INDEPENDENT AUDITOR'S REPORT

Board of Regents Galveston Community College District Galveston, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Galveston Community College District (the "College") as of and for the years ended August 31, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Galveston Community College District as of August 31, 2016 and 2015, and the respective changes in financial position and its cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 21, and the schedule of College's proportionate share of net pension liability and the schedule of College contributions on pages 47 and 49, respectively, be presented to supplement the basic financial statements.

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the College's basic financial statements. The Schedule of Expenditures of Federal Awards for the year ended August 31, 2015, as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and the supplementary schedules on pages 50 through 53, as required by the Texas Higher Education Coordinating Board ("THECB") (collectively, the Supplementary Information), are presented for purposes of additional analysis and are not a required as part of the basic financial statements.

Such supplementary information is the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The Statistical Section, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 9, 2016, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the College's internal control over financial reporting and compliance.

Houston, Texas November 9, 2016

Can, Rigge & Ingram, L.L.C.

Galveston Community College District (the "College" or "Galveston College") Annual Financial Report presents management's discussion and analysis of the College's financial activity during the fiscal years ended August 31, 2016 and 2015. Since management's discussion and analysis is designed to focus on current activities, and currently known facts, please read this in conjunction with the College's financial statements and the notes thereto.

The financial statements are prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) as established by the Governmental Accounting Standards Board (GASB) and comply with reporting requirements as set by the Texas Higher Education Coordinating Board (THECB). The notes to the financial statements are considered an integral part of the financial statements and should be read in conjunction with them. Management is responsible for both the accuracy of the data and the completeness and fairness of the presentation of the financial statements and notes.

The College's financial report includes three basic financial statements: the Statements of Net Position provide a summary of assets, liabilities and net position as of August 31, 2016 and 2015; the Statements of Revenues, Expenses and Changes in Net Position provide a summary of operations for the fiscal year; and the Statements of Cash Flows provide categorized information about cash inflows and outflows for the fiscal year. Highlighted information from each basic financial statement is presented below:

Financial Highlights for 2016

- The College's net position as of August 31, 2016 is reported at \$31.4 million. This represents an increase in net position of 8% from 2015.
- The College decreased its annual tax rate from \$0.1870 to \$0.17875 per \$100 assessed valuation. However, due to an increase in the overall tax base, an additional \$793,000 in property tax revenue was received over the previous period.
- The College fortified its security infrastructure in preparation of and adapting to Senate Bill (SB) 11 which amended the Government and Penal Codes to authorize a concealed handgun license holder to carry a concealed handgun while on a public campus effective August 1, 2017. The College is moving to an armed police force, strengthening its surveillance systems, and has already implemented an automated electronic door access system allowing central control in the event of any incident. The unfunded cost estimate of SB 11 is about \$500,000 annually and is required to protect students and staff in the post SB 11 environment beginning August 1, 2017 and continuing indefinitely.
- Galveston College continued to improve its classroom facilities throughout fiscal year 2016 in an effort to increase student enrollment and retention while positively influencing student learning. With the assistance of state nursing grant funds, the College purchased \$137,000 worth of high-tech simulation mannequins and equipment for its ever-growing nursing program thereby giving students and professors as close to real life simulation of learning as possible. Welding machines and equipment costing \$130,000 were purchased to assure that the College is providing training on the same type of equipment as used by employers. The College sustained its technology refresh plan by purchasing over \$300,000 of new computer equipment and upgrading classrooms.
- The College maintained its commitment to provide comfortable facilities conducive to learning. At a cost of \$297,000, the College redesigned the HVAC cooling system connecting the different buildings. The College also completed \$300,000 in basic maintenance and repairs to existing facilities. Since a major concern of many students is parking, a new parking lot was constructed at a cost of \$164,000 thereby providing students closer access to campus. Additionally, in order to provide more control and real-time access tracking, an automated door locking system costing \$207,000 was installed.

	TOTAL	\$1,052,000		

Financial Highlights for 2015

- In fiscal year 2015, the College implemented the provisions of Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions - an Amendment of GASB No. 27 (GASB No. 68). GASB No. 68 requires Teacher Retirement System (TRS) participating employers to report their proportionate share of the unfunded net pension liability on their statement of net position. The fiduciary net position of TRS and the College's proportionate share of the unfunded net pension liability have been determined on the flow of economic resources measurement focus and full accrual basis of accounting, which has been actuarially determined and audited by the State of Texas Auditor's Office. Additionally, GASB No. 68 requires the recognition of deferred outflows of resources and deferred inflows of resources for pension related expenses and revenues, respectively, that will be recognized in future periods. The College's fiscal year 2014 financial statements were not restated for the implementation of GASB No 68. As an alternative, allowed by GASB No. 68, the cumulative effect of applying GASB No. 68 was reported as a restatement of beginning net position as of September 1, 2014. Therefore, the College's 2015 financial statements are not comparable to 2014 financial statements with respect to the net pension liability and deferred inflows of resources and deferred outflows of resources related to pensions. In the past, pension expense was the amount of the employer contribution. Current reporting provides a more comprehensive measure of pension expense which is more reflective of the amounts employees earned during the year.
- The College's net position as of August 31, 2015 is reported at \$29.1 million. This represents a reduction of net position of 4% from 2014. Even though the College's net position increased by \$2.4 million for net income earned during the year, the implementation of GASB No. 68 in fiscal year 2015 and corresponding restatement of beginning net position as of September 1, 2015 resulted in a reduction of opening net position by \$3.6 million from the previously reported closing net position of \$30.2 million as of August 31, 2014.
- The College maintained its annual tax rate of \$0.187 per \$100 assessed valuation. However, due to an increase in the overall tax base, an additional \$510,000 in current property tax revenue was received compared to fiscal year 2014.
- The College made its last principal and interest bond payment of \$717,600, originating from a 1994 bond issuance that was subsequently refinanced in 2004, thereby placing Galveston College in the roughly 10% of Texas Community Colleges that currently have no outstanding tax or revenue debt.

Financial Highlights for 2015 - Continued

• Grant funds received in fiscal year 2015:

GRANT NAME	PURPOSE	TERM	TOTAL AMOUNT
Dept. of Education - Federal	HSI – STEM Programs	10/01/14 - 09/30/15	\$939,000

	TOTAL	\$713,430

Statements of Net Positions

The statements of net position presents financial information on all of the College's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Deferred outflows of resources represent a consumption of net position applicable to a future reporting period. The College's deferred outflows of resources relates to pensions. Deferred inflows of resources represent an acquisition of net position applicable to a future reporting period and relates to the College's proportional share of the difference between projected and actual investment earnings of the defined pension benefit plan administered by the Teachers' Retirement System of Texas. Increases and decreases to net position are one indicator of whether the overall financial condition has improved or deteriorated during the year when considered with other factors such as enrollment, contact hours of instruction, student retention and other non-financial information. The statement is also useful in determining the assets available to continue operations as well as how much the College owes to vendors and creditors at the end of the year.

