Report on the Financial Statements

We have audited the accompanying financial statements of Amarillo College (the College) as of and for the years ended August 31, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

This page left blank intentionally.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College as of August 31, 2016 and 2015, and the changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedules of the College's Proportionate Share of the Net Pension Liability, the Schedules of the College's Contributions and Notes to Required Supplementary Information on pages 8-15 and pages 58-61 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements of the College. The accompanying supplemental information listed in the table of contents, Schedules A, B, C and D, is likewise presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, Schedule E, and Schedule of Expenditures of State of Texas Awards, Schedule F, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the State of Texas Single Audit Circular are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, the Schedule of Expenditures of State of Texas Awards, and the Other Supplemental Information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards, the Schedule of Expenditures of State of Texas Awards, and the Other Supplemental Information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2016, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**AMARILLO COLLEGE
MANAGEMENT'S DISCUSSION AND ANALYSIS
Years Ended August 31, 2016, 2015 and 2014**

INTRODUCTION

The 2016 fiscal year was the fifteenth fiscal year that Amarillo College (the College) has presented financial statements in the format required by Governmental Accounting Standards Board (GASB) Statements No. 34 and 35. In the past, audit reports had the financial statements differentiating between the separate funds and fund groups of the College's general ledger. Under the new format, Exhibits 1, 2, and 3 present the financial data from all funds consolidated into a single column.

Exhibit 1, the Statements of Net Position corresponds to the Balance Sheet on prior year statements. This exhibit presents the assets, liabilities, and net position of the College in a single columnar format as of the end of the fiscal year.

Exhibit 2, the Statements of Revenues, Expenses, and Changes in Net Position presents the activity that occurred in the assets, liabilities, and net position for the fiscal year that resulted in the presentation of those items on Exhibit 1. Local ad valorem taxes assessed by the College, investment income, Title IV financial aid program, and state appropriations are reported as non-operating revenues.

Exhibit 3, the Statements of Cash Flows presents the inflow and outflow of cash collected and disbursed by the College for the fiscal year.

Schedule A, the Schedule of Operating Revenues presents a detailed list of the operating revenues, classified as Educational Activities (Unrestricted, Restricted) and Auxiliary Enterprises.

Schedule B, the Schedule of Operating Expenses by Object details the expenditures for the fiscal year classified by function (element of cost) and by natural (object code) classification.

Schedule C, the Schedule of Nonoperating Revenues and Expenses provides detail for the fiscal year classified as Unrestricted, Restricted and Auxiliary Enterprises.

Schedule D, the Schedule of Net Position by Source and Availability provides a reconciliation of fund balances to net position as well as funds available for current operations.

Schedule E, the Schedule of Expenditures of Federal Awards provides detail for the fiscal year for expenditures of federal financial assistance.

Schedule F, the Schedule of Expenditures of State of Texas Awards provides detail for the fiscal year for expenditures of state financial assistance.

CONDENSED COMPARATIVE FINANCIAL INFORMATION

This is the fifteenth year that the College has prepared these financial statements in the GASB 34/35 format. Following are the comparative financial statements for fiscal years 2016, 2015, and 2014:

ANALYSIS OF COLLEGE'S OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS

REVENUES

State Appropriations – State appropriations for educational and general state support decreased slightly for 2015, and decreased an additional \$1.49 million for 2016, the second year of the biennium.

<u>Year</u>	<u>State Appropriations</u>	<u>Change from Prior Year</u>	<u>% Change</u>
2013	\$ 15,097,688	\$ (222,871)	-1.5%
2014	15,307,049	209,361	+1.4%
2015	15,289,482	(17,567)	-0.1%
2016	13,824,650	(1,496,536)	+9.8%

Auxiliary Enterprises – Profits from the College's auxiliary enterprises remain steady, which includes the operation of family housing at the East Campus and the operation of the campus bookstores. For several years profit from auxiliary enterprises has been used to supplement the operation of the College's physical plant.

Investment Income – From 2003 to 2007 interest rates rose, increasing investment revenue; during 2008 interest rates started declining and continued to do so through 2016.

Ad Valorem Tax Base – The Amarillo Junior College District (the District) property appraisal increased \$531 million or 4.56% from the 2015 tax year to the 2016 tax year, \$445 million or 3.97% from the 2014 tax year to the 2015 tax year, and \$360 million or 3.32% from the 2013 tax year to the 2014 tax year. The increase is made up of new properties, improvements to existing properties, and increased valuations.

With the passage of the bond initiative in November of 2007 and the subsequent sale of \$68.3 million of construction bonds, the total tax rate for the 2016 tax year remained the same at \$.20750 per \$100 valuation; however, the maintenance and operations portion of the tax rate increased \$.0030 over the previous year and the interest and sinking portion was reduced by the same

amount. The last bond sale associated with the November 2007 bond initiative was on May 15, 2012, in the amount of \$14,305,000.

In November of 2006, the voters of the District passed the local option to freeze ad valorem taxes for seniors and disabled.

The Amarillo City Council adopted Ordinance No. 7012 on December 19, 2006, providing for the creation of a contiguous geographic area within the City to be a zone known as the Tax Increment Zone Number One, City of Amarillo, Texas (TIRZ #1) and the establishment of a tax increment fund for the Zone. The District's boundaries encompass the TIRZ #1. At a special meeting in November of 2007, the Board of Regents approved participation in the TIRZ #1. The contribution by the College to the TIRZ #1 district for 2015-16, 2014-15, and 2013-14, was \$110,401, \$104,275 and \$104,814, respectively.

Economic Outlook – While the recent recession has hit parts of the country very hard, the economic conditions in the College service area have not been that severe. The local unemployment rate of 3.6% is below the state and national averages of 4.4% and 4.7%, respectively. State appropriations for the 2016/2017 biennium were \$27.5 million which was lower than the 2014/2015 biennium which was \$30.5 million.

EXPENSES

Employee Health Insurance – The College offers health insurance to its employees through the Employees Retirement System of Texas (ERS). The amount funded by the state was \$3.0 million, \$3.22 million, and \$3.24 million for fiscal years 2014, 2015, and 2016, respectively.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets are defined as those items costing over \$5,000 and which have a normal useful life of more than two years. Below is a summary of the capital assets, as of August 31:

	<u>2016</u>	<u>2015</u>	<u>2014</u>	<u>Percent Change</u>

CAPITAL ASSETS AND DEBT ADMINISTRATION (CONTINUED)

The College has entered into various construction contracts. Total current commitments are \$3,198,838 of which \$727,007 was expended at August 31, 2016.

