CERTIFICATE

Agency Name Lamar University

This is to certify that the information contained in the agency Legislative Appropriations Request filed with the Legislative Budget Board (LBB) and the Governor's Office of Budget, Planning and Policy (GOBPP) is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the PDF file submitted via the LBB Document Submission application are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the GOBPP will be notified in writing in accordance with Article IX, Section 7.01 (2012--13 GAA).

734 Lamar University

Lamar University is a comprehensive public institution educating a diverse student body of more than 14,000 students, preparing them for leadership and lifelong learning in a multicultural world, and enhancing the future of Southeast Texas, the state, the nation and the world through teaching, research and creative activity, and service.

Lamar University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS) to award degrees at the Associate, Baccalaureate, Master's and Doctoral levels. In addition, Lamar is approved by the Texas Education Agency. Several departments and programs are accredited by professional agencies. In the College of Engineering, the programs in Chemical, Civil, Electrical, Industrial and Mechanical Engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). Computer Science is accredited by the Computing Accreditation Commission of ABET. The undergraduate and graduate programs of the College of Business are accredited by the International Association for Management Education. Lamar's teacher education programs are accredited by the National Council for Accreditation of Teacher Education (NCATE). Other accreditations include Nursing by the National League for Nursing Accrediting Commission; the Department of Chemistry by the American Chemical Society; the Department of Geology by the American Institute of Professional Geologists; the Department of Music by the National Association of Schools of Music; the Dietetics program by the American Dietetic Association; the Social Work program by the Council on Social Work Education; the programs in Speech-Language Pathology by the American Speech-Language-Hearing Association; and the programs in Deaf Education by the Council for Education of the Deaf. The university also is a member of many academic councils, societies and associations.

Effective and high quality academic instruction is emphasized throughout Lamar University. This tradition is supported by a student-centered faculty committed to educational excellence. Lamar offers contemporary curricula leading to more than 110 degrees, including baccalaureate, master's and five doctoral programs. The university has developed new and innovative initiatives to enhance student retention, success and graduation, and continues to be a leader in alternative delivery modalities. In addition to traditional delivery methods, courses and degrees are being offered online, via two-way interactive systems, at off-campus sites and through an innovative delivery paradigm in partnership with a private sector provider.

During President James Simmons' tenure, the university has experienced a 72% growth in student headcount as well as sharp improvements in student participation, success and graduation measures. Retention, graduation and related measures have all improved. As but one example, Lamar's six-year graduation rate has jumped from 22.5% (1993-94 cohort) to 30% (2005-06) and further gains are projected. On the participation side, more than 3,000 Texas P-12 teachers and administrators are matriculating in master of education programs offered through Lamar's Academic Partnerships program. The university's research and scholarship programs are highly focused to capitalize on unique historical and institutional strengths and to respond to state, regional and national needs. Lamar University's leadership role in environmental and energy research is widely known, highly regarded and is illustrative of the university's strategy to focus its efforts and to leverage its resources by linking with public and private energy entities. Centers which serve to focus the university's research activities include the Aldridge Air Quality Modeling Center; the Center for Fuel Cell and Energy Systems; the Center for Transportation, Ports and Waterways; the Center for Process and Information Technology; the Green Composites Research Center; the Texas and Gulf Coast Hazardous Substance Research Centers; the Texas Air Research Center; the Center for Executive Leadership (Superintendents' Academy); the Space Exploration Center; the Center for Entrepreneurial Studies, the Center for Public Policy Studies; the Spindletop Center for Excellence in Teaching and Technology; and the Environmental Chemistry Laboratory.

The public service activities of Lamar University are designed to meet the educational, cultural and training needs of the region which cannot be met through more traditional collegiate delivery systems. Lamar's Community Outreach Program; the Center for Distance Education; the Center for Adult Studies; various non-credit instructional offerings; the Speech and Hearing Clinic; Lamar's P-16 Council; various museums and galleries; a host of fine and performing arts are examples of the public service contributions offered by the university. Significant changes in policy.

734 Lamar University

Consistent with the State's commitment to the goals of student participation and success, Lamar University has shifted policy in two important directions—first, to more aggressive recruitment of students residing outside of Lamar's primary markets and, second, to enhanced student retention and achievement programs. Demographically and counter to Statewide trends, Lamar University's primary student prospect market has not experienced the growth enjoyed by university markets elsewhere in the State. In response, the university made strategic policy decisions to broaden its market and expand its reach. Decisions were made to commit resources and recruitment efforts outside of Lamar's traditional market. An aggressive marketing program was launched and directed outside the primary market. To assist, marketing consultants were engaged to develop institutional values, logos, brands and slogans. On related fronts, partnerships, 2+2 agreements and degree completion programs were directed at two-year institutions and their recent graduates, and aggressive marketing tied to distance education programs were established. Targeted recruiting of high ability students followed, with SAT tape purchases to identify such students; Open Houses to bring them to campus; an expanded Honors Program to offer advanced curricula; and high value scholarship programs (e.g., Mirabeau Scholarships and Beck Fellowships) to entice them to enroll. High school dual credit partnerships and offerings have been implemented and expanded as well. Student success is the other strategic direction addressed by the university. After languishing at the bottom of the State's performance measures of retention and graduation, policy decisions were made to directly confront student success and achievement. In addition to the targeted recruitment of high ability students mentioned above, undergraduate admission requirements were raised; a new Student Advising and Retention Center was opened; a SACS-driven Quality Enhancement Plan emphasizing student engagement was launched; and a faculty Teaching and Learning Center was created. Already, improvements have begun to appear. Since Dr. James Simmons became president, the six-year graduation rate has risen from 22.5% to 30%.

Significant changes in provision of service

Lamar University has undertaken several major initiatives to improve the provision and efficiency of services. The improvements in service, efficiency and cost have already been significant. As mentioned above, Lamar University has continued its online courses and degree programs and increased access, affordability (recently ranked #1 in the nation among 114 universities by Get Educated.com as the "Most Affordable, Best Buy" online master's program), and success (80+% completion rate among M.Ed. students and the nation's top provider of M.Ed.'s to Hispanics by The Hispanic Outlook in Higher Education). More than 14,000 Lamar students are enrolled in courses and degree programs—both baccalaureate and graduate—offered by the university, and planning and development are underway to further expand these offerings. In recent years and in response to student demand and public calls, new academic programs have been developed, staffed and offered. Construction Management (B.S.); American Sign Language (B.A.); Educational Technology, Teacher Leadership and Counseling (online M.Ed.); several professional certificate programs; doctoral programs in Chemical Engineering (Ph.D.), Audiology (Au.D.) and Educational Leadership (Ed.D.); and Nursing (MSN) are some of the new programs now available at Lamar University.

Lamar University has aggressively pursued external funding to augment university resources. The "Investing in the Future" comprehensive campaign began with a goal of \$50 million, subsequently raised it to \$100 million as it became clear that the university had dramatically underestimated the support of alumni, friends and faculty. The goal was raised to \$100 million goal in 2012 with two years left in the campaign and was just been raised again, this time to \$125 million. On the academic side, Lamar has created a new Office of Research and Sponsored Programs as well as a new professional development center, the latter with the mission of helping faculty incorporate national best practices, cutting edge educational technology and the newest information about how students learn into their classes and their interactions with students outside the traditional classroom setting. And finally, Lamar University has undertaken several major initiatives to improve the provision and efficiency of campus services and administrative support. The improvements in service, efficiency and cost have already been significant and the initial returns have been impressive. Strategic Enrollment Management, centralized and intrusive advisement, new contract-based admissions, and a student engagement division are some of the efforts to identify, attract, enroll, retain and graduate students.

