Automated Budget and Evaluation System of Texas (ABEST)

576 Texas A&M Forest Service

TEXAS LEADERSHIP

One of the primary roles of all branches of government is to help ensure the safety of its citizens. Nowhere is the fulfillment of this role more evident than in the Texas Legislature's and state leadership's dedicated support and direction to the Texas A&M Forest Service (TFS).

- The 84th Legislature increased grant funding under the Rural Volunteer Fire Department Assistance Program by \$5.75 million per year and helped increase volunteer fire departments' capacity to respond to Texas emergencies.
- Supplemental appropriations of \$7.45 million were also provided last legislative session to cover the TFS emergency response costs for the 2015 and 2016 Fire Seasons, Garland tornado and multiple floods responses.

When wildfires or other disasters occur -- Texas leaders, legislators and elected officials are there to support this agency, the firefighters and the citizens of Texas.

Thank you.

TEXAS WILDFIRE PROTECTION PLAN

TFS delivers wildfire response and protection through the Texas Wildfire Protection Plan (TWPP). First developed and tested nearly two decades ago, TWPP is a proven emergency response model utilizing continuous fire danger and risk analysis, mitigation, prevention and preparation, followed by a coordinated and rapid response. TWPP also recognizes the importance of building the local response capacity across the state, providing more protection for communities during initial response and reducing fire size and losses.

Primarily aimed at wildfire protection, TWPP also helps build and support all-hazard emergency response capabilities at the state and local levels – enhancing emergency response efforts for tornados, floods, hurricanes, winter storms and other events, as well as wildfires.

WILDFIRES & EMERGENCY RESPONSE

Disasters are measured in human impact – lives, homes and property. As one of the fastest growing states in the nation, Texas must also lead in emergency preparedness and response.

Since last Legislative Session, wildfire activity has continued to require extended mobilization of fire suppression resources into high-risk areas with Texas reporting 16,012 wildfires for 1,161,536 acres since January 1, 2017 (as of 7/5/2018). With over 90 percent of all Texas wildfires caused by human activity and 86% occurring within two miles of a community, the human impact of these wildfires is tremendous – with 9,569 homes threatened by wildfires and saved by local and state responders.

TFS is also called upon by the Texas Division of Emergency Management (TDEM) to support state response efforts to a wide variety of disasters and emergency events such as floods, tornados, ice storms and hurricanes. TFS provides operational resources, such as saw crews and heavy equipment to clear roads of ice and storm debris, as well as incident management teams. Resource and mission tracking, logistics support, safety and organization are needed on any event. The same organization structure used to manage large wildfires is used to support other types of disaster response. Coordinated through TDEM, TFS incident management teams are used to support local jurisdiction and state disaster district operations.

Administrator's Statement

86th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

576 Texas A&M Forest Service

HURRICANE HARVEY

Hurricane Harvey changes everything.

The agency's disaster response capabilities were tested to the extreme during Hurricane Harvey. TFS filled 344 mission requests for the State in both emergency response and – in a new expanded roll - recovery:

Response

- Provided incident management personnel to the State Operation Center, DPS Disaster Districts and local Emergency Operations Centers across the disaster area (total of 21 state and local operations centers)
- Mobilized and coordinated out-of-state Incident Management Teams operating under FEMA mobilization orders (placed TFS personnel with 13 out-of-state incident management teams to provide guidance and coordination with state)
- TFS Incident Management Teams coordinated operation of commodity staging areas shipping water, ice and meals to points-of-distribution across the disaster area (total of 1,921 truckloads of food, water and ice at nine locations)
- Provided a Forestry Strike Team to identify storm-damaged trees on public lands in Rockport, Refugio and Victoria that posed an imminent or probable danger to public safety, allowing local resources to effectively clear the area for safe re-entry (identified over 3,000 hazard trees and provided treatment recommendations)
- Coordinated the mobilization and deployment of Texas fire department resources from across the state under Texas Intrastate Fire Mutual Aid System (TIFMAS) to provide emergency services for Harvey-impacted communities (total of 974 firefighters, 145 engines and 44 boats from 137 fire departments responded to 2,056 emergency service calls (rescue, structure fire, medical, etc.)).

