721 The University of Texas at Austin

OVERVIEW

With 27 million diverse residents and the 12th largest economy in the world, Texas is a global leader in education, economic opportunity, innovation, creativity and discovery. As the UT System's flagship university, UT Austin is central to the state's potential and to its future. The university is committed to striving for excellence in teaching and research to have maximum impact and value to the people of Texas.

Adequate, stable, and recurring base funding is essential for continued progress toward fulfillment of UT Austin's core purpose and constitutional mandate. This Legislative Appropriation Request for 2018-2019 includes a required plan for a 4% reduction in state general revenue funds and an additional 10% reduction plan.

If budget reductions were implemented, the university would have a thoughtful and deliberate approach to minimize the impact on its core missions of teaching and research and avoid across-the-board reductions. For the last four years, each dean and vice president has prepared five-year budget plans to fulfill the teaching and research missions and to make strategic improvements, considering the challenges of reduced funding. Under any state funding scenario, administrative areas are continuously reviewed to ensure that funding and other resources including physical space are used effectively and efficiently to achieve UT Austin's academic mission.

As the university addresses the potential budget challenges on the horizon, we remain focused on advancing UT Austin to become one of the top public universities in the nation. To achieve this vision, the president has laid out three thematic priorities and several important cross-cutting initiatives:

- (1) **Educate Leaders through Next-Generation Learning Models:** Traditional approaches to education, where students earn semester credit hours by sitting in traditional lectures or laboratories does not fully reflect the wide range of educational experiences that we know are necessary for educating students as future leaders, nor does it recognize the potential of technology for effective learning. We are innovating on the traditional model by infusing opportunities for students to participate in research and discovery into undergraduate education. Academic units are incorporating ever more technology-enhanced learning into the curriculum, and to review and update degree program requirements. These new academic programs will help our students graduate in four years and is aligned with the Texas Higher Education Coordinating Board's 60X30-TX strategic plan, which calls for students to complete college as well-rounded, educated citizens prepared for successful careers.
- (2) **Accelerate and Enhance Research Productivity:** UT Austin's priorities are consistent with the Governor's commitment to "harness our resources to elevate Texas' higher education institutions as integral participants in our economic advancement." The Governor has set a goal for Texas to be home to five of the top 10 public research universities. Texas can reach that goal — and The University of Texas at Austin will lead the way in doing so. In the fall of 2015, we announced ambitious plans for research, including increasing the impact of UT Austin research. The university is identifying new funding strategies, such as interdisciplinary opportunities to establish centers of excellence.
- (3) **Transforming Health Care:** UT Austin's third priority is transforming health care through the Dell Medical School, which welcomed its inaugural class in June 2016. As the first new medical school at a university that is a member of the American Association of Universities (AAU) in nearly fifty years, UT Austin is embarking on a truly innovative approach to medical education, research, and clinical service, that is not only fully integrated into the academic campus but deeply connected to the local communities in Central Texas. We are developing a new model for medical education that partners with the community, redesigning health care to better align with society's interests in quality and value. Dell Medical School is creating and supporting partnerships and programs combining clinical work with an innovative learning culture that is team-based and multi-professional, drawing on the strengths of the university.
- (4) **Cross-cutting Initiatives:** Important initiatives that cut across and contribute to the thematic priorities include diversity, global engagement, entrepreneurship, and effectiveness and efficiency.

These priorities and contributing initiatives all support the specific goals outlined in the Legislative Appropriation Request.

GOAL A: INSTRUCTIONAL AND OPERATIONS SUPPORT

Educate Leaders

721 The University of Texas at Austin

An essential part of UT Austin's commitment to serve the people of Texas is ensuring that our students have the opportunity and support to complete a world-class education within four years.

Recruitment and Admissions: UT Austin's approach to enrollment management emphasizes recruitment of students eligible for undergraduate automatic admission, students from historically underrepresented groups, and students with special talents and experiences. In addition to its on-campus admissions office, the university also maintains regional admissions centers.

Student Success: Improving students' time to degree is a key strategy for promoting affordability. While almost four out of five UT Austin students currently graduate within six years, those who do so in four years begin their careers or pursue graduate education sooner while incurring less costs and less debt. The university, in turn, proudly sends these graduates into the world while gaining additional capacity to serve more students.

UT Austin is a recognized leader in increasing four-year graduation rates. Our efforts start before a student arrives on campus. We are using predictive analytics and statistical modeling, drawing on more than a decade of comprehensive historical student data, to provide tools for predicting outcomes for students applying to and ultimately enrolling at UT Austin. These tools enable us to identify students with the greatest need for academic support. The students are assigned to academic success programs which include additional tutoring and mentoring and enable students to become part of a small academic community.

In addition, UT Austin is committed to fostering an environment that supports all students, including those with disabilities. We provide a broad range of specialized services to address a wide variety of needs so that physical, instructional, and attitudinal barriers are eliminated. The Office of Student Veteran Services provides many resources and a knowledgeable staff in order to ease the transition from military to civilian and academic life. These efforts resulted in UT Austin being named second best university in the United States for veteran services.

Other UT Austin efforts such as Texas OnRamps and the New Mathways Project are innovative network-based, approaches to supporting student success and completion rates on our campus and for the state of Texas. OnRamps works in partnership with Texas school districts, community colleges, and universities to improve students' readiness for success in critical fields of study. The New Mathways Project provides three accelerated mathematics pathways and a supporting student success course that are alternatives to traditional developmental education and that are connected to modern programs of study. Mathways has received national praise for its work to create pathways that help students succeed in college mathematics, and works in partnership with community colleges across the state of Texas.

Educational Innovation: At UT Austin, we believe that the key to educating students who complete college as well-rounded, educated citizens, prepared to lead is high quality experiential learning. The university knows this works from our experience with the Freshman Research Initiative for students in the College of Natural Sciences. Today, departments in four other colleges are creating new opportunities for students through service learning, internships, and research as integral parts of the degree programs.

In January 2016, we launched Project 2021 as a five-year initiative to develop next-generation undergraduate degree and certificate programs through course and program redesign, technology integration and rigorous evaluation. A priority of Project 2021 is to drive the university's plan for educational innovation and online learning. Key strategies for Project 2021 include expanding online learning opportunities for both UT Austin and non-UT Austin students, creating support structures for innovative teaching and learning, and promoting the use of next-generation learning models in classrooms and programs.

Accelerate and Enhance Research Productivity

Recruiting and Retaining Top Faculty: The university continues to promote a culture of campus-wide academic excellence by recruiting and retaining an outstanding, diverse faculty, and supporting faculty development, excellence in teaching and research, leadership, and recognition. The faculty is at the heart of our education and

721 The University of Texas at Austin

research mission. The Faculty Investment Initiative helps recruit and retain the professors and graduate students who will drive this research. It also brings in young scholars from underrepresented communities who will be mentored as future educators and researchers.

Graduate Education: All Ph.D. programs at UT Austin are being evaluated and improved via comprehensive internal and external reviews in conjunction with the seven-year review cycle mandated by the Texas Higher Education Coordinating Board. Advising for graduate students is being improved with the implementation of a comprehensive Graduate Student Information System that tracks how our graduate students are supported and progress to their degrees from graduation to placement has also been created and being improved. This tool is very helpful in preparing the self-studies for the internal and external reviews. All graduate students also have access to an online tool that helps those interested in non-academic careers explore the extensive range of available options. Time-to-degree at UT Austin is already better than the national average for many of our PhD programs and can be further improved as a result of our internal and external reviews, improved advising and additional professional development offerings.

UT Austin is a national leader in the recruitment and support of graduate students from historically underrepresented minority groups. The Graduate School emphasizes the recruitment of these talented students; programs that support this work include the McNair Scholars and the Intellectual Entrepreneurship Pre-Graduate Internship Program. Both of these programs provide opportunities for talented students to be mentored by graduate students and faculty in preparation for further study.

Research Enterprise: The Texas Research University Fund (TRUF) is integral to the university's research mission and its impact for the State of Texas. Support for and the continuation of this critical source of funding enables the university's academic mission of educating future leaders by engaging students in the creation of new knowledge, accelerating discovery and research and enhancing the state's competitive position.

