84th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

784 University of Houston - Downtown

Overview

Established by the legislature in 1974, this year UHD celebrates its 40th anniversary. The University has come a long way over these four decades. In its first year of existence UHD enrolled 2,397 students. A year later UHD awarded its first degrees – to 45 students, all of whom had earned a BS in Criminal Justice. Today UHD enrolls over 14,000 students, and over this coming year more than 2,400 students will be awarded degrees from a range of undergraduate and graduate fields of study. Through flexible scheduling of courses, innovative use of technology and distance learning opportunities, the University provides educational opportunities for many who might not otherwise be able to pursue a college degree.

UHD's steady growth is evidence of both its success in expanding access and offering quality programs. UHD's Fall 2014 enrollment of 14,438 (uncertified) was the highest in school history. The 2,396 degrees awarded by UHD in FY2013 was nearly double the 1,444 awarded ten years earlier. During that time, underrepresented minority graduates have increased by 200 percent. UHD continues to be among the national leaders in baccalaureate degrees awarded to minority students, ranking 43rd for Hispanic graduates and 49th for African-American graduates. In the rapidly growing field of Accounting, UHD ranked 5th nationally for Hispanic graduates and 11th for African-American graduates.

As the University prepares for a new biennium, its highest priority will continue to be student success. Many of the students served by UHD come from groups historically underrepresented in higher education. At present, the UHD student body is 42% Hispanic, 26% African-American, 18% Anglo, and 10% Asian. Over 50 percent of UHD students are the first in their families to attend college. The majority work while attending school, and over half attend the University on a part-time basis. These students require specific types of support in order to maximize the probability that they will succeed academically and ultimately earn a degree. They must be well advised, monitored through the early weeks of a new class, assisted as needed via faculty and/or peer tutoring, and mentored throughout their college careers. Many of these students may also need a strategic infusion of institutional scholarship funds to keep them on track. UHD is committed to providing all of this needed support.

A hallmark of UHD always has been its commitment to civic engagement. UHD was included in the original group of institutions that received the Carnegie Foundation's community engagement classification in 2008, an honor which has been maintained to the present. UHD also appears on President Obama's Higher Education Community Service Honor Roll. UHD's Center for Public Service and Family Strengths works with faculty, staff, and students to integrate community engagement and service learning activities throughout the curriculum. In FY2014 UHD was proud to once again play a central leadership role, along with the City of Houston, in the city's annual celebration of Citizenship Month. This volunteer-driven initiative celebrates Houston's civic engagement and broad diversity through events held across the city.

UHD is committed to the idea that a college education should be financially attainable for the average citizen. Whether arriving as a first-time-in-college (FTIC) student or transferring in from another institution, every enrolled student benefits from UHD's commitment to keep higher education within financial reach. UHD prides itself on being among the best values in Texas public higher education. For FY2015 a student enrolling in 30 undergraduate hours at UHD will pay \$6,614, which is 17% below the current statewide average of \$7,986. Further, in Fall 2014 UHD will begin offering its students a fixed tuition option, wherein students meeting certain requirements will be able to lock in tuition/fee rates for 12 consecutive semesters.

Significant Changes in Policy

UHD's most significant policy change over these past two years – and in many years – was the adoption of automatic admission standards for incoming freshman, which went into effect for Fall 2013. The legislature had been sending strong signals in recent years indicating a lack of enthusiasm for the 'open admissions' model at

Administrator's Statement

10/16/2014 5:25:39PM

Automated Budget and Evaluation System of Texas (ABEST)

784 University of Houston - Downtown

four-year institutions. Formula funding was scaled back or eliminated for developmental coursework, repeated courses, and for hours in excess of an established cap. Changes were proposed to make the Texas Grant program more merit-based and less need-based, and bills were introduced that would change the I&O formula to where only 'completed' courses would be funded rather than 'attempted' courses, as is now the practice. As we enter this 84th legislative session there remains some support to at least partially fund higher education institutions on a performance basis, with future funding tied to measures like the 6-year graduation rate. The time was right to make this change.

It should be noted that although UHD has begun denying admission to applicants who would previously have been admitted, it is not abandoning these students. Building on its already strong partnerships with area community colleges, UHD is jointly admitting these students so that at a later date they will be able to seamlessly enroll and pursue baccalaureate degrees. Adopting this approach with underprepared students is in the best interests of the University, the state of Texas and, most importantly, the students. In making this change UHD remains steadfastly committed to being a highly accessible institution with a student body that reflects the diversity of the city/region in all ways.

Not unexpectedly, the adoption of admission standards for FTIC students had an impact on FY2014 enrollments. In the end, Fall 2013 enrollment (13,757) declined slightly from the record enrollment experienced in Fall 2012 (13,916). However, as the Fall 2013 FTIC cohort completed its first year it was evident that the desired pay-off of improved performance metrics had come to pass. The percentage of freshmen who re-enrolled for their second semester was a UHD record 91 percent, up from 86 percent the previous year. The performance of the Fall 2013 freshman cohort compared to previous cohorts has also shown improvement in terms of GPA, number of hours earned, and success in key gateway courses.

The changes being made at UHD to improve academic support services for incoming freshman are also having a positive impact on transfer students, who represent 70 percent of the new students coming to UHD each year. Fall 2013 figures show that the one-year retention rate for transfers (74 percent) has increased from the previous year. This past spring the UH System Board of Regents approved admission standards for students transferring to UHD, which will go into effect for Fall 2015. It is anticipated that these new standards will improve the success rate for this group just as they have for FTICs.

While admission standards will contribute to greater retention rates, equally important is the work being done to improve advising, mentoring, and tutoring, and to infuse high-impact practices into the curriculum. These efforts will benefit all students, not just the newly admitted, and UHD is beginning to see that already. The FY2013 six-year graduation rate for full-time FTICs has increased to 14.1 percent compared to the previous year's 11.8 percent. For the cohort that will complete their sixth year in August 2014, 19 percent had already graduated by summer 2014. These rates remain low, but this steady improvement can be viewed as evidence that UHD's strategies are sound and that the University is now on track to achieve its six-year graduation rate goal of 28 percent by 2020.

Having the adequate infrastructure in place – facilities, technology, staffing – is essential to the success of these new efforts/initiatives. In the spring of 2014 UHD finished construction on a new, state-of-the-art Advising Center. The new center accommodates 20 academic advisors and support staff in an environment that is open, welcoming, and technology-enabled. In addition to significantly improved face-to-face advising support, UHD students are now able to conduct self-service degree audits using the recently implemented CAPP (Curriculum, Advising, and Program Planning) software.

