major capital projects completed during the year, upcoming projects include the renovation of facilities to either relocate services or accommodate instructional programs such as the joint architectural program with Texas Tech University. Construction of the College's sixth campus on Fort Bliss is scheduled to begin after the district master planning has been completed and has identified major projects for prioritization. All facilities construction, renovation and improvements will be financed by a combination of funds coming from revenue bond proceeds, grant funds and plant fund reserves.

To accommodate increased enrollment since 1994, the District initiated a financial plan and has since then issued \$137,900,000 in Revenue Bonds, part of which refinanced the 1994, 1995, 1996, 1997, 1997B, 1998, 1999 and 2001 bond issues. This debt is currently covered by the general use fee of \$10 per credit hour and the state-mandated minimum tuition transfer of \$15 per student in the fall and spring semesters and \$7.50 per student for the summer sessions. The defeasance of the Building Use Fee and Tuition Refunding Revenue Bonds Series 1993 outstanding balance of \$1,750,000 in October 2003 will result in saving the College approximately \$220,000 in interest payments.

In January 2007, the District issued the Fee Revenue Building and Refunding Bonds in the amount of \$66,280,000 that accomplished (1) the refunding of \$37 million of current debt with expected present value savings of \$1.9 million and (2) generating additional funds of \$31.6 million for renovation and new construction. The refunding of some of the current debt created additional debt capacity for the District to issue additional revenue bonds at no additional cost to the student or the taxpayer.

On August 13, 2003, Fitch Ratings issued a press release announcing the upgrade of El Paso Community College credit rating from "A-" to "A." The rating revision upwards reflected the College's positive financial performance, growing enrollment, and favorable area demographics and market position. Also considered in the rating were the operational and financial pressures stemming from increasing enrollment and reductions in state funding and above average, although manageable, debt load. On December 18, 2006 and more recently June 17, 2013, this "A" rating was reaffirmed as an "A+" rating with a stable outlook supported by sound financial management practices and operating results, and an increasingly diverse revenue base. Fitch subscribers can see the complete report at www.fitchresearch.com.

On December 21, 2006, Moody's Investors Service issued a press release announcing the upgrade of the College's rating from "A2" to "A1" with a stable outlook. The upgrade was based on the College's rapidly growing tax base caused by healthy growth in the local economy, increasing enrollment, strong operating performance and a manageable debt profile. On August 6, 2009, Moody's reaffirmed the College District's "A1" long-term rating of \$69.2 million with a stable outlook that reflects Moody's expectation that the District will continue to generate positive operating margins, maintain or modestly increase enrollment, and generate sufficient coverage of debt service from pledged revenues.

On November 15, 2012, Moody's affirmed the College's rating as Aa3 with a stable outlook. Moody's outlook reflects that the College will maintain a stable and growing enrollment along with stable to moderate revenue growth from tax revenues and tuition increases, as state appropriations are likely to decrease. Although the construction of a new campus will create additional debt, Moody's expects that the debt burden will be manageable given the current levels of operations and financial resources. The updated report can be found at www.moody.com.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

On October 9, 2013, Moody's affirmed the College's rating of Aa3 but revised its outlook as negative as a result of the College being placed on warning by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). Although the College is still accredited, reaffirmation was denied during the October 2012 decennial review by SACSCOC. According to the SACSCOC Board of Trustees, the College failed to demonstrate compliance with Core Requirement 2.8 (faculty), and Comprehensive Standards 3.3.1.1 and 3.3.1.2 (Institutional Effectiveness: educational programs and administrative support services).

In June 2014, the College was reaffirmed as a result of the review by SACSCOC of the First Monitoring Report submitted by the College in April 2014, which demonstrated that the College addressed all issues. Upon reaffirmation, Moody's revised the Aa3 rating outlook to stable, and confirmed the College's stable market position as education provider for the region, with consistent positive operating performance and favorable revenue diversity.

On March 15, 2011, Standard & Poor's issued a press release upgrading its underlying rating of "A" to "A+" on the College's Series 2001 Combined Fee Revenue Building and Refunding Bonds with a stable outlook. This outlook reflected the College's essential role as the only community college in the El Paso area; good revenue diversity from tuition, property taxes and state appropriations; and history of consistently positive financial operations. The rating also cited significant growth pressures, limited revenue flexibility, moderate debt burden, and recent instability in state appropriations as challenges for the College. However, Standard & Poor's expectation is that the District will continue to sustain balanced operating results with stable enrollment and overall district financial resources as long as it can manage the potential significant cuts in state appropriations and issue additional revenue debt with the commensurate increase in financial resources or revenue.

On March 13, 2014, Standard & Poor's issued a press release affirming its "A+" underlying rating on the same issue as above with a stable outlook. This rating reflected their view of the district's consistently positive operating surpluses, tax base growth, good revenue diversity and the College's essential role as the only community college in the area.

Additional information on both capital assets and long-term debt can be found in Notes 5, 6, 7 and 8 of the Notes to the Financial Statements.