Significant externalities

734 Lamar University

Like other State agencies, Lamar University responds to a variety of ever-changing external conditions. Student demographic patterns were mentioned above and Lamar has responded with an aggressive distance education program and recruitment outside the university's traditional markets. More recently, fuel/transportation costs, book costs and inflation more generally have commanded the attention and action of the university. Lamar was among the State's leaders to implement a textbook rental program and to manage utility costs.

Another significant external issue was the State's Five Percent of 2010-2011 Biennium General Revenue Reduction mandate. To reduce the 2010-2011 biennium general revenue by five percent, university administrators reduced Lamar's workforce capturing approximately \$5 million. The largest percentage of this reduction was among faculty. This may severely and adversely affect our student/teacher ratio as our enrollment continues to grow. This action has affected class offerings during the current "base year," (which began this summer) forcing a heavier reliance on adjunct faculty. In the current biennium, FY2012-2013, General Revenue was reduced by an additional \$10.8M. The current biennium General Revenue appropriation reduced in total by \$15.8M compared to FY 2010-2011 original funding. The university was required to continue the reduction in the faculty workforce and the elimination of non-mission critical departments.

Options were limited because the University's budget is approximately 75-80% personnel. Other cuts were taken from departmental M&O budgets. Also in response to the reduction mandates, educational space restrictions and efficiency demands, Lamar has vigorously expanded class size. Lamar's online delivery model has been used to offer instruction to many hundreds of students per section; space allocation software has been employed to maximize class sizes; and academic administration has pressed for larger sections, fewer small sections and increased enrollment capacities for traditional online courses. The impact of this reduction plan is, of course, considerable and may include delays in graduation for some students; shifts in student enrollment to alternative educational offerings (internet, at other colleges/universities, etc.); reductions in faculty staffing; fewer student services and support; and drops in auxiliary revenues (e.g., housing, food service, etc.). Secondary effects of these reductions might also be significant. For example, the recruitment and retention of faculty may be adversely affected, as might bonded debt service supported by auxiliary revenue streams.

Purpose of any new funding being requested

Ten Exceptional Item requests are submitted for consideration. The value to the State is indicated as part of each.

1)Debt Service Requirement on Tuition Revenue Bond Retirement: Lamar University is requesting funding for the full debt service requirement on a \$40,000,000 Tuition Revenue Bond for the construction of a new Science Building. The new Science Building would add 62,500 assignable square feet of laboratory and classroom space. The university is dependent on funding for the debt service of this project and without state funding the project must be delayed.
Requested FY 2014: \$1,938,583; FY 2015: \$2,921,250

2) Tier One Windstorm: Lamar University is requesting \$4,369,442 to fund the Tier-One Windstorm Insurance premium. This insurance is a requirement of FEMA in order to retain previous disaster recovery funding and/or receive future disaster recovery funding. Lamar University is located in a Texas' Tier One Windstorm county. The property insurance rate for the university's assets is almost five times the rate than in other Texas Counties. This exceptional item funds the estimated differential cost of insuring these properties during each year of the biennium. Due to the State appropriation funding reductions, this required property insurance premium is a substantial cost to the university. Stafford Act, Section 311 requires all entities to obtain sufficient insurance on damaged, insurable facilities as a condition of receiving Public Assistance Grant funding.
Requested FY 2014:\$2,184,721; FY 2015: \$2,184,721

3) Increase in funding for Small Business Development Center: The Small Business Development Center has helped start 265 new businesses creating 2,073 new jobs. The

734 Lamar University

Center has helped start 104 new businesses which generate additional revenue for the state; the cost of the Center is a revenue neutral program. The Center's goal in the next biennium is to start 86 more new businesses creating an estimated 396 jobs, help arrange \$15.9 million in financing for our clients, produce 46 educational seminars for small business persons with over 1,200 attendees, and develop an outreach program that will service adjacent and outlying counties consistently.
Requested FY2014:\$75,000; FY2015:\$75,000

4) Technology Advancement: Lamar University is requesting funding for the continuing costs of technological advancements and training for faculty and staff. Systematic planning of technological enhancements to educational programs is difficult when technology changes so quickly and unpredictably. University administrators are continually playing catch-up to implement new technologies quicker than careful planning process can anticipate. Similarly, paying for new technologies with exciting educational applications remains troublesome when there are more needs than resources. Training faculty and staff members to fully utilize technologies remains a challenge. It seems clear that building a physical technological infrastructure is not enough. It is also necessary to build a human resource infrastructure for technology to fulfill its promise to higher education.
Requested FY2014:\$1,250,000; FY 2015:\$1,250,000

5)Institute for College Readiness and Success – Mathematics, Reading and Writing: Through this initiative, Lamar University would develop and implement an efficient and effective online delivery system offering information and support in both English and Spanish for parents; early intervention, instruction, testing and assessment for at-risk students during the summer following the junior year in high school, the fall and spring of the senior year and the summer following the senior year in high school, ensuring that students enter college Texas Success Initiative (TSI) -exempt and ready to do college level work. Lamar University wishes to implement a two-year, online, developmental education pilot project that builds upon our success in developmental studies courses offered in the face-to-face mode.
Requested FY 2014:\$392,000; FY 2015; \$532,000

6)Center for Simulation and Clinical Excellence in Nursing: Funding of this Center would allow us to continue efforts that have started with private funding to collaborate with area and State health care providers to develop models of clinical care, and then transition to practices that are safe, effective and efficient. Nursing is one of Lamar University's strongest and most popular fields of study, and the program addresses the State's nursing shortage by preparing high quality graduates. For the past four years, graduates of the program have succeeded on the NCLEX-RN above the 90%ile, with the program consistently being commended for successful graduates. The Center would attract high ability students to nursing careers and aid in recruiting nursing faculty to the region and state. Start-up costs for a director, staff, clinical simulation laboratory, and operating equipment are requested along with second year costs.
Requested FY 2014: \$350,000; FY 2015:\$250,000

7)Texas Academy for Leadership in the Humanities (TALH): AS mentioned earlier, TALH is a residential, honors, TEA-sanctioned program that allows students to enter Lamar, (as TALH students), when they are ready for their eleventh grade in high school. In two years as Lamar students, they complete their last two years of high school and their first two years of college. Funding of this request would allow us to continue the program as it constituted and allow for minimal growth. All TALH students are required to perform service to the community. This funding would increase access to TALH for high ability students from lower income families and allow TALH students to receive support comparable to those attending TAMS.
Requested FY 2014:\$600,000, FY 2015:\$625,000

8) Center for Academic Success: This Center would focus on enhancement of student performance; improvement of student retention and graduation rates; and increase student satisfaction and engagement. The Center's mission directly addresses the participation and success goals of "Closing the Gaps." With an aggressive combination of student advisement, mentoring, tutoring, monitored probation, early alert, and counseling and support, the Center staff would work closely with high-risk

734 Lamar University

students early in their matriculation. The Center is requesting \$915,000 for year one and \$781,000 for year two of the biennium for professional staff, M&O, technical support, and travel.

Requested FY 2014:\$915,000; FY 2015:\$781,000

9) Center for Teaching and Learning Enhancement: The creation of the Center for Teaching and Learning Enhancement (CT&LE) would allow concentration and coordination of efforts to assist faculty in developing and maintaining competencies for success in areas that will foster improvement in student retention and success. An outstanding faculty, on the cutting edge of teaching and research in their fields, is fundamental to Lamar University's goal of instructional and educational excellence. The Center would enhance faculty professional growth, expand expertise, encourage effective and innovative pedagogy and support the pursuit of external funding for teaching and research on instructional best practices.