For spring of 2015 UHD will finish construction on the new home for its Center for Teaching and Learning Excellence. The Center supports faculty as they examine best practices in areas such as high-impact education, on-line delivery and course redesign. UHD is already making great strides in course redesign but until now has lacked the support infrastructure to scale up what has been found to work well.

784 University of Houston - Downtown

Significant Changes in Provision of Service

A number of actions have been taken over the past two years to expand and improve the services provided by UHD, including the introduction of several new degree programs. Initial enrollments in UHD's recently introduced Masters in Non-Profit Management have exceeded projections. UHD has also received good response to its new BS in Geosciences, and interest is building for the Masters in Rhetoric and Composition, which will begin accepting students in Fall 2014.

UHD has several new degree programs in the pipeline, including a BS in Behavioral Health Sciences and Master's degrees in the fields of Statistics, Mathematics, and Computer Science. The University is also working with the Houston Independent School District (HISD) to develop an 18-hour certificate program to strengthen the skills of HISD Math faculty who will be teaching dual credit Math courses.

The expansion of its graduate degree offerings is an indicator that UHD is maturing as an institution, and leading the way in graduate enrollment growth is UHD's young MBA program. The program grew from 32 students in Spring 2012 to 93 students in Spring 2014, with that growth driven in part by an innovative program that enables post-baccalaureate students to earn respected certifications by taking courses in areas of business specialization that will also count towards the MBA, should the student later choose to go that route. This model, which is ideal for the working adult student, is generating such interest for the College of Business that efforts are underway to develop similar programs in other disciplines. While the University will continue to be a predominantly undergraduate-serving institution, the goal remains to have five percent of its total enrollments be at the graduate level by 2020.

The University continues to expand its partnerships with local community colleges, which have become even more important with UHD's adoption of admission standards. UHD operates one large off-campus site at Lone Star College (LSC) - University Park and at several smaller LSC centers, where students complete degrees in a number of baccalaureate programs. The 2+2 model that so many students now choose, with community colleges partnering with area universities to provide a high-quality, affordable four-year experience is a model that should be celebrated and strengthened. UHD is currently working with both LSC and Houston Community College (HCC) to establish a joint RN-to-BSN Nursing degree. Another area of collaboration with local community colleges is the Bachelors of Applied Sciences (BAS) degree in Engineering Technology. The University has numerous agreements in place with area community college systems, including joint admissions and reverse-transfer agreements.

The greatest change in the area of 'provision of service' has been the ongoing, unabated growth in the number of both fully on-line and 'hybrid' courses. UHD now offers 15 undergraduate degree completion opportunities for students wherein they can complete all of their upper-level coursework on-line. In addition, UHD offers three Masters-level programs that are fully on-line. In the fall of 2009 on-line SCHs accounted for 8.2 percent of all UHD hours, and on-line/hybrid combined was 11.6 percent. Four years later, in fall of 2013, on-line accounted for 20.6 percent of all hours and on-line/hybrid combined was 29.9 percent. During this period UHD's overall SCH growth was 9.4 percent. The University continues to work with its faculty to ensure that they have access to the training necessary to ensure efficacy in the area of on-line instruction. The aforementioned Center for Teaching and Learning Excellence was established in large part to ensure that UHD is delivering quality on-line instruction.

The expansion over the past five years of both on-line and hybrid instruction has significant implications for class scheduling and facilities usage/planning. Future facility needs will be targeted to support programs and disciplines that work best in a face-to-face environment. Lab-intensive programs are an example, which is why UHD is requesting capital construction funding for a new Sciences and Technology Building.

The University is expanding its efforts to provide continuing education opportunities for professionals and members of the Houston community. There are now four major continuing education units at UHD, the English Language Institute, the Criminal Justice Training Division, the Applied Business and Technology Center, and the

Automated Budget and Evaluation System of Texas (ABEST)

784 University of Houston - Downtown

College of Business (COB) CE unit. Each of these is performing well, with the greatest growth coming in the COB CE unit as it offers certificates in fields related to the management of oil and gas properties. Collectively these units meet important regional workforce needs, while raising the profile of UHD.

Significant Externalities

The contribution that the University is able to make to the state's priority educational goals in the years ahead will be affected by a number of external factors. Included would be population growth in the region, the condition of the state and national economies, the increased competition from colleges and universities outside the region and from the for-profit higher education sector, the opportunities and challenges relating to on-line and distance education, and the growing need for colleges and universities to address the affordability issue.

The demand for higher education in UHD's service area will increase as the population grows. According to a study completed by the Greater Houston Partnership in January 2014, even under its 'moderate growth scenario' the Houston metro area will add over 1 million residents by 2025. The ethnic composition of these new residents will continue to be increasingly Hispanic, with this segment of the population becoming the region's 'majority minority' sometime before 2020. During this same period the region will add 440,000 new jobs, many of which will be for professional and knowledge-based occupations. Many of these jobs will be filled by adults who will have re-tooled for their new career through their local community college and/or university. Given these developments, it is expected that the number of minority students and older returning students will be increasing. UHD anticipates continued enrollment growth, as those fast growing segments of the college-going population are groups that the university has served effectively in the past.

Much has been written, and rightly so, about the 'disruptive innovation' that is reshaping the higher education landscape. Any institution holding to the belief that it can continue with 'business as usual' does so at its own peril. Today's students expect to have options and they value convenience, and the classroom is often their laptop computer. While some students will prefer to take courses in a face-to-face format, all now expect those courses to also be available at satellite locations close to home or on-line, or both. Today's students increasingly receive their instruction through a mix of delivery modes. UHD has met this demand by expanding its on-line offerings and by delivering courses/degrees at multiple remote sites.

Students want to be assured that the time and money they invest in earning a degree will put them on the path to a better life, and if they do not feel that an institution can deliver in that regard then they will look elsewhere. UHD's mission statement embraces 'career preparation', and the University is using college-based advisory councils and old fashioned one-on-one outreach to strengthen relationships with area employers. New degrees are linked to projected regional workforce needs, and the University is currently in the process of transitioning from a single generic career placement center to specialized career centers in each of the colleges.