In order to show the trends for the two years shown in the Statements of Net Position (Exhibit 1), a summary of three years of data for the years ended August 31 follows:

Statements of Net Position - Continued

Fiscal Year 2016 Compared to 2015

Total net position for fiscal year 2016 was \$31.4 million, representing an 8% increase or \$2.3 million for fiscal year 2015. Current assets mainly consist of cash investments in Logic, Lone Star, TexPool and Texas Term Investment pools, collateralized certificates of deposit, and receivables. Cash and equivalents and short-term investments increased by \$2 million due to surplus funds from fiscal year 2016's operation. Capital assets increased slightly as the College capitalized approximately \$1.5 million due to facility upgrades, a new parking lot, door access system, classrooms, labs, and equipment, offset by \$869,000 of depreciation expense.

Current liabilities increased by \$432,000. The majority of this increase is due to unearned grant revenue from State of Texas grants and fall 2016 registrations. The proportionate share of the College's pension related deferred outflows of resources, deferred inflows of resources, and the net pension liability under GASB 68 increased by \$882,000, \$365,000 and \$498,000, respectively. Pension related deferred inflows of resources and deferred outflows of resources are \$1.33 million and \$1.44 million, respectively, as of August 31, 2016 and will be recognized in pension expense in future periods.

Fiscal Year 2015 Compared to 2014

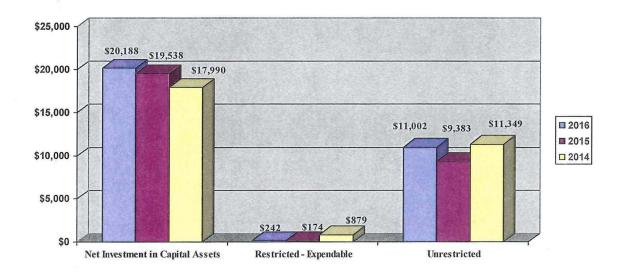

Current assets mainly consist of cash investments in Logic, Lone Star, TexPool, Texas Term Investment pools, a collateralized certificate of deposit, and receivables. Overall, current assets increased by \$1.5 million, mainly driven by the increase in cash and cash equivalents generated by surplus funds from operations in fiscal year 2015. Short term investments remained relatively stable as the College redeemed and replaced a \$2 million collateralized Moody Bank certificate of deposit that matured in June 2015. During 2015, the College renovated the chemistry lab, the executive suite, and the main Regents Building first floor restrooms. Capital assets increased as the College capitalized approximately \$1.6 million of renovation to facilities, classrooms, laboratories, and equipment, offset by \$830,000 of depreciation expense.

The College's current liabilities decreased \$891,000 as of August 31, 2015. The majority of the decrease is due to the final principal and interest bond payment originating from a 1994 bond issue. As of August 31, 2015, net pension liability recognized by the College under GASB 68, is \$3.1 million which largely explains the increase in non-current liability from 2014. Pension related deferred inflows of resources and deferred outflows of resources are \$0.96 million and \$0.56 million, respectively, as of August 31, 2015 and will be recognized in pension expense in future periods.

Total net position for fiscal year 2015 was \$29.1 million, representing a 4% decrease or \$1.12 million from fiscal year 2014. This is primarily driven by the implementation of GASB No. 68, which resulted in the College restating its opening net position by \$3.57 million to recognize net pension liability and related deferred outflow of resources of as of September 1, 2014. This decline is offset by \$2.44 million of surplus from operations for the year ended August 31, 2015.

Statements of Net Position - Continued

The following is a graphic illustration of net position (in Thousands) for the years ended August 31, 2014 through 2016. Total net position – net investment in capital assets has increased over the past three years as the College constructs new buildings and continues to make improvements to existing buildings to support student and program growth. The increase in unrestricted net position in 2016 is due to the College having excess revenues over expenses for the year. Unrestricted net position decreased between August 31, 2104 and August 31, 2015 due to the implementation of GASB No. 68.

Statements of Revenues, Expenses and Change in Net Position

The statements of revenues, expenses, and changes in net position focuses on the "bottom line results" of the College's operations. This approach summarizes and simplifies the user's analysis of the cost of various College services to its students and the burden to the public. The statement is divided into operating revenues and expenses and non-operating revenues and expenses. The College (like all other community colleges) is primarily dependent upon three sources of revenue: local property taxes, state appropriations, and tuition and fees. Only tuition represents an exchange for services. Since the Governmental Accounting Standards Board (GASB) requires state appropriations, student financial aid (Title IV), grants and property taxes to be classified as non-operating revenues, community colleges will generally display an operating deficit before taking into account other support. Essentially, this deficit represents the net cost of services to students that must be covered by local taxpayer support, the state and other sources of revenue. Further detail is presented in the Statements of Revenues, Expenses and Changes in Net Position and notes to the financial statements.

Statements of Revenues, Expenses and Change in Net Position - Continued

The following chart summarizes the College's operating results for the years ended August 31:

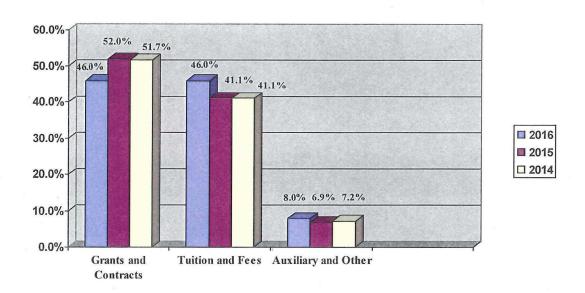

Operating Results (in thousands)

Revenues by Source Operating Revenues

Financial Analysis: Statements of Revenues, Expenses and Change in Net Position - Continued

Revenues by Source Non-Operating Revenues

Fiscal Year 2016 Compared to 2015

For fiscal year 2016, the College's total revenues grew approximately \$200,000. The College has four major sources of revenue: property taxes, state appropriations, grants and contracts, and tuition and fees. The College lowered the tax rate from \$0.1870 to \$0.17875 per \$100 assessed values. However, due to the prevailing tax-base growth on the island, an additional \$793,000 in revenue was received in fiscal year 2016. State appropriations and tuition and fees revenue remained relatively constant compared to fiscal year 2015. Federal grants and contracts revenue decreased by \$535,000 due to the College's Title V and STEM grants ending in fiscal year 2017. The majority of these projects and associated expenses of these grants occurred in prior years. Federal student assistance decreased by \$123,000 as a result of a decrease of about 50 students qualifying for and awarded Pell grants.