Economic Outlook

The economic outlook for the State of Texas appears more optimistic for the upcoming biennium, and, as community colleges prepare for the 84th Legislature, El Paso Community College is focused on increasing not only student enrollment, but more importantly, student success as it is expected that the new funding pattern will continue to evolve at the Legislature.

In spite of tuition and tax rate increases over the last two legislative sessions to offset decreased state funding for student enrollment and employee benefits, the College has the lowest tuition rate in the region and the lowest tax rate of all major taxing entities of the El Paso County while still maintaining quantity and quality of service to its student population. This demonstrates the College's ability and flexibility for generating additional revenue, should state funding continue to be insufficient to fund its operations and innovative programs.

Beginning with fiscal year 2015, El Paso Community College will implement GASB Statement No. 68, Accounting and Financial Reporting for Pensions: an amendment of GASB Statement No. 27. GASB Statement No. 68 will require entities that participate in the Teacher's Retirement System of Texas (TRS) to recognize their proportionate share of the net pension liability. An actuarial valuation as of August 31, 2013, reported that TRS's unfunded pension liability is \$28.9 billion. Based on a ratio of El Paso Community College's TRS contributions to total TRS contributions by all state agencies, EPCC's portion was \$28.2 million for fiscal year 2013 or .097% of the total unfunded liability.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

In November 2010, the firm of EMSI issued a report summarizing the results of a study documented in "the Economic Contributions of El Paso Community College" detailing the role that the College plays in promoting economic development, enhancing students' careers, and improving quality of life. The main highlights of this study for the College are as follows:

- Due to EPCC operations and capital spending, the local economy receives roughly \$131.6 million in annual regional income.
- EPCC activities encourage new business, assist existing business and create long-term economic growth. The College enhances worker skills and provides customized training to local business and industry. Past and present skills acquired by EPCC students increase regional income by \$615.3 million.
- Related to students earning potential, studies demonstrate that education increases lifetime earnings. The average annual income of a student with an Associate Degree at the midpoint of his or her career is \$39,300 or 35% more than someone with a high school diploma. Over the course of a working lifetime, associate's degree graduates in the College service area earn \$395,600 more than someone with a high school diploma. As a result of their attending EPCC, students enjoy an attractive 16.9% annual rate of return on their EPCC educational investment with a payback period of 9 years.
- The estimated 95% of EPCC students remaining in Texas and entering the workforce enhance the economic growth and expand the tax base. Higher student earnings and associated increases in property income generate about \$10.3 million in added tax revenue per year.
- EPCC generates a return on public investment, as taxpayers will see a return of \$2.30 for every dollar appropriated by state and local governments to support the College, and state and local governments will receive a rate of return of 8% on their investments in EPCC.
- Most importantly, the state and local community will see \$8.2 million worth of social savings associated with improved health, reduced crime, and less welfare and unemployment claims as long as students stay in the workforce.

The above study demonstrates that El Paso Community College plays a critical role in its service area by stimulating the state and local economy, leveraging taxpayer dollars, generating a return on government investment and increasing students' earning potential. A new economic impact study is scheduled to be released in spring 2015.

In addition to its current role, the College is facing additional demand from the growth at Fort Bliss, the Army's second largest installation. Fort Bliss currently hosts more than 34,000 active military personnel, over 44,800 family members and employs nearly 10,800 civilians with a \$1.7 billion impact on the El Paso community. El Paso Community College is gearing up for the challenges of providing educational services to the Fort Bliss community by addressing its facility needs with the construction of its sixth campus scheduled to open during fiscal year 2016-2017.

In summary, notwithstanding the impact of military growth in the El Paso area, the current recovery in the state and local economy, and the potential for enrollment growth, El Paso Community College is not aware of any currently known facts, decisions, or conditions that would have a significant effect on the financial position or results of operations during this fiscal year. The College's overall financial position is stable and demonstrated by its ability to generate consistent increases in net position through the efficient and effective use of its resources. The College will continue to monitor those resources to maintain its ability to react to changes from internal and external forces.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 1 – Reporting Entity

El Paso County Community College District (the “College”), was established in 1969, in accordance with the laws of the State of Texas, to serve the educational needs of El Paso and the surrounding communities. The College is an unincorporated taxing entity governed by an elected seven-member board of trustees. The College is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (“GASB”) Statement No. 14, as amended. While the College receives funding from local, state, and federal sources, and must comply with the spending, reporting, and recordkeeping requirements of these entities, it is not a component unit of any other governmental entity.

Note 2 – Summary of Significant Accounting Policies

Report guidelines – The significant accounting policies followed by the College in preparing these financial statements are in accordance with the Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges.

Tuition Discounting

Texas Public Education Grants – Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code § 56.033). When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV HEA Program Funds – Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the student is awarded and uses these funds for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts – The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Basis of accounting – The financial statements of the College have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget.

