THE UNIVERSITY OF TEXAS AT TYLER

Legislative Appropriations Request for FY 2020-2021

Overview

The University of Texas at Tyler is pursuing a vision to become the primary educational and economic driver in East Texas. This role is more important than ever because East Texas lags behind in educational attainment, health outcomes, and economic performance. The percentage of the population with a bachelor's degree in East Texas is 11% lower than the statewide average. Residents of East Texas are more likely to die from heart disease, cancer, stroke, and lower respiratory conditions than people living in other areas of the state, and the poverty rate in East Texas is almost 3% higher than the statewide rate.

UT Tyler takes seriously our responsibility to the East Texas area, and we recognize that increasing educational attainment will help alleviate the other challenges facing the region. To achieve our vision, UT Tyler will heavily focus on four strategic pillars: student success, student engagement, research and scholarship, and community engagement.

Student Success

Student success at UT Tyler will focus not only on increased retention and graduation rates, but also on ensuring our students have successful careers upon graduation. We are implementing this vision by placing career success professionals across the university who are dedicated to locating and providing professional opportunities to every UT Tyler student.

Student Engagement

We recognize that engaged students will be successful students. Therefore, UT Tyler is committed to engaging students in all areas of university life. These opportunities include everything from expanding undergraduate research opportunities to increasing on-campus housing, which will enable students to make more connections with one another while creating a stronger bond with the university.

Research and Scholarship

UT Tyler encourages our faculty to engage in scholarship that directly impacts the East Texas region. Our faculty have worked on projects ranging from the education of low income students to the prevention of Alzheimer's and dementia to controlling the fire ant population. The common thread is that each area directly addresses challenges facing East Texas.

Community Engagement

While UT Tyler has always been active in our community, we have recently established a focused effort on enhancing community engagement efforts. Community engagement initiatives will enable us to take the intellectual capabilities and resources of the university into our region, which will strengthen the surrounding communities.

750 The University of Texas at Tyler

Non-Formula Support

UT Tyler currently receives three Non-Formula Support items: Institutional Enhancement, Longview Campus, and Palestine Campus. These lines of support are vital for the University to continue working toward our vision.

Institutional Enhancement

Funds from Institutional Enhancement help support UT Tyler's student success efforts. This appropriation directly funds academic advisors and academic support services such as supplemental instruction, tutoring services, and UT Tyler's Math Lab. Students rely on these advisors and services to help them successfully complete their coursework and graduate in a timely manner.

Longview Campus and Palestine Campus

Non-Formula Support item funding for our Longview Campus and Palestine Campus enable UT Tyler to fulfill our vision to serve as the educational and economic driver of the entire East Texas region. These campuses serve more economically distressed areas when compared to the main campus. Palestine, in particular, provides access to a university-level education where there are no other university options and access to high-speed internet is often unattainable, making online programs difficult to pursue.

These campuses do not simply provide access to students in the greater East Texas region, but provide access to extremely high-quality, high-demand programs. Both campuses regularly have 100% passing rates on the NCLEX exams for their nursing graduates. The Longview campus recently worked with area industries to create an industrial technology program that will provide the skilled workforce area businesses need.

Offering off-site programs such as those at Longview and Palestine is important for our access mission and our commitment to East Texas. However, it is more expensive to educate students at these locations because they do not offer economies of scale efficiencies due to their rural locations. If these exceptional items were to be phased out, UT Tyler would request that the phase out occur when the total revenue from these locations matches their cost of operation.

Partnership for an Affordable Engineering Degree

The University of Texas at Tyler requests a new exceptional item to fund a highly successful program that provides affordable engineering degree options to Houston-area students.

Prior to 2013, students completing engineering coursework at Houston Community College experienced significant academic, financial, and location challenges if they pursued an engineering baccalaureate degree. If they were admitted to a four-year institution, they generally found that their courses would not transfer, they had to repeat credit hours, they could not afford the program, or they would have to move far away, which was not an option due to job or family commitments.

