Independent Auditor's Report

UNMODIFIED OPINION ON BASIC FINANCIAL STATEMENTS ACCOMPANIED BY REQUIRED SUPPLEMENTARY INFORMATION AND OTHER INFORMATION

Board of Regents Cisco College District 101 College Heights Cisco, Texas 76437

Report on the Financial Statements

I have audited the accompanying financial statements of the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for Cisco College District (the "District") as of and for the years ended August 31, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cisco College District as of August 31, 2016 and 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with account principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of District's Proportionate Share of the Net Pension Liability (TRS) and Schedule of District Contributions to TRS as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedure to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The supplemental schedules, the Texas Higher Education Coordinating Board's (the "THECB") required statistical schedules and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplemental schedules, the THECB required statistical schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statets and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplemental schedules, the THECB required statistical schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole. The supplemental schedules, the THECB required statistical schedules and the schedule of expenditures of federal awards have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, I do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated November 10, 2016, on my consideration of the District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (M,D&A)

The following discussion of Cisco College's financial report presents our analysis and insight to the College's financial performance for the fiscal year ended August 31, 2016 including some comparative information with the fiscal years ended August 31, 2015 and 2014. Please read it in conjunction with the transmittal letter preceding this report and the College's financial statements, which follow this report.

The Basic Financial Statements

The annual financial report consists of a set of financial statements and reports as required by Government Accounting Standards Board (GASB) Statement No. 34 for a government engaged in Business Type Activities. These basic financial statements appear in Exhibits 1-3 and in the notes to the financial statements. The basic financial statements consist of the following four elements: a Statement of Net Position; a Statement of Revenues, Expenses, and Changes in Net Position; a Statement of Cash Flows; and the Notes to the Financial Statements. These statements are presented in a government-wide format, which means all of the funds of the College are combined into a single report. A brief explanation of the purpose of each of the components of the basic financial statements is set out below.

The Statement of Net Position shows the combined assets of the College, as well as the combined liabilities. The difference in the total assets and the total liabilities is the net position, which are broken out in its various components. The information shown in this statement is a snapshot of the College's accounts on August 31 of the year indicated. This is important data in determining the viability of the school and in determining the College's overall financial strength.

The Statement of Revenues, Expenses, and Changes in Net Position shows the results of the fiscal year's operations. Revenues and expenses are arranged by their functional classifications so that a year-to-year comparison will show relevant trends. The information in this statement will assist in evaluating the College's performance for the year concluded.

The Statement of Cash Flows shows the sources and uses of cash for the fiscal year. It is divided into several categories: operating activities, non-capital financing activities, capital financing activities, and investing activities. Upon review of the Cash Flow Statement, a person knowledgeable in using this statement can determine an institution's ability to generate future cash flows, and its ability to meet financial obligations.

The Notes to the Financial Statements provide the required disclosures to comply with GASB pronouncements and other relevant information that a user might find helpful in understanding the College's financial statements as a whole.

Analysis of the College's Overall Financial Position and Results of Operations

Table 1 provides a summarization of significant financial data from the Statement of Net Position. Cisco College implemented GASB Statement No. 68 last year which has affected the Total Deferred Resource Outflows and Total Deferred Resource Inflows when comparing to Year Ended August 31, 2014. Enrollment declines of approximately 8% have affected Cisco College in several areas. This is reflected in the decrease of the Current and Other Assets and the Current Liabilities.

Table 2 provides information concerning the College's results of operations for the past three years. Total Operating Revenues have increased almost \$335,000 compared to last year and Total Operating Expenses have decreased over \$340,000; however, Federal Revenue decreased over \$1 million. This caused Cisco College to have a decrease of Net Position by \$254,143.

Significant Capital Asset and Long-Term Debt Activity

Note 3 to the financial statements is a summary of the current fiscal year's capital asset activity. A review of this data shows additions to capital assets of over \$395,000. These were offset by depreciation expense of \$747,000. Changes to capital assets during the year include land improvements of \$64,000; buildings of \$39,000; library books of \$6,000.; furniture, machinery, vehicles and other equipment over \$287,000; and a decrease to Land of \$5,100 for the deed given to the City of Cisco for rebuilding their water treatment plant.

Note 4 to the financial statements is a composite of the College's long-term liabilities for the current and previous fiscal years. During the current year, there was a decrease of \$91,000 for capital leases. The College currently has three lease agreements for computers and related equipment which run for a period of 48 months each. It is the College's plan to continue this rolling lease agreement process in order to achieve a high level of technology for our students and employees. This long-term lease commitment is another step in the College's plan to maintain information technology equipment at the highest level possible while remaining fiscally sound. There was a reduction to the Revenue Bonds and Notes for payments made during the year. There were also increases and decreases to the Net Pension Liabilities due to GASB Statement No. 68.