Requested FY 2014:\$470,190; FY 2015:\$470,190

10)Compliance with NFPA 101 in the Mary & John Gray Library: For the last two years, the State Fire Marshall assigned to Lamar University identified two code compliance issues relative to the Mary & John Gray Library which need to be addressed. They include the installation of sprinklers (for which the engineering design work is complete) and the construction of exterior exits from the stairwell. The Library is an eight story facility. Lamar is requesting \$1.5 million for the sprinkler project and \$2.5 million for the exterior exits.

Requested FY 2014:\$4,000,000

10 Percent FY2014-2015 Biennial Base Reduction Option Schedule

In FY 2010-2011 biennium, Lamar was forced to reduce General Revenue by \$5 million in order to comply with the Governor's request of all state agencies to return general revenue to the state. The university chose to reduce the workforce to achieve this mandate. The largest percentage was among faculty. A university's budget is comprised of approximately 75-80% personnel.

In the current biennium, FY2012-2013, General Revenue was reduced by an additional \$10.8M. The current biennium General Revenue appropriation reduced in total by \$15.8M compared to FY 2010-2011 original funding. The university was required to continue the reduction in the faculty workforce and the elimination of non-mission critical departments.

Another 10% reduction in FY2014-2015 will require the university to continue the reduction in the faculty workforce and look for additional programs and/or departments to close. The impact of another reduction may include the delay in graduation for some students; a reduction in faculty staffing and compensation; and a possible loss of experienced qualified faculty.

Background Checks

Lamar University performs criminal background checks for all security sensitive positions which have, by their nature and scope, access to confidential student, personnel, and payroll records or master keys, in accordance with State law, Texas Education Code §51.215, and Texas State University System policy. In an effort to provide and maintain the safest possible environment; to enhance the security of physical resources; and to be consistent with State law, Lamar University conducts criminal background investigations and obtains criminal history record information on all current employees considered for security sensitive positions and all applicants who are under final consideration for such positions. Lamar must receive a signed authorization form before the background information is requested. The authorization form includes the notice required by Texas Government Code §559.003, as it may be amended from time to time. Refusal to sign the authorization form will eliminate the

applicant from consideration for employment. Criminal history record information obtained by Lamar University may be used only for the purpose of evaluating applicants for employment in security sensitive positions and shall in no way be used to discriminate on the basis of race, color, national origin, religion, sex, disability, or age.

Texas State University System Rider Revision Request

Lamar University is in support of the Article IX Rider changes included in the Texas State University System's Legislative Appropriations Request. Along with other higher education institutions, we believe these changes will clarify, correct, eliminate duplication of, or more accurately reflect, current requirements."

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

(1) - Formula funded strategies are not requested in 2014-15 because amounts are not determined by institutions.

3.A. STRATEGY REQUEST
 83rd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 5:12:16PM

734 Lamar University

GOAL:	1	Provide Instructional and Operations Support	Statewide Goal/Benchmark:	2	0
OBJECTIVE:	1	Provide Instructional and Operations Support	Service Categories:		
STRATEGY:	1	Operations Support	Service: 19	Income: A.2	Age: B.3

CODE	DESCRIPTION	Exp 2011	Est 2012	Bud 2013	BL 2014 ⁽¹⁾	BL 2015 ⁽¹⁾
------	-------------	----------	----------	----------	------------------------	------------------------

In FY 2010-2011 biennium, Lamar was forced to reduce General Revenue by \$5 million in order to comply with the Governor's request of all state agencies to return general revenue to the state. The university chose to reduce the workforce to achieve this mandate. The largest percentage was among faculty. A university's budget is comprised of approximately 75-80% personnel.

In the current biennium, FY2012-2013, General Revenue was reduced by an additional \$10.8M. The current biennium General Revenue appropriation reduced in total by \$15.8M compared to FY 2010-2011 original funding. The university was required to continue the reduction in the faculty workforce and the elimination of non-mission critical departments.

Another 10% reduction in FY2014-2015 will require the university to continue the reduction in the faculty workforce and look for additional programs and/or departments to close. The impact of another reduction may include the delay in graduation for some students; a reduction in faculty staffing and compensation; and a possible loss of experienced qualified faculty.

(1) - Formula funded strategies are not requested in 2014-15 because amounts are not determined by institutions.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The availability of State funding, the University's ability to reallocate resources and the adoption of plans to modify existing facilities and landscape impact this strategy.

(1) - Formula funded strategies are not requested in 2014-15 because amounts are not determined by institutions.

Senate Bill 39 (Section 108.052) The Center shall carry out a program of research, evaluation, testing, development, and demonstration of alternative or innovative technologies which may be utilized in minimization, destruction, or handling wastes to achieve better protection of human health and the environment.

This item supports both the instructional and research mission of the institution by providing research funds, which allow students and faculty to pursue and resolve environmental issues both in the laboratory and field. By resolving environmental issues in relationship to regional industry and business the regional economy and standard of living is greatly enhanced.

-------------	--------------------	-----------------	-----------------	-----------------	----------------	----------------

STRATEGY DESCRIPTION AND JUSTIFICATION:

First supported in 1989, the Small Business Development Center's (SBDC) mission is to serve as a "venture catalyst" in Southeast Texas, leveraging resources within the SBDC network at Lamar University to start and grow businesses while creating jobs, which will diversify the economy of the region. For the FY 02-04 SBA funding was \$120,000 and is still currently at that level. Job creation is the primary measurement by which the SBDC determines its impact; and, job creation is the only real way to transform and grow the regional economy. There are other economic development agencies that work to recruit businesses and retain jobs; however, the SBDC is the only EDA dedicated to creating jobs by developing new businesses.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Institutional enhancement funding is requested to support competitive faculty salaries as well as maintenance and operational expenses incurred by academic departments. To hire, retain and reward high quality faculty, particularly in high student demand areas such as nursing, engineering, education and business, Lamar needs increased faculty and departmental support resources. Enhanced funding would allow Lamar to address the shortage of tenure/tenure-track faculty (47% are in non-tenured appointments), faculty salary inequities, salary compression and merit-based salary increases. These needs are especially critical in light of the substantial growth in programs and student enrollment over the past decade.

Annual Premium on FEMA Required Property Insurance: Stafford Act requires entities to maintain property insurance to receive disaster funds.

Technology Advancement: Fund the continuing cost of technology advancements and sufficient training for faculty and staff in order to utilize technology to its fullest.

Institute for College Readiness and Success : Implement an efficient and effective online delivery system in both English and Spanish for parents; early intervention, instruction, testing, and assessment for at-risk students .

Center for Simulation and Clinical Excellence in Nursing: The primary goal of the Center would be the use of simulations to develop best practices for educating the future nursing workforce.

Center for Academic Success: The Center’s mission directly addresses the participation and success goals of “Closing the Gaps.”

Center for Teaching and Learning Enhancement: The creation of the Center for Teaching and Learning Enhancement (CT&LE) would allow concentration and coordination of efforts to assist faculty in developing and maintaining competencies for success in areas that will foster improvement in student retention and success.

