## 2019 Property Tax Rates in Del Mar College

This notice concerns the 2019 property tax rates for Del Mar College. It presents information about three tax rates. Last year's tax rate is the actual tax rate the taxing unit used to determine property taxes last year. This year's *effective tax rate* would impose the same total taxes as last year if you compare properties taxed in both years. This year's *rollback tax rate* is the highest tax rate the taxing unit can set before taxpayers start rollback procedures. In each case, these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

### Last year's tax rate:

Last year's operating taxes	\$52,412,641
Last year's debt taxes	\$18,044,347
Last year's total taxes	\$70,456,988
Last year's tax base	\$24,994,940,490
Last year's total tax rate	\$0.281885/\$100

### This year's effective tax rate:

Last year's adjusted taxes (after subtracting taxes on lost property)	\$69,813,993
+ This year's adjusted tax base (after subtracting value of new property)	\$25,945,537,081
= This year's effective tax rate	\$0.269079/\$100

(Maximum rate unless unit publishes notices and holds hearings.)

### This year's rollback tax rate:

Last year's adjusted operating taxes (after subtracting taxes on lost property and adjusting for any transferred function, tax increment financing, state criminal justice mandate, and/or enhanced indigent healthcare expenditures)	\$52,216,706
+ This year's adjusted tax base	\$25,945,537,081
= This year's effective operating rate	\$0.201255/\$100
<b>x 1.08 = this year's maximum operating rate</b>	<b>\$0.217355/\$100</b>
+ This year's debt rate	\$0.070904/\$100
= This year's total rollback rate	\$0.288259/\$100

### Statement of Increase/Decrease

If Del Mar College adopts a 2019 tax rate equal to the effective tax rate of \$0.269079 per \$100 of value, taxes would increase compared to 2018 taxes by \$1,793,312.

### Schedule A - Unencumbered Fund Balance

The following estimated balances will be left in the unit's property tax accounts at the end of the fiscal year. These balances are not encumbered by a corresponding debt obligation.

Type of Property Tax Fund	Balance
General Fund	-63,665,707
Plant Fund-Unrestricted	8,336,988

### Schedule B - 2018 Debt Service

### Del Mar College

Taxing Unit Name

Taxing Unit's Website Address

**GENERAL INFORMATION:** Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the effective tax rate and rollback tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest.

School districts do not use this form, but instead use Comptroller Form 50-859 Tax Rate Calculation Worksheet for School Districts.

Water districts as defined under Water Code Section 49.00 I (I) do not use this form, but instead use Comptroller Form 50-858 Water District Rollback Tax Rate Worksheet.

This worksheet is provided to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

### SECTION 1: Effective Tax Rate (No New Taxes)

The effective tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the effective tax rate should decrease.

The effective tax rate for a county is the Total of the effective tax rates calculated for each type of tax the county levies.

## SECTION 2: Rollback Tax Rate

The rollback tax rate is split into two separate rates:

**Maintenance and Operations (M&O):** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus eight percent. This rate accounts for such things as salaries, utilities and day-to-day operations.

**Debt:** The debt tax rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The rollback tax rate for a county is the Total of the rollback tax rates calculated for each type of tax the county levies. In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a taxing unit's debt service will cause the effective tax rate to be higher than the rollback tax rate.

Rollback Tax Rate Activity	Amount/Rate