To address this problem, in Fall 2013 The University of Texas at Tyler partnered with Houston Community College to open the Houston Engineering Center (HEC) on the HCC Alief Hayes campus. Now, HCC students who earn an Associates of Science in Engineering Science (ASES) can complete their engineering baccalaureate degree

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

through UT Tyler at the HEC.

The positive results have been staggering. Since opening, the HEC has produced over 250 graduates, enrollment has grown by 715%, and the number of students earning an ASES degree from HCC has increased by 377%. Further, the HEC is successfully addressing some of the racial and ethnic disparities among engineering graduates. Almost 50% of HEC students are Black or Hispanic. Comparatively, according to the American Society for Engineering Education, in 2015 Black and Hispanic students made up only 14.7% of all engineering bachelor's degrees awarded in the United States.

Finally, by completing an engineering degree through the HCC-UT Tyler partnership, students can save over \$20,000 when compared to the cost of the average traditional four-year engineering baccalaureate, making the HEC program roughly half the cost of traditional programs.

Given the enormous success of the HEC and increased interest from students, UT Tyler requests an exceptional item in the amount of \$2.5 million per year to expand this program. This funding would support additional faculty, staff, and equipment necessary to quickly grow the program. Funding would be phased out as formula funding becomes available.

Tuition Revenue Bond

UT Tyler also requests consideration of a tuition revenue bond of \$50 million for a new College of Nursing and Health Sciences Building. This building will provide much needed space for growing programs in the School of Nursing and Department of Health & Kinesiology, as well as the recently-approved program in Occupational Therapy and planned future programs. The School of Nursing has demonstrated a 41% increase in its enrollment over the last five years, owing to its national recognition by US News & World Report. Unfortunately, our current facility lacks the space and design flexibility required to build high caliber healthcare capacity across our growing student body and region. The proposed building will provide the technological and physical infrastructure needed to support UT Tyler's vision of becoming the primary educational and economic driver of East Texas.

Leadership Changes

Dr. Michael Tidwell began serving as President of UT Tyler in January 2017. With this new leadership, UT Tyler has also undergone further changes at the executive level in an effort to better position the institution for success. The Vice President for Research position was adjusted to Director level, where the focus is placed on furthering undergraduate research opportunities while supporting faculty in their work. Additionally, the role of Vice President for Business Affairs was divided into two roles: Vice President for Budget and Finance and Vice President for Operations and Strategic Initiatives. Finally, a new role was established for a Vice President of Marketing.

The changes at the executive level are designed to ensure UT Tyler maintains focus on the institution's strategic plan in order to successfully serve the region and state.

Ten Percent Budget Reductions

UT Tyler fully and efficiently utilizes all funding mechanisms, including state appropriations, tuition and fee dollars, UT System funds, and philanthropic support. Therefore, any budget reduction would result in missed opportunities for the institution. In creating our adjusted request to reflect a 10% budget reduction, UT Tyler protected Institutional Enhancement funds since these appropriations support students at all UT Tyler campuses. This decision reflects UT Tyler's commitment to student success for all our students.