The increased competition for students also drives universities to become more engaged in the community. Engagement translates into relevance, and if it is to continue to grow and prosper UHD must engage in ways that underscore the vital role it plays in maintaining the economic and cultural health of the community. Engagement with the community is an important element of building brand awareness. The University has taken its UHD - Major Opportunities! campaign to the community by serving as a sponsor for popular events like the City of Houston's Discovery Green Concert Series.

Price has become an area of intense focus for higher education, and UHD is proud to stand out as a beacon of affordability in a sea of high cost. Even as it copes with very low per-FTE state funding UHD manages to maintain a tuition and fee structure that is likewise among the lowest in the state. As mentioned in the introduction, UHD undergraduates pay 17 percent below the statewide average in tuition and fees, with students now able to lock in that low cost structure through a fixed tuition plan.

Administrator's Statement

10/16/2014 5:25:39PM

84th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

784 University of Houston - Downtown

Approach Taken in Preparing for a 10 percent GR-related Base Reduction

If its GR-related base budget were reduced by 10 percent for FY2016/17, UHD would lose \$567,392 over the biennium. While UHD's state funding support did increase for FY2014/15 over what had been provided for FY2012/13, the cuts sustained in that earlier biennium were not fully restored in the biennium that followed. This can be seen in the base rate per weighted credit hour, which is the foundation for the Instruction & Operations (I&O) formula. For the FY2010/11 biennium this rate was \$62.19. It was reduced to \$53.71 for the FY2012/13 biennium before being brought to an average of \$56.35 for the current biennium. This FY2014/15 rate is still 9 percent below the rate of four years ago.

The proposed 10 percent reduction applies primarily to funding received for non-formula special items. The majority of UHD's non-formula special item funding comes through the Institutional Enhancement item, an item that all institutions receive and money that is universally treated as general use operating dollars, not unlike I&O formula dollars.

If this 10 percent GR-related base budget reduction were enacted the result would simply be that UHD would have \$567,392 less in the upcoming biennium to meet basic operating needs. Needed new faculty lines could not be added, the hiring of critical student support staff positions would have to be put off, class sizes could increase and fewer courses would be put on the schedule. The overall effect would be to diminish the university experience for UHD students in ways that would reduce their likelihood of earning a degree, or earning a degree in a timely manner.

Costs and/or Savings from Federal Healthcare Reform Legislation

Texas state agencies have always provided quality health care coverage for their full-time employees, so the impact of the Affordable Care Act (ACA) on UHD employees has been limited. Because many of the most popular features of the ACA were front-loaded, University employees have benefitted from the law. An example would be the ability to keep adult children on their plans through the age of 26.

Along with other universities, UHD is following closely as rulings are made on the impact of the ACA on part-time faculty. One interpretation is that a part-time faculty teaching two courses in a semester should be viewed as working 30 hours per week, which would mandate the employer to provide coverage or pay a fine. If it is determined that part-time faculty with a workload of two or more courses must be provided health coverage then this would be a significant cost to the University, one way or the other.

Purpose of Any New Funding Being Requested

The foundation of state support for higher education is and must remain the formula funding system. While imperfect, the formula system provides state universities with the resource stability and predictability required for effective planning. Increased funding received through the formulas will be used to meet the basic operating needs of the university. With it UHD will hire needed new faculty and staff and provide for other non-salary operating needs. Additional formula funding support will also reduce the need to generate new revenue through increases in tuition and fee rates.

Of particular importance this legislative session will be the decisions made relative to the state's Higher Education Assistance Funds (HEAF). HEAF provides crucial funding to support capital needs, including land acquisition, new construction, major renovation, acquisition of library materials, and investments in technology. The FY2016/17 biennium marks the beginning of a new 10-year HEAF cycle. In 1985 the legislature allocated \$100 million of HEAF to the non-PUF universities. In 1995 the allocation climbed to \$175 million, an increase of 75 percent, and ten years later the allocation was \$262.5 million, a 50 percent increase. Considering growth in

Administrator's Statement

10/16/2014 5:25:39PM

84th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

784 University of Houston - Downtown

enrollments and the impact of inflation over the past decade, it is reasonable to request that the legislature again provide a minimum 50 percent increase in HEAF, bringing the total allocation to \$393.75 million. Such an increase would still pale in comparison to the oil and gas-driven increases in capital funds enjoyed by the PUF schools.

UHD is again requesting capital construction funding for a Science and Technology Building. This is an urgent need, as evidenced by the fact that it has been the University's top non-formula funding priority for the past three legislative sessions. Funding for projects of this magnitude has historically been provided through tuition revenue bonds (TRBs), and UHD is again making this appeal. However, UHD is open to any other means by which the legislature might provide the needed financial support.

UHD also requests that the state again consider the impact that recent changes to the Hazlewood waiver have had on Texas public universities. The expansion to include dependent spouses and children of veterans, along with the flood of veterans returning from the Middle East wars, have resulted in a dramatic spike in the cost of providing this waiver. For UHD that cost has more than doubled over the past five years, from \$422,000 in FY2010 to a projected \$1,058,000 for FY2014. We honor the service of our veterans and agree that this benefit is well-earned, but this sort of unfunded mandate only further stresses the University's already stressed operating budget. UHD is appreciative of the partial relief provided this biennium by HB1025, but requests that the legislature provide an amount closer to the true projected cost for these upcoming two years.

Finally, UHD requests that the state continue its strong commitment to funding the Texas Grant scholarship program, which provides vital financial assistance to students who are struggling to find the resources needed to stay in school and earn a degree. Funding for the Texas Grant program is one of the best investments the legislature can make in the future of Texas.

In addition to seeking greater overall support for higher education through the formula system, UHD is seeking special funding for the following institution-specific special item requests.

Tuition Revenue Bond Requests

UHD is submitting a single TRB request to the 84th Legislature for consideration. In the fall of 2013, UHD operated with an overall space deficit of 50 percent. The greatest deficits were in the areas of Teaching and Research space, where UHD had just 41 percent and 36 percent respectively of what was called for by the THECB's Space Projection Model. UHD's Space Utilization Efficiency (SUE) score for Lab space was 91 for Fall 2013, well exceeding the state-established standard score of 75.

