INDEPENDENT AUDITOR'S REPORT

The Board of Trustees EI Paso County Community College District El Paso, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of El Paso County Community College District (the "College") as of and for the years ended August 31, 2016 and 2015 and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opm10n on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in G01; ernment Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of El Paso County Community College District, as of August 31, 2016 and 2015, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information on pages I - XII and the Schedule of Employer's Share of Net Pension Liability and Schedule of College's Contributions on pages 37-39 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opmwns on the financial statements that collectively comprise the EI Paso County Community College District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards and Schedule of Expenditures of State Awards are presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and* the State of Texas Single Audit Circular, and are not a required part of the basic financial statements.

Additionally, the accompanying Schedule of Operating Revenues, Schedule of Operating Expenses by Object, Schedule of Non-Operating Revenues and Expenses, and Schedule of Net Position by Source and Availability and statistical section, also are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, Schedule of Expenditures of State Awards, Schedule of Operating Revenues, Schedule of Operating Expenses by Object, Schedule of Non-Operating Revenues and Expenses, and Schedule of Net Position by Source and Availability are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of

Federal Awards, Schedule of Expenditures of State Awards, Schedule of Operating Revenues, Schedule of Operating Expenses by Object, Schedule of Non-Operating Revenues and Expenses, and Schedule of Net Position by Source and Availability are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

ena Brienes Mc Daniel + Co

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2016, on our consideration of the El Paso County Community College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing S tandards* in considering the El Paso County Community College District's internal control over financial reporting and compliance.

El Paso, Texas

December 18, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of El Paso County Community College District's (College's) annual financial statements, prepared by the financial managers of the College, provides an overview of the College's financial operations for the years ended August 31, 2016 and 2015. This section is designed to assist the reader in the interpretation of the financial statements and should be read in conjunction with the disclosure notes that accompany the basic financial statements. Responsibility for the completeness and fairness of the information rests with the management of the College.

OVERVIEW OF FINANCIA L STATEM ENTS

The financial statements are prepared in accordance with the GASB Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments and Statement No. "Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities." The College is reported as a special-purpose government engaged in business-type activities and uses the accrual method of accounting, which means that revenue is recognized when earned, and expenses are recorded when incurred regardless of when cash is received or paid. The core financial statements required by GASB 34 as amended by GASB 63 are the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. Effective fiscal year ending August 31, 2014, GASE Statement No. 65, Items Previously Reported as Assets and Liabilities, was implemented to reflect certain items that were previously reported as assets and liabilities to be now reported as deferred outflows and inflows of resources. In addition, this statement requires that debt issuance costs be expensed in the year they are incurred.

Statement of Net Position

The purpose of the Statement of Net Position is to report at a point in time the total net assets available to finance future services, and to give the reader a snapshot of the financial condition of El Paso County Community College District (EPCCCD). According to GASE 34, the classification of the components of the Statement of Net Position is as follows:

Current Assets: assets available to satisfy current liabilities.

Long-term Assets: include capital assets and other assets not classified as current.

Deferred Outflows of Resources: include consumption of resources applicable to a future period.

Current Liabilities: include obligations due within one year.

Long-term Liabilities: include bonds payable and other long-term commitments.

Deferred Inflows of Resources: include acquisitions of resources applicable to a future period.

Net Position: difference between assets and deferred outflows versus liabilities and

deferred inflows is presented in three categories as follows:

- Net Investment in Capital Assets represents the College's net investment in property, plant and equipment net of accumulated depreciation and amortization on the assets and the related outstanding debt used to construct, purchase or renovate them.
- Restricted Net Position is classified as expendable (available for expenditure in accorda nce with the restrictions of donors and other external entities) and nonexpendable (perma nent endowment corpus only available for investment purposes).
- Un restricted Net Position is available for any lawful purpose of the College's and
 maintained to ensure sufficient reserve funds for long-term via bility of the
 District.

Statement of Revenues, Expenses and Changes in Net Position

The intent of the Statement of Revenues, Expenses and Changes in Net Position is to report the burden of the government's functions on non-operating (general) revenues, defined as the amount of the functions that are not supported by charges to users (GASB 34, Par. 38). The statement is divided into Operating Revenues and Expenses, and Non-Operating Revenues and Expenses. Operating revenues are generated from the services provided to students and other customers of the District and represent an exchange for services. Operating expenses are incurred in the production of goods and services that result in operating revenues. Property taxes, state appropriations and Title IV funds represent non-exchange transactions and thus classified under Non-Operating Revenues, which means that Texas community colleges will generally report an operating deficit before taking into account other support. Therefore, revenue and expenses should be considered in total when assessing the change in the College's financial position.

Statement of Cash Flows

The primary purpose of the Statement of Cash Flows is to provide relevant information about the cash receipts and cash payments of the College during the fiscal period. This statement is intended to complement the accrual-basis financial statements by providing functional information about financing, capital and investing activities and reports the effects of the College's operations, capital and non-capital financing transactions, and investing transactions on the College's financial position. This statement also helps users to determine the entity's ability to meet its obligations as they come due and the potential need for external financing. The final portion of the statement reconciles the net income or loss from operations to be provided or used by operations. The statement is structured as follows:

Cash flows from operating activities Cash flows from noncapital financing activities Cash flows from capital financing activities Cash flows from investing activities

CONDENSED COMPARATIVE FINANCIAL INFORMATION

To show the trends for the two years shown in the Statement of Net Position (Exhibit 1), a summary of three years of data for the years ended August 31, 2014 through 2016 is presented below:

Condensed Statement of Net Position

(Jn Millions)

	August 31						Change

Total Net Position		144.3		132.5		143.5		11.8		(11.0)	

Total Assets increased by \$13.8 million from fiscal year 2015 to fiscal year 2016 as compared to \$5.9 million in the previous fiscal year. The following analysis describes this increase by asset category.

As a major component of the Statement of Net Position, Cash and Investments increased from fiscal year 2015 by \$9.5 million. This amount mostly represents the net of the following activities:

Net Cash used in operating activities decreased by \$6.4 million from fiscal year 2015 mostly related to the student enroll ment decline experienced during both fall and spring semesters, which is reflected in the \$5.9 million in Payments of scholarships. Receipts from students and other customers increased by \$3.9 million over 2015 due to a combination of factors: tuition and fees collected in August for fall 2016 reflect the tuition increase approved by the Board along with the increase in fall enroll ment. Payments to or on behalf of employees increased by \$2.4 million due to the implementation of the compensation study that provided for a 2% salary increase for all full-time employees as well as salary adjustments based on market study of salaries and longevity in position by in cumbents. Payment to suppliers for goods and services remained flat, which reflects good budgetary practices in expending public funds.

Net Cash provided by noncapital financing activities decreased by \$3.0 million due the following combination of factors: due to statewide enrollment decline, the 84th Legislature appropriated less formula and benefits fund ing for community colleges, resulting in an overall decrease in state appropriations of \$1.7 million over fiscal year 2015; ad valorem taxes increased by \$3.4 million due to the 4% increase of the effective tax rate applied to a growing tax base; the decrease of \$5.2 million in non-operating federal revenue is related to the drop in Pell awards due to the decrease in student enrollment.

Finally, Net cash provided by investing activities increased by \$150,000 due to additional investment earnings related to higher yield earned on bank deposits.

Other Assets increased by \$2.6 million mostly due to the combination of the following factors: increase in Notes Receivables of \$1.1 million for more loans granted to students; and increase in prepaid charges of \$1.1 million related to the fall 2016 tuition increase reflected in Pell awards disbursed in August.

Capital Assets increased by \$1.7 million due to the capitalization of ongoing capital projects and the purchase of equipment and library books offset by (1) the disposition of capital assets through the annual public sale and (2) depreciation expense.

When comparing fiscal years 2015 and 2014, total assets increased by \$5.9 million due to a combination of (1) increase in Cash of \$5.9 million, (2) decrease in Other Assets of \$1.9 million and (3) increase of \$1.9 million in Capital Assets.

