Agency Mission

The mission of the Texas Higher Education Coordinating Board (THECB) is to provide leadership and coordination for Texas higher education and to promote access, affordability, quality, success, and cost efficiency through *60x30TX*, resulting in a globally competitive workforce that positions Texas as an international leader.

Agency Vision

The THECB will be recognized as an international leader in developing and implementing innovative higher education policy to accomplish our mission.

Agency Philosophy

The THECB will promote access to and success in quality higher education across the state with the conviction that access and success without quality is mediocrity and that quality without access and success is unacceptable.

The THECB's core values are:
Accountability: We hold ourselves responsible for our actions and welcome every opportunity to educate stakeholders about our policies, decisions, and aspirations.
Efficiency: We accomplish our work using resources in the most effective manner.
Collaboration: We develop partnerships that result in student success and a highly qualified, globally competent workforce.
Excellence: We strive for excellence in all our endeavors.

The Texas Higher Education Coordinating Board does not discriminate on the basis of race, color, national origin, gender, religion, age or disability in employment or the provision of services.

Executive Summary

Financial aid plays a key role in accomplishing the four goals articulated in *60x30TX,* the strategic plan for higher education in Texas: educated population, completion, marketable skills, and student debt. Since 1993, the Texas Legislature has included in the General Appropriations Act a provision calling for the Texas Higher Education Coordinating Board (THECB or Coordinating Board) to provide the Legislative Budget Board an annual report on student financial aid at Texas public and independent institutions of higher education. This report provides policymakers important information about funding sources, types of student financial aid programs, students benefiting from those programs, and unmet financial need.

The Fiscal Year (FY) 2018 data reported by institutions in the Financial Aid Database (FAD) was part of a restructured reporting strategy, compared with past years. A considerable amount of collaboration with institutions of higher education led to revisions to the data elements in the report and changes to the reporting timetable. The revised data elements provide more meaningful information for analysis of current trends and future policy recommendations. Instead of reporting all data one time by the end of the calendar year, institutions submit data three times per year, certifying final data by the end of the calendar year. This allows for better and more frequent communication with THECB program staff. More timely reconciliation of data for changes to student circumstances throughout the year improves accuracy.

A total of 1,531,243 students enrolled at nonprofit institutions of higher education for the 2017-2018 academic year, and 1,014,433 of them (66 percent) received some form of financial aid. This includes students who received merit and other aid that did not require need analysis.

Although more than $12 billion in student financial aid was awarded from federal, institutional, private, and state funding sources in FY 2018, there was a significant amount of unmet financial need among students attending Texas institutions of higher education. The average annual amount needed per student to cover the gap between undergraduate education costs and student resources (Expected Family Contribution [EFC] and financial aid) was:

- $7,579 for students attending public two-year institutions,
- $6,258 for students attending public universities and health-related institutions (HRIs), and
- $8,616 for students attending private or independent institutions.

Most federal and state gift aid is available to undergraduates only. Fifty-five percent of all financial aid to undergraduates attending Texas institutions in FY 2018 was grant aid. This includes aid from endowments and other institutional funds, as well as funds awarded to students by entities outside the institutions. Thirty percent of aid to undergraduates was in the form of loans. For graduate students, only 29 percent of aid was comprised of grants, while 60 percent of aid was in the form of student loans.

Students attending Texas institutions of higher education rely extensively on federal funds for financial assistance. Most of the total awarded financial aid dollars were for federal student loans and federal Pell grants. Only 4 percent of all FY 2018 financial aid to students at Texas institutions was awarded through the seven state programs funded by General Revenue appropriations.

Table 4 (page 12) provides a quick comparison of the profiles of state financial aid programs, including the average income and EFC of the students receiving awards in FY 2018. A very high percentage of students receiving awards through the state programs for financially needy students had an EFC below the threshold to qualify for federal Pell grants, $5,328. The highest

percentages of dollars awarded to students whose family incomes were at or below the poverty level were from the Texas Educational Opportunity Grant (TEOG) Program, the Toward EXcellence, Access, and Success (TEXAS) Grant Program, and the Texas College Work-Study (TCWS) Program.

Even though Texas higher education compares favorably with other states in terms of tuition and fee costs, financial aid is essential to increasing completion rates and expanding students' options for careers after graduation.