Recovery

- Worked with Texas fire associations to conduct damage assessments of Harvey-impacted fire departments and coordinated grants and equipment donations to help restore operations (total of \$2 million in grants and equipment, including fire trucks, protective gear and rescue tools, provided to impacted fire departments through TFS fire department assistance programs).
- Supported the A&M System led ReBuild Texas Commission by developing the software application used by Texas A&M AgriLife Extension for the real-time reporting and tracking of local government issues, questions and needs. Similar to the TFS applications developed to manage commodities and FD damage assessments, the ReBuild Texas application organized thousands of reports and responses as AgriLife Extension staff worked with communities and local officials across the damage area.
- Partnered with Texas A&M Engineering Extension (TEEX), TDEM and TxDOT to manage the burning of vegetative debris in Refugio and Aransas Counties (total of 80,940 cubic yards (approximately 24,000 pick-up loads) of debris burned over the five months operation).

RESPONSE IN TEXAS – TIERED APPROACH – TRIED AND TRUE

Texas uses a tiered approach to emergency response and wildfire suppression, relying on strong interagency partnerships and working relationships. Local fire departments and counties are the first responders, with state response being activated as fires or conditions exceed the local capacity to control. TFS is the lead state agency for wildfire response in Texas, with strategically placed resources across the state. TFS Predictive Services and Planning & Preparedness departments monitor wildfire occurrence and weather conditions statewide. As emergency response activity increases, resources from other state agencies, such as the Texas Department of Public Safety, the Texas Department of Transportation and Texas Military Department are mobilized through TDEM. As the capacity of state resources is exceeded, out-of-state resources are brought in to meet essential needs.

Administrator's Statement

7/26/2018 2:19:37PM

86th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

576 Texas A&M Forest Service

Over the last twelve years, TFS and TDEM have been working to make better statewide use of local fire and emergency management resources. Utilizing local-level Texas emergency responders and equipment from areas of the state unaffected by current disasters, TDEM and TFS are creating the surge capacity to meet essential emergency response needs with rapidly responding Texas-based resources. The Texas Intrastate Fire Mutual Aid System (TIFMAS) and the Regional Incident Management Team (RIMT) programs are highly successful examples of Texans helping Texans and are national models.

LOCAL RESPONDERS

Local fire departments are the first line of defense against wildfires across the state. Currently there are 1,852 fire departments in Texas - 1,395 of these are fully volunteer. Of the 55,000 local firefighters in the state, over half are volunteers--dedicated men and women who serve their state and communities, while holding other jobs. Many departments operate with aged, battle-worn equipment and very limited funding.

TFS administers a number of fire department assistance programs that set national standards for providing training, equipment and grants to help build their capacity to respond. The largest and most impactful of these programs is the Rural VFD Assistance Program. This program was created in 2001 by the 77th Texas Legislature. It provides pass-through grants and is funded through a special assessment to the insurance industry (Fund 5064). Since 2002, grants for more than 1,824 fire trucks, 69,356 sets of protective gear (structural and wildland) and 78,143 training tuitions have been awarded to volunteer fire departments across the state. The continuing needs are great as evidenced by the \$198 million in unfunded requests. The Texas Legislature currently provides funding for grants under this program at \$34.5 million per biennium.

Thank you!

REGIONAL RESPONDERS

TIFMAS:

In 2007 the 80th Texas Legislature passed SB 11, establishing the framework for mutual aid response in Texas. Operating under this legislative direction, TDEM, TFS and the Texas Fire Chief's Association developed TIFMAS. Maintained by TFS, the program includes training, qualification and mobilization systems to make statewide use of local resources. The program was first used during Hurricane Ike and has since been used in response to the Presidio flooding, Hurricane Alex, the plant explosion at West, 2016 and 2017 flooding, Hurricane Harvey and wildfires in 2009, 2011, 2012, 2015, 2016, 2017 and 2018. Since 2008, TIFMAS mobilizations have provided 1,071 fire engines, 45 boats and 4,341 firefighters during state-led emergency response to disasters. By mobilizing local resources from unaffected areas, TIFMAS fills a critical surge capacity need that cannot be met using out-of-state resources. A side benefit is the "pay-it-forward" attitude developed by recipients of TIFMAS assistance in their enthusiastic willingness to deploy to other areas of Texas when called.

The following legislative session, the 81st Texas Legislature enacted legislation allowing TFS to provide grants for fire trucks, protective gear and training to municipal fire departments who agree to mobilize under TIFMAS to support statewide and regional emergency response. Developed with support from the Texas Fire Chiefs Association, State Firemen's and Fire Marshals' Association and the Texas Association of State Firefighters, these grants directly benefit both local and statewide response capabilities. Since the inception of the TIFMAS grants, TFS has awarded \$9 million in grants to fire departments, including 44 engines and 7,235 training tuitions.