Fiscal Year 2015 Compared to 2014

Over the two year period, the proportions of revenue have generally remained constant. The College has four major sources of revenues: property tax, state appropriations, grants and contracts, and tuition and fees. The College maintained its tax rate of \$0.1870 per \$100 assessed values. However, due to a tax-based growth of about 5%, an additional \$510,000 of property tax revenue was received in fiscal year 2015. State appropriations and tuition and fees revenue remained stable when compared to 2014. Federal grants and contracts decreased by \$144,000 as a result of reaching the final years of Title V and STEM grants. State and local grant revenue increased by \$339,000 chiefly due to increased state grant revenue received for the Nursing Shortage, Nursing Innovation, and TWC Fast Start II grants. Federal student assistance is down by \$491,000 due to less students qualifying and receiving Pell and federal loans, thereby reducing the associated revenue received.

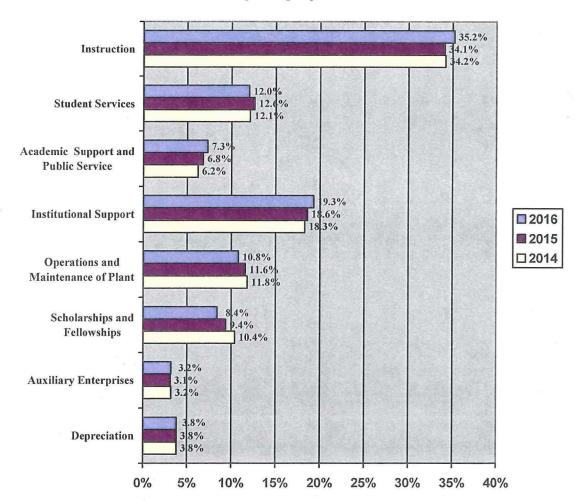

Below is a schedule and a graphic illustration of operating expenses by function for the years ended August 31:

Operating Expenses (in thousands)

	2016	2015	(Dec	rease rease) 5-2015	2014	(De	crease crease) 5-2014

Financial Analysis: Statements of Revenues, Expenses and Change in Net Position - Continued

Operating Expenses

Financial Analysis: Statements of Revenues, Expenses and Change in Net Position - Continued

Fiscal Year 2016 Compared to 2015

Galveston College's operating expenses increased by \$662,000 or 3% in fiscal year 2016 as compared to fiscal year 2015. The College's Board of Regents approved a salary increase of 3% for all employees and general inflation resulted in most expense categories increasing. The largest expense category remains instruction at 35%, increasing \$488,000 or 6% from fiscal year 2015. The increase in institutional support was due to increased marketing efforts and an increase in the College's proportionate share of pension expense. Scholarships and fellowships expense represents the amount disbursed to a student after a scholarship award is credited to the student's account for payment of tuition and fees. Scholarships and fellowships expense is down due to about 50 less students receiving Pell grants. Operations and maintenance of plant is down because of the removal of 6 houses, used as student dormitories, in 2015 which resulted in the College saving on insurance and utilities in the current year.

Fiscal Year 2015 Compared to 2014

Galveston College's operating expenses decreased by \$791,000 or 3% in fiscal year 2015 as compared to fiscal year 2014. The majority of this decrease (\$689,000) was in restricted grant expenses, which represents a 12% decrease when compared to fiscal year 2014. Restricted expenses fluctuate as they are driven by the availability of grants funds, but unrestricted expenses normally remain stable. The majority of the expense categories remained relatively stable when compared to their percentage of total expenses for the two years. The College's Board of Regents approved a salary increase for all employees resulting in total salary expenses increasing by 2%. Scholarship and fellowships decreased by \$302,000 due to 162 fewer students receiving Pell and 72 less receiving federal loans compared to fiscal year 2014.

Statements of Cash Flow Activity

The statement of cash flows reports the cash receipts and cash payments that occurred during the fiscal year. This statement helps users assess: 1) the entity's ability to generate future cash flows; 2) its ability to meet its obligations as they come due; and 3) its needs for external financing. The statement of cash flows presents information relative to cash inflows and outflows summarized by operating, financing, and investing activities.

The following chart summarizes the statements of cash flows (rounded to the nearest thousand) for the fiscal years ended August 31:

	<u>2016</u>	<u>2015</u>	2014
Cash Provided by (Used in):			
Operating Activities	\$(14,881)	\$(14,200)	\$(15,029)
Non-Capital Financing Activities	18,387	17,730	17,718
Capital and Related Financing Activities	(1,519)	(2,737)	(1,638)
Investing Activities	(1,928)	9	9
Net Increase in Cash and Cash Equivalents	59	802	1,060
Cash and Cash Equivalents – Beginning of Year	11,082	10,280	9,220
Cash and Cash Equivalents – End of Year	\$_11,141	\$_11,082	\$10,280

The College's cash flow from operations is always reflected as a use of cash because the College relies heavily on property tax and state appropriation revenue to fund operations. Cash from non-capital financing activities increased \$656,000 compared to fiscal year 2015 primarily due to an increase in property tax collections. The decrease in capital and related financing activities was driven by the College paying off its debt in 2015. In addition, facility upgrades and capital equipment activities were down compared to fiscal year 2015, but are in line with historical averages. Cash used by investment activities increased by \$1.9 million as the College moved funds from government pools to collateralized certificates of deposit. The additional certificate of deposit investments were purchased primarily using excess cash from operation in fiscal year 2016.

Capital Assets

As shown in Footnote 6 to the financial statements, capital assets increased from \$19.54 million to \$20.19 million due to the renovation of facilities, classrooms, laboratories, and equipment purchases. Additions are offset by depreciation expense of \$869,000. The following points explain the material changes in the capital asset categories during fiscal year 2016:

- Land and improvements increased primarily due to expenditures on the new parking lot, the HVAC re-pipe project, and the automated door access system.
- The College's construction in progress decreased as the College completed and transferred Phase III of the Applied Technology Center and STEM Lab renovation.
- Buildings increased due to the completion of renovations to Building 1 at the Applied Technology Center, Student Success Center (using Title V funds), and STEM Labs.
- Furniture, equipment, and vehicles increased as the College refreshed welding lab equipment, nursing simulation equipment, Smart classrooms, and furniture for labs, offices, and classrooms.
- Computer systems increased mainly as a result of the purchase of the SoftDoc automated forms and workflow software which will allow the College to automate the routing and approval of existing paper forms.
- Library books increased as the College continues to add to its existing collection.

