788 Lamar State College - Port Arthur

Lamar State College-Port Arthur (LSCPA) is a two-year institution of higher education and a member of The Texas State University System. Lamar State College-Port Arthur serves the educational needs of the greater Port Arthur area and provides an affordable, accessible, and quality education that prepares students to continue their education at a four-year institution and employment in a changing economy and workforce. The College offers associate degrees as well as academic courses that transfer to four-year institutions. LSCPA serves over 5,600 students annually.

Lamar State College-Port Arthur, located in Port Arthur, is positioned adjacent and parallel to the intercoastal canal. The historic campus has 29 buildings with 134,686 square feet of instructional space. Four buildings are more than 100 years old. Port Arthur's population of 53,818 is described as economically depressed with an unemployment rate of 12.1% in January 2018 and a median household income of \$32,003 in 2018. At least 78% of the student population in Port Arthur Independent School District qualified for the Free and Reduced Lunch Program.

The student population at LSCPA is a diverse population of white, black, and Hispanic ethnic groups which represents 34%, 27%, and 31% of the student population, respectively. Much of the student body arrives on the steps of the College with multiple barriers to success which include low socioeconomic status, academically underprepared, at-risk ethnic groups, and first generation college students.

Hurricane Harvey made landfall in Port Arthur on August 29, 2017 and proved to be the most damaging storm in history to Port Arthur. Approximately 70 inches of rain accumulated in the drainage system and ultimately the businesses and homes in Port Arthur. Fortunately, the LSCPA campus had minor damage; however, virtually every LSCPA student was negatively impacted by Hurricane Harvey. The Carl A Parker Center on LSCPA's campus became a shelter for evacuees due to the flooding of the designated evacuation center for Port Arthur, Texas. More than 1,200 Port Arthur residents were placed in what became "Tent Cities" at two separate locations. The City of Port Arthur was fighting to keep its citizen, but in the end many were moved to locations around the State. Although the tents are no longer present, it is estimated that there are still approximately 5,000 residents not in their homes and/or who have not returned to Port Arthur.

There have been several positive developments since the most recent Legislative Session. The College created a Workforce Training and Continuing Education Department. As a result, contact hours generated by workforce training programs have increased by 484% and provided training for 3,992 students. We implemented a recruiting plan to improve enrollment which has produced growth rates of 14% and 12% for the 2016 and 2017 Fall Semesters, respectively. The number of dual enrolled partnerships has increased and LSCPA's agreement with Port Arthur Independent School District (PAISD) to offer an Early College High School (ECHS) is beginning its third year. The Board of Nurse Examiners approved our request to initiate a vocational nursing program which enrolled its first class and has since been approved to increase the enrollment. The Surgical Technician Program was, likewise, approved to increase enrollment. The Department of Education approved LSCPA to award Second Chance Pell Experiment Grants for inmates at the Federal and State penal institutions.

LSCPA's partnerships with the local school districts have developed into a robust dual enrollment program that has grown 207% since the 83rd Legislative Session approved HB 5. LSCPA continues to work with PAISD to offer an ECHS. The majority of the ECHS students are categorized as at-risk students. The first cohort will graduate in 2020. Students who enroll in the ECHS in the 9th grade will have the opportunity to earn an Associate of Arts Degree or an Associate of Applied Science Degree. By the 4th year of the ECHS, the anticipated enrollment is 400 students. The college courses in the ECHS are taught on the LSCPA campus and a dedicated PAISD high school campus adjacent to the College campus. Graduates of the ECHS will be debt free. In addition, the ECHS supports the goal of the Higher Education Coordinating Board 60x30TX PLAN.

In the past year, the campus was fortunate to apply and receive two grants, the Jobs and Education for Texans (JET) Grant and a Hurricane Harvey Grant awarded by the Texas Economic Development Administration. The JET Grant of \$169,000 will be used to purchase much needed simulation equipment for the Nursing Programs while the

788 Lamar State College - Port Arthur

EDA Hurricane Harvey Grant of \$1.6 million dollars will fund 80% of a \$2 million dollar state-of-the-art Industrial Training Facility that will support the Process Operating Program and the Instrumentation Program.

LSCPA is grateful for the continued support from the Texas Legislature. The Legislature's commitment to capital funding and operational funding is key to providing low cost, high quality educational opportunities. Given our unique structure in Texas as a 2-year college without a tax base, we are asking the Legislature to continue their investment in our mission by increasing our instruction formula rate to a level that reduces our reliance on tuition and bring us more in line with our Community College peers. Additionally, it is requested that the Legislature provide sufficient appropriations to cover the full cost of the Higher Education Group Insurance Program (HEGI).

The College constructed a state-of-the-art facility that houses four industrial technology programs that was made possible by the authorization of an \$8 million TRB provided by the Eighty-Fourth Legislature. Aging facilities makes your continued support for future capital projects very much appreciated.

LSCPA strives to provide a safe environment for students, visitors, faculty, and staff. In an effort to maintain a safe environment, LSCPA conducts criminal background and E-Verify checks on individuals hired and for vendors who have permanent staffing on campus.

Impact of Potential Ten Percent Biennial Base Reduction:

In the last few years, the College has eliminated 45 FTEs from the operating budget which represents 21.5% of our workforce. We have outsourced our custodial and grounds staff, implemented additional layers of expenditure approvals to cut unnecessary spending, and required staff to perform other duties as assigned to help fill vacant or eliminated positions with no additional pay. A fiscal year 2020-2021 10% reduction of \$441,939 would require the College to eliminate mission critical departments and further reduce faculty and staff. Compensation levels are below market for current faculty and the inability to offer comparable wages affects the quality of applicants and the ability to keep experienced faculty and staff.

In addition to Formula Funding, Lamar State College - Port Arthur is submitting four exceptional item requests for consideration:

1. CENTER FOR WORKFORCE TRAINING - FY2020-\$1,500,000 FY2021-\$300,000

To meet the demands of our workforce training department, which has grown 484% since its 2015 inception, the College has targeted a location that is accessible to many and will allow for program expansion in the instructional fields of construction trade, industrial maintenance, and commercial truck driving.

