

Legislative Appropriations Request for Fiscal Years 2016 and 2017

Submitted to the Governor's Office of Budget, Planning and Policy and the Legislative Budget Board

by Texas State Technical College Harlingen Submitted August 04, 2014

Administrator's Statement

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

71B Texas State Technical College - Harlingen

LEGISLATIVE APPROPRIATION REQUEST FOR FY 2016-2017

Administrator's Statement: Texas State Technical College Harlingen

OVERVIEW OF TSTC HARLINGEN

Texas State Technical College (TSTC) Harlingen is one of four colleges of the TSTC System charged by the State Legislature to provide technical-vocational education for which there is a demand within the State of Texas. TSTC Harlingen is located in the Rio Grande Valley, an area that is economically and educationally challenged, where approximately 80% of the population is Hispanic, 31% of the population is living below poverty level and over 30% of the population is under the age of 18. In addition, population and job growth is predicted to increase up to 2% annually through 2020 for the region. These factors give TSTC Harlingen the potential of providing a large workforce pool for the State and nation's economic growth and make Harlingen a prime location for new technology-related industries. TSTC Harlingen's enrollment increases are consistent with the population growth trends and the fall 2014 enrollment forecast is expected to increase by 3% from the prior fall semester enrollment figure.

TSTC Harlingen provides opportunities for both immediate employment and seamless transfer of credits to other colleges and universities. Awards include Associate of Science (AS) degrees, Associate of Applied Science (AAS) degrees, technical Certificates of Completion, as well as institutional recognition for completion of the General Education Core and workforce certificates.

TSTC Harlingen is committed to preparing students for the 21st century by providing holistic personal and professional development through a combination of technical and academic delivery, relevant student services, talent development organizations, and other career building activities. TSTC Harlingen uses institution-wide coordinated planning to assure program vitality for today's industrial and academic demands and tomorrow's challenges.

SIGNIFICANT CHANGES, CHALLENGES AND OPPORTUNITIES

TSTC Harlingen is navigating the changes related to TSTC's new funding formula, where funding is earned through the fulfillment of its core mission to provide students educational opportunities leading to employment in high demand technical occupations and adding value to the State of Texas. The four TSTC colleges are also in process of implementing a single accreditation to become "One College" to provide its stakeholders increased efficiencies of all resources.

TSTC Harlingen moves forward to fulfill its mission with new goals to prioritize the allocation and stewardship of resources by:

- Embracing the new funding formula, which rewards the college for adding value to its students and economic growth to the State of Texas;
- Implementing additional competency-based programs, which give opportunities for a faster track to the skilled worker that wants to complete a higher education degree;
- Responding to skilled workforce needs of the State of Texas by providing services in communities with specific training needs for meeting the growing unmet need for skilled workers; and
- Meeting increased demand for dual enrollment technical education with new initiatives with our ISD partners in the Rio Grande Valley, such as CTE Pathways.

Administrator's Statement

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

71B Texas State Technical College - Harlingen

TSTC Harlingen supports the economic development of the State of Texas by enabling our students to reach their educational goals while fulfilling their college experience. TSTC Harlingen focuses on a concentrated emphasis that will help each student gain valuable skills and knowledge that will lead them to meaningful employment and succeed in their study discipline. This focus has been used to direct the allocation and stewardship of resources to develop the following strategies:

- Provide technical job-ready graduates that can meet the demands of the industry;
- Provide students with the degrees and education necessary to increase their employment opportunities and/or career advancement which supports TSTC's new funding formula;
- Provide additional Competency-Based Learning (CBL) Certificate Programs aligned with the Governor's Skilled Workforce Initiative;
- Maintain close relationships with industry to implement current business practices in the design and delivery of technical training programs, set new standards in the achievement of technical skills, and develop/redesign new technical programs to meet industry needs;
- Address regional Allied Health needs by renovating existing facilities to provide innovative healthrelated laboratory experiences;
- Continue to partner with Harlingen CISD with the Early College High School located on the campus of TSTC Harlingen, as well as other dual enrollment opportunities for the Rio Grande Valley;
- Develop the second phase of the renovation of the Engineering Center to relocate the remaining
 Engineering programs, Chemical/Environmental Technology and Architectural Design and Engineering
 Graphics, under one roof, providing state-of-the-art science and technology equipment and labs to support
 existing Engineering and Engineering-related programs;
- Increase college preparation opportunities for potential students via adult basic education, GED and other pre-college programs;
- Continue to partner with local industries to fulfill non-credit workforce training needs;
- Continue to partner with universities to provide our students with seamless transfer opportunities to continue their higher education goals;
- Maximize college resources by continually looking for ways to increase efficiency in all areas; and
- Continue emphasis on instructional programs by "right sizing" our programs to meet the skills and demand of Texas employers.

Administrator's Statement

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

71B Texas State Technical College - Harlingen

EXCEPTIONAL FUNDING REQUESTS

Tuition Revenue Bond Payment for the TSTC Engineering Center Expansion

TSTC Harlingen requests Tuition Revenue Bond Issuance Authority in the amount of \$3,750,000 is requested by TSTC Harlingen to fund the second phase of the renovation of the Engineering Center so that all engineering programs are located under one roof. This project will further expand the engineering program offerings to meet the demands of the oil and gas industry in the State of Texas. The consolidation of engineering programs in one building is an effort to maximize resources (classroom and labs), and improve operational efficiencies, while expanding course offerings in engineering-related fields to benefit the students' learning. State funding is requested for projected debt service payments of \$601,820 for the biennium.

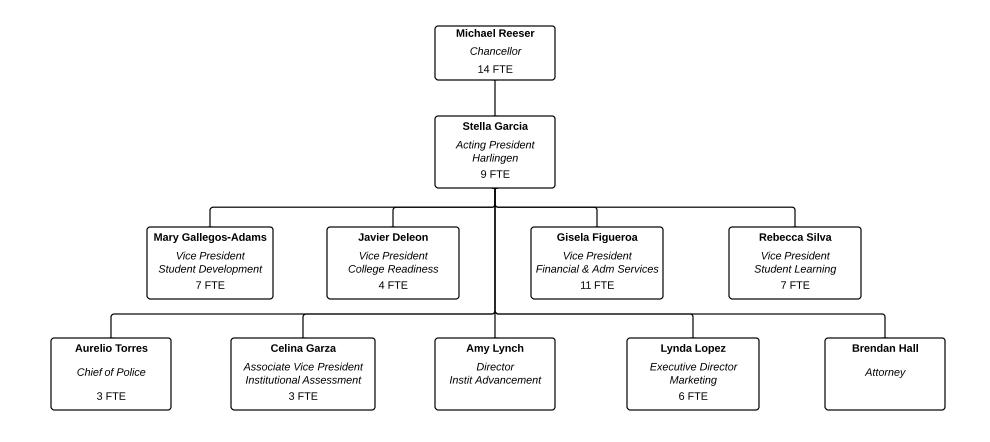

REDUCTION STRATEGIES

TSTC Harlingen has adopted a variety of measures to reduce cost to effectively operate due to the decrease in funding from various sources. Reduction measures include reorganizing, evaluating open positions before hiring new personnel, shifting expenses to other funding sources and analyzing facility improvements and renovations. Consistent with the reduction measures, TSTC Harlingen will continue to maintain operations but may be hindered in growth with flat or reduced GR funding. The following methods will continue to be employed to identify areas for reductions as needed:

- Flexible hiring freeze the college continues to hire new and replacement personnel in the event that the position is critical to the operations of the college. Although reduced funding can be mitigated with this flexible hiring freeze, the impact of flexible hiring freeze can hinder services and/or the potential to respond to the industry needs to reduce the skills gap.
- Shift of expenses to other funding sources the college will continue its practice of shifting core operating expenses to other funding sources. This reduction strategy can hinder other services or programs that are fully funded by other revenue sources.
- Facility improvement and renovations TSTC Harlingen campus has some buildings that are showing their age. Vital programs will suffer from delaying technology and facilities upgrades within their discipline.

