Community and Technical Colleges Formula Advisory Committee (CTCFAC) Recommendation Report for the FY 2020-2021 Biennium

In accordance with the biennial Formula Advisory Committee process, the Community and Technical Colleges (CTCs) submitted their report for consideration by the Commissioner of the Texas Higher Education Coordinating Board (THECB).

Committee Background

The Commissioner of the THECB delivered his charge to the CTCFAC at its first meeting on August 31, 2017. The committee elected Dr. Pamela Anglin, President of Paris Junior College, as the chair and Dr. Jeremy McMillen, President of Grayson College, as the vice chair.

The CTCFAC held four additional meetings between September 2017 and December 2017. A list of CTCFAC members is provided in Attachment A. The minutes of the meetings are provided in Attachment B.

Commissioner Charges and Committee Recommendations

The Community and Technical Colleges Formula Advisory Committee (CTCFAC), conducted in an open and public forum, is charged with proposing a set of formulas that provide the appropriate funding levels and financial incentives necessary to best achieve the goals of *60x30TX*. A preliminary written report of its activities and recommendations is due to the Commissioner by December 21, 2017, and a final written report by February 2, 2018. The CTCFAC's specific charges are to:

Charge 1

Study and make recommendation for the appropriate funding levels for the contact hour, core, and the student success funding.

Committee Recommendation for Community Colleges.

Sector	2018-2019 Appropriations (millions)	2020-2021 Appropriations (millions)	Change Amount (millions)	Percent Change
Texas Public Community Colleges	1,767.4	1,912.2	144.8	8.2%

- The committee recommends the funding for community colleges be increased by \$144.8 million to \$1,912.2 million for the biennium; this will enable institutions to meet the goals of *60x30TX*. The committee further recommends funding with the following priorities:

1. Fund the community colleges with an increase based on projected contact hour and success point growth and adjusted for inflation.
 2. Fund community college success points at \$215 per point. This adds \$49 million to the funding level.
 3. Maintain the core funding level at \$68 million.
 4. Maintain the current level of Bachelor of Applied Technology (BAT) funding for the four institutions eligible for upper-level funding, adjusted for projected growth.
 5. Distribute the balance based on the Community College Contact Hour Formula.
- The committee also recommends maintaining the current critical needs fields for this biennium. Further, the committee recommends additional study of the existing success point metrics jointly with the Metrics Task Force of the Texas Association of Community Colleges (TACC) to evaluate the continued relevancy of each success point given various state-level policy changes, the addition of fields of study and the implementation of the co-requisite model in developmental education. This review should keep in mind the relevance to *60X30TX* goals and strengthening student success throughout the state.

State Colleges Draft Recommendation

Sector	2019-2018 Appropriations (millions)	2020-21 Appropriations (millions)	Change Amount (millions)	Percent Change
Texas Public State Colleges	44.1	47.0	2.9	6.5%

- The committee recommends increasing the funding to the State College formulas for the 2020-2021 biennium to \$47.0 million, which is an increase of \$2.9 million, or 6.5% as compared to the 2018-2019 biennium.
- Fund \$38.5 million to the State College Instruction and Administration formula for the 2020-21 biennium, which would be an increase of \$3.0 million, or 8.3 percent, compared to the \$35.6 million appropriated for the 2018-19 biennium.
 - ❖ This funding level assumes a rate of \$7.51 per contact hour. An increase of \$0.46 or 6.5 percent compared to the \$7.05 funded for the 2018-19 biennium.
 - ❖ This funding level assumes a contact hour growth rate of 4 percent for the following reasons: :
 - Three Early High School Campuses have opened since the fall 2016 semester. By year four of the programs over 1,000 students per year will graduate with an associate degree or certificate coupled with a high school diploma.
 - Prison credit offerings have expanded through a pilot PELL program.
 - Co-Enrollment to local high schools and charter schools has increased 256%.

- Workforce Development Programs have expanded through collaboration with local industry.
- The Continued partnership with Community in Schools of Southeast Texas (CISSET) provides a Site Coordinator to offer college and career services to high school students on all CISSET contracted campuses.
- Focus on enrollment and retention has been strengthened by establishing an Enrollment Management Plan, which expands the role of advisors and strategies to increase faculty/staff engagement with students.
- A program for students at risk who are reported by faculty to advisors has been developed; these advisors then reach out to the students to gain an understanding of the issues and design a plan for retention.