Our program offers fast-track training designed to help jobless individuals obtain employment in the shortest possible period. To achieve this goal we target job training on the Texas Workforce Commission High Demand job list. The Center for Workforce Training and Continuing Education Department offers classes designed to allow existing workers to learn new skills, excel in their position and strive for promotion. The Center for Workforce Training would allow us to supplement our existing system and impact our community exponentially. This new center would provide space for the rapidly growing demand of our Commercial Driving Academy by meeting needs which includes the creation of a commercial driving testing facility.

2. CONCURRENT ENROLLMENT GRANT - FY2020-\$700,000 FY2021-\$700,000

The College requests \$1,400,000 to support our concurrent enrollment programs that assist high school students with pursuing college classes. A significant number of high school students in our area qualify as first generation college students. Most of the potential students are economically disadvantaged and are part of an under

788 Lamar State College - Port Arthur

represented demographic group. They have no familiarity with higher education and often lack the confidence to attempt college studies. Furthermore, there is continuous pressure to offer a significantly reduced tuition rate or zero tuition so high school students upon graduation will have no debt. The current contact hour funding rate does not support a reduced or zero tuition rate. Necessary academic support and student development services will not be available to support the instruction and operating needs of the program without this non-formula support. These funds will be used to assist several types of students: vocational/technical students pursuing a course of study defined by HB 5, students participating in an early college high school experience, and dual credit students seeking to accelerate their progress toward a four-year degree. These funds will assist the College in meeting the goals outlined in the 60x30TX plan.

3. HURRICANE HARVEY RECOVERY ASSISTANCE - FY2020 -\$696,565 FY2021 \$696,565

Enrollment at LSCPA has been increasing since the Fall 2015. The College has experienced positive growth rates of 14% and 12% each fall semester. However, subsequent registrations for the Fall 2017 have declined drastically following Hurricane Harvey. The College anticipates a continued enrollment loss resulting from the loss of students that did not register and will not continue their education through the Fall 2018 Semester. This loss of enrollment will also affect our contact hour appropriations for FY 2020-2021. Port Arthur, Texas struggles with high unemployment, low median income, and a large number of at risk students, which has been further compounded by the devastation caused by Hurricane Harvey. As the Legislature addresses recovery efforts, we appreciate your consideration of the impact Hurricane Harvey has had and will continue to have on our community and campus.

Lost revenue has been projected through Spring 2018 to be \$696,565. We will have a better idea of the true financial impact to the College once FY19 enrollment has been certified.

4. TUITION REVENUE BOND REQUEST - FY2020-\$1,700,000 FY2021-\$1,700,000

Lamar State College Port Arthur is requesting debt service on a \$20,000,000 tuition revenue bond for the construction and remodeling of our Allied Health facilities which includes expanding existing facilities and constructing a new facility to offer a cohesive training experience for our Allied Health students. The TRB is based on 20-year debt issued at a 6% interest rate.