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

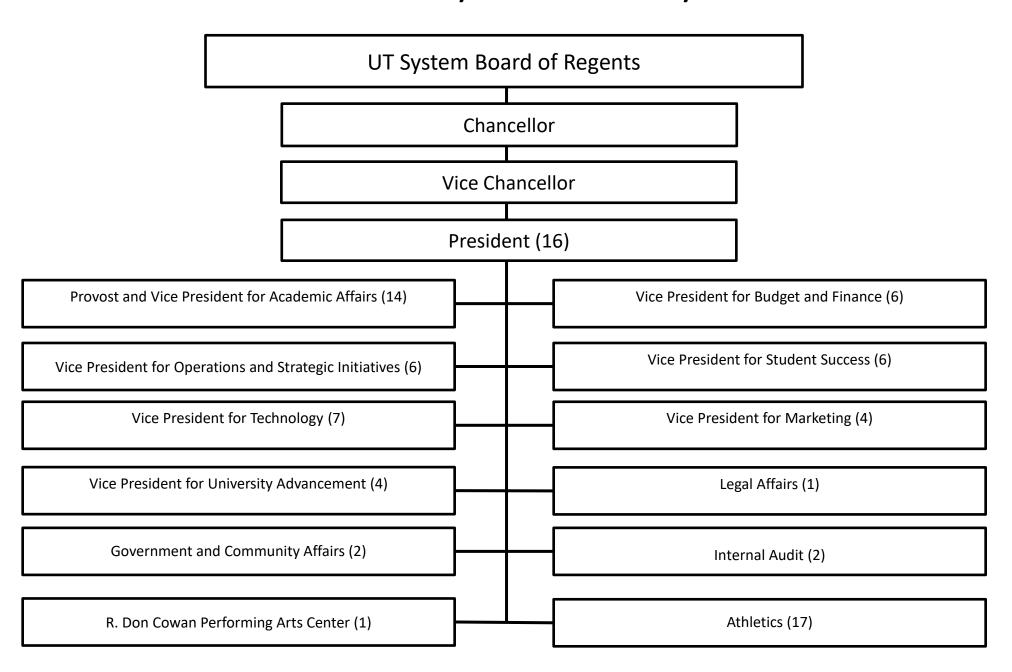

750 The University of Texas at Tyler

Policy on Criminal History Records

It is the policy of UT Tyler to obtain criminal history record information on applicants who are under final consideration, following normal screening and selection processes, for a position that is designated as a security sensitive position. Security sensitive positions are restricted to those positions described in Texas Education Code §51.215(c) and Texas Government Code §411.094(a)(2), as those sections may be amended from time to time. The chief administrative officer of the institution, or that officer's designee, will designate which positions or areas are security sensitive. Security sensitive positions designated by UT Tyler include the following: all executive, administrative, and professional positions, all faculty positions, all classified positions, all part-time positions, and all volunteer positions.

Conclusion

UT Tyler is committed to improving the outcomes in the East Texas region, which will greatly increase the area's contribution to the Texas economy. The university seeks the state's investment through a fully funded formula as well as specific, important non-formula items, including Institutional Enhancement, Longview Campus special item, Palestine Campus special item, and TRB consideration. This investment will create great dividends for the state as UT Tyler helps spark the East Texas economy.

University of Texas at Tyler – Descriptions of Functional Units

President - The President is the chief executive officer of the University and exercises broad delegated authority for campus administration.

Provost - The Chief Academic Officer and the Office of the Provost promotes and pursues excellence in the University's academic units, oversees all Academic Affairs units at UT Tyler and sponsors faculty hiring, faculty promotion and tenure, and all academic programs. This office maintains an active role in the application and dissemination of policy, the development of new degree programs, and the enhancement of academic research.

Budget and Finance - The Chief Financial Officer and the Office of Budget and Finance is responsible for all financial functions, including budget, finance, payroll, procurement and expense reimbursement as well as human resources.

Operations- The Chief Operating Officer and the Office of the Vice President for Operations oversees facilities, buildings, real estate, environmental health and safety, and emergency management. Additionally, the office oversees progress monitoring for strategic initiatives.

Student Success – The Office of the Vice President for Student Success provides oversight for co-curricular and extracurricular programs, services and support related to all aspects of campus life.

Government and Community Affairs - The Office of Government and Community Affairs s has responsibility for the University's government and community relations. Specifically, the office focuses on building effective relationships with elected and appointed leaders, monitoring legislative and regulatory initiatives, and developing the University's presence among civic and community groups.

Advancement - The Office of Advancement supports the University's fundraising efforts, working closely with the University's deans and program directors.

Information Technology – The Chief Information Officer and the Office of Information Technology provides the physical, personnel and financial resources for information technologies to help students, faculty and staff accomplish the research, instructional, and public service functions of the University.

UT Tyler – Descriptions of Functional Units, continued

Marketing - The Chief Communications Officer and the Office of Marketing provides strategic leadership that shapes the character, direction and underlying principles guiding the University's institutional communications; takes primary responsibility for organizing University-wide resources, brand identity and positioning, internal and external communications, message content, media visibility/media relations and crisis communication; and fully integrates these efforts in service to the University mission and vision. Additionally, this office oversees student admissions and financial aid.