Budgetary data – Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Trustees adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Cash and cash equivalents – The College's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The College pools most of its cash into one bank account. Pooled investments consist of cash in interest bearing accounts and repurchase agreements. The College considers cash equivalents to be all highly liquid deposits with original maturities of three months or less. The governing board has designated public funds investment pools, comprised of \$176 and \$156,705, to be cash equivalents at August 31, 2014 and 2013, respectively. Additionally, included in cash and cash equivalents at August 31, 2014 and 2013 are \$70,477,708 and \$80,542,205, respectively, in repurchase agreements.

Investments – In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase. The College had no short-term investments at August 31, 2014 and 2013, respectively.

Authorized investments – The Board of Trustees of the College has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act (Section 2256.001), Texas Government Code. Such investments include 1) obligations of the United States or its agencies, 2) direct obligations of the State of Texas or its agencies, 3) obligations of political subdivisions rated not less than A by a national investment rating firm, 4) certificates of deposit, and 5) other instruments and obligations authorized by statute. The College's investments are carried at fair value.

For the years ended August 31, 2014 and 2013, management of the College believes that they have substantially complied with the provisions of the Public Funds Investment Act and the College's investment policy.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Allowances for doubtful accounts and loans – Allowances for doubtful accounts and loans are established through charges to current year expenditures. Receivables and loans are reduced by the allowances for doubtful accounts or loans when management believes that the collectability of the receivables or loans is unlikely.

Notes receivable – Notes receivable are for amounts advanced to students to pay for tuition, fees, and books. The notes are all due within one year.

Capital assets – Capital assets are stated at cost. Donated capital assets are valued at their estimated fair market value on the date received. The College's capitalization policy includes real or personal property with a value equal or greater than \$5,000 and has an estimated life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred.

The College reports depreciation under a single-line item as a business-type unit. Depreciation is computed using the straight-line method over the estimated useful lives of the assets applying the half-year convention. The following lives are used:

Buildings	50 years
Land and improvements	20 years
Furniture, equipment, and vehicles	5-10 years
Library books	15 years

New Accounting Pronouncements – In March, 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement provides guidance to the College in defining those transactions which qualify as deferred outflows of resources and deferred inflows of resources, the reporting of which the GASB had previously promulgated in Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. Statement No. 65 is required by the GASB to be applied retroactively to previous reporting periods. In compliance with this Statement, the College wrote off its previously reported deferred bond financing costs which appeared in the assets section of the Statement of Net Position and restated its financial statements and reclassified certain amounts received or paid in advance of the period for which they are intended as either deferred outflows of resources or deferred inflows of resources.

Deferred Outflows and Inflows of Resources – In addition to assets and liabilities, the statement of net position reports a separate section for deferred outflows or inflows of resources. These are separate financial statement elements. Deferred outflows of resources, represents a consumption of resources that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Deferred inflows of resources represents an acquisition of resources that applies to a future period(s) and will not be recognized as an inflow (revenue) until a future period.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Unearned revenues – Unearned revenues consist of advance payments for service obligations. The amounts are recognized as revenue in the period when services are performed.

Compensable absences – The College accrues an estimated liability for compensable absences that vest in the period earned.

Tax exempt status – The College is a political subdivision of the State of Texas and exempt from federal income taxes under the purview of Section 115(1), Income of States, Municipalities, Etc., of the Internal Revenue Code ("IRC"), although unrelated business income may be subject to income taxes under Section 511(a)(2)(B), Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations, of the IRC. The College has no unrelated business income tax liability for the years ended August 31, 2014 and 2013.

Student property deposits – Students are required to pay the College a \$10 property deposit. The amount is refundable upon request when the student graduates or leaves the College. Unclaimed amounts are recognized as revenue after four years. Effective September 1, 1993, state law requires unclaimed student property deposits are for scholarship use only.

Funds held for others – Funds held for others represent refundable student property deposits and funds held by the College for various campus and community organizations.

Property taxes – Revenue from property taxes, including related penalties and interest, is recognized in the current year, net of allowances for taxes not collected. The College's ad valorem property tax is assessed each October 1 based upon the assessed value of the College as of January 1 of the same year for all real and business personal property located within the College's district. Taxes are due upon receipt of the tax bill and are delinquent if not paid by January 31 of the year following the year in which imposed. Tax liens on real property are executed generally within one month of receipt of notification of delinquency of tax payments.

The use of tax proceeds is restricted to maintenance and operations. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes.

Net position – Net position is classified based on the existence or absence of restrictions. Accordingly, net position of the College is classified and reported as follows:

Net investment in capital assets – Net Investment in capital assets is used to accumulate the net investment in property and equipment. The purchase (sale) of property and equipment, accumulated depreciation, and (increase) decrease in related debt and liabilities is recognized as an (addition) reduction of available net assets and is recorded as capital assets and as an addition (reduction) in net assets.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Restricted net position – Restricted net position includes expendable and non-expendable net position. Non-expendable net position results from contributions whose use by the College is limited to the earnings thereon. Expendable net position is for amounts whose use is restricted by either granting agencies, debt requirements, or the Board of Trustees.

Unrestricted net position – Net position whose use is not restricted.