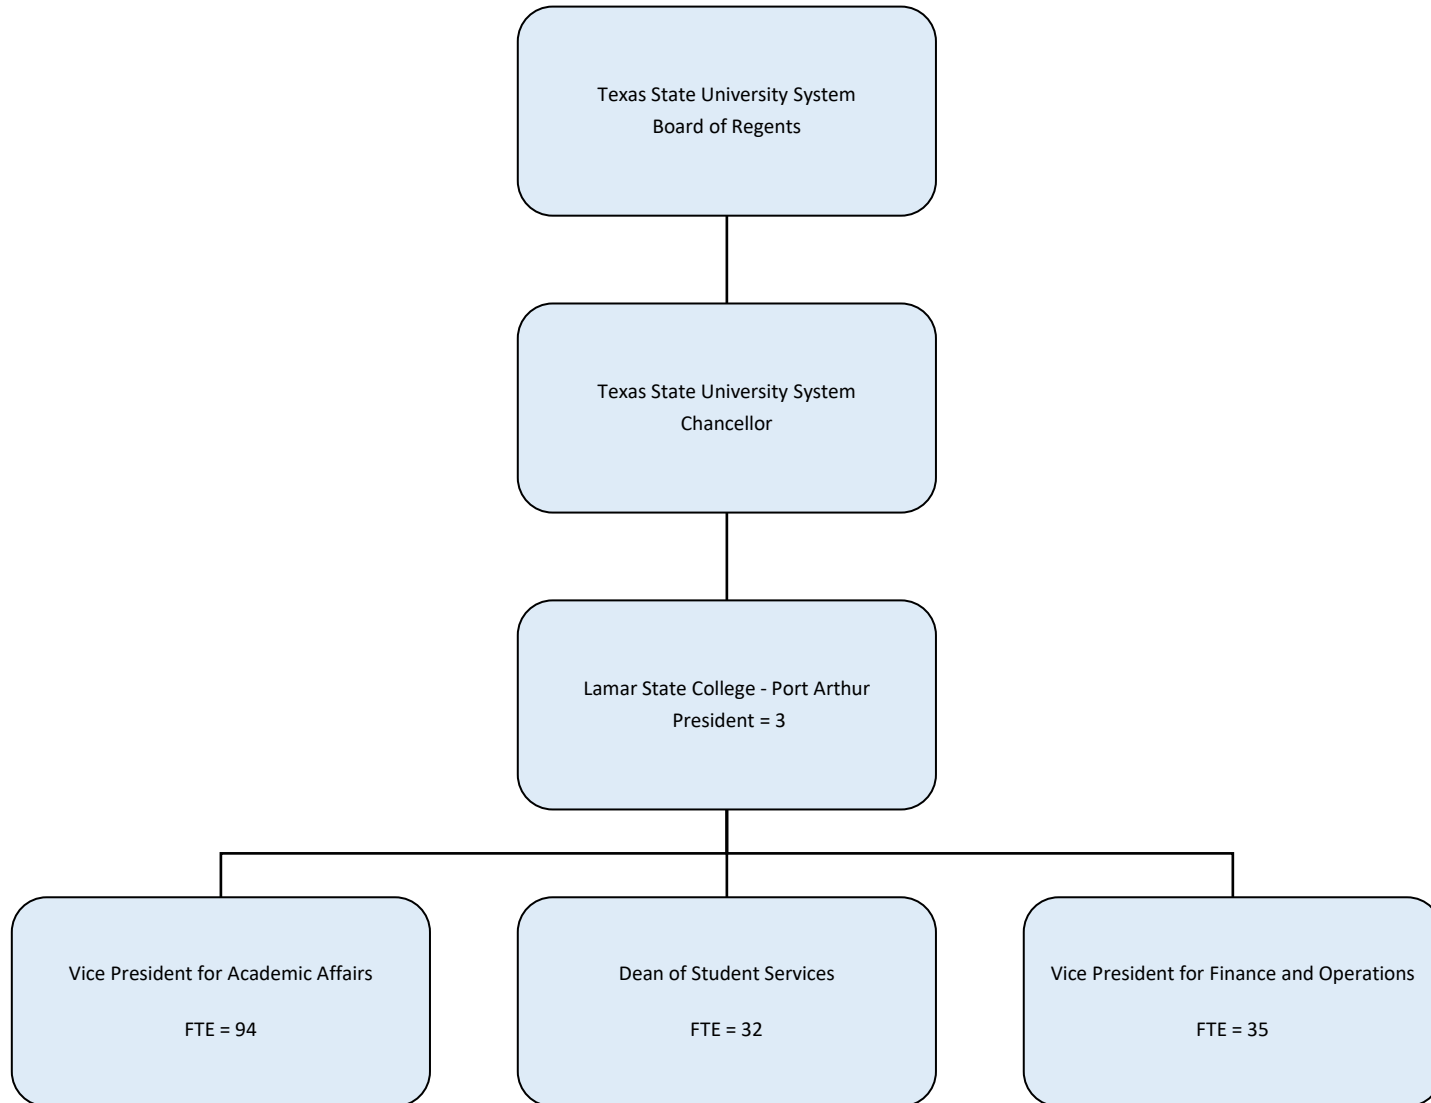

LSCPA's Allied Health programs have increased 151% since 2016. Our current programs are housed in two separate buildings which are two blocks apart. One building is 8,300 square feet and the other is a converted day care center containing 3,700 square feet. In order to provide comprehensive training for our students, we need adequate facilities to accommodate and provide state-of-the-art training for our students. Adequate facilities include not only space, but also simulation labs, clinical settings, intensive care experiences, and much more. Expansion will allow us to reach more students and provide them the modern training to be successful as they gain a deeper understanding of the concepts and principles needed to care for those in need in our community.

The need for trained medical professionals in our community continues to grow, and the need for adequate facilities to accommodate the growing demand is a pressing need at our College. Programs that LSCPA offers include Upward Mobility LVN to ADN, Vocational Nursing, Nurse Aide, Substance Abuse Counseling, and Surgical Technology.

According to the Comptroller of Public Accounts, healthcare remains a challenge for Southeast Texas. The Southeast Region's median age is 4.3 years older than the rest of Texas. The rapid growth of allied health fields is directly related to an aging baby boomer population of 80 million who are seeking less expensive outpatient care services.

CODE	DESCRIPTION	Exp 2017	Est 2018	Bud 2019	BL 2020	BL 2021
------	-------------	----------	----------	----------	---------	---------

This is a non-formula strategy that provides supplemental funding for those institutions projected to have enrollment decreases. This funding has been used to supplement instruction and operations support. Even with the Hold Harmless funding, LSCPA still realized a 10% reduction in formula funding when compared to the 2016-2017 biennium appropriations; therefore, we are very appreciative for the appropriations which stabilized funding so we could plan for a successful future.

If the College is forced to meet an additional 10% non-formula budget reduction in FY 2020 and FY 2021, LSCPA will be forced to reduce the Hold Harmless non-formula request by \$171,670.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for the college's educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

------	-------------	----------	----------	----------	---------	---------

The Vo-Tech and HVAC non-formula support item has helped Lamar State College Port Arthur start two new programs (HVAC and drafting) as well as supplement our existing vocational/technical programs.

The workforce needs in Port Arthur will increase significantly in the upcoming years as a result of the unprecedented expansions of the local petrochemical/chemical manufacturing complex. Local companies have announced approximately \$200 billion dollars of expansion projects. The estimated expansion estimates increase to \$500 billion dollars if one includes projects within 50 miles of Port Arthur. Unprecedented expansion projects require unprecedented numbers of employees. From construction workers to employees to operate the plants and the support companies, these projects will provide thousands of employment opportunities. The non-formula support is contributing towards these initiatives.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The need for additional skilled and semi-skilled labor in Southeast Texas and Southwestern Louisiana is at peak levels due to expansion of local refineries as well as the impact of Hurricane Harvey.

------	-------------	----------	----------	----------	---------	---------

The institutional enhancement non-formula support that Lamar State College Port Arthur receives is used to supplement faculty salaries and other institutional operating costs for various academic, vocational and technical training programs and student support programs. This non-formula item has assisted the College in providing needed funding so the mission of the College can be continued. A reduction in these funds will impact the ability of the College to execute its mission.

If the College is forced to meet an additional 10% non-formula budget reduction in FY 2020 and FY 2021, LSCPA will be forced to reduce the Institutional Enhancement non-formula request by \$270,269.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Lamar State College Port Arthur experienced a 30% decline in contact hours in the Fall 2014 Semester. The associated decline in formula funding would have had a devastating impact on the viability of the College. However, Hold Harmless funding allowed LSCPA to re-organize and focus efforts to resolve campus struggles. LSCPA is very appreciative for the appropriations which stabilized funding so we could plan for a successful future.

------	------

DESCRIPTION / JUSTIFICATION:

To establish a Center for Workforce Training in order to increase the quality and quantity of the Port Arthur area workforce to create a competitive advantage for Port Arthur residents to secure employment, as well as providing quality career education for residents.