BACKGROUND CHECKS

Criminal history record information is checked for employment applicants under final consideration, following normal screening and selection processes, for security sensitive positions. Security sensitive positions are restricted to those positions described in Texas Education Code § 51.215(c) and Texas Government Code § 411.094(a)(2). Security sensitive positions include those in which employees handle currency, have access to financial records, legal records, medical records, personnel records and student academic records, have access to a master key, or work in an area of the College which has been designated as a security sensitive area. All advertisements and notices released for security sensitive positions include the statement: "Security Sensitive Position." Upon selection of the best-qualified candidate for the position, the candidate may be offered continued employment by the College contingent upon the evaluation of the criminal history record check. If the check produces a criminal record on the candidate, the Human and Organization Development Executive or his/her designee evaluate the record and work with the department head to determine if the employee should be recommended or not recommended for employment. All criminal history information on applicants is privileged and confidential and is not released or otherwise disclosed to any person or agency other than those persons involved in the hiring process with a legitimate need to know this information, except on court order.

FULL TIME EQUIVALENT POSITIONS:	368.0	363.3	399.0	399.0	399.0

STRATEGY DESCRIPTION AND JUSTIFICATION:

Provide students the necessary Vocational-Technical and Academic courses leading toward Certificates of Completion, Associate of Applied Science Degrees, Associate of Science degrees, Adult Education programs, apprenticeship training, and cooperative work experience needed to develop the cognitive competencies and knowledge to succeed in their chosen career field, establish a foundation of knowledge for life-long learning, and facilitate the transferability of credit to provide students the opportunity to pursue a four-year degree. This strategy supports the legislated mission statement of TSTC.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

A strong emphasis on retention and remediation is essential for successful implementation of this strategy. Availability of University Center Multi-institutional Teaching Center, articulation agreements, new competency based programs, and raising petro-chemical industry are expected to increase demand Associate of Applied Science Degrees and Associate of Science degrees.

STRATEGY: 3 Staff Group Insurance Premiums Service: 06 Income: A.2 Age: B.3

CODE DESCRIPTION Exp 2013 Est 2014 Bud 2015 BL 2016 BL 2017

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy is to provide proportional share of staff group insurance premiums paid from Other E&G funds.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Influencing factors include the number of personnel working 30 hours or more and the change in premium rates.

Strategy based upon percentage of estimated other E&G income to total appropriation. There is a general revenue shortfall for group insurance; therefore, other strategies must supplement group insurance expenditures.

To provide additional operation, maintenance, and support for E&G facilities and grounds, which are essential to TSTC Harlingen. Budget reductions and the expanding need for technical education throughout Texas make it more critical than ever for TSTC to receive a Small Institution Supplement. This strategy is now funded under strategy 2.1.1.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Cost of goods, service and utilities. Addition of new buildings.

(1) - Formula funded strategies are not requested in 2016-17 because amounts are not determined by institutions.

Tuition Revenue Bond Issuance Authority in the amount of \$3.75 million is being requested by TSTC Harlingen to fund the second phase of a renovation to house engineering programs to meet the demand of the oil and gas industry. The renovation will allow TSTC Harlingen to continue and expand an ongoing project to consolidate the engineering programs under one roof. This consolidation of engineering programs in one building is in an effort to maximize resources (classroom and labs) and expand course offerings in engineering related fields to benefit the students' learning. The debt service payments are based upon 5% interest for a period of 20 years. This funding would continue and expand operations at TSTC Harlingen. The exceptional item funding request is not associated with any specific contracts with an outside entity. The consequence of not funding this request will be a missed opportunity to address the shortage of training for high demand programs in key industries, leaving many Texas employers unable to grow and innovate, restricting their ability to compete in the current economy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

TSTC Harlingen currently does not have funds to renovate the 1970's facilities for one of the engineering programs and expand to meet the demand of programs in oil and gas industry. This funding will allow the for the expansion of the engineering center, which currently houses four engineering and renewable energy programs under one roof utilizing multifunction labs and classrooms. This expansion of related engineering programs will continue the effort to maximize resources (classroom and labs) and expand course offering in engineering related fields to benefit the student's learning and industry's needs.

