THE SOUTH TEXAS BORDER REGION:

Laredo continues to be one of the fastest growing cities in the State of Texas and in the nation. As a port city, Laredo ranks fourth in the nation and is the largest inland port. Laredo's growth is generated by international business, banking, and manufacturing which, when coupled with the demographic explosion, will have a major economic impact on this area.

Likewise, the University continues to grow rapidly. With an enrollment of 2,500 in fall 1995 and an enrollment of 5,179 in fall 2007, the University has experienced a 107% increase. The Texas Higher Education Coordinating Board's "Closing the Gaps" program will be accomplished at regional institutions such as Texas A&M International University; however, funding is critical. The University will continue efforts in "Closing the Gaps" in higher education if it is funded adequately, thus the need for Special Items, Exceptional Items and funding of the tuition revenue bond debt.

The area school districts continue to build several schools each year, and yet construction on new schools cannot keep pace with the student growth. Between 2004 and 2007, the Laredo school districts grew by 10%. This region has a very young population with approximately 26% of its population attending school in grades 12 and below.

WE REQUEST FUNDING FOR THE FOLLOWING PRIORITY NEEDS FOR ALL OF HIGHER EDUCATION:

Base Funding - Fund growth in all higher education formulas and using the Higher Education or another recognized cost index to fund the increased cost of doing business for our basic, on-going educational, general and student support operations. This includes providing increased base funding for our Texas A&M System Agencies' core operations.

Teaching Excellence - Using student evaluations, recognize and reward outstanding faculty through the chancellor's Teaching Excellence Awards initiative.

Facilities Renewal - Existing E&G and campus infrastructure have reached the point where the need to invest funds to renew these facilities is critical. This includes such projects as deferred maintenance, modernizing HVAC, plumbing, electrical and other systems, meeting current building, life safety and energy codes, and others.

Student Financial Aid - Provide increased funds for student financial aid to help make higher education more affordable for more Texas families; however, not at the expense of funding to the universities.

Incentive Funding - We support accountability and performance through incentive funding so long as our base funding needs are covered first.

Research - Increase research funding available to institutions by doubling the funds allocated through the Competitive Knowledge Fund and Research Development Fund.

Higher Education Group Health Insurance - Fund the increases in health care costs and enrollment (employee/retiree) growth.

WE REQUEST THE FOLLOWING ITEMS FOR TEXAS A&M INTERNATIONAL UNIVERSITY:

Base funding for the University consists of the formula funding and the \$15,626,600 in Institutional Enhancement funding. It is critical that this base funding continue to be provided to the University. Restoration of the ten percent reduction that is being required in the LAR instructions and debt service funding are essential to the basic operation and continuing development of this institution.

EXISTING SPECIAL ITEMS:

It is critical and essential that the University retain the funding for the existing special items which include \$15,626,600 for Institutional Enhancement, \$2,909,374 for the Ph.D. Program, \$539,424 for the Institute for International Trade, \$300,000 for the Small Business Development Center and \$2,000,000 for Faculty Enhancement.

EXCEPTIONAL ITEMS:

The University is requesting the following exceptional items to provide the resources necessary to continue developing and "Closing the Gaps."

Faculty Enhancement - \$2,800,000 per biennium - Will provide the resources necessary for developing this institution, located in an area of perceived unrest and danger, to recruit and retain faculty to meet the State's expectations for quality education.

Enrollment, Access and Retention Support - \$10,000,000 per biennium - Will assist the State in "Closing the Gaps" by enrolling a greater number of students who will graduate in four years; assist the University in enhancing the freshmen year experience; assist students with on-campus housing support since the data clearly demonstrates that students living on-campus are more successful with their studies; assist in better educating citizens who will contribute to, rather than merely consume, state resources.

Debt Service - \$ 7,759,426 per biennium - The objective of the debt service is to defray the cost of constructing an academic classroom building and a support services building and expanding the Killam Library.

TUITION REVENUE BOND AUTHORITY:

The Higher Education Coordinating Board model projects a space shortage of 75,000 square feet by 2010. We are therefore requesting the following TRB authority in the 81st Legislative Session:

Academic Classroom Building - \$32,500,000 - Will provide larger lecture halls that will support the needed space requirements to handle the rapid growth. The building will contain classrooms and offices for faculty members to allow for better student/faculty interaction. Currently, very few classrooms can accommodate more than 100 students.

Agency name: **Texas A&M International University**

Killam Library Expansion and Support Services Building - \$12,000,000 - The expansion will enclose a large open space in the library building and enclose 2 balconies so that they become part of the library. It will also create a single entrance and will provide critically needed space to support academic programs. In fall 1995, the University enrollment stood at 2,500 and reached 5,179 in fall 2007 - a 107% increase. The support services building will provide space for the administrative operations currently located within the library.