The University of Texas at Austin and Texas A&M University are grateful to the Legislature and Governor for passing and approving the TRUF and the formula for allocating the funding generously provided by the Legislature. The purpose of the Texas Research University Fund (TRUF) is to strengthen the international competitiveness and performance of Texas' two statutorily classified research Institutions, not only in healthy competition with one another, but more importantly in successful competition with other nationally ranked universities. The proven way to compete successfully at a higher level is to be able to successfully recruit and retain the highest-performing faculty and students. The Texas Constitution charges these two institutions with the responsibility to serve their students and state's citizens with the highest level of teaching and research. The TRUF helps UT Austin and Texas A&M to fulfill this charge.

UT Austin and Texas A&M jointly and respectfully request that the Texas Research University Fund be funded at the current formula ratio.

The world-class shared-use research facilities on campus serve to enhance research not only at UT Austin, but also for the State, nation and world. Researchers and faculty spanning multiple colleges, schools and academic disciplines work together to tackle complex social, educational and technological challenges in UT Austin's major research institutes. High priority interdisciplinary research efforts include culture and society, energy, the physical environment, health, neuroscience, engineering technology and computation, and large data-intensive systems. Our long-standing record of research excellence in these areas is now being bolstered by the new Dell Medical School, which serves as a catalyst for new and enhanced interdisciplinary research.

UT Austin's research mission as a flagship university goes beyond sponsored research, and its role in scholarship in the humanities and social sciences, and creativity in the arts is essential to our enterprise and service to the state of Texas. This work is important to understanding of ourselves and society, educate leaders who are critical thinkers, and bring to bear historical, cultural, and social perspectives to address great challenges today and into the future.

We are continually evaluating new approaches and support structures that will enhance innovation and technology commercialization and we are investing in our research

721 The University of Texas at Austin

infrastructure, which is essential for faculty members and students to excel, as well as our world-renowned archives and collections. UT Austin's reputation for research excellence continues to grow. The National Science Foundation invested an additional \$30 million in the Texas Advanced Computing Center (TACC) for its development of Stampede 2, successor to TACC's Stampede supercomputing system that has supported more than 7 million data analysis and simulation projects for researchers worldwide.

Transforming Healthcare

The Dell Medical School (DMS) is the nation's first new medical school in decades to be built at a top-tier research campus. The Dell Medical School pursues excellence in trans-disciplinary and inter-professional education of physicians and by partnering with the university's existing health professions programs, it has created team-based, inter-professional curriculum and environments for its students. This better prepares students for the realities of 21st century medicine and augments the quality of care. It also improves education across campus by having students from diverse backgrounds and disciplines learning side-by-side.

The DMS has already started to rethink established, and sometimes dysfunctional, models for health care. Three pillars of the DMS approach include interdisciplinary teaching and research, clinical care and community focus, and strategic research-clinical care initiatives.

More than 4,500 applications were received for the class and 50 high-achieving future physicians enrolled in the first cohort. In July, this cohort started their medical education in the brand new Center for Health building. It will be the first of four new buildings, including the Dell Seton Medical Center at the University of Texas, to open by the end of 2017.

The UT System Board of Regents invested substantial funding in the startup of the Dell Medical School along with local funding. UT Austin respectfully requests Health Related Institution (HRI) formula funding for the 2018-2019 biennium to support the DMS. This would put the new medical school on the same operating funding model as all other medical schools in Texas.

Cross-Cutting Initiatives

The multifaceted role of UT Austin as an engine for economic development, educational opportunities, entrepreneurship, technological innovation, and cultural enrichment touches the lives of all citizens. UT Austin provides a key link for the state in the globalization of society and its impact on education, science, and technology are profound.

Global Engagement: As one of the nation's leading public universities, UT Austin prepares its students to become global citizens. The university works collaboratively across colleges, schools, and units to develop global initiatives, including study abroad programs that champion the tenets of inclusion, diversity, and cultural understanding. UT Austin has the second largest study abroad program in the country with approximately 3,000 undergraduate students participating each year. These efforts ensure that UT graduates are prepared to compete in the global marketplace.

Networks and Community Partnerships: UT Austin coordinates and participates in a number of cross-institutional partnerships that enable institutions to share ideas, coordinate resources, and accomplish more together. For example, UT Austin convenes the Texas Higher Education Leaders Consortium, a group of Texas public universities and colleges committed to improving educational productivity. In addition, UT Austin is one of eleven partner institutions in the University Innovation Alliance, a coalition of public research universities committed to improving outcomes for all students regardless of background and helping students through data-informed and innovative academic success initiatives.

Another example of broad community partnerships is the university's participation in the national My Brother's Keeper Initiative to help young men of color achieve at

721 The University of Texas at Austin

high levels. Through this initiative UT Austin works with the City of Austin, Austin Independent School District, Travis County, Austin Community College, Huston-Tillotson University and other government agencies and organizations.

Recently, NASA awarded the Cockrell School of Engineering a grant to support national expansion of a STEM program that provides underrepresented students and teachers the opportunity to use NASA resources and work with engineers at the Center for Space Research. For example, the Center has provided invaluable support for the State of Texas with advanced technology for emergency management in times of hurricanes and other natural disasters.

The Dell Medical School has developed numerous community partnerships to ensure the new school is serving marginalized populations while also ensuring our new medical students receive the best training possible. Adding to the community health services, the School of Nursing and the School of Pharmacy have long had health outreach initiatives, such as a partnership between Nursing and Del Valle ISD to provide clinical care for the low-income population in that school district.

GOAL B: INFRASTRUCTURE SUPPORT

Physical Campus:

UT Austin will maintain and enhance the quality of the university operations and physical plant. The university is working toward a goal of improving the overall campus condition, especially mechanical and electrical systems, by approximately 50% by the year 2020. This will ensure that all university activities are housed in a physical environment that is effective, efficient, accessible, clean, safe, and secure. Facility condition assessments have been conducted to determine the most critical building repair and renovation needs.

The university will also continue to implement its Capital Improvement Plan. Significant progress has been made to improve the campus infrastructure with the recent completion of the Health Learning Building for the DMS and renovation of the Jesse H. Jones Communication Center. Thanks to the 84th Legislature's passage of Tuition Revenue Bonds (TRB), a major renovation of Welch Hall, the largest academic building on campus, is underway to improve teaching and research laboratories. Currently, construction is well underway on other major projects, including two additional DMS buildings and parking garage, Chilling Station #7, Engineering Education and Research Center, Rowling Hall, Graduate Student Housing and a new parking garage for East Campus. Plans continue for facilities to serve the College of Natural Sciences, the Cockrell School of Engineering and the McCombs School of Business.

GOAL C: SPECIAL ITEMS

The following special items provide a wide range of special services and benefits to the State of Texas and its citizens. For additional detail, refer to individual strategy requests for each special item.

The special nature of these services requires support beyond that provided by formula-based appropriations. If required, UT Austin will reduce its support for some special items for the proposed 4% and 10% General Revenue reductions in order to maintain programs for the higher priority special items that are vital to the core mission of UT Austin.

Instructional Special Item Support:

Texas Natural Science Center (formerly Texas Memorial Museum)

The center serves the citizens of Texas through exhibition and preservation of biological, paleontological and geological specimens collected in Texas or that represent

721 The University of Texas at Austin

Texas' natural history past and present; to provide curricula enhancement to visiting K-12 teachers and students.

Garner Museum

The museum serves to fulfill the university's public service mission by promoting the use of the collections, exhibits and programs to students, teachers, scholars, and the general public for research, teaching and education. It is dedicated to the remarkable lives of John Nance Garner and Dolph Briscoe, both Uvalde natives and historically important political figures.

College Readiness Project

This project enables UT Austin to organize a significant statewide initiative with other Texas colleges, universities, and system offices to improve students' readiness for success in critical fields of study. To date, UT Austin has deployed seven key entry-level college courses in Statistics, PreCalculus, Geoscience, Physics, Computer Science and two Rhetoric courses through the Texas OnRamps initiative for delivery in dual enrollment formats to over 6,000 Texas students and will serve more than 6,000 additional students in the 2016-17 academic year. With continued funding, we would serve more than 12,000 additional students in the next biennium.

In addition, UT Austin is coordinating a statewide initiative in partnership with state agencies, higher education institutions, independent school districts, and state and national non-profit organizations to improve student pathways to postsecondary and career success by improving secondary college and career advising. Online content modules and tools will be piloted with educators and students during the 2016-17 academic year and will be deployed statewide beginning in summer 2017. The initiative will also enhance the state's educational and workforce information and data capabilities and will establish a robust technology and organizational infrastructure for deploying similar next-generation statewide professional development and training initiatives at lower cost.