At August 31, 2016, the College had six bond issues outstanding, consisting of a revenue bond and five general obligation bond issues. The outstanding balance as of August 31, 2016, on each of the issues is \$8,360,000, \$14,400,000, \$16,320,000, \$14,305,000, \$8,520,000 for Series 2008, 2009, 2010, and 2012, respectively. In July of 2015, \$8,705,000 of the Series 2008 issue was refunded in order to lower the overall debt service requirements of the College. The Series 2015 issue resulted in an overall savings of approximately \$1,190,831. The 2011 revenue bond has an outstanding balance of \$3,750,000. Total long-term debt, excluding current portion, at August 31, 2016, is \$62,675,000.

Additional information on the College's capital assets and noncurrent liabilities can be found in Notes 6, 7, 8 and 9, respectively, to the basic financial statements.

OTHER MATTERS AT THE COLLEGE

Prior Period Adjustment – In June of 2012, the GASB issued Statement No. 68 which established new accounting and financial reporting requirements for governments that provide their employees with pensions. The guidance contained in the Statement changes how governments calculate and report the costs and obligations associated with pensions. GASB 68 provides specific guidance dependent on whether the pension plan the government participates in is considered a single-employer plan or multiple-employer plan.

Amarillo College provides pension benefits to its employees and retirees through its participation in the Teacher Retirement System of Texas (TRS) pension plan. TRS is considered to be a multiple-employer, cost-sharing pension plan with a special funding situation. A "special funding situation" as defined by GASB 68 refers to circumstances in which a non-employer contributing entity (NECE) is legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another entity or entities and either the amount of the NECE contributions required are not dependent upon one or more events unrelated to pensions or the NECE is the only entity with a legal obligation to make contributions directly to the pension plan. With regard to the TRS plan, the State of Texas is the NECE as defined by GASB 68 and, as such, the TRS pension plan is properly classified as a multiple-employer, cost-sharing pension plan with a special funding situation, as reflected in the financial statements for the TRS plan itself. The prior period adjustment to record the net pension liability was (\$11,930,444) in 2015.

OTHER MATTERS AT THE COLLEGE (CONTINUED)

We also made a prior period adjustment of \$2,002,638 for a previously impaired building that was put back in use by the institution. In addition, there was a prior period adjustment for pension expense in the amount of \$196,688 which was overbooked in the prior fiscal year. The Comparative Financial Information schedule reflects total prior period adjustments in the amount of (\$9,731,118) for the fiscal year 2015.

Amarillo Technical Center – Beginning with the 1996 fiscal year, the College assumed the operation of the Texas State Technical College Amarillo campus by act of the Texas State Legislature. The land and buildings were leased to the College through fiscal year 2002. On September 1, 2002, the land and facilities were transferred to the College by act of the Texas State Legislature. The Amarillo Technical Center has been renamed the Amarillo College East Campus. HB 521, which was passed in the Texas State Legislature, now gives the College the ability to dispose of excess acreage encompassed within the East Campus.

Moore County Branch Campus – In 1999 the voters of Moore County passed a Branch Campus Maintenance Tax to fund a branch campus of Amarillo College in Dumas, Texas.

The College agreed to underwrite the cost above revenues of the branch campus until the revenues generated by the operation of the campus were sufficient to cover the expenditures. The long-term financial plan for the Moore County Branch Campus projected that the campus would begin paying back the reserves used by the College in fiscal year 2004 and would have all of the reserves reimbursed during fiscal year 2006. During fiscal year 2003, the Moore County Branch Campus had paid back all underwriting funds.

The Amarillo College Moore County Campus Tactical Plan development for 2011-2015 has resulted in the construction of an approximately 30,000 square foot Career and Technical Center in Dumas, Texas. The Career and Technical Center is located in the Dumas Economic Development Corporation (DEDC) Business Park, which is located at Hwy 287 and Success Boulevard. DEDC donated approximately 11 acres in the Business Park with the understanding that construction was to commence within two years of the property being annexed to the City of Dumas and the utilities being located on the property. The Amarillo College Board of Regents approved the sale of \$4.5 million in Revenue Bonds to be used to finance the new Career and Technical Center. Construction on the Career and Technical Center was essentially completed by August 31, 2013.

Hereford Branch Campus – In 2003, citizens of Hereford, Texas, organized a steering committee to investigate the possibility of establishing a community college branch campus to be located in their city. The steering committee approached the College and discussions began concerning the establishment of a branch campus. In 2004, voters of the Hereford Independent School District passed a Branch Campus Maintenance Tax to fund a branch campus of Amarillo College in Hereford. The Hereford Branch Campus began operation for the 2005 Fall Semester.

OTHER MATTERS AT THE COLLEGE (CONTINUED)

During September of 2011, the College was approached by an individual wanting to make a monetary donation for construction of a new campus for Amarillo College in Hereford. In January of 2012, the Everett & Mabel McDougal Hinkson Foundation, Inc. was established with a gift of \$3,000,000 for construction of a new campus. Various covenants were specified, one of which was the requirement of the College to spend \$2,000,000 for the construction. The College contribution would be the first money used during construction, which began in Fall of 2012 and was completed for Spring 2014 classes. The total cost to the College was approximately \$2.5 million, which was funded by use of AC reserves and Hereford Branch Campus reserves. The Hereford Economic Development Corporation donated approximately 10 acres and the College purchased an additional 10 acres of land for the site of the new campus.

BOND ELECTION

At the regularly scheduled meeting in August 2007, the Board of Regents passed an election order calling for a \$68.3 million bond election in November of 2007. On November 6, 2007, the District bond election was passed by the voters of the District. Bonds in the amount of \$22,000,000, \$16,000,000, \$16,000,000, and \$14,305,000 were sold June 15, 2008, June 15, 2009, June 15, 2010, and May 15, 2012, respectively. The proceeds from bond sales have been used for new construction, renovation of existing buildings, equipping classrooms, and technology infrastructure. Standard & Poor's continues to provide the College's bond rating of AA+ based upon the College's strong and likely sustainable financial performance trend, evidenced by very strong reserves and substantial taxing flexibility. A parking lot expansion was completed in 2009. The Science Laboratory Building, expansion of the Chilled Water Loop on Washington Street Campus, Jones Hall on West Campus, and Warren Hall renovations were completed in 2010. The East Campus HVAC and Parcels project were completed in 2011. Byrd Business Building and Allied Health renovations, along with the Downtown Campus Parking Lot, were completed in 2012. The Music Building and the ground floor of the Byrd Business Building and Parcels Hall were completed in 2013 as well as renovations to Building V & S on the East Campus. The Math Center project and the 2nd floor of the Lynn Library were funded partially by bond funds and partially by grant funds. In 2014, renovations to Dutton Hall and the Student Union building were completed. Several additional projects were completed in 2015. All bond funds have been fully expended in 2016.

