# *60x30TX* Progress Update

# Key Takeaways

**High notes**

- The 60x30 educated population goal showed steady growth again this year, close to the rate of improvement needed each year to reach the 2030 goal.
- Institutions made notable progress in reducing excess semester credit hours, and the student debt goal was successfully maintained.

**Areas for additional acceleration**

- Completions increased but growth slowed this year for African American, Hispanic, male, and economically disadvantaged students.
- The high school direct enrollment rate is lower now than when the plan began.
- Additional effort is needed to meet the 2020 marketable skills target.

**Next steps**

- A comprehensive 5-year strategic plan review will be conducted in 2020.
