Profile

The Alamo Community College District (Alamo Colleges) was established as a public community college through a public election in 1945. The District operates as a political subdivision under the laws of the State of Texas. A nine-member Board of Trustees is the governing body of the District. The Trustees are elected locally to six-year terms by Bexar County voters. The Board of Trustees and their current terms of office are:

Gary Beitzel, Chairman	May 2008 - May 2014
James A. Rindfuss, Vice Chairman	May 2008 - May 2014
Anna U. Bustamante, Secretary	May 2010 - May 2016
Marcelo S. Casillas, Assistant Secretary	May 2008 - May 2014
Denver McClendon	May 2010 - May 2016
Dr. Gene Sprague	May 2006 - May 2012
Roberto Zárate	May 2006 - May 2012
Blakely Latham Fernandez	December 2009 - May 2012
Joe Alderete, Jr.	June 2010 - May 2016

The Chancellor, the District's chief executive officer, guides and implements the programs and policies of the Alamo Colleges.

The Alamo Colleges, a comprehensive two-year system, is dedicated to providing quality education and workforce training to the people of Bexar and surrounding counties. The five colleges - San Antonio, St. Philip's, Palo Alto, Northeast Lakeview, and Northwest Vista – provide university transfer programs, workforce education programs, technical programs, developmental courses, adult literacy courses, continuing education, and community services.

Students are taught by highly qualified faculty, predominantly with Masters and Doctorate degrees, committed to creating a learning-centered environment. Student services include counseling, computer labs, tutoring, financial services, services for the disabled, developmental instruction, veteran's services, and job placement.

The Alamo Colleges include two Hispanic-serving Institutions, and one of the nation's only institutions that is both a Historically Black College and a Hispanic-serving Institution, as well as the nation's third largest producer of Hispanic nurses, and Texas' largest provider of online post-secondary education. A vibrant international program brings Central American teachers to San Antonio for advanced education while affording students and faculty the opportunity to travel to all regions of the world.

Enrollment Growth

The Texas Association of Community Colleges reported in October 2009 that community college enrollments across Texas increased by nearly 12% - adding more than 66,000 new students to the state's educational system. The Alamo Colleges experienced that same growth 12% in the Fall 2009 and an additional increase in Spring 2010, adding over 7,000 new students each semester. This equates to an entire average-sized community college added to our existing student population.

Strategic Planning

The Board approves a strategic plan in three-year cycles. The plan is reviewed and reaffirmed every year, and involves all levels of the organization. The vision, mission,

ADMINISTRATOR'S STATEMENT

Agency name: **Alamo Community College**

values and goals determine the overall strategic decisions for the Alamo Colleges. Key performance indicators based on state and national peer institutions and annual performance targets are defined. An integrated planning model is used to strengthen the connection between the strategic plan, related action plans and the operating budget, which is approved annually by the Board of Trustees.

The Alamo Colleges strategic plan goals include: 1) maintain and extend an open door and affordable access to quality higher education; 2) increase academic support of all students; 3) build a world-class workforce education and training capacity in partnership with businesses and community-based organizations; 4) develop the human capital and strengthen the financial, technological, and physical capacities for first-rate student and community services; and 5) foster integrated organizational communication. These goals align with the state's higher education plan, entitled "Closing the Gaps by 2015." The Alamo Colleges follow the Baldrige Model to institute excellence in our education system.

Student Access

Community colleges play a unique role in post secondary education. Their mission makes them attractive and accessible to a broad range of people, both traditional and non-traditional students. Community colleges are the gateway to post-secondary education for many minority, low-income and first-generation post secondary education students. They provide access to working adults and high school students who want to progress further in their higher education studies. According to American Association of Community Colleges (AACC), half of the students who receive a bachelor's degree have attended community college during the course of their undergraduate studies. The AACC states community colleges are the fastest growing segment of higher education. As a sector, community colleges have added more than 2.5 million students over the last five years. They enroll more than 50% of all African-American students and more than two-thirds of all Latino students. 39% of students are the first in their families to attend college. Thus, community colleges' mission is fundamental to a community's ability to educate its population to develop the skills for a constantly changing economic environment.