AMARILLO FOUNDATION FOR EDUCATION AND BUSINESS

On November 14, 2012, the Board of Regents entered into an agreement with an independent foundation entitled Amarillo Foundation for Education and Business (AFEB) for the sole purpose of selling land on East Campus. The Board of Directors consists of five members, two members who shall be appointed by PRANA Development Group, LLC, and three members who will be appointed by the College. AFEB is considered a blended component unit of the College. As of August 31, 2014, five land sales had taken place for a total of 77.46 acres being sold for \$863,752. There were no land sales in 2016 or 2015.

SUBSEQUENT EVENTS

Amarillo College received a donation in the amount of \$750,000 in October 2015 and \$750,000 in June 2016 to construct an addition to the East Campus facilities to add additional square footage for the diesel technician program. The project was in progress at the close of fiscal 2016.

Amarillo Economic Development Committee has pledged \$2.8 million, which was approved on November 3, 2015, with final approval by the City Commission on November 10, 2015. This donation is to go towards the construction of a free standing Aircraft hangar on the East Campus property. The scope of the project was amended in 2016 to remove a planned road that crossed the property to meet FAA requirements. The construction project is now expected to only require \$1.6 million to complete. The contract was amended on October 25th, 2016 to reflect the change in the cost. The project was in progress at the close of fiscal 2016 and Amarillo College had not received funding as of August 31, 2016.

The Office of the Governor sent a letter to the heads of all state agencies on June 30, 2016 with instructions to expect funding cuts for the 2018/2019 Biennium of 4%. While some Texas agencies will be exempt, Community Colleges were not. Amarillo College has prepared for this 2018/2019 cut in its 2017 budget.

Amarillo College has been awarded a 5 year grant from the US Department of Education to construct a 12,000 square foot green house on its Washington St. Campus. This grant will allow Amarillo College to begin a program in horticulture that can lead to a bachelor's degree through Texas Tech University on the Amarillo College campus.

On September 1, 2016, the College issued \$17,720,000 Limited Tax Refunding Bonds, Series 2016 to Refund the 2008 General Obligation Bonds and a portion of the 2009 General Obligation Bonds. The purpose of the refunding was to reduce the rate of the interest on the outstanding bonds.

AMARILLO COLLEGE
NOTES TO FINANCIAL STATEMENTS
August 31, 2016 and 2015

NOTE 1 - REPORTING ENTITY

Amarillo College (the College) was established in 1929, in accordance with the laws of the state of Texas, to serve the educational needs of Amarillo and the surrounding communities. The College is considered to be a special-purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 14. While the College receives funding from local, state, and federal sources and must comply with the spending, reporting, and recordkeeping requirements of these entities, it is not a component unit of any other governmental entity.

The financial reporting entity includes both the primary institution and all of its component units. The Amarillo Foundation for Education and Business is considered to be a blended component unit. The blended component unit, although legally separate, is in substance part of the College's operations and, therefore, is reported as if it were part of the College. See Note 24 for additional information.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Guidelines

The significant accounting policies followed by the College in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The College applies all applicable GASB pronouncements. The College is reported as a special-purpose government engaged in business-type activities.

Tuition Discounting

Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award for tuition is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act Program Funds

Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the award is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts

The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amount is recorded as a tuition discount.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tuition Discounting (Continued)

If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

Basis of Accounting

The financial statements of the College have been prepared on the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

Budgetary Data

Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Regents adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Deferred Inflows

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Governments are only permitted to report deferred inflows in circumstances specifically authorized by the GASB. The College has deferred inflows related to the recording of the net pension liability.

Deferred Outflows

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Governments are only permitted to report deferred outflows in circumstances specifically authorized by the GASB. The College has deferred outflows relating to deferred charges on refunding debt and the net pension liability.

Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Cash held in endowments is not considered to be cash and cash equivalents for cash flow purposes as it is permanently restricted.

AMARILLO COLLEGE
NOTES TO FINANCIAL STATEMENTS
August 31, 2016 and 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Restricted Cash

Restricted cash consists of restricted funds from donors, unspent bond proceeds, sinking funds, and cash belonging to the Amarillo Foundation for Education and Business (AFEB).

Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase or are funds which have donor-imposed restrictions (endowments).

Inventories

Inventories consist of consumable office supplies, physical plant supplies (including fuel), computers, and bookstore stock. Inventories are valued at the lower of cost (under the first-in, first-out method) or market and are charged to expense as consumed.

Capital Assets

Capital assets are recorded at cost at the date of acquisition or fair value at the date of donation. The capitalization policy includes items valued at \$5,000 or more and a useful life of greater than two years. Renovations of \$100,000 or more to buildings, infrastructures, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The following lives are used:

Buildings	50 years
Facilities and Other Improvements	20 years
Library Books	15 years
Furniture, Machinery, Vehicles and Other Equipment	10 years
Telecommunications and Peripheral Equipment	5 years

The GASB issued Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, in November 2003. This Statement was effective for the College's fiscal year ending August 31, 2006. This Statement establishes accounting and financial reporting standards for impairment of capital assets and also clarifies and establishes accounting requirements for insurance recoveries. The College analyzed its capital assets for impairment in accordance with GASB Statement No. 42. As a result, there were no impairment losses recognized during 2016 and 2015, respectively.

AMARILLO COLLEGE
NOTES TO FINANCIAL STATEMENTS
August 31, 2016 and 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

The College capitalizes interest costs incurred on funds used to construct property, plant and equipment. The capitalized interest is recorded as part of the assets to which it relates and is amortized over the asset's estimated useful life. Interest cost capitalized was \$3,010 and \$7,109 in 2016 and 2015, respectively.