RIMTs:

The Texas RIMT program is built upon the neighbor-helping-neighbor model. The RIMT program maintains a network of trained incident management teams and personnel from local and municipal entities within Texas. Initiated in 2006 by Governor Rick Perry's executive order, these personnel are utilized to supplement state and

Administrator's Statement

7/26/2018 2:19:37PM

86th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

576 Texas A&M Forest Service

regional emergency response operations. The program is maintained by TFS using homeland security funds from TDEM. The Texas RIMT program currently has 18 teams available for mobilization. To date, RIMT personnel have helped fill critical response needs on 24 all-hazard incidents (hurricanes, floods, tornados, ice storms, etc.) in addition to supporting Texas wildfire operations in 2008, 2009, 2010, 2011, 2012, 2015, 2017 and 2018.

Through TIFMAS and RIMT, local responders across the state stand ready to assist communities in times of need. Both programs were actively used as part of the state's response to Hurricane Harvey.

SUPPLEMENTAL APPROPRIATIONS REQUEST – WILDFIRE AND EMERGENCY RESPONSE BILLS

Drought, fire weather and large wildfires continue to impact Texas – with active fires seasons in 2017 and 2018 requiring the mobilization of ground and aviation resources to assist with fire suppression. Long-term forecast calls for a continued dry summer with an increased potential for significant wildfire activity. Thanks to the foresight of the Texas Legislature and recent increases in firefighter staff, TFS has been able to maintain an active ground response with minimal reliance on costly out-of-state resources. The mobilization and use of firefighting aircraft however, is not within the normal state appropriations pattern to the agency.

In addition to wildfire suppression, TFS responded to floods, tornados, winter storms and Hurricane Harvey as requested by the state through the TDEM.

While final billing from the U.S. Forest Service and reimbursements from FEMA have not yet been received, we estimate \$35.6 million will be needed to cover these bills.

EXCEPTIONAL ITEM

Increased Regional Response Capacity – TIFMAS Grants:

TFS requests an additional \$2 million for 2020-2021 for TIFMAS grants from Insurance Companies Maintenance Tax and Insurance Department Fees (Fund 36), the same source as the current TIFMAS grants funding. This additional funding would provide 3-4 fire engines per year in strategic locations across the state. Texans helping Texans!

10% REDUCTION

A 10% funding reduction would have an \$11.3 million impact on TFS for the 2020-2021 Biennium.

- TFS would have to make a \$6.4 million reduction in equipment purchases, which would delay the much needed replacement of an aging and undersized dozer fleet. The need to replace this equipment has been heightened by the loss of timber industry fire suppression equipment. Replacing and upgrading existing equipment is critical to wildfire response and firefighter safety.
- TFS would have to make a \$4.9 million reduction in fire department grants. This would reduce the number of grants for firefighting apparatus that the agency could fund and would cause the current list of \$198 million in unfunded requests to grow. It would also reduce grants for firefighter insurance.

Reductions in the Volunteer Fire Department Assistance Fund and the Rural Volunteer Fire Department Insurance Fund would result in either corresponding reductions in revenues or growth in the GR-Dedicated reserve balances. Given this, we recommend that these two GR Dedicated funds be excluded from the 10% reduction.

Reductions in Insurance Companies Maintenance Tax and Insurance Department Fees (a self-leveling fund) would result in corresponding reductions to revenues. Given this, we recommend that these funds be excluded from the 10% reduction.

576 Texas A&M Forest Service

BACKGROUND CHECKS

TFS is authorized to obtain from the DPS secure site criminal history record information maintained by DPS that relates to an applicant for a security-sensitive position. [Government Code section 411.094 and Education Code section 51.215]

TFS has designated all budgeted, seasonal and student worker positions as security sensitive. Prior to extending a final offer of employment, the agency obtains criminal history information. Adverse information is reviewed by appropriate agency management prior to obtaining final approval for hiring.

THE TEXAS A&M UNIVERSITY SYSTEM FUNDING INITIATIVES

Base Funding – Maintaining an equitable, reliable, and predictable source of funding for higher education is critical to allow our institutions to plan and grow, teach and support our students through to graduation, and pursue excellence. This base funding is provided by the State through both formula and non-formula support.