Research Special Item Support:

Marine Science Institute Port Aransas (MSI)

Research conducted at MSI furthers society's understanding of the Texas coastal-zone ecosystem, develops new economic opportunities that complement a healthy marine-life environment, and explores ways in which marine life can help treat and diagnose human diseases, including cancer. MSI manages the 186,708 acre National Estuarine Research Reserve, the only Reserve in Texas, generating federal dollars to be used in Texas.

Institute for Geophysics (IFG)

The Institute for Geophysics provides a center for global geoscience research focusing on the structure and dynamics of the earth and its oceans and assessing resources and hazards of importance to humankind. IFG's research contributes to the vital understanding of the tectonic development and resources of the planet.

Bureau of Economic Geology (BEG) and Project STARR

The Bureau of Economic Geology is an organized research unit of UT and the State Geological Survey. Its work is critical to the development of Texas energy, water and mineral resources and protection and management of the Texas environment. The State of Texas Advanced Resource Recovery Program (STARR) was charged with helping operators increase production from state lands' oil and gas leases to increase the royalty that supports the Permanent School Fund. Continued revenue neutral funding is important for this vital state program.

Bureau of Business Research (BBR)

BBR trains both undergraduate and graduate students in research methods, offering graduate students an opportunity to apply theory learned in the classroom to current economic problems. The Bureau continues to be a State Data Center Affiliate and a resource for companies, trade associations, economic development entities, and policymakers.

721 The University of Texas at Austin

McDonald Observatory

The mission of McDonald Observatory is to advance humanity's understanding of the universe through research in astronomy, to facilitate graduate and undergraduate education in astronomy, to contribute to the public understanding of science in Texas and the nation, and to use astronomy as a tool to help Texas teachers meet state standards and excite Texas school children about careers in a scientific and technical field. In addition, experts from McDonald are representing UT in a consortium to build the Giant Magellan Telescope.

Center for Advanced Studies in Astronomy (CASA)

CASA ensures that Texas astronomers will retain at least a 50% share of the research time on the Hobby-Eberly Telescope. This telescope makes possible studies on the structure and origin of the universe, on the nature and birth of galaxies, on the origins of stars, and on the nature of other planetary systems such as our solar system. The telescope is undergoing an extensive upgrade to dramatically increase both its field of view and the power and reach of its instrumentation.

Public Service Special Item Support:

Irma Rangel Public Policy Institute

Through the graduate-level seminars and the provision of support to students, the Irma Rangel Public Policy Institute allows students firsthand involvement in the design and implementation of policy research projects. In addition, faculty are provided assistance and professional support. The products and activities generated have contributed to the understanding of policy issues salient to the State.

Center for Public Policy Dispute Resolution (CPPDR)

The mission of the CPPDR is to promote the use of alternative dispute resolution (ADR). ADR techniques have proven effective in preventing and resolving conflict in many settings, resulting in substantial savings for Texas taxpayers.

Voces Oral History Project

The project is an ongoing effort to videotape interviews with U.S. Latinos & Latinas of the WWII, Korean, and Vietnam War generation. Its archives are housed at the Nettie Lee Benson Latin American Collection and the Center for American History at UT Austin. Journalism students write stories from each interview, fulfilling the teaching mission of UT. Voces serves as an international resource for film-makers, scholars, journalists, playwrights, and the general public.

GOAL D: MAINTAIN HISTORICALLY UNDERUTILIZED BUSINESS POLICY

UT Austin will maximize opportunities for historically underutilized business (HUB) firms to furnish the materials, supplies, equipment, and services needed to support the mission and operations of UT Austin. The university supports these firms with an annual vendor fair including continuing education workshops for State Purchasers and Contract Managers, as well as business matchmaking sessions. For additional detail, refer to the HUB Supporting Schedule.

GOAL E: INCREASE FEDERAL AND PRIVATE-SECTOR FUNDING

UT Austin will strive to increase the amount of federal and private-sector funding received through grants, contracts, and the fundraising programs across campus. UT Austin will increase the total value of its faculty endowments and level of operating support provided by private donors. The Campaign for Texas was an eight-year, \$3 billion comprehensive fundraising effort to increase UT Austin's national competitiveness and global impact. The campaign ended August 31, 2014, and raised \$3.1 billion. These funds assist research programs, outreach programs, undergraduate academic programs, and provide unrestricted funds for deans and directors, graduate

721 The University of Texas at Austin

student support, scholarships, and many other endeavors at the university.

UT Austin was awarded \$1.13 billion in sponsored research and \$40 million in licensing of university technology over the previous two years. The university will continue to seek and generate additional external research funding in the years ahead and enhance technology transfer and commercialization.