Operating and non-operating revenues and expenses policy – The College distinguishes operating revenues and expenses from non-operating items. The College reports as a single proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations, property tax collections and federal Title IV grant programs. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The major nonoperating expense is interest expense on capital related debt. The operation of the Bookstore is not performed by the College.

Concentration of credit risk – Financial instruments which potentially subject the College to a concentration of credit risk consist primarily of cash, repurchase agreements, TexPool, and accounts and taxes receivable. The College places its cash and investments in federally insured financial institutions which collateralize the College's deposits with securities issued by the United States Government and in United States Government Treasury notes.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Characterization of Title IV grant revenue – In response to guidance provided by the Government Accounting Standards Board (GASB) as question/answer 7.72.10 in the Implementation Guide, revenue received for federal Title IV grant programs (i.e., Pell grants) is characterized as non-operating revenue as opposed to operating revenue.

Reclassifications – Certain amounts in the prior-year statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

**EL PASO COUNTY COMMUNITY COLLEGE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

Note 3 – Deposits and Investments

At August 31, 2014 and 2013, the carrying amount of the College's deposits was \$24,331,312 and \$4,728,401, respectively, and total cash on hand and bank balances equaled \$25,232,987 and \$5,082,710, respectively.

Cash and deposits – Cash and deposits as reported on Exhibit 1, Statement of Net Position, consist of the items reported below:

	August 31, 2014	August 31, 2013
	<u>2014</u>	<u>2013</u>
Bank deposits	\$ 24,311,462	\$ 4,708,501
Cash and cash equivalents		
Demand deposits	19,850	19,900
Repurchase agreements	70,477,708	80,542,205
TexPool	176	156,705
Total cash and deposits	<u>94,809,196</u>	<u>\$ 85,427,311</u>
	Market Value	As Restated Market Value
	<u>8/31/2014</u>	<u>8/31/2013</u>
Type of security		
Total cash and deposits	<u>\$ 70,477,884</u>	<u>\$ 80,698,910</u>
Total deposits and investments	<u>\$ 70,477,884</u>	<u>\$ 80,698,910</u>

TexPool (the Pool) was established for local governments in Texas under the provisions of the Texas Interlocal Cooperation Act and is designed to comply with all of the Texas statutes, including the Public Funds Investment Act and other regulations for the allowable investments of public funds. The Pool is overseen by the Texas State Comptroller of Public Accounts. TexPool seeks to maintain a \$1.00 value per share as required by the Texas Public Funds Investment Act. TexPool investments consist exclusively of U.S. Government securities, repurchase agreements collateralized by U.S. Government securities, and AAA rated no load money market mutual funds.

Interest rate risk – In accordance with state law and the College's investment policy, the College purchases investments with maturities less than two years or invests bond proceeds for a period of time that coincides with the amount of time it takes to use bond proceeds. TexPool average weighted maturity was 49 days.

Credit risk – In accordance with state law and the College's investment policy, investments in investment pools must be rated at least AAA by at least one nationally recognized rating service.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT
NOTES TO FINANCIAL STATEMENTS

Note 3 – Deposits and Investments (continued)

Custodial credit risk – For a deposit or investment, custodial risk is the risk that, in the event of the failure of the counterparty, the College will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The College's policy requires deposits to be at least 100 percent secured by collateral valued at market value of the principal and accrued interest reduced by the amount of Federal Deposit Insurance Corporation insurance. As of August 31, 2014 and 2013, the College's \$70,477,708 and \$80,542,205 of repurchase agreements and \$25,213,137 and \$5,062,810 of bank deposits, respectively, had collateral of \$71,887,266 and \$82,153,051 of underlying securities which were held by the pledging financial institutions' trust departments or agent in the College's name.

Note 4 – Disaggregation of Receivables and Payables Balances

Receivables at August 31, 2014 and 2013 were as follows:

	August 31, 2014	August 31, 2013
	<u> </u>	<u> </u>

NOTES TO FINANCIAL STATEMENTS

Note 6 – Bonds Payable

General information related to bonds payable is summarized below:

Bond Issue Name	Series	Purpose	Maturity Date	Source of Revenue for Debt Service	Amount Authorized	Amount Outstanding
Revenue	2001	Construction, Improvement, Maintenance, and Acquisition of Property, Building, and Equipment	2023	General Use and Tuition Fee	\$ 9,365,000	\$ 455,000
Revenue	2007	Construction, Improvement, Maintenance, and Acquisition of Property, Building, and Equipment And Refunding of 1995, 1997, 1997-B bonds and Partial refunding of 1998, And 2001 bonds	2025	General Use and Tuition Fee	66,280,000	50,205,000

Total bonds principal outstanding \$ 50,660,000

Bonds payable are due in annual installments varying from \$170,000 to \$3,260,000 with interest rates from 3.75% to 5.10% with the final installment due in 2025. Interest expense related to bonds recorded during fiscal year 2014 and 2013 was approximately \$2,558,700 and \$2,726,000, respectively. The principal for all bonds is paid annually on April 1 with semi-annual interest payable on April 1 and October 1. At August 31, 2014 and 2013, the College had established reserves which hold cash sufficient to meet the requirements of the various bond indentures and to satisfy reserve requirements.