Discussion of Other Facts, Decisions, and Conditions

Cisco College has experienced declines in enrollment beginning in 2010 when enrollment peaked at 4,824 students. The 83rd Legislature passed SB 1812, which established a 50/50 cost sharing plan between the state and community colleges for employee benefits-both employee group health insurance and the employer portion of employee retirement benefits. As a result, Cisco College costs for these programs continues to increase to \$1,250,000 for health insurance (a 385% increase since SB 1812) and \$260,000 for retirement (\$0 cost to the college before SB 1812) in FY 2017. As a result of this enrollment decline and the significant increases in employee health insurance and retirement benefits, the College has struggled to maintain its net position.

The Abilene economy has a direct correlation on enrollment and the decline in unemployment rate coupled with the decline in Financial Aid (Pell-eligible students) contributes to the financial impact. In addition, the college is located in a smaller taxing district than most of the community colleges across the state. As we become more informed about the underlying causes contributing to the enrollment declines, the college is responding in ways that will positively impact the financial position for many years.

The college is taking steps to increase enrollment and improve student retention rates that are beginning to positively impact the downward trends in enrollment. In addition, Cisco College is in the process of developing a new *Strategic Plan* and has appointed a *Strategic Enrollment Task Force* to better plan for the future. The college is in the process of assessing the opportunities for growth in Abilene. In collaboration with our Abilene Advisory Council, we will be conducting an Impact Study that will help us inform the citizens of Abilene and Taylor County about the positive impact the college has on the economy.

Abilene offers a diversified economic base (military, health care, IT, agriculture, oil and gas) and the college will be in better position to educate and train the workforce of the future, which includes placing more priority on individual workforce development programs and establishing degree program pathways for students transferring to four-year universities. Cisco College will continue to be good stewards of the taxpayers' money through strategic financial management that prioritizes high quality instructional programs.

CISCO COLLEGE DISTRICT CISCO, TEXAS NOTES TO THE FINANCIAL STATEMENTS AUGUST 31, 2016 AND 2015

1. Reporting Entity

Cisco College District (the "District") was established in 1940 in accordance with the laws of the State of Texas to serve the educational needs of Cisco and the surrounding communities. District is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement 14. While District receives funding from local, state, and federal sources, and must comply with the spending, reporting, and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

The Board of Regents (the "Board"), a nine member group, is the level of government which has governance responsibilities over all activities related to the education of students who attend The District. The Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for the fiscal matter concerning the District. The District has two campuses, Cisco and Abilene, which offer a wide variety of general academic and vocational courses in a two year curriculum.

2. Summary of Significant Accounting Policies

Report Guidelines

The significant accounting policies followed by the District in preparing these financial statements are in accordance with the Texas Higher Education Coordinating Board's *Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The District applies all applicable Governmental Accounting Standards Board (GASB) pronouncements. The District is reported as a special-purpose government engaged in business-type activities.

Tuition Discounting

<u>Texas Public Education Grants</u> - Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.0333). When the award is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

<u>Title IV, Higher Education Act Program Funds</u> - Certain Title IV HEA Program funds are received by the District to pass through to the student. These funds are initially received by the District and recorded as revenue. When the award is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts - The District awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Basis of Accounting

The financial statements of the District have been prepared on the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal and contractual obligation to pay.

Budgetary Data

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The District's board adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition.

Investments

In accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. The governing board has designated public funds investment ppls comprosed of \$1,106,939 and \$1,099,666 at August 31, 2016 and 2015, respectively, to be short-term investments. Long-term investments have an original maturity of greater than one year at the time of purchase.

Inventories

Inventories consist of consumable office supplies, physical plant supplies, book store stock, and food service supplies. Inventories are valued at the lower of cost under the "first-in, first-out" method, or market and are charged to expense when consumed.

Capital Assets

Capital assets are stated at cost at the date of acquisition, or fair value at the date of donation. For equipment, the District's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. Renovations to buildings, infrastructure and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets applying the half-year convention. The following useful lives are:

| Buildings | 50 years |
|--|----------|
| Facilities and Other Improvements | 20 years |
| Furniture, Machinery, Vehicles and Other Equipment | 10 years |
| Telecommunications and Peripheral Equipment | 5 years |
| Library Books | 20 years |

Pensions

The District participates in the Teacher Retirement System of Texas (TRS) pension plan, a multiple-employer cost sharing defined benefit pension plan with a special funding situation. The fiduciary net position of TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

<u>Unearned Revenues</u>

Tuition and fees of \$2,820,693 and \$3,264,715 and federal, state, and local grants of \$421,812 and \$640,673 have been reported as unearned revenues at August 31, 2016 and 2015, respectively.