Formula funding, which accounts for 80 percent of our institutions' net GR appropriations, supports the core instructional, operational and infrastructure costs at our institutions and is not keeping pace on a per student basis as enrollments grow. And that is before considering inflation. Consistent formula appropriations that fund student enrollment growth and inflation are needed to avoid adverse impacts on students' success. Our highest priority is additional funding in the formulas to cover student enrollment growth through the spring 2019 semester. Any additional funding you can provide through the formulas to increase the rates to cover the cost of inflation on the state's share of the cost of educating students will help to offset pressure on the portion of core costs borne by tuition .

Until formula funding can keep pace with enrollment growth and inflation, non-formula support remains a critical source of base funding. The Legislature has already enacted two recent major step downs on non-formula support items. For the general academics, these items were cut by approximately one-third last session. These cuts are on top of the 25 percent reductions in special items made during the 2011 session. We request that non-formula support items be maintained at current levels in the upcoming biennium.

We also request consideration of expanding the Small Institution Supplement – both in lengthening the runway to include institutions up to 20,000 headcount and increasing the amount of funding provided through this formula supplement. Institutions with fewer than 20,000 students do not have the economies of scale of a research or emerging research institution and therefore are not able to operate on the formula-only funding. Additional funding through this mechanism could be an important tool in getting institutions to a point of financial stability as they grow to the 20,000 student enrollment.

Even though the A&M Agencies do not have an operations formula, they need base funding support much in the same manner as the formulas that provide basic, on-going support for the academics and health related institutions.

Outcomes Based Funding - Our Board is increasingly incorporating performance and outcomes into our internal budget review processes. We welcome a continued dialog on this issue during the legislative session. However we believe there are several fundamentals that are important in consideration of any performance funding system:

- Any performance funding should be an incentive bonus on top of current formula funding. Again, formula funding is not keeping pace on a per student basis as enrollments grow. Reallocating existing formula funding for performance will negatively impact some of the very institutions that performance funding is trying to incentivize.
- A fundamental consideration with any performance funding model is the need to avoid penalizing institutions already performing at a high level vs . putting in place a system that rewards those that have room to improve.
- Any performance funding model should be implemented over an extended period of time.

Automated Budget and Evaluation System of Texas (ABEST)