Defeased Bonds – An escrow account holds funds for bonds that have been defeased. The escrow account funds (assets) and the defeased bonds (liabilities) are not reported in the College's financial statements because those obligations have been satisfied in substance. At August 31, 2014, \$2,235,000 of the Series 1991, \$1,750,000 of the Series 1993, \$5,345,000 of the Series 1994, \$1,355,000 of the Series 1995, \$4,725,000 of the Series 1996, \$3,015,000 of the Series 1997 and \$8,130,000 of the Series 2001 bonds were considered defeased, respectively.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 6 – Bonds Payable (continued)

Current refunding bonds – The College utilized \$28,150,000 of the 2007 Revenue Bonds with an average interest rate of 4.785% to refund \$340,000 of Series 1995, \$9,985,000 of Series 1997, \$9,655,000 of Series 1997B, \$4,455,000 of Series 1998, and \$4,475,000 of Series 1999 bonds with an average interest rate of 5.0532%. Net proceeds from the Series 2007 Current Refunding were \$29,432,615; after payment of \$621,146 in underwriting fees, insurance and other issuance cost, these proceeds were used to purchase U.S. Government securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments of the Current Refunding.

Advance refunding bonds – The College utilized \$8,020,000 of 2007 Revenue Bonds with an average interest of 5.00% to Advance refund \$8,130,000 of Series 2001 bonds with an average interest rate of 5.044%. Net proceeds from the Series 2007 Advance Refunding were \$8,581,209, after payment of \$185,619 in underwriting fees, insurance and other issuance cost. These proceeds were used to purchase U.S. Government securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments of the Advance Refunding of \$8,130,000 of Series 2001.

Note 10 – Leases

The College leases various equipment and facilities under annually renewable agreements. Rent expense under operating leases for the fiscal years ended August 31, 2014 and 2013 was \$293,281 and \$240,634, respectively.

Future minimum payments for each of the five subsequent fiscal years for noncancellable operating leases are as follows:

Year Ended August 31,	<u>Total</u>
2015	\$ 308,994
2016	170,481
2017	128,123
2018	26,844
2019	<u>3,694</u>
Total debt service obligation	<u>\$ 638,136</u>

Note 11 – Employees’ Retirement Plans

The State of Texas has joint contributory retirement plans for almost all its employees. One of the primary plans in which the College participates is administered by the Teacher Retirement System of Texas (TRS).

Teacher Retirement System of Texas

Plan description – The College contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. The Teacher Retirement System does not separately account for each of its component government agencies because it bears sole responsibility for retirement commitments beyond contributions fixed by the Legislature. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapter 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefits provisions of the pension plan. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 11 – Employees' Retirement Plans (continued)

Funding policy – State law provides for fiscal years 2014 and 2013 state contribution rate of 6.80% and 6.00%, respectively, and a member contribution rate of 6.400%. In certain instances the reporting district (I.S.D., college, university, or state agency) is required to make all or a portion of the state's 2014 and 2013 contribution. The College makes the 100% required contribution which represents the employer's contribution. The State is the administrator and thereby funds the employer matching requirement. The College's contribution for these employees was \$140,037, \$126,036 and \$115,280 for fiscal years 2014, 2013, and 2012, respectively. Senate Bill (S.B.) 1812, effective September 1, 2013, limits the amount of the state contribution to 50% of eligible employees in the reporting district. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state contribution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10.0% of the aggregate annual compensation of all members of the system during that fiscal year; (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of a particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Optional Retirement Plan

Plan description – The State of Texas has also established a defined contribution plan, the Optional Retirement Program, for institutions of higher education. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The Optional Retirement Program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution Articles, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding policy – Contributions requirements are not actuarially determined but are established and amended by the Texas state legislature. The percentages of participants' salaries currently contributed by the State and each participant are 6.60% and 6.65%, respectively. The College makes the 100% required contribution which represents the employer's contribution. Benefits fully vest after one year plus one day of employment. Since these are individual annuity contracts, the State has no additional or unfunded liability for this program. Currently the College contributes up to 1.90% of each participant's salary to the Optional Retirement Program under provisions of State law. The retirement expense to the College totaled \$241,286, \$326,364, and \$335,828 for 2014, 2013, and 2012, respectively.