Deferred Inflows

In addition to liabilities, the District is aware that the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so is not recognized as an inflow of resources (revenue) until that time. Governments are permitted only to report deferred inflows in circumstances specifically authorized by GASB.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating and Non-Operating Revenue and Expense Policy

The District distinguishes operating revenues and expenses from non-operating items. The District reports as a BTA and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations, federal Title IV grant revenues and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Characterization of Federal Title IV Grant Revenue

Revenue received for federal Title IV grant programs (i.e. Pell grants) is characterized as non-operating revenue.

Prior Year Restatement

The District makes a prior year restatement, as necessary, in accordance with APB 20.

During the prior fiscal year ending August 31, 2015, the District adopted GASB Statement No. 68 for Accounting and Reporting for Pensions. With GASB 68, the District assumed their proportionate share of the Net Pension Liability of the Teacher Retirement System of Texas. Adoption of GASB 68 required a prior period adjustment to report the effect of GASB 68 retroactively. The amount of the prior period adjustment is \$(2,662,364). The restated beginning net position is \$9,146,028.

3. Capitalized Assets

Capital asset activity for the year ended August 31, 2016 was as follows:

| | | Balance | | | ъ | | Balance | | |
|--|--------|------------|----|-----------|-----------|-------|---------|-------------|--|
| | 9/1/15 | | | Increases | Decreases | | 8/31/16 | | |

| Net Pension Liability | 0 | 2,349,827 | | 2,349,827 | 0 |
| Other - Deposits | 26,450 | | | 26,450 | 0 |
| Total Other Liabilities | 306,921 | 2,349,827 | 5,205 | 2,651,543 | 0 |
| Total Long-Term Liabilities | \$ 8,908,615 | \$ 2,528,122 | \$ 726,536 | \$ 10,710,201 | \$ 706,115 |

On December 6, 2011, the District issued \$8,295,000 in consolidated fund revenue refunding bonds to provide the resources to place in an escrow account for the purpose of generating resources for future debt service payments of \$8,435,000 of consolidated fund revenue and refunding bonds issued in 2002. Interest rates on the debt range from 2.0% - 4.0% and mature on July 1, 2026. As a result, the refunded bonds are considered defeased and the liability has been removed from the financial statements. The reacquisition price exceeded the net carrying amount of the refunded debt by \$186,150 (net of issuance costs and premiums). This advance refunding was undertaken to reduce total debt service payments over the life of the new issue versus the refunded issue by \$1,558,922 and resulted in an economic gain of \$1,372,772.

On May 23, 2013, the District issued \$1,585,000 in consolidated fund revenue refunding bonds to provide the resources to place in an escrow account for the purpose of generating resources for future debt service payments of \$1,500,000 of consolidated fund revenue and refunding bonds issued in 2002. Interest rates on the debt are 1.89% and mature on July 1, 2026. As a result, the refunded bonds are considered defeased and the liability has been removed from the financial statements. The reacquisition price exceeded the net carrying amount of the refunded debt by \$130,729 (net of issuance costs and premiums). This advance refunding was undertaken to reduce total debt service payments over the life of the new issue versus the refunded issue by \$350,060 and resulted in an economic gain of \$219,331.

The District has pledged the following source revenues as security for the bonds: (a) pledged tuition fees totaling the mathematical product of \$15 multiplied by the number of students regularly enrolled at the District for each regular school semester thereof and the product of \$7.50 multiplied by the number of students regularly enrolled in the District for each of the two summer school terms thereof; (b) building use fees; (c) educational service fees meaning the gross collections of a special fee charged and collected from all students enrolled at the District's Abilene Educational Center for the use of facilities; (d) the out-of-district fees; (e) the operating fees for any charges for use of the District's facilities in addition to items (a) through (f); (f) the gross revenues from the Auxiliary Enterprise fund of the District; (g) earnings of the District on all investments lawfully available for this purpose; (h) all monies deposited to the District's revenue and interest and sinking funds for the purpose of the Bonds and all investment income derived from such deposits; (i) all monies deposited to the District's reserve fund for the purpose of the Bonds and all investment income derived from such deposits; (j) and any other income, receipts, or other resources permitted by law with the exception of any revenues appropriated by the State of Texas unless prior approval has been given by the Texas Higher Education Coordinating Board.

In February, 2013, the District entered into a capital lease agreement with Key Government Finance for a period of forty-eight (48) months for the acquisition of computer equipment. Terms of the lease were as follows: lease agreement dated February 1, 2013 payable in 48 monthly installments of \$637 at an annual imputed interest rate of 4.159%. Total capitalized cost of the lease totaled \$28,125.