As required with the implementation of GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68), deferred outflows of resources totaling \$3.6 million is being recorded for the Fiscal Years ended August 31, 2016 and 2015. Deferred outflows represent retirement contributions made by the District that will benefit employees in the future but are not considered assets.

Total liabilities increased from the prior year by \$5.7 million, the combination of \$6.4 million increase and \$.7 million decrease in Current Liabilities and Long-Term Liabilities, respectively. The increase in Current Liabilities is related to (1) the increase in Accounts Payable due to current construction and the increase in U nearned Reven ue related to fall 2016 to the increase in August 2016. These increases were offset by a decrease in Funds held for others due to the decrease in direct loans to students as a result of enrollment decline during the 2016 fiscal year. The \$.7 million net decrease in Long-Term Liabilities is mostly related to the following: Net Pension Liability was increased by \$3.7 million to reflect the District's proportionate share of the statewide pension liability in compliance with GASB Statement 68. This increase was offset by the combined decrease of \$4.5 million in Bonds Payable and Notes Payable for annual debt service payment to bondholders and to the State Comptroller's office for the energy efficiency project completed in fiscal year 2009. Further information regarding long-term liabilities is shown in Notes 2, 6, 7, 8 and 9 to the Financial Statements. See Note 11 regarding pension liability.

As required with the implementation of GASB 68, deferred inflows of resources of \$2.4 million are being recorded for the fiscal year ended August 31, 2016 as compared to \$6.1 million in fiscal year 2015. This reflects the variance that can occur as a result of the investment market. In this context, deferred inflows represent the District's proportionate share for the net difference between projected and actual investment earnings at the plan level the District may owe to the retirement fund in the future, but is not considered a liability.

When comparing total liabilities between fiscal years 2015 and 2014, the increase of \$14.4 million is attributable to the increase in long-term liabilities mostly due to the implementation of GASB Statement 68 with the recording of \$19.8 million as the District's proportionate share of the statewide pension liability. This was offset by the decrease in Bonds and Notes Payable for the payment of principal and interest on the outstanding bonds and the notes to the State Comptroller's Office.

Notwithstandi ng the ongoing impact of GASB 68, the College experienced an overall increase in Net Position of \$11.8 million, which represents a healthy increase for the College in light of the fiscal challenges caused by the enrollment decline during the fiscal year. This increase is a combination of the increases and decreases in the various components of net position: the increase in Net Investment in Capital Assets of \$5.8 million is mostly attributable to the renovation of current facilities and the construction in progress of the Architectu re Building; Restricted Net Position decreased by \$1 million mostly due to expended funds earmarked for construction and renovation of facilities; the increase in the U nrestricted Net Position of \$7.1 million is attributable to u n used reserves, prudent budgeting and cost containment measu res while experiencing the student enrollment decline, which generated staff and faculty salary savings. The previous year decrease in Net Position of \$15.9 million represents the net of the cumulative effect of \$22.4 million associated with the implementation of GASB Statement 68 and the increase of \$6.S million as a result of operations.

Increase in Net Position is affected by the revenues generated and the expenses incurred by the College. The following condensed financial information shows total revenues and expenses for fiscal years 2016, 2015 and 2014:

Total operating revenues increased by \$2.6 million as compared to the \$.4 million in the previous fiscal year mostly due to Tuition and Fees (net of discounts) that increased by \$2.8 million and decreased by \$.5 million in Fiscal Years 2016 and 2015, respectively. Additional revenue was generated in 2016 as a result of the tuition rate and general use fee increases approved by the Board of Trustees effective for the fall of 2015. Also factored in this increase was a modest enrollment decline also reflected in the previous year's decrease in tuition revenue which is attributed to a stronger economy with record lows of local unemployment rates. Revenue from Federal, State, and Local grants and contracts remained stable by sustaining the previous year's increase of \$.7 million, mostly attributable to the Texas Workforce Commission Skill Development Funds for the IT Veterans Initiative and Sun Towers/Vista Hills programs. Auxiliary Revenue increased by \$200,000 as a result of vendor commissions. Other operating revenues had a decrease of \$.4 million due to a decrease in workforce training as compared to the increase of \$.3 million in 2015 related to customized training by the Advanced Technology Center.

Total operating expenses decreased by a net of \$.5 million due to a combination of factors: the decrease of \$5.9 million in Scholarships and Fellowships due to enrollment decline was offset by increases in most elements of costs attributable to the implementation of the compensation study for all eligible employees. The recommendations for salary adjustments included a 2% cost of living increase for all full-time employees as well as salary adjustments to individual employees based on market and longevity in the position and at the College. Embedded in those increases are the salary savings generated by vacant positions in the respective elements of costs offset by increases in equipment purchases for Instruction and Institutional Support as well as an overall increase in benefit costs. Auxiliary Enterprises increased by a modest \$.1 million over the 2015 fiscal year, which reflects a normal spending pattern for Auxiliary Services. It is important to note that the 84th Legislature held in spring 2015 implemented a rider attached to Senate Bill 1812 that had codified the funding for health insurance and retirement benefits at a 50% cost share between the State of Texas and the community colleges. This rider reduced funding effective the 2016-17 Biennium for all community colleges who experienced an enrollment decline during the base year. This resulted in the College being funded for benefits at 45% instead of 50%.

Depreciation expense at \$4.7 m illion increased by \$200,000 over both FY 2015 and 2014 due to additional capital outlay in 2016. Information regarding policies for depreciation is disclosed in the Notes to the Financial Statements.

When comparing fiscal year 2015 to fiscal year 2014, total operating expenses increased by \$1.7 million due to a combination of factors: except for Scholarsh ips and Fellowships that decreased \$1.0 million due to the decline in student enrollment associated with the economic recovery, all elements of costs either remained comparable to the previous fiscal year or increased slightly due to the 2% salary increase approved by the Board of Trustees for all faculty and staff offset by a decrease in adjunct faculty salaries due to prudent enrollment management. Embedded in those modest increases were the salary savings generated by vacant positions in the respective elements of costs offset by increases in equipment purchases for Instruction and Academic Support. Auxiliary Enterprises decreased by \$.1 million which reflects a normal spending pattern for Auxiliary Services.

Non-Opera ting Revenues and Expenses are comprised of State Appropriations, Maintena nce Ad-Valorem Taxes, and Federal Revenues that now include Pell Grant receipts as non-operating revenue. Non-Operating Revenues also include Other State Revenue to account for state student aid.

Non-Operating Revenues decreased by \$2.7 million from fiscal year 2015 as compared to the modest increase of \$.8 million from fiscal year 2014 to 2015.

Fiscal year ending August 31, 2016 represented the first year of the 16-17 bienniu m du ring which the 84th Legislatu re passed HB1, the General Appropriations Acts, which allocated funding to community colleges based on the following pattern approved for community colleges during the 83rd Legislature: (1) core operations, (2) student success points and (3) traditional contact hour formula. However, due to statewide enrollment declines related to a stronger economy, the final funding outcome resulted in a formula funding decrease for many colleges at a cost of \$1.6 million for the District, offset by an increase in health insurance funding due to premium increases. In addition, the Legislature applied a stipulation of Senate Bill 1812 that codified a cost share agreement of 50% for both health insurance and retirement benefits unless there is a decline in student enrollment. The HB IConference Committee adopted a stepped hold harmless for employee benefits based on the decline in enrollment at each college district, which resulted in EPCC being funded for benefits at 45% instead of 50%. In contrasting funding with fiscal year 2014, the College experienced a negative swing in revenues of \$4.4 million, which was absorbed with the Board of Trustees approving a tuition increase and a tax increase to balance the 2015/2016 budget in concert with cost containment measures.

Revenue from Ad-Valorem taxes increased by \$3.6 million due to (1) the 4% tax rate increase approved by the Board of Trustees, and (2) additional revenue from new property added to the 2015 tax rolls. In fiscal year 2015, tax revenue increased by \$2.2 million due to (1) additional revenue from new property added to the 2014 tax roll and (2) an Effective Tax Rate higher than the 2013 tax rate generated by a decreased taxable assessed valuation due to large refunds. Tax revenue for fiscal year 2016 is based on the tax rate of \$.133811 per \$100 valuation, which still represents the lowest tax rate of all major taxing entities in the El Paso County.