- ❖ The recommendation includes an estimated \$8.4 million in statutory tuition and \$30.1 million in general revenue.

The increase will provide support for the *60X30TX* plan by:

- Allowing the continued collaborative efforts between the colleges and high school campuses for dual enrollment and promotion of college attainment.
 - Continuing the development and implementation of programs based on the desirable skill needs of the local employer workforce.
 - Continuing efforts to set an early path to a college education by reaching out to high school students and parents, providing financial aid information, advising and career path counseling.
- Fund \$8.6 million to the Space Support formula and Small Institution supplement for the 2020-2021 biennium, which would be the same as appropriated for the 2018-19 biennium.
 - ❖ This funding level assumes a rate of \$5.36 per adjusted predicted square foot, representing an increase of \$0.09 or 1.7 percent compared to the \$5.27 funded for the 2018-19 biennium. The funding level assumes a 2.8 percent decrease for growth in adjusted predicted square feet between fall 2016 and fall 2018 and a 1.7 percent increase for inflation.
 - Split the recommended Space Support rate between “utilities” and “operations and maintenance” components using FY 2018 utility rates, update the utility rate adjustment factors using the FY 2018 utilities expenditures, and allocate the Space Support formula using the fall 2018 predicted square feet.
 - Fund the Small Institution Supplement using the same methodology and rate as the 2018-19 biennium.

Charge 2

Study and make recommendations for the appropriate funding level for, and the refinement of, Texas State Technical College System's returned value funding formula.

Committee Recommendation for Technical Colleges.

Sector	2018-2019 Appropriations (millions)	2020-2021 Appropriations (millions)	Change Amount (millions)	Percent Change
Texas Public Technical Colleges	143.5	179.1	35.6	24.8%

Administration and Instruction (A&I) and Space Support	2018-2019 Appropriations (millions)	2020-2021 Appropriations (millions)	Change Amount (millions)	Percent Change
General Revenue	106.7	142.7	36.0	33.7%
General Revenue-Dedicated	32.4	32.0	-.4	-1.2%
All Funds	139.1	174.7	35.6	24.8%

Small Institution Supplement	2018-2019 Appropriations (millions)	2020-2021 Appropriations (millions)	Change Amount (millions)	Percent Change
General Revenue	4.4	4.4	0.0	0%

Fund \$147.1 million in General Revenue and \$179.1 million in all funds for the 2020-2021 biennium, an increase of \$35.6 million, or 24.8 percent, which includes \$32.0 million of General Revenue-Dedicated.

- Fund \$129.5 million in General Revenue and \$161.5 million in all funds to the Texas State Technical College System (TSTCS) return value formula for the 2020-2021 biennium, an increase of \$35.6 million, or 24.8 percent, compared to the all funds appropriation of \$143.5 million for the 2018-2019 biennium.
 - ❖ The \$179.1 million All Funds recommendation includes an estimated \$32.0 million in General Revenue-Dedicated (statutory tuition and fees) equal to the amount appropriated in the Administration and Instruction and Space Support formulas for the 2018-2019 biennium.
 - ❖ The \$129.5 million General Revenue recommendation funds 35 percent of the \$370 million estimated 2011-2012 cohort Return Value, which is the same percentage of return value that would have been funded by the 2016-2017 biennium general revenue appropriation.
 - ❖ Fund \$4.4 million to the Small Institution Supplement using the same methodology and rate as the 2018-2019 biennium.

Charge 3

Study and make recommendations on the treatment of competency-based courses in formula allocations.

Committee Recommendation for Competency-Based Education

The CTCFAC recommends Competency Based Education (CBE) courses (not modules) be funded using the existing formula calculation and updated expenditure-based weights for the 2020-2021 biennium.

- Institutions offering competency-based courses should report hours to the Coordinating Board once the institution has an indication that the student has begun engaging with the course materials;
- Competency-based education courses may only be reported for funding if they are linked to coursework in the Academic Course Guide Manual (ACGM) or Workforce Education Course Manual (WECM).