Science & Technology Building Tuition Revenue Bond Retirement (\$18,953,922 for the biennium)

The university is requesting authority to issue tuition revenue bonds to fund the construction and equip a state-of-the-art 149,500 sq. ft. classroom/lab building to serve as the home of the College of Sciences and Technology, one of five degree-granting colleges at the university. The college is home to all STEM (Science, Technology, Engineering, and Mathematics) academic programs and provides opportunities for students to work for and attain degrees in high-demand STEM fields. The funding requested would provide for the projected debt service costs associated with the bond issue described.

In the four year period from Fall 2009 to Fall 2013 the number of declared majors in College of Sciences & Technology has grown 57 percent, from 733 to 1,155. As the university's STEM programs have grown in size and recognition, the deficiencies in existing science and technology classroom and lab space have become an increasing challenge. At present, science and technology labs are located in the original UHD structure, the One Main Building, which was never designed for this purpose.

Administrator's Statement

10/16/2014 5:25:39PM

84th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

784 University of Houston - Downtown

Exceptional Item Request

UHD is submitting three Exceptional Item requests to the 84th Legislature for consideration.

Engagement/Community Service (\$421,000 for the biennium)

This request will support university-wide engagement initiatives, including assessment of those efforts to measure their impact on student learning, partner institutions, and the community. These initiatives, which have city-wide and regional impact, include partnerships with nonprofit and governmental agencies, neighborhood revitalization, voter registration, and K-16 efforts to improve high school graduation rates and increase the number of high school students who graduate college-ready. Funding would also enable UHD to expand its Center for Public Service and Family Strengths, which directs service-learning and civic engagement activities for the university, better support the efforts of its Center for Public Deliberation, which works with various and disparate groups to promote respect and understanding through dialogue and civil discourse, and cover some of the start-up costs of UHD's newly introduced Center for Critical Race Studies.

Center for Urban Agriculture and Sustainability (\$441,000 for the biennium)

This request will enable UHD to develop a Center for Urban Agriculture & Sustainability (CUAS). The CUAS will focus on ways to increase urban food production, reduce carbon emissions, and create stable urban ecosystems. Funds would support the construction of a greenhouse for outreach initiatives and research including water conservation, pest tolerance and nutrition. The CUAS would serve as a hub for applied research, improve civic engagement of UHD with Houston's sustainability organizations and help educate the Houston community. Houston has urban food deserts in the northeast and southeast where up to 500,000 citizens reside. The city, community groups, and non-profits have been working to tackle the issues of sustainability and food reliability in Houston. Restaurants and entrepreneurs have stated a need for an academic center to conduct applied research. The CUAS will connect with and support community and city efforts.

Microsoft Innovation Center (\$950,000 for the biennium)

This request will support a partnership with Microsoft Corporation, enabling the UHD College of Business' Center for Entrepreneurship to provide budding entrepreneurs with a full suite of business-oriented products and easily accessible expertise to ensure the tools are fully employed. Students will benefit through exposure to a wide range of up-to-date technological products that will aid them in a competitive job market and/or as they move on to graduate-level studies. Faculty will benefit as they master technology that will enhance their teaching and research capabilities as well as their work with industry. Small and mid-sized firms in this area will have access to the Innovation Center, which will further strengthen the regional business community.

Conclusion

The University of Houston-Downtown is an institution that has been deeply committed for 40 years to the state's goal of providing "an affordable, accessible, and high quality system of higher education that prepares individuals for a changing economy and workforce." Texas is a high-octane, economic engine that runs on hardworking, creative, educated people. With continued legislative support, the Texas public higher education system can continue to produce the fuel for that engine. Many of tomorrow's students will be the first in their families to have attended a university, many will be from groups historically underrepresented in higher education, and a large number will be adults returning to the classroom to acquire the new skills needed for success in a knowledge-based economy. These students are the very essence of UHD. The University has been serving them effectively for 40 years, providing the state with an outstanding return on its noble investment.

Legend:
FTE figures reflect UHD employees budgeted on state funds for FY15.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expenses, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

------	-------------	----------	----------	----------	---------	---------

Operations Support funding is driven by both enrollment growth and enrollment mix.

The University continues to refine its Table of Programs. New degree programs have been added and low-producing programs are in the process of being phased out. Over the past ten years UHD has experienced dramatic growth in the number of hours delivered on-line, to where today 11 percent of UHD’s students are taking their courses fully on-line. This has significant implications going forward, from staffing to technology to facilities.

The price of higher education to the consumer has risen in recent years as state support has leveled off or declined. There is understandable concern about overall affordability and the increasing student debt loads (and loan default rates). The state and national economies are significantly improved from two years ago, giving public colleges and universities hope that state funding support will increase, or at least stabilize.

Past support from the legislature in the form of TRBs and HEAF has enabled UHD to develop a modern urban campus. The University has benefitted in recent years from area infrastructure projects carried out by others, including METRO’s light rail expansion and TXDOT’s investment in the hike-and-bike trail that runs through the campus.

While there are challenges ahead, the university believes that with its expanded programs, strong community college partnerships, quality facilities, and commitment to affordability, it is well-positioned to do its part to ensure that the State of Texas meets its higher education goals.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy is to provide proportional share of staff group insurance premiums paid from Other Educational and General funds.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

784 University of Houston - Downtown

GOAL:	1 Provide Instructional and Operations Support	Statewide Goal/Benchmark:	2 0
OBJECTIVE:	1 Provide Instructional and Operations Support	Service Categories:	
STRATEGY:	3 Staff Group Insurance Premiums	Service: 06	Income: A.2 Age: B.3

CODE	DESCRIPTION	Exp 2013	Est 2014	Bud 2015	BL 2016	BL 2017
------	-------------	----------	----------	----------	---------	---------

In 2007, for the FY2008/09 biennium, the 80th Legislature provided nearly full funding of the state portion of group health insurance premiums for ERS agencies, a dramatic increase over prior years. Prior to this, UHD would have to use significant amounts of Other E&G funds to cover group health premiums for state-funded employees. This funding support continued into FY2010/11. While FY2012/13 funding was reduced as the state dealt with a great budget shortfall, funding was restored and even increased for FY2014/15. Continuation of adequate funding for HEGI is a vital need for UHD.

A key external factor is the cost of health care, which continues to rise faster than inflation. It will be some time before the ‘big picture’ impact of the Affordable Care Act will be known, though both its opponents and proponents seem to agree that it does not get at the root cause of the problem – the cost of the care. The ACA is mostly about who is going to pay the costs of our excellent but expensive health care system.