The low median income, high unemployment rates, and the out-migration of Port Arthur residents following Hurricane Harvey documents the need for support resiliency within the community. The damaging critical statistics document the need for strategies to provide residents with skills that will create a competitive advantage for Port Arthur residents to secure employment in the local industry and the remarkable expansions in the petrochemical industry planned in the near future.

The goal is to provide training that helps students and workers in every phase of their career.

To achieve this goal, we follow four objectives in training that:

1. Encourages young students toward profitable career fields,
2. Leads to rapid and rewarding employment,
3. Allows workers to continue to meet the expectations of their existing jobs,
4. Allows workers to expand their potential and seek promotion.

CODE	DESCRIPTION	Excp 2020	Excp 2021
-------------	--------------------	------------------	------------------

A Center for Workforce Training would allow us to supplement our existing system and impact our community exponentially. The Center for Workforce Training would also help with the growing demand of our Commercial Driving Academy by meeting needs which includes the creation of a commercial driving testing facility.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: There have been several positive developments since the most recent Legislative Session. The College created a Workforce Training and Continuing Education Department in 2015. As a result, contact hours generated by workforce training programs have increased by 484% and provided training for 3,992 students.

Major Accomplishments Expected During the Next Two Years

1. Create a more qualified workforce.
2. Make graduates more desirable candidates for employment.
3. Improve minority graduation rates
5. Reduce unemployment rates.
6. Improve minority employment rates.
7. Improve median income.
8. Build regional assets and resiliency.
9. Build / accelerate local industry growth.
10. Revitalize an economically distressed community.

Year established and funding source prior to receiving special item funding: 2015 - Local and grant funds.

Formula funding: None

Non-general revenue sources of funding: National Dislocated Worker (NDW) Disaster Grant Project TX-32 Disaster-2017 Hurricane Harvey and Wagner-Peyser ES 7b – Building our Future Grant

Consequences of not funding: The current workforce as well as the up and coming workforce of tomorrow may not get the opportunities that are needed.

	Item Name: Concurrent Enrollment Grant Item Priority: 2 IT Component: No Anticipated Out-year Costs: Yes Involve Contracts > \$50,000: No Includes Funding for the Following Strategy or Strategies: 03-05-01 Exceptional Item Request		

OBJECTS OF EXPENSE:

4000	GRANTS	700,000	700,000
TOTAL, OBJECT OF EXPENSE		\$700,000	\$700,000

METHOD OF FINANCING:

1	General Revenue Fund	700,000	700,000
TOTAL, METHOD OF FINANCING		\$700,000	\$700,000

DESCRIPTION / JUSTIFICATION:

To offer support to our concurrent enrollment programs that assist high school students with pursuing college classes. A significant number of high school students in our area qualify as first-generation college students. Many of these potential students are economically disadvantaged and are part of an under represented demographic group. They have no familiarity with higher education and often lack the confidence to attempt college studies. These funds will be used to assist several types of students: vocational/technical students pursuing a course of study defined by HB 5, students participating in an early college high school experience, and dual credit students seeking to accelerate their progress toward a four-year degree.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: LSCPA's partnerships with the local school districts have developed into a robust dual enrollment program that has grown 207% since the 83rd Legislative Session approved HB 5.

LSCPA continues to work with PAISD to offer an ECHS. The majority of the students are categorized as at-risk students. Students who enroll in the ECHS in the 9th grade will have the opportunity to earn an Associate of Arts Degree or an Associate of Applied Science Degree by the time they graduate from high school. By the 4th year of the ECHS program, the anticipated enrollment will be projected at 400 students. Students should be debt free and have employable skills upon graduation. The first cohort will graduate in 2020 with the possibility of earning an Associate of Arts Degree or an Associate of Applied Science Degree.

Students in our community will be graduating from high school with college credit under the dual enrollment program.

Year established and funding source prior to receiving special item funding: None

Agency name:
Lamar State College - Port Arthur

CODE	DESCRIPTION	Excp 2020	Excp 2021
-------------	--------------------	------------------	------------------

Formula funding: None

Non-general revenue sources of funding: None

Consequences of not funding: LSCPA will be challenged to achieve the HB 5 initiatives and will be unable to satisfy the requirement of the 60x30TX Plan.

Additionally, as students progress through the ECHS and dual credit programs, they will complete additional college courses each subsequent year with no additional formula funding to support the increased activity. There is continuous pressure to offer a significantly reduced tuition rate or zero tuition, so high school students upon graduating will have no debt. The current contact hour funding rate does not support a reduced or zero tuition rate. Necessary academic support and student development services will not be available to support the instructional and operating needs of the program without this non-formula support.

METHOD OF FINANCING:

1	General Revenue Fund	696,565	696,565
TOTAL, METHOD OF FINANCING		\$696,565	\$696,565

DESCRIPTION / JUSTIFICATION:

To provide support to Lamar State College-Port Arthur through non-formula support that will allow instruction and support of the region and region's population to continue through this recovery period.

Hurricane Harvey made landfall in Port Arthur on August 29, 2017 and proved to be the most damaging storm in history to Port Arthur. Approximately 70 inches of rain accumulated in the drainage system and ultimately the businesses and homes in Port Arthur. Fortunately, the LSCPA campus had minor damage; however, virtually every LSCPA student was negatively impacted by Hurricane Harvey. The Carl A Parker Center on LSCPA's campus became a shelter for evacuees due to the flooding of the designated evacuation center for Port Arthur, Texas. More than 1,200 Port Arthur residents were placed in what became "Tent Cities" at two separate locations. The City of Port Arthur was fighting to keep its citizen, but in the end many were moved to locations around the State. Although the tents are no longer present, it is estimated that there are still approximately 5,000 residents not in their homes and/or who have not returned to Port Arthur.