Unearned Revenues

Tuition, fees, and other revenues received and related to the periods after August 31, 2016 and 2015, have been deferred. Tuition and fees of \$9,180,144 and \$8,816,031 have been reported as unearned revenue at August 31, 2016 and 2015, respectively.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS' fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating and Nonoperating Revenue and Expense Policy

The College distinguishes operating revenues and expenses from nonoperating items. The College reports as a business-type activity and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. The principal operating revenues are tuition and related fees. The major nonoperating revenues are state allocations, Title IV financial aid programs, and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets.

When both restricted and unrestricted resources are available for use, it is the College's practice to use restricted resources first, and then unrestricted resources as they are needed.

Change in Accounting Principles

In 2015, the College implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement No. 27* as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. This

statement improves financial reporting by enhancing the reporting of the net pension liability and a more comprehensive measure of pension expense. With GASB 68, the College must assume their proportionate share of the Net Pension Liability of the Teachers Retirement System of Texas. Adoption of GASB 68 required a prior period adjustment to report the effect of GASB 68 retroactively. There is added information available through new note disclosure and required supplementary information.

Restatement of 2015 Beginning Net Position

In 2015, the College restated its Beginning Net Position by \$9,731,118. The decrease in net position was due to the following items:

Decrease in net position due to the implementation of GASB 68	\$ (11,930,444)
Increase in net position due to the addition of a building that had been set to be demolished but was placed back in service	2,002,638
Increase in net position due to an error in recording the prior year pension expense	<u>196,688</u>
2015 Beginning Net Position, restated	<u>\$ (9,731,118)</u>

In 2015, beginning net position was \$97,916,705 and was restated to \$88,185,587.

NOTE 3 - AUTHORIZED INVESTMENTS

The College is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the state of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

Total investments	<u>\$ 28,705,578</u>	<u>100%</u>		

Interest Rate Risk - Interest rate risk occurs when potential purchasers of debt securities do not agree to pay face value for those securities if interest rates rise. In accordance with state law and Board policy, the College does not purchase any investments with maturities greater than one year except for endowed funds which can be invested to a maximum of five years. The College uses the specific identification method to disclose interest rate risk.

Concentration of Credit Risk - Concentration risk is defined as positions of 5% or more in the securities of a single issuer. The College's investment policy states that the balance in external investment pools shall not exceed 35% of the total College investment portfolio unless approved by the Investment Committee of the Board of Regents. The College held certificates of deposit at a local bank which are 7.98% of the portfolio as of August 31, 2016.

NOTE 4 - DEPOSITS AND INVESTMENTS (CONTINUED)

Credit Risk - In accordance with state law and the College's investment policy, with the exception of endowed investments, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations from other states, municipalities, counties, etc. must be rated at least A.

Custodial Credit Risk - For deposits and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the College will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of August 31, 2016, \$4,866,013 of the College's bank balances of \$8,525,265 were exposed to custodial risk as follows:

Uninsured and collateralized with securities held by pledging financial institution	<u>\$ 4,866,013</u>
Total	<u><u>\$ 4,866,013</u></u>

Participation in External Investment Pools

As of August 31, 2016, the carrying amount of amounts invested in investment pools was \$7,922,928. Investment pools are recorded at cost, which approximated market value at August 31, 2016. All investment pools are uninsured and are not registered with the Securities and Exchange Commission. Investment pools are not subject to custodial credit risk as they are not evidenced by securities that exist in physical or book entry form.

The College's investment in investment pools is TexPool Participant Services. TexPool Participant Services' regulatory oversight agent is the Texas Treasury Safekeeping Trust Company and their credit risk rating is AAAM. Their financial reports may be obtained by writing Federated Investment Management Company, 1001 Texas Avenue, Suite 1400, Houston, TX 77002.

NOTE 5 - FAIR VALUE MEASUREMENTS

The College adopted Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, as guidance on fair value measurements. The standard established a three-level valuation hierarchy for disclosure based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset's fair value measurement level within the hierarchy is based on the lowest level of input that is significant to the valuation.

The three levels are defined as follows:

- Level 1 – Quoted prices for identical assets or liabilities in active markets.

**AMARILLO COLLEGE
NOTES TO FINANCIAL STATEMENTS
August 31, 2016 and 2015**

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The College uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the College measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

- The bonds are due in annual installments varying from \$343,450 to \$1,779,800, including interest with the interest rates from 4.00% to 4.50%, with the final installment due in 2028.

On June 2, 2015, Amarillo Junior College District issued general obligation bonds in the amount of \$8,665,000 with an interest rate from 2.00% to 4.50% to advance refund term bonds with an interest rate from 4.00% to 5.00% and a par value of \$8,665,000. The term bonds mature on February 15, 2028, and are callable on February 15, 2018. The general obligation bonds were issued at par and, after paying issuance costs of \$171,193 and including the reoffering premium of \$1,281,064, the net proceeds were \$9,774,871. The net proceeds from the issuance of the general obligations bonds were used to purchase U.S. government securities, and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the term bonds are called on February 15, 2018. The advance refunding met the requirements of an in-substance debt defeasance, and the term bonds were removed from the District's financial statements.

As a result of the advance refunding, the District reduced its total debt service requirements by \$1,190,831, which resulted in an economic gain of \$1,008,316.

NOTE 10 - EMPLOYEES' RETIREMENT PLANS

Plan Description

The College participates in the TRS, a cost-sharing, multiple-employer defined benefit pension plan (the Plan) that has a special funding situation. TRS administers retirement and disability annuities and death and survivor benefits to employees and beneficiaries of employees of the public, state-supported educational institutions in Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code (IRC). TRS also administers proportional retirement benefits and service credit transfers under Texas Government Code, Title 8, Chapters 803 and 805, respectively.

NOTE 10 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Plan Description (Continued)

The Texas Legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained by downloading the report from the TRS internet website, www.trs.state.tx.us, by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698, or by calling (512) 542-6592.

Benefits Provided

Benefits are established or amended primarily under the authority of the provisions of the Texas Constitution, Article XVI, Section 67 and by the Legislature in the Texas Government Code, Title 8, Subtitle C. The pension's Board of Trustees does not have the authority to establish or amend benefits. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with five years of credited service or when the sum of the member's age and years of credited service equals or exceeds 80 or more years. Early retirement is at age 55 with five years of credited service and any age below 55 with 30 years of credited service. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. A member is fully vested after five years of creditable service and entitled to any benefit for which eligibility requirements have been met. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc postemployment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions

Contribution requirements are established or amended pursuant to the following state laws: (1) Article XVI, Section 67 of the Texas Constitution requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code Section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the system's actuary.