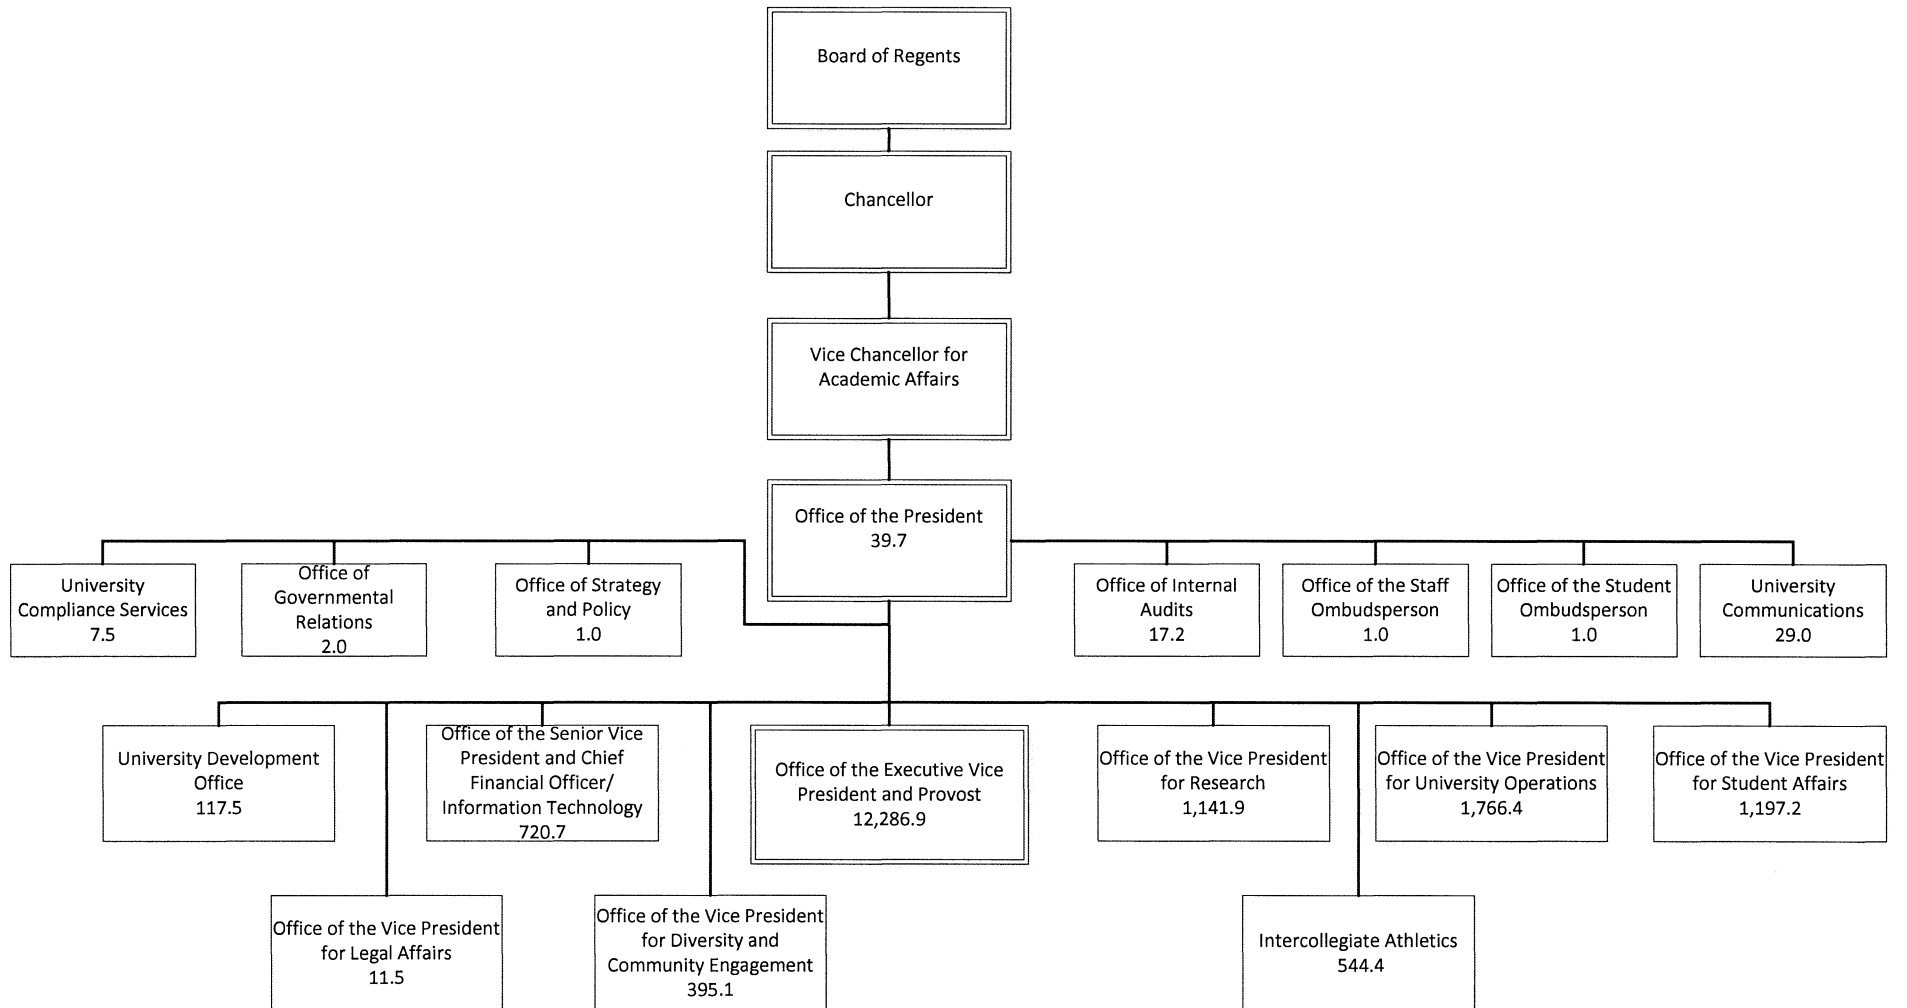

UT AUSTIN EXCEPTIONAL ITEMS

UT Austin is not requesting any new exceptional items. If funding is available to restore the 4% reduction, the \$2.9 million will be used to improve campus safety and security.

UT AUSTIN BACKGROUND CHECKS

The university conducts criminal background checks on applicants for vacant security-sensitive positions on a post-offer/pre-hire basis pursuant to Section 51.215 of the Education Code as amended. Because of ease of access to students, the university has declared all of its positions as security-sensitive.

The University of Texas at Austin
 FY 15-16 General Organization Chart with Full-Time Equivalents

The University of Texas at Austin Descriptions of Functional Units

Board of Regents – Governing body for The University of Texas System. It is composed of nine Regents and one Student Regent who are appointed by the Governor and confirmed by the Senate.

Chancellor – The Chancellor is the chief executive officer of The University of Texas System. The Chancellor reports to and is responsible to the Board of Regents. The Chancellor heads the System Administration, which is used by the Board to exercise its powers and authorities in the governance of the U. T. System. The Chancellor has direct line responsibility for all aspects of the U. T. System’s operations.

Vice Chancellor for Academic Affairs – Works regularly with the presidents of the nine academic institutions, ensuring that the missions of the institutions are advanced and that appropriate plans and programs are developed and implemented. The responsibilities of the office include oversight of administrative and policy issues related to the general academic institutions and monitoring a wide range of issues related to higher education policies and practices.

Office of the President - The President is the chief executive officer of the University and exercises broad delegated authority for campus administration.

University Compliance Services – A service organization dedicated to assisting all University employees by offering training and assistance in compliance-related matters.

Office of Governmental Relations – Assist University administration in working with the Texas Legislature on matters of higher education policy and budget issues.

Office of Strategy and Policy – Leads strategic higher education policy analysis and develops national, state and institutional policy options and institutional initiatives in line with the University’s thematic priorities.

Office of Internal Audits - A service organization dedicated to assisting managers at all levels in the effective discharge of their duties and managing internal controls to successfully achieve their department's as well as the University's goals and objectives.

Office of the Staff Ombudsperson – Assists in resolving staff problems, concerns, and complaints. Also helps University officials including faculty, and administration by providing information and problem solving.

Office of the Student Ombudsperson – Assists in resolving student problems, concerns, and complaints. Also helps University officials including faculty, staff, and administration by providing information and problem solving.

University Communications – Facilitates media relations, University marketing and creative services, University events, digital content and filming guidelines.

Office of the Executive Vice President and Provost - Secures the vitality of the University's academic life, fosters the intellectual well-being of students, staff and faculty, and marshals and allocates resources in support of academic excellence.

University Development Office - Supports the University's fundraising efforts, working closely with the university's deans and program directors.

Office of the Vice President for Legal Affairs - The chief legal officer of the University.

Office of the Senior Vice President and Chief Financial Officer/ Information Technology - Manages and maintains the financial operations of the University. The Information Technology office delivers secure, responsive, high-quality, customer-oriented technological services and support that foster a productive academic and research environment for the students, faculty and staff.

Office of the Vice President for Diversity and Community Engagement – Promotes diversity within the University and develops strategies to connect intellectual resources of the University to communities across Texas.

Office of the Vice President for Research - Coordinates research throughout the University and handles applications for research funding, coordinates strategic areas of research focus and tracks guidelines and regulations governing research.

Office of the Vice President for University Operations - Strives daily to enhance The University of Texas at Austin’s safety and physical infrastructure, and is dedicated to providing the myriad of support services that make this learning community one of the greatest places to study, work, create and grow in the world.

Office of the Vice President for Student Affairs - Facilitates students’ discovery of self and the world in which they live while enhancing students’ educational experiences through programs and services that support academic success. Student Affairs builds communities, both real and virtual, that encourage inclusiveness, invite communication and add to the cultural richness of the University. Student Affairs focuses on personal growth for including leadership development, problem solving, career decision-making, and group learning that challenges students to work both independently and as part of a team.

Intercollegiate Athletics - Provides opportunities and support for University student-athletes to achieve academically and compete athletically at the highest level, and provide programming and resources that help prepare them with skills for life.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

TOTAL, METHOD OF FINANCE (EXCLUDING RIDERS)					\$0	\$0
FULL TIME EQUIVALENT POSITIONS:		16.0	15.3	15.3	0.0	0.0

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The University of Texas at Austin will organize a consortium of universities from multiple university systems and community colleges to establish a statewide program to create and deploy modular courses to improve college readiness, reduce the need for developmental education, and improve student success. The courses will incorporate college readiness assignments based on the state college and career readiness standards that have been developed and field tested by faculty and instructional support staff from Texas A&M University, the University of Texas at Austin, public junior colleges, and public school districts. The courses should use diagnostic assessments and advanced technology to determine student's specific needs, include open-source instructional materials, include professional development institutes and online resources for instructors, and incorporate the best available research about how students learn complex material.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Briscoe-Garner Museum (formerly known as the John Nance Garner Museum), a division of the Briscoe Center for American History, serves to fulfill the university's public service mission by promoting the use of the Center's collections, exhibits and programs to students, teachers, scholars, and the general public for research, teaching and education. John Nance Garner of Uvalde, Texas (1868-1967), was the first Texan to serve as Speaker of the U.S. House of Representatives (1931-33) and Vice President of the U.S. (1933-41). Uvalde rancher and businessman Dolph Briscoe (1923-2010) served in the Texas legislature (1949-1957) and as governor (1973-1979).

STRATEGY DESCRIPTION AND JUSTIFICATION:

To conduct research and disseminate information about Texas industries as a service to the state. Bureau of Business Research (BBR) trains graduates in research methods. BBR supports both the educational and research missions of the university. It trains undergraduate and graduate students in research methods and allows students to apply theory to current economic problems, using actual data. BBR provides research opportunities not only to graduate students but also to research staff, faculty, and other research professionals. Ultimately, research projects identify strategies to improve business performance and maintain a climate in which industries can compete and grow. Information development projects benefit both the institution and business community at large.