Capital Assets (in thousands)

	<u>2016</u>	<u>2015</u>	<u>2014</u>
Capital Assets:			
Land and Improvements	\$ 7,087	\$ 6,372	\$ 5,845
Construction in Progress	163	439	832
Buildings	19,160	18,675	18,250
Equipment, Furniture, and Software	5,810	5,303	4,310
Library Books	1,068	997	932
Total	\$ 33,288	\$ _31,786	\$ _30,169
Less Accumulated Depreciation	(13,101)	(12,248)	(11,489)
Net Capital Assets	\$ _20,187	\$ _19,538	\$ 18,680

The College issued \$6,595,000 of revenue bonds in fiscal year 2004 to refund the 1994 revenue bonds at lower interest rates, saving approximately \$1.1 million over the remaining life of the bonds. The final principal bond payment of \$690,000 was made in fiscal year 2015 resulting in the College satisfying its outstanding bond indebtedness.

Currently Known Facts, Decisions and Conditions

- Galveston College celebrated its 50th golden anniversary on October 15, 2016 with a black tie event held at
 the Galveston Island Convention Center at The San Luis Resort. The night was filled with celebration,
 food, and entertainment. Proceeds from the gala will benefit Galveston College and scholarship programs.
- Based on the 2016 Texas Higher Education Almanac, Galveston College's graduation rates continue to be significantly higher than the average for Texas two-year institutions. The three-year graduation rate (the percentage of students who graduate within three years of enrollment) for Galveston College's full-time students was 24.5% compared to a state average of 15.9%. The four-year graduation rate for full-time

- students was 27.4% for Galveston College vs. 22.2% for the state average. The three-year graduation rate for students starting out in developmental classes continues to increase to 27.6% for Galveston College, compared to a state average of only 10.4%. Galveston College's cost of attendance is 22% lower than the state average, with over 60% of Texas two-year colleges having a higher cost of attendance.
- The College continues to see a growth in dual credit enrollment, waiver agreements, and increased program offerings to these students. Dual credit enrollment increased by 49% in fall of 2016 compared to 2015, with the first year of the dual credit welding programs enrolling 106 students. Galveston College continues to offer an expanded dual credit academic program which demonstrates a measureable success. These students have a 93% overall completion rate and have proven successful in gateway courses. These successes continue throughout their academic career as 40% of these students earn their bachelor's degree within four years compared to 27.4% of non-dual credit students. Galveston College is excited by this growth and the opportunity provided to high school students of the ability to graduate with a high school diploma and an associate's degree from Galveston College.
- Galveston College added a full-time grant writer position, allowing the College to identify and expand federal, state, and local grant and scholarship opportunities. Galveston College received two different grants from the National Science Foundation one for the Engineering Technology Instrumentation Program and the other to create a STEM Honors Program. Spending will commence at the beginning of fiscal year 2017. Grant awards from the National Science Foundation are highly competitive and are a very prestigious honor for the College.

The following grants will be active in fiscal year 2017:

GRANT NAME	PURPOSE	TERM	TOTAL AMOUNT
Dept. of Education - Federal	Title V	10/01/16 - 09/30/17	\$595,000
Dept. of Education - Federal	HSI – STEM Programs	10/01/16 - 09/30/17	\$302,000
60x30TX Comprehensive College Readiness and Success Models - State	Provide services to students to enable successful completion of CERT1 credentials	09/01/16 – 08/31/18	\$286,000
Dept. of Education - Federal	Building Bridges to Success	09/01/16 – 08/31/17	\$266,000
Dept. of Education - Federal	Upward Bound Program	09/01/16 – 08/31/17	\$258,000
Nursing Shortage Reduction Programs – State	Increase nursing degree graduation rates	09/01/16 - 08/31/17	\$191,000
Galveston Career Connect - Private	Strengthen career skills of high school students	09/01/16 - 08/31/17	\$109,000
National Science Foundation - Federal	STEM Honors Program	09/01/16 – 08/31/17	\$101,000
Carl Perkins – Federal	Applied Technology Support	09/01/16 – 08/31/17	\$74,000
National Science Foundation - Federal	Engineering technology instrumentation	09/01/16 — 08/31/17	\$61,000
		TOTAL	\$2,243,000

Contacting the College's Financial Management

This financial report is designed to provide the College's citizens, taxpayers, students, investors, and creditors with a general overview of the College's finances and to demonstrate the College's accountability for the funds it receives. If you have questions about this report or need additional financial information, contact the Business Office at 4015 Avenue Q, Galveston, Texas 77550.

NOTE 1 - REPORTING ENTITY

Galveston Community College District (the "College") was established in 1967, in accordance with the laws of the State of Texas, to serve the educational needs of the City of Galveston and the surrounding communities. The College is considered to be a special purpose, primary government. While the College receives funding from local, State, and Federal sources, and must comply with the spending, reporting, and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

The Governmental Accounting Standards Board (GASB) gives guidance in determining whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their relationship with the primary government. In 2011, the College adopted GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, which changed the criteria for a component unit. The Galveston College Foundation (the "Foundation") is a legally separate not-for-profit corporation controlled by a separate board of trustees, whose sole purpose is to provide scholarships and other benefits to the students and staff of the College. The Foundation does not provide a financial benefit or impose a financial burden on the College. The College does not appoint any of the Foundation's board members nor does it fund or is it obligated to pay debt related to the Foundation. The financial position of the Foundation as of August 31, 2016 and 2015 and the cost of services provided by the System to the Foundation during the years then ended are not significant to the System. The Foundation has therefore not been included as a component unit in the financial statements of the System. Financial information for the Foundation may be obtained from its administrative office.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Guidelines

The significant accounting policies followed by the College in preparing these financial statements are in accordance with accounting principles generally accepted in the United States of America as prescribed by GASB. The accompanying financial statements are also in accordance with the Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges.

The College reports as a special-purpose government engaged in business-type activities.

Tuition Discounting

Texas Public Education Grants – Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award for tuition is used by the student, the amount is recorded as a tuition and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Title IV Higher Education Act (HEA) Program Funds – Certain Title IV funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the student is awarded and uses these funds for tuition and fees, the amounts are recorded as revenue and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Tuition Discounting - Continued

Other Tuition Discounts – The College awards tuition and fee scholarships from institutional funds to qualifying students. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Basis of Accounting

The financial statements of the College have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Net Position: The College's net position is classified as follows:

Net Investment in Capital Assets: This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted Net Position – Expendable: Restricted expendable net position includes resources in which the College is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Unrestricted Net Position: These are resources that are not subject to any external restrictions and may be used at the discretion of the governing board for any lawful purpose of the College.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the College's policy is to first apply the expense towards unrestricted resources, and then towards restricted resources.