NOTE 10 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Contributions (Continued)

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal year 2014 and 2015. The 84th Texas Legislature, GAA established the employer contribution rates for fiscal years 2016 and 2017. Contribution amounts are as follows:

	<u>Contributions Required and Made</u>
2016 Member (Employee) Contributions	\$ 1,775,411
2016 College (Employer) Contributions	1,137,359
2015 Non-employer contributing agency (State)	469,413

Contribution rates for Plan fiscal years (September to August) 2015 and 2016 follow:

	<u>Contribution Rates Plan Fiscal Year</u>	
	<u>2015</u>	<u>2016</u>
Member	6.7%	7.2%
Employer	6.8%	6.8%
Non-Employer Contributing Entity	6.8%	6.8%

Contributors to the plan include members, employers, and the State of Texas as the only non-employer contributing entity. As the non-employer contributing entity, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

NOTE 10 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Contributions (Continued)

- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the TRS, the employer shall pay both the member contribution and the state contribution as an employment-after-retirement surcharge.

Actuarial Assumptions

The actuarial assumptions used in the valuation were based on the results of an actuarial experience study for the four-year period ending August 31, 2014, and adopted September 24, 2015. With the exception of the postretirement mortality rates for healthy lives and a minor change to the expected retirement age for inactive vested members stemming from the actuarial audit performed in the summer of 2015, the assumptions and methods are the same as listed in the prior valuation. When the mortality assumptions were adopted in 2015 they contained significant margin for possible future mortality improvements. As of the date of the valuation, there has been a significant erosion of this margin to the point that the margin has been eliminated.

Therefore, the postretirement mortality rates for current and future retirees have decreased to add additional margin for future improvement in mortality in accordance with the Actuarial Standards Practice No. 35.

The total pension liability as of August 31, 2015, was determined using the following actuarial assumptions:

Valuation date	August 31, 2015
Actuarial cost method	Individual entry age normal
Amortization method	Level percentage of payroll, open
Asset valuation method	5-year smoothed market
Remaining amortization period	33 years
Actuarial assumptions:

NOTE 10 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Changes Since the Prior Actuarial Valuation

The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Economic Assumptions

- The inflation assumption was decreased from 3.00% to 2.50%.
- The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
- In accordance with the observed experience, there were small adjustments in the service-based promotional/longevity component of the salary scale.
- The payroll growth assumption was lowered from 3.50% to 2.5%.

Mortality Assumptions

- The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

- Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
- There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data:
- Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
- Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.

NOTE 10 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

Changes Since the Prior Actuarial Valuation (Continued)

Other Demographic Assumptions (Continued)

- For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

- The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

Discount Rate

The discount rate used to measure the total pension liability was 8.0 %. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability with no cross-over point to a municipal bond rate.

The long-term expected rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2015, are summarized below:

At August 31, 2016, the College reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the College. The net pension liability was measured as of August 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. amount recognized by the College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the College were as follows:

College's proportionate share of the net pension liability	\$ 15,270,837
State's proportionate share of the net pension liability associated with the College	<u>5,604,542</u>
Total	<u>\$ 20,875,379</u>

The net pension liability was measured as of August 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The College's proportion of the net pension liability was based on the College's contributions to the pension plan relative to the contributions of all participating entities to the Plan for the period September 1, 2014, through August 31, 2015. At August 31, 2015, the College's proportion of the collective net pension liability was 0.0432006%, which is an increase of .0037795% from its proportion measured as of August 31, 2014.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the measurement period August 31, 2015, the College recognized pension expense of \$798,557 and revenue of \$798,557 for support provided by the State.

At August 31, 2016, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Optional Retirement Plan – Defined Contribution Plan

Plan Description. Participation in the Optional Retirement Program (ORP) is in lieu of participation in the TRS. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined, but are established and amended by the Texas State Legislature. The percentage of participant salaries currently contributed by the state is 6.6% for fiscal years 2016 and 2015. The participant contribution rate is 6.65% for both years. The College contributes 1.31% for employees who were participating in

the optional retirement program prior to September 1, 1995. Benefits fully vest after one year plus one day of employment.

Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. S.B. 1812, effective September 1, 2013, limits the amounts of the state's contribution to 50% of eligible employees in the reporting district.

The ORP expense to the state for the College was \$225,761, \$266,541, and \$292,661 for the fiscal years ended August 31, 2016, 2015, and 2014, respectively. This amount represents the portion of expended appropriations made by the state legislature on behalf of the College.

The total payroll of employees covered by the ORP was \$7,867,546, \$8,386,463, and \$9,321,638 for fiscal years 2016, 2015, and 2014, respectively.

College-Sponsored Benefit Plans

The College has a voluntary employee defined contribution 403(b) plan administered by the Plan's trustee. The Plan is funded by matching employee and employer contributions of 6.65% of employee compensation. Plan funds are held in trust and are administered by the College's Vice-President of Business Affairs with oversight by the Board of Regents. The Plan was amended during the year ended August 31, 2016 to allow for loans against the participants' investments and to allow for participant directed investing. Full-time employees and certain part-time employees are eligible to participate and are fully vested at all times. At August 31, 2016, 2015, and 2014, there were 923, 968, and 960, respectively, plan participants. The related expense was \$1,775,981, \$1,979,839, and \$2,010,047 for the years ended August 31, 2016, 2015, and 2014, respectively.

Part-time employees that are not covered by the defined contribution employee benefit plan are covered by a plan established pursuant to IRC Section 457. As a result of the passage of the Small Business Job Protection Act of 1996, beginning January 1, 1999, part-time plan funds are held in an irrevocable trust for the exclusive benefit of the participants. The College is responsible for due care in managing the investments of the Plan. The related expense was \$222,310, \$263,780, and \$289,207 for the years ended August 31, 2016, 2015, and 2014, respectively.

NOTE 11 - DEFERRED COMPENSATION PROGRAM

NOTE 12 - COMPENSABLE ABSENCES

Full-time employees earn annual leave from eight to twelve hours per month depending on the number of years employed with the College. The College's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum number of hours up to 160 for those employees with five or less years of service, up to 200 hours for those employees with more than five years but under ten years of service, and up to 240 hours for those employees with more than ten years of service. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed. The College recognized the accrued liability for the unpaid annual leave in the amount of \$933,144 and \$1,048,851 as of August 31, 2016 and 2015, respectively. Sick leave, which can be accumulated up to 120 days, is earned at the rate of eight hours per month; however, sick leave is not paid at termination. The College's policy is to recognize the cost of sick leave when utilized by employees.