 STRATEGY: 6 Center for Advanced Studies in Astronomy - HET(Hobby-Eberly Telescope) Service: 21 Income: A.2 Age: B.3

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The mission of the Center for Advanced Studies in Astronomy is:
 (i) to operate the Hobby-Eberly Telescope (HET) on behalf of the HET consortium comprising UT Austin, Penn State University, Ludwig-Maximilians-Universität Munich and Georg-August-Universität Göttingen;
 (ii) to catalyze construction of astronomical telescopes and instrumentation for observational research;
 (iii) to advance humanity's understanding of the Universe through forefront observational research in astronomy;
 (iv) to promote public education in astronomy through professional publications, public programs, and educational media.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Additional information for this strategy is available in Schedule 9, Special Item Information.

STRATEGY DESCRIPTION AND JUSTIFICATION:

To analyze public policy issues salient to the State of Texas through graduate-level seminars and research support of graduate students and faculty. The activities undertaken support the public service, educational training of students, and faculty support missions of the institution. Through the graduate-level seminars and the provision of support to students, the Irma Rangel Public Policy Institute has allowed students firsthand involvement in the design and implementation of policy research projects. In addition, faculty have been provided assistance and professional support. The products and activities generated have contributed to the understanding of policy issues salient to the State.

------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Voces Project has two main missions: to train and educate the general public, and educators, on best practices of oral history and other research/publication work and to create primary source materials, mostly videotaped oral history interviews about the U.S. Latinos experience. The archives are housed at the Nettie Lee Benson Latin American Collection and the Center for American History at UT Austin. The mission of the project expanded in 2009-2010 to include the Latino Korean and Vietnam War generations and further to capture a broader overview of the U.S. Latino experience. Its activities include: developing high-quality primary resource materials for use by scholars, journalists, and the general public. The core mission is to create a better awareness of the contributions and experiences of U.S. Latinos, which are often omitted from general historical and contemporary treatments.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas Research University Fund provides funding to The University of Texas at Austin and Texas A&M University to support faculty to ensure excellence in instruction and research. A legislatively determined amount of funding is allocated based on each institution's average research expenditures for the previous three-year period as reported to the Higher Education Coordinating Board. FY 2015 is the final year of existence for the RDF. The purpose of these funds is to promote research capacity.

4.A. Exceptional Item Request Schedule
 85th Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/18/2016
 TIME: 10:20:46AM

Agency code: 721

Agency name:
The University of Texas at Austin

CODE	DESCRIPTION	Excp 2018	Excp 2019
	Item Name: Restoration of the 4% non-formula reduction Item Priority: 1 IT Component: Yes Anticipated Out-year Costs: Yes Involve Contracts > \$50,000: Yes Includes Funding for the Following Strategy or Strategies: 03-05-01 Exceptional Item Request		
OBJECTS OF EXPENSE:			
2009	OTHER OPERATING EXPENSE	1,456,206	1,456,206
	TOTAL, OBJECT OF EXPENSE	\$1,456,206	\$1,456,206
METHOD OF FINANCING:			
1	General Revenue Fund	1,456,206	1,456,206
	TOTAL, METHOD OF FINANCING	\$1,456,206	\$1,456,206
FULL-TIME EQUIVALENT POSITIONS (FTE):		20.00	20.00

DESCRIPTION / JUSTIFICATION:

As a globally distinguished research institution situated in a fast growing metropolitan city, The University of Texas at Austin must continuously evaluate its security programs. The Texas Department of Public Safety (DPS) completed a security assessment and recommended several measures to mitigate vulnerabilities and improve security.

If funds are available to restore the 4% reduction, the funds will be used to address the DPS security assessment recommendations including:

- Additional public safety staffing, including more University of Texas Police Department officers and security guards who can assist with campus patrols.
- Upgrading of video surveillance systems.
- Better lighting in many areas, and clearing of excessive vegetation and overgrowth to increase visibility.
- Development of policies and building access controls to mitigate against criminal transients and others that jeopardize a campus environment critical to the success of our mission.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: We will coordinate with City of Austin Police and the Department of Public Safety to improve campus safety and security. The University expects to implement the recommendations from the Department of Public Safety over the next two years.

Year established and funding source prior to receiving special item funding:

Formula funding:

Non-general revenue sources of funding:

Consequences of not funding:

4.A. Exceptional Item Request Schedule
 85th Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/18/2016
 TIME: 10:20:46AM

Agency code: 721

Agency name:

The University of Texas at Austin

CODE	DESCRIPTION	Excp 2018	Excp 2019
------	-------------	-----------	-----------

DESCRIPTION OF IT COMPONENT INCLUDED IN EXCEPTIONAL ITEM:

Video monitoring and surveillance systems will require IT to interface with law enforcement, building management and storage systems. Building access control systems will require IT to interface with building management systems.

IS THIS IT COMPONENT RELATED TO A NEW OR CURRENT PROJECT?

NEW

PROPOSED SOFTWARE EXAMPLES (Client-side, server-side, Midrange and Mainframe)

Decisions have not yet been made on software, since the DPS report was just received. A workgroup will be evaluating software needs and making recommendations for any IT software and interfaces needed.

PROPOSED HARDWARE EXAMPLES (Desktop, Laptop, Tablets, Servers, Mainframes, Printers and Monitors)

Specific video surveillance equipment has not yet been determined.

DEVELOPMENT COST AND OTHER COSTS

The specific development costs for IT support have not yet been determined and analysis is in process based on the DPS report.

TYPE OF PROJECT

Security

ALTERNATIVE ANALYSIS

If the IT solution that is ultimately decided is not approved, then some of the safety and security recommendations from DPS will not be implemented.

ESTIMATED IT COST

2016	2017	2018	2019	2020	2021	2022	Total Over Life of Project
\$400,000	\$400,000	\$400,000	\$400,000	\$400,000	\$400,000	\$400,000	\$2,800,000

DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :

Anticipated out-year costs include continuing costs for salaries of increased police and security guards and continuous monitoring and upgrades to surveillance systems.

ESTIMATED ANTICIPATED OUT-YEAR COSTS FOR ITEM:

2020	2021	2022
\$1,456,206	\$1,456,206	\$1,456,206

APPROXIMATE PERCENTAGE OF EXCEPTIONAL ITEM : 10.00%

CONTRACT DESCRIPTION :

The purchase of video monitoring and surveillance systems and associated services will require contracts likely over \$50,000. Similarly, building access control systems will require contracting for purchase of equipment and services likely over \$50,000.

	Total Expenditures		20.1%		\$63,474,809	\$315,250,756		16.6%		\$61,517,032	\$371,538,601

B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained or exceeded 4 of 6, or 66% of the applicable statewide HUB procurement goals in FY 2014.

The agency attained or exceeded 3 of 6, or 50% of the applicable statewide HUB procurement goals in FY 2015.

Applicability:

All procurement goals are applicable.

Factors Affecting Attainment:

As an institute of higher education , the university expends a large amount in research areas as well as in its infrastructure support where no HUB supply sources are identified.

"Good-Faith" Efforts:

Based upon the criteria for "Good Faith" efforts the university met and succeeded all expectations. The university continues to make the Historically Underutilized Business and federal Small Business Program a major and integral part of its procurement activities through internal training, internal and external outreach, specialized EOFs, and creative solutions to HUB and small business concerns.

	2018	2019	Biennial Total	2018	2019	Biennial Total	
1 1 Special Items - 1st 5%							
Category: Programs - Service Reductions (Other)							
Item Comment: The special items that are not critical to the mission of the University have been reduced to zero. These initiatives that UT Austin provides to the state would no longer be available. Loss of these funds may reduce research and real world opportunities for a limited number of students and faculty. It would eliminate the services provided to external customers, including state and local agencies and private businesses. The remainder of this reduction has been proportionally spread across the mission-critical special items. These funds provide necessary support for research and instructional services not available through formula funding.