Internal Audit - The Chief Audit Executive and the Office of Internal Audit enhances and protects organizational value by providing risk-based and objected assurance, and advice to UT Tyler and UT System executive management relating to the achievement of the University's strategic and operational objectives.

Legal Affairs - The Chief Legal Officer and the Office of Legal Affairs provides general counsel to UT Tyler and the president, administrative officers, faculty, and staff when acting within the course and scope of their employment. Additionally, the office facilitates contract administration.

Athletics - Responsible for overall administration and supervision of the University's intercollegiate athletics program.

R. Don Cowan Performing Arts Center - The Center serves the University, Tyler area and East Texas region as a major focal point for cultural arts.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

CODE DESCRIPTION Exp 2017 Est 2018 Bud 2019 BL 2020 BL 2021

The Texas Comprehensive Research Fund provides funding to promote increased research capacity at eligible general academic teaching institutions including those other than The University of Texas at Austin, Texas A&M University or any institution designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system.

Funding is to be expended for the support and maintenance of educational and general activities, including research and student services that promote increased research capacity.

A legislatively determined amount of funding is allocated based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

METHOD OF FINANCING:

General Revenue Fund 4,360,000 4,360,000

\$4,360,000 \$4,360,000 TOTAL, METHOD OF FINANCING

DESCRIPTION / JUSTIFICATION:

The proposed building for the College of Nursing and Health Sciences will provide much needed space for growing programs in the School of Nursing and Department of Health & Kinesiology, as well as the recently-approved program in Occupational Therapy and planned future programs. The School of Nursing has demonstrated a 41% increase in its enrollment over the last five years, owing to its national recognition by US News & World Report. Unfortunately, our current facility lacks the space and design flexibility required to build high caliber healthcare capacity across our growing student body and region. Therefore, UT Tyler seeks to construct an advanced nursing and health sciences complex that includes enhanced teaching facilities, collaborative study space, and a large simulation hospital centered on caring for patients with acute and chronic diseases, high tech simulations of childbirth, surgery, intensive care, emergency care, and healthcare delivery for Tyler's growing geriatric population. This state-of-the-art clinical space will serve as an arena for training, discovery, outreach, and the exploration of healthcare delivery within urban and rural contexts.

T	OTAL, METHOD OF FINANCING	\$2,500,000	\$2,500,000

DESCRIPTION / JUSTIFICATION:

The University of Texas at Tyler partnered with the Houston Community College to offer an affordable engineering degree to Houston area transfer students. Students who earn an ASES Degree at HCC can complete their baccalaureate degree though UT Tyler at the HCC campus. The positive results have been staggering. Since opening, the HEC has produced over 250 graduates, enrollment has grown by 715%, and the number of students earning an ASES degree from HCC has increased by 377%. Further, the HEC is successfully addressing some of the racial and ethnic disparities among engineering graduates. Almost 50% of HEC students are Black or Hispanic. Comparatively, according to the American Society for Engineering Education, in 2015 Black and Hispanic students made up only 14.7% of all engineering bachelor's degrees awarded in the United States. Finally, by completing an engineering degree through the HCC-UT Tyler partnership, students can save over \$20,000 when compared to the cost of the average traditional four-year engineering baccalaureate, making the HEC program roughly half the cost of traditional programs. Exceptional item funding would provide for the faculty, staff, and equipment necessary to operate the program until formula funding (subject to changes in the formula base rate and program weights) per semester credit hour (SCH) equals program operating expense per SCH.

B. Assessment of Fiscal Year 2016 - 2017 Efforts to Meet HUB Procurement Goals

Attainment:

The University of Texas at Tyler attained or exceeded three of six of the applicable statewide HUB procurement goals in FY 16. The University of Texas at Tyler attained or exceeded two of six of the applicable statewide HUB procurement goals in FY 17.

Applicability:

The "Heavy Construction" category is not applicable in either fiscal year 2016 or 2017 since the agency did not have any strategies or programs related to Heavy Construction.