NOTE 13 - ENDOWMENTS

KACV-TV (the Station) is part of and is operated by the College. In 1999, the Station received \$1,000,000 from the Sybil B. Harrington Living Trust (Harrington Trust) which was specified as an endowment. In 2005, the Station received an additional \$500,000 gift from an anonymous donor that was to be held as an endowment. The College also received a \$1,000,000 endowment from the Harrington Trust for the Harrington Library Consortium.

NOTE 14 - COMMITMENTS, CONTINGENCIES AND LAWSUITS

The College participates in various state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies. In the opinion of the College's management, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies. Additionally, the College's students participate in the Federal Direct Loan Program for which the proceeds are used for tuition and education-related costs. Regulations require that default rates pertaining to loans to persons attending the College not exceed certain levels at the College. In the event that specific levels were exceeded, the program could be discontinued at the College; however, the College does not anticipate this occurring. The total amount of Direct Loans made during 2016 and 2015 was \$11,443,817 and \$9,405,302, respectively.

On August 31, 2016, various lawsuits and claims involving the College were pending. While the ultimate liability with respect to litigation and other claims asserted against the College cannot be reasonably estimated at this time, this liability, if any, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the College.

The College does not participate in public entity risk pools. Claims and judgments are accounted for in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*. Property and casualty risks are insured through insurance contracts. Workers' compensation risks are substantially covered by insurance. Health claims are fully covered by the state of Texas.

NOTE 18 - HEALTH CARE AND LIFE INSURANCE BENEFITS

Certain healthcare and life insurance benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The state recognizes the cost of providing these benefits by expending the annual insurance premiums. The cost of providing those benefits for retirees is not separable from the cost of providing benefits for the active employees. The state's contribution per full-time employee was approximately \$577 per month for the year ended August 31, 2016, (\$538 per month for the year ended August 31, 2015) and totaled \$3,243,021 for the year ended August 31, 2016, (\$3,221,262 for the year ended August 31, 2015). S.B. 1812, effective September 1, 2013, limits the amounts of the state's contribution to 50% of eligible employees in the reporting district.

Beginning September 1, 2013, S.B. 1812 limited the state's contribution to 50% of eligible employees for community colleges.

NOTE 19 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description. The College contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit postemployment healthcare plan administered by the Employees Retirement System of Texas (ERS). SRHP provides medical benefits to retired employees of participating universities, community colleges, and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contributions provisions of the SRHP are authorized by state law and may be amended by the Texas State Legislature. ERS issues a publicly available financial report that includes financial statements and required supplementary information for SRHP. That report may be obtained from ERS via their website at <http://www.ers.state.tx.us/>.

Funding Policy. Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS board of trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution.

The employer's share of the cost of retiree healthcare coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS board of trustees sets the employer contribution rate based on the implicit rate subsidy, which is actuarially determined in accordance with the parameters of GASB Statement No. 45.

NOTE 19 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

The employer contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years.

Beginning September 1, 2013, S.B. 1812 limited the state's contribution to 50% of eligible employees for community colleges.

The College's contributions to SRHP for the years ended August 31, 2016, 2015, and 2014 were \$3,079,244, \$2,723,431, and \$2,413,980 respectively, which equaled the required contributions each year.

NOTE 20 - AD VALOREM TAX

The College's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and personal property located in the taxing jurisdiction.

At August 31, 2016:

Assessed valuation of the District	\$ 13,660,035,095

Total collections	<u>\$ 17,685,847</u>	<u>\$ 4,970,452</u>	<u>\$ 22,656,299</u>

Tax collections for the years ended August 31, 2016 and 2015, were 98.97% and 98.54%, respectively, of the current tax levy. Allowance for uncollectible taxes is based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and operations or interest and sinking fund expenditures.

NOTE 21 - BRANCH CAMPUS MAINTENANCE TAX

A branch campus maintenance tax that is established by election is levied by Moore County and Hereford Independent School District. It is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District. Collections are transferred to the College to be used for operation of a branch campus in Dumas, Texas, and Hereford, Texas. This revenue is reported under local grant contracts. Collections in fiscal years 2016 and 2015 (including penalties and interest) from Moore County totaled approximately \$1,206,327 and \$1,227,576, respectively, and from Hereford Independent School District totaled approximately \$728,960 and \$601,960, respectively

NOTE 22 - INCOME TAXES

The College is exempt from income taxes under IRC Section 115, *Income of States, Municipalities, Etc.*, although unrelated business income may be subject to income taxes under IRC Section 511(a)(2)(B), *Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations*. The College had no significant unrelated business income for the years ended August 31, 2016 and 2015.

NOTE 23 - RELATED PARTIES

The Amarillo College Foundation, Incorporated (the Foundation) is a nonprofit organization with the primary purpose of supporting the educational and other activities of various entities, including the College. The Foundation solicits donations and awards scholarships, including substantial scholarships to students not attending the College. The College does not appoint a voting majority to the board of directors nor does it fund or is it obligated to pay debt related to the Foundation. Accordingly, the Foundation has not been presented as a discrete component unit of the College. The Foundation remitted restricted gifts of \$1,783,459 and \$1,525,445 to the College during the years ended August 31, 2016 and 2015, respectively. During the fiscal year, the College furnished certain services, such as office space, utilities and some staff assistance, to the Foundation. The amount of such services provided by the College has not been determined.

NOTE 24 - BLENDED COMPONENT UNIT

Amarillo Foundation for Education and Business

On November 14, 2012, the Board of Regents entered into an agreement with an independent foundation entitled Amarillo Foundation for Education and Business (AFEB) for the sole purpose of selling land on East Campus. The land is held by the College which, in turn, sells the land to AFEB when AFEB has found a buyer. The board of directors consists of five members, two of whom are appointed by PRANA Development Group, LLC, and three members who are appointed by the College. AFEB is considered a blended component unit of the College. There were no sales during the fiscal years ended August 31, 2016 and 2015.

NOTE 25 - NEW GASB PRONOUNCEMENTS

The Governmental Accounting Standards Board has issued several new pronouncements that the College has reviewed for application to their accounting and reporting.