These funds will be used to help restore our College and community as recovery efforts continue.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: Enrollment at LSCPA has been increasing since the Fall 2015. The College has experienced positive growth rates of 14% and 12% each fall semester. However, subsequent registrations for the Fall 2017 have declined drastically following Hurricane Harvey. The College anticipates a continued enrollment loss resulting from the loss of students that did not register and will not continue their education through the Fall 2018 Semester. This loss of enrollment will also affect our contact hour appropriations for FY 2020-2021. Port Arthur, Texas struggles with high unemployment, low median income, and a large number of at risk students, which has been further compounded by the devastation caused by Hurricane Harvey. As the Legislature addresses recovery efforts, we appreciate your

TOTAL, METHOD OF FINANCING		1,700,000	1,700,000

DESCRIPTION / JUSTIFICATION:

Lamar State College Port Arthur is requesting debt service on a \$20,000,000 tuition revenue bond for the construction and remodeling of our Allied Health facilities which includes expanding existing facilities and constructing a new facility to offer a cohesive training experience for our Allied Health students. The TRB is based on 20-year debt issued at a 6% interest rate.

The need for trained medical professionals in our community continues to grow, and the need for adequate facilities to accommodate the growing demand is a pressing need at our College. Programs that LSCPA offers include Upward Mobility LVN to ADN, Vocational Nursing, Nurse Aide, Substance Abuse Counseling, and Surgical Technology. In order to provide comprehensive training for our students, we need adequate facilities to accommodate and provide state of the art training for our students. Adequate facilities include not only space, but also simulation labs, clinical settings, intensive care experiences, and much more. Expansion will allow us to reach more students and provide them the modern training to be successful as they gain a deeper understanding of the concepts and principles needed to care for those in need in our

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: With the approval of the TRB and exceptional item support from the Legislature, the College would be in a position to exceed our present capacity, expand our reach and provide academic and community support.

B. Assessment of Fiscal Year 2016 - 2017 Efforts to Meet HUB Procurement Goals

Attainment:

Agency exceeded two of five (40%) of the applicable statewide HUB goals in 2016 and exceeded one of five (20%) in 2017.

Applicability:

"Heavy Construction" is not applicable to this agency's operations.

Factors Affecting Attainment:

Lamar State College Port Arthur has a limited number of service and professional certified HUB vendors in our region. We identified IT commodity vendors, our Grounds Maintenance contract, and a HUB office supplier to assist in the increased expenditures with HUB vendors.

"Good-Faith" Efforts:

- Provided information to potential HUB vendors in regards to the HUB certification process.
- Agency personnel attended Economic Opportunity Forums given by Comptroller, as well as local HUB Expos.
- Agency works with internal departments on utilizing HUB vendors whenever possible.
- Agency attended Senator Royce West Spot Bid Fair in 2016 and 2017 and awarded contracts to HUB vendors.
- Agency participated in Texas HUB Discussion Workgroup calls on a quarterly basis.

1 Small Business Development Center

Category: Programs - Service Reductions (Contracted)

Item Comment: This is a non-formula support item that is used to fund salaries and other institutional operating costs for the SBDC, which serves our local businesses. Most recently, at the request of the Small Business Administration, SBDC has been a Business Recovery Center to assist with Hurricane Harvey recovery efforts. Our staff assisted many local businesses to complete the SBA disaster loan application, served as a liaison between the SBA Disaster Public Information Officer and local agencies, and served as a central point of information for local residents about recovery and assistance from federal programs. SBDC plays a vital role in our mission and community.

To meet this budget reduction requirement for FY 2020 and FY 2021, LSCPA will be forced to reduce expenditures for salaries and operating expenses related to this program for the next biennium by \$110,484. If this occurs, the future viability of SBDC may be in jeopardy.

Strategy: 1-1-1 Academic Education

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$55,242	\$55,242	\$110,484

Agency code: 788 Agency name: Lamar State College - Port Arthur

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			PROGRAM AMOUNT		TARGET
	2020	2021	Biennial Total	2020	2021	Biennial Total	2020	2021	Biennial Total

Item Comment: This non-formula item has helped Lamar State College Port Arthur start two new programs (HVAC and drafting) as well as supplement our existing vocational/technical programs beginning with the 2016-2017 bi-ennium. The need for additional skilled and semi-skilled labor in Southeast Texas and Southwestern Louisiana remains at high levels due to Hurricane Harvey and other factors. The labor shortage offers LSCPA the opportunity to attract many more new students to receive the training for employment in jobs that will lead to a career and not just short-term employment. We expect the programs to continue to grow due to high demands in our community.

To meet this budget requirement of \$110,485, the College will have to make additional reductions in order to fund the related costs associated with the vocational and technical-related programs that these funds supplement. The growth of the new programs (HVAC and drafting) that began in the Fall of 2017 may be impacted.

Strategy: 3-1-1 Vo-Tech and HVAC Program

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			PROGRAM AMOUNT		TARGET
	2020	2021	Biennial Total	2020	2021	Biennial Total	2020	2021	Biennial Total

Item Comment: This is a non-formula item that provides supplemental funding for those institutions projected to have enrollment decreases. This funding has been used to supplement instruction and operations support. Even with the Hold Harmless funding, LSCPA still realized a 10% reduction in formula funding when compared to the 2016-2017 biennium appropriations; therefore, we are very appreciative for the appropriations which stabilized funding so we could plan for a successful future.

A fiscal year 2020-2021 10% reduction would require the College to eliminate mission critical departments and further reduce faculty and staff.

To meet this budget reduction requirement, LSCPA will be forced to reduce expenditures for faculty salaries for the next biennium by \$110,485.