Compliance with NFPA Library: The State Fire Marshall identified two code compliance issues relative to the Mary & John Gray Library which need to be addressed: installation of sprinklers and construction of exterior exits from the stairwell.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 83rd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/11/2012
 TIME: 4:27:08PM

Agency code: 734

Agency name:
Lamar University

<u>CODE</u>	<u>DESCRIPTION</u>	<u>Excp 2014</u>	<u>Excp 2015</u>
	Item Name: Debt Service Requirement on TRB for Construction of New Science Building		
	Item Priority: 1		
	Includes Funding for the Following Strategy or Strategies: 02-01-02 Tuition Revenue Bond Retirement		
 OBJECTS OF EXPENSE:			
2008	DEBT SERVICE	1,938,583	2,921,250
	TOTAL, OBJECT OF EXPENSE	\$1,938,583	\$2,921,250
 METHOD OF FINANCING:			
1	General Revenue Fund	1,938,583	2,921,250
	TOTAL, METHOD OF FINANCING	\$1,938,583	\$2,921,250

DESCRIPTION / JUSTIFICATION:

Lamar University is requesting funding for the full debt service requirement on \$40,000,000 Tuition Revenue Bond for the construction of a new Science Building

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: N/A

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding: N/A

Consequences of not funding: The current Biology Building is over 43 years old and is far behind the curve for a laboratory and researching facility. It is severely lacking in quality laboratory space, particularly in research labs. New advances in science for bio-chemistry research cannot be handled in these current laboratory facilities. The new Science Building will add 62,500 assignable square feet of lab and classroom space. The University is dependent on funding for the debt service of this project, without state funding the project must be delayed indefinitely.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 83rd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/11/2012
 TIME: 4:27:35PM

Agency code: 734

Agency name:
 Lamar University

CODE	DESCRIPTION	Excp 2014	Excp 2015
	Item Name: Tier One Windstorm Insurance		
	Item Priority: 2		
	Includes Funding for the Following Strategy or Strategies: 03-05-01 Exceptional Item Request		
OBJECTS OF EXPENSE:			
2009	OTHER OPERATING EXPENSE	2,184,721	2,184,721
	TOTAL, OBJECT OF EXPENSE	\$2,184,721	\$2,184,721
METHOD OF FINANCING:			
1	General Revenue Fund	2,184,721	2,184,721
	TOTAL, METHOD OF FINANCING	\$2,184,721	\$2,184,721

DESCRIPTION / JUSTIFICATION:

Lamar Universtiy is located in Texas' Tier One Windstorm counties. The property insurance rate for their assets is almost five times the rate for other Texas Counties. This exceptional item funds the estimated differential cost of insuring these properties during each year of the biennium.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: N/A

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding: N/A

Consequences of not funding: Funds will be diverted from academic and student services.

Factors: The exceptional item will provide funds to replace a portion of the academic and student service funding required for the extraordinary costs of Tier One Windstorm insurance coverage for these services.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 83rd Regular Session, Agency Submission, Version I
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/11/2012
 TIME: 4:27:35PM

Agency code: 734

Agency name:
Lamar University

CODE	DESCRIPTION	Excp 2014	Excp 2015
	Item Name: Technology Advancement		
	Item Priority: 3		
	Includes Funding for the Following Strategy or Strategies: 03-05-01 Exceptional Item Request		
OBJECTS OF EXPENSE:			
2009	OTHER OPERATING EXPENSE	1,250,000	1,250,000
	TOTAL, OBJECT OF EXPENSE	\$1,250,000	\$1,250,000
METHOD OF FINANCING:			
1	General Revenue Fund	1,250,000	1,250,000
	TOTAL, METHOD OF FINANCING	\$1,250,000	\$1,250,000

DESCRIPTION / JUSTIFICATION:

Lamar University is requesting funding for the continuing cost of technology advancements and sufficient training for faculty and staff in order to utilize technology to its fullest.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: N/A

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding: N/A

Consequences of not funding: Systematic planning of technological enhancements to educational programs is difficult when technology changes so quickly and unpredictably. University administrators are continually playing catch-up to implement new technology applications that appear more quickly than a careful planning process can anticipate. Similarly, paying for new technologies with exciting educational applications remains troublesome when there are more needs than resources. Training faculty and staff members to utilize technology effectively remains a challenge. It seems clear that building a physical technological infrastructure is not enough. It is also necessary to build a human resource infrastructure for technology to fulfill its promise to higher education.

	TOTAL, OBJECT OF EXPENSE	\$75,000	\$75,000
METHOD OF FINANCING:			
1	General Revenue Fund	75,000	75,000
	TOTAL, METHOD OF FINANCING	\$75,000	\$75,000

DESCRIPTION / JUSTIFICATION:

Lamar University is requesting funding for the Small Business Development Center's (SBDC) to serve as a "venture catalyst" in Southeast Texas, leveraging resources within the SBDC Network and at Lamar University to start and grow businesses and create jobs, which will diversify the economy of the region. The current level of funding does not support the current level of service provided.

EXTERNAL/INTERNAL FACTORS:

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/11/2012
TIME: 4:27:35PM

Agency code: 734

Agency name:

Lamar University

CODE DESCRIPTION

Excp 2014

Excp 2015

Major accomplishments to date and expected over the next two years: the SBDC has: helped start 265 new businesses creating 2,073 new jobs; produced over 288 seminars attended by 2,408 people; arranged financing for our clients in excess of \$99,020,059M 1989. Post Hurricanes Katrina and Rita, the SBDC has: helped start 104 new businesses; helped create 1,472 new jobs; arranged \$71 million in financing for clients including over \$546,000 in EDC Grants to 111 recipients. The SBDC at Lamar University will: help start 86 more new businesses creating an estimated 396 jobs; help arrange \$15.9 million in financing for clients; produce 46 educational seminars for over 1,200 attendees; develop an outreach program that will service various counties.

Year established and funding source prior to receiving special item funding: Job Training Partnership Act program prior to 1991

Formula funding: N/A

Non-general revenue sources of funding:

1997-98 \$110,000 SBA

1997-98 \$10,000 Local Support

1999 - \$110,000 SBA

2000-11 \$110,000 SBA

2006 - \$24,000 Private/Community

Consequences of not funding: State funds requested serve as matching funds from the SBA. Without state funds, federal funds would be lost and the SBDC would cease to exist. Funding has never been increased by the state, but has been cut on numerous occasions since initial funding in 1989. The SBDC has continued to struggle to adapt by eliminating positions and service areas to handle the increases in demand for services. Funding began at the \$150,000 level and has fallen over the years. Because of a shift in SBA appropriations the state of Texas portion of SBA funding to the SBDC network has increased substantially due to a population to Texas. By not increasing funding to Lamar University's SBDC we will leave ten year federal money on the table and the SBDC will be unable to meet market demands for services.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE

	TOTAL, METHOD OF FINANCING	\$392,000	\$532,000
FULL-TIME EQUIVALENT POSITIONS (FTE):		11.50	11.50

DESCRIPTION / JUSTIFICATION:

Through this initiative, LU will develop and implement an efficient and effective online delivery system offering information and support in both English and Spanish for parents; early intervention, instruction, testing, and assessment for at-risk students during the summer following the junior year in high school, the fall and spring of the senior year, and the summer following the senior year in high school, ensuring that students enter college TSI exempt and ready to do college level work.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: N/A

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding: N/A

Consequences of not funding: The State of Texas spends \$200 million in general revenue funds every year on institutional costs for developmental education. Only 10% of new, underprepared Texas students who must take developmental courses gain college readiness in the first year. This is also the case nationwide, as more than 40% of high school graduates who enter college need remedial work and only half of them have completed a college preparatory curriculum. Lamar University wishes to implement a two-year, online, developmental education pilot project that builds upon our success in developmental studies courses offered in face-to-face mode (e.g., 92% of TSI-restricted LU students who complete DMTH 0372 in the fall semester earn a grade of at least C in College Algebra in the spring,) and our success in large scale, online instruction as part of our innovative Academic Partnerships (LUAP) programs.

As a result of our current LUAP programs, Lamar University has more than 460 partner school districts throughout Texas from which to draw students in need, enabling us to develop cooperatively a culture of college success, as well as teachers to serve as Instructional Associates.

