*"The projects I worked on during my Connecting Experiences gave me a portfolio showcasing how I could apply technology to solve real life problems. I leveraged that portfolio while interviewing with companies after graduation, which ultimately helped me break into the tech industry."*

*"During the program ... I developed a new way of thinking across disciplines.... This cross-disciplinary thinking opens you up in a way that employers value. They see your ability to solve problems across functions and departments, and in our ever-more-connected world, this is a huge asset that makes you stand out in the job market."*