			<u>\$ 19,678,585</u>	<u>\$ 19,678,585</u>

721 The University of Texas at Austin

Special Item: 1 **Readiness Project**

(1) Year Special Item: 2012
Original Appropriations: \$3,000,000

(2) Mission of Special Item:

The University of Texas at Austin will organize a consortium of universities from multiple university systems and community colleges to establish a statewide program to create and deploy modular courses to improve college readiness, reduce the need for developmental education, and improve student success. The courses will incorporate college readiness assignments based on the state college and career readiness standards that have been developed and field tested by faculty and instructional support staff from Texas A&M University, the University of Texas at Austin, public junior colleges, and public school districts. The courses should use diagnostic assessments and advanced technology to determine student's specific needs, include open-source instructional materials, include professional development institutes and online resources for instructors, and incorporate the best available research about how students learn complex material.

(3) (a) Major Accomplishments to Date:

UT Austin organized faculty content experts from other Texas colleges, universities and system offices and teachers from over 30 districts to provide materials for 7 key entry-level college courses: Statistics, PreCalculus, Geoscience, Physics, Computer Science and two Rhetoric courses. UT delivered the advanced courses to over 5,500 Texas students. The accompanying professional development model and best-in-class online instructional materials have provided over 150 Texas public school teachers, on over 60 high school campuses, a combined 15,000 hours of training to support quality in content, pedagogy, use of technology-enhanced instruction, and teacher leadership. In 2016, to further reduce the need for developmental education in math, UT Austin broadened its proven professional development model to support teacher quality in Algebra 2 across 6 demographically diverse districts. In 2016, UT Austin and Texas Tech formed the first replication site to scale the statewide effort to create and deploy modular courses to improve readiness and success. To date, UT has awarded over 6, 400 Texas core curriculum semester credit hours contributing a potential tuition savings to students and families of over \$2,000,000. All courses use open-source instructional materials as such there are no textbook costs for students and families. In 2015, UT incorporated diagnostic assessments on college readiness and learning strategies to determine and meet students' instructional needs.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The consortium will continue to collaborate with faculty and leading national experts on the development of best-in-class course materials, adding 5 advanced college courses to the current library of customizable online materials for use in high schools, community colleges, and universities. A top priority is expanding replication sites, including finalizing existing agreements with two community colleges intent on formal partnerships with UT. We will continue to expand our professional development model to provide cutting edge instructional materials and teaching support to advance student success in the state and build capacity in our public school system. For example, the consortium will develop a dual credit and enrollment innovation fellowship with community colleges to define and diffuse course and teaching rigor and quality throughout the state. In 2016, we will serve a 123% increase in our teacher cohort and an expected 6,000 students in over 100 high schools throughout every region of the state. With continued support, we expect similar increases in 2017. Through the readiness project, the consortium expects to save students and their families more than \$2,000,000 in college costs in 2016. The consortium will leverage close collaborations with each other and with state policymakers to identify opportunities to further accelerate educational innovation and improve student success.

721 The University of Texas at Austin

(4) Funding Source Prior to Receiving Special Item Funding:

THECB, for development, revision, and field testing of college readiness assignments.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Without continued funding, new courses cannot be developed and new replication sites to support the diffusion of quality and rigor for dual enrollments students in community colleges, other universities, or system entities outside of UT Austin and Texas Tech cannot be supported or formed. The ability to serve more students, teachers, and districts will be severely limited and existing growth will be stalled. Costs to students to participate in high-quality dual enrollment projects may rise, which will limit access to proven college cost-saving models. Continued funding will ensure additional high-quality instructional materials and the scaling of a proven professional development model to advanced and support teacher quality for hundreds of teachers throughout the state.

721 The University of Texas at Austin

Special Item: 2 Voces Oral History Project

(1) Year Special Item: 2002
Original Appropriations: \$100,000

(2) Mission of Special Item:

The Voces Project has two main missions: to train and educate the general public, and educators, on best practices of oral history and other research/publication work and to create primary source materials, mostly videotaped oral history interviews about the U.S. Latinos experience. The archives are housed at the Nettie Lee Benson Latin American Collection and the Center for American History at UT Austin. The mission of the project expanded in 2009-2010 to include the Latino Korean and Vietnam War generations and further to capture a broader overview of the U.S. Latino experience. Its activities include: developing high-quality primary resource materials for use by scholars, journalists, and the general public. The core mission is to create a better awareness of the contributions and experiences of U.S. Latinos, which are often omitted from general historical and contemporary treatments.

(3) (a) Major Accomplishments to Date:

The project has organized several major national conferences. Its most recent one on the University of Texas at Austin campus in November 2015, focused on Latinos, the Voting Rights Act and Political Engagement. It has provided free oral history training workshops throughout the country. Its most recent one attracted a capacity audience of 45 participants from throughout Texas, and from three other states. The project continues to conduct interviews, some by UT students enrolled in a class called Oral History as Journalism, and others by volunteers who adhere to the Voces specifications. To date, it has conducted over 970 videotaped interviews with Latinos and Latinas of the WWII, Korean and Vietnam War generations, and more recently civic and political engagement. Journalism students write stories from the interviews. The project has scanned at high resolution thousands of photographs of the individuals interviewed. It has produced five books. Its interviews have provided material for three original plays based on the World War II period: one in 2006 in cooperation with Arizona State University; another one in 2009 written by students at Texas A&M University-Kingsville in 2009; and a third in 2014 in Portland, Oregon. The project has developed and makes available free on its website educational materials for grades 5-8, and has created audio slide shows, narrated podcasts and continued to develop 5-minute short documentaries as ways of extending interest to new audiences.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Based on the success of the May 28, 2016 workshop, Voces will begin hosting annual two-day workshops to train the general public in different writing, oral history and multimedia skills. Voces has also been working on creating a new U.S. Latina and Latino Oral History Journal, in collaboration with the University of Texas Center for Mexican American Studies, which will own it. The journal will be published by the University of Texas Press. Voces also intends to hold a summer oral history workshop for graduate students and professors at its UT campus to train academics on best practices.

(4) Funding Source Prior to Receiving Special Item Funding:

Grants from foundations and corporations, as well as donations from individuals. Largest grant (May 1999) was for 36,500 (A.H. Belo Corp. Foundation) to plan conference.

(5) Formula Funding:

N

721 The University of Texas at Austin

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

FY 2015-16 \$6,295 Gifts

(9) Consequences of Not Funding:

Without funding, the project will have no staff to coordinate, conduct, and process new interviews, coordinate volunteers, plan and coordinate events, including the planned workshops. In addition, the project will not be able to provide resources to journalists, students and scholars seeking leads, interviews, photos. The only person working on the day-to-day work of the project will be the project director, who teaches full time, raises money for the project, and directs all aspects of the program.

721 The University of Texas at Austin

Special Item: 3 **Texas Natural Science Center**

(1) Year Special Item: 1935
Original Appropriations: \$225,000

(2) Mission of Special Item:

To serve the citizens of Texas through exhibition of biological, paleontological and geological specimens collected in Texas or that represent Texas' natural history past and present; to provide curricula enhancement to visiting K-12 teachers and students in biology, geology, and paleontology.

(3) (a) Major Accomplishments to Date:

From September 2014 through June 2016, staff provided hands-on training for 103 K-12 classroom, homeschool and informal science teachers on topics such as biodiversity and the environment, wildlife conservation, Texas ecosystems, fossils, and geological time. During this time period, TMM offered eight special free-admission events for the public, including: Identification Day, National Fossil Day, Texas Wildlife Day, Explore UT, and School's Out for Summer. New curriculum guides and activities were created and made available on our website in Fall 2015. Volunteer educators were trained to staff the Paleo Lab, where visitors are encouraged to interact with and ask questions while seeing first-hand how fossils are properly prepared, cataloged, and studied. More than 47,000 people visit TMM annually, including school groups from more than 60 Texas cities. During the last two years TMM has successfully made the adjustment to fee-based admission in response to a cut in University funding. This year the museum has benefitted from a one-time donation from the Still Water Foundation for operational support during the free-to-fee transition.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Based on past performance over the last two years with fee-based admission, we expect 91,000 visitors from about 60 cities and towns across area. We expect to host four special events per year, Identification Day and National Fossil Day in the fall, and Explore UT and School's Out for Summer in the spring. We will continue to develop K-12 curriculum resources that align learning from exhibits with Texas' standardized testing needs for teachers and students. We expect to complete the transformation of former retail space into a Discovery Room, a welcoming place for families to extend their exploration of TMM's exhibits.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

721 The University of Texas at Austin

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$58,500	Private Gifts/Earned Interest
	\$100,000	Other Revenue
FY 2016-17	\$3,500	Private Gifts/Earned Interest
	\$70,000	Other Revenue
FY 2017-18	\$3,500	Private Gifts/Earned Interest
	\$70,000	Other Revenue
FY 2018-19	\$3,500	Private Gifts/Earned Interest
	\$70,000	Other Revenue

(9) Consequences of Not Funding:

Exceptional Item funding provides about 60% of our projected revenue in each of the next two fiscal years. Loss of Exceptional Item funding would leave us with a skeleton staff (security guard and visitor services manager) and nothing else. We would have to further reduce hours. There would be no educational programming, no volunteer program (no one to train or manage volunteers), and no updated curriculum resources or workshops for K-12 educators. There would be no free public event days and the Paleo Lab will be closed. Our web presence would be minimal. That level of staffing will lead to significant deterioration and irrelevance of exhibits and eventual closing.