576 Texas A&M Forest Service

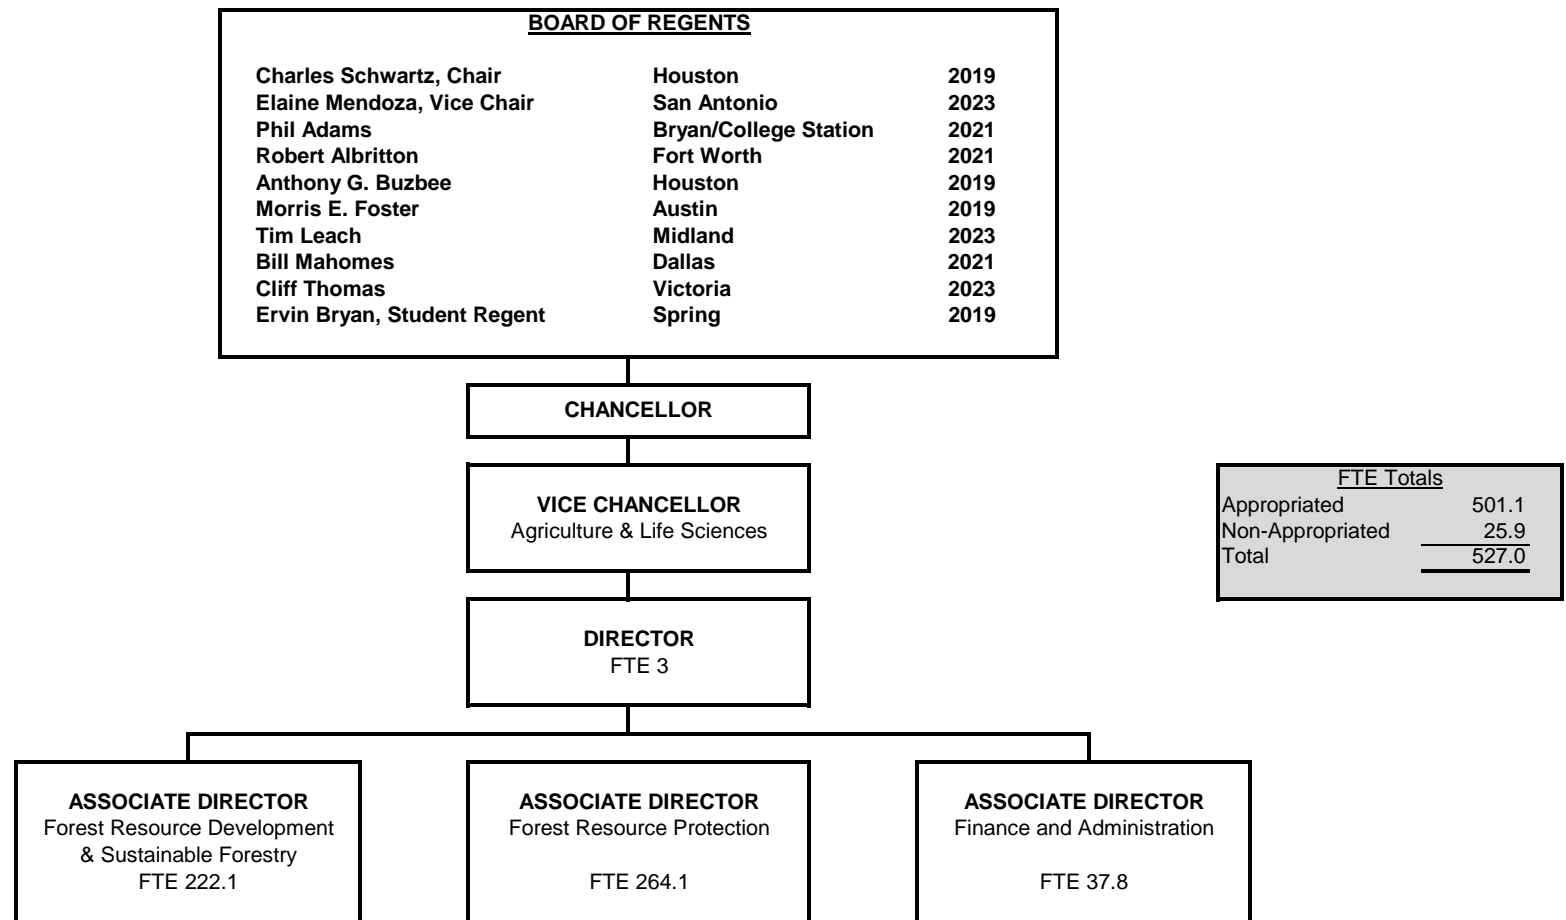

Higher Education Group Health Insurance – We request funding to cover increases in covered enrollments and in health care costs that are beyond our control . We would also request restoration of some of the ever-widening gap in funding level for our employees as compared to the employees in the state employees ERS group insurance plan.

Student Financial Aid – We request increased support for student financial aid because it is vitally important for our students and families and will help students graduate with lower debt. However, since it is a method of paying for tuition and fees and does not increase much needed funding for the universities, we request increases to TEXAS grants and other financial aid programs be made in conjunction with funding the formula that provides the state's share of the costs of educating students .

The Texas A&M Forest Service is a member of the Texas A&M University System and is governed by a Board of Regents. The current Regents are listed in the organizational chart.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Very high demand by private forest landowners for professional forestry guidance and forestry services causes TFS to place high priority emphasis on this strategy . This is accomplished by a strong technical assistance program where professional foresters provide timely, science-based information to Texas landowners. Major efforts are also directed to attracting new forest industry to Texas through resource assessments, evaluation of new products and markets, and use of alternative species.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Texas' demand for forest resources continues to increase. We currently supply about 30% of our own wood needs and must rely on imports from other states and Canada. TFS will lead a coordinated effort, joining all aspects of the forestry community, to meet these challenges and prepare Texas forest landowners for the future. Fragmentation of the forest land base, access to markets, and increased demands are but a few factors emphasizing the critical need for leadership, technical assistance and accurate resource information if non-industrial private owners are to meet the future forest needs of Texas.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Urban and community forestry programs have been expanded into every major population center of Texas because of tremendous public demand and the availability of federal funds for this purpose. In addition, across the non-forested portion of the state, numerous farmers and ranchers annually benefit from professional assistance, continuing education and windbreak tree seedlings. All of these forestry practices enhance air quality, wildlife habitat and overall quality of living.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Environmental concerns are dominant among most Texans, and it is imperative that TFS take a positive leadership role in dealing with stewardship of urban and other tree resources. Eighty-four percent of Texans live on three percent of the land. As our population continues to grow beyond 28 million, TFS must take an increased leadership role in building community capacity within these urban/wildland interface areas to sustain the environmental quality and protect the lives and property of our urban citizens.