Factors Affecting Attainment:

In Fy 2016: 1) Building Services - there was only one construction project where the general contractor was not a HUB and used only one HUB as a subcontractor, 2) Commodities - Specialized equipment not available from HUBs was purchased for IT, Lab, Safety and Library database. In Fy 2017: 1) Building Services - there was only one construction project where the general contractor was not a HUB and used only one HUB as a subcontractor, 2) Other Services - Academic Partnerships which is a self-performing non-HUB has an ongoing educational program contract, 3) Commodities - Specialized equipment not available from HUBs was purchased for IT, Lab, Safety and Library database.

"Good-Faith" Efforts:

UT Tyler distributed procurement opportunities to HUB Vendors. UT Tyler's HUB Coordinator met one-on-one with subcontractors during the bid process, hosted and attended HUB Forums and Vendor Fairs to solicit new HUB Vendors, assisted University Staff to locate HUB Vendors and has maintained a valuable relationship with the Hispanic Chamber and the Tyler Metropolitan Chamber.

Gross Square Feet: 80,000

Project 48,000

Project Description

The proposed building for the College of Nursing and Health Sciences will provide much needed space for growing programs in the School of Nursing and Department of Health & Kinesiology, as well as the recently-approved program in Occupational Therapy and planned future programs. The School of Nursing has demonstrated a 41% increase in its enrollment over the last five years, owing to its national recognition by US News & World Report. Our current facility lacks the space and design flexibility required to build high caliber healthcare capacity across our growing student body and region. Therefore, UT Tyler seeks to construct an advanced nursing and health sciences complex that includes enhanced teaching facilities, collaborative study space, and a large simulation hospital centered on caring for patients with acute and chronic diseases, high tech simulations of childbirth, surgery, intensive care, emergency care, and healthcare delivery for Tyler's growing geriatric population.

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

Institutional Enhancement (Academic and Student Support)

(1) Year Non-Formula Support Item First Funded: 1999

Year Non-Formula Support Item Established: 2000

Original Appropriation: \$4,749,837

(2) Mission:

The regular session of the 76th Legislature (1999) merged numerous special items for certain institutions into a new appropriation, Institutional Enhancement. This funding supplements an institution's base funding for core academic operations.

Institutional Enhancement funds are expended by UT Tyler for general institutional and academic support. These funds are used to help support UT Tyler's student success efforts. This appropriation directly funds academic advisors and academic support services such as supplemental instruction, tutoring services, and UT Tyler's Math Lab. Students rely on these advisors and services to help them successfully complete their coursework and graduate in a timely manner.

(3) (a) Major Accomplishments to Date:

While maintaining high standards, UT Tyler's rate of growth in FTE students is among the highest in the State, with FTE student enrollment and retention increasing annually. The appropriation of these special item funds has supported scholarships, program enhancements, increased technology, student advising services, and library support. The growth and success of UT Tyler has greatly benefitted the East Texas region. A recent report found UT Tyler adds \$327.4 million per year to the region's economy, which is equivalent to creating 6,035 new jobs. Additionally, UT Tyler is growing in national stature, earning several national recognitions including having the 7th best online graduate nursing program in the United States.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

UT Tyler seeks to respond to ever-changing student and regional needs by providing high-need academic programs through innovative delivery methods. The University plans to continue to expand flexible instructional methods and innovative pedagogies, such as hybrid programs, so our students can take advantage of the most up-to-date technologies in a state-of-the-art environment, helping our graduates acquire the skills employers desire. Further, UT Tyler is responding quickly to regional and workforce needs with plans to begin a Ph.D. program in Clinical Psychology within the next two years in response to a growing demand for mental healthcare professionals in the East Texas region.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(5) Formula Funding:

This non-formula funding item supports enhancing educational delivery and continuous program innovation. The generation of new formula funding, while possible, is not the intended purpose.

(6) Category:

Institutional Enhancement

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

(7) Transitional Funding:

Ν

(8) Non-General Revenue Sources of Funding:

While additional local funds in the form of designated tuition were used to maintain the student support programs following the reduction in funding in the prior biennium, it is unlikely that additional permanent local sources of funding would be available that would significantly advance or even maintain this initiative's stated mission.