In July, 2013, the District entered into a capital lease agreement with Key Government Finance for a period of forty-eight (48) months for the acquisition of computer equipment. Terms of the lease were as follows: lease agreement dated July 15, 2013 payable in 48 monthly installments of \$1,995 at an annual imputed interest rate of 3.19%. Total capitalized cost of the lease totaled \$89,770.

In November, 2014, the District entered into a capital lease agreement with First Financial Bank for a period of forty-eight (48) months for the acquisition of computer equipment. Terms of the lease were as follows: lease agreement dated November 20, 2014 payable in 48 monthly installments of \$3,880 at an annual imputed interest rate of 2.15%. Total capitalized cost of the lease totaled \$178,295.

5. Debt and Lease Obligations

Debt service requirements at August 31, 2016 were as follows:

| | Bonds Payable | | | | | |
|--------------------------|---------------|-----------|----|-----------|----|-----------|
| Year Ended August 31, | I | Principal | | Interest | | Total |
| 2016 | \$ | 615,000 | \$ | 247,647 | \$ | 862,647 |
| 2017 | | 635,000 | | 230,363 | | 865,363 |
| 2018 | | 650,000 | | 212,534 | | 862,534 |
| 2019 | | 670,000 | | 194,255 | | 864,255 |
| 2020 | | 685,000 | | 175,376 | | 860,376 |
| 2021-2025 | | 3,755,000 | | 556,105 | | 4,311,105 |
| 2026 | | 830,000 | | 30,562 | | 860,562 |
| | \$ | 7,840,000 | \$ | 1,646,842 | \$ | 9,486,842 |

As of August 31, 2016 and 2015, the District was in compliance with all material aspects of the bond indentures.

Obligations under capital leases at August 31, 2016 were as follows:

| Year ended August 31, | Total | | | |
|--|---------------|--|--|--|
| 2017 | \$ 72,320 | | | |
| 2018 | 46,558 | | | |
| 2019 | 11,639 | | | |
| Total minimum lease payments | 130,517 | | | |
| Less: incremental borrowing rate of interest | (2,974) | | | |
| Present value of minimum lease payments | \$ 127,543 | | | |

6. Operating Lease Commitments and Rental Agreement

On July 20, 2016 the District entered into an operating lease with Cisco Independent School District ("CISD") for use of CISD's community gym and football stadium. Terms of the lease were for a period of eleven (11) years beginning October 1, 2016 and continuing thereafter at an annual lease payment of \$30,000 in 2017 and \$35,000 thereafter. Following is the remaining lease liability:

| Year ended August 31, | Total | | | | |
|-----------------------|-------|---------|--|--|--|
| 2017 | \$ | 30,000 | | | |
| 2018 | | 35,000 | | | |
| 2019 | | 35,000 | | | |
| 2020 | | 35,000 | | | |
| 2021 | | 35,000 | | | |
| 2022-2026 | | 175,000 | | | |
| Thereafter | | 35,000 | | | |
| Total | \$ | 380,000 | | | |

7. Authorized Investments

The District is authorized to invest in obligations and instruments as defined in the Public Funds Act (Sec. 2256.001 Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute.

8. Deposits and Investments

Cash and Deposits include as reported on Exhibit 1, Statement of Net Position, consist of the items reported below:

| | Augu | August 31, 2016 | | gust 31, 2015 |
|---|-----------|-----------------|---------|---------------|

District Policies and Legal and Contractual Provisions Governing Deposits

<u>Custodial Credit Risk for Deposits</u> - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

<u>Foreign Currency Risk</u> - The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by not investing in any foreign currency.

District Policies and Legal and Contractual Provisions Governing Investments

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in compliance with the requirements of the Act and with local policies.

As of August 31, 2016, the District had the following investments and maturities.

| | | Investment Maturities (in years) | | | | | |
|-------------------------|---------------|----------------------------------|------------|-----------|-----------|--|--|
| Investment Type | Fair Value | Less than 1 Year | 1-2 Years | 2-3 Years | > 3 Years | | |
| Certificates of Deposit | \$ 700,000 | \$ 500,000 | \$ 150,000 | \$ 50,000 | | | |
| Money Market Deposits | 46,778 | 46,778 | | | | | |
| Investment Pools | 1,106,939 | 1,106,939 | | | | | |
| Total | \$ 1,853,717 | \$ 1,653,717 | \$ 150,000 | \$ 50,000 | | | |

Additional policies and contractual provisions governing deposits and investments for the District are specified below:

<u>Credit Risk</u> - To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments in certificates of deposit or publicly funded investment pools to the top ratings issued by nationally recognized statistical rating organizations (NRSROs). As of August 31, 2016, the District's investments in U.S. government securities and investment pools were rated A1 by Standard and Poor's.

<u>Custodial Credit Risk for Investments</u> - To limit the risk that, in the even of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the District and hand them over to the District or its designated agent. This included securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent.