Student Success

The Alamo Colleges actively participate in national, state and local initiatives to ensure student access and success. One national initiative, Achieve the Dream, focuses on creating a "culture of evidence" on community college campuses in which data collection and analysis drive efforts to identify problems that prevent students from succeeding—particularly low-income students and students of color. It develops programs to help students stay in school and receive a certificate or diploma or transfer to a four-year institution. Recently Alamo Colleges was recognized as a leader in the national student completion movement by Achieving the Dream: Community Colleges Count (ATD). Alamo Colleges, one of seven colleges designated as a 2010 Leader College, was recognized for demonstrating sustained improvement and accomplishments on key student achievement indicators. A Leader College must have demonstrated commitment to and progress on the four principles of Achieving the Dream: committed leadership, use of evidence to improve programs and services, broad engagement, and systemic institutional improvement. They must also have shown three years of sustained improvement of student success on at least one of the following measures of performance: course completion, advancement from remedial to credit-bearing courses, completion of college-level math and English courses, term-to-term and year-to-year retention, and completion of certificates or degrees. Additionally, each college will have successfully implemented at least one student success intervention or initiative that is advancing student outcomes that are of sufficient scale to benefit a substantial proportion of students. These colleges have identified workable solutions to issues such as enhancing the experience of first-year students, improving developmental education, closing achievement gaps, strengthening academic and personal advising for students in need of additional support, strengthening links to high schools and four-year institutions to improve student preparation, and increasing retention, persistence rates, and the number of certificate and degree recipients. Alamo Colleges is proud to have received their recognition.

Workforce Training

The unemployment rate in Texas is currently 8.3%. Community Colleges are leaders in providing training for job skills and are working to help Texans during this time of economic uncertainty. According to Texas Comptroller Susan Comb's report, Texas Works, an increase of 10% in community college enrollments yields 13,000 new jobs in Texas in the first year alone.

The Alamo Colleges are active partners with the region's counties and cities and their economic development efforts to retain and attract businesses and to respond to the new skill needs of employers. We have highly regarded workforce programs to train workers in high demand occupations, such as nursing, teachers and first responders (police officers, fire fighters, paramedics, and EMTs). We have aggressively responded to local, state and national efforts to expand green jobs training by creating new credit and non-credit offerings that are actively enrolling new students. One example is participation in the Mission Verde Center. This Center's core partners include City of San Antonio, CPS Energy, San Antonio Water System, Texas Engineering Experiment Station and others. This center is an integral piece of San Antonio's plan to build a 21st Century economy around green technologies and initiatives to improve energy efficiency, utilize renewable materials, improve air and water quality and advance sustainability. Green skills training for this project will be provided through the Alamo Colleges.

The Alamo Colleges continue to develop access opportunities for the under-served rural areas through regional centers in our seven-county service area, which includes Atascosa, Bandera, Comal, Guadalupe, Kendall, Kerr and Wilson counties. The three regional centers are Central Texas Technology Center (Guadalupe), Greater Kerrville-Alamo Colleges Center (Kerr) and Floresville Early College and Community Education Center (Wilson). These centers allow residents the opportunity to gain entry-level skills, to increase technical skills and to connect to jobs or additional education opportunities. The workforce programs at each center are tailored to the needs of the local economies in each area. The centers also offer dual credit courses that allow high school juniors and seniors to attend classes and earn college credit. Each of the centers was constructed with funds from local partners, at no cost to the Alamo Colleges.

Recently, a University/Multi-Institutional Teaching Center was opened at the former campus of our newest college, Northeast Lakeview College. Students will have convenient access to 1) quality bachelor's and master's degree programs that complement the associate's degrees offerings of the Alamo Colleges, 2) professional development courses, which meet the needs for professional certifications, and 3) workforce training programs. Participants, which include both public and private universities, are Texas A&M University at San Antonio, Texas State University, St. Mary's University, Our Lady of the Lake University, University of the Incarnate Word.

Facilities

Through a \$450 million bond package approved by Bexar County citizens in November 2005, the Alamo Colleges has constructed 24 new buildings totaling approximately 1.5 million square feet, plus numerous renovations. The money funded much needed improvements at the four existing colleges, a new college in rapidly growing northeast San Antonio, and information technology improvements. This additional capacity has been essential to accommodating the soaring enrollment growth.