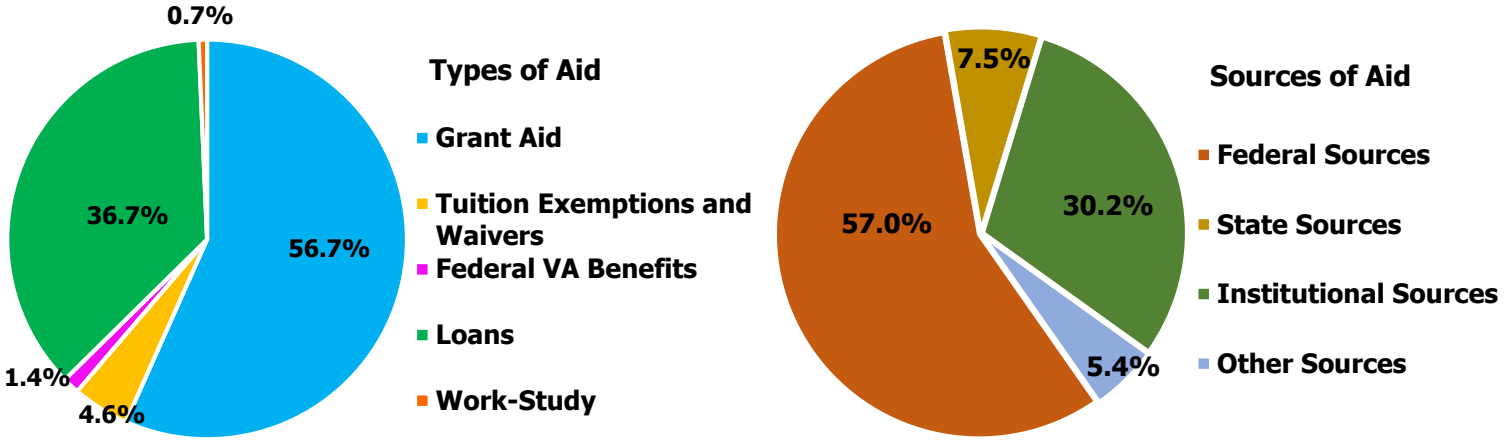

Chapter 1 - Financial Aid to Undergraduate Students

In FY 2018, undergraduate student reliance on loans was significant, even though the amount of grant aid exceeded the amount of loan assistance. Of the 1,345,149 undergraduates who enrolled at nonprofit institutions of higher education:

- 55 percent received grants and/or scholarships
- 30 percent received loans

Because many students receive grant/scholarship aid and loan aid, the percentages noted above include students receiving both types of aid. This year's report includes data for all students who received financial aid, regardless of need, whereas in previous years the data were reported only for students who completed need analysis even if they did not demonstrate financial need. Many students receive merit aid and other types of financial aid that are not need-based. Although Work-Study funds represented a very small percentage of overall financial aid to undergraduates, the impact of the work-study programs was not small, assisting more than 32,000 students.

Figure 1. Types and sources of aid to undergraduate students, FY 2018.

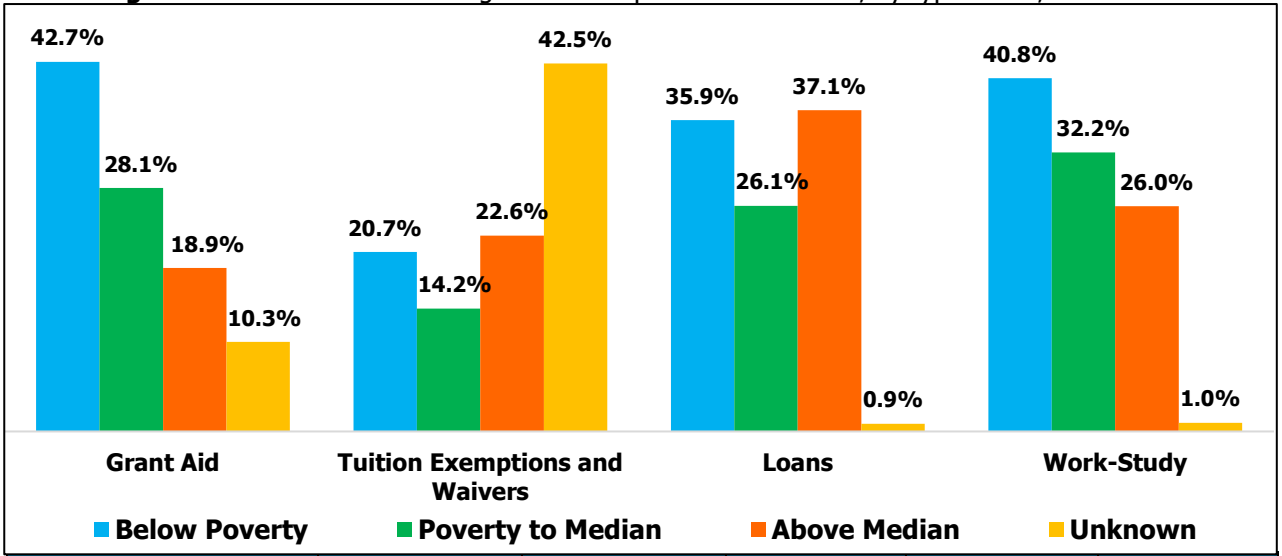

Type of Aid	Federal Sources	State Sources	Institutional Sources	Other Sources	Total Sources
Grant Aid	$2,158,859,798	$567,054,145	$2,471,849,294	$284,852,919	$5,482,616,156

Financial Aid to Undergraduate Students, by Income Level

Of the 867,390 undergraduates who received aid in FY 2018, grant aid and loans were distributed among the three income ranges as follows:

- Below poverty – 97 percent received grants and 44 percent received loans
- Poverty to median – 93 percent received grants and 47 percent received loans
- Above median – 66 percent received grants and 70 percent received loans

Figure 2. Distribution of undergraduate recipient income levels, by type of aid, FY 2018.