The retirement expense to the State for the College totaled \$2,112,008, \$1,943,926, and \$3,645,727 for the fiscal years ended August 31, 2014, 2013, and 2012, respectively. This amount represents the portion of expended appropriations made by the state legislature on behalf of the College which is recorded as revenue and expense in the restricted fund. The total payroll for all College employees was \$83,245,148, \$82,149,872, and \$82,976,927 for fiscal years 2014, 2013, 2012, respectively. The total payroll of employees covered by the Teacher Retirement System was \$50,179,385, \$48,128,885 and \$47,072,170 and the total payroll of employees covered by the Optional Retirement System was \$17,478,788, \$17,492,993, and \$17,870,993 for fiscal years 2014, 2013, and 2012, respectively. Senate Bill (S.B.) 1812, effective September 1, 2013, limits the amount of the state contribution to 50% of eligible employees in the reporting district.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

Note 11 – Employees’ Retirement Plans (continued)

Tax Sheltered Annuity Plan for Part Time Employees

Plan description – The College has established a tax sheltered annuity plan for part time employees. An eligible employee is a part time employee who is not eligible for participation in the Teacher Retirement System of Texas or any other public or private retirement system within the meaning of Section 3121(b)(7)(F) of the Internal Revenue Code. The Tax Sheltered Annuity Plan provides for the purchase of annuity contracts. These annuity contracts are administered by Metropolitan Life Insurance for the participants. Certificates are issued to the participants evidencing their annuity contracts. A participant is 100% vested in the accumulated value of his annuity contract at all times.

Funding policy – A participant can elect to make salary reduction contributions equal to a percentage of 3.75% of his monthly compensation. The College makes a contribution equal to 3.75% of each participant's monthly compensation. Since these are individual annuity contracts, the College has no additional or unfunded liability for this program. The retirement expense to the College totaled \$54,064, \$71,295 and \$82,790 for 2014, 2013 and 2012, respectively. Total payroll of employees covered by the Tax Sheltered Annuity Plan for Part Time Employees was \$1,441,692, \$1,901,189 and \$2,207,682 for fiscal years 2014, 2013 and 2012, respectively.

Note 12 – Deferred Compensation Program

College employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. As of August 31, 2014 and 2013, the College had 401 and 413 employees participating in the program and \$1,789,856 and \$1,828,920, respectively, of payroll deductions had been invested in approved plans.

Note 13 – Risk Management

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 1990, the College established a Workers' compensation claim program to account for and finance its uninsured risks of loss related to employee injuries. Under this program, the College retains all risk of loss. The College purchases commercial insurance for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. The claims liability of \$900,000 reported at August 31, 2014 and 2013, is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liability is reported with accrued liabilities on the

**EL PASO COUNTY COMMUNITY COLLEGE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

Note 13 – Risk Management (continued)

Statement of Net Position. The liability is subject to change based on actual claim development. Estimated future payments for incurred claims are charged to current funds expenditures. Changes in the College's claims liability amount in fiscal 2014 and 2013 were:

	Beginning-of- Fiscal Year Liability	Current-year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year-End
2013 – 2014	\$ 900,000	\$ 277,764	\$ (277,764)	\$ 900,000
2012 – 2013	\$ 900,000	\$ 516,634	\$ (516,634)	\$ 900,000

Note 14 – Compensated Absences

Annual leave – Full-time employees earn annual leave from 1 to 1.67 days per month depending on the number of years employed with the College and the employee's classification. The College's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum number of days up to 40 for those employees who accrue 20 days leave per year. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated unused annual leave up to the maximum allowed. The College recognized an accrual for compensated absences of approximately \$2,598,596 and \$2,541,282 for the unpaid annual leave at August 31, 2014 and 2013, respectively.

Sick leave – The Board of Trustees has adopted a policy providing that ten percent (10%) of accrued unused sick leave (not to exceed 960 hours) shall be paid to an employee who has at least five years of continuous eligible full-time service, upon separation from employment for any reason other than by death. At August 31, 2014 and 2013, the estimated liability under this policy was approximately \$1,257,853 and \$1,253,645, respectively, which is accrued.

Note 15 – Health Care and Life Insurance Benefits

Certain health care and life insurance benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The State recognizes the cost of providing these benefits by expending the annual insurance premiums. For the 2014-2015 biennium, the State changed the methodology of benefit funding for community colleges in the State. SB 1812 limited the State's portion to 50% of the total contribution made on behalf of both active and retired employees.

Note 16 – Post Employment Benefits Other than Pensions

Plan description - El Paso Community College contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit post-employment healthcare plan administered by the Employees Retirement System of Texas (ERS). These medical benefits are provided to retired employees of participating universities, community colleges and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contribution provisions of the SRHP are authorized by State Law and may be amended by the Texas Legislature. ERS issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained from ERS via their website at <http://www.ers.state.tx.us/>.

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT NOTES TO FINANCIAL STATEMENTS

Note 16 – Post Employment Benefits Other than Pensions (continued)

Funding policy - Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS board of trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution. The employer's share of the cost of retiree healthcare coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS board of trustees sets the employer contribution parameters of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pensions. The employer contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years.

Beginning September 1, 2013, SB 1812 limited the state's contribution to 50% of eligible employees for community colleges.

The college's contributions to SRHP for the years ended August 31, 2014, 2013, and 2012, were \$1,059,430, \$1,913,652, and \$1,667,348 respectively, which equaled the required contributions each year.