CODE	DESCRIPTION	Exp 2017	Est 2018	Bud 2019	BL 2020	BL 2021
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

Destruction and damage to Texas forest and tree resources by insect and disease pests can exceed actual losses by wildfire. TFS forest health program is primarily concerned with providing technical assistance to Texas landowners regarding southern pine beetle, oak wilt, and a host of other forest and tree pests.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Southern pine beetle activity is cyclical, and Texas should see a significant upswing in this destructive pest's activity over the next few years. Oak Wilt continues to threaten metropolitan areas of Houston, San Antonio and Fort Worth, as well as Austin and the Hill Country area. State funds are needed to help reduce the impact of this disease. Miscellaneous pest problems are addressed as they occur.

STRATEGY DESCRIPTION AND JUSTIFICATION:

TFS delivers wildfire response and protection through TWPP. TFS first launched TWPP as a pilot program more than a decade ago and it is now a national model for state wildfire protection. TWPP is a tested and proven emergency response model emphasizing ongoing analysis, mitigation, prevention and preparation, followed by a coordinated and rapid response. TWPP also recognizes the importance of building the local response capacity across the state, providing more protection for communities during initial response and reducing fire size and losses. TFS provides leadership and wildfire protection on 156 million acres across Texas. In addition, TFS actively cooperates with the TDEM to respond to any emergency when needed.

576 Texas A&M Forest Service

GOAL: 2 Protect Forest / Tree Resources, Citizens, and Property
 OBJECTIVE: 1 Reduce Forest / Tree, Property, and Life Losses from Wildfire Service Categories:

CODE	DESCRIPTION	Exp 2017	Est 2018	Bud 2019	BL 2020	BL 2021
------	-------------	----------	----------	----------	---------	---------

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Many changes in recent years impact the wildfire prevention and suppression programs of TFS. Below are listed only a few for emphasis:

1. Population/Demographics: Currently at 28.3 million and growing rapidly, every part of the state is impacted by the sheer number of people. With over 90% of wildfires started by man, increased population means increased dangers of wildfire.
2. Wildland Urban Interface: Where the country meets the city, there is a significant increase in the risk of disaster due to wildfire. A short drive in the hills west of Austin graphically demonstrates this danger. Spatial analysis of Texas wildfires show that 86% of wildfires occur within 2 miles of a community.
3. Expanding Demands: Wildfires, hurricanes, floods and occurrences make Texas one of the three leading natural disaster states in the nation. This places a significant additional burden on Texas fire departments and TFS for all-hazard incident response. New, innovative approaches must be used to meet expanding demands and to protect the citizens we serve.

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

TFS provides the only major source of support and assistance to its valuable volunteer fire department (VFD) partners. This support and assistance includes training, equipment, coordination and cost-sharing for needed equipment and supplies. The Rural VFD Assistance Program is the largest VFD grants program administered by TFS. It is funded through a special assessment to the insurance industry and provides funding for equipment and training. The Rural VFD Insurance Program is a much smaller program and is also administered by TFS. It is funded through a tax on fireworks sales and provides funding for workers comp and life insurance.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Local fire departments are the first line of defense against wildfires across the state. Currently there are 1,852 fire departments in Texas - 1,395 of these are fully volunteer. Of the 55,000 local firefighters in the state, nearly 30,000 are volunteers; dedicated men and women who serve their state and communities, but have other jobs. Many departments operate with aged, battle-worn equipment and very limited funding.

CODE	DESCRIPTION	Exp 2017	Est 2018	Bud 2019	BL 2020	BL 2021
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

In 2007 the 80th Texas Legislature passed SB 11, establishing the framework for mutual aid response in Texas. Operating under this legislative direction, TDEM, TFS and the Texas Fire Chief’s Association developed TIFMAS. Maintained by TFS, the program includes training, qualification and mobilization systems to make statewide use of local resources. The program was first used during Hurricane Ike and has since been used in response to the Presidio flooding, Hurricane Alex, the plant explosion at West, 2016 and 2017 flooding, Hurricane Harvey and wildfires in 2009, 2011, 2012, 2015, 2016, 2017 and 2018. Since 2008, TIFMAS mobilizations have provided 1,071 fire engines, 45 boats and 4,341 firefighters during state-led emergency response to disasters. By mobilizing local resources from unaffected areas, TIFMAS fills a critical surge capacity need that cannot be met using out-of-state resources.