Budgetary Data

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Regents adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Cash and cash equivalents that are externally restricted as to their use are classified as noncurrent assets in the Statements of Net Position. The governing board has designated public funds investment pools to be cash equivalents, as the investments are redeemable on demand.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investments

Investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase. The College's short term investments consist of certificates of deposit totaling \$4,000,000 and \$2,022,093 at August 31, 2016 and 2015, respectively.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or fair value at the date of donation. For equipment, the College's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. Renovations of \$100,000 to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred. Depreciation is computed using the straight-line method over the following estimated useful lives of the assets:

Buildings	40-50	years
Land Improvements	20	years
Library Books	15	years
Furniture, Equipment and Vehicles	5-10	years
Computer Systems	5	years

Revenue Recognition and Unearned Income

Tuition and fee revenues are recorded when earned. Tuition, fees and other revenues related to periods after August 31, 2016 and 2015, respectively, have been deferred to the subsequent fiscal year.

Pensions

The College participates in the Teacher Retirement System of Texas (TRS) pension plan, a multiple-employer cost sharing defined benefit pension plan with a special funding situation. The fiduciary net position of TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the College after the measurement date but before the end of the College's reporting period.

Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources consist of the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Operating and Non-Operating Revenues and Expenses Policy

The College distinguishes operating revenues and expenses from non-operating items. The College reports as a business-type activity and as a single, proprietary fund. Operating revenues and expenses generally result from exchange transactions, such as payments received for providing services and payments made for goods or services received. The principal operating revenues are tuition, fees and grants. The major non-operating revenues are State appropriations, property tax and Title IV financial aid funds (i.e. Pell grants). The operations of the bookstore and food services are performed by a third party contracted by the College.

Operating expenses include the cost of providing instruction, student services and support, administrative expenses, and depreciation and amortization on capital assets. Expenses related to non-operating federal revenues are reported as operating expenses, either as tuition discounts (if applied to tuition) or as scholarship.

Management Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Estimates that have the most impact on financial position and results of operations primarily relate to the collectability of tuition and taxes receivable, the useful lives of property and equipment, calculation of net pension liability and related deferrals, and the allocation of expenses among functional areas. Management believes these estimates and assumptions provide a reasonable basis for the fair presentation of the financial statements.

Income Taxes

The College is exempt from Federal income taxes under Internal Revenue Code Section 115, *Income of States, Municipalities, Etc.*, although unrelated business income may be subject to Federal income taxes under Internal Revenue Code Section 511 (a)(2)(B), *Imposition of Tax on Unrelated Business Income of Charitable, Etc., Organizations*. The College had no unrelated business income tax liability for the years ended August 31, 2016 and 2015.

Subsequent Events

The College has evaluated subsequent events through November 9, 2016 which is the date the financial statements were available to be issued. No matters were identified that require disclosure or adjustment to these financial statements or related disclosures.

NOTE 3 - AUTHORIZED INVESTMENTS

The Board of Regents of the College has adopted a written investment policy regarding the investments of its funds as defined in the Public Funds Investment Act (Chapter 2256.001 Texas Government Code). The investments of the College are in compliance with the Board of Regents' investment policy and the Public Funds Investment Act. Such investments include (1) obligations of the United States and its agencies, (2) directed obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit and, (5) other instruments and obligations authorized by statute.

NOTE 4 – DEPOSITS AND INVESTMENTS

Custodial credit risk for deposits is the risk that in the event of bank failure, the College's deposits may not be returned to it. All deposits with the depository bank must be collateralized in an amount equal to at least 102% of the amount of uninsured collected funds. The collateral must be held by a third-party collateral bank in the name of the College.

At August 31, 2016 and 2015, the carrying amount of the College's deposits was \$788,079 and \$331,532, respectively; and bank balances equaled \$1,236,116 and \$785,324, respectively. Bank balances totaling \$250,000 were covered by Federal depository insurance and the remaining balance is collateralized with securities. The College uses a sweep agreement as a funding mechanism for its demand deposit accounts. Under this agreement the funds are swept nightly into a repurchase agreement account. As needed to cover disbursements, funds are swept into the demand deposit accounts.

The College's investment in certificates of deposits requires pledged collateral with a market value of at least 102% of the par value of the deposit. In addition, monthly collateral reports reporting the pledged securities and their market values are received from the College's financial institution. As of August 31, 2016 and 2015, the College had certificates of deposits in the amount of \$4,000,000 and \$2,022,093, respectively.

The following table presents the cash and cash equivalents included in Exhibit 1, Statement of Net Position, as of August 31:

	2016		2015
Cash and Cash Equivalents:			
Petty Cash	\$ 1,	200 \$	1,200
Demand Deposits	788.	,079	331,532
Vanguard Admiral Treasury Money Market Fund	653.	552	652,418
Investment Pools:			
Lone Star Investment Pool	3,159	455	3,581,023
Local Government Investment Cooperative	3,018	866	3,006,414
Texas Local Government Investment Pool	2,010,	448	2,005,146
TexasTERM Local Government Investment Pool	1,509.	192	1,504,144
Total Cash and Cash Equivalents	11,140,	792	11,081,877
Certificates of Deposit	4,000.	000 _	2,022,093
Total Deposits and Investments	\$ <u>15,140</u> .	<u>792</u> \$_	13,103,970

Interest risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods can be subjected to increased risk of adverse interest rate changes. In accordance with its investment policy, the College limits its exposure to interest risk by structuring its portfolio to provide for liquidity for operating funds and maximizing yields for funds not needed within a two year period. The investment policy limits the maximum maturity length of obligations of the United States government, its agencies and instrumentalities and government sponsoring enterprises to two years.

Credit risk is the risk that the issuer of the debt security will not pay its par value upon maturity. The College's investment policy limits credit risk based on meeting requirements of State law.

NOTE 4 – DEPOSITS AND INVESTMENTS – CONTINUED

The First Public (Lone Star Investment Pool or Lone Star) is a public funds investment pool established in accordance with the Inter-local Cooperation Act, Chapter 791, of the Texas Government Code, and operated under the Public Funds Investment Act, Chapter 2256, of the Texas Government Code. Lone Star is governed by trustees comprised of active participants in Lone Star. The board of trustees for Lone Star has the responsibility for adopting and monitoring compliance with the investment policy, of appointing investment officers, of overseeing the selection of an investment advisor, custodian, investment consultant, administrator and other service providers. First Public is rated AAA by Standard & Poor's.