Included in the \$2.7 million decrease in Non-Opera ting Revenue is the decrease in Federal Revenue of \$5.2 million, as compared to the decrease of \$2.0 million in 2015, mostly due to the decrease in Pell Grant awards as a result of continuing decline in student enrollment during fiscal year 2016. This enrollment decrease is attributable to (1) a notable improvement in the El Paso economy also experienced throughout the State of Texas, and (2) the change in eligibility criteria for the Pell grant. A strategic enrollment task force has been created to address this unusual enrollment decline and has developed strategies to identify and reach all populations of the serving area. In addition, student success initiatives continue to focus on identifying at-risk students to promote retention and a college-going culture. These efforts have contributed to reversing the enrollment decline trend starting with Fall 2015 and continuing during Fall 2016.

In fiscal year 2016, the College changed depository bank and also diversified investment pools by adding TexasDaily as a second investment pool option. Also, in December 2015, the Federal Reserve raised the Fed Funds rate by 25 basis points, which had an immediate impact on short-term investment rates that rose considerably higher than the previous year. The College continued to use the bank's Earnings Cred it Rate to earn interest that offset bank service charges at a rate higher than other available investment options. As a result, Interest Income for the year exceeded the budget by over 249%. Additionally, with an annual average yield on investments of .3234% for the year, the benchmark (annual average 13-week T-Bill rate of .2289%) was exceeded in compliance with the College's Investments Policy. With the hope that the economy continues to improve, the College has budgeted conservatively for interest income.

Description of significant capital asset and long-term debt activity

As the College continues to grow, the administration has completed the District-Wide Master Plan to address capital improvement needs and student growth at its five main campuses for the next ten years, and to plan for the upcoming new campus on Fort Bliss military base property. The renovation of the Student Services Building was completed to accommodate student services functions to include the welcomed relocation of the Police Department. Also completed during the fiscal year was the new Student Union at the Transmountain Campus. Projects currently in progress include the Architecture building that will relocate the 2+2 architectural joint program with Texas Tech University currently housed in Building A of the Administrative Service Center. Construction of the College's sixth campus on Fort Bliss is planned for the second phase of the Master Plan approved by the Board of Trustees. All facilities construction, renovation and improvements will be financed by a combination of funds coming from revenue bond proceeds, grant funds and plant fund reserves.

To accommodate increased enrollment since 1994, the District initiated a financial plan and has since then issued \$137,900,000 in Revenue Bonds, part of which refinanced the 1994, 1995, 1996, 1997, 1997B, 1998, 1999 and 2001 bond issues. The defeasance of the Building Use Fee and Tuition Refunding Revenue Bonds Series 1993 outstanding balance of \$1,750,000 in October 2003 resulted in saving the College approximately \$220,000 in interest payments.

In January 2007, the District issued the Fee Revenue Building and Refunding Bonds in the amount of \$66,280,000 that accomplished (1) the refunding of \$37 million of current debt with expected present value savings of \$1.9 million and (2) generating additional funds of \$31.6 million for renovation and new construction. The refunding of some of the current debt created additional debt capacity for the District to issue additional revenue bonds at no additional cost to the student or the taxpayer. All bond debt is currently covered by the general use fee of \$20 per credit hour, just increased from \$16 per credit hour, and the tuition transfer of \$15 per student in the fall and spring semesters and \$7.50 per student for the summer sessions. The Board of Trustees approved an incremental increase to the general use fee from the \$10 per credit hour that had been in effect since 2000 as part of the 1994 financing plan, to \$13 effective Spring 2015, then to \$15 effective Fall 2015 and finally to \$16 effective Fall 2016. During the evaluation of the District Master Plan, the Board approved an additional increase of \$4 to the adopted General Use Fee of \$16, thereby creating additional revenue stream to fund the issuance of additional revenue bonds that will finance the approved phases of the District-wide Master Plan.

On Au gust 13, 2003, Fitch Ratings issued a press release announcing the upgrade of El Paso Community College credit rating from "A-" to "A." The rating revision upwards reflected the College's positive financial performance, growing enrollment, and favorable area demographics and market position. Also considered in the rating were the operational and financial pressures stemming from increasing enrollment and reductions in state funding and above average, although manageable, debt load. On June 17, 2013, this "A" rating was reaffirmed as an "A+" rating with a stable outlook supported by sound financial management practices and operating results, and an increasingly diverse revenue base.

On June 15, 2015, Fitch Ratings affirmed the "A+" rating with a positive outlook citing strong financial performance, sound market position and manageable debt burden as key drivers for the rating's positive outlook. Fitch subscribers can see the complete report at w_yyyyv . fitch research.com.

On December 21, 2006, Moody's Investors Service issued a press release announcing the upgrade of the College's rating from "AZ" to "Al" with a stable outlook. The upgrade was based on the College's rapidly growing tax base caused by healthy growth in the local economy, increasing enrollment, strong operating performance and a manageable debt profile. On Au gust 6, 2009, Moody's reaffirmed the College District's "Al" long-term rating of \$69.2 million with a stable outlook that reflects Moody's expectation that the District will continue to generate positive operating margins, main tain or modestly increase enrollment, and generate sufficient coverage of debt service from pledged revenues.

On November 15,2012, Moody's affirmed the College's rating as Aa3 with a stable outlook. Moody's outlook reflects that the College will maintain a stable and growing enrollment along with stable to modera te revenue growth from tax revenues and tuition increases, as state appropriations are likely to decrease. Although the construction of a new campus will create additional debt, Moody's expects that the debt burden will be manageable given the current levels of operations and financial resources.

On October 9, 2013, Moody's affirmed the College's rating of Aa3 but revised its outlook as negative as a result of the College being placed on warning by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). Although the College is still accredited, reaffirmation was denied during the October 2012 decennial review by SACSCOC. According to the SACSCOC Board of Trustees, the College failed to demonstrate compliance with Core Requirement 2.8 (faculty), and Comprehensive Standards 3.3.1.1 and 3.3.1.2 (Institutional Effectiveness: educational programs and administrative support services).

In June 2014, the College was reaffirmed as a result of the review by SACSCOC of the First Monitoring Report submitted by the College in April 2014, which demonstrated that the College addressed all issues. Upon reaffirmation, Moody's revised the Aa3 rating outlook to stable, and confirmed the College's stable market position as education provider for the region, with consistent positive operating performance and favorable revenue diversity. The report can be found at www.moodys.com.

On March 15, 2011, Standard & Poor's issued a press release upgrading its underlying rating of "A" to "A+" on the College's Series 2001 Combined Fee Revenue Building and Refunding Bonds with a stable outlook. This outlook reflected the College's essential role as the only community college in the El Paso area; good revenue diversity from tuition, property taxes and state appropriations; and history of consistently positive financial operations. The rating also cited significant growth pressures, limited revenue flexibility, moderate debt burden, and recent instability in state appropriations as challenges for the College. However, Standard & Poor's expectation is that the District will continue to sustain balanced operating results with stable enrollment and overall district financial resources as long as it can manage the potential significant cuts in state appropriations and issue additional revenue debt with the commensurate increase in financial resources or revenue.

On March 13, 2014, Standard & Poor's issued a press release affirming its "A+" underlying rating on the same issue as above with a stable outlook. This rating reflected their view of the district's consistently positive operating surpluses, tax base growth, good revenue diversity and the College's essential role as the only community college in the area.