More of the university’s base operations are being covered by local rather than state funds. This means that the benefits – both health and retirement – provided to employees paid from non-state funds are borne entirely by the institution. This has become a significant cost driver for Texas public universities.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The strategy funds the Worker's Compensation payments related to Educational and General funds.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

This strategy is impacted internally by the implementation and enforcement of a sound safety training program. Historically UHD has a very good record when it comes to minimizing lost-time accidents and payment of worker's compensation claims, and this continues to be the case. Over the past five completed fiscal years UHD has averaged 12 accepted claims with a total annual average pay-out of \$37,369.

A key external factor is the cost of health care services, which in recent years has continued to increase.

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy represents tuition set aside for the Texas Public Education Grants program as required by Section 56.033 of the Texas Education Code.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

784 University of Houston - Downtown

GOAL:	1	Provide Instructional and Operations Support	Statewide Goal/Benchmark:	2	0
OBJECTIVE:	1	Provide Instructional and Operations Support	Service Categories:		
STRATEGY:	6	Texas Public Education Grants	Service: 20	Income: A.2	Age: B.3

CODE	DESCRIPTION	Exp 2013	Est 2014	Bud 2015	BL 2016	BL 2017
------	-------------	----------	----------	----------	---------	---------

This strategy is impacted by enrollment growth, the mix of resident/non-resident students, and the current \$50 cap on state-mandated undergraduate tuition. Enrollment growth and the resident/non-resident mix are effected by internal factors, including program offerings, marketing/recruiting efforts, and overall affordability.

Since the \$50 cap on state-mandated tuition was put in place in FY 2007, TPEG revenue has grown at a slower pace relative to enrollment. While still an important source of student financial aid, in recent years the amount of TPEG scholarship funds at UHD has been dwarfed by TEXAS Grant funds and designated tuition set-aside scholarship dollars. This is concerning because the TEXAS Grant and the designated tuition set-aside funds seem more susceptible to shifting political winds than TPEG, which has a long and stable history.

Another external factor is the growing number of students in need of financial assistance. While financial assistance is often available to students with need, the increase in available aid has not kept pace with increases in tuition and fees. As grant programs become a diminishing piece of the financial aid pie, students increasingly turn to loans, which leave many in a position of beginning their work careers burdened by considerable personal debt.

(1) - Formula funded strategies are not requested in 2016-17 because amounts are not determined by institutions.

784 University of Houston - Downtown

GOAL:	2	Provide Infrastructure Support	Statewide Goal/Benchmark:	2	0
OBJECTIVE:	1	Provide Operation and Maintenance of E&G Space	Service Categories:		
STRATEGY:	1	Educational and General Space Support	Service: 10	Income: A.2	Age: B.3

CODE	DESCRIPTION	Exp 2013	Est 2014	Bud 2015	BL 2016	BL 2017
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit cost for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The UHD campus currently has approximately 1.3 million gsf of building space, with another 125,000 under construction with the new Welcome Center/Garage. Of this, about 1 million gsf is considered E&G space. Continued E&G Space Support funding is needed to maintain these facilities to the high standard expected by the state and by UHD's students and faculty.

Over the past ten years electricity prices have fluctuated wildly. In the aftermath of hurricanes Katrina and Rita electricity prices rose dramatically, to the point where UHD, like many universities, put in place a Utilities Assessment Fee. Electricity prices then stabilized, and in the deregulated electricity market the UH System was able to lock in favorable rates for extended periods. During this period UHD's Utilities Assessment Fee was reduced and eventually eliminated. With the current abundance of natural gas, electricity prices remain favorable. At this time UHD asks only that the recommendations of the Infrastructure Formula Study Committee be reviewed and considered.

Overall, the evolution of UHD's physical campus from a dense, highly-efficient, one building vertical campus to a more conventional, inevitably less efficient horizontal model has resulted in higher overall maintenance and utilities costs.

(1) - Formula funded strategies are not requested in 2016-17 because amounts are not determined by institutions.

GOAL:	3	Provide Special Item Support	Statewide Goal/Benchmark:	2	0
OBJECTIVE:	3	Public Service Special Item Support	Service Categories:		
STRATEGY:	1	Community Development Project	Service: 15	Income: A.2	Age: B.3

CODE	DESCRIPTION	Exp 2013	Est 2014	Bud 2015	BL 2016	BL 2017
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

These funds serve as seed money for community-based efforts to revitalize two separate economically depressed north side neighborhoods - the predominately African-American Acres Homes subdivision and the largely Hispanic area bounded by downtown, I-45N, 610 Loop North and Highway 59N. Projects in both areas have their own boards that oversee a variety of economic development and community enhancement efforts. These boards, which are required to provide periodic status reports to the university leadership, operate with a high degree of autonomy.

While the role of UHD was initially one of oversight, in recent years a portion of the annual allocation has been made available to the University to support its community engagement and service learning efforts. UHD faculty can apply for Community Development grants to fund programs that involve UHD students in the community. One such grant supported UHD students (Urban Education) in their work with incarcerated youth at the Harris County Juvenile Probation Department's Excel Academy, which focused on literacy/writing. Funding has also supported an African-American Male Mentoring Program at UHD, as well as business and economic development work in the community involving UHD Business students.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The community needs that are addressed through this item far outstrip the funding available. The funds support youth leadership and development programs, summer educational enrichment programs for at-risk children, supplemental nutrition, women's empowerment, and other vital community needs.

784 University of Houston - Downtown

GOAL:	3	Provide Special Item Support	Statewide Goal/Benchmark:	2	0
OBJECTIVE:	4	Institutional Support Special Item Support	Service Categories:

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

This item was first created by the 76th Legislature and has been adjusted numerous times over the years. While the basis for this funding ties back to discontinued special items that were rolled up into a single line, the fact is that Institutional Enhancement funds have become de facto operating dollars for state universities, comparable in terms of use to what is received through the Operations Support formula.

784 University of Houston - Downtown

GOAL:	3	Provide Special Item Support	Statewide Goal/Benchmark:	2	0
OBJECTIVE:	4	Institutional Support Special Item Support	Service Categories:		
STRATEGY:	1	Institutional Enhancement	Service: 19	Income: A.2	Age: B.3

CODE	DESCRIPTION	Exp 2013	Est 2014	Bud 2015	BL 2016	BL 2017
------	-------------	----------	----------	----------	---------	---------

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

As with most institutions of higher ed in Texas, UHD uses Institutional Enhancement funds to support many of its core operations. Losing this funding would have the effect of an across-the-board decrease in state support.