Local Government Investment Cooperative (LOGIC or the Cooperative) was organized in conformity with the Inter-local Cooperation Act, Chapter 791, of the Texas Government Code, and operated under the Public Funds Investment Act, Chapter 2256, of the Texas Government Code. Participation in the Cooperative is limited to those eligible Government Entities which have become parties to the Participation Agreement. The Cooperative's governing body is a six-member Board of Directors (the Board) comprised of employees, officers or elected officials of participant Government Entities or individuals who do not have a business relationship with the Cooperative and are qualified to advise it. A maximum of two advisory board members represent the Co-Administrators of the Cooperative. The Board has entered into a contract with First Southwest Asset Management, Inc. and JPMorgan Asset Management, Inc. to provide administrative, investment management fund accounting, transfer agency, participant and marketing services for the Cooperative. In compliance with the Public Funds Investment Act, all portfolios will maintain a AAA or equivalent rating from at least one nationally recognized rating agency. LOGIC has been assigned a rating of AAAm by Standard & Poor's.

Texas Local Government Investment Pool (TexPool) has been organized in conformity with the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. TexPool invests in securities that meet the requirements of Texas Public Funds Investment Act. Standard & Poor rates TexPool AAAm. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor, as well as to the Office of Comptroller of Public Accounts, for review. TexPool operates in a manner consistent with the SEC's Rule 2a-7 of the Investment Act of 1940. TexPool uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the market value of the position in TexPool is the same as the value of TexPool shares.

TexasTERM Local Government Investment Pool (TexasTERM) has been organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code (the "PFIA"). TexasTERM is directed by an Advisory Board of experienced local government officials, finance directors and treasurers and is managed by a team of industry leaders that are focused on providing professional investment services to investors. TexasTERM provides four (4) investment options that offer investors the flexibility to manage cash flow and optimize earnings. The College has currently invested in TexasDAILY, a money market portfolio with daily liquidity that is rated AAAm by Standard & Poor's.

NOTE 5 – DISAGGREGATION OF RECEIVABLES AND PAYABLES BALANCES

Receivables consist of the following at August 31:

	2016	2015
Student Receivables Less Allowance for Doubtful Accounts	\$ 1,824,929 (314,798)	\$ 1,479,423 (313,298)
Total Student Receivable	\$1,510,131	\$ <u>1,166,125</u>
Federal Receivables Other Receivables	\$ 254,122 69,765	\$ 449,330 198,566
Total Accounts Receivable	\$323,887	\$ <u>647,896</u>
Property Tax Receivable Less Allowance for Doubtful Accounts	\$ 659,437 (90,222)	\$ 659,146 (83,607)
Total Property Tax Receivable	\$569,215	\$575,539
Payables consist of the following at August 31:		
Vendors Payable Benefits Payable	\$ 398,970 89,785	\$ 570,224 3,097
Total Payables	\$488,755	\$ <u>573,321</u>

NOTE 6 - CAPITAL ASSETS

NOTE 8 - EMPLOYEE RETIREMENT PLANS

The State of Texas has joint contributory retirement plans for almost all its employees. One of the primary plans in which the College participates is administered by the Teacher Retirement System of Texas.

Teacher Retirement System of Texas

Plan Description. The College participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

NOTE 8 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Teacher Retirement System of Texas - Continued

Benefits provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

Contribution	Rates

	2015		2016
Member Non – employer contributing entity (State) Employers	6.7% 6.8% 6.8%		7.2% 6.8% 6.8%
Fiscal year 2015 College contributions Fiscal year 2015 State of Texas on-behalf contributions Fiscal year 2015 Member contributions		\$ \$ \$	305,413 200,098 265,701

The College's contributions to the TRS pension plan in 2016 were \$535,881 as reported in the Schedule of College Contributions in the Required Supplementary Information section of these financial statements. Estimated State of Texas on-behalf contributions for 2016 were \$340,258.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

NOTE 8 – EMPLOYEE RETIREMENT PLANS – CONTINUED

Teacher Retirement System of Texas - Continued

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation date August 31, 2015 Actuarial Cost Method Individual Entry Age Normal Asset Valuation Method Market Value Single Discount Rate 8.00% Long-term Expected Investment Rate of Return* 8.00% Inflation 2.5% Salary increases including inflation 3.5% to 9.5% Payroll Growth Rate 2.5% Benefit changes during the year None Ad hoc post-employment benefit changes None

Actuarial methods and assumptions were updated based on a study of actual experience for the four year period ending August 31, 2014, and adopted on September 24, 2015, by the TRS Board of Trustees, who have sole authority to determine the actuarial assumptions used for the plan. The most significant changes were related to the update of the post-retirement mortality rates based on the most recent TRS member experience and the decrease in the assumption for general wage inflation from 3.0% to 2.5%. Other changes to overall assumptions and methods had a minor impact on the results of the actuarial valuation and the related pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Discount Rate. The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

^{*}Includes Inflation of 2.5%

NOTE 8 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Teacher Retirement System of Texas - Continued

The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2015, are summarized below:

A 4 CI	Target	Long-Term Expected Geometric Real	Expected Contribution to Long-Term
Asset Class Global Equity	Allocation	Rate of Return	Portfolio Returns*

Teacher Retirement System of Texas - Continued

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the net pension liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 net pension liability.

•	7%	8%	9%
	Discount Rate	Discount Rate	Discount Rate
The College's proportionate share of the			
net pension liability	\$5,712,600	\$3,646,003	\$1,924,657

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2016, the College reported a liability of \$3,646,003 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the College. The amount recognized by the College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the College were as follows:

College's proportionate share of the collective net pension liability State's proportionate share that is associated with College	\$ -	3,646,003 2,388,048
Total	\$	6.034.051

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 through August 31, 2015.

At the measurement date of August 31, 2015 the employer's proportion of the collective net pension liability was 0.0103144% which was a decrease of 0.1247040% from its proportion measured as of August 31, 2014.

For the year ended August 31, 2016, the College recognized pension expense of \$340,258 and revenue of \$340,258 for support provided by the State. Including the above, the pension expense for the year ended August 31, 2016 totaled \$654,595.

NOTE 8 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Teacher Retirement System of Texas - Continued

At August 31, 2016, the College reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		ed Outflows Resources	Deferred Inflows of Resources	
Differences between expected and actual				
economic experience	\$	40,485	\$	140,119
Changes in actuarial assumptions		170,159		130,073
Difference between projected and actual				
investment earnings		897,928		721,536
Changes in proportion and difference between the employer's contributions and the proportionate		,		,
share of contributions		_		336,700
Contributions paid to TRS subsequent to the	,			,
measurement date		332,565		
Total	\$	<u>1,441,137</u>	\$	1,328,428

The \$332,565 reported as deferred outflows of resources related to pensions resulting from the College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending August 31,	
2017 2018 2019 2020 2021 Thereafter	\$ (76,122) (76,122) (76,122) (76,122) 164,390 (63,172) (92,708)
Total	\$(219,856)

Optional Retirement Plan

Plan Description. The state has also established an optional retirement program for institutions of higher education. Participation in the Optional Retirement Program (ORP) is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

NOTE 8 - EMPLOYEE RETIREMENT PLANS - CONTINUED

Optional Retirement Plan - Continued

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. In 2016, 2015, and 2014 the percentages of participant salaries contributed by the state and each participant were 6.6% and 6.65%, respectively of annual compensation. In addition, for fiscal years 2016, 2015 and 2014, the College contributed 1.9% of annual compensation for each participant hired on or before August 31, 2005. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. SB 1812, effective September 1, 2013, passed by the 83rd Texas Legislature, limits the amount of the state's contribution to 50 percent of eligible employees in the reporting district.