Concentration of Credit Risk - To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District limits investments to less than 5% of its total investments. The District further limits investments in a single issuer when they would cause investment risk to be significantly greater in the governmental and business-type activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government. Usually this limitation is 20%.

<u>Interest Rate Risk</u> - To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires at least half of the investment portfolio to have maturities of less than one year on a weighted average maturity basis.

<u>Foreign Currency Risk for Investments</u> - The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by limiting all investments denominated in a foreign currency to zero.

9. Fair Value of Financial Instruments

If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to their fair value measurement of the instrument.

The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the government can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The fair value hierarchy of investments at August 31, 2016 follows:

| | | FY 2016 | | | | |
|-------------------------|--------------|---------|---------|--------------|--------------|--|
| | Level 1 | Level 2 | Level 3 | Total | Total | |
| Investment pools | \$ 1,106,939 | | | \$ 1,106,939 | \$ 1,099,666 | |
| Certificates of deposit | 700,000 | | | 700,000 | 701.579 | |
| Total | \$ 1,806,939 | | | \$ 1,806,939 | \$ 1,801,245 | |

10. <u>Derivatives</u>

None.

11. Property Taxes

Property taxes are levied on October 1 of each year based on the assessed value listed as of the prior January 1 for all real and business personal property located in the District.

At August 31:

| | FY 2016 | FY 2015 |
|--|----------------|-------------------|
| Assessed Valuation of the District | \$ 711,752,970 | \$ 620,256,762 |
| Less: Exemptions | (1,313,280) | (1,223,170) |
| Less: Abatements | | |
| Net Assessed Valuation of the District | \$ 710,439,690 | \$ 619,033,592 |

| | Year End August 31, 2016 | | | | | Y ear | Ena 1 | August 31 | , 201 | .5 | | |
|---|--------------------------|---------------------|----|--------------|-------|--------|-----------------------|-----------|-----------------|--------|-------|--------|
| | _ | Current erations | _ | ebt rvice | Total | | Current Operations | | Debt Service | | Total | |
| Tax Rate per \$100 valuation authorized | \$ | .5000 | \$ | .5000 | \$ | 1.000 | \$ | .5000 | \$ | .50000 | \$ | 1.0000 |
| Tax Rate per \$100 valuation assessed | \$ | .10844 | | N/A | \$ | .10844 | \$ | .11357 | | N/A | \$ | .11357 |

Taxes levied for the year ended August 31, 2016 and 2015 totaled \$770,401 and \$703,036, respectively. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

| | FY 2016 | |] | FY 2015 | |
|----------------------------------|---------|-----------|------------|---------|--|
| | (| Current | | Current | |
| Taxes Collected | О | perations | Operations | | |
| Current Taxes Collected | \$ | 761,136 | \$ | 695,187 | |
| Delinquent Taxes Collected | | 7,788 | | 7,846 | |
| Penalties and Interest Collected | | 6,323 | | 8,449 | |
| Total Collections | \$ | 775,247 | \$ | 711,482 | |

Tax collections for the year ended August 31, 2016 and 2015 were 99.81% and 100.00% of the current tax levies, respectively. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and operations or interest and sinking expenditures.

12. Employees' Retirement Plan

The State of Texas has joint contributory retirement plans for almost all its employees.

Teacher Retirement System

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the 2015 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2015.

| Net Pension Liability | <u>Total</u> |
|-----------------------------------|--------------------|
| Total Pension Liability | \$ 163,887,375,172 |
| Less: Plan Fiduciary Net Position | (128,538,706,212) |
| Net Pension Liability | \$ 35,348,668,960 |

Net Position as a percentage of Total Pension Liability

78.43%

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grand fathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

| Contribution Rates | S | |
|--|------|---------------|
| | 2015 | 2016 |
| Member | 6.7% | 7.2% |
| Non-Employer Contributing Entity (State) | 6.8% | 6.8% |
| Employers | 6.8% | 6.8% |
| | | |
| 2016 District Contributions | | \$ 237,735 |
| 2016 Member Contributions | | \$ 387,067 |
| 2015 NECE On-behalf Contributions | | \$ 124,001 |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees, and 100% of the state contribution rate for all other employees.