TOTAL, METHOD OF FINANCING		\$350,000	\$250,000

FULL-TIME EQUIVALENT POSITIONS (FTE):	2.50	2.50
--	------	------

DESCRIPTION / JUSTIFICATION:

Funding of this Center will allow us to continue efforts that have started with private funding to collaborate with area and State health care providers to develop models of clinical care, and then transition to practices that are safe, effective, and efficient. The primary goal of the Center would be the use of simulations to develop best practices for educating the future nursing workforce.

EXTERNAL/INTERNAL FACTORS:

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE

CODE DESCRIPTION

Excp 2014

Excp 2015

Major accomplishments to date and expected over the next two years: N/A

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding: N/A

Consequences of not funding: Nursing is one of Lamar University's strongest and most popular fields of study, and the program addresses the State's nursing shortage by preparing high quality graduates. For the past four years, graduates of the program have succeeded on the NCLEX-RN above the 90%ile, with the program consistently being commended for graduate's success.

The department has used two Congressional earmarks of more than \$500,000 and, with the addition of the University's pledge for renovation of space of more than \$750,000, is developing a state of the art simulation area. A THECB Grant, STRIPES (Southeast Texas Regional Innovation Project on Effective Simulations), funded at \$255,000 by the Texas Board of Nursing Education, provided the research necessary to support the integration of clinical simulations into prescribed clinical education. Based upon the results of our findings, the Board of Nursing Education allows nursing programs to use one hour of simulation as the equivalent of two hours of clinical experience.

The Center will attract high ability students to nursing careers and aid in recruiting nursing faculty to the region and state. Start-up costs for a director, staff, clinical simulation laboratory, and operating equipment are requested along with second year costs.

------	-------------	-----------	-----------

Item Name: Texas Academy of Leadership in the Humanities (TALH)

Item Priority: 7

Includes Funding for the Following Strategy or Strategies: 03-01-01 Texas Academy of Leadership in the Humanities

OBJECTS OF EXPENSE:

1001	SALARIES AND WAGES	60,000	60,000
2009	OTHER OPERATING EXPENSE	90,000	90,000
3001	CLIENT SERVICES	450,000	475,000
TOTAL, OBJECT OF EXPENSE		\$600,000	\$625,000

METHOD OF FINANCING:

1	General Revenue Fund	600,000	625,000
TOTAL, METHOD OF FINANCING		\$600,000	\$625,000

DESCRIPTION / JUSTIFICATION:

TALH is a residential, honors, TEA-sanctioned program that allows students to enter Lamar, (as TALH students), when they are ready for their eleventh grade in high school. In two years, they complete their last two years of high school and their first two years of college.

EXTERNAL/INTERNAL FACTORS:

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 83rd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/11/2012
 TIME: 4:27:35PM

Agency code: 734

Agency name:
Lamar University

CODE DESCRIPTION	Excp 2014	Excp 2015
-------------------------	------------------	------------------

Major accomplishments to date and expected over the next two years: Almost all TALH students have earned academic recognition. Lamar expects the Academy to attract the best students in the State. The Academy will continue to retain and graduate students, and place them in the finest undergraduate, graduate and professional programs in the country.

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding:

FY 2004 - \$76,304 Average Daily Attendance

FY 2005 - \$57,370 Average Daily Attendance

FY 2006 - \$51,416 Average Daily Attendance

FY 2007 - \$61,039 Average Daily Attendance

FY 2008 - \$80,562 Average Daily Attendance

FY 2009 - \$73,002 Average Daily Attendance

FY 2010 - \$130,442 Average Daily Attendance

FY 2011 - \$133,855 Average Daily Attendance

FY 2012 - \$86,672 Average Daily Attendance

Consequences of not funding: This program has been extremely popular and students have been impressively successful, with enrollment growing each year. The extraordinary success has been made possible due, to some extent, to outside support from the general University budget. However, with the budget cuts mandated by the state, Lamar cannot provide the additional support needed to continue to grow the program. Nearly all TALH students earn academic recognition, and several have earned national recognition as Bill and Melinda Gates Millennium Scholars and Quest Bridge Scholars, as well as becoming LU's prestigious Mirabeau Scholars. All TALH students are required to perform service to the community. Academy students tutor local elementary students and teach after school workshops to area high school students. Plans call for enrollment to expand. This funding would increase access to TALH for high ability students from lower income families and allow TALH students to receive support comparable to those attending TAMS.

DESCRIPTION / JUSTIFICATION:

This Center will focus on enhancement of student performance, improvement of student retention and graduation rates, and increasing student satisfaction and engagement. The Center's mission directly addresses the participation and success goals of "Closing the Gaps."

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: N/A

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding: N/A

Consequences of not funding: With an aggressive combination of student advisement, mentoring, tutoring, monitored probation, early alert, and counseling and support, the Center staff will work closely with high-risk students early in their matriculation. While the Center's services will extend across the entire student body, Lamar will take additional steps with: (1) a mandate in the institution's strategic plan that all colleges include proven "high impact" activities (e.g., first-year seminar, learning communities, summer bridge programs, undergraduate research, internships, writing intensive courses, service learning, capstone courses, diversity/global learning); and (2) an emphasis on active and collaborative learning and faculty development, with a focus on course redesign in core areas, consonant with our new Quality Enhancement Plan (part of our recent reaffirmation by the Council on Colleges of the Southern Association of Colleges and Schools).

	Total Expenditures		19.0%		\$9,071,294	\$47,677,711		13.2%		\$5,482,199	\$41,548,710	

B. Assessment of Fiscal Year 2010 - 2011 Efforts to Meet HUB Procurement Goals

Attainment:

Lamar attained one applicable state wide HUB goal for FY2010.

Applicability:

The "Heavy Construction" and the "Building Construction: categories did not attain a major significance for this agency's operation in either FY2010 or Fy2011. "Heavy Construction" accounted for \$78,625 in total for both years, compared to total overall purchases for all categories of \$89,226,421.

"Building Construction" accounted for \$737,493 in FY2011. Compared to total overall purchases for all categories of \$41,548,710.

Factors Affecting Attainment:

Lamar did not attain or exceed "Other Services" for both fiscal years 2010 and 2011 due to employees performing services.

"Good-Faith" Efforts:

Lamar University made the following efforts to comply with the HUIB procurement goals per TAC Section 11313:

Ensured that contract specifications, terms, and conditions reflected the agency's actual requirements, were clearly stated, and did not impose unreasonable or unnecessary contract requirements,

Prepared and distributed monthly emails and/or flyers notifying all departments across campus about the importance of utilizing HUB vendors,

6.A. HISTORICALLY UNDERUTILIZED BUSINESS SUPPORTING SCHEDULE
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: 10/11/2012
Time: 4:23:50PM

Agency Code: 734 Agency: Lamar University

Prepared and distributed information on procurement procedures in a manner that encouraged participation in agency contracts by all businesses,

Encouraged mentoring/protégé program via phone, email and letters,

Encouraged minority vendors to register with the State on the Centralized Master Bidders List,

Consistently exceeds minimum requirements on minority vendor count for all informal and formal bid opportunities.

Project Priority: 1	Project Code: 8	Tuition Revenue Bond Request \$ 40,000,000	Total Project Cost \$ 40,000,000	Cost Per Total Gross Square Feet \$ 400
Name of Proposed Facility: Science Building	Project Type: New Construction			
Location of Facility: Lamar University	Type of Facility: Classroom and Lab			
Project Start Date: 09/01/2013	Project Completion Date: 05/31/2015			
Gross Square Feet: 100,000	Net Assignable Square Feet in Project 62,500			

Project Description

The current Biology Building is over 43 years old and is far behind the curve for a laboratory and research facility. It is severely lacking quality laboratory space, particularly in research. Advances in science for bio-chemistry research cannot be handled in these current laboratory facilities. The new Science Building will add 62,500 assignable square feet of lab and classroom space. The university is dependent on funding for the debt service of this project of this project, without state funding the project must be delayed.