Strategy: 1-1-8 Hold Harmless

Date: 10/18/2018		Project Category					Amount Requested					
Project ID #	Capital Expenditure Category	Project Description	Project Category				2020-21 Total Amount Requested	MOF Code #	MOF Requested	2020-21 Estimated Debt Service (If Applicable)	Debt Service MOF Code #	Debt Service MOF Requested
			New Construction	Health and Safety	Deferred Maintenance	Maintenance						
1	Construction of Buildings and Facilities	Allied Health Building Project - Lamar State College Port Arthur is requesting \$20,000,000 for the construction and remodeling of our Allied Health facilities. LSCPA's Allied Health programs have increased 151% since 2016. Our current programs are housed in two separate buildings which are two blocks apart. Having adequate facilities would allow us to accommodate and provide state-of-the-art training for students with space, simulation labs, clinical settings, intensive care experiences and so much more.	\$ 20,000,000				\$ 20,000,000		Tuition Revenue Bond	\$ 3,400,000	0001	General Revenue
2	Repairs or Rehabilitation of Buildings and Facilities	Center for Workforce Training - Lamar State College Port Arthur is requesting a total of \$1,800,000 for the biennium in order to meet the demands of our workforce training department, which has grown 484% since its 2015 inception. The College has targeted a location that is accessible to many and will allow for program expansion in the instructional fields of construction trade, industrial maintenance, and commercial truck driving. The cost of \$1,012,500 is the construction component of the total request that is related to the renovation of the space to make it suitable for the needs of the Center for Workforce Training.	\$ 1,012,500				\$ 1,012,500		General Revenue	\$ -

Project Description

The need for trained medical professionals in our community continues to grow, and the need for adequate facilities to accommodate the growing demand is a pressing need at our College. Programs that LSCPA offers include Upward Mobility LVN to ADN, Vocational Nursing, Nurse Aide, Substance Abuse Counseling, and Surgical Technology. In order to provide comprehensive training for our students, we need adequate facilities to accommodate and provide state of the art training for our students. Adequate facilities include not only space, but also simulation labs, clinical settings, intensive care experiences, and much more. Expansion will allow us to reach more students in our community and provide them the modern training to be successful as they gain a deeper understanding of the concepts and principles needed to care for those in need in our community.

Center for Workforce Training

(1) Year Non-Formula Support Item First Funded:	2020
Year Non-Formula Support Item Established:	2020
Original Appropriation:	\$1,500,000

(2) Mission:

Establish a Center for Workforce Training for the purpose of increasing the quality and quantity of the areas workforce and create a competitive advantage for Port Arthur residents to secure employment, as well as provide quality career education for residents.

The low median income, high unemployment rates, and the out-migration of Port Arthur residents following Hurricane Harvey documents the need for support resiliency within the community. The damaging critical statistics document the need for strategies to provide residents with skills that will create a competitive advantage for Port Arthur residents to secure employment in the local industry and the remarkable expansions in the petrochemical industry planned in the near future .

The goal is to provide training that helps students and workers in every phase of their career.

To achieve this goal, we follow four objectives in training that:

1. Encourages young students toward profitable career fields,
2. Leads to rapid and rewarding employment,
3. Allows workers to continue to meet the expectations of their existing jobs, and to
4. Allows workers to expand their potential and seek promotion.

A Center for Workforce Training would allow us to supplement our existing system and impact our community exponentially. The Center for Workforce Training would also help with the growing demand of our Commercial Driving Academy by meeting needs which includes the creation of a commercial driving testing facility .

(3) (a) Major Accomplishments to Date:

788 Lamar State College - Port Arthur

There have been several positive developments since the most recent Legislative Session. The College created a Workforce Training and Continuing Education Department. As a result, contact hours generated by workforce training programs have increased by 484% and provided training for 3,992 students.

Our program offers fast-track training designed to help those who are unemployed obtain employment in the shortest possible period. To achieve this goal, we target job training related to the TWC High Demand job list. Currently, the College offers a 2-month training in Class B Commercial Driving, a 3-month training in Class A Commercial Driving, and a 3-month training in Welding (students obtain a College Certificate in Intermediate Welding, NCCER CORE, NCCER Welding Level 1, and NCCER Welding Level 2). Each of these programs offer rapid entrance in rewarding and profitable career fields. The Commercial Driving Academy is growing. LSCPA provided training to 20 students in 2015, more than 50 students in 2017, and more than 60 students in the first 5 months of 2018.

Immediately following Hurricane Harvey, LSCPA began to offer short-term courses in Residential Carpentry, Introduction to Drywall, Texas Insurance Adjusting and Adjusting Software. Forty students attended these classes and learned skills immediately useful in the aftermath of the storm.

In the 2017 calendar year, LSCPA provided more than 10,000 contact hours of training.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Create a more qualified workforce.
2. Make graduates more desirable candidates for employment.
3. Improve minority graduation rates.
5. Reduce unemployment rates.
6. Improve minority employment rates.
7. Improve median income.
8. Build regional assets and resiliency.
9. Build / accelerate local industry growth.
10. Revitalize an economically distressed community.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding:

None

(6) Category:

Instructional Support

(7) Transitional Funding:

N

788 Lamar State College - Port Arthur

(8) Non-General Revenue Sources of Funding:

National Dislocated Worker (NDW) Disaster Grant Project TX-32 Disaster-2017 Hurricane Harvey, Wagner-Peyser ES 7b – Building our Future Grant and local funds.

(9) Impact of Not Funding:

The current workforce as well as the "up and coming" workforce of tomorrow may not get the opportunities that are needed.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

N/A - This non-formula support item requires on-going support.

(11) Non-Formula Support Associated with Time Frame:

N/A - This non-formula support item requires on-going support.

(12) Benchmarks:

(13) Performance Reviews:

There have been several positive developments since the most recent Legislative Session. The College created a Workforce Training and Continuing Education Department. As a result, contact hours generated by workforce training programs have increased by 484% and provided training for 3,992 students.

Immediately following Hurricane Harvey, LSCPA began to offer short-term courses in Residential Carpentry, Introduction to Drywall, Texas Insurance Adjusting and Adjusting Software. Forty students attended these classes and learned skills immediately useful in the aftermath of the storm.

The Commercial Driving Academy is growing. LSCPA provided training to 20 students in 2015, more than 50 students in 2017, and more than 60 students in the first 5 months of 2018.

In 2017, 60 local students spent a week in robotics camp learning to make, program and operate a variety of robotic units. In addition, this Department is active in speaking at all of the local middle and high schools pertaining to career options.

In the 2017 calendar year, LSCPA provided more than 10,000 contact hours of training to over 500 students.