Actuarial Assumptions. The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

| Valuation Date | August 31, 2015 |
|--|-----------------------------|
| Actuarial Cost Method | Individual Entry Age Normal |
| Asset Valuation Method | Market Value |
| Single Discount Rate | 8.00% |
| Long-term expected Investment Rate of Return | 8.00% |
| Inflation | 2.5% |
| Salary Increases Including Inflation | 3.5% to 9.5% |
| Payroll Growth Rate | 2.5% |
| Benefit Changes During the Year | None |
| Ad hoc Post-Employment Benefit Changes | None |

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate. The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2015 are summarized below:

| Asset Class | Target Allocation | Real Return Geometric Basis | Long-Term Expected Portfolio Real Rate of Return* |
|-------------------------------|----------------------|--------------------------------|---|
| Global Equity | - I III o Guille II | Secure Duck | Tunto el Tunto |
| U.S. | 18% | 4.6% | 1.0% |
| Non-U.S. Developed | 13% | 5.1% | 0.8% |
| Emerging Markets | 9% | 5.9% | 0.7% |
| Directional Hedge Funds | 4% | 3.2% | 0.1% |
| Private Equity | 13% | 7.0% | 1.1% |
| Stable Value | | | |
| U.S. Treasuries | 11% | 0.0% | 0.1% |
| Absolute Return | 0% | 1.8% | 0.0% |
| Hedge Funds (Stable Value) | 4% | 3.0% | 0.1% |
| Cash | 1% | -0.2% | 0.0% |
| Real Return | | | |
| Global Inflation Linked Bonds | 3% | 0.9% | 0.0% |
| Real Assets | 16% | 5.1% | 1.1% |

| Commodities | 0% | 1.2% | 0.0% |
| Risk Parity | | | |
| Risk Parity | 5% | 6.7% | 0.3% |
| Inflation Expectations | | | 2.2% |
| Alpha | | | 1.0% |
| Total | 100% | _ | 8.7% |

^{*} The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 Net Pension Liability.

| | 1% Decrease in Discount Rate (7.0%) | Discount Rate (8.0%) | 1% Increase in Discount Rate (9.0%) |
|---|---|-------------------------|---|
| District's proportionate share of the net pension liability | \$ 4,280,517 | \$ 2,731,993 | \$ 1,442,168 |

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2015, the District reported a liability of \$2,731,993 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:.

| District's proportionate share of the collective net pension liability | \$ 2,731,993 |
|--|-----------------|
| State's proportionate share that is associated with the District | 1,479,871 |
| Total | \$ 4,211,864 |

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 thru August 31, 2015.

At August 31, 2015 the District's proportion of the collective net pension liability was 0.0077287% which was a decrease of 0.0010684% from its proportion measured as of August 31, 2014.

Changes Since the Prior Actuarial Valuation. The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Economic Assumptions

- 1. The inflation assumption was decreased from 3.00% to 2.50%.
- 2. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%
- 3. In accordance with the observed experience, there were small adjustments in the service-based promotional/longevity component of the salary scale.
- 4. The payroll growth assumption was lowered from 3.50% to 2.50%.

Mortality Assumptions

- 5. The post-employment mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- 6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
- 7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

- 8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
- 9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
- 10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
- 11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
- 12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

13. The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the measurement period August 31, 2015, the District recognized pension expense of \$210,858 and revenue of \$210,858 for support provided by the Sate in the Government-Wide Statement of Activities.

At August 31, 2015, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Οι | Deferred Outflows of Resources | | Deferred Inflows of Resources | |
|---|----|--------------------------------------|----|-------------------------------------|--|
| Difference between expected and actual economic experiences | \$ | 30,224 | \$ | 104,993 | |
| Changes in actuarial assumptions | | 127,030 | | 97,466 | |
| Differences between projected and actual investment earnings | | 134,177 | | | |
| Changes in proportion and differences between the District's contributions and the proportionate share of contributions | | | | 244,748 | |
| Total as of August 31, 2015 measurement date | \$ | 291,431 | \$ | 447,207 | |
| Contributions paid to TRS subsequent to the measurement date | | 237,735 | | | |
| Total as of August 31, 2016 fiscal year end | \$ | 529,166 | \$ | 447,207 | |

The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended August 31, | Pension Expense Amount | | |
|-----------------------|------------------------------|--|--|
| 2017 | \$ (55,294) | | |
| 2018 | \$ (55,294) | | |
| 2019 | \$ (55,293) | | |
| 2020 | \$ 124,258 | | |

Optional Retirement Plan - Defined Contribution Plan

Plan Description. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67 and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas legislature. The percentages of participant salaries currently contributed by the state and each participant are 6.6% and 6.6%, respectively. The District contributes 0.00% for employees who were participating in the optional retirement program prior to September 1, 1995.

Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program.

The retirement expense to the state for the District was \$147,911 and \$209,006 for fiscal years ended August 31, 2016 and 2015, respectively. This amount includes the portion of expended appropriations made by the state legislature on behalf of the District (totaling \$70,258 and \$99,278 for each fiscal year, respectively).