Significant Service Demands and Impact of Reduced Funding

The Alamo Colleges and the other Texas community colleges are the catalyst for the economic recovery of our local communities, Texas and the nation. However, due to significant reductions in state appropriations, these community colleges face an enormous funding challenge. State appropriations are limited in the purposes for which they can be spent. State statute requires that colleges may only expend state funds for instruction, academic support, student services, institutional support, organized activities and staff benefits associated with salaries paid from general revenue. Because all state funding for community colleges is limited to instructional cost elements,

ADMINISTRATOR'S STATEMENT

Agency name: **Alamo Community College**

i.e. our direct services, any level of reduction directly impacts resources for these purposes. It is the perfect storm of substantial increases in enrollments, related increases in faculty and operating costs to support this growth, a 5% reduction, along with the potential of an additional 10% in state appropriations.

The biggest concern is the potential need to cap enrollments. While the state's economic condition may necessitate cost-cutting, the very real impact to the Alamo Colleges is that any such fiscal retraction in a time of unprecedented enrollment growth will effectively begin to "close the door" on our open-door admissions policy – the very foundation of our existence. This will, in turn, limit essential educational and training opportunities to our citizenry and employers and effectively stall the economic recovery of our eight county regions.

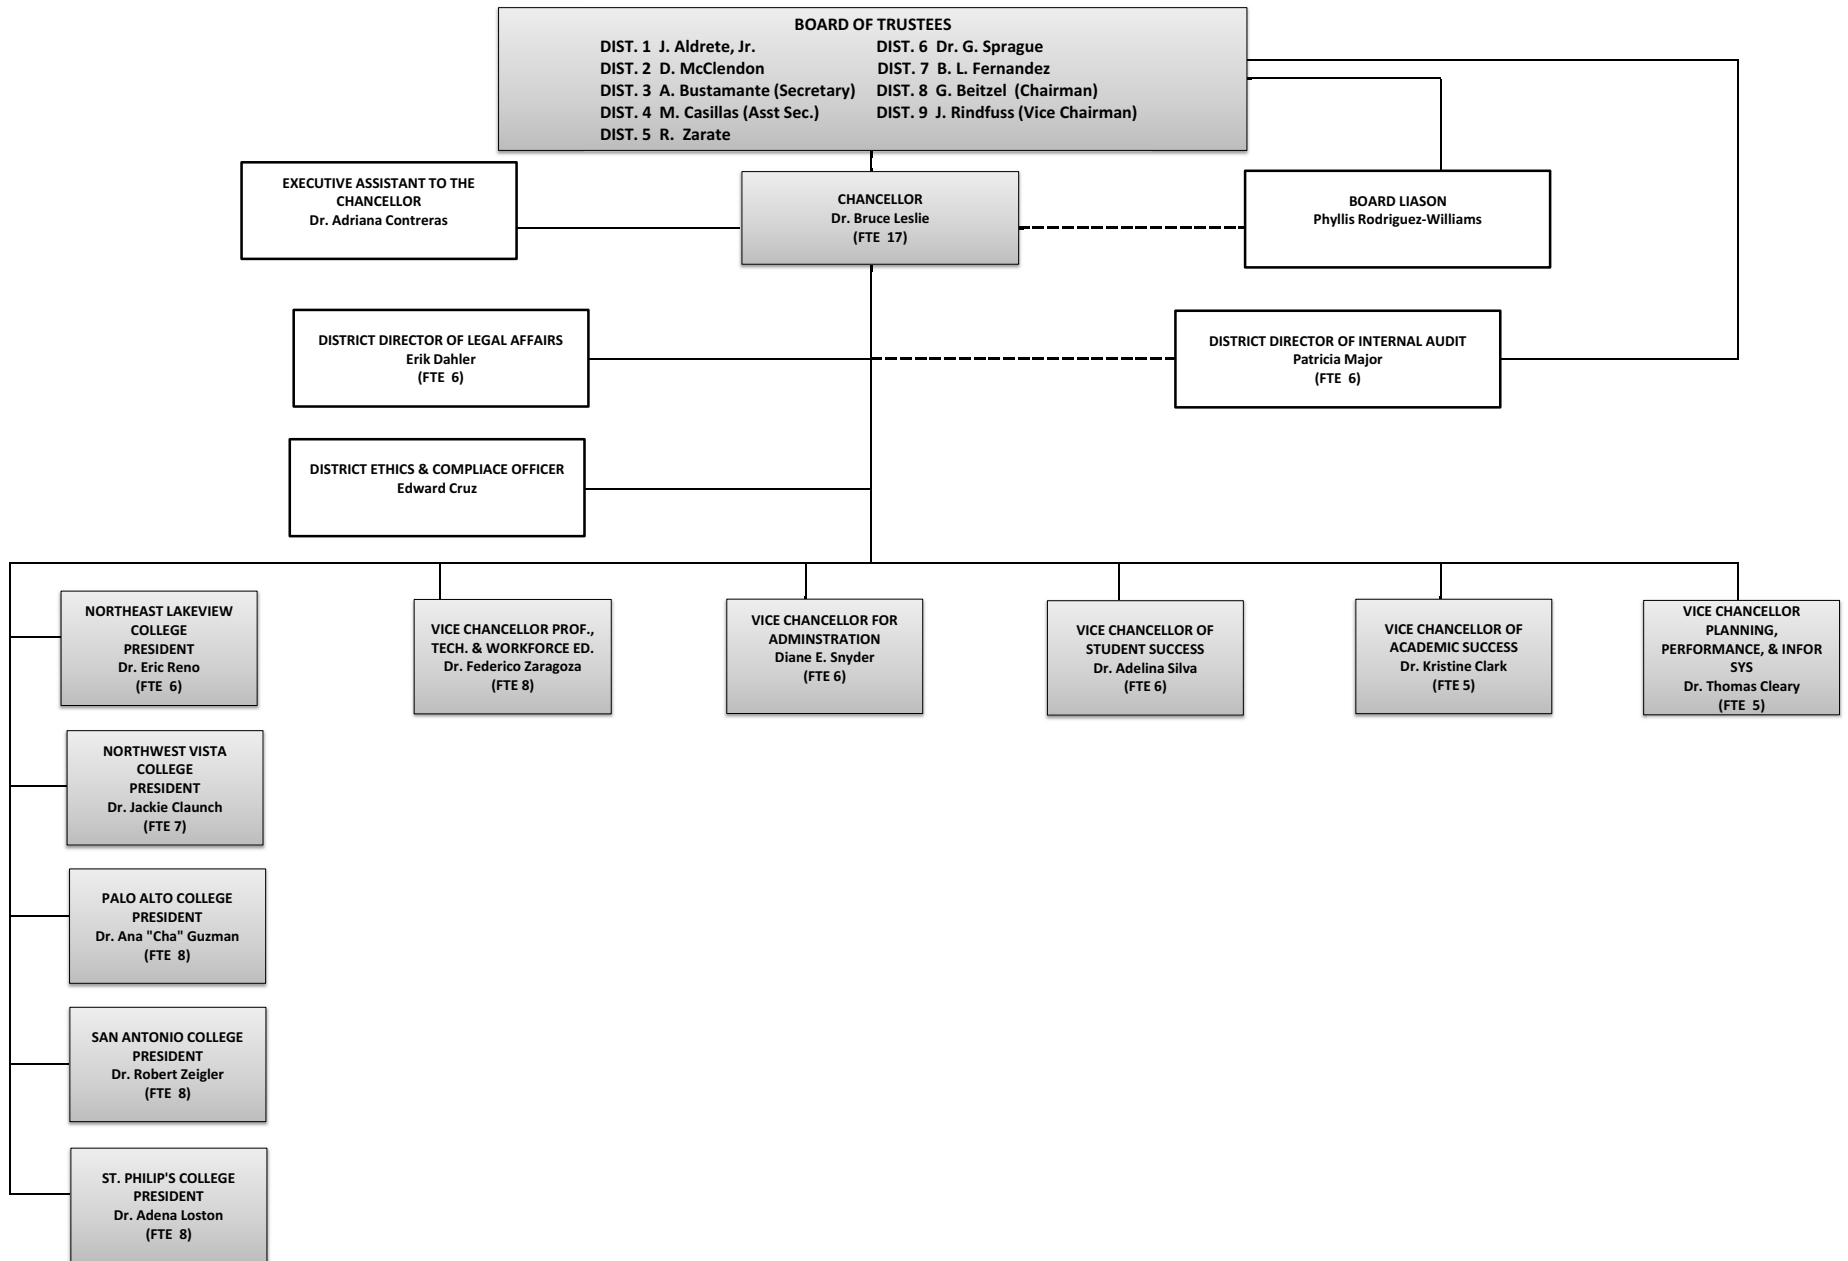

Over the past three years, we have watched the rest of the country cut higher education budgets, and we have proactively taken a number of deliberate and specific steps to reduce costs, which have resulted in savings of approximately \$15 million. Examples of these strategies include fully implementing the recommendations from the Texas School Performance Review, restructuring administrative services, installing more efficient environmental systems, eliminating certain workforce programs, altering our full-time/part-time faculty ratio from 60/40 to 50/50 to be more adaptable to changing student needs, eliminating the Motor Pool, and many more initiatives.