Annually FY 2017-2018 through FY 2020-2021

Designated Tuition: \$1,475,000 (amount of funding reduced in the 85th Legislative Session)

(9) Impact of Not Funding:

A significant reduction in academic advising and academic support services such as supplemental instruction, tutoring services, and UT Tyler's Math Lab would adversely affect student success at UT Tyler. Lack of funding will hinder UT Tyler's goal of providing a high quality education as a premier university and result in a great detriment to the entire East Texas region. Reduced funding would impede our progress toward increasing retention rates and slow student progress toward degree.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

It is anticipated that the need for assistance in supporting enhancement and innovation in educational program delivery will continue indefinitely.

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

N/A

(13) Performance Reviews:

The Office of the Provost through the Assistant Vice President for Assessment and Institutional Effectiveness leads and oversees performance reviews to assess academic, student support services, and administrative support programs. Information is collected annually and documented using established program reviews as well as UT Tyler's internal system of institutional effectiveness, which requires units to identify goals, strategies to achieve the goals, and performance indicators used to assess achievement of the goals annually. These reviews are part of the normal annual assessment process at UT Tyler and are required to maintain professional accreditations as well as regional accreditation by the Southern Association of Colleges and Schools. Additional assessment resources will soon be in place to monitor and report on progress on the initiatives included within the University's new strategic plan. Many of these initiatives are centered on improving student success, the central purpose of this non-formula-funded program.

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

Longview Campus

(1) Year Non-Formula Support Item First Funded: 1999

Year Non-Formula Support Item Established: 2000

Original Appropriation: \$2,755,250

(2) Mission:

The Longview University Center (LUC) serves a population of students in East Texas that do not have access to the Tyler campus because of family responsibilities, distance, and/or jobs. The campus has become an integral part of the economic development of the region. Leaders of the LUC work closely with business and industry in the Longview area to provide the educational opportunities their employees need.

(3) (a) Major Accomplishments to Date:

Over the last biennium, enrollment at the LUC has grown by 49%, noting the growing demand for baccalaureate-level education in the Longview area. As an upper-level only institution, the LUC works closely with area community colleges to provide students with a seamless transition from attaining an associate's degree to pursuing a baccalaureate degree. As the LUC grows, it seeks to do so by focusing on the needs of employers in the region. For example, the LUC recently launched an upper-level Industrial Engineering program after consulting with area employers regarding their need for industrial engineers. The program will be offered in partnership with several area institutions, including community colleges, Texas State Technical College, and charter schools. LUC leaders have worked with leaders at these other institutions to develop seamless 2+2 programs to ensure students can efficiently pursue their studies and enter the workforce in these needed positions as quickly as possible.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The Longview Campus will continue to work closely with area community colleges and local business leaders to expand degree offerings in the Gregg County region. Additionally, the LUC has plans to focus on philanthropic efforts to raise funds for needed Industrial Technology lab equipment as well as Anatomy and Physiology lab equipment that will greatly benefit students. The LUC will also partner with the Longview Innovation Academy, UT Tyler's Charter School, to create mutually beneficial opportunities for UT Tyler students and Innovation Academy students

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(5) Formula Funding:

The students in the programs offered at the Longview location generate the usual undergraduate formula funding which totals approximately \$424,000 annually, based on the 2018-2019 formula base rate and program weights.

(6) Category:

Instructional Support

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

(7) Transitional Funding:

Ν

(8) Non-General Revenue Sources of Funding:

FY 2017-2018

Designated Tuition: \$125,000

Gift Funds: \$ 20,000

FY 2018-2019

Designated Tuition: \$125,000

FY 2019-2020

Designated Tuition: \$125,000

Gift Funds: \$ 20,000

FY 2020-20201

Designated Tuition: \$125,000

Gift Funds: \$ 20,000

(9) Impact of Not Funding:

If this item were not funded, opportunities to accomplish the goals included in 60X30TX would be greatly inhibited. The educationally underserved Upper East Texas region, where UT Tyler and the LUC are located, has the third-lowest percentage of residents with a Bachelor's degree or higher in the state, at just 17.1%. UT Tyler seeks to address this challenge by offering high-demand programs convenient to students throughout this region, which will be threatened without this funding.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

Non-formula support will be needed until the program enrollment generates sufficient formula funding as well as tuition and fees to sustain program operations. We anticipate non-formula funding needs to continue through the 2020-2021 biennium. Non-formula funding needs will be reassessed each biennium and funding requests adjusted accordingly as formula funding and tuition and fees begin contributing to a larger share of the program's operations

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

Formula funding (subject to changes in the formula base rate and program weights) per semester credit hour (SCH) equals program operating expense per SCH.

(13) Performance Reviews:

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

The Office of the Provost through the Assistant Vice President for Assessment and Institutional Effectiveness leads and oversees performance reviews to assess academic, student support services, and administrative support programs. Information is collected annually and documented using established program reviews as well as UT Tyler's internal system of institutional effectiveness, which requires units to identify goals, strategies to achieve the goals, and performance indicators used to assess achievement of the goals annually. These reviews are part of the normal annual assessment process at UT Tyler and are required to maintain professional accreditations as well as regional accreditation by the Southern Association of Colleges and Schools. Additional assessment resources will soon be in place to monitor and report on progress on the initiatives included within the University's new strategic plan. Many of these initiatives are centered on improving student success, the central purpose of this non-formula-funded program.

Palestine Campus

(1) Year Non-Formula Support Item First Funded: 1999

Year Non-Formula Support Item Established: 2000

Original Appropriation: \$1,155,000

(2) Mission:

The Palestine Campus special item supports faculty, operating costs, student services, and staff to provide baccalaureate degree programs in an educationally underserved area. The funding provides the resources necessary to operate a distant site campus.

(3) (a) Major Accomplishments to Date:

The Palestine Campus currently has a growing nursing program (an 18% increase in enrollment over the past biennium), helping to fill a critical statewide and regional workforce need. The program is not only growing in numbers, but is also maintaining a high quality, with UT Tyler's average NCLEX scores exceeding the average state and national scores. In order to continue to invest in the strength of this program, UT Tyler recently utilized institutional resources to upgrade the Nursing Simulation Lab on the Palestine Campus.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The plans over the next two years include expanding the offerings at the Palestine Campus. Palestine Campus leaders will continue to work closely with local businesses and industries to gain insight on additional services and educational opportunities UT Tyler at Palestine can provide that would add value to the community. The Campus will also partner with the Palestine Innovation Academy, UT Tyler's Charter School, to create mutually beneficial opportunities for UT Tyler students and Innovation Academy students.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(5) Formula Funding:

The students in the nursing program offered at the Palestine location generate the usual undergraduate formula funding which totals approximately \$264,000 annually, based on the 2018-2019 formula base rate and program weights.

(8) Non-General Revenue Sources of Funding:

FY 2017-2018

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

Designated Tuition: \$45,000

Gift Funds: \$4,000

FY 2018-2019

Designated Tuition: \$45,000

Gift Funds: \$4,000

FY 2019-2020

Designated Tuition: \$45,000

Gift Funds: \$4,000

FY 2020-20201

Designated Tuition: \$45,000

Gift Funds: \$4,000

(9) Impact of Not Funding:

If this item were not funded, opportunities to accomplish the goals included in 60X30TX would be greatly inhibited. The educationally underserved Upper East Texas region, where UT Tyler and the UT Tyler Palestine Campus are located, has the third-lowest percentage of residents with a Bachelor's degree or higher, at just 17.1 %. Further, the Southeast Texas region, which borders Anderson County where the Palestine Campus exists, has the lowest percentage of residents with either a Bachelor's degree or higher, at 15.5%. UT Tyler seeks to address this challenge by offering high-demand programs convenient to students in these regions, which will be threatened without this funding.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

Non-formula support will be needed until the program enrollment generates sufficient formula funding as well as tuition and fees to sustain program operations. We anticipate non-formula funding needs to continue through the 2020-2021 biennium. Non-formula funding needs will be reassessed each biennium and funding requests adjusted accordingly as formula funding and tuition and fees begin contributing to a larger share of the program's operations.