Additional information on both capital assets and long-term debt can be found in Notes 5, 6, 7 and 8 of the Notes to the Financial Statements

Economic Outlook

The economic outlook for the State of Texas appears optimistic for the upcoming biennium, and El Paso Community College is preparing for the 85th Legislature accordingly by focusing not only on increasing student enrollment, but also on student success as it is the College's mission to educate its community to prepare them not only for graduation and gainful employment but also for transfer to 4-year universities. Due to the much improved state and local economy, most Texas community colleges experienced enrollment declines, which jeopardized additional funding from the State of Texas during the 84th Legislature. In preparing for the 85th Legislature, Governor Abbott informed all states agencies of a potential 4% decrease in state funding for the 2018-2019 Biennium. This prompted the college administration to plan accordingly and establish budget strategies for both 2017 and 2018 fiscal years. As part of that budget planning, the Board of Trustees approved a 2-year tuition plan that set the tuition rate for the next two-years that aim to accompl ish (1) predictable tuition costs for students that encourage them to graduate with in two years, and (2) an additional stream of revenue that was set aside

MANAGEM ENT'S DISCUSSION AND ANALYSIS

as a reserve to deal with the potential decrease in state funding. As enrollment and student success are add ressed through its established Enrollment Task Force along with the various student success initiatives, the College is already experiencing a recovery in enrollment starting with the current fiscal year and hopes to fare better in funding from the upcoming legislative session.

In spite of tuition and tax rate increases over the last three legislative sessions to offset decreased state funding for student enrollment and employee benefits, the College has the lowest tuition rate in the region and the lowest tax rate of all major taxing entities of the El Paso County while still maintaining quantity and quality of service to its student population. This demonstrates the College's ability and flexibility for generating additional revenue, should state funding continue to be insufficient to fund its operations and innovative programs.

In December 2014, the firm of EMSI issued a report summarizing the results of a study documented in "Demonstrating the Economic Value of El Paso Community College" during fiscal year 2012/2013, and detailing the role that the College plays in promoting economic growth, enhancing students' careers, and improving quality oflife. The main highlights of this study for the College are as follows:

- Due to El Paso Community College (EPCC) operations and capital spending, the local economy receives roughly \$155.5 million in annual regional income.
- EPCC activities encourage new business, assist existing business and create long-term economic
 growth. The College enhances worker skills and provides customized training to local business
 and industry. Past and present skills acquired by EPCC students increase regional income by
 \$860.6 million.
- Overall impact on the local business community is over \$1.0 billion or approximately 3.9% of the region's Gross Regional Product.
- Related to students earning potential, studies demonstrate that education increases lifeti me earnings. The average annual income of a student with an Associate Degree at the midpoint of his or her career is \$35,400 or 36% more than someone with a high school diploma. Over the course of a working lifetime, associate's degree graduates in the College service area earn \$368,187 more than someone with a high school diploma. The present value of the higher future wages earned by EPCC students over their working careers is \$1.1 billion. As a result of their attending EPCC, students enjoy an attractive 14.3% annual rate of return on their EPCC educational investment.
- EPCC students remaining in Texas and entering the workforce enhance the economic growth and expand the economic base. Higher student wages and increased business output contribute added present value income of \$5.7 billion.
- EPCC generates a return on public investment, as taxpayers will see a return of \$5.00 for every dollar appropriated by state and local governments to support the College, or an annual rate of return of 13.4% on their investment in EPCC.
- Most importantly, the state and local community will see \$111.2 million worth of social savings associated with improved health, reduced crime, and less welfare and unemployment claims as long as students stay in the workforce.

The above study demonstrates that El Paso Community College plays a critical role in its service area by stimulating the state and local economy, leveraging taxpayer dollars, generating a return on government investment, increasing students' earning potential and certainly contributing to a health ier and more prosperous society.

In addition to its current role, the College may face additional demand from the growth at Fort Bliss, the Army's second largest installation. Fort Bliss currently hosts more than 34,000 active military personnel, over 44,800 family members and employs nearly 10,800 civilians with a \$1.7 billion impact on the El Paso community. As a designated military friendly school recognized by Victory Media, El Paso Community College prides itself in recognizing and embracing A merica's military service members, veterans and spouses as students to ensure their success on campus, and therefore is gearing up for the challenges of providing educational services to the Fort Bliss community by addressing its facility needs with the construction of its sixth campus in conjunction with the planning of the projects identified by the District Master Plan.

In summary, notwithstanding the impact of military growth in the El Paso area, the current recovery in the state and local economy, and the trends for enrollment growth, El Paso Community College is not aware of any currently known facts, decisions, or conditions that would have a significant effect on the financial position or results of operations during this fiscal year. The College's overall financial position is stable and demonstrated by its ability to generate consistent increases in net position through the efficient and effective use of its resources. The College will continue to monitor those resources to maintain its ability to react to changes from internal and external forces.

NOTES FINANCIAL STATEMENTS AUGUST 31,2016

1. REPORTING ENTITY

El Paso County Community College District (the "College"), was established in 1969, in accordance with the laws of the State of Texas, to serve the educational needs of El Paso and the surrounding communities. The College is an unincorporated taxing entity governed by an elected seven-member board of trustees. The College is considered to be a special purpose, primary government according to the definition in Governmental Accounting Standards Board ("GASB") Statement No. 14. While the College receives funding from local, state, and federal sources, and must comply with the spending, reporting, and recordkeeping requirements of these entities, it is not a component unit of any other governmental entity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING

POLICIES Report Guidelines

The significant accounting policies followed by the College in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and J1111 ior Colleges*.

Tuition Discounting

Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code § 56.033). When the award for tuition is used by the student, the amount is recorded as tuition and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV HEA Program Funds

Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the student is awarded and uses these funds for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts

The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as tuition and fee revenue and a corresponding amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Basis of Accounting

The financial statements of the College have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

NOTES FINANCIAL STATEMENTS AUGUST 31,2016

2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

Basis of Accounting (Continued)

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget.

Budgetary Data

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Trustees adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

New Accounting Pronouncements

The accompanying financial statements were prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

GASB Statement No. 72, Fair Value Measurement and Applications, was issued February 2015 and is effective for fiscal years beginning after June 15, 2015. This statement addresses accounting and financial reporting issues related to fair value measurements. This statement provides guidance for determining a fair value measurement for financial reporting purposes, applying fair value to certain investments and disclosures related to all fair value measurements.

GASB Statement No. 73, Accounting and Financial Reporting for Pensious and Related Assets that are not within Scope of GASB Statement 68, and Amendments to Certain Provisions for GASB Statements 67 and 68. This statement will improve financial reporting by establishing a single framework for the presentation of information about pensions, which will enhance the comparability of pension-related information reported by employers and non-employer contributing entities.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, was issued June 2015 and is effective for fiscal years beginning after June 15, 2015. This statement identifies the hierarchy of the sources of accounting principles used to prepare financial statements in conformity with GAAP and the framework for selecting those principles.

Prior Year Restatement

For the year ended August 31, 2015, the College implemented the provisions of GASB Statement 68, Accounting and Financial Reporting for Pensions, as amended by GASB Statement 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined based on the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability: deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, and liabilities and additions to/ded uctions from TRS's fiduciary net position. Benefits payments (including refunds of employee contributions) are recognized when due and payable, in accordance with the benefits terms. Investments are reported at fair value.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Contin

ued) Prior Year Restatement (Continued)

In the year of implementation of GASB Statement 68, as amended by GASB Statement 71, a restatement to beginning net position will be required for the recording of the beginning net pension liability and for the recording of deferred outflow of resources for contributions made after measurement date of the beginning net pension liability and the beginning of the reporting College's fiscal year.

Beginning net position, as restated, September 1,2014	\$ 121,159,637
Deferred outflows - college contributions made during FY 2014	 1,878,911
Net pension liability (measurement date as of August 31, 2014)	(24,308,005)
Prior period adjustment- implementation of GASB 68:	
Beginning net position, September 1,2014	\$ 143,588,731

Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The College pools most of its cash into one bank account. Pooled investments consist of cash in interest bearing accounts and repurchase agreements. The College considers cash equivalents to be all highly liquid deposits with original maturities of three months or less. The governing board has designated public funds investment pools comprised of \$95,727,502 and \$77,896,840 to be cash equivalents at August 31, 2016 and 2015, respectively. Additionally, included in cash and cash equivalents at August 31, 2016 and 2015, are \$0 and \$750,307, respectively, in repurchase agreements.

Cash and cash equivalents that are externally restricted as to their use are classified as noncurrent assets in the Statement of Position, unless they are considered to offset maturing debt and payables that have been set up as a current liability; in that case, they are presented as current assets in the Statement of Position.