Note 17 – Contract and Grant Awards

Grant funds are considered to be earned when all eligibility requirements have been met and to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received in advance, they are recorded as deferred revenue until earned. Contract and grant awards that are not yet funded and for which the College has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed under multi-year awards or for fiscal periods that differ from the College's fiscal year for which monies have not been received nor funds expended totaled \$65,355,234 and \$65,290,394 at August 31, 2014 and 2013, respectively. Of this amount, \$62,332,821, and \$62,872,703 were related to Federal Contract and Grant Awards, \$2,455,757 and \$2,417,691 were from State and other Contract and Grant Awards.

Note 18 – Related Party

The El Paso Community College Foundation (the Foundation) is governed by a nineteen member Board of Directors, independent of the College. At any given time the Foundation Board could have up to 25 members. Although the Foundation is not financially accountable to the College, the Foundation has received from the College both in-kind assistance in the form of donated services and use of facilities and equipment. The Foundation solicits donations for the benefit of the College. It remitted gifts of \$232,688, \$756,573, and \$403,601 to the College during the years ended August 31, 2014, 2013, and 2012, respectively. The College donated certain services, such as office space, utilities, supplies, and staff salaries and benefits to the Foundation with approximate value of \$42,423 for each year.

**EL PASO COUNTY COMMUNITY COLLEGE DISTRICT

**EL PASO COUNTY COMMUNITY COLLEGE DISTRICT
NOTES TO FINANCIAL STATEMENTS**

Note 19 – Property Taxes (continued)

Tax collections for the years ended August 31, 2014, 2013, and 2012 were 98% of the current tax levy. Allowances for uncollectible taxes for the years ended August 31, 2014, 2013, and 2012, respectively, of \$496,020, \$490,002, and \$455,229 are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to local maintenance and operations.

Note 20 – Pending Lawsuits and Claims

On August 31, 2014, various lawsuits and claims involving the College were pending. While the ultimate liability with respect to litigation and other claims asserted against the College cannot be reasonably estimated at this time, management believes that this liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the College.

Note 21 – Commitments

Encumbrances, primarily construction and technology related, outstanding at August 31, 2014 and 2013, respectively, that were provided for in the subsequent year's budget aggregated approximately \$2,446,437 and \$1,192,971.

Note 22 – Fund Balance

Net position reclassified in fund balance formatted for the internal purposes at August 31, 2014 and 2013 were as follows:

	<u>2014</u>	<u>As Restated 2013</u>
Current funds		
Fund balance, unrestricted	\$ 32,178,299	\$ 25,810,989
Fund balance, auxiliary enterprises	2,536,055	2,064,482
Fund balance, restricted	<u>4,319,505</u>	<u>3,519,181</u>

EL PASO COUNTY COMMUNITY COLLEGE DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
August 31, 2014

NOTE 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of El Paso County Community College District under programs of the federal government for the year ended August 31, 2014. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of the College, it is not intended to and does not present the financial position, changes in net position, or cash flows of the College.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This schedule has been prepared on the accrual basis of accounting. Revenues are recorded for financial reporting purposes when the College has met the qualifications for the respective program. Expenditures reported on the Schedule also are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-21, *Cost Principles for Education Institutions*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3. STUDENT LOANS PROCESSED AND ADMINISTRATIVE COST RECOVERED

Federal Grantor CFDA Number/Program Name	New Loans Processed	Administrative Cost Recovered	Total Loans Processed and Administrative Cost Recovered
U. S. Department of Education 84.268 Federal Direct Student Loans	\$8,905,324	\$ -	\$8,905,324

NOTE 4. AMOUNTS PASSED THROUGH BY THE COLLEGE

Of the federal expenditures presented in the schedule, the College provided federal awards to subrecipients as follows:

CFDA Number	Primary Award	Recipient	Amount Provided to Subrecipients
84.031	CE104948	Texas Techn University	\$ 116,567
47.050	CE004946	Universit of Texas-El Paso	18,544

Non Operating Federal Revenue from Schedule C	(59,466,875)
Total Federal Revenue per Schedule A	<u>\$ 3,988,745</u>

**REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees
El Paso County Community College District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of El Paso County Community College District as of and for the year ended August 31, 2014, and the related notes to the financial statements, which collectively comprise El Paso County Community College District's basic financial statements, and have issued our report thereon dated January 7, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered El Paso County Community College District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of El Paso County Community College District's internal control. Accordingly, we do not express an opinion on the effectiveness of El Paso County Community College District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Trustees
El Paso County Community College District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether El Paso County Community College District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Texas Public Funds Investment Act

We also performed tests of the College's compliance with the requirements of the Texas Public Funds Investment Act (the "Act"). The results of our tests disclosed no instances of non-compliance with the Act. However, providing an opinion on compliance with the Act was not an objective of our audit and, accordingly, we do not express such an opinion.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Mess Adams LLP

Albuquerque, New Mexico
January 7, 2015

REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Trustees
El Paso County Community College District

Report on Compliance for Each Major Federal Program

We have audited the El Paso County Community College District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the El Paso County Community College District's major federal programs for the year ended August 31, 2014. The El Paso County Community College District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the El Paso County Community College District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the El Paso County Community College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the El Paso County Community College District's compliance.