Income Range	Grant Aid	Tuition Exemptions and Waivers	Loans	Work-Study	All Recipients*
Below Poverty	315,494	18,563	144,100	12,182	325,250
Poverty to Median	207,810	12,700	104,490	9,626	222,445
Above Median	139,503	20,259	148,773	7,775	211,509
Unknown	76,377	38,081	3,598	298	108,186
Total	**739,184**	**89,603**	**400,961**	**29,881**	**867,390**

Household income ranges are defined as: below poverty - less than $24,339; poverty to median - $24,339 to $27,782; above median – greater than $57,782.

Institutional View of Undergraduate Student Financial Aid

Figure 3 reflects the percentage of all financial aid awarded to undergraduates by each of the three institutional sectors and the percentage of total enrollment of undergraduates for each sector.

In Figure 4, the distribution of types of aid at public two-year institutions is somewhat like that of aid to students attending private or independent institutions. There is a marked difference in the distribution of types of aid when public universities and health-related institutions (HRIs) are compared with the other two sectors.

*The All Recipients column reflects an unduplicated count of financial aid recipients.

**Excludes Work-Study awards through the Designated Tuition Set-Aside Program.*

[1] Other grant aid includes federal Pell and federal Supplemental Educational Opportunity Grants (SEOG), scholarships from organizations outside the institutions, Student Deposit Scholarships, other state and federal grants and scholarships, and categorical aid.

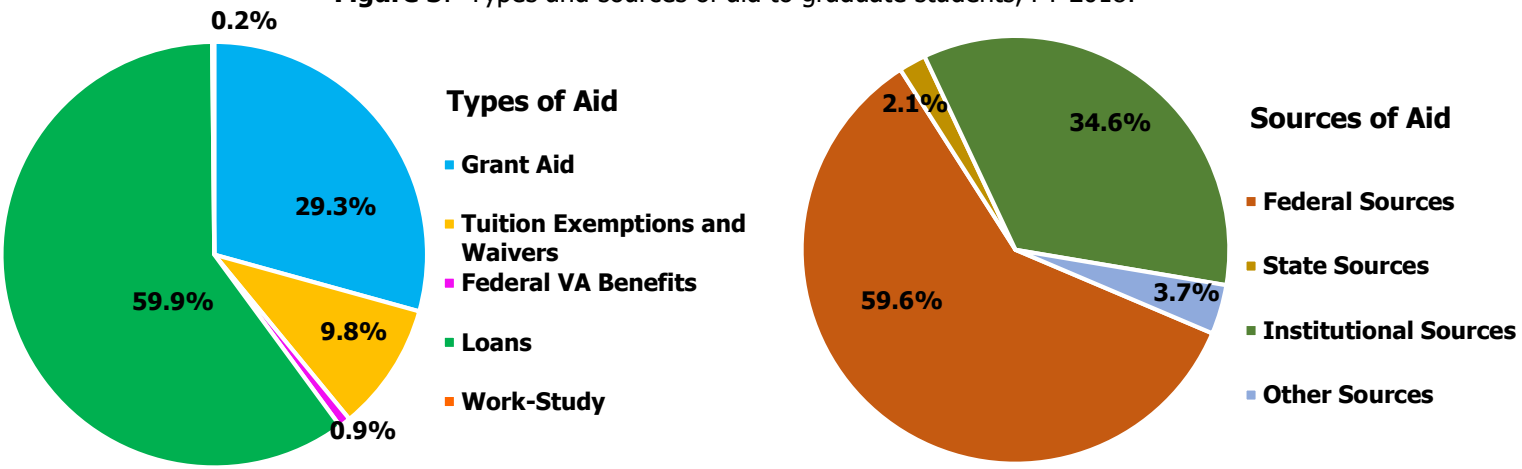

Chapter 2 - Financial Aid to Graduate Students

Changes from previous years' reporting are reflected in a significant difference in the financial aid to graduate students reported for FY 2018. For this report, data for all financial aid awarded to graduate students are included, rather than data for only graduate students who completed need analysis. Additionally, aid in the form of exemptions and waivers, athletic scholarships, and federal VA benefits (a new data element in the FAD Report) are included. Improvements in the FAD reporting included the addition of "program level" as a data element that more accurately identifies graduate students than the data elements used for previous reporting. These changes provide a more complete picture of graduate financial aid.

A comparison of Figure 1 and Figure 5 shows that federal grant aid to undergraduates exceeded federal grant aid to graduate students by $2.1 billion, and federal loan aid to undergraduates exceeded federal loans to graduates by $1.6 billion.

In FY 2018, of the 186,094 graduate students enrolled at nonprofit institutions of higher education, 46 percent received grants and/or scholarships and 43 percent received loans.