Investments

In accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and External Investment Pools, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase. The College had no short-term or long-term investments at August 31, 2016 and 2015.

Authorized Investments

The Board of Trustees of the College has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act (Section 2256.001), Texas Government Code. Such investments include 1) obligations of the United States or its agencies, 2) direct obligations of the State of Texas or its agencies, 3) obligations of political subdivisions rated not less than "A" by a national investment rating firm, 4) certificates of deposit, and 5) other instruments and obligations authorized by statute. The CoJlege's investments are carried at fair value.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued) Authorized Investments (Continues)

For the years ended August 31, 2016 and 2015, management of the College believes that they have substantially complied with the provisions of the Public Funds Investment Act and the College's investment policy.

Allowances for Doubtful Accounts and Loans

Allowances for doubtful accounts and loans are established through charges to current year expenditures. Receivables and loans are reduced by the allowances for doubtful accounts or loans when management believes that the collectability of the receivables or loans is unlikely.

Notes Receivable

Notes receivable are for amounts advanced to students to pay for tuition, fees, and books. The notes are all due within one year.

Capital Assets

Capital assets are stated at cost at date of acquisition. Donated capital assets are valued at their estimated fair market value on the date received. The College's capitalization policy includes real or personal property with a unit cost of \$5,000 or more and has an estimated life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are charged to operating expense in the year in which the expense is incurred.

The College reports depreciation under a single-line item as a business-type unit. Depreciation is computed using the straight-line method over the estimated useful lives of the assets applying the half-year convention. The following lives are used:

Buildings50 yearsIJand and Improvements20 yearsFurniture, Equipment, and Vehicles5-10 yearsLibrary Books15 years

Deferred Outflows and Inflows of Resources

In addition to assets and liabilities, the statement of net position reports a separate section for deferred outflows or inflows of resources. These are separate financial statement elements. Governments are permitted only to report deferred outflows and inflows in circumstances specifically authorized by the GASB. The deferred outflows or inflows of resources are related to pensions. See Footnote 2, New Accounting Pronouncements and Footnote 11, Employees' Retirement Plans - Defined Benefit Pension Plan for additional information.

NOTES FINANCIAL STATEMENTS AUGUST 31 2016

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(Continued) Pension

The College participates in the Teacher Retirement System of Texas (TRS) pension plan, a multiple-employer cost sharing defined benefit pension plan with a special funding situation. The fiduciary net position of TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Prepaid Charges

Prepaid charges consist primarily of federal grants awarded in current year which are related to academic term in the next fiscal year, are recorded as prepaid charges and recognized as expenses when all obligations have been fulfilled.

Unearned Revenues

Unearned revenues consisting primarily of advance payments of tuition and fees, related to academic terms in the next fiscal year, are recorded as unearned revenues and recognized as revenue in the period when earned.

Compensable Absences

The College accrues an estimated liability for compensable absences that vest in the period earned.

Tax Exempt Status

The College is a political subdivision of the State of Texas and exempt from federal income taxes under the purview of Section 115(1), Income of States, Municipalities, Etc., of the Internal Revenue Code ("IRC"), although unrelated business income may be subject to income taxes under Section 511(a)(2)(B), Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations, of the IRC. The College has no unrelated business income tax liability for the years ended August 31, 2016 and 2015.

Student Property Deposits

Students are required to pay the College a \$10 property deposit. The amount is refundable upon request when the student graduates or leaves the College. Unclaimed amounts are recognized as revenue after four years. Effective September 1, 1993, state law requires unclaimed student property deposits are for scholarship use only.

Funds Held for Others

Funds held for others represent refundable student property deposits, direct loans, and funds held by the College for various campus and community organizations.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

2. SUMMARY OF SIGNIFICA NT ACCOUNTING POLICIES (Continued)

Property Taxes

Revenue from property taxes, including related penalties and interest, is recognized in the current year, net of allowances for taxes not collected. The College's ad valorem property tax is assessed each October 1 based upon the assessed value of the College as of January 1 of the same year for all real and business personal property located within the College's district. Taxes are due upon receipt of the tax bill and are delinquent if not paid by January 31 of the year following the year in which imposed. Tax liens on real property are executed generally within one month of receipt of notification of delinquency of tax payments.

The use of tax proceeds is restricted to maintenance and operations. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes.

Net Position

Net position is classified based on the existence or absence of restrictions. Accordingly, net position of the College are classified and reported as follows:

Net Investment in Capital Assets

Net Investment in Capital Assets is used to accumulate the net investment in property and equipment. The purchase (sale) of property and equipment, accumulated depreciation, and (increase) decrease in related debt and liabilities is recognized as an (addition) reduction of available net position and is recorded as capital assets and as an addition (reduction) in net position.

Restricted Net Position

Restricted net position includes expendable and non-expendable net position. Non-expendable net position result from contributions whose use by the College is limited to the earnings thereon. Expendable net position is for amounts whose use is restricted by either granting agencies, debt requirements, or the Board of Trustees.

Unrestricted Net Position

Net position whose use is not restricted.

Operating and Non-Operating Revenues and Expense Policy

The College distinguishes operating revenues and expenses from non-operating items. The College reports as a business-type activity and as a single proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations, property tax collections and federal Title IV grant programs. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The major nonoperating expense is interest expense on capital related debt. The operation of the Bookstore is not performed by the College.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

2. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

Concentration of Credit Risk

Financial instruments which potentially subject the College to a concentration of credit risk consist primarily of cash, repurchase agreements, TexPool, and accounts and taxes receivable. The College places its cash and investments in federally insured financial institutions which collateralize the College's deposits with securities issued by the United States Government and in United States Government Treasury notes.

Restricted Resources

When an expense is incurred that can be paid using either restricted or unrestricted resources, the College's policy is to first apply the expense against restricted resources and then against unrestricted resources.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Characterization of Title IV Grant Revenue

In response to guidance provided by the Government Accounting Standards Board (GASB) as question/answer 7.72.10 in the Implementation Guide, revenue received for federal Title IV grant programs (i.e. Pell grants) is now characterized as non operating revenue as opposed to operating revenue.

Reclassifications

Certain amounts in the prior-year statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

Subsequent Events

The College has issued \$105,140,000 Combined Fee Revenue Improvement Bonds, Series 2016, on November 30, 2016. The bonds will be used to acquire, purchase, construct, improve, enlarge, equip and/or maintain property, buildings, structures or facilities of the College, fund any required debt service fund and pay the issuance cost of the Bonds. The Bonds will be paid through tuition and general use fees.

3. <u>DEPOSITS AND INVESTMENTS</u>

At August 31, 2016 and 2015, the carrying amount of the College's deposits was \$14,449,881 and \$22,047,538, respectively, and total cash on hand and bank balances equaled \$15,015,254 and \$22,692,649, respectively.

TexasDAILY and TexPool (the Pool) were established for local governments in Texas under the provisions of the Texas Interlocal Cooperation Act and is designed to comply with all of the Texas statutes, including the Public Funds Investment Act and other regulations for the allowable investments of public funds. The Pool is overseen by the Texas State Comptroller of Public Accounts. TexPool seeks to maintain a \$1.00 value per share as required by the Texas Public Funds Investment Act.

Texas DAILY investments are a money market portfolio with daily liquidity that is rated AAA by Standards & Poor.

TexPool investments consist exclusively of U.S. Government securities, repu rchase agreements collateralized by U.S. Government securities, and AAA rated no load money market mutual funds.

NOTES FINANCIAL STATEMENTS AUGUST 31,2016

3. DEPOSITS AND INVESTMENTS (Continued)

CASH AND DEPOSITS (Continued)

Interest Rate Risk

In accordance with state law and the College's investment policy, the College purchases investments with maturities less than two years or invest bond proceeds for a period of time that coincides with the amount of time it takes to use bond proceeds. TexPooI average weighted maturity was 42 days.

Credit Risk

In accordance with state law and the College's investment policy, investments in investment pools must be rated at least AAA by at least one nationally recognized rating service.