B. Assessment of Fiscal Year 2012 - 2013 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained one of six, or 17%, of the applicable statewide HUB procurement goals in FY 2012. The agency attained zero of six, or 0%, of the applicable statewide HUB procurement goals in FY 2013.

Applicability:

The agency had expenditures in all of the six HUB categories for both FY 2012 and FY 2013.

Factors Affecting Attainment:

- A portion of the goals showed a positive trend over the respective prior year in percent of total dollars spent on HUB contracts (2 of 6 in comparing FY 2012 to FY 2010, and 3 of 6 in comparing FY 2013 to FY2011).
- The percent of HUB bids/proposals received in FY 2012 as compared to FY 2010 declined.
- The college routinely utilizes vendors that could qualify for HUB certification, but they have no direct
 incentive to complete the HUB certification steps. This creates a limited supply of "HUB certified"
 vendors.

"Good-Faith" Efforts:

The agency made the following good faith efforts to comply with statewide HUB procurement goals per 34 TAC Section 20.13(c):

- •Provided HUBs access to procurement policies and procedures;
- •Met with potential HUB vendors, assisted in certifying them and encouraged them to participate in the

bidding process;

- •Developed and participated in educational outreach activities, including:
- o Staged periodic trade fairs to HUBs to demonstrate their products and services to potential buyers
- o Participated in programs that consolidated information about upcoming contract opportunities and allowed potential bidders to discover upcoming opportunities
- •Trained internal departments concerning the HUB requirements, goals, procurement policies and procedures;
- •Attended HUB forums within respective regions, also presented annually at the "Meet the Buyer" expo in the Brownsville/McAllen area;
- Advertised major construction projects widely;
- •Utilized the Mentor-Protégé programs with vendors such as WW Grainger Inc./Burgoon Company and Office Depot/P.D. Morrison;
- •Maintained membership with HUB Alliance groups and attended quarterly meetings.

1 Assessment Advisors

Category: Programs - Service Reductions (FTEs-Layoffs)

Item Comment: Reduction of Institutional Enhancement strategy will reduce the ability to serve students at the planned capacity in one important area, the assessment and advising center. The assessment center is designed to help guide students in the career that matches their skills. The reduction will constitute decreasing the number of advisors from 8 to 5 for a student population of over 6,000 students.

Strategy: 3-4-1 Institutional Enhancement

Schedule 9: Special Item Information

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

71B Texas State Technical College - Harlingen

Special Item: 1 Institutional Enhancement

(1) Year Special Item: 2000 Original Appropriations: \$1,469,394

(2) Mission of Special Item:

The funding has provided support services that facilitated the creation of the assessment and advising center where students can be guided to make educational decisions knowing their alternatives and new programs of study in the health and engineering fields.

(3) (a) Major Accomplishments to Date:

This funding has provided support services for E&G operations to facilitate instructional support services, with a department that is dedicated to match the students' desires and abilities where the advisement impacts the retention and completion of degrees. This funding has also being part of the increased in high demand programs in the health industry.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

During the next two years, this item will fund the expansion and operation of two very important student services units, Enrollment Management and Assessment and Advising which have a direct relation on student success on the technical and academic programs. It will also fund the Veterans Center, an office where our Veteran Students receive services and support to their educational needs and a space to collaborate with other Veterans students. Finally, this funding will fund programs in the health industry, LVN, RN and competency-based CNA program.

(4) Funding Source Prior to Receiving Special Item Funding:

Prior to 2000, appropriations were separate line item appropriations.

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

NA

(7) Consequences of Not Funding:

Services will be severely curtailed. New program development and student services to new incoming students and veteran students would be impaired.