Retirement expense. The total payroll for all College employees was \$10,779,958, \$10,274,342 and \$10,104,265 for the fiscal years ended August 31, 2016, 2015 and 2014, respectively. The total payroll of employees covered by ORP was \$1,756,348, \$1,803,179 and \$1,935,332 for fiscal years August 31, 2016, 2015 and 2014, respectively. The total payroll of employees covered by TRS was \$7,880,598, \$7,415,939 and \$7,235,080 for fiscal years August 31, 2016, 2015 and 2014, respectively.

ORP expense to the State for the College, representing the portion of expended appropriations made by the State Legislature on behalf of the College, was \$55,062, \$59,505 and \$62,296 for the fiscal years ended August 31, 2016, 2015 and 2014, respectively.

NOTE 9 - DEFERRED COMPENSATION PROGRAM

The College's employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code Section 609.001. The plan is essentially an unfunded promise to pay by the employer to each of the plan participants. As of August 31, 2016, the College had 33 employees participating in the program and a total of \$168,558 in contributions was invested in the plan during the fiscal year. As of August 31, 2015, the College had 33 employees participating in the program and a total of \$134,818 in contributions was invested in the plan during the fiscal year.

NOTE 10 - POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

In addition to providing pension benefits, the State provides certain health care and life insurance benefits for retired employees. Almost all of the employees may become eligible for these benefits if they reach normal retirement age while working for the State. These and similar benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The State recognizes the cost of providing these benefits by expending the annual insurance premiums. The State's maximum contribution per full-time employee was \$577 and \$538 per month for fiscal years 2016 and 2015, respectively. The State's maximum contribution for dependent coverage was \$1,128 and \$1,052 per month for fiscal years 2016 and 2015 respectively. The table below depicts the cost of providing health care benefits to the College's retired and active employees, and the amount appropriated to the College from the State of Texas.

NOTE 10 -- POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS -- CONTINUED

		2016	2015	
Number of retirees		68		67
Cost of health benefits for retirees	\$	509,154	\$	489,210
Number of active full time employees		155		147
Cost of health benefits for active full time employees	\$	1,268,788	\$	1,164,112
State appropriation for health insurance	\$	716,006	\$	694,801
College's expense for health insurance	\$	1,061,936	\$	958,521

Plan Description. The College contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit postemployment health care plan administered by the Employees Retirement System of Texas (ERS). SRHP provides medical benefits to retired employees of participating universities, community colleges and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contribution provisions of the SRHP are authorized by state law and may be amended by the Texas Legislature.

ERS issues a publicly available financial report that includes financial statements and required supplementary information for SRHP. That report may be obtained from ERS via its website at www.ers.state.tx.us.

Funding Policy. Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution.

The employer's share of the cost of retiree health care coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS Board of Trustees sets the employer contribution rate based on the implicit rate subsidy, which is actuarially determined in accordance with the parameters of GASB Statement 45.

The employer contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. Beginning September 1, 2013, SB 1812 limited the state's contribution to 50% of eligible employees for community colleges.

The College's contributions to SRHP for the years ended August 31, 2016, 2015, and 2014 were \$83,840, \$80,578 and 79,527, respectively, which equaled the required contributions each year.

NOTE 11 - COMPENSATED ABSENCES

The College has three ways in which compensated absences can be earned.

Sick Leave

All full-time employees earn sick leave at the rate of one day per month. Sick leave can accumulate to a maximum of 60 days for the purpose of carry-over from year to year. Unused accrued sick leave is forfeited upon termination of employment with the College with one exception. Sick leave which was accrued prior to September 1, 1989, is compensated at the rate of one-half the accrued amount up to a maximum of 60 days based on the employee's salary at separation of service. The College's policy is to recognize sick leave when paid. The liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

Vacation

Classified and administrative full-time employees are eligible for vacation benefits at a rate of one day per full month of employment; and may accrue and carry forward from one year to the next a maximum of 30 vacation days. Upon termination of employment, not more than 30 vacation days shall be compensated. The College has recognized an accrued liability for unpaid vacation leave in the amount of \$397,578 and \$382,948 as of August 31, 2016 and 2015, respectively. Faculty employees are not eligible to earn vacation benefits.

Compensatory Time

For nonexempt employees, it is the policy of the College to compensate overtime hours worked with compensatory time calculated at the rate of 1.5 times for each hour worked over 40 hours per week. All compensatory hours should be used by the end of the month following that in which it was earned; however, a maximum of 40 hours may be accrued and carried forward from year to year. The liability is not shown in the financial statements since experience indicates the expenditure of compensatory time to be minimal.

NOTE 12 - PROPERTY TAX

The College's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real, business/land personal property located in the tax area of the College. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

NOTE 12 - PROPERTY TAX - CONTINUED

At August 31:	2016		2015
Certified Taxable Valuation of the College	\$5,984,833,	130 \$5,	,300,704,286
Adjustments	532,189,	376	521,564,679
Net Assessed Valuation of the College	\$ <u>6,517,022,</u>	<u>506</u> \$ <u>5.</u>	822,268,965
		2016	
	Current	Debt	
	Operations	<u>Service</u>	<u>Total</u>
Authorized Tax rate per \$100 Valuation	\$.270000	-	\$.270000
Assessed Tax rate per \$100 Valuation	\$.178750	-	\$.178750
	-	2015	
	Current	Debt	
	Operations	Service	Total
Authorized Tax rate per \$100 Valuation	\$.270000	-	\$.270000
Assessed Tax rate per \$100 Valuation	\$.187000	-	\$.187000

Taxes levied for the years ended August 31, 2016 and 2015, based on certified rolls, as reported by the taxing authorities amounted to \$11,655,504 and \$10,894,414, respectively. Galveston County Tax Assessor and Collector is the collecting agency for the levy and remits collections to the College, net of a collection fee.