Custodial Credit Risk

For a deposit or investment, custodial risk is the risk that, in the event of the failure of the counterparty, the College will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The College's policy requires deposits to be at least 100 percent secured by collateral valued at market value of the principal and accrued interest reduced by the amount of Federal Deposit Insurance Corporation insurance. As of August 31, 2016 and 2015, the College's \$0 and \$750,307 of repurchase agreements and \$14,995,954 and \$22,673,349 of bank deposits, respectively, had collateral of \$17,355,134 and \$45,709,717 of underlying securities which were held by the pledging financial institutions' trust departments or agent in the College's name.

4. DISAGGREGATION OF RECEIV ABLES AND PAYABLES BALANCES

6. BONDS PAYABLE

General information related to bonds payable is summarized below:

Bond Issue Name	Series	Purpose	Issue Date	Source of Revenue for Debt Service	Α	Amount authorized	О	Amount utstanding
Revenue	2001	Construction, Improvement, Maintenance, and Acquisition of Property, Building, and Equipment	02,/01	General Use Fee, Tuition and Interest Income	\$	9,365,000	\$	340,000
Revenue	2007	Construction, Improvement, Maintenance, and Acquistion of Property, Building and Equipment and Refunding of 1995, 1997, 1997-B bonds and partial refunding of 1998, 1998 and 2001 bonds	02,107	General Use Fee, Tuition and Interest Income		66,280,000		43,010,000

Total Bonds Principal Outstanding

43,350,000

Bonds payable are due in annual installments varying from \$35,000 to \$5,810,000 with interest rates from 3.75"i(, to 5.IO(Y,, with the final installment due in 2025. Interest expense related to bonds recorded during fiscal year 2016 and 2015 was approximately \$2,276,865 and \$2,458,685, respectively. The principal for all bonds is paid annually on April 1with semi-annual interest payable on April 1and October 1.

Repayment of the revenue bond indebtedness is collateralized by a first lien on a pledge of certain tuition and fees described below. The bond indentures for all outstanding Revenue Bonds require that the College deposit into an interest and sinking fund the following: 1) Tuition Fee pledged at the maximum amount permitted by Section 130.123 of the Texas Education Code, as amended. Section 130.123 currently limits the maximum pledge to an amount equal to 25% of all tuition collections; 2) the General Use fee of \$15 per semester credit hour from all nonexempt students for each semester and summer term; and 3) investment income derived from any and all funds. Such pledged tuition and fees amounted to \$21,183,466 and \$18,538,048 for the years ended August 31, 2016 and 2015, respectively. The pledged amount equates to 35.4% and 33.8% of the above revenue stream, respectively. Compared to the minimum required pledge-to-debt service coverage ratio of 1.25, the actual coverage ratio was 3.47 and 3.04, respectively. The College has complied with all significant bond covenants for the years ended August 31, 2016 and 2015.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

6. <u>BONDS PAYABLE</u> (Continued)

Defeased Bonds

The escrow account holds funds for bonds that have been defeased. The escrow account funds (assets) and the defeased bonds (liabilities) are not reported in the College's financial statements because those obligations have been satisficed in substance. At August 31, 2016, \$2,235,000 of the Series 1991, \$1,750,000 of the Series 1993, \$5,345,000 of the Series 1994, \$1,355,000 of the Series 1995, \$4,725,000 of the Series 1996, \$3,015,000 of the Series 1997 and \$8,130,000 of the Series 2001 bonds were considered defeased, respectively.

Current Refunding Bonds

The College utilized \$28,150,000 of Revenue Bonds with an average interest rate of 4.785'\t(, to refund \$340,000 of Series 1995, \$9,985,000 of Series 1997, \$9,655,000 of Series 1997B, \$4,455,000 of Series 1998, and \$4,475,000 of Series 1999 bonds with an average interest rate of 5.0532%. Net proceeds from the Series 2007 Current Refunding were \$29,432,615; after payment of \$621,146 in underwriting fees, insurance and other issuance cost, these proceeds were used to purchase U.S. Government securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments of the Current Refunding.

Advance Refunding Bonds

The College utilized \$8,020,000 of Revenue Bonds with an average interest of 5.00% to Advance refund \$8,130,000 of Series 2001 bonds with an average interest rate of 5.044%. Net proceeds from the Series 2007 Advance Refunding were \$8,581,209, after payment of \$185,619 in underwriting fees, insurance and other issuance cost. These proceeds were used to purchase U.S. Government securities which were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments of the Advance Refunding of \$8,130,000 of Series 2001.

NOTES FINANCIAL STATEMENTS AUGUST 31,2016

7. <u>LONG-TERM LIABILITIES</u>

Long-term liability activity for the year ended August 31,2016, was as follows:

Total			\$_11,540,913					

9. NOTES PAYABLE

The College had expended \$1,284,361 under the Revolving Loan Program of the Texas State Energy Conservation Office (the "Program") for the purpose of renovating and updating the College's energy conservation retrofit measure systems. Prior to funding under the Program, all expenditures and related project work were subject to review by the State. As of August 31, 2016 and 2015, \$0 and \$101,655 are outstanding, respectively. The note had an interest rate of 31Yti.

The College has expended \$2,967,275 under another LoanSTAR Revolving Loan from the Texas State Energy Conservation Office (the "Program") for the purpose of energy conservation, such as window film, high efficiency lighting and control valves. Prior to funding under the Program, all expenditures and related project work were subject to review by the State. As of August 31, 2016 and 2015, \$770,409 and \$1,152,153 are outstanding as of August 31, 2016 and 2015, respectively.

Notes payable future minimum requirements at August 31, 2016, were as follows:

YearEnded	Note Payable
August 31,	Principal Interest
2017 2018	\$ 395,183 \$ 17,337 375,226
Total	\$ 770,409

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

10. LEASES

The College leases various equipment and facilities under annually renewable agreements. Rent expense under operating leases for the fiscal years ended August 31, 2016 and 2015 was \$241,838 and \$277,073, respectively.

Future minimum payments for each of the five subsequent fiscal years for noncancellable opetating leases is as follows:

Yeal' Ended		
August 31,		Total
2017	\$	543,552
2018		136,130
2019		99,742
2020		60,851
2021	_	15,856
Total	\$	856,131

11. EMPLOYEES' RETIREMENT

PLANS DEFINED BENEFIT

PENSION PLAN Plan Description

The College participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accOl'dance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiducianf Net Position

Detailed information about the Teacher Retil'ement System's fiduciary net position is available in a separately-issued Comprehensive Ann ual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://documents/cafr.pdf #CAFR; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

11. EMPLOYEES' RETIREMENT PLANS (Continued)

DEFINED BENEFIT PENSION PLAN (Continued)

Bene fits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited services equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than 60 or 62 depending on the date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributio11s

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6<\1(1) and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014-2017. The 83rd Texas Legislature, General Appropriations Act (CAA) established the employer contribution rates for fiscal years 2016 and 2017.

11. EMPLOYEES' RETIREMENT PLANS

(Continued) DEFINED BENEFIT PENSION PLAN

(Continued)

The College's contributions to the TRS pension plan in 2016 were \$2,136,099 as reported in the Schedule of College Contributions in the Required Supplementary Information section of these financial statements. Estimated State of Texas on-behalf contributions for 2016 were \$1,664,553.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50%) of the state contribution rate for certain instructional or administrative employees; and 100½ of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer share pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions

The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31,2015

Actuarial Cost Method Individual Entry Age Normal
Amortization Method Level Percentage of Payroll, Open

Remaining Amortization Period 33 Years

Asset Valuation Method 5 Year Market Value

Single Discount Rate 8.0QlY,)
Long-term Expected Investment Rate of Return * 8.00%

Salary Increases* 3.50% to 9.50%

Payroll Growth Rate 2.50 \(^1\)\text{10}\
Benefit changes during the year None

Ad hoc post-employment benefit changes None

^{*} Includes Inflation of 2.5%

NOTES FIN ANCIAL STATEMENTS AUGUST 31, 2016

11. EMPLOYEES' RETIREMENT PLANS (Continued)

DEFINED BENEFIT PENSION PLAN (Continued)

Actuarial Assumptions (Continued)

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015, by the TRS Board of Trustees, who have the sole authority to determine the actuarial assumptions used for the plan. The most significant changes were related to the updated of the post-retirement mortality rates based on the most recent TRS member experience and the decrease in the assumption for general wage inflation from 3.0"lli to 2.5%. Other changes to overall assumptions and methods had a minor impact on the results of the actuarial valuation and the related pension liabilities.