784 University of Houston - Downtown

While a general academic teaching institution, UHD recognizes the importance of research activity for faculty and student development and is able to provide motivated students with high-quality undergraduate research opportunities. The university has been recognized at both the state and national level for the success of its Scholars Academy program, an academically competitive program in the College of Sciences and Technology that promotes scholarship and student success for undergraduate students majoring in Science, Technology, Engineering and Mathematics (STEM). Scholars participate in academic seminars, field trips to research sites, and research internships.

SUMMARY TOTALS:

	TOTAL, METHOD OF FINANCING	\$9,476,961	\$9,476,961

DESCRIPTION / JUSTIFICATION:

The university is requesting capital construction funding to build and equip a state-of-the-art 149,500 sq. ft. classroom/lab building to serve as the home of the College of Sciences and Technology, one of five degree-granting colleges at the University. The college is home to all STEM (Science, Technology, Engineering, and Mathematics) academic programs and provides opportunities for students to work for and attain degrees in high-demand STEM fields. The constraints of the LAR format dictate that this request be for funds to service TRB debt, but UH is very open to any means by which the legislature might choose to provide this support, including but not limited to full upfront funding of the project cost.

Debt service cost projections are built on the presumption of bonds issued for a 20 year term with a 6 percent interest rate. While the principal and interest debt service for new tuition revenue bonds is being requested here, any amounts appropriated should be to the UH System Administration.

EXTERNAL/INTERNAL FACTORS:

4.A. Exceptional Item Request Schedule
84th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: **10/16/2014**
TIME: **5:25:42PM**

Agency code: **784**

Agency name:
University of Houston - Downtown

CODE	DESCRIPTION	Excp 2016	Excp 2017
-------------	--------------------	------------------	------------------

In the fall of 2013, UHD operated with an overall space deficit of 50 percent. The greatest deficits were in the areas of Teaching and Research space, where UHD had just 41 percent and 36 percent respectively of what was called for by the THECB's Space Projection Model. UHD's Space Utilization Efficiency (SUE) score for Lab space was 91 for Fall 2013, well exceeding the state-established standard score of 75.

As the university's STEM programs have grown in size and recognition, the deficiencies in existing science and technology classroom and lab space have become an increasing challenge. The current lack of a properly designed, stand-alone science/technology building severely limits UHD's ability to offer a full range of STEM programs.

Major accomplishments to date and expected over the next two years: In the four year period from Fall 2009 to Fall 2013 the number of declared majors in the College of Sciences & Technology has grown 57 percent, from 733 to 1,155. Lack of appropriate space will make it impossible to continue growing at this rate. Benefit to: Students, faculty, the Houston Science community.

Year established and funding source prior to receiving special item funding: None

Formula funding: None

Non-general revenue sources of funding: Perhaps some philanthropy and a small amount of institutional funds, but this project is so large in scope and cost that without strong support from the legislature it is unlikely to ever get done.

Consequences of not funding: UHD's STEM students will continue to have to work in laboratory space that is well below the standard expected for a modern university. Many good students will choose not attend UHD for this reason. Current faculty who have been waiting for this building may decide to move on, while faculty candidates considering UHD as a place to teach and do research will go elsewhere, convinced that the state of Texas is not committed to supporting serious science/engineering efforts at UHD.

TOTAL, METHOD OF FINANCING		\$225,500	\$195,500
FULL-TIME EQUIVALENT POSITIONS (FTE):		3.00	3.00

DESCRIPTION / JUSTIFICATION:

Engagement with the Greater Houston Community is an essential element of UHD's mission and vision. These initiatives include partnerships with nonprofit and governmental agencies, neighborhood revitalization, voter registration, and K-16 efforts to improve high school graduation rates and increase the number of students who graduate college-ready in nearby high schools. Funding would also allow us to expand existing centers, including the Center for Public Service and Family Strengths, the Center for Public Deliberation and the Center for Critical Race Studies.

Examples of community projects of UHD and these centers include Citizenship Month and the Crockett Elementary School Project. UHD is the primary partner and co-chair with the City of Houston for Citizenship Month, a series of over 300 community-driven events and programs. These events and programs, which impact thousands of Houstonians, build bridges of understanding, cooperation and awareness of Houston's unique multicultural populace and international business climate. Over 100 partners include local agencies, religious and civic organizations, and private businesses. The Crockett Project is funded through the UHD work-study program and involves UHD students of various majors working at Crockett as tutors. UHD tutors at Crockett worked 1,026 hours during Fall 2012 and 1,112 during Spring 2013. UHD's measure of success has been for these projects to yield higher scores on the new STAAR test, and this has already been achieved. From 2012 to 2013, Crockett students improved in all four parts of the test: reading 8%, writing 16%, science 39%, and math 42%.

Funds would be used to support students engaged in service learning projects, as well as collaborative research projects designed with community partners that affect nearby communities, such as dropout rates, homelessness and gang violence. These funds would also be leveraged to seek funding for large-scale research projects.

CODE	DESCRIPTION	Excp 2016	Excp 2017
-------------	--------------------	------------------	------------------

UHD is within walking distance of numerous Fortune 500 firms, the theater district, convention center, downtown hotels, and major sports venues. However, the University is also just a few streets over from jails, court buildings, homeless shelters, and the low-income Northside and Eastside neighborhoods. The City of Houston and area nonprofits regularly ask UHD to serve as lead partner in community initiatives. Exceptional item funding will enable UHD to expand its engagement efforts and develop in its graduates a better understanding of their local community and how they might apply to real-world situations what they have learned in the classroom.

Major accomplishments to date and expected over the next two years: UHD is the primary partner and co-chair with the City of Houston for Citizenship Month, a series of over 300 community-driven events and programs. Over 100 partners include local agencies, religious and civic organizations, and private businesses. UHD tutors at Crockett Elementary committed over 2,000 hours in Fall 2012/Spring 2013. UHD's measure of success for this initiative is student scores on the new STAAR test, and these have shown dramatic improvement. From 2012 to 2013, Crockett average student scores improved in all four parts of the test: reading 8%, writing 16%, science 39%, and math 42%. With additional funding, UHD will be able to build on existing community engagement projects while exploring new opportunities for students to engage their community through service. UHD students will have diminished opportunities to engage in service learning activities. Benefits to: UHD students, Houston community.