Financial Aid to Graduate Students, by Income Level

Of the 141,484 graduate students who received aid in FY 2018, grant aid and loans were distributed among the three income ranges as follows:

- Below poverty – 67 percent received grants and 80 percent received loans
- Poverty to median – 51 percent received grants and 83 percent received loans
- Above median – 41 percent received grants and 84 percent received loans

Total	**85,646**	**42,313**	**80,698**	**1,488**	**141,484**

Household income ranges are defined as: below poverty - less than $24,339; poverty to median - $24,339 to $27,782; above median – greater than $57,782.

Institutional View of Graduate Student Financial Aid

In FY 2018, graduate students represented 17 percent of all enrollment at Texas nonprofit institutions of higher education. Figure 7 illustrates, by each type of institution, the percentage of all aid awarded to graduate students and the percentage of overall graduate student enrollment, while Figure 8 shows the percentage, by type of aid, awarded at each institutional sector.

*The All Recipients column reflects an unduplicated count of financial aid recipients.

Chapter 3 - Meeting Financial Need

Students apply for financial aid each year by completing the Free Application for Federal Student Aid (FAFSA) or a Texas Application for State Financial Aid (TASFA), which collect demographic, income, and asset information from students and their families. This information is used to estimate the Expected Family Contribution (EFC), the amount of money a family is projected to contribute toward a student's education costs. The EFC is determined by a need analysis formula established in Title IV of the Higher Education Act. A detailed explanation of the EFC formula, with practical example scenarios, is provided by Moneyzine.com at http://www.money-zine.com/financial-planning/college-loan/expected-familycontributions/.

The calculations in this section regarding unmet need focus solely on Texas residents and include exemption and waiver data from the FAD. To qualify for all but one financial aid program funded by state appropriations — the Texas Armed Services Scholarship Program (TASSP) — students must be Texas residents.

In previous annual reports, the charts depicting average unmet need have reflected students' EFC separately from the amount of additional resources required for students to pay the average cost of attendance.[3] The amount of unmet need shown in Figures 9 and 10 of this report illustrate the total amount of resources, including the EFC, required for students to pay the average cost of attendance after financial aid has been awarded. In addition to $11.2 billion in student financial aid through federal, institutional, private, and state funding in FY 2018, there was still a substantial amount of unmet financial need among Texas residents attending Texas institutions of higher education.

Figure 9. Average amount of unmet need for undergraduate students, FY 2018.

[3] Average costs of attendance include tuition and required fees, books and supplies, room and board, and transportation and personal expenses.

Figure 10. Average amount of unmet need for graduate students, FY 2018.