721 The University of Texas at Austin

Special Item: 4 **Bureau of Economic Geology**

(1) Year Special Item: 1909
Original Appropriations: \$3,500

(2) Mission of Special Item:

Conduct global basic and applied research in geosciences, energy and water resources, and the environment; interface between academia, industry and government.

(3) (a) Major Accomplishments to Date:

We leverage state investment with external federal, state, industry and foundational grants and contracts. Research ranges from applied to basic and includes oil (advanced recovery), natural gas (national leader in unconventional gas), geothermal, subsurface Nano sensors Advanced Energy Consortium is an international leader), Center for Energy Economics, carbon sequestration (nation's leading program), aquifer modeling, groundwater and surface water interactions, impact of energy on water, coastal processes, and natural hazards. The Bureau's industrial associates programs are supported by over 70 companies worldwide and cover 10 fundamental discipline areas. Approaches are often computation heavy and incorporate state of the art computer hardware and software. Bureau research is global, the research staff diverse (some 25 nations represented on permanent staff), and findings are brought back and applied to Texas. In addition, we operate the nation's leading subsurface core and cuttings facilities in Austin, Houston and Midland.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

We will continue to lead the nation in applied energy and environmental geoscience-based research. Our airborne geophysics program continues its growth in coastal processes, hazards, and groundwater research. Our unconventional reservoir (oil and natural gas) projects continue to expand and provide cutting edge results to meet the needs of the huge Shale Oil and Gas plays developing around the state. In the coming two years we also anticipate to complete a new book on Texas Geology. The book will fill a huge gap in Texas resource education that has existed for years. The book will be used by the general public, the students of Texas and industry.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

721 The University of Texas at Austin

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$9,000,000	Federal Funds
	\$2,000,000	State IAC's
	\$11,500,000	Private Foundation & Industry
	\$650,000	Other Revenue
FY 2016-17	\$9,000,000	Federal Funds
	\$2,000,000	State IAC's
	\$11,500,000	Private Foundation & Industry
	\$650,000	Other Revenue
FY 2017-18	\$9,000,000	Federal Funds
	\$2,000,000	State IAC's
	\$11,500,000	Private Foundation & Industry
	\$650,000	Other Revenue
FY 2018-19	\$9,000,000	Federal Funds
	\$2,000,000	State IAC's
	\$11,500,000	Private Foundation & Industry
	\$650,000	Other Revenue

(9) Consequences of Not Funding:

The Bureau of Economic Geology is an organized research unit of UT and the State Geological Survey. Its work is critical to the development of Texas energy, water and mineral resources and protection and management of the Texas environment. The Bureau cannot be funded through existing general elements of institutional cost. Any cuts in the Bureau's Line Item would have tremendous negative impact on raising external funds, managing core and log libraries, technical support of Texas agencies, production of oil and gas in Texas and associated tax and royalty revenues, water resource understanding, carbon storage research, student training and public outreach.

721 The University of Texas at Austin

Special Item: 5 **Bureau of Economic Geology - STARR**

(1) Year Special Item: 2014
Original Appropriations: \$4,950,000

(2) Mission of Special Item:

Companies increased production of natural resources including oil, gas and geothermal by partnering with BEG to provide geological and engineering research expertise. Increased general revenue to Texas from this increase in production. Provide decision makers with economic analyses of energy and environmental options.

(3) (a) Major Accomplishments to Date:

Provided return on state investment from 3X to 15X in each biennium of the program, verified by established process with the Comptroller's office. Successful partnering with more than 40 energy producing companies whereby STARR expertise provided documented increases in oil and gas production. Discovered and published the general theory of shale organic hosted porosity now universally used by the industry.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

We will continue to lead the nation in applied energy and environmental geoscience-based research. The Oil and Gas section's major objective is to increase severance tax income for the State of Texas by means of research projects that promote the drilling of profitable oil and gas wells in the State. Our airborne geophysics program continues to provide important findings in coastal processes, hazards, and groundwater resources, and our water/energy research allows longer-term planning that reduce water impacts from oil and gas operations. Our unconventional reservoir (oil and natural gas) projects continue to expand and provide cutting edge results to meet the needs of the huge shale Oil and Gas plays developing around the state. The new book on Texas Geology is being published now. The book will fill a huge gap in Texas resource education that has existed for years. The book will be used by the general public, the students of Texas, and industry.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

Non-general revenue sources of funding for the Bureau of Economic Geology are shown with the Bureau's special item information. The STARR program is shown separately here as a "Revenue Neutral" program for the State of Texas.

721 The University of Texas at Austin

(9) Consequences of Not Funding:

STARR is a revenue neutral program. Without this funding, the incremental increases to oil and gas production realized in past biennia would not have been achieved. A reduction in severance tax revenue of approximately \$10 million to \$50 million would likely occur. In addition the first commercial energy production of geothermal along the Gulf Coast might be jeopardized, particularly if rates of hot water production are less than anticipated.

721 The University of Texas at Austin

Special Item: 6 Center for Public Policy Dispute Resolution

(1) Year Special Item: 1996
Original Appropriations: \$267,000

(2) Mission of Special Item:

The Center for Public Policy Dispute Resolution (the Center or CPPDR) was created in 1993 to promote the appropriate use of alternative dispute resolution (ADR) by Texas governmental and public interest entities. The Center provides ADR services, education, and skill-building trainings to state, regional, and local entities, as well as The University of Texas community and the public, to foster collaborative and problem-solving approaches to resolving tough issues. The Center is located at The University of Texas School of Law.

(3) (a) Major Accomplishments to Date:

Provided expert resources to Legislature during drafting of seminal ADR statutes in Texas; Published Texas ADR Legislative Reports & "How To" ADR series for public and government; Assisted Sunset Commission with integration of ADR provisions in sunset agency reviews; Identified as resource in statutes for ADR assistance, including for groundwater & regional water planning; Provides facilitation services to governmental entities that seek public input in decision-making, notably to stakeholder groups designing scientific instream flow studies (SB2 2001), stakeholder committees developing environmental flow standard recommendations to TCEQ (SB3 2007), stakeholders making recommendations to TxDOT for Regionally Coordinated Transportation Planning, and stakeholders working with agencies (such as TPWD and DADS) to develop and make recommendations on draft rules; Mediated major water planning conflict between two regional water planning groups; Administered the UT Graduate Portfolio Program in DR; Supports the Law School's ADR curriculum by teaching negotiation, mediation, and environmental conflict resolution; Conducts biennial ADR training for legislators and statewide executive policy makers (Fellows Program); Provides ADR training to the public and customized ADR training to governmental and public interest entities, such as legislative staff, UT Austin, TxDOT, TEA, TRS, OIEC, and the City of Austin.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Publish report on the frequency of use and efficiency of ADR processes in Texas state agencies based on data collected through online survey; Follow-up on ADR in State Agencies Report with educational ADR dialogues with and among state agencies; Facilitate stakeholder groups involved in nonpoint source pollution control planning and implementation; Participate on leadership/facilitation team of Texas Water Research Network to help researchers from multiple universities coordinate among themselves and with policy-makers on Texas water-related issues; Identify use and efficiency of ADR processes at UT-Austin: coordinate with campus staff who use ADR to sponsor campus conversations to gauge awareness of ADR and consider opportunities for new applications; Research and partner with restorative justice leaders in Texas to explore how restorative justice can influence conflict in communities and the juvenile justice system; Develop customized collaborative problem-solving trainings to respond to governmental entity and UT-Austin demand; Continue to work with UT Law faculty on a sustainable ADR curriculum to support needs of students and the legal community; Convene and provide neutral forum to address identified, controversial policy issues through collaborative processes.