The total payroll for all District employees was \$8,473,577 and \$8,552,206 for fiscal years 2016 and 2015, respectively. The total payroll of employees covered by the Teacher Retirement System was \$5,374,211 and \$5,177,829, and the total payroll of employee covered by the Optional Retirement Program was \$2,241,075 and \$2,576,063 for fiscal years 2016 and 2015, respectively.

13. <u>Deferred Compensation Program</u>

The District employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. The plan is essentially an unfunded promise to pay by the employer to each of the plan participants.

14. Compensated Absences

Full-time employees earn annual leave from ten (10) days per year for 1-9 years of service to fifteen (15) days per year for 10+ years of service. The District's policy is that an employee may carry his accrued leave forward form one fiscal year to another fiscal year with maximum number of days up to the number of days earned in two years. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed. The District recognized the accrued liability for the unpaid annual leave in the amount of \$251,445 and \$275,266 at August 31, 2016 and 2015. Sick leave, which can be accumulated without limit, is earned at the rate of one day per month. It is paid to an employee who misses work because of illness or to the estate of an employee in the event of his/her death. The District's policy is to recognized the cost of sick leave when paid. The liability is not shown in the financial statements since experience indicated the expenditure for sick leave to be minimal.

15. Contract and Grant Awards

Contract and grant awards are accounted for in accordance with requirements of the AICPA Industry Audit Guide, *Audits of Colleges and Universities*. Revenues are recognized on Exhibit 2 and Schedule A. For federal contract and grant awards, funds expended, but not collected, are reported as Federal Receivables on Exhibit 1. Non-federal contract and grant awards for which funds are expended, but not collected, are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed, e.g., multi-year awards, or funds awarded during fiscal years 2016 and 2015 for which monies have not been received nor funds expended totaled \$0 and \$0. Of these amounts \$0 and \$0 were from Federal Contract and Grant Awards; \$0 and \$0 were from State Contract and Grant Awards; \$0 and \$0 were from Private Contract and Grant Awards for the fiscal years ended 2016 and 2015, respectively.

16. Health Care and Life Insurance Benefits

Certain health care and life insurance benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The state recognizes the cost of providing these benefits by expending the annual insurance premiums. The state's total contributions for the years ended August 31, 2016 and 2015 were \$1,232,662 and \$1,179,303, respectively. The cost of providing those benefits was \$1,164,589 and \$1,057,338 for retirees and active employees for fiscal years 2016 and 2015, respectively. The cost of providing those benefits for retirees is not separable from the cost of providing benefits for the active employees.

17. Postemployment Benefits Other Than Pensions

Plan Description. In addition to providing pension benefits, the state provides certain health care and life insurance benefits for retired employees. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the state. The District contributes to the State Retiree Health Plan (SRHP), a cost-sharing, multiple-employer, defined benefit post-employment healthcare plan administered by the ERS. SRHP provides medical benefits to retired employees of participating universities, community colleges, and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefit and contribution provisions of the SRHP are authorized by state law and may be amended by the Texas Legislature.

The ERS issues a publicly available financial report that includes financial statements and required supplementary information for SRHP. That report may be obtained from ERS via their website at http://www.ers.state.tx.us/.

Funding Policy. Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution.

The employer's share of the cost of retiree healthcare coverage for the current year is known as the implicit rate subsidy and is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS Board of Trustees sets the employer contribution rate based on the implicit rate subsidy, which is actuarially determined in accordance with the parameters of GASB Statement 45.

The employer contribution rate represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed 30 years.

Beginning September 1, 2013 SB 1812 limited the state's contribution to 50 percent of eligible employees for community colleges.

The District's contributions to SRHP for the years ended August 31, 2016 and 2015 were \$294,635 and \$269,276, respectively, which equaled the required contributions each year.

18. Group "Pooled Risk" Self-Insurance Pool

The District is a participant in the Community Colleges of Texas Insurance Association Self-Insurance Program (the "program"). The purpose of the program is to provide the statutory benefits for the members' employees through self-insurance workers' compensation prescribed by Texas Revised Civil Statutes Annotated Art. 8309h and Texas Government Code Ch. 791 (the "Interlocal Cooperation Act"). All fund members must be members of the Community Colleges of Texas Insurance Association.

The interlocal agreement between the District and the program is for a term beginning September 1, 2015, and ending August 31, 2016. Either party may terminate the agreement upon 60 days written notice.

The required contributions for each fund member is based on the prorated percentage of the members' gross payroll compared to the gross payroll of all fund members. The interlocal agreement states that members will have no joint and several liability beyond the loss fund maximum contribution payable.

The District's loss fund maximum for the period of the contract was \$49,748 and \$82,577 for the years ended August 31, 2016 and 2015, respectively, and stop loss protection up to a limit prescribed by law was purchased for losses above this amount. The board reserved the right in the interlocal agreement to adjust this stop loss provision in the event that the fiscal soundness of the fund would justify such an adjustment and/or result in savings to fund members. All claims are processed and paid by the District through the servicing contractor employed by the fund.