734 Lamar University

Special Item: 1 Texas Academy in Humanities Leadership

(1) Year Special Item: 1992

(2) Mission of Special Item:

The Texas Academy of Leadership in the Humanities addresses the needs of gifted and talented students who benefit from enhanced educational challenges to fully develop their intellectual and leadership potential. The Academy is a two-year residential early-admissions university program for gifted high school students (juniors and seniors) with interests and outstanding achievement and advancement in the humanities.

(3) (a) Major Accomplishments to Date:

Almost all TALH students have earned academic recognition by being named to the Dean's List; and many to the President's List. We have several Bill and Melinda Gates Millennium Scholars and Quest Bridge Scholars attending Princeton, and other prestigious universities. Several students are attending U.S. service academies. Each year Academy students have been awarded Lamar University's most prestigious scholarship, the Mirabeau Scholar. All students perform service to the community! They have been given Jefferson Service Awards. They have won Youth for Understanding Scholarships and represented the Academy as PEACE SCHOLARS and ROTARY SCHOLARS to Okinawa, Finland, Norway, Mexico, and Germany. Several students have been accepted to the Baylor-Medical Program. An Academy student was recently named a Morehead-Cain Scholar, the oldest and most prestigious merit scholarship program in the US. Academy students tutor local elementary students and hold after school workshops. TALH students have engaged in 12 symposiums on FUTURISM; this program is a forecast of the hopes and challenges of our future as citizens. Academy students organized and delivered a summit on teen violence and worked on the McFaddin-Ward historical project. TALH students received the J.C. Penny Foundation Golden Rule Award for Community Service and the Young Jefferson Award for Outstanding Service to their Community. All TALH students are required to have Lamar University faculty mentors.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

As a result of stability, recent successes and intense recruiting, Lamar expects the Academy to attract the best students in the State. The Academy will continue to retain and graduate students, and place them in the finest undergraduate, graduate and professional programs in the country. The Academy will expand its community service presence and be an asset to Lamar University and the local community.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

2003- 54,615 Average Daily Attendance
2004- 76,304 Average Daily Attendance
2005- 57,370 Average Daily Attendance
2006- 51,416 Average Daily Attendance

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 4:21:11PM

734 Lamar University

2007- 61,039 Average Daily Attendance 2008 - \$80,562 Average Daily Attendance

2009 - \$73,002 Average Daily Attendance

2010 - \$130,442 Average Daily Attendance 2011 - \$133,855 Average Daily Attendance 2012 - \$86,672 Average Daily Attendance (LPE preliminary estimate)

(7) Consequences of Not Funding:

Lamar would lose average daily attendance funding of between \$1,000 and \$1,200 per student. The remaining cost would have to be supported by those attending the Academy. This would virtually remove the program's ability to provide access to those who do not have the financial means to attend. Another major loss is to the state of Texas which needs programs for the gifted and talented students. Many small schools in the state do not have such programs and do not offer accelerated programs in math and science with university professors.

734 Lamar University

Special Item: 2 Gulf Coast Hazardous Substance Research Center

(1) Year Special Item: 1989

(2) Mission of Special Item:

Senate Bill 39 (Section 108.052) The Center shall carry out a program of research, evaluation, testing, development, and demonstration of alternative or innovative technologies which may be utilized in minimization, destruction, or handling wastes to achieve better protection of human health and the environment.

This item supports both the instructional and research mission of the institution by providing research funds, which allow students and faculty to pursue and resolve environmental issues both in the laboratory and field. By resolving environmental issues in relationship to regional industry and business the regional economy and standard of living is greatly enhanced.

(3) (a) Major Accomplishments to Date:

In the last 23 years, the THSRC has provided \$18.9 million of federal (\$12.6 mil.) and State (\$6.3 mil.) research funding to The University of Texas, Texas A&M University, The University of Houston and Lamar University. The THWRC has funded approximately 560 research projects since its inception and currently has 30 ongoing research projects.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Additional accomplishments:

- Reduced environmental cost to Texas industry and public entities.
- Significantly reduced the cost of environmental waste site remediation.
- Provided a better understanding of tile public's reaction to hazardous waste installations and found ways to satisfy the public's fears about such sites.
- Addressed major research issues, focusing faculty at several universities on shared technical issues.
- Developed collaborative programs with U.S. Department of Energy and Department of Defense, as well as U.S.E.P.A.
- Developed new technology transfer initiatives through field demonstration projects.

(4) Funding Source Prior to Receiving Special Item Funding:

TEES Budget 1987/88

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

2001 \$1,459,300 Federal Funds
\$15,000 Industrial Funds
\$39,500 Other Grants
2002 \$975,000 Federal Funds

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 4:21:11PM

734 Lamar University

\$15,000 Industrial Grants
\$524,000 Other Grants
2003 \$2,500,000 Federal Funds
\$15,000 Industrial Grants
\$100,000 Other Grants
2004 \$2,500,000 Federal Funds
\$20,000 Industrial Funds
\$50,000 Other Grants
2005 \$2,500,000 Federal Funds
\$20,000 Industrial Funds
\$50,000 Other Grants
2006 \$2,550,000 Federal Funds
\$25,000 Industrial Funds
\$120,000 Other Grants
2007 \$2,210,000 Federal Funds
\$30,000 Industrial Funds
\$300,000 Other Grants
2008 \$1,992,000 Federal Funds
\$32,000 Industrial Funds
\$300,000 Other Grants

(7) Consequences of Not Funding:

A major engineering and scientific resource for the State in hazardous materials management will be lost as well as the significant amount of federal and industrial environmental funds the Center attracts for the University of Texas, Texas A&M University, University of Houston, and Lamar University.

734 Lamar University

Special Item: 3 Air Quality Initiative: Texas Hazardous Waste Research Center

(1) Year Special Item: 2000

(2) Mission of Special Item:

The mission of the Texas Air Research Center is to coordinate an integrated research program in air quality for the Gulf coast of Texas that will provide policy makers with factual data for decision making. The key pursuits are to: (1) build a track record of high quality air research for Texas Build, a database for air quality, (2) develop a foundation of air expertise in the State, (3) enhance the abilities of the member universities and the research community by providing assistance and encouragement to researchers and faculty members and (4) leverage State resources to compete for other research opportunities.

(3) (a) Major Accomplishments to Date:

Since the Texas Air Research Center (TARC) began receiving funding in September 1999, it has awarded one hundred air research projects with the majority supporting the overall \$10 million Texas Air Quality Study. The center obtained a \$376,000 CIAP Federal Grant to do air research in the Gulf Coast area. An additional \$150,000 was obtained by the Center to develop CMAQ air modeling expertise and continued collaboration with TCEQ has brought in about \$1,800,000 for air research.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The Center obtained funding for a federal air research center allowing leverage of state funds, 2) continued to participate in the Texas 2000 Air Quality Study by providing valuable air research input into the program, 3) coordinated air research programs with TARC members (University of Houston, Texas A&M, University of Texas, Lamar University), 4) developed additional air research expertise at TARC member universities and 5) continued to develop CMAQ modeling expertise at the Center.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

2001 none
2002 \$376,000 Federal Funds
 \$75,000 TNRCC
2003 \$75,000 TNRCC
2004 \$2,500,000 Federal Funds
 \$150,000 TNRCC
2005 \$2,500,000 Federal Funds
 \$150,000 TNRCC
2006 \$250,000 TCEQ

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 4:21:11PM

734 Lamar University

\$50,000 Industrial
2007 \$500,000 TCEQ
\$130,000 Industrial
2008 \$750,000 TCEQ
\$50,000 Industrial

(7) Consequences of Not Funding:

Severe reduction in the development of air quality expertise, knowledge and technical information in the State, thus greatly increasing the probability of establishing air quality rules and regulations that do not address the causes of air pollution in the Gulf Coast area.

