Administrator's Statement

Angelina College endorses the \$1.968 billion request for student success funding for the 2014-15 biennium as outlined in the July 16, 2012 letter from the Texas Association of Community Colleges. The letter presented to the Legislative Budget Board and Governor's Office of Budget, Planning and Policy focuses on student success and increased educational opportunity for Texans.

We support the request for the three new strategies to help all community colleges accomplish their statutory missions:

Core Operations: \$50,000,000 for the biennium so that each college could receive \$500,000 for each fiscal year to help support basic operations. This would be extremely important to smaller colleges and rural colleges. Core operations funding would be crucial for Angelina College. In recent biennia Angelina College has suffered a loss in state funding because even more rapidly growing urban and suburban districts draw more enrollment-based funding away from state appropriations that have fallen far short of keeping up with statewide growth. The Core Operations concept would greatly assist in at least some stability in appropriations for rural colleges that grow, but at rates slower than the state average.

Student Success Points: We will support the concept of some funding being set-aside to recognize student achievement and endorse the concept of the basic "success points" model under development by the Coordinating Board and TACC. Angelina College does believe that the model should be expanded to reflect student success metrics throughout the community college mission recognizing areas such as Adult Education achievements (GED and ESL) and the awarding of workplace skills certificates and licensure. Degree completion and transfer should not be the only measure of "success points".

Contact Hour Funding: We support the recommendation in the TACC letter to fund enrollment contact hours at \$ 1,721,655,924. This would fall far short of fully funding eligible contact hours but would embrace a strategy to partially offset the no-growth appropriations of the last biennium, a period during which Angelina College grew by 20% and has had to survive on a combination of freezes and reductions in per-student spending along with tuition increases and local property tax increases.

It is significant that despite the increasing demand for services, more students, and the pressures of decreased state funding, that Angelina College asks for no special item funding. We only request that we be funded for the students we serve, for some of our growth, and for the funding of Student Success as outlined in the three strategies presented by the Texas Association of Community Colleges.