19. Potential Liabilities

The District had potential claims liabilities as a result of workers' compensation claims. Its claims administrator estimated that the total potential claims liability of the District amounted to \$49,748 and \$82,577 as of August 31, 2016 and 2015, respectively. Total claims paid to date as a result of the estimated claims liabilities were \$11,405 and \$17,915 for the same periods, respectively.

20. Income Taxes

The District is exempt from income taxes under Internal Revenue Code Section 115, <u>Income of States</u>, <u>Municipalities</u>, <u>Etc.</u>, although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511(a)(2)(B), <u>Imposition of Tax on Unrelated Business Income of Charitable</u>, <u>Etc. Organizations</u>. The District had no unrelated business income tax liability for the year ended August 31, 2016 and 2015.

21. <u>Disaggregation of Receivables and Payables Balances</u>

Receivables at August 31, 2016 and 2015 were as follows:

| | August 31, 201 | | Augi | ust 31, 2015 |
|--|----------------|-------------|---------|--------------|
| Taxes Receivable | \$ | 14,700 | \$ | 12,594 |

Note 3: Significant accounting policies used in preparing the schedule.

The expenditures included in the schedule are reported for the District's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds which have been expended by the District for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the schedule may differ from amounts used in the preparation of the general purpose financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The District has followed all applicable guidelines issued by various entities in the preparation of the schedule.

Note 4: Pass through amounts included in program expenditures:

None.

OVERALL COMPLIANCE AND INTERNAL CONTROLS SECTION

P. O. Box 163 Eastland, Texas 76448 (325)669-9795 cgulley@txol.net

Independent Auditor's Report

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH $GOVERNMENTAL\ AUDITING\ STANDARDS$

Board of Regents Cisco College District 101 College Heights Cisco, Texas 76437

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cisco College District (the "District") as of and for the years ended August 31, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued my report thereon dated November 10, 2016.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit, I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Cisco College District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements (including the *Public Funds Investment Act* Chapter 2256, Texas Government Code), noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or the *Public Funds Investment Act*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CISCO COLLEGE DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED AUGUST 31, 2016

| Finding | Statement of Condition | Material Weakness? | Questioned Costs |
|---------|------------------------|-----------------------|---------------------|
| | None reported. | | |

CISCO COLLEGE DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED AUGUST 31, 2016

A. Summary of Auditor's Results

An unmodified opinion was issued on the general purpose financial statements.

Internal control over financial reporting:

Material weaknesses identified – no.

Significant deficiencies identified that are not considered to be material weaknesses – none reported.

The audit disclosed no noncompliance which is material to the general purpose financial statements.

Internal control over major programs:

Material weaknesses identified - no.

Significant deficiencies identified that are not considered to be material weaknesses – none reported.

An unmodified opinion was issued on compliance for major programs.

The audit disclosed no audit findings which are required to be reported in this schedule under OMB Circular A-133.

Major programs are as follows:

| 84.063 - Federal Pell Grant Program | \$ 5,051,107 |
|---|--------------|
| 84.033 - Federal Work-Study Program | 86,899 |
| 84.007 - Federal Supplemental Educational Opportunity Grant | 70,700 |
| 84.032 - Federal Family Education Loans | 3,239,042 |
| Total Student Financial Aid Clustered Programs | \$ 8,447,748 |

The threshold used to distinguish between Type A and Type B federal programs was \$750,000.

The District was classified as a low-risk auditee in the context of OMB Circular A-133.

B. <u>Findings Relating to the Financial Statements which are Required to be Reported in Accordance with Generally Accepted Government Auditing Standards</u>

None reported.

C. Findings and Questioned Costs for Federal Awards

None reported.

CISCO COLLEGE DISTRICT CORRECTIVE ACTION PLAN FOR THE YEAR ENDED AUGUST 31, 2016

None required.

FEDERAL AWARDS SECTION

Independent Auditor's Report

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Regents Cisco College District 101 College Heights Cisco, Texas 76437

Report on Compliance for Each Major Federal Program

I have audited Cisco College District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Cisco College District's major federal programs for the year ended August 31, 2016. Cisco College District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of Cisco College District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Cisco College District's compliance with those requirements and performing such other procedures as I consider necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of Cisco College District's compliance.

Opinion on Each Major Federal Program

In my opinion, Cisco College District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2016.

Report on Internal Control Over Compliance

Management of Cisco College District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered Cisco College District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Cisco College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

I have audited the financial statements of Cisco College District as of and for the year ended August 31, 2016, and have issued my report thereon dated November 10, 2016, which contained an unmodified opinion on those financial statements. My audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.