In June and July of this year, a team of 50 leaders from all five colleges and the District office, including staff, faculty, administrators and trustees, tackled this fiscal challenge head on during four days of strategic sessions. The \$21 million gap in all funding sources in the FY11 operating budget, caused by the costs associated with increased enrollment, new facilities and reduced state appropriations, was addressed. The team carefully considered hundreds of employee suggestions compiled from participant surveys and ideas submitted to the Chancellor's Suggestion Box online. Together, we identified 25 initiatives to take costs out of our business or generate new revenues in FY11 and FY12, which will help offset the potential 10% FY12/13 biennial base reduction.

We cannot cut this deeply, however, without consequences to student access and quality educational service to students and the communities we serve. Thus, it is imperative the legislature consider the effect of the unprecedented fiscal cuts to the Texas community colleges. We strongly support the three exceptional item requests for submitted on behalf of the fifty public community/junior districts by the Texas Association of Community Colleges. The aggregate of these three exceptional item requests maintains the 2010-11 level of funding for community colleges and provides sufficient base funding to each district.

The Alamo Colleges requests two exceptional items to support workforce training for its First Responder Fire Program and the Workforce Academies. One other item request is for assistance for a pilot project to support students whose work or life situation does not allow them to attend a traditional semester format.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 82nd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/15/2010**
 TIME: **1:52:18PM**

Agency code: **977**

Agency name:
Alamo Community College

CODE	DESCRIPTION	Excp 2012	Excp 2013
	Item Name: Provide funding to expand workforce academies.		
	Item Priority: 7		
	Includes Funding for the Following Strategy or Strategies: 01-01-02 Vocational/Technical Education		
 OBJECTS OF EXPENSE:			
1001	SALARIES AND WAGES	50,000	50,000
1005	FACULTY SALARIES	250,000	250,000
5000	CAPITAL EXPENDITURES	200,000	200,000
	TOTAL, OBJECT OF EXPENSE	\$500,000	\$500,000
 METHOD OF FINANCING:			
1	General Revenue Fund	500,000	500,000
	TOTAL, METHOD OF FINANCING	\$500,000	\$500,000

DESCRIPTION / JUSTIFICATION:

This item requests funding to continue expanding and administering four workforce training academies at the Alamo Colleges: Aerospace Academy, Information Technology and Security Academy, Advanced Technology and Manufacturing Technology Academy, and Health Professions Academy.

The Alamo Academies, an innovative training and educational partnership, provide education, experience and job opportunities for high school students seeking to jump-start their futures and make a seamless transition from high school to college and/or to the workplace. Qualified students receive training in high-wage demand occupations during their junior and senior years of high school. The students earn one year of college credits and participate in a paid internship while introducing them to careers in key local industries. Participating employers benefit through access to a continuous pipeline of skilled entry-level workers trained to their specifications.

This program was designed so that students remain enrolled in their home high school. During the junior and senior years, students take approximately half of your classes at their high school and the remainder at the Alamo Colleges. UIL eligibility is retained, so students may participate in extra-curricular athletic or academic activities, if desired. The Academy program provides enough flexibility to offer its programs in the morning or afternoon according to the needs of the high school and student.

EXTERNAL/INTERNAL FACTORS:

San Antonio is ideal for this program, because it has large partner businesses, such as Boeing, Toyota, Rackspace and multiple health providers, which provide paid internships for the students. The workforce academies serve a dual purpose in developing knowledge and skills for workers, while providing skilled workers for businesses in Texas.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 82nd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/15/2010**
 TIME: **1:52:27PM**

Agency code: **977**

Agency name:

Alamo Community College

CODE	DESCRIPTION	Excp 2012	Excp 2013
	Item Name: Provide reuseable training buildings to improve real-time, live-fire and emergency training simulations.		
	Item Priority: 8		
	Includes Funding for the Following Strategy or Strategies: 01-01-02 Vocational/Technical Education		
OBJECTS OF EXPENSE:			
5000	CAPITAL EXPENDITURES	1,500,000	2,500,000
	TOTAL, OBJECT OF EXPENSE	\$1,500,000	\$2,500,000
METHOD OF FINANCING:			
1	General Revenue Fund	1,500,000	2,500,000
	TOTAL, METHOD OF FINANCING	\$1,500,000	\$2,500,000

DESCRIPTION / JUSTIFICATION:

This exceptional item is requested to provide live-fire training buildings to enhance an existing program for the San Antonio and South Central Texas areas with highly trained and qualified personnel in the Protective Services fields of Fire Protection, Fire Arson Investigation, and Emergency Management Administration. The Alamo Colleges, using internal and grant resources, have funded the initial training site with a fire burn tower, classroom building and road access. Resources are needed to purchase burn buildings to allow for real-time, live-fire and emergency training simulations.

EXTERNAL/INTERNAL FACTORS:

The unprecedented demands currently placed on emergency responders, combined with the lack of realistic training facilities, have created a dangerous gap in the training of firefighters. Many training facilities currently in use lack the ability to replicate the hazards responders must now be prepared to face. A great deal of money is expended in providing paper-based training programs designed to meet increasing regulatory demands. The lack of realistic training facilities, however, makes it difficult to provide the level of preparedness required to truly have an impact in the critical early stages of an emergency.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 82nd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/15/2010**
 TIME: **1:52:27PM**

CODE	DESCRIPTION	Excp 2012	Excp 2013
-------------	--------------------	------------------	------------------

Item Name: Infrastructure for Student Services and Educational Support for Non-Traditional Students

Item Priority: 9

Includes Funding for the Following Strategy or Strategies: 01-01-01 Academic Education
 01-01-02 Vocational/Technical Education

OBJECTS OF EXPENSE:

1010	PROFESSIONAL SALARIES	500,000	1,000,000
	TOTAL, OBJECT OF EXPENSE	\$500,000	\$1,000,000

METHOD OF FINANCING:

1	General Revenue Fund	500,000	1,000,000
	TOTAL, METHOD OF FINANCING	\$500,000	\$1,000,000

DESCRIPTION / JUSTIFICATION:

This exceptional item requests assistance for a pilot project to support students whose work or life situation does not allow them to attend or complete a traditional semester format. Funding is needed for student services, supplemental instruction, tutoring and technology call centers.

EXTERNAL/INTERNAL FACTORS:

Students, such as those serving in the military, would benefit from this type of program. The Alamo Colleges serves the largest military community in the state. Other non-traditional students, such as those working or traveling, would be able to utilize this program where traditional programs may not be feasible.

6.I 10 PERCENT BIENNIAL BASE REDUCTION OPTIONS
 82nd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

Date: 8/15/2010
 Time: 1:55:19PM

Agency code: 977 Agency name: Alamo Community College

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2012	2013	Biennial Total	2012	2013	Biennial Total	
Item Comment: Reduce amount of state aid required by a program through adjusting tuition and fee-based revenues. Alamo continually evaluates tuition and fee schedules to cover the cost of service delivery. Alamo has initiatives to evaluate high-cost programs, continuing education, swimming pools and fitness centers to determine if tuition or fees can be adjusted upward.							
Strategy: 1-1-1 Academic Education

General Revenue Funds Total	\$0	\$0	\$0	\$928,125	\$928,125	\$1,856,250	
Item Total	\$0	\$0	\$0	\$1,237,500	\$1,237,500	\$2,475,000	

FTE Reductions (From FY 2012 and FY 2013 Base Request)

5 Hiring and Faculty Mix

Category: Programs - Service Reductions (Other)

Item Comment: Defer hiring and 50/50 mix of full-time and part-time faculty. Continue to move to a 50/50 full-time to part-time faculty ratio. Reorganize, right size and defer hiring. Expected to negatively impact service levels to our students and vendors, and potentially increase administrative processing time.

Strategy: 1-1-1 Academic Education