Concurrent Enrollment Grant

(1) Year Non-Formula Support Item First Funded:	2020
Year Non-Formula Support Item Established:	2020
Original Appropriation:	\$700,000

(2) Mission:

To offer support to our concurrent enrollment programs that assist high school students with pursuing college classes. A significant number of high school students in our area qualify as first-generation college students. Many of these potential students are economically disadvantaged and are part of an under represented demographic group. They have no familiarity with higher education and often lack the confidence to attempt college studies. These funds will be used to assist several types of students: vocational/technical students pursuing a course of study defined by HB 5, students participating in an early college high school experience, and dual credit students seeking to accelerate their progress toward a four-year degree.

(3) (a) Major Accomplishments to Date:

LSCPA's partnerships with the local school districts have developed into a robust dual enrollment program that has grown 207% since the 83rd Legislative Session approved HB 5.

LSCPA continues to work with PAISD to offer an ECHS. The majority of the students are categorized as at-risk students. Students who enroll in the ECHS in the 9th grade will have the opportunity to earn an Associate of Arts Degree or an Associate of Applied Science Degree by the time they graduate from high school.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Students in our community will be graduating from high school with college credit under the dual credit and ECHS programs and be on their way to achieving their four-year degree with many of them being first-generation college students.

By the 4th year of the ECHS program, the anticipated enrollment will be projected at 400 students. Students should be debt free and have employable skills upon graduation. The first cohort will graduate in 2020 with the possibility of earning an Associate of Arts Degree or an Associate of Applied Science Degree. The ECHS supports the goals of the Higher Education Coordinating Board 60x30TX Plan.

(5) Formula Funding:

None

(6) Category:

Instructional Support

788 Lamar State College - Port Arthur

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

LSCPA will be challenged to achieve the HB 5 initiatives and will be unable to satisfy the requirement of the 60x30TX Plan.

Additionally, as students progress through the ECHS and dual enrolled programs, they will complete additional college courses each subsequent year with no additional formula funding to support the increased activity. There is continuous pressure to offer a significantly reduced tuition rate or zero tuition so high school students upon graduation will have no debt. The current contact hour funding rate does not support a reduced or zero tuition rate. Necessary academic support and student development services will not be available to support the instruction and operating needs of the program without this non-formula support.

Students who have the potential to become a first-generation college student may not have the resources to attend LSCPA.

Hurricane Harvey Recovery Assistance

(1) Year Non-Formula Support Item First Funded:	2020
Year Non-Formula Support Item Established:	2020
Original Appropriation:	\$696,565

(2) Mission:

To provide support to Lamar State College-Port Arthur through non-formula support that will allow instruction and support of the region and region's population to continue through this recovery period.

Hurricane Harvey made landfall in Port Arthur on August 29, 2017 and proved to be the most damaging storm in history to Port Arthur. Approximately 70 inches of rain accumulated in the drainage system and ultimately the businesses and homes in Port Arthur. Fortunately, the LSCPA campus had minor damage; however, virtually every LSCPA student was negatively impacted by Hurricane Harvey. The Carl A Parker Center on LSCPA's campus became a shelter for evacuees due to the flooding of the designated evacuation center for Port Arthur, Texas. More than 1,200 Port Arthur residents were placed in what became "Tent Cities" at two separate locations. The City of Port Arthur was fighting to keep its citizen, but in the end many were moved to locations around the State. Although the tents are no longer present, it is estimated that there are still approximately 5,000 residents not in their homes and/or who have not returned to Port Arthur.

These funds will be used to help restore our College and community as recovery efforts continue.

(3) (a) Major Accomplishments to Date:

Recovery efforts still on-going.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Enrollment at LSCPA has been increasing since the Fall 2015. The College has experienced positive growth rates of 14% and 12% each fall semester. However, subsequent registrations for the Fall 2017 have declined drastically following Hurricane Harvey. The College anticipates a continued enrollment loss resulting from the loss of students that did not register and will not continue their education through the Fall 2018 Semester. This loss of enrollment will also affect our contact hour appropriations for FY 2020-2021. Port Arthur, Texas struggles with high unemployment, low median income, and a large number of at risk students, which has been further compounded by the devastation caused by Hurricane Harvey. As the Legislature addresses recovery efforts, we appreciate your consideration of the impact Hurricane Harvey has had and will continue to have on our community and campus.

We anticipate stabilized enrollment during the next two years.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Tuition and fees from students.

Institutional Enhancement

(1) Year Non-Formula Support Item First Funded: 2000
Year Non-Formula Support Item Established: 2000
Original Appropriation: \$1,090,139

(2) Mission:

The institutional enhancement non-formula support that Lamar State College Port Arthur receives is used to supplement faculty salaries and other institutional operating costs for various academic, vocational and technical training programs and student support programs. This non-formula item has assisted the College in providing needed funding so the mission of the College can be continued.

(3) (a) Major Accomplishments to Date:

Institutional Enhancement appropriations were used to fund Faculty salaries associated with academic and student support programs. This funding ensures the College maintains sufficient and adequate resources to support the College's mission, vision, and goals.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Due to State appropriation funding reductions, LSCPA will continue to rely heavily upon Institutional Enhancement to fund our faculty salaries associated with academic and student support programs which supports our College's mission, vision and goals.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Formula funding and College resources.

(5) Formula Funding:

The non-formula support item is needed to support faculty salaries and other institutional operating costs for various academic, vocational and technical training programs and student support programs that are not being covered in the existing I&O formula.

(6) Category:

Institutional Enhancement

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

788 Lamar State College - Port Arthur

(9) Impact of Not Funding:

The College will be compelled to reduce the scope of operations and level of services previously provided since 100% of the non-formula support is currently being used to pay faculty salaries associated with academic and student support programs.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

Institutional Enhancement appropriations are needed on a permanent basis to fund Faculty salaries associated with academic and student support programs. This funding ensures the College maintains sufficient and adequate resources to support the College's mission, vision, and goals.