Charge 4

Study and make recommendations on the efficacy of critical need fields as they relate to contact hour and success point funding.

Committee Recommendation for Adjustment of Critical Need Fields

The CTCFAC recommends that the Metrics Task Force of the Texas Association of Community Colleges be reconvened to provide feedback to the CTCFAC on Success Point metrics. It is recommended that at least two members of the CTCFAC whose appointments continue into 2019 be invited to join the Metrics Task Force for the Success Point discussions, which will include, but not be limited to, Success Point funding for critical fields and awards such as Field of Study. A staff member of the Coordinating Board with expertise in the calculation of Success Points should continue as a participant.

Charge 5

Study and make recommendations on a new formula to fund dual credit programs based upon the number of semester credit hours offered in dual credit by Texas State Technical College.

Committee Recommendation for Funding Texas State Technical Colleges Dual Credit

Sector	2018-2019 Appropriations (millions)	2020-2021 Appropriations (millions)	Change Amount (millions)	Percent Change
Texas Public Technical Colleges	0.0	3.7	3.7	NA

The CTCFAC found that TSTC favors the use of the Contact Hour method because of the System's familiarity with the approach. TSTC reports that the processes needed for collecting the requisite data for the Contact Hour approach and reporting of the data to the THECB, the LBB staff, and any other agencies is well known to TSTC and could be easily accomplished. The Contact Hour method is used by the community colleges, and therefore, provides an opportunity to provide consistency.

The Committee recommends using the Contact Hour method for funding Dual Credit for Texas State Technical College System. Accordingly, the CTCFAC recommends funding TSTC Dual Credit programs at \$3.7 million in General Revenue.

Charge 6

Review existing Coordinating Board data on dual credit program funding, including preliminary data available from the 2017-2018 dual credit study being conducted by contracted research organizations, and share insight on current dual credit funding mechanisms.

Committee Recommendation for Funding Community and State Colleges Dual Credit

Funding for community college courses awarded via dual credit (by secondary schools) should be based upon the current contact hour and success point formulas.

The CTC Workgroup of the Formula Advisory Committee studied the manner in which Dual Credit courses are funded at community colleges. This study was challenging without clearly articulated state-wide goals. Further, many research studies are active, focusing on quality, equity, funding and policy questions to help the state ensure dual credit programs fulfill their promise and position students for success.

The 85th Legislature charged the Commissioners of the Texas Higher Education Coordinating Board and Texas Education Agency with setting state-wide goals for dual credit. That work is ongoing, and the CTCFAC hopes that it will include an opportunity for input from community colleges, workforce (perhaps even the Commissioner of the Texas Workforce Commission), employers, universities, and our broader public.

The Committee reviewed an early draft report of the RAND Study for recommendations on funding; however, there were no clear funding recommendations at this time. The CTCFAC is aware of additional study being conducted by American Institutes for Research (AIR); however, its final report was not available at the time the committee made recommendations. Additionally, the statewide Dual Credit Task Force, led by The University of Texas System Administration and the Texas Association of Community Colleges, with representation across educational sectors statewide is focused on quality, equity, funding and policy questions to help the state ensure dual credit programs fulfill their promise and position students for success. Their work has yet to conclude, and no recommendations on funding have emerged at this date.

Community Colleges provide 93% of classes offered as dual credit, with the number of students taking classes for dual credit increasing. Members of the CTCFAC view dual credit as a key to making the state's strategic plan, *60X30TX*, a reality, as the reports from the above (as well as national) studies indicate dual credit students are very successful within classes offered as dual credit, post-high school collegiate entry, and baccalaureate degree completion.

The CTCFAC believes that a funding recommendation should be built upon established state-wide goals for dual credit, and which reflect the role of dual credit in achieving the attainment and completion goals of the *60X30TX* plan, as well as research on what works (RAND Study, UT Study, AIR Study, and national studies on dual credit). Identifying alternative funding methods for dual credit is a difficult task due to the diverse range of business models used at community colleges and some universities, and will require further study and discussions with all dual credit stakeholders. Further expansion of dual credit may require additional investments in order to continue to see the same outcomes. For example, the expansion of the Early College High School model is a substantial investment of resources that may require further study going forward.