Year established and funding source prior to receiving special item funding: 2013 Designated Tuition

Formula funding: None

Non-general revenue sources of funding: Designated Tuition

Consequences of not funding: UHD students will have diminished opportunities to engage in service learning activities.

FULL-TIME EQUIVALENT POSITIONS (FTE):		2.50	2.50

DESCRIPTION / JUSTIFICATION:

This request will enable UHD to develop a Center for Urban Agriculture & Sustainability (CUAS). The CUAS will focus on ways to increase urban food production, reduce carbon emissions, and create stable urban ecosystems. Funds would support the construction of a greenhouse for outreach initiatives and research including water conservation, pest tolerance and nutrition. An office for the CUAS would be created to organize sustainability efforts and research at UHD. Continuing education courses and certificates would be offered. Funding would cover salary and wage costs for a Director and Co-Director and support faculty seed funding for promising research. The CUAS would serve as a hub for applied research, improve civic engagement of UHD with Houston's sustainability organizations and help educate the Houston community. Houston is the fourth largest city and second fastest growing in the country. The city has urban food deserts in the northeast and southeast where up to 500,000 citizens reside. The city, community groups, and non-profits have been working to tackle the issues of sustainability and food reliability in Houston. Restaurants and entrepreneurs have stated a need for an academic center to conduct applied research. The CUAS will connect with and support community and city efforts and seek to bring federal research dollars with a sustainability focus to the Houston area.

CODE	DESCRIPTION	Excp 2016	Excp 2017
-------------	--------------------	------------------	------------------

The City of Houston has established a sustainability office (Green Houston) to focus on issues such as green energy, public transportation and sustainable food initiatives. Non-profit organizations like Houston Tomorrow have worked for sustainable development and dependable food supplies with the goal of making Houston the healthiest city by 2036 (its 200th birthday). The non-profit Urban Harvest teaches over 100 classes per year, educating thousands. UHD is poised to be an academic leader in the area of urban agriculture and sustainability. UHD is already a leader in undergraduate research and UHD students are currently engaged in numerous service learning initiatives that address sustainability. Further, UHD has established a Center for Public Service & Family Strengths with connections to Houston's most in-need neighborhoods and the College of Business and College of Sciences & Technology are working to develop sustainability programs.

Major accomplishments to date and expected over the next two years: This is a new proposal, but over the next two years connections with other programs will be created, federal and private funding pursued, faculty seed projects initiated and certificate classes established.

Year established and funding source prior to receiving special item funding: This Center is new but USDA funding 4 years ago led to the establishment of the 'Rocks to Wine' program (collaboration between 2 UHD colleges and faculty at UH Hilton College) which engages students in a year-long program of research and industry outreach. Students conduct research in geology, plant science and wine making, build marketing plans for Texas wineries and complete internships. The CUAS will build off the 'Rocks to Wine' success.

Formula funding: None

Non-general revenue sources of funding: Federal and private funding.

Consequences of not funding: UHD will look for alternate funding as it is committed to CUAS.

DESCRIPTION / JUSTIFICATION:

Microsoft has developed over 100 Microsoft Innovation Centers (MICs) across the world. Recently they announced their first U.S. location in Miami. Microsoft, working closely with the City of Houston, hopes to locate an MIC in Houston. In this proven/refined partnership, UHD's responsibility is to provide built-out space for the MIC and to manage its day-to-day operations. Microsoft provides access to programs, software, technical expertise and some hardware. Materials/product will be updated on a regular, ongoing basis to ensure that students, faculty and the community have access to the most current technology.

UHD is requesting that the 84th Legislature support UHD's efforts to establish a Microsoft Innovation Center in Houston. Requested funding will assist with the build-out of the center and provide salary/wage funds to hire software consultants (3 FTEs) to support faculty, students and entrepreneurs. The funding will enable the partnership (1) to increase access to continuously updated technology for students and faculty, and (2) ready access to expertise that will facilitate their realization of the potential of this new technology. Students will benefit by gaining an understanding of a wide range of up-to-date technological products that will aid them in a competitive job market and/or as they move on to post-graduate work. Faculty will benefit as they master technology that will enhance their teaching and research capabilities as well as their work with industry.

Agency name:

University of Houston - Downtown

CODE	DESCRIPTION	Excp 2016	Excp 2017
-------------	--------------------	------------------	------------------

With MICs in place across the world, the concept has been widely market-tested. UHD’s goals for the MIC are clearly aligned with those of Microsoft and the City of Houston, so once in operation the MIC should be a viable long-term asset for the city and state. The goals of the MIC include bringing various communities together, creating a positive impact on the economy and job market and fostering technology start-ups.

The partnership will provide the UHD College of Business’ Center for Entrepreneurship with the ability to provide budding entrepreneurs with both a full suite of business-oriented products and easily accessible expertise to ensure the tools are fully employed. Fully harnessing available technology to their individual company’s benefit will increase the likelihood that more entrepreneurs will successfully transition to Stage 2 of business development, where dramatically increased hiring takes place.

The MIC will benefit the region’s small and mid-sized high-growth firms in numerous ways. It will address what is often a lack of awareness about technology that can facilitate business growth, bring and then transfer the knowledge required to effectively harness these tools, and give these firms access to the technology and expertise at little or no cost. This partnership will aid UHD in pursuit of its mission to “[engage] with the community to address the needs and advance the development of the region” and its vision of ensuring that students “graduate with 21st century skills.”

Major accomplishments to date and expected over the next two years: To establish a MIC.

Year established and funding source prior to receiving special item funding: 2015

Formula funding: None

Non-general revenue sources of funding: City and foundation.

Consequences of not funding: Students not optimally job ready, less efficient faculty, less revenue-generating support provided to business community and reduced likelihood of entrepreneurs’ success.

	Total Expenditures		22.2%		\$3,251,231	\$14,675,619		20.6%		\$3,541,858	\$17,201,123	

B. Assessment of Fiscal Year 2012 - 2013 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained two of the five applicable statewide HUB procurement goals in FY 2012 in the following categories: Building Construction and Commodities, but in FY 2013 UH attained one state wide HUB goal in the Commodities category.

Applicability:

Five of the six categories of eligible expenditures are relevant to a university, although some are more ongoing than others. The Heavy Construction procurement category is not applicable to university expenditures. In any given year the university will have considerable expenditures in both the Commodities and Other Services categories. Expenditures in the Construction and Professional Service categories are generally tied to building projects, which require extraordinary funding and occur intermittently.