The current debt service requirement for FY 2010 is \$11,438,491 and for FY 2011 it is \$9,774,624 which does not include the tuition revenue bond requests for the new biennium.

RESTORATION OF GR 10% REDUCTION:

The 10% reduction for TAMIU amounts to \$2,130,658. A reduction of this magnitude would require the elimination of numerous faculty and staff positions which would eliminate academic program offerings. The University would be forced to restructure and downsize significantly, resulting in a substantial reduction in enrollment.

CRIMINAL BACKGROUND CHECKS:

The University is in the process of establishing a University rule which outlines the process for conducting criminal background checks on all personnel in accordance with Texas A&M University System regulations.

THE SOUTH TEXAS EDUCATIONAL HORIZON:

The lives of the citizens of Laredo and the region continue to be enhanced by the establishment of this University. The region's majority Hispanic population is taking advantage of the educational opportunities here to make better lives for themselves and their families. Reduction of the current funding and/or lack of funding for the new initiatives will hinder the University's higher education mission by slowing student growth thereby limiting the University's ability to meet the objectives of "Closing the Gaps."

AGENCY MISSION

Texas A&M International University (TAMIU), a Member of The Texas A&M University System, is committed to the preparation of students for leadership roles in their chosen profession and in an increasingly complex, culturally diverse state, national, and global society. TAMIU provides students with a learning environment anchored by the highest quality programs built on a solid academic foundation in the liberal arts and natural sciences. To fulfill its mission, the University offers baccalaureate and master's programs in the arts, humanities, business, education, physical, biological, and social sciences, and health professions, with authority for select doctoral programs. Programs focus on developing strong undergraduate and graduate offerings and a progressive agenda for global study and understanding across all disciplines. Through instruction, faculty and student research, and public service, TAMIU is a strategic point of delivery for well-defined programs and services that improve the quality of life for citizens of the border region, the State of Texas, and national and international communities.

STRATEGY DESCRIPTION AND JUSTIFICATION:

To collect and publish economic indicators for the Texas-Mexico border region. The Institute is part of the Graduate School of International Trade. The Institute for International Trade publishes the NAFTA Digest and the Journal of International Trade, and maintains a database of more than 50,000 articles dealing with NAFTA and border trade. This information is provided to business, government agencies, and other institutions. It supports the international mission of the university.

Implementation of NAFTA has created a new economic environment in the border region with new opportunities and risks. The Institute has become a major source of information on Western Hemisphere Trade issues, especially those relating to economic interaction between Texas and Mexico.

DESCRIPTION / JUSTIFICATION:

This support will improve coordination of student testing, provide extended and enhanced tutoring and supplemental instruction and provide Summer Bridge programs. It will provide a year experience. It will also enhance the enrollment, access and retention of students through increased academic counseling. It will enhance student's ability to remain on track and graduate thus saving State resources. The graduates will be better prepared to contribute to economic well-being of the State and will assist in defraying cost for testing for socio-economically disadvantaged students. This will allow the University to provide success opportunities as described in "Closing the Gap."

DESCRIPTION / JUSTIFICATION:

The objective of the debt service is to defray the cost of constructing an academic classroom building and expanding the Killam Library. The construction will:

- * Provide larger lecture halls that will provide the needed space to handle the rapid student growth. The building will also contain classrooms and offices for faculty members to allow for student/faculty interaction. Currently, the University cannot accommodate more than 100 students in a classroom.
- * Contain 70,000 gross square feet and approximately 45,000 square feet of net assignable space in the classroom building and 25,285 gross square feet and approximately 19,485 square feet of assignable space in the support services building. The Higher Education Coordinating Board model projects a space shortage of 75,000 square feet by 2010.
- * Expand the library by enclosing a large open space in the library building and two balconies so that they become part of the library. It will also capture the space currently occupied by receiving, purchasing and police departments within the library. This will provide the library with a single entrance and with critically needed space.

EXTERNAL/INTERNAL FACTORS:

Benefit to the State/Results:

These projects fit the statewide "Closing the Gaps" program by providing space for new students in both classrooms and support areas. The rapid growth of the University is meeting the accessibility to higher education for a rapidly growing number of Hispanics from the border region.

Legislative Interest:

The state leadership is interested in providing better education to the citizens of this region so that they too can become productive citizens who will contribute their talent and resources to the betterment of this state.

B. Assessment of Fiscal Year 2006 - 2007 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained or exceeded two of six for the applicable statewide HUB procurement goals in FY 2007.