734 Lamar University

Special Item: 4 Spindletop Museum Educational Activities

(1) Year Special Item: 1998

(2) Mission of Special Item:

Spindletop-Gladys City Boomtown Museum complements and enhances the educational, social and cultural mission of Lamar University through the collection, preservation and interpretation of artifacts, representative structures, and other items of social and cultural significance to Spindletop, 1890-1910.

(3) (a) Major Accomplishments to Date:

In 30 years, the museum has been open to the public six days a week, year-round, with over one-half million visitors. The museum has emphasized educational programs and projects, including a series of summer workshops for school teachers on Spindletop history, environmental oilfield history, southeast Texas history and early twentieth-century home life. The museum holds Saturday educational programs offered free to the public; conducts guided school tours for over 5,000 Southeast Texas students each year; offers continuing education each semester; and coordinates projects in conjunction with University academic courses in history, fine arts, home economics, geology, communication and education. The museum has operated a volunteer docent program that was recognized in a letter from President Clinton in 1994. Individual restoration projects have been accomplished, including the restoration of a historic 1930 Model A Ford and construction of an authentic 64-foot high wooden oil derrick built to replace three oil derricks lost in a 1986 hurricane. For the 100th anniversary of Spindletop, in 2001, a replica of the Lucas Gusher for living history purposes was built, as well as a new Visitor Center. The museum has improved the Lucas Gusher monument site, which was first erected in 1941. The museum completed construction on the T.A. Lamb & Son Printing exhibit, the first new exhibit building in the museum's 35-year history, which highlights the history and technology of printing.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The museum will undertake several projects to improve the conservation and care of over 3,000 historical objects and the 15 building structures, including hosting professional conservators, participating in the American Association of Museums (AAM) Conservation Assessment Program, implementing a comprehensive Collections Management Plan, and updating records related to the collections. Further, the museum plans considerable improvements to the interpretive and educational components of the exhibits, including introducing "hands-on" activities, additional interpretative signage, and improved educational offerings, such as lectures, symposia, exhibits and family events.

(4) Funding Source Prior to Receiving Special Item Funding:

The museum received modest support as part of the 1976 Bicentennial of the United States of America project undertaken by the Lucas Gusher Monument Association and the City of Beaumont Bicentennial Commission.

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

2012	\$36,000	Admissions, Facility Rentals & Merchandise Sales
	\$6,000	Endowment
	\$5,000	Private Grants (received)

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 4:21:11PM

734 Lamar University

2013 \$36,000 Admissions, Facility Rentals & Merchandise Sales
 \$6,000 Endowment
 \$25,000 Private Grants (to be requested)

2014 \$38,000 Admissions, Facility Rentals & Merchandise Sales
 \$6,000 Endowment
 \$20,000 Private Grants (to be requested)

2015 \$38,000 Admissions, Facility Rentals & Merchandise Sales
 \$6,000 Endowment
 \$20,000 Private Grants (to be requested)

(7) Consequences of Not Funding:

Spindletop-Gladys City Boomtown Museum, including its historical buildings, facilities and collections, were deeded to the State of Texas and entrusted to Lamar University for continued care and development as an educational resource. Most importantly, educational programs about the Texas' rich petroleum history for public school teachers and school children would be reduced. Further, many important cultural resources would be lost to the state and region, and enrichment to courses in geology, history, communication, fine arts, education, humanities, theater, engineering, and continuing education would no longer be available to Lamar University students and faculty; the community; and visitors from across the United States as well as Europe and Asia. Current museum-related faculty research in the departments of history, communication, engineering and environmental studies would be eliminated.

734 Lamar University

Special Item: 5 Small Business Development Center

(1) Year Special Item: 1989

(2) Mission of Special Item:

First supported in 1989, the Small Business Development Center's (SBDC) mission is to serve as a "venture catalyst" in Southeast Texas, leveraging resources within the SBDC network at Lamar University to start and grow businesses while creating jobs, which will diversify the economy of the region. For the FY 02-04 SBA funding was \$120,000 and is still currently at that level. Job creation is the primary measurement by which the SBDC determines its impact; and, job creation is the only real way to transform and grow the regional economy. There are other economic development agencies that work to recruit businesses and retain jobs; however, the SBDC is the only EDA dedicated to creating jobs by developing new businesses.

(3) (a) Major Accomplishments to Date:

Since its inception, the SBDC at Lamar University has:

- Helped start 265 new businesses creating 2,073 new jobs.
- Produced over 288 seminars attended by 2,408 people.
- Helped arrange financing for our clients in excess of \$99,020,059 million since 1989.

Post Hurricanes Katrina and Rita, the SBDC at Lamar University has:

- Helped start 104 new businesses.
- Helped create 1,472 new jobs.
- Arranged \$71 million in financing for clients including over \$546,000 in EDC Grants to 111 recipients.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The SBDC at Lamar University will:

- Help start 86 more new businesses creating an estimated 396 jobs.
- Help arrange \$15.9 million in financing for our clients.
- Produce 46 educational seminars for small business persons with over 1,200 attendees.
- Develop an outreach program that will service Newton, Jasper, Orange, Chambers and Hardin Counties consistently.

(4) Funding Source Prior to Receiving Special Item Funding:

Job Training Partnership Act program prior to 1991

(5) Formula Funding:

N/A

(6) Non-general Revenue Sources of Funding:

1997 - \$110,000 Small Business Administration

1997 - \$10,000 Local Support

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 4:21:11PM

734 Lamar University

1998 - \$110,000 Small Business Administration
1998 - \$10,000 Local Support
1999 - \$110,000 Small Business Administration
2000 - \$110,000 Small Business Administration
2001 - \$110,000 Small Business Administration
2002 - \$110,000 Small Business Administration
2003 - \$110,000 Small Business Administration
2004 - \$110,000 Small Business Administration
2005 - \$110,000 Small Business Administration
2006 - \$110,000 Small Business Administration
2006 - \$24,000 Private/Community Support & Program Income
2007 - \$110,000 Small Business Administration
2008 - \$110,000 Small Business Administration
2009 - \$110,000 Small Business Administration
2010 - \$110,000 Small Business Administration
2011 - \$110,000 Small Business Administration

(7) Consequences of Not Funding:

State funds requested serve as matching funds from the SBA. Without state funds, federal funds would be lost and the SBDC would cease to exist. Additionally, state mandated pay raises granted to our employees, without commensurate funding increases, has left the SBDC scrambling for funds to make up the difference. Funding has never been increased by the state, but has been cut on numerous occasions since initial funding in 1989. The SBDC has continued to struggle to adapt by eliminating positions and service areas to handle the increases in demand for services. Funding began at the \$150,000 level and has fallen over the years. Because of a shift in SBA appropriations the state of Texas portion of SBA funding to the SBDC network has increased substantially due to a population to Texas. By not increasing funding to Lamar University's SBDC we will leave ten year federal money on the table and the SBDC will be unable to meet market demands for services.

734 Lamar University

Special Item: 6 Public Service/Community Outreach Expansion

(1) Year Special Item: 1993

(2) Mission of Special Item:

The Community Outreach Program's mission is to demonstrate the capability of Lamar University to empower individuals and families with the knowledge, attitudes, beliefs and skills needed to achieve personal, social and economic self-sufficiency and to enhance the neighborhoods and communities in which they reside.