The following legislative session, the 81st Texas Legislature enacted legislation allowing TFS to provide grants for fire trucks, protective gear and training to municipal fire departments who agree to mobilize under TIFMAS to support statewide and regional emergency response. Developed with support from the Texas Fire Chiefs Association, State Firemen’s and Fire Marshals’ Association and the Texas Association of State Firefighters, these grants directly benefit both local and statewide response capabilities. Since the inception of the TIFMAS grants, TFS has awarded \$9 million in grants to fire departments, including 44 engines and 7,235 training tuitions.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

TIFMAS Mobilizations are supported in Government Code Section 418.110 and Sub-Chapter E-1 and the State Emergency Management Plan. This program directly benefits both local and statewide response capabilities, reducing the reliance on out-of-state resources during periods of high fire danger.

TOTAL, METHOD OF FINANCING		\$1,000,000	\$1,000,000

DESCRIPTION / JUSTIFICATION:

In 2007 the 80th Texas Legislature passed SB 11, establishing the framework for mutual aid response in Texas. Operating under this legislative direction, TDEM, TFS and the Texas Fire Chief's Association developed TIFMAS. Maintained by TFS, the program includes training, qualification and mobilization systems to make statewide use of local resources. The program was first used during Hurricane Ike and has since been used in response to the Presidio flooding, Hurricane Alex, the plant explosion at West, 2016 and 2017 flooding, Hurricane Harvey and wildfires in 2009, 2011, 2012, 2015, 2016, 2017 and 2018. Since 2008, TIFMAS mobilizations have provided 1,071 fire engines, 45 boats and 4,341 firefighters during state-led emergency response to disasters. By mobilizing local resources from unaffected areas, TIFMAS fills a critical surge capacity need that cannot be met using out-of-state resources. A side benefit is the "pay-it-forward" attitude developed by recipients of TIFMAS assistance in their enthusiastic willingness to deploy to other areas of Texas when called.

The following legislative session, the 81st Texas Legislature enacted legislation allowing TFS to provide grants for fire trucks, protective gear and training to municipal fire departments who agree to mobilize under TIFMAS to support statewide and regional emergency response. Developed with support from the Texas Fire Chiefs Association, State Firemen's and Fire Marshals' Association and the Texas Association of State Firefighters, these grants directly benefit both local and statewide response capabilities. Since the inception of the TIFMAS grants, TFS has awarded \$9 million in grants to fire departments, including 44 engines and 7,235 training tuitions.

EXTERNAL/INTERNAL FACTORS:

TIFMAS Mobilizations are supported in Government Code Section 418.110 and Sub-Chapter E-1 and the State Emergency Management Plan. This program directly benefits both local and statewide response capabilities, reducing the reliance on out-of-state resources during periods of high fire danger. Currently, the program has \$22 million in unfunded requests. This exceptional item funding would provide an additional 6-8 fire trucks and 1,500 firefighter training grants per biennium.

B. Assessment of Fiscal Year 2016 - 2017 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained or exceeded two of five, or 40% of the applicable agency HUB procurement goals in FY 2016.
 The agency attained or exceeded three of five, or 60% of the applicable agency HUB procurement goals in FY 2017.

Applicability:

The "Building Construction" category was not applicable to agency operations in fiscal year 2016, since the agency did not have any purchases related to that category. The "Heavy Construction" category was not applicable to agency operations in fiscal year 2017, since the agency did not have any purchases related to that category.

Factors Affecting Attainment:

As an Emergency Response Agency, a substantial amount of purchases are for highly specialized equipment and services required to support agency operations in wildfire suppression/prevention, forest development, and other forestry related operations. TFS continues to experience a challenge in locating the HUB vendors that can actually bid on and supply these specialized items. Additionally, emergency purchases that occur in remote areas of the state, continue to create situations where (a) the available HUB vendor base is very limited or non-existent, or (b) there is inadequate time to locate HUBs. In FY 16 and 17, the State of Texas Retail Fuel Purchase Contract was not issued as a term contract, it remains identified only as a CCG Contract. All state agencies and institutions of higher education are required by law to utilize the State's fuel contract. In FY 16 this was a \$944,286.91 impediment against our HUB efforts and in FY 17 this was a \$1,025,272.07 impediment.