Applicability:

Large construction projects are managed by the Facilities, Planning and Contruction Department of the Texas A&M University System.

Factors Affecting Attainment:

All procurement and services over \$ 2,000 are bid. HUBs are given an opportunity to participate in all bids regardless of the dollar amount. Bidder list is supplemented by additional HUB vendors over the State requirement. Agencies participation in System and Cooperative Purchasing Contracts have affected some attainments. Efforts continue to assist vendors in HUB certification.

"Good-Faith" Efforts:

- Provide sufficient time for preparation and submission of bids/proposals to better facilitate participation by HUBs.
- Prompt HUB soliciting on all dollar value purchases regardless of type of funds used.
- Actively participate in Economic Opportunity Forums, Systems, Statewide HUB meetings, and the South Texas Chapter of Texas University HUB Coordinator Alliance.
- Hold pre-bid conferences on specific projects to explain University's procedures and bid requirements to encourage subcontracting with HUBs.
- Prompt HUB awarness through training for University employees.
- Assist HUBs with specialized forums.
- Host and co-host vendor forums.
- Performance/Payment Bonds are discouraged unless there is a need or a statutory requirement.

The equipment and capital outlay purchases provided to the University police department are in line with local, state and national goals of providing a common approach to state and national response that will enable responders at all levels to work together more effectively to manage emergency incidents. TAMIU follows national guidelines and standards for command and management, preparedness, and communications in emergency situations. We strive to be prepared and train our personnel to prevent, protect, respond to, and recover from incidents of various types and complexities.

Office of Information Technology:

In an effort to provide a more secure and safe learning environment for students of the border region, we have invested in systems to notify our campus community. This notification system will alert users' cellular phones by SMS (simple messaging service) of natural disasters or terroristic threats. We are exploring other complimentary systems to use with this service to provide a more thorough disaster notification and preparedness strategy for our campus.

Explanation of Impact to Programs and Revenue Collections

1005 Institutional Enhancement

As a developing institution a 10% reduction of \$2,130,658 would be devastating for the University. Strategies for managing this reduction would include the elimination of 29 faculty positions or a combination of staff and faculty ; downsizing at a time of explosive growth; and it would require an increase from \$20 to \$25 of Board Authorized Tuition just to cover this reduction. The University considers Institutional Enhancement funds as part of base funding and would create a situation where growth would be reduced. Any reduction in funding will keep the University from meeting the "Closing the Gaps" goals.

Project Description

This 32,500,000 project will allow for larger lecture halls that will provide the needed space to handle the rapid growth. The building will also contain classrooms and offices for faculty members to allow for better student/faculty interaction. Currently, the University cannot accomodate more than 100 students in a classroom. The University has grown 107% since 1995. In 1995, students could choose from 22 majors as undergraduates and 19 as graduate students. Today, students can choose from 51 majors for undergraduates and 33 for graduate students. The classroom building has been incorporated in the University master plan and is included in the plan filed with the Texas Higher Education Coordinating Board. This project fits the statewide "Closing the Gaps" program because it will provide space for additional students.

Project Description

This \$12,000,000 project will expand the library by enclosing a large open space in the library building and enclosing two balconies so that they become part of the library. This will provide the library with a single entrance and with critically needed space.

It will also capture space currently occupied by the receiving, purchasing and police departments within the library allowing for an expansion to support the growth in academic programs. In 1995, students could choose from 22 majors as undergraduates and 19 as graduate students.

Today, students can choose from 51 majors for undergraduate and 33 for graduate students.

Finally, it will provide space for the many administrative functions now housed in the library such as receiving, purchasing and police. The intent of the master plan was to eventually move these operations to a separate location as the University grew and required additional library space.

Special Item: 1 **Institutional Enhancement**

(1) Year Special Item: 2000

(2) Mission of Special Item:

The University was converted from an upper-level institution in FY 1995. As part of the South Texas Border Initiative program development., the continuing support of newly established programs and hiring of faculty and staff to handle the rapid growth are all components of institutional enhancement for this institution; institutional funding is very much part of base funding.

(3) (a) Major Accomplishments to Date:

Funding 142 FTE faculty.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continued funding of faculty FTE associated with new and continuing academic programs.

(4) Funding Source Prior to Receiving Special Item Funding:

Other special items and Educational & General.

(5) Non-general Revenue Sources of Funding:

None.

(6) Consequences of Not Funding:

Reduction in numerous academic programs as well as faculty.

Special Item: 2 Ph.D. Program in Business

(1) Year Special Item: 1999

(2) Mission of Special Item:

The A.R. Sanchez, Jr School of Business and the Graduate School of International Trade are primary sources of information on border economic and business issues. The development of a Ph.D. in International Business provides personnel and students for business, governments and other institutions. The Ph.D. program supports the international mission of the University.