There were no changes of benefits terms that affected measurement of the total pension liability during the measurement period.

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is StYo. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

11. EMPLOYEES' RETIREMENT PLANS (Contin

ued) DEFINED BENEFIT PENSION PLAN

(Continued) Discount Rate Sensitivitr1 Anal11sis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was l"i\, less than and 1% greater that the discount rate that was used (8%) in measuring the 2015 and 2014 Net Pension Liability.

	1% Decrease in Discount Rate (7%)	Discount Rate (8'\v0)	1% Increase in Discount Rate (9"i\1)		
EI Paso County Community College District's proportionate share of the net pension liability					
2015	\$ 36,815,430	\$ 23,497,039	\$ 12,403,645		
2014	\$ 35,374,478	\$ 19,796,127	\$ 8,146,422		

<u>Pellsioll Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At August 31, 2016 and 2015, the College reported a liability of \$23,497,039 and \$19,796,127, respectively, for its proportionate share of the TRS's net pension liability. The liability reflects a reduction for State pension support provided to the College. The amount recognized by the College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the College were as follows:

	2016	2015
El Paso County Community College District's proportionate		
share of the collective net pension liability	\$ 23,497,039	\$ 19,796,127
State's proportionate share that is associated with College	19,607,661	16,454,821
Total	\$ <u>43,104,700</u>	\$ 36,250,948

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of the date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1,2014 through August 31,2015.

At the measurement date of August 31, 2015, the employer's proportion of the collective net pension liability was 54.51%, which was a decrease of 0.10% from its proportion measured as of August 31, 2014.

DEFINED BENEFIT PENSION PLAN

(Continued)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)</u>

For the year ended August 31, 2016, the College recognized pension expense of \$1,664,553 and revenue of \$1,664,553 for support provided by the State.

At August 31, 2016, the College reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions for the following sources:

	Def erred Outflows of Resources		red Inflows Resources
Differences between expected and actual economic experience	\$	\$	648,395
Changes in actuarial assumptions	231,893		
Differences between projected and actual investment earnings	1,248,918		
Changes in proportion and difference between the employer's			
contributions and the proportionate share of contributions			1,751,467
Contributions paid to TRS subsequent to the measurement date	2,86,099		
Total	<u>\$ 3,616,910</u>	<u>\$</u>	2,399,862

The net amounts of the employer's balance of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31	Pension E	Pension Expense Amount			
2017	\$	(1,542,663)			
2018		593,336			
2019		593,337

2021		(903,254)			
Thereafter		961,486			
Total		(1,217,048)			

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

11. EMPLOYEES' RETIREMENT PLANS

(Continued) OPTIONAL RETIREMENT PLAN

Plan Description. The State of Texas has also established a defined contribution plan, the Optional Retirement Program, for institutions of higher education. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The Optional Retirement Program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution Articles, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy! Contributions requirements are not actuarially determined but are established and amended by the Texas state legislature. The percentages of participants' salaries currently contributed by the State and each participant are 6.601% and 6.65tY,), respectively. The College makes the lOO<Yt1 required contribution which represents the employer's contribution. Benefits fully vest after one year plus one day of employment. Since these are individual annuity contracts, the State has no additional or unfunded liability for this program. Currently the College contributes up to 1.90% of each participant's salary to the Optional Retirement Program under provisions of State law. The retirement expense to the College totaled \$210,574, \$223,401 and \$241,286 for 2016, 2015, and 2014, respectively.

The retirement expense to the State for the College totaled \$2,156,399, \$2,171,282and \$2,112,008 for the fiscal years ended August 31, 2016, 2015 and 2014, respectively. This amount represents the portion of expended appropriations made by the state legislature on behalf of the College which is recorded as revenue and expense in the restricted fund. The total payroll for all College employees was \$85,788,661, \$83,886,361 and \$83,245,148 for fiscal years 2016, 2015 and 2014, respectively. The total payroll of employees covered by the Teacher Retirement System was \$55,861,257, \$52,955,705 and \$50,179,385 and the total payroll of employees covered by the Optional Retirement System was \$15,906,712, \$16,478,420 and \$17,478,788 for fiscal years 2016, 2015 and 2014, respectively. Senate Bill (S.B.) 1812, effective September 1, 2013, limits the amount of the state contribution to 50 Yo of eligible employees in the reporting district.

Tax Sheltered Annuity Plan for Part Time Employees

Plan Description. The College has established a tax sheltered annuity plan for part time employees. An eligible employee is a part time employee who is not eligible for participation in the Teacher Retirement System of Texas or any other public or private retirement system within the meaning of section 3121(b)(7)(F) of the Internal Revenue Code. The Tax Sheltered Annuity Plan provides for the purchase of annuity contracts. These annuity contracts are administered by Metropolitan Life Insurance for the participants. Certificates are issued to the participants evidencing their annuity contracts. A participant is 100% vested in the accumulated value of his annuity contract at all times.

Funding Policy. A participant can elect to make salary reduction contributions equal to a percentage of 3.75% of his monthly compensation. The College makes contribution equal to 3.75% of participant's monthly compensation. Since these are individual annuity contracts, the College has no additional or unfunded liability for this program. The retirement expense to the College totaled \$34,388, \$41,261 and \$54,064 for 2016, 2015 and 2014, respectively. Total payroll of employees covered by the Tax Sheltered Annuity Plan for Part Time Employees was \$916,983, \$1,100,268, and \$1,441,692 for fiscal years 2016, 2015 and 2014, respectively.

12. DEFERRED COMPENSATION PROGRAM

College employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001. As of August 31, 2016 and 2015, the College had 365 and 380 employees participating in the program and \$1,617,334 and \$1,666,006, respectively, of payroll deductions had been myested in approved plans.

NOTES FINANCIAL STATEMENTS AUGUST 31 2016

13. RISK MANAGEMENT

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 1990, the College established a Workers' compensation claim program to account for and finance its uninsured risks of loss related to employee injuries. Under this program, the College retains all risk of loss. The Colle&e purchases commercial insurance for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. The claims liability of \$900,000 reported at August 31, 2015 and 2014, is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liability is reported with accrued liabilities on the Statement of Net Position. The liability is subject to change based on actual claim development. Estimated future payments for incurred claims are charged to current funds expenditures. Changes in the College's claims liability amount in fiscal 2016 and 2015 were:

	fisc	nning-of- al-Year ability	Cla Ch	rent-year nims and anges in imates	Claim ayments	alance at Fiscal Year-End
2015-2016	\$	900,000	\$	405,404	\$ (405,404)	\$ 900,000
2014-2015	\$	900,000	\$	354,997	\$ (354,997)	\$ 900,000

14. COMPENSATED ABSENCES

Annual Leave

Full-time employees earn annual leave from 1 to 1.67 days per month depending on the number of years employed with the College and the employee's classification. The College's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum number of days up to 40 for those employees who accrue 20 days leave per year. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated unused annual leave up to the maximum allowed. The College reconized an accrual for compensated absences of approximately \$2,860,340 and \$2,655,586 for the unpaid annual leave at August 31, 2016 and 2015, respectively.

Sick Leave

The Board of Trustees has adopted a policy providing that ten percent (10¹%) of accrued unused sick leave (not to exceed 960 hours) shall be paid to an employee who has at least five years of continuous eligible full-time service, upon separation from employment for any reason other than by death. At August 31, 2016 and 2015, the estimated liability under this policy was approximately \$1,283,855 and \$1,244,384, respectively, which is accrued.