Small Business Development Center

(1) Year Non-Formula Support Item First Funded:	1998
Year Non-Formula Support Item Established:	1998
Original Appropriation:	\$150,000

(2) Mission:

Provide counseling and technical assistance to owners of proposed or existing small businesses. One of the state goals of LSCPA is to “provide curriculum and programs that are responsive to community needs.” The Small Business Development Center is a program that can help the Greater Port Arthur area improve its economic climate. Port Arthur is home to fewer small businesses per capita than the average medium sized city in Texas. The unemployment rate in Port Arthur is traditionally above the state average. A need exists in the community for a program that can facilitate the creation and expansion of small businesses in Port Arthur and surrounding communities, therefore providing acutely needed employment opportunities. The SBDC is helping the College achieve the goal through a comprehensive package of services that includes one-to-one counseling, technical assistance, and training. The Center is helping Port Arthur make use of its natural economic strengths by promoting international trade, importing-exporting opportunities, and government contracting. A significant service offered by the SBDC is continuing to schedule non-credit courses in the management of various aspects of a small business.

(3) (a) Major Accomplishments to Date:

From its opening in February 1998 through April 2018, SBDC serviced 4,097 small businesses; helped 369 businesses to begin operation; assisted 495 client companies obtain \$88,052,841 in capital from 17 separate types of sources; and presented 573 classes that have enrolled 6,411 students.

The SBDC has aided 36 businesses in obtaining HUB or 8(a) status and is one of only 2 agencies in the 9-county area that offers free assistance to businesses applying for HUB certification.

Since 2004, the SBDC has worked with local companies to create 2,793 new jobs.

Historically, 58% of the clients are not in business when they contact the SBDC. The classifications of the clients in the current year are as follows: 49% female-owned businesses; 12% veteran-owned businesses; 24% Hispanic-owned businesses; and 33% African American-owned businesses.

The Small Business Administration (SBA) asked the SBDC to act as a Business Recovery Center to assist with Hurricane Harvey recovery efforts. The 2-person staff assisted 39 businesses to complete the SBA disaster loan application, served as a liaison between the SBA Disaster Public Information Officer and local agencies, and served as a central point of information for local residents about recovery and assistance from federal programs.

During the first quarter of the 2017-2018 program year, the Port Arthur SBDC served 24 new clients, the highest figure in the 15-member SBDC region.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

788 Lamar State College - Port Arthur

- A. Continue to emphasize assisting Historically Underutilized Businesses (HUB), Small Disadvantaged Businesses (SDB), and Qualified Information Systems Vendors (QISV) obtain certification as such in order to help more local companies compete for state government contracts;
- B. Help local businesses prepare to provide goods and services during the anticipated widening of the Sabine-Neches Waterway;
- C. Support the economic development activities of the Port Arthur, Port Neches, and Nederland Economic Development Corporations and the Port of Port Arthur;
- D. Promote the Port Arthur Economic Development Corporation's industrial parks;
- E. Aid the cities of Groves, Nederland, and Port Neches to replace jobs lost due to the relocation of retail businesses to other communities;
- F. Support the efforts of the Southeast Texas Regional Airport to retain its commercial carrier;
- G. Assist existing businesses that want to supply goods and services to the major industries/operations in the region: refineries, petrochemical plants, LNG plants, construction companies, hospitals, and government;
- H. Offer training and technical assistance to new businesses that are attempting to participate in the Golden Pass LNG and TOTAL petrochemical industrial expansions, including capitalization, business plans, bid procurement, and loan packaging;
- I. Educating the business community regarding exporting opportunities.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Vo-Tech and HVAC Program

(1) Year Non-Formula Support Item First Funded:	2016
Year Non-Formula Support Item Established:	2016
Original Appropriation:	\$250,000

(2) Mission:

To provide career and technology education to high school students and adults so they will have the technical skills, knowledge, and attitudes necessary for successful performance in a global economy.

(3) (a) Major Accomplishments to Date:

During the Fall of 2017, the College opened the doors of its industrial technology facility, which included the implementation of two new programs of HVAC and drafting. The College's HVAC program includes courses for basic electricity, air conditioning control principles, refrigeration principles, HVAC shop practices and tools, HVAC duct fabrication, residential air conditioning, gas and electric heating and EPA recovery preparation. The College's drafting program includes courses for basic computer-aided drafting, technical drafting, architectural drafting, mechanical drafting, intermediate CAD, pipe drafting, structural drafting and introduction to surveying. Sixteen students embarked on this new journey into HVAC and drafting with LSCPA in order to develop skills that are very much needed in our workforce.

In order to continue to grow and promote the programs, various efforts have been made including attending expos, recruitment events and open houses.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The need for additional skilled and semi-skilled labor in Southeast Texas and Southwestern Louisiana remains at high levels due to Hurricane Harvey and other factors. The labor shortage offers LSCPA the opportunity to attract many more new students to receive the training for employment in jobs that will lead to a career and not just short-term employment. We expect the programs to continue to grow due to high demands in our community.

Additionally, the workforce needs in Port Arthur will increase significantly in the upcoming years as a result of the unprecedented expansions of the local petrochemical/chemical manufacturing complex. Local companies have announced approximately \$200 billion dollars of expansion projects. The estimated expansion estimates increase to \$500 billion dollars if one includes projects within 50 miles of Port Arthur. Unprecedented expansion projects require unprecedented numbers of employees. From construction workers to employees to operate the plants and the support companies, these projects will provide thousands of employment opportunities. The non-formula support is contributing towards these initiatives.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Formula funding and College resources.

(5) Formula Funding:

The non-formula support item is needed to help fund vocational and technical-related salaries and operating expenses as the new programs continue to grow. The new program offerings began in Fall 2016 with a class size of twenty-four and doubled for Fall 2017 generating \$169,425 in contact hour funding for the 2018-2019 biennium.

788 Lamar State College - Port Arthur

(6) Category:

Instructional Support

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

The College will have to make additional reductions in order to fund the related costs associated with the vocational and technical-related programs that these funds supplement. The growth of the new programs (HVAC and drafting) that began in the Fall of 2017 may be impacted.

(10) Non-Formula Support Needed on Permanent Basis/Discontinuu

As enrollment continues to grow in the new programs as well as an increase in formula funding sufficient to cover all costs, then it could be discontinued in the future. An exact discontinuance date is not known at this time since the related programs are still in infancy.

(11) Non-Formula Support Associated with Time Frame:

N/A - This non-formula support item requires on-going support.

(12) Benchmarks:
