#### ADMINISTRATOR'S STATEMENT

82nd Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) DATE: **8/16/2010**TIME: **8:58:06PM**PAGE: **1** of

Agency code:

973

Agency name: Odessa College

#### **ADMINISTRATOR'S STATEMENT**

The Board of Trustees of the Odessa Junior College District is composed of nine members all of whom reside in Odessa and serve six year terms. The members of the board and their terms are as follows:

Richard Abalos, 2010-2016; Gary S. Johnson, 2008-2014; Ralph McCain 2006-2012; J. E. Pressly, 2008-2014; Tara Deaver, 2010-2016; Bruce Shearer, 2010-2016; Walter Smith, 2006-2012; David Turner, 2006-2012; and Ray Ann Zant, 2008-2014.

#### SIGINIFICANT CHANGES IN POLICY:

There are no significant changes in policy which impact this budget request.

#### SIGINIFICANT CHANGES IN PROVISION OF SERVICE:

Odessa College has seen record enrollment in each semester over the last two years. Odessa College is further challenged by the necessity of providing instruction to the largest service area in the state: a service that covers 33,000 square miles. The College has launched initiatives to deliver instruction to the dispersed population of the area by multiple means. Two extension centers are operated by the College while a growing number of classes are delivered via the internet and by live, interactive-video links. The systems employed to deliver classes are in constant need of maintenance, upgrade, and repair. In addition, the cost of much of the equipment is increasing rapidly.

#### SIGNIFICANT EXTERNALITITES:

The two centers operated by the College (Andrews and Pecos) provide much needed educational opportunities to their communities. Underscoring the need for these centers is a population that often lacks education, and as a result, is underemployed. The overriding consequence of this lack of education and adequate employment is a decline in personal income for major segments of the population of West Texas. Demands for scholarships and financial aid from the institution far exceed the availability of state and federal assistance with the result being a frustrating cycle of poverty for large numbers of area residents.

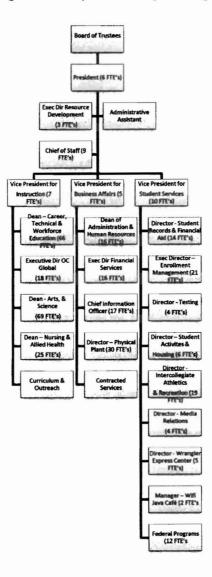

The presence of twenty-five percent of the proven continental reserves of oil and gas within the Permian Basin provides a unique setting for Odessa College. The strength of the local economy, much of which is propelled by dramatic growth in the oil and gas industry, has created an incredible demand for trained workers. Every segment of the business community is desperate for employees. High demand occupations have meant that most technical programs are operating at or beyond their capacity. However, the need for workers continues unabated. A recent study conducted by the Odessa Development Corporation implored Odessa College to examine limitations related to the programs preparing automotive technicians, diesel technicians, electricians, HVAC/refrigeration technicians, machinists, plumbers, truck drivers, and welders. The College has responded by adding faculty, soliciting financial subsidies from business and industry, and by authoring grants to expand capacities in various programs.

## PURPOSE FOR ANY NEW FUNDING REQUESTED:

Odessa College endorses the request for sufficient bas funding that was made on July 20, 2010 by the Texas Association of Community Colleges. Sufficient formula funding is needed for the unprecedented growth in student enrollment at community colleges over the past two years. This funding is mandatory if we are to meet the goals Closing the Gaps, provide an educated workforce, and serve as the most cost effective pipeline for many into our state universities.

#### STRATEGY DESCRIPTION AND JUSTIFICATION:

1. Provide Academic Instruction

In accordance with Texas Education Code 130.003 (e) and Senate Bill 397, 74th Legislative Session, Section 130.193, Odessa College offers academic instruction to its service area of Ector, Andrews, Brewster, Crane, Culberson, Gaines, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell, Upton, Ward, and Winkler counties. Due to the vast service area (approximately 33,000 square miles) and the uneven distribution of the population, a variety of instructional formats, technologies, and delivery methods are utilized including, but not limited to, the following:

- 1) Direct presentations of lecture and laboratory experiences by faculty at the main campus, the extension center in Andrews, the extension center in Pecos, and in high school throughout the service area during the day and evening hours.
- 2) Presentations by faculty through live, interactive-television systems based on the Odessa College campus and servicing students in Pecos, Kermit, and Wink.
- 3) Presentations by faculty through a live, interactive-television system based in the Region XVIII Service Center for high schools within the service area.
- 4) Presentations via the Internet serving students throughout the service area in a time flexible format.
- 5) Presentations via the Internet serving students throughout the state of Texas through a cooperative arrangement established by the Virtual College of Texas.
- 6) Presentations by faculty at work sites and employment locations throughout the service area.

# EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

As a state-assisted public community college charged with serving a vast area with educational services, numerous factors have impacts upon the institution strategies:

1) Aging physical plant, 2) Increasing deferred maintenance costs not eligible foe state support, 3) Limited taxing district for tax support, 4) Ad valorum tax rates for the last decade that have been at or near a voter established maximum, 5) Increasing costs for personnel benefits without adequate state funding, 6) Growing poverty in the area, 7) Limited ability to raise tuition and fees in light of the limited financial resources available to students, 8) Increasing costs of maintaining/upgrading technology for instructional delivery systems, 9) Increasing costs for the operation of extension centers.