NOTES FINANCIAL STATEMENTS AUGUST 31,2016

15. HEALTH CARE AND LIFE INSUR ANCE BENEFITS

Certain health care and life insurance benefits for active employees are provided through an insurance whose premiums are based on benefits paid during the prev10us year. The State recognizes the cost of providing these benefits by expending the annual insurance premmms. For the 2014-2015 biennium, the State changed the methodology of benefit funding for community colleges in the State. SB 1812 limited the State's portion to 50<V., of the total contribution made on behalf of botn active and retired employees.

16. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS

<u>Plan Description</u>. The College contributes to the State Retiree Health Plan (SRHP), a cost sharing, multiple-em ployer, defined benefit postemployment healthcare plan administered by the Employees Retirement System of Texas (ERS). These medical benefits are provided to retired employees of participating universities, community colleges and state agencies in accordance with Chapter 1551, Texas Insurance Code. Benefits and contribution provisions of the SRHP are authorized by State law and may be amended by the Texas Legislature. ERS issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained from ERS via their website at http://www.ers.state.tx.us/.

<u>Funding Polic11</u>. Section 1551.055 of Chapter 1551, Texas Insurance Code provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS board of trustees. Plan members or beneficiaries receiving benefits pay any premium over and above the employer contribution. The employer's share of the cost of the retiree healthcare coverage for the current year is known as the implicit rate subsidy. It is the difference between the claims costs for the retirees and the amounts contributed by the retirees. The ERS board of trustees sets the employer contribution parameters of GASB statement 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pensions. The employer contribution rate represents a level of funding that, if :paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years.

Beginning September 1, 2013, SB 1812 limited the state's contribution to 50t;!r, of eligible employees for community colleges.

The contributions to SRHP for the years ended August 31, 2016, 2015, and 2014 totaled \$1,367,636, \$1,216,400 and \$1,059,430, respectively, which equaled the required contributions each year.

17. CONTRACT AND GRANT AWARDS

Contracts and grants awards are accounted for in accordance with the requirements of the American Institute of Certified Public Accountants. For Federal and State Contracts and grants award, funds expended but not collected are reported as Receivables on Exhibit A. Contract and grant awards that are not yet funded, and for which the College has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed under multi-year awards or for fiscal periods that differ from the College's fiscal year for which monies have not been received nor funds expended totaled approximately \$60,187,788 and \$65,733,320 at August 31, 2016 and 2015, respectively. Of this amount, \$57,876,516 and \$62,008,591 were related to Federal Contract and Grant Awards, \$2,311,272 and \$3,724,729 were from State and Other Contract and Grant Awards.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

18 RELATED PARTY

The El Paso Community College Foundation (the Foundation) is governed by a nineteen-member Board of Directors, independent of the College. At any given time the Foundation Board could have up to 25 members. Although the Foundation is not financially accountable to the College, the Foundation has received from the College both in-kind assistance in the form of donated services and use of facilities and equipment. The Foundation solicits donations for the benefit of the College. It remitted gifts of \$277,330, \$351,809and \$232,688 to the College during the years ended August 31, 2016, 2015 and 2014, respectively. The College donated certain services, such as office space, utilities, supplies, and staff salaries and benefits to the Foundation with approximate value of \$42,423 for each year.

19. PROPERTY TAXES

The College's ad vaJorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business property located in the District.

At August 31,2016:				
Assessed Valuation of the College				\$ 46,322,388,773
Less: Exemptions and abatements				(6,906,577,355)
Net Assessed Valuation of the College				\$ 39,415,811,418
	Current perations	Debt Service		Total
Tax rate per \$100 valuation for authorized (maximum per enabling legislation)	\$ 0.15	\$	0.50	\$ 0.65
Tax rate per \$100 valuation for assessed	\$ 0.133811	\$		\$ 0.133811
At August 31,2015:				
Assessed Valuation of the College				\$ 45,043,210,267
Less: Exemptions and abatements				(6,668,113,144)
Net Assessed Valuation of the College				\$ 38,375,097,123
	Current perations		Debt Service	Total
Tax rate per \$100 valuation for authorized (maximum per enabling legislation)	\$ 0.15	\$	0.50	\$ 0.65
Tax rate per \$100 valuation for assessed	\$ 0.128122	\$		\$ 0.128122

Taxes levied for the years ended August 31,2016 and 2015, were \$52,799,720 and \$49,227,247, respectively, (which includes any penalty and interest assessed, if applicable.) Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1of the year following the year in which imposed.

NOTES FINANCIAL STATEMENTS AUGUST 31, 2016

19. PROPERTY TAXES (Continued)

	2016		2015
Tax Collected	 Current	Operati	ons
Current Taxes Collected	\$ 51,740,083	\$	48,244,378
Delinquent Taxes	409,757		473,625
Penalties and Interest Collected	 726,627		584,342
Total Collections	\$ 52,876,467	\$	49,302,345

Tax collections for the years ended August 31, 2016, 2015 and 2014, were 98i'le) of the current tax levy. Allowances for uncollectible taxes for the years ended August 31, 2016, 2015 and 2014 respectively, of \$547,477, \$514,542 and \$496,020 are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to local maintenance and operations.

20. PENDING LAWSUITS AND CLAIMS

On August 31, 2016, various lawsuits and claims involving the College were pending. While the ultimate liability with respect to litigation and other claims asserted against the College cannot be reasonably estimated at this time, management believes that this liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the College.

21. COMMITMENTS

Encumbrances, primarily construction and technology related, outstanding at August 31, 2016 and 2015, respectively, that were provided for in the subsequent year's budget aggregated approximately \$2,393,950 and \$3,309,464.

22 FUND BALANCE

NOTES TO SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS AUGUST 31, 2016

1. BASIS OF PRESENTATIO N

The accompanying schedule of expenditures of federal awards includes the federal grant activity of El Paso County Community College District under programs of the federal government for the year ended August 31, 2016. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Aioards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the College, it is not intended to and does not present the financial position, changes in net position or cash flows of the College.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICES

This schedule has been prepared on the accrual basis accounting. Revenues are recorded for financial reporting purposes when the College has met the qualifications for the respective program. Expenditures reported on the Schedule also are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The College has not elected to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees El Paso County Community College District El Paso, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Govenument Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of El Paso County Community College District (the "College") as of and for the fiscal year ended August 31, 2016 and the related notes to the financial statements, which collectively comprise El Paso County Community College District basic financial statements, and have issued our report thereon dated December 18, 2016.

Internal Control Over Financial Reporting

Jn planning and performing our audit of the financial statements, we considered the El Paso County Community College District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the El Paso County Community College District's internal control. Accordingly, we do not express an opinion on the effectiveness of the El Paso County Community College District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given the limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasona ble assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Texas Public Funds Investment Act

Pena Briones Mc Daniel + Co.

We have also performed tests designed to verify the College's compliance with the requirements of the Texas Public Funds Investment Act (the Act). The results of our testing disclosed no instances of non-compliance with the Act. However, providing an opinion on compliance with the Act was not an objective of our audit and, accordingly, we do not express such an opinion.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND THE STATE OF TEXAS SINGLE AUDIT CIRCULAR

Board of Trustees El Paso County Community College District El Paso, Texas

Report on Compliance for Each Major Federal and State Program

We have audited EI Paso County Community College District's (the "College") compliance with the types of compliance requirements described in the U. S. Office of Management and Budget ("OMB") Compliance Supplement and the State of Texas Single Audit Circular that could have a direct and material effect on each of the College's major federal and state programs for the fiscal year ended August 31, 2016. The College's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Coliege's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirenzents for Federal Awards* (Uniform Guidance), and the *State of Texas Single Audit Circular*. Those standards, Uniform Guidance, and the *State of Texas Single Audit Circular* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the College's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31,2016.

Report on Internal Control Over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program in order to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and State of Texas Single Audit Circular, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State of Texas Single Audit Circular. Accordingly, this report is not suitable for any other purpose.

For the years ended August 31,2016 and 2015, no findings or questioned costs were noted.

STATISTICAL SECTION

This part of the El Paso County Community College District's Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue sources - tuition and fees, state appropriations and advalorem taxes.

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the service the government provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Financial Reports for the relevant years.