Recently Issued Accounting Pronouncements

GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value and describes how fair value should be measured, what assets and liabilities should be measured, what assets and liabilities should be measured at fair value, and what information about fair value should be disclosed in the notes to the financial statements. Under Statement No. 72, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments, which generally are measured at fair value, are defined as a security or other asset that governments hold primarily for the purpose of income or profit and the present service capacity of which are

based solely on their ability to generate cash or to be sold to generate cash. Before the issuance of Statement No. 72, state and local governments have been required to disclose how they arrived at their measures of fair value if not based on quoted market prices. Under the new guidance, those disclosures have been expanded to categorize fair values according to their relative reliability and to describe positions held in many alternative investments. The requirements of this Statement are effective for financial statements for reporting periods beginning after June 15, 2015. The implementation of this pronouncement added note disclosure, but did not have a significant effect on the College.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB 67 and 68*, complete the suite of pension standards. Statement 73 establishes requirements for those pensions and pension plans that are not administered through a trust meeting specified criteria (in other words, those not covered by Statements 67 and 68). The requirements in Statement 73 for reporting pensions generally are the same as in Statement 68. However, the lack of a pension plan that is administered through a trust that meets specified criteria is reflected in the measurements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2015. The implementation of this pronouncement did not have a significant effect on the College.

GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, replaces GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. Statement 74 addresses the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement follows the framework for financial reporting of defined benefit OPEB plans in Statement 45 by requiring a statement of fiduciary net position and a statement of changes in fiduciary net position. The Statement requires more extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated, including information about the annual money-weighted rates of return on plan investments. Statement 74 also sets forth note disclosure requirements for defined contribution OPEB plans. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2016. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, replaces the requirements of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Among other things, Statement 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide and requires governments in all types of OPEB plans to present more

extensive note disclosures and required supplementary information about their OPEB liabilities. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2017. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 77, *Tax Abatement Disclosures*, requires state and local governments, for the first time, to disclose information about tax abatement agreements. It requires governments to disclose information about their own tax abatements separately from information about tax abatements that are entered into by other governments and reduce the reporting government's tax revenues. The requirements of this Statement are effective for financial statements for reporting periods beginning after December 15, 2015. This statement is not expected to have a significant impact on the College's financial statements.

GASB Statement No. 78, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, amends the scope and applicability of GASB 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that: (1) is not a state or local governmental pension plan; (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers; and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. GASB 78 is effective for financial statements for reporting periods beginning after December 15, 2015. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, permits qualifying external investment pools to measure pool investments at amortized cost for financial reporting purposes and provides guidance that will allow many pools to continue to qualify for amortized cost accounting. Existing standards provide that external investment pools may measure their investments at amortized cost for financial reporting purposes, if they follow substantially all of the provisions of the SEC's Rule 2a-7. Likewise, participants in those pools are able to report their investments in the pool at amortized cost per share. GASB 79 replaces the reference in existing GASB literature to Rule 2a-7 with criteria that are similar in many respects to those in Rule 2a-7. GASB 79 is effective for reporting periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk, and shadow pricing. Those provisions are effective for reporting periods beginning after December 15, 2015. Earlier application is encouraged. The implementation of this pronouncement had no effect on the College's financial statements.

NOTE 25 - NEW GASB PRONOUNCEMENTS (CONTINUED)

Recently Issued Accounting Pronouncements (Continued)

GASB Statement No. 80, *Blending Requirement for Certain Component Units*, clarifies the display requirements in GASB Statement No. 14, *The Financial Reporting Entity*, by requiring these component units to be blended into the primary state or local government's financial statements in a manner similar to a department or activity of the primary government. The guidance addresses diversity in practice regarding the presentation of not-for-profit corporations in which the primary government is the sole corporate member. Although GASB 80 applies to a limited number of governmental units, such as, for example, public hospitals, the GASB intends for it to enhance the comparability of financial statements among those units and improve the value of this information for users of state and local government financial statements. GASB 80 is effective for financial statements for reporting periods beginning after June 15, 2016. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements*, requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. GASB 81 requires that a government recognize revenue when the resources become applicable to the reporting period. GASB 81 is effective for financial statements for reporting periods beginning after June 15, 2016. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 82, *Pension Issues*, is designed to improve consistency in the application of the pension standards by clarifying or amending related areas of existing guidance. Specifically, the practice issues raised by stakeholders during implementation relate to GASB 67, 68, and 73. GASB 82 is effective for financial statements for reporting periods beginning after June 15, 2016. The College is currently evaluating the effect of this statement on their financial statements.

NOTE 26 - SUBSEQUENT EVENTS

Subsequent to year end the College has been awarded a grant from the Department of Education in the amount of \$4,900,000.

The College has been awarded a grant from the Texas Higher Education Coordinating Board. They may receive up to \$904,000.

On September 1, 2016, the College issued \$17,720,000 Limited Tax Refunding Bonds, Series 2016 to Refund the 2008 General Obligation Bonds and a portion of the 2009 General Obligation Bonds.

The College evaluated for inclusion as a subsequent event disclosure those events that occurred prior to December 13, 2016, the date the financial statements were issued.

AMARILLO COLLEGE
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
Years Ended August 31, 2016 and 2015

NOTE 1 - CHANGES OF BENEFIT TERMS

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

NOTE 2 - CHANGES OF ASSUMPTIONS

The following are changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period.

Economic Assumptions

- The inflation assumption was decreased from 3.00% to 2.50%.
- The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
- In accordance with the observed experience, there were small adjustments in the service-based promotional/longevity component of the salary scale.
- The payroll growth assumption was lowered from 3.50% to 2.50%.

Mortality Assumptions

- The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

- Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
- There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.

Years Ended August 31, 2016 and 2015

NOTE 2 - CHANGES OF ASSUMPTIONS (CONTINUED)

Other Demographic Assumptions (Continued)

- Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
- Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
- For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

- The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES USED IN PREPARING THE SCHEDULE

The expenditures included in the schedule are reported for the College's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds that have been expended by the College for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The College has followed all applicable guide-lines issued by various entities in the preparation of the schedule. The College did not use the 10% de minimus rule allowed by Uniformed Guidance section 200.414.