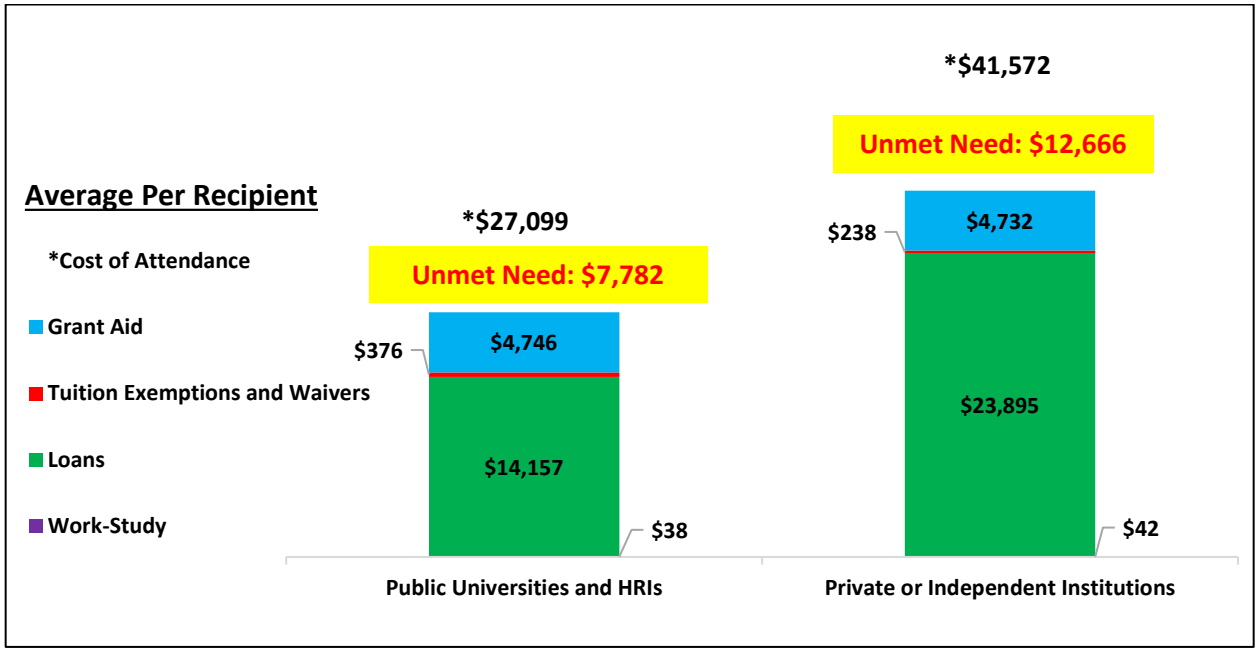

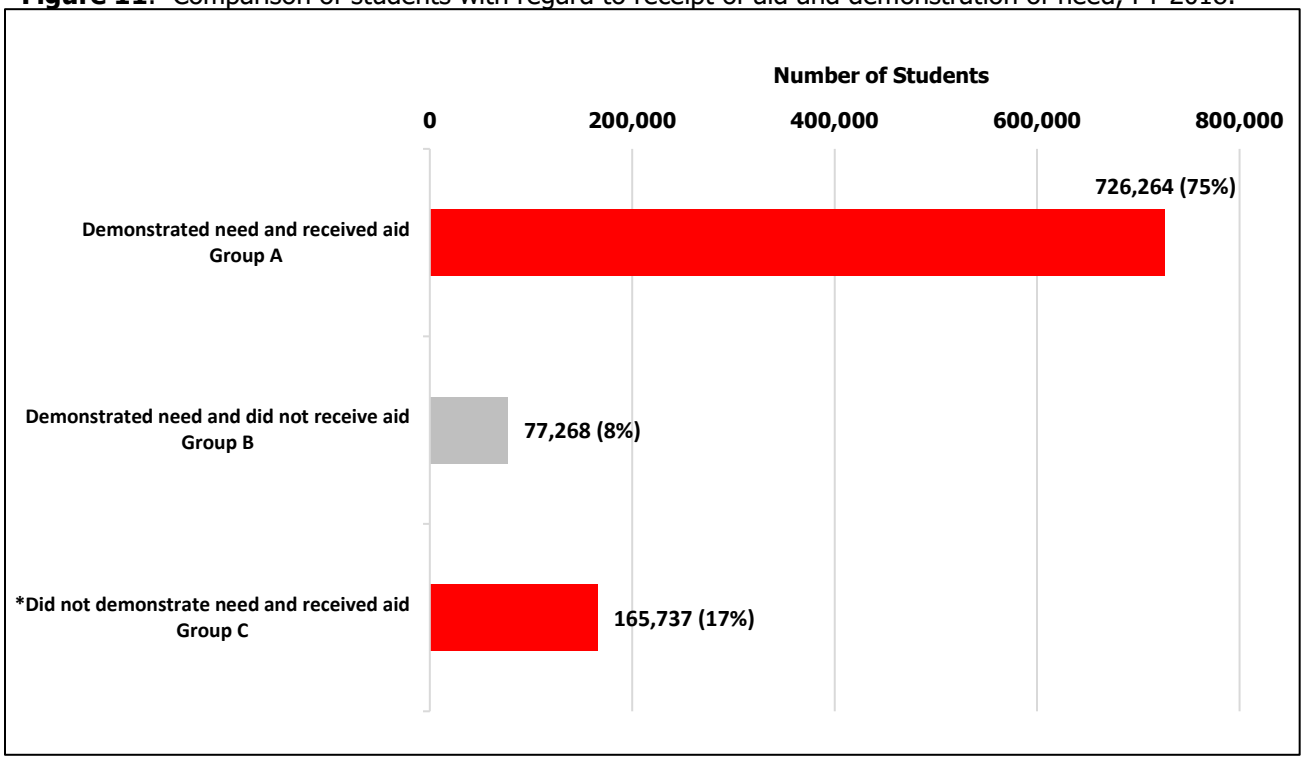

Figure 11 depicts three groups of students (undergraduates and graduates combined), indicating whether they received financial aid in FY 2018. The largest group, **Group A**, includes students who demonstrated need and received aid. Appendix F provides aggregate statistics on these students, by type of institution and type of aid.

Group B includes students who demonstrated need but did not receive aid. The following are possible reasons that these students did not receive aid: (1) did not meet the financial aid application deadline, (2) were not enrolled for enough credit hours to qualify for financial aid, (3) did not meet satisfactory academic progress requirements, or (4) applied for aid after their institutions had already pledged all available funds to other students who applied for and qualified for need-based aid. Appendix G provides aggregate statistics on these students, by type of institution.

Group C includes students who did **not** demonstrate need but received aid. They may have received merit-based aid from institutional funds, funds donated to the institution, or outside organizations providing aid to students who did not complete a FAFSA, TAFSA, or comparable form of need analysis. Some of the students in this group received aid that was not need-based after their application for financial aid demonstrated an expected family contribution that met or exceeded their cost of attendance. Appendix H provides aggregate statistics on these students, by type of institution and type of aid.

**Either the student (a) did not complete need analysis, or (b) completed need analysis, but the institution determined there was no financial need.*

Tables 1–3 provide details on the enrollment status and income levels for students in groups A, B, and C.

Chapter 4 - Program Profiles

The program profiles in this chapter include the following information for each program: statutory authority, administrative authority, funding source, background information, summary data, distribution of recipients by expected family contribution (EFC), distribution of recipients by race/ethnicity, one-year persistence rate, and six-year graduation/persistence rate.