"Good-Faith" Efforts:

FY 2016-17 the agency made the following good faith efforts to comply with statewide HUB procurement goals per 1 TAC Section 111.13(c): 1) Insured that all delegated purchases were in accordance with adopted CPA rules and procedures in regard to HUB programs; 2) Identified potential HUB subcontracting opportunities

that require subcontracting plans for contracts of \$100,000 or more and, where such opportunities existed, provided potential bidders with referenced list of certified HUBs for subcontracting; 3) Participated in TAMUS HUB Performance Improvement Plan activities; 4) Co-sponsored and participated in multiple System and Statewide HUB Economic Forums, including: ACCESS 2016 in Arlington on 5/9&10/2016 and ACCESS 2017 in Arlington on 5/8&9/2017, Bexar County SMWVBO HUB Conference EOF in San Antonio on 12/9/2015 and 12/7/2016, and the TAMU System HUB EOF held at Prairie View A&M University on June 14 & 15, 2016, and held in College Station on October 5th, 2016.

USE OF HOMELAND SECURITY FUNDS

All Homeland Security expenditures are contained within strategies 2-1-1 TWPP - TFS Operations, 2-1-2 TWPP - VFD Grants, 2-1-3 TWPP - TIFMAS Grants, and 2-1-4 Wildfire Emergency Funds. These funds are used to provide statewide leadership for an effective forest and rural land wildfire prevention, detection, and suppression program and emergency response management.

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			PROGRAM AMOUNT		TARGET
	2020	2021	Biennial Total	2020	2021	Biennial Total	2020	2021	Biennial Total

1 Texas Wildfire Protection Plan - Operations

Category: Programs - Delayed or Deferred Capital Projects

Item Comment: The Insurance Companies Maintenance Tax and Insurance Department Fees is a self-leveling fund; a reduction in the appropriation will be offset by a corresponding reduction in revenue. We request that these Funds be exempted from the 10% reduction.

A 2.5% reduction in General Revenue will require the agency to reduce capital equipment purchases, which will delay the needed replacement of dozers and transports.

Strategy: 2-1-1 Texas Wildfire Protection Plan - Texas A&M Forest Service Operations

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$257,679	\$257,680	\$515,359			
8042 Insurance Maint Tax Fees	\$539,229	\$539,230	\$1,078,459	\$539,229	\$539,230	\$1,078,459

2 Texas Wildfire Protection Plan - Volunteer Fire Department Grants

Category: Programs - Grant/Loan/Pass-through Reductions

6.I. Percent Biennial Base Reduction Options

10 % REDUCTION

86th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: 7/26/2018
Time: 1:41:51PM

Agency code: 576 Agency name: Texas A&M Forest Service

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			PROGRAM AMOUNT		TARGET
	2020	2021	Biennial Total	2020	2021	Biennial Total	2020	2021	Biennial Total

Item Comment: The Volunteer Fire Department Assistance Fund and Rural Volunteer Fire Department Insurance Fund are statutorily restricted. A reduction in appropriations from the Volunteer Fire Department Assistance Fund will be offset by a reduction in revenue; a reduction in appropriation from the Rural Volunteer Fire Department Insurance Fund will be added to the fund's unappropriated reserves. We request that these Funds be exempted from the 10% reduction.

A 2.5% reduction in appropriations from the Volunteer Fire Department Assistance Fund and Rural Volunteer Fire Department Insurance Fund will result in a reduction in grant assistance provided to volunteer fire departments. The ultimate impact is a reduction in the amount of fire trucks, equipment and insurance that fire departments (primarily VFDs) are able to purchase for their firefighters, which can have an impact on firefighter safety and the wildfire/emergency response capabilities of the state.

Strategy: 2-1-2 Texas Wildfire Protection Plan - VFD Grants

Item Comment: The Volunteer Fire Department Assistance Fund and Rural Volunteer Fire Department Insurance Fund are statutorily restricted. A reduction in appropriations from the Volunteer Fire Department Assistance Fund will be offset by a reduction in revenue; a reduction in appropriation from the Rural Volunteer Fire Department Insurance Fund will be added to the fund's unappropriated reserves. We request that these Funds be exempted from the 10% reduction.

A 2.5% reduction in appropriations from the Volunteer Fire Department Assistance Fund and Rural Volunteer Fire Department Insurance Fund will result in a reduction in grant assistance provided to volunteer fire departments. The ultimate impact is a reduction in the amount of fire trucks, equipment and insurance that fire departments (primarily VFDs) are able to purchase for their firefighters, which can have an impact on firefighter safety and the wildfire/emergency response capabilities of the state.

Strategy: 2-1-2 Texas Wildfire Protection Plan - VFD Grants