(11) Non-Formula Support Associated with Time Frame:

N/A

(12) Benchmarks:

Partnership for an Affordable Engineering Degree

(1) Year Non-Formula Support Item First Funded: 2020

Year Non-Formula Support Item Established: 2020

Original Appropriation: \$2,500,000

(2) Mission:

UT Tyler requests \$2.5 million to fund a highly successful program that provides affordable Engineering degree options to Houston-area students. Prior to 2013, students completing engineering coursework at Houston Community College experienced significant academic, financial, and location challenges if they pursued an engineering baccalaureate degree. To address this problem, in Fall 2013 UT Tyler partnered with Hoston Community College to open the Houston Engineering Center (HEC). Now, HCC students who earn an Associates of Science in Engineering Science (ASES) can complete their engineering baccalaureate degree through UT Tyler. The HEC has produced over 250 graduates, Enrollment has grown by 715%, and the number of students earning an HCC ASES has increased by 377%. HEC is successfully addressing some of the racial and ethnic disparities among engineering graduates. Almost 50% of HEC students are Black or Hispanic. According to the ASEE,in 2015 Black and Hispanic students made up only 14.7% of all engineering bachelor's degrees awarded in the US. By completing an engineering degree through the HCC-UT Tyler partnership, students can save over \$20,000 when compared to the cost of the average traditional 4-yr engineering baccalaureate. This funding would support additional faculty, staff, and equipment necessary to grow the program. Funding would be phased out as increased program enrollment generates formula funding sufficient to cover program operating expenses.

(3) (a) Major Accomplishments to Date:

Since the program began in 2013, the HEC has produced over 250 graduates, enrollment has grown by 715%, and the number of students earning an ASES degree from HCC has increased by 377%. Further, the HEC is successfully addressing some of the racial and ethnic disparities among engineering graduates. Almost 50% of HEC students are Black or Hispanic. Comparatively, according to the American Society for Engineering Education, in 2015 Black and Hispanic students made up only 14.7% of all engineering bachelor's degrees awarded in the United States.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Non-formula funding will provide support to add faculty lines, modest staff support, and establish the physical infrastructure to support rapid expansion of the HEC affordable engineering program. State support will provide the critical investment necessary to ensure HCC ASES graduates, many who are Black and Hispanic, have an opportunity to pursue an undergraduate engineering degree. HCC ASES graduates are expected to increase 40% over the next two years which is expected to increase HEC enrollment 25-35% during the 2020-2021 biennium.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

N/A

(5) Formula Funding:

The students in the Engineering program offered at the HEC generate the usual undergraduate formula funding which totals approximately \$1.4 million annually, based on the 2018-2019 formula base rate and program weights.

86th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

750 The University of Texas at Tyler

(6) Category:

Start-Up

(7) Transitional Funding:

N

(8) Non-General Revenue Sources of Funding:

Local funds and some philanthropic support

(9) Impact of Not Funding:

If this item were not funded, opportunities to accomplish the goals included in 60X30TX would be greatly inhibited. In particular, HCC ASES graduates, 50% of which are Black or Hispanic, who seek a 4-year engineering degree would have limited or no opportunity to do so given the significant academic and financial challenges of existing 4-year engineering programs. Without expansion of the existing HEC program to the HCC Eastside Campus, a significant number of ASES graduates will have limited or no opportunity to achieve a 4-year engineering degree. UT Tyler seeks to address this challenge by offering a high-demand program convenient to HCC ASES graduates, which will be threatened without this funding.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

Non-formula support will be needed until the program enrollment generates sufficient formula funding as well as tuition and fees to sustain program operations. We anticipate non-formula funding needs to continue through the 2020-2021 biennium. Non-formula funding needs will be reassessed each biennium and funding requests adjusted accordingly as formula funding and tuition and fees begin contributing to a larger share of the program's operations.