The combined six-year graduation/persistence rate is calculated by dividing the sum of the number of students who earned certificates, associate degrees, or baccalaureate degrees within two to six years and the number of students who were still enrolled in higher education after six years, by the total number of students who first enrolled in fall 2012.

In past years the annual report has compared grant recipients with students who received some form of aid but not the type of grant aid featured in the program profile. This report provides a comparison of grant recipients with students who did not receive the grant and whose incomes were below the median income. This is a more effective comparison, as many students receive merit and other forms of aid that are not need-based. It is also a better indicator of the percentage of students who likely met the need requirement but did not receive the grant.

On the next page, Table 4 provides a quick comparison of the profiles of state financial aid programs, including the average income and EFC of the students receiving awards in FY 2018. As noted in the Executive Summary, a very high percentage of students receiving awards through the state programs for financially needy students had an EFC below the threshold to qualify for federal Pell grants, $5,328. The highest percentages of dollars awarded to students whose family incomes were at or below the poverty level were from the TEOG Program, the TEXAS Grant Program, and the TCWS Program.

Statutory Authority: Texas Education Code, Sections 56.301-56.311

Administrative Rules: Texas Administrative Code, Chapter 22, Subchapter L

Funding Source: General Revenue Appropriations

Background: The Toward EXcellence, Access, and Success (TEXAS) Grant Program was authorized in 1999 by the 76th Texas Legislature. This program has continued to be the foundational state financial aid program for students enrolled at public universities, encouraging needy students to prepare for college by choosing a rigorous high school curriculum, thereby contributing to their participation and success in higher education. The Priority Model requirements, effective with the 2013 fall semester, were established to distribute limited funding first to students who have demonstrated the greatest potential for academic success leading to a baccalaureate degree.

Section 2: Tuition Equalization Grant (TEG)

Statutory Authority: Texas Education Code, Sections 61.221-61.230.

Administrative Rules: Texas Administrative Code, Chapter 22, Subchapter B

Funding Source: General Revenue Appropriations

Background: The Tuition Equalization Grant (TEG) Program was authorized by the 62nd Texas Legislature in 1971 (codified in 1973). The purpose of the TEG Program is to promote the best use of existing educational resources and facilities within the state, both public and private, by providing need-based grants to Texas residents enrolled in nonprofit Texas private or independent colleges and universities. The TEG Program has remained one of the state's three signature grant programs providing access to higher education for Texas students who have financial need.

Section 3: Texas Educational Opportunity Grant (TEOG) Program

Statutory Authority: Texas Education Code, Sections 56.401-56.407

Administrative Rules: Texas Administrative Code, Chapter 22, Subchapter M

Funding Source: General Revenue Appropriations

Background: The TEOG Program was originally authorized in 2001 by the 77th Texas Legislature as the TEXAS Grant II Program, for grants to students attending Texas public two-year institutions, beginning in FY 2002. The program was renamed the TEOG Program by the 79th Texas Legislature in 2005. Enrollment in Texas public two-year institutions (public state colleges, technical institutes, and community colleges) currently represents 48 percent of the state's total enrollment in nonprofit institutions of higher education. The TEOG Program has remained one of the state's three signature grant programs providing access to higher education for Texas students who have financial need.

Section 4: Texas Public Educational Grant (TPEG)

Statutory Authority: Texas Education Code, Sections 56.031-56.039

Administrative Rules: Texas Administrative Code, Chapter 22, Subchapter D

Funding Source: State-mandated set-asides from tuition

Background: The 64th Texas Legislature created the Texas Public Educational Grant (TPEG) Program in 1975 to provide grant assistance to students with financial need. To fund this program, public institutions of higher education are required to "set aside" funds for TPEG awards, of which not less than 90 percent of TPEG funds must be used for grants to students whose educational costs are not met in whole or in part from other sources, while no more than 10 percent may be used for emergency loans. The set-aside amounts are established in Texas Education Code, Section 56.033 as follows:

Universities, state and technical colleges, and health-related institutions must set aside at least:

- 15 percent of statutory tuition charged to resident students
- 3 percent of statutory tuition charged to non-resident students

Community colleges are required to set aside at least:

- 6 percent of each resident student's hourly tuition charge, excluding out-of-district charges, for residents taking academic and career and technical education courses
- $1.50 of each non-resident student's hourly charge for academic courses

Reliance on set-aside funds to assist financially needy students has increased as tuition and fees have increased. Students who don't meet all requirements to qualify for other grant aid may be assisted with these funds. Additionally, institutions rely on these funds to meet the statutory requirements to make up the difference between tuition and fee costs and grants through two of the state's signature grant programs, the Toward EXcellence, Access, and Success (TEXAS) Grant Program and the Texas Educational Opportunity Grant (TEOG) Program.

Section 5: Financial Aid Funded by Designated Tuition Set-Asides

Statutory Authority: Texas Education Code, Sections 56.011 and 56.012

Funding Source: State-mandated set-asides from tuition

Background: The 78th Texas Legislature amended the Texas Education Code to allow governing boards of public universities to set different designated tuition rates. While deregulating tuition, the legislation also requires universities to set aside at least 15 percent of the amount of undergraduate and graduate designated tuition charged to resident undergraduates and graduate students in excess of $46 per semester credit hour. (Currently, no public two-year institutions charge designated tuition at a level that requires set-asides.)