(3) (a) Major Accomplishments to Date:

Major Accomplishments of the Community Outreach Program are: 1) Establishing a region wide Community Tax Preparation and Financial Education Program for low-to-moderate income individuals and families. The Community Tax Center Program has locations in four counties and has served over 2,000 individuals and families returning \$2,000,000 in tax refund dollars to the local economy; 2) Established fifteen neighborhood based Community Development Corporations, Resident Associations and Nonprofit Organizations working under the direction of the Community Outreach Program. These organizations have developed programs to empower low-income residents in their communities and 3) Partnered with Entergy Texas, Catholic Charities and the Lamar University Center for Public Policy Studies to develop a study across nine counties in Southeast Texas to identify individual and family needs in areas such as employment, education, housing, health and transportation.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

During the next 2 years, The Community Outreach Program plans to expand the services offered through the Community Tax Center Program to include: 1) Financial aid services for college students; 2) University enrollment services; 3) Enrollment in college savings programs for youth such as IDA'S and 529 plans to promote a college going culture and 4) Enrollment in banking products to include checking and savings accounts.

(4) Funding Source Prior to Receiving Special Item Funding:

Small local grants

(5) Formula Funding:

N/A

(6) Non-general Revenue Sources of Funding:

Small local grants

(7) Consequences of Not Funding:

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 4:21:11PM

734 Lamar University

Consequences of not funding the Community Outreach Program are : 1) Elimination of the only University based program in Southeast Texas focused on the empowerment of low-to-moderate income individuals, families and communities and the issues related to poverty; 2) Individuals and families served by the program may descend into less productive lives and will not contribute to society as they would otherwise; 3) Communities would become economic burdens to the city of Beaumont, Texas; 3) Increased crime and poverty would likely follow; 4) Individuals and families would not be as empowered with the knowledge, skills and beliefs needed to become productive and contributing members of society, and 5) Elimination of a major strategic component of Lamar University's mission of public and community service.

734 Lamar University

Special Item: 7 Spindletop Center for Excellence in Teaching Technology

(1) Year Special Item: 1998

(2) Mission of Special Item:

The Spindletop Center for Professional Development & Technology's Educational Technology Center's (ETC) mission is to transfer current research in the area of educational technology and evaluative practices to K-12 applications that enhance curricula, instructional knowledge, telecommunications, course delivery and related activities that enhance educational processes.

(3) (a) Major Accomplishments to Date:

- Provided over \$1,875,566 to public school districts, Texas School for the Deaf, and higher education through collaborative grants
- Initiated the development and delivery of 100 web-based courses
- Sponsored over 300 professional development opportunities for educators
- Initiated the development and delivery of 113 courses offered through interactive distance education
- Enabled 28 rural school districts to offer Recommended High School Diploma for high school graduates
- Provided content to the SETTEN network offering dual credit courses, undergraduate education and graduate opportunities to Southeast Texas
- Implemented the nationally acclaimed, technology rich science program, "JASON Project," to schools within Region 5 ESC providing science experiences for over 15,000 students

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- Extend access to higher education through distance education to assist in reaching the goals of Closing the Gaps
- Address the critical need for certified teachers through increased course offerings via interactive delivery to rural areas
- Increase educational technology experiences of pre-service teachers
- Work to develop TEKS in technology in area teachers and pre-service teacher education
- Expand the collaborative relationship with area school districts, Texas School for the Deaf, ESC, business, and community agencies
- Extend training for educators of the deaf
- Increase student access to Lamar University's Deaf Education Doctoral Program, via distance education
- Implement increased professional development opportunities for university faculty, public school administration, and teachers
- Provide leadership and support in educational technology for K-12 and university faculty
- Maximize the educational resources through collaborative cooperation among universities, public school districts, Texas School for the Deaf, and the educational service centers
- Assist rural school districts in obtaining additional resources through grant funding
- Continue to provide technology and professional development support for the JASON project through collaboration

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/11/2012 4:21:11PM

734 Lamar University

(4) Funding Source Prior to Receiving Special Item Funding:

1993-94 \$1,250,000 Texas Education Agency
1994-95 \$9,700 Southwestern Bell
1994-95 \$500,000 Texas Education Agency
1995-96 \$375,000 Texas Education Agency

(5) Formula Funding:

N/A

(6) Non-general Revenue Sources of Funding:

1996 \$28,931 Academics 2000 Grant
1997 \$115,000 Texas Education Agency
1998 \$307,200 Texas Education Agency
1998 880,000 Texas Education Agency
1999 \$996,032 Telecommunications Infrastructure Fund Board (ACCESS I)
1999 \$500,000 Telecommunications Infrastructure Fund Board (LINC)
2000 \$30,000 Telecommunications Infrastructure (TCTC)
2001 \$20,000 Southwestern Bell Foundation
2001 \$231,952 Telecommunications Infrastructure Fund Board (ACCESS II)
2002 \$844,435 Telecommunications Infrastructure Fund Board (INVEST)
2002 \$20,000 Southwestern Bell Foundation
2004 \$20,000 Southwestern Bell Foundation
2004-2005 \$25,000 SBC Foundation
2005 \$70,000 Texas Higher Education Coordinating Board (Project Scientist)

(7) Consequences of Not Funding:

- Loss of professional development opportunities provided by the Center to university faculty and teachers
- Loss of distance education training and support for faculty
- Loss of dual credit opportunities for high school students
- Fewer experiences with educational technology for pre-service teacher education students
- Eliminate interactive course delivery for rural areas
- Eliminate continuation and expansion of collaborative relationships to share resources, increase educational access, and pursue grant opportunities for rural schools
- Reduce the number of rural school districts able to offer the Recommended High School Diploma
- Loss of access to higher education coursework for adult learners and rural areas to meet goals of Closing the Gaps

734 Lamar University

Special Item: 8 Institutional Enhancement

(1) Year Special Item: 2000

(2) Mission of Special Item:

Institutional enhancement funding is requested to support competitive faculty salaries as well as maintenance and operational expenses incurred by academic departments. To hire, retain and reward high quality faculty, particularly in high student demand areas such as nursing, engineering, education and business, Lamar needs increased faculty and departmental support resources. Enhanced funding would allow Lamar to address the shortage of tenure/tenure-track faculty (47% are in non-tenured appointments), faculty salary inequities, salary compression and merit-based salary increases. These needs are especially critical in light of the substantial growth in programs and student enrollment over the past decade.

(3) (a) Major Accomplishments to Date:

- Over the decade, Lamar's faculty salaries have moved from the bottom to among the top of the State's comprehensive universities.
- Lamar's faculty total has increased from 443 in F2000 to 540 in F2011, with greater ethnic diversity and targeted growth in the STEM disciplines and nursing.
- Lamar developed and partially implemented a faculty salary equity plan.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- Complete salary equity plan
- Hire additional tenure/tenure-track faculty (since F2000, student headcount has grown by more than 72%, while faculty numbers have increased by less than 22 percent, and tenure/tenure track faculty have risen by only 13.2 percent)
- Continue to hire, retain and reward faculty in high demand areas such as nursing, engineering and education (graduate-level)

(4) Funding Source Prior to Receiving Special Item Funding:

- Formula Funding
- HEAF
- Institutional Resources (tuition, fees, external funds)

(5) Formula Funding:

N/A

(6) Non-general Revenue Sources of Funding:

Local institutional resources

(7) Consequences of Not Funding:

Schedule 9: Special Item Information
83rd Regular Session, Agency Submission, Version I
Automated Budget and Evaluation System of Texas (ABEST)

734 Lamar University

- Increase in average section (class) size
 - Difficulty meeting student demand for instruction, especially tenure-tenure track faculty in lower division courses
 - Difficulty in hiring and retaining high quality faculty, especially in the STEM disciplines
 - Difficulty in providing support for academic departments (e.g., instructional technologies and professional development)
-