To the Board of Trustees
El Paso County Community College District

Opinion on Each Major Federal Program

In our opinion, El Paso County Community College District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2014.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2014-001 and 2014-002. Our opinion on each major federal program is not modified with respect to these matters.

The El Paso County Community College District's responses to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The El Paso County Community College District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the El Paso County Community College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the El Paso County Community College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the El Paso County Community College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

To the Board of Trustees
El Paso County Community College District

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified deficiencies in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as items 2014-001 and 2014-002 that we consider to be significant deficiencies.

The El Paso County Community College District's response to the internal control over compliance findings identified in our audit also are described in the accompanying Schedule of Findings and Questioned Costs. The El Paso County Community College District's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

FINDING 2014-001 – Student Financial Assistance- Student Status reported to National Student Loan Data System (NSLDS) Timely- (Significant Deficiency, Noncompliance)

Federal Program Information:

Funding agency: U.S. Department of Education
Title: Student Financial Assistance Cluster
CFDA Numbers: 84.007, 84.003, 84.063, 84.268
Questioned Costs: None

Criteria: Per 34 CFR section 690.83, 682.610, 685.309, enrollment information must be reported within 30 days whenever attendance changes for students, unless a roster will be submitted within 60 days. These changes include reductions or increases in attendance levels, withdrawals, graduation, or approved leaves-of-absences.

Condition: During testing, it was noted that the College did not notify NSLDS of a change in attendance within the required timeframe for 1 of the 25 students tested.

Effect: Failure to ensure the timely reporting of a student's change in enrollment resulted in non-compliance with the Department of Education CFR.

Cause: The College did not have adequate internal controls in place to monitor the manual upload of student enrollment status to the NSLDS.

Recommendation: The College should implement a review procedure to ensure that all students requiring a manual upload to the NSLDS website are accurately uploaded in a timely manner so as to comply with the requirements of 34 CFR section 690.83, 682.610, 685.309

Management Response: We agree with the finding that a student's graduation was not reported during the time limit required. This student's graduation report was immediately updated and an internal report was generated to verify if any other students during this report period were also omitted. The manual process used during the report period that resulted in this student's degree completion being omitted from the original report has been replaced with an automated report which will eliminate this from recurring in the future.

SCHEDULE OF FEDERAL FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED AUGUST 31, 2014**

Section III - Federal Award Findings and Questioned Costs

FINDING 2014-002 – Youthbuild- Grant officer approval for significant change to Statement of Work - (Significant Deficiency, Noncompliance)

Federal Program Information:

Funding agency: U.S. Department of Labor
Title: Youthbuild
CFDA Number: 17.274
Questioned Costs: None

Criteria: Per 29 CFR, Part 95.25, grant recipients shall request prior written approvals from the grant officer for any change in the approved objectives or scope of the project.

Condition: Through inquiry it was determined that the College changed its worksite construction partners and worksite location(s) without prior grant officer approval. The original statement of work included letters of commitment from two organizations; however, neither was used and a third partner was instead engaged to complete the work with no notification given.

Effect: Without proper grant officer approval, the College cannot ensure compliance with Federal regulations and the official grant Statement of Work.

Cause: There are no procedures in place to ensure that significant changes to the Statement of Work are communicated to grant officers for approval.

Recommendation: The College should implement appropriate procedures to verify that all significant changes to the Statements of Work Modifications have obtained the appropriate levels of approval from grant officers.

Management Response: In the future, Statements of Work Modifications will be requested prior to any such changes.

Total State Revenue per Schedule A	<u>\$ 4,252,969</u>

**REPORT OF INDEPENDENT AUDITORS ON COMPLIANCE FOR
EACH MAJOR STATE PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE STATE OF TEXAS
SINGLE AUDIT CIRCULAR**

To the Board of Trustees
El Paso County Community College District

Report on Compliance for Each Major State Program

We have audited the El Paso County Community College District's compliance with the types of compliance requirements described in the State of Texas Single Audit Circular that could have a direct and material effect on each of the El Paso County Community College District's major state programs for the year ended August 31, 2014. The El Paso County Community College District's major state programs are identified in the summary of auditor's results section of the accompanying Schedule of State Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of El Paso County Community College District's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State of Texas Single Audit Circular. Those standards and the State of Texas Single Audit Circular require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the El Paso County Community College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

To the Board of Trustees
El Paso County Community College District

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of El Paso County Community College District's compliance.

Opinion on Each Major State Program

In our opinion, the El Paso County Community College District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of each major state program for the year ended August 31, 2014.

Report on Internal Control Over Compliance

Management of the El Paso County Community College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the El Paso County Community College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the State of Texas Single Audit Circular, but not for the purpose of expressing an opinion on the effectiveness of internal control over state compliance. Accordingly, we do not express an opinion on the effectiveness of the El Paso County Community College District's internal control over state compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over state compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over state compliance, yet important enough to merit attention by those charged with governance.

To the Board of Trustees
El Paso County Community College District

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over state compliance that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over state compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over state compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the State of Texas Single Audit Circular. Accordingly, this report is not suitable for any other purpose.