The funds set aside from undergraduate tuition dollars must be used for financial assistance to financially needy resident undergraduate students, and dollars set aside from graduate and professional degree-seeking students must be used for financial assistance to resident graduate students and those seeking professional degrees. The financial assistance may include grants, scholarships, work-study programs, student loans, and student loan repayment assistance. The summary profile provides details on the grants and scholarships funded by these tuition set-asides, which represented 99 percent of the total amount awarded from these funds.

Section 6: Texas College Work-Study (TCWS)

Statutory Authority: Texas Education Code, Sections 56.071-56.082

Administrative Rules: Texas Administrative Code, Chapter 22, Subchapter G

Funding Source: General Revenue appropriations plus employer match

Background: The 71st Texas Legislature created the Texas College Work-Study Program (TCWS) in 1989 to provide financially needy students with part-time jobs, funded in part by the state and the remaining wages by the employer, to enable students to attend public or private institutions.

Statutory Reporting Requirements

The THECB is currently required by statute to report the number of students receiving Work-Study assistance who are employed off-campus and on-campus.

In addition to the data in Figure 24 on race/ethnicity, TEC, Section 56.082 requires that the THECB report the following information annually:

a) Gender
b) Major and certificate or degree program
c) Classification as a freshman, sophomore, junior, or senior or the equivalent
d) Enrollment in a full course load or less than a full course load, as determined by the Coordinating Board
e) Employment on- or off-campus
f) Employer status as a for-profit or nonprofit entity

Table 10 includes data for gender, classification, course load, and employment location. Although the THECB does not receive degree or certificate data until after students have graduated, student majors are reported by institutions. Appendix L shows the majors represented by students who received Work-Study funds in FY 2018.

Work-Study Student Mentorship Program

Included in the summary profile table on page 23 is $2.4 million awarded to 922 students participating in the Work-Study Student Mentorship Program. These funds provide wages to college students employed to mentor high school students on a part-time basis at participating institutions or to other college students on their own college campuses. In FY 2018, 51 institutions of higher education funded mentors in college campuses and/or local high schools.

Section 7: College Access Loan (CAL) Program

Statutory Authority: Texas Education Code, Sections 52.31-52.40

Administrative Rules: Texas Administrative Code, Chapter 22, Subchapter C

Funding Source: Proceeds from the sale of General Obligation Bonds and repayments from student loan borrowers.

Background: The College Access Loan (CAL) Program is the most significant portfolio in the Hinson-Hazlewood College Student Loan Program (HHCSLP), which was authorized by the 59th Texas Legislature in 1965. Since its implementation in 1988, the CAL Program has continued to provide a valuable option for the students of Texas, especially during periods of significant changes in the student loan marketplace.

Although the bonds used to fund the CAL program are backed by the full faith and credit of the state of Texas, General Revenue funds have never been required to make bond payments. The tax-exempt status of the bonds allows the Coordinating Board to pass along savings to students, in the form of one of the lowest interest rates in the country for "alternative" non-federal student loans. CAL loans may be used to cover the amount of the student's cost of attendance that is not covered by other resources.

Section 8: Texas Armed Services Scholarship Program (TASSP)

Statutory Authority: Texas Education Code, Sections 61.9771-61.9776

Administrative Rules: Texas Administrative Code, Chapter 22, Subchapter I

Funding Source: General Revenue Appropriations

Background: The TASSP was authorized in 2009 by the 81st Texas Legislature to encourage undergraduate students to become members of the Texas Army National Guard, the Texas Air National Guard, the Texas State Guard, the United States Coast Guard, or the United States Merchant Marine, or commissioned officers in any branch of the armed services of the United States. Annually, the governor and the lieutenant governor may each nominate two students, and each state senator and state representative may nominate one student to receive an initial conditional scholarship. The award is essentially a loan with forgiveness provisions. A promissory note must be signed, stating that loan forgiveness is contingent upon fulfillment of a four-year service commitment. If the commitment is not fulfilled, the loan must be repaid according to the terms of the promissory note.

Appendix A: Data Considerations.

For this report, 144 Texas public and independent colleges and universities that participate in state financial aid programs contributed financial aid data for FY 2018. All data in the report are from the 2018 Financial Aid Database (FAD) unless otherwise noted.