SINGLE AUDIT SECTION

This page left blank intentionally.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Regents
Amarillo College
Amarillo, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Amarillo College (the College) which comprise the statements of net position as of August 31, 2016 and 2015 and the related statements of revenues, expenses, and changes in net position and cash flows as of and for the years ended August 31, 2016 and 2015, and the related notes to the financial statements and have issued our report thereon dated December 13, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This page left blank intentionally.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Program
and on Internal Control Over Compliance Required by the Uniform Guidance
and the State of Texas Single Audit Circular**

Board of Regents
Amarillo College
Amarillo, Texas

Report on Compliance for Each Major Federal and State Program

We have audited Amarillo College's (the College) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement and the State of Texas Single Audit Circular that could have a direct and material effect on each of the College's major federal and state programs for the year ended August 31, 2016. The College's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the College's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the State of Texas Single Audit Circular, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance, with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program, occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the College's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2016.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and the State of Texas Single Audit Circular which are described in the accompanying schedule of findings and questioned costs as items 2016-001 and 2016-002. Our opinion on each major federal and state program is not modified with respect to these matters.

The College's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State of Texas Single Audit Circular, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of the federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2016-001 and 2016-002 that we consider to be significant deficiencies.

The College's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State of Texas Single Audit Circular. Accordingly, this report is not suitable for any other purpose.

SECTION II – Financial Statement Findings

None noted.

SECTION III – Federal and State Award Findings and Questioned Costs

Finding 2016-001

Program: Student Financial Aid Cluster

Compliance Requirement: Reporting

Condition: The Federal Supplemental Educational Opportunity Grant Program's (FSEOG) indirect costs of \$7,508 reported on the Fiscal Operations Report and Application to Participate (FISAP) report did not agree to the general ledger amount of \$11,779.

Criteria: Per Uniform Guidance, each year an electronic report is submitted to receive funds for the campus-based programs. The school uses the FISAP to report its expenditures in the previous year and the Application to Participate portion to apply for funds for the following year. The report is required to agree to the underlying accounting records that support the audited financial statements.

Cause: A late journal entry to record indirect costs by the accounting department was not reported to the Director of Student Financial Aid prior to the report being filed with the Department of Education.

Effect: Incorrect reporting of this amount could cause the College to be in noncompliance with the correct indirect cost rate. This could cause the College to be required to return funds.

Context: Test work was performed on the annual FISAP report. This was the only error on the report. In the prior year the indirect costs for the Federal Work Study were incorrectly reported we consider this to be a repeat finding.

Recommendation: We recommend that the College implement procedures and controls to ensure correct information is used when preparing the FISAP report. Furthermore, the FISAP should be amended

SECTION III – Federal and State Award Findings and Questioned Costs (Continued)

Finding 2016-001 (Continued)

Views of Responsible Officials and Corrective Action Plan: The one instance cited was a result of the indirect costs being reported as of the date the Fiscal Operations Report and Application to Participate (FISAP) deadline approached. A journal entry was made after the October 1st deadline which resulted in a correction to the original amount reported.

To resolve this finding, the College corrected the Administrative Cost Allowance to \$11,779 and resubmitted the FISAP report with the correct amount. This correction was done well in advance of the December deadline to submit corrections.

In order to prevent this finding in the future, the Business Office will report any changes to the indirect costs to the Director of Financial Aid so that the Administrative Cost Allowance can be adjusted on the FISAP report.

The institution believes this to be an isolated incident.

Finding 2016-002

Program: 84.063 – Federal Pell Grant Program

Compliance Requirement: Eligibility

Condition: A student, who was in default on a Student Loan, was erroneously awarded Pell Grant Funds for the Summer 2016 session.

Criteria: Per the “Uniform Compliance Supplement - Appendix A-Federal Student Financial Assistance Programs-Student Eligibility Compliance Requirements” a student receiving aid cannot be in default on any student loans.

Cause: The error resulted from the students’ application for Summer 2016 being manually processed. A manual computer query of the student’s file for the summer courses did not key on the default of a student loans.

Effect: Ineligible students receive federal assistance.

Questioned Costs: The amount awarded to the student for the Summer 2016 session was \$1,356.

Context: This was one of forty Pell recipient files tested. An additional eleven recipients were selected with no additional errors identified.

SECTION III – Federal and State Award Findings and Questioned Costs (Continued)

Finding 2016-002 (Continued)

Recommendation: We recommend that the College implement procedures to the processing of Summer awards that will include the review of prior loan status.

Views of Responsible Officials and The one instance cited is a result of an error in the Summer Aid Query used to identify eligible students.

Corrective Action Plan: To resolve this finding, the Summer Aid Query has been updated to remove students who have the following comment codes related to default: 124, 132, 134, 135, and 136. This will ensure that students who are in default are not awarded for summer aid.

The institution believes this to be an isolated incident.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
Year Ended August 31, 2016

Finding 2015-001

Program: Student Financial Aid Cluster

Condition: The Federal Work Study indirect costs of \$9,971 reported on the Fiscal Operations Report and Application to Participate (FISAP) report did not agree to the general ledger amount of \$10,902.

Recommendation: We recommend that the College implement procedures and controls to ensure correct information is used when preparing the FISAP report. Furthermore, the FISAP should be amended to reflect the correct amounts.

Current Status: Reconciliation of indirect costs is done before the October 1st deadline of the Fiscal Operations Report and Application to Participate (FISAP). Any journal entries or adjustments to these costs will be communicated to the Director of Financial Aid prior to the December 15th correction deadline for the FISAP report.

Finding 2015-002

Program: 84.031C – Title III Hispanic Serving Institutions Science, Technology, Engineering and Math

Condition: Expenditures reported on the 2014 Annual Performance Report were incorrect. The report did not agree to the General Ledger as it reported building improvement expenditures of \$888,159 when the actual building improvement expenditures were \$544,708.

Recommendation: We recommend that accounting and grant personnel be familiar with the grants and complexities regarding the grants to ensure that grant expenditures are properly recorded in the accounting records and properly reflected on the annual reports.

Current Status: Amarillo College’s Grant Accounting Office and Project Directors are working together to complete the fiscal components to Annual Performance Reports in a timely manner and report expenses within the appropriate budget category.

Fiscal expenditure reports are finalized by Grant Accounting and approved by the College’s Director of Accounting and the Vice President of Business Affairs. The Project Director is responsible for the final submission of the expenditure report after following all required grant management policies and procedures.

Specifically for the College’s Title III – HSI STEM program, the fiscal information contained in the Year 4 Annual Performance Report for the 2014/2015