Factors Affecting Attainment:

UH-Downtown strives to live up to the spirit of HUB laws by making efforts to engage Black and Hispanic owned businesses. In FY 2012, 46% of HUB volume was with Black and Hispanic owned businesses. In FY 2013 Black and Hispanic owned businesses accounted for almost 50% of the total. A number of large volume businesses (office supplies, computer equipment) have now established third-party arrangements that have enabled state agencies to improve their HUB participation rates.

"Good-Faith" Efforts:

The University made the following good faith efforts to comply with statewide HUB procurement goals as stated by Goals 20.13 TAC 20 Section Chap. 20.11 through 20.28.

*Sponsored two HUB fairs to promote HUBs to university departments and within community.

6.A. Historically Underutilized Business Supporting Schedule
84th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: **10/16/2014**
Time: **5:25:43PM**

Agency Code: **784** Agency: **University of Houston - Downtown**

- *Held purchasing workshops and training sessions conducted with emphasis on HUB program.
- *Established exhibits at HUB procurement expos sponsored by the Houston Minority Business Council (HMBC).
- *Attended HUB discussion meetings to keep up with HUB rules and regulations.
- *Cultivated relationships with new HUB vendors and introduced them to the university community.

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2016	2017	Biennial Total	2016	2017	Biennial Total	

1 Community Development Project

Category: Programs - Service Reductions (Other)

Item Comment: The Community Development special item is funded entirely with general revenue funds and will be subject to 10 percent reduction. These funds support community-based initiatives. The impact will be fewer service learning opportunities for UHD students.

Strategy: 3-3-1 Community Development Project

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$39,753	\$39,753	\$79,506
General Revenue Funds Total	\$0	\$0	\$0	\$39,753	\$39,753	\$79,506
Item Total	\$0	\$0	\$0	\$39,753	\$39,753	\$79,506

FTE Reductions (From FY 2016 and FY 2017 Base Request)

2 Institutional Enhancement

Category: Administrative - Operating Expenses

Item Comment: The majority of UHD's non-formula special item funding comes through the Institutional Enhancement item, an item that all institutions receive and money that is universally treated as general use operating dollars, not unlike Instruction & Operations formula dollars. If this 10 percent GR-related base budget reduction is enacted UHD would have \$457,686 less in the upcoming biennium to meet basic operating needs. Needed new faculty lines could not be added, the hiring of critical student support staff positions would be put off, class sizes could increase and fewer courses would be put on the schedule. The overall effect would be to diminish the university experience for UHD students in ways that would reduce their likelihood of earning a degree, or earning a degree in a timely manner.

Strategy: 3-4-1 Institutional Enhancement

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$228,843	\$228,843	\$457,686

Project Description

The university is requesting capital construction funding to build and equip a state-of-the-art 149,500 sq. ft. classroom/lab building to serve as the home of the College of Sciences and Technology, one of five degree-granting colleges at the University. The college is home to all STEM (Science, Technology, Engineering, and Mathematics) academic programs and provides opportunities for students to work for and attain degrees in high-demand STEM fields. The constraints of the LAR format dictate that this request be for funds to service TRB debt, but UHD is very open to any means by which the legislature might choose to provide this support, including but not limited to full upfront funding of the project cost.

While the principal and interest debt service for new tuition revenue bonds is being requested here, any amounts appropriated should be to the UH System Administration.

Schedule 8B: Tuition Revenue Bond Issuance History

		<i>Subtotal</i>	\$31,626,000	\$0		

784 University of Houston - Downtown

Special Item: 1 **Community Development**

(1) Year Special Item: 2000
Original Appropriations: \$300,000

(2) Mission of Special Item:

These funds serve as seed money for community-based efforts to revitalize two separate economically depressed north side neighborhoods - the predominately African-American Acres Homes subdivision and the largely Hispanic area bounded by downtown, I-45N, 610 Loop North and Highway 59N. Projects in both areas have their own boards that oversee a variety of economic development and community enhancement efforts. These boards, which are required to provide periodic status reports to the university leadership, operate with a high degree of autonomy.

(3) (a) Major Accomplishments to Date:

The bulk of the funds directly support a variety of community needs, including youth leadership and development programs, summer educational enrichment programs for at-risk children, women’s empowerment and supplemental nutrition (summer lunch) programs.

The service learning allocation made to UHD supports community needs in a more indirect way, providing grants to faculty members who build community engagement/service learning into their curricula. An example would be the grant that supported UHD Urban Education students in their work with incarcerated youth at the Harris County Juvenile Probation Department’s Excel Academy, which focused on literacy/writing.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Funds received for the FY2016/17 biennium will be used for much the same purpose as the funds received in previous biennia. The University is grateful that a portion of the funding provided through this item is made available to support its efforts in service learning.

(4) Funding Source Prior to Receiving Special Item Funding:

Unfunded

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

An opportunity to lift these economically depressed neighborhoods would be lost, as would the opportunity to provide community development service learning opportunities to UHD students.

784 University of Houston - Downtown

Special Item: 2 **Institutional Enhancement**

(1) Year Special Item: 2000
Original Appropriations: \$2,292,477

(2) Mission of Special Item:

This item was first created by the 76th Legislature and has been adjusted numerous times over the years. While the basis for this funding ties back to discontinued special items that were rolled up into a single line, the fact is that Institutional enhancement funds have become de facto operating dollars for state universities, comparable in terms of use to what is received through the Operations Support formula.

(3) (a) Major Accomplishments to Date:

The Institutional Enhancement (I/E) item is an anomaly, as unlike traditional special items it is not provided to support some very specific need. Rather, I/E funds support general operations. Given this, it is a challenge to identify ‘major accomplishments’ that can be tied to this funding. The major accomplishment is that the funding helps UHD cover general operating expenses.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Funds received for the FY2016/17 biennium will be used for much the same purpose as I/E funds received in previous biennia – to address general operating needs.

(4) Funding Source Prior to Receiving Special Item Funding:

The Academic Support Lab and CEC were separately funded special items prior to the establishment of Institutional Enhancement. The other items were either unfunded or underfunded.

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

As with most institutions of higher ed in Texas, UHD uses Institutional Enhancement funds to support many of its core operations. Losing this funding would have the effect of an across-the-board decrease in state support.