(3) (a) Major Accomplishments to Date:

The A.R. Sanchez, Jr. School of Business is accredited by AACSB. Ph.D. faculty are in place, research support enhanced, polices and procedures put into place. The program began in Fall 2004.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Hiring of additional faculty with necessary backgrounds and credentials for teaching in a Ph.D. program, completion of curriculum design and implementation for the Ph.D. program and revision of other degree programs to support doctoral studies.

(4) Funding Source Prior to Receiving Special Item Funding:

Special Item did not exist prior to funding.

(5) Non-general Revenue Sources of Funding:

None.

(6) Consequences of Not Funding:

Sufficient alternative forms of funding are not available to continue offering a doctoral program in International Business. The program could not be continued without this funding.

(1) Year Special Item: 2008

(2) Mission of Special Item:

Provide resources to recruit and retain faculty adequate to the state's expectations for quality education.

(3) (a) Major Accomplishments to Date:

13 faculty positions funded as well as Operation & Maintenance.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The same number positions will be funded.

(4) Funding Source Prior to Receiving Special Item Funding:

Did not have sufficient GR and GR-Dedicated to fund positions.

(5) Non-general Revenue Sources of Funding:

None.

(6) Consequences of Not Funding:

If will be difficult to recruit and retain faculty.

Special Item: 4 **Institute for International Trade**

(1) Year Special Item: 1979

(2) Mission of Special Item:

To collect and publish economic indicators for the Texas-Mexico border region. The Institute is part of the Graduate of International Trade. The Institute for International Trade publishes both the NAFTA Digest and the Journal of International Trade, and maintains a database of more than 50,000 articles dealing with NAFTA and border trade. This information is provided to business, government agencies, and other institutions. It supports the international mission of the university.

(3) (a) Major Accomplishments to Date:

Implementation of NAFTA has created a new economic environment in the border region with new opportunities and risks. The Institute has become a major source of information of Western Hemispheric Trade issues especially those relating to economic interaction between Texas and Mexico.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continuing collection, analysis, and dissemination of data and information of NAFTA and border trade issues.

(4) Funding Source Prior to Receiving Special Item Funding:

Special Item did not exist prior to funding.

(5) Non-general Revenue Sources of Funding:

None.

(6) Consequences of Not Funding:

The Institute funding is needed to study this new environment and help regional business become aware of both new opportunities and new risks. Failure to fund the Institute will eliminate this function and could seriously jeopardize the survival of many businesses in the Texas-Mexico border region.

Special Item: 5 **Small Business Development Center (SBDC)**

(1) Year Special Item: 2008

(2) Mission of Special Item:

Small business and community economic development through extension services covering the TAMIU-SBDC three-county service area, as a member institution of the South-West Texas Border SBDC Region administered by UTSA in cooperation with U.S. Small Business Administration. To promote the growth, expansion, innovation, increased productivity, and improved management for small business, through activities of individual business counseling and technical assistance, group training seminars and workshops, advocacy, and research information. The mission also involves students and faculty through structured service-learning and applied research activities to leverage academic learning and discovery with our public service mission.

(3) (a) Major Accomplishments to Date:

The SBDC is a member of the South-West Texas Border SBDC Region, and we collectively serve over 25,500 small business clients annually through a network of 10 SBDC field centers established at UTSA, Sul Ross State University (Alpine), SRSU Rio Grande (Eagle Pass), Texas A&M International University (Laredo), UT-Pam American, Del Mar College (Corpus Christi), UH-Victoria, Texas State University (Austin), Angelo State University (San Angelo) and El Paso Community College. Specialty SBDCs promote international trade, colonia development, defense transition, human capital, corporate and public contract bid matching, and technology commercialization.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continued economic growth and diversification in the South-West Texas Border Communities. Expect high demand for rural small business expansion and identifying new markets, product diversification, energy conservation, green construction, alternative fuels: likely remediation to displace/shrinking markets and job loss in rural communities; also greater export activity with Mexico and other global markets.

(4) Funding Source Prior to Receiving Special Item Funding:

None.

(5) Non-general Revenue Sources of Funding:

Primarily federal grants (U.S. Small Business Administration) and some user fees for training activities.

(6) Consequences of Not Funding:

There would be a loss of federal funds available to support business development extension services in the 79 - county South-West Texas Border Region. Reduced client services, staff position terminations and student learning activities would be affected commensurately with funding reductions of loss. This would affect all partner-institutions of the Regional SBDC network.