Tax collections for the years ended August 31, 2016 and 2015 were as follows:

	2016	2015		
Current Taxes Collected	\$ 11,409,269	\$ 10,648,256		
Delinquent Taxes Collected	251,218	213,131		
Penalties and Interest Collected	137,937	<u>148,026</u>		
Total Collections	<u>\$ 11,798,424</u>	\$ <u>11,009,413</u>		

Tax collections for the years ended August 31, 2016 and 2015 were 97.89% and 97.74%, respectively, of the current tax levy. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and operations or interest and sinking fund expenditures.

Property taxes are an imposed non-exchange revenue. Assets from non-exchange transactions are recorded with the entity has an enforceable legal claim to the asset or when the entity receives the resources, whichever comes first. The enforceable legal claim date is the assessment date. Accordingly, the College has recognized all assessed taxes in the current year and has recorded a receivable for uncollected taxes.

NOTE 13 - CONTRACT AND GRANT AWARDS

Contract and grant awards are accounted for in accordance with accounting principles generally accepted in the United States of America. Contract and grant awards are recognized as revenues as funds are actually expended. For contracts and grant awards, funds expended but not collected are reported as receivables. Funds received but not expended during the reporting period are deferred until earned. As of August 31, 2016 and 2015, \$332,524 and \$263,730, respectively, of grant funds have been received in advance.

NOTE 14 - DESIGNATED UNRESTRICTED NET POSITION

In fiscal year 2011, the Board approved \$5,128,890 of unrestricted net position to be designated in the event of a natural disaster.

NOTE 15 - COMMITMENTS

Federal and State of Texas Assisted Programs

The College participates in a number of federal and State of Texas assisted programs. These programs are subject to program compliance audits by the grantors or their representatives. Accordingly, the College's compliance with applicable grant requirements will be finally determined at some future date. The amount, if any, of expenditures which may be disallowed by the grantor agencies cannot be determined at this time, although the College expects such amounts, if any, to be immaterial.

<u>NOTE 16 – GALVESTON COLLEGE FOUNDATION AND RELATED PARTY TRANSACTIONS</u>

The Foundation is a nonprofit organization with the sole purpose of supporting the educational and other activities of the College.

The Foundation remitted \$183,493 and \$201,414 to the College for scholarship awards during the years ended August 31, 2016 and 2015, respectively. The Foundation did not fund any grant programs in 2016 and 2015.

During the years ended August 31, 2016 and 2015, the College provided office space and staff assistance to the Foundation at no cost. The College's management estimates the value of the salary, benefits, and operational expense provided to the Foundation to be approximately \$36,811 and 35,919 for fiscal years 2016 and 2015. As of August 31, 2016 and 2015, the amount due from the Foundation was \$2,230 and \$9,100, respectively.

NOTE 17 – NEW ACCOUNTING PRONOUNCEMENTS

In June 2015, the GASB issued Statement 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. Statement 74 addresses the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement follows the framework for financial reporting of defined benefit OPEB plans in Statement 45 by requiring a statement of fiduciary net position and a statement of changes in fiduciary net position. The Statement requires more extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated, including information about the annual money-weighted rates of return on plan investments. Statement 74 also sets forth note disclosure requirements for defined contribution OPEB plans. This Statement is effective for the College's fiscal year ended August 31, 2017.

NOTE 17 - NEW ACCOUNTING PRONOUNCEMENTS - CONTINUED

In June 2015, the GASB issued Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This Statement replaces the requirements of Statement 45 and requires governments to report a liability on the face of the financial statements for the Other Postemployment Benefits (OPEB) that they provide. Statement 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements. This Statement is effective for the College's fiscal year ended August 31, 2018.

In August 2015, the GASB issued Statement 77, *Tax Abatement Disclosures*. This Statement is intended to improve financial reporting by requiring disclosure of tax abatement information about a reporting government's own tax abatement agreements and those that are entered into by other governments and that reduce the reporting government's tax revenues. This Statement is effective for the College's fiscal year ended August 31, 2017.

In March 2016, the GASB issued Statement 82, *Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73.* The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, 68, and 73. Specifically, this Statement address issues regarding 1) the presentation of payroll-related measures in required supplementary information, 2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and 3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the College's fiscal year ended August 31, 2017.

The College is currently evaluating the impact of adopting these GASB Standards, including standards that are effective as of September 1, 2016.

REQUIRED SUPPLEMENTARY SCHEDULES

a beacon of light guiding lifelong learning

GALVESTON COMMUNITY COLLEGE DISTRICT SCHEDULE OF COLLEGE'S PROPORTIONATE SHARE OF NET PENSION LIABILITY LAST TWO FISCAL YEARS (Unaudited)

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Regents Galveston Community College District Galveston, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Galveston Community College District (the "College") as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated November 9, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Texas Public Funds Investment Act

Can, Rigge & Ingram, L.L.C.

We also performed tests of the College's compliance with the requirements of the Texas Public Funds Investment Act (the Act). The results of our tests disclosed no instances of noncompliance with the Act. However, providing an opinion on compliance with the Act was not an objective of our audit and accordingly, we do not express an opinion.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Regents Galveston Community College District Galveston, Texas

Report on Compliance for Each Major Federal Program

We have audited Galveston Community College District (the "College") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of College's major federal programs for the year ended August 31, 2016. The College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the College's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the College's compliance.

Opinion on Each Major Federal Program

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2016.

Report on Internal Control over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

GALVESTON COMMUNITY COLLEGE DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED AUGUST 31, 2016

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES USED IN PREPARING THE SCHEDULE

The schedule of expenditures of Federal awards presents the activity of Federal financial assistance programs of the College for the year ended August 31, 2016. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported represent funds which have been expended by the College for the purposes of the award and may not have been reimbursed by the funding agencies as of the end of the fiscal year. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The College has followed all applicable guidelines issued by various entities in the preparation of the schedules.

Expenditures presented on the schedule of expenditures of Federal awards are recognized following the cost principles as found in the Uniform Guidance. The College has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

NOTE 2 - FEDERAL ASSISTANCE RECONCILIATION

The information in this schedule of expenditures of Federal awards is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the College's financial statements. See reconciliation below:

Federal Revenues: Federal Grants and Contracts – (Schedule A) Federal Student Assistance, Non-Operating – (Schedule C)	\$ 1,542,820 2,728,660
Total Federal Revenues, per Statement of Revenues, Expenses and Changes In Net Position	4,271,480
Reconciling Item – Direct Student Loans	 1,078,563
Total Federal Revenues per Schedule of Expenditures of Federal Awards	\$ 5,350,043

NOTE 3 - RELATIONSHIP TO FEDERAL REPORTS

Differences between amounts reflected in the financial reports filed with grantor agencies for the programs and in the schedule of expenditures of Federal awards are due to different program year ends and accruals that will be reflected in the next report filed with the agencies.