The following items should be taken into consideration when reviewing the FY 2018 financial aid detail throughout this report:

- The FAD does not include information on students attending for-profit institutions in Texas. National data for Federal Pell Grants, Federal Direct Loans, and Federal Direct PLUS Loans include information on students attending for-profit institutions.
- This report does not include data on aid that has been offered but has been declined. For example, students may choose to decline some or all of loan funds offered and instead find a means of lowering costs or working to earn income.
- Exemptions and waiver data reported in Integrated Fiscal Reporting System (IFRS) are included in Appendix M. All charts, tables, and unmet need calculations include exemption and waiver data reported in the FAD.
- National data are based on the federal academic year (July 1, 2017 to June 30, 2018), whereas state data are based on the state fiscal year (September 1, 2017 to August 31, 2018).
- For compliance with the Family Educational Rights and Privacy Act, any student counts of fewer than five are represented with an asterisk in the appendices that provide financial aid data by institution.
- Charts and tables included in Chapter 3 (Meeting Financial Need) exclude data reported by Parker University.
- Enrollment data shown in Tables 14 and 15 were reported by institutions to the Coordinating Board as of the twelfth class day in fall 2017.
- Table 16 is used throughout the report to provide comparative income data on financial aid recipients, as well as comparative context for the EFC levels represented by aid recipients within each program. The income on which need analysis was based was reported for the calendar year that occurred two years before the state fiscal year for which the aid was received.

Appendix M: Tuition Exemptions and Waivers.

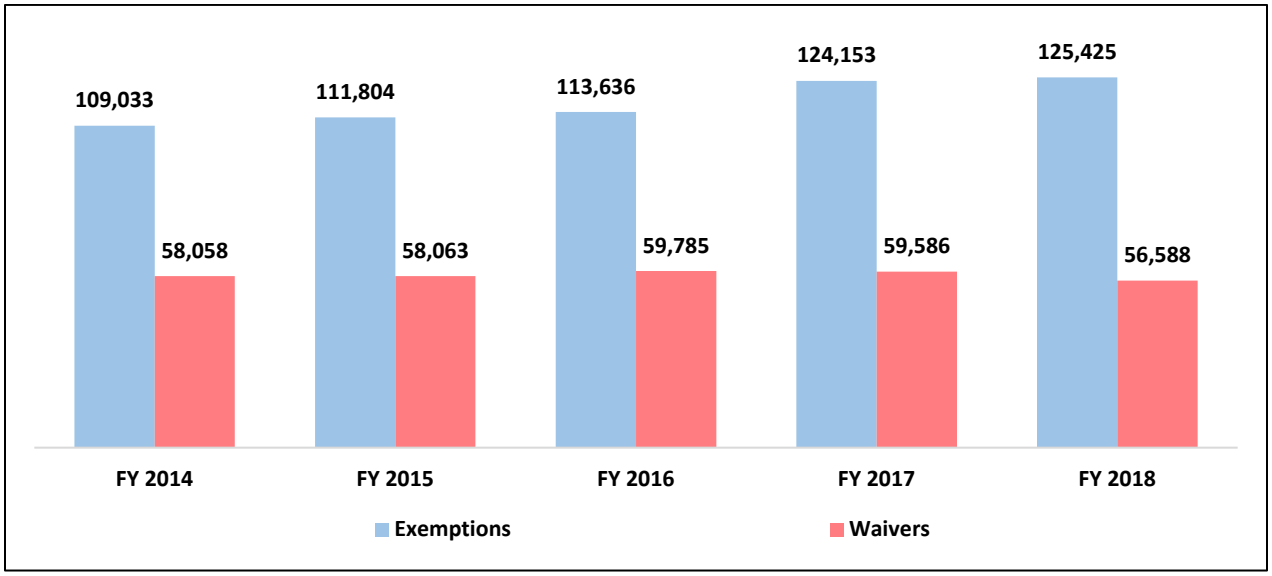

Many tuition exemption and waiver programs reward individuals or their families for services rendered. Others strengthen institutional recruitment of faculty, research assistants, teaching assistants, and highly qualified students.

Twenty-four of the 54 tuition exemption and waiver programs represented in FY 2018 data are optional, left to the discretion of the governing board of each institution. If the institution chooses to offer the program, however, it must serve all eligible students.

Impact on Institutions

The All Funds Formula Funding Allocations to institutions does not include funding to offset tuition and fees lost to exemptions and waivers claimed at an institution. Given the large amount of foregone revenue to institutions represented by these exemptions and waivers, it is important to recognize their possible impact on tuition and fee charges for all students attending public institutions of higher education in Texas. It is also worth noting that foregone revenue from tuition and fee exemptions for dual credit enrollment is not included in this report because the students benefiting from the exemptions are high school students. This is a change from previous annual reporting.

[4] A student receiving more than one exemption and/or waiver is reported more than once as a recipient.

The Hazlewood Act provides qualified veterans, and in some cases, spouses and dependent children, an education benefit for up to 150 hours of tuition exemption, including mandatory fees. Hazlewood exemptions, totaling $238 million, represented the largest amount of foregone institutional revenue from tuition exemptions in FY 2018.

In 2009, the Texas Legislature authorized the Hazlewood Legacy Act, which extends eligibility to spouses and allows eligible veterans to assign their unused credit hours to their children. Data for Legacy exemptions were first reported in IFRS for FY 2012. That year, 6,982 students benefited from these exemptions, which totaled $43.2 million. By 2018, the number of students receiving Legacy exemptions reached 24,105 for a total of $155 million, representing a 259 percent increase in foregone revenue to institutions over the six-year period.

The largest tuition waiver program was for competitive scholarship recipients, in the amount of $203.5 million.