(4) Funding Source Prior to Receiving Special Item Funding:

1993 Three-year grant from National Institute for Dispute Resolution - Texas was the last state to get this type of grant to establish state dispute resolution center; small private gift.

721 The University of Texas at Austin

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$39,400	Contracts for Services
	\$50,000	Training
FY 2016-17	\$39,400	Contracts for Services
	\$50,000	Training
FY 2017-18	\$39,400	Contracts for Services
	\$50,000	Training
FY 2018-19	\$39,400	Contracts for Services
	\$50,000	Training

(9) Consequences of Not Funding:

- (i) Loss of only statewide resource & support for the use of ADR in public policy disputes - Center is specifically identified in Sunset Commission ADR recommendations, Governmental Dispute Resolution Act, Ch. 2009, and the Negotiated Rulemaking Act, Ch. 2008, Tex. Gov't Code, among others;
 - (ii) Loss of state link & policy support to other Texas university ADR centers, national ADR and legal organizations and entities, private practitioner community, and community dispute resolution centers in Texas;
 - (iii) Loss of statewide, neutral platform to convene stakeholders and provide environment for deliberation;
 - (iv) Loss of low cost ADR consultation, trainings, and ADR services for governmental entities;
 - (v) Loss of faculty for ADR curriculum at UT law school.
-

721 The University of Texas at Austin

Special Item: 7 **Irma Rangel Public Policy Institute**

(1) Year Special Item: 1995
Original Appropriations: \$225,000

(2) Mission of Special Item:

To analyze public policy issues salient to the State of Texas through graduate-level seminars and research support of graduate students and faculty. The activities undertaken support the public service, educational training of students, and faculty support missions of the institution. Through the graduate-level seminars and the provision of support to students, the Irma Rangel Public Policy Institute has allowed students firsthand involvement in the design and implementation of policy research projects. In addition, faculty have been provided assistance and professional support. The products and activities generated have contributed to the understanding of policy issues salient to the State.

(3) (a) Major Accomplishments to Date:

The implementation of research projects and surveys that examined salient policy issues in Texas; the production of policy-oriented books, articles, and papers; the support and training of graduate students; and the sponsoring of conferences and other events and programs.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continue the publication of books, articles, and papers. Launch new research projects that will examine salient policy issues in the State, especially on topics relevant to the growing Hispanic population. Continue to provide support to graduate students and faculty, sponsor conferences and speakers on policy-related topics, seek external resources to supplement funding, respond to media requests for information, extend our collaboration with other Texas universities, and support Texas public opinion surveys.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$400	Publications
	\$23,600	Research Support

Schedule 9: Special Item Information
85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/18/2016 10:20:59AM

721 The University of Texas at Austin

	\$31,500	Other Revenue
FY 2016-17	\$400	Publications
	\$23,600	Research Support
	\$31,500	Other Revenue
FY 2017-18	\$400	Publications
	\$23,600	Research Support
	\$31,500	Other Revenue
FY 2018-19	\$400	Publications
	\$23,600	Research Support
	\$31,500	Other Revenue

(9) Consequences of Not Funding:

First, the number of graduate students and faculty that receive assistance would be greatly reduced. Second, the policy-relevant research produced by faculty and graduate students would not be available to policy, governmental, and academic audiences, especially research relevant to Hispanic populations. Third, the anticipated external support generated on the basis of the special funding would not come to Texas or the institution.

721 The University of Texas at Austin

Special Item: 8 Briscoe-Garner Museum

(1) Year Special Item: 2001
Original Appropriations: \$50,000

(2) Mission of Special Item:

The Briscoe-Garner Museum (formerly known as the John Nance Garner Museum), a division of the Briscoe Center for American History, serves to fulfill the university's public service mission by promoting the use of the Center's collections, exhibits and programs to students, teachers, scholars, and the general public for research, teaching and education. John Nance Garner of Uvalde, Texas (1868-1967), was the first Texan to serve as Speaker of the U.S. House of Representatives (1931-33) and Vice President of the U.S. (1933-41). Uvalde rancher and businessman Dolph Briscoe (1923-2010) served in the Texas legislature (1949-1957) and as governor (1973-1979).

(3) (a) Major Accomplishments to Date:

Cactus Jack: Lone Star on Capitol Hill, a nationwide PBS documentary, produced by the Briscoe Center opened a permanent exhibit dedicated to former Texas Gov. Dolph Briscoe Jr. This New exhibit presented Deep in the Heart: Texas-Themed Quilts from the Winedale Quilt Collection. The new traveling exhibit also sponsored two open house events "An Evening in Old Uvalde" fundraiser for the Briscoe-Garner Museum and the John Nance Garner exhibit. The John Nance Garner exhibit educates visitors about different facets of national history and culture. The Brisco Center coordinates programs and tours with local, historical, cultural, and educational groups in the southwest Texas region. Provides information to media outlets and expands web presence of the Briscoe-Garner Museum's programs. Renovated Briscoe-Garner Museum phase III completion provides access by elevator to the museum's second floor exhibit space, and first floor handicap accessible restrooms. Completed construction of phase II renovations reinforced floor support and prevented grading to preserve foundation stability. Completed renovations stabilized the building's foundation through an extensive construction program that followed historic preservation guidelines. Renovations also provided new exhibits: The Lone Star Treasure's "Two Hundred Years of Ranching in Texas", "I Have Had No Rest since We Parted" Sam Houston's First Term as President of the Republic of Texas (1836-1838), and A Celebration of Texas Governors.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Over the next two years we will begin phase IV of museum renovations which calls for off street handicap accessible parking to be incorporated into the museum property, landscaping and grading/drainage improvements, and an irrigation system installation. We will continue to bring new exhibits to the Briscoe-Garner Museum to educate visitors about different facets of our national history and culture. Coordinate programs and tours with local historical, cultural, and educational groups in the southwest Texas region. Develop an updated curriculum guide for the Briscoe-Garner Museum to provide to educators and students. Provide information to media outlets and expand the web presence of the Briscoe-Garner Museum and its programs.

(4) Funding Source Prior to Receiving Special Item Funding:

1973 Gifts and interest from endowment.

(5) Formula Funding:

N

721 The University of Texas at Austin

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$103,977	Private Gifts/Earned Interest
FY 2016-17	\$90,000	Private Gifts/Earned Interest
FY 2017-18	\$90,000	Private Gifts/Earned Interest
FY 2018-19	\$90,000	Private Gifts/Earned Interest

(9) Consequences of Not Funding:

The original purpose of this funding was to provide exhibits, programs and educational opportunities at the Briscoe-Garner Museum and from the Briscoe Center for American History. The purpose also included funding for building renovations and improvements to protect and preserve this state and national landmark for the community and for future generations. The Briscoe-Garner Museum building, a National and Texas Historic Landmark, will deteriorate and become unsafe, resulting in the closure of the museum and the end of its educational mission. No other facility in this region of Texas provides these opportunities and services from the university.

721 The University of Texas at Austin

Special Item: 9 **Marine Science Institute-Port Aransas**

(1) Year Special Item: 1972
Original Appropriations: \$605,000

(2) Mission of Special Item:

Conduct basic and applied research, advanced graduate education, undergraduate education, and public outreach in marine science.

(3) (a) Major Accomplishments to Date:

1) New UTMSI research found that the Tree of Life is vastly larger than previously thought due to the discovery of new bacteria species. About one-third of all biodiversity on earth comes from bacteria; 2) Revealed the genetic code of how bacteria break down crude oil in the Gulf of Mexico and which bacteria are responsible; 3) Showed that the estuary-dependent red drum shows great resilience and adaptability to the high carbon dioxide levels that cause ocean acidification; 4) Discovered three new hormone receptors and potential drug candidates for treatment of prostate cancer, breast cancer, premature birth, and hypertension; 5) Determined that historical climate influence on marine and terrestrial ecosystems are more closely coupled than previously thought, and thus climate induced variability in the productivity of our most valuable natural resources are linked; 6) Developed technology to spawn and raise redfish in captivity, leading to all the TP&W restocking for the state; 7) Mapped and characterized 95% of all seagrass meadows in Texas coastal waters for the first time; 8) Brought in over \$156 million of research dollars to the state, consistently awarded grants that impact our state and national coastal environments; 9) Manages the 186,708 acre National Estuarine Research Reserve, the only Reserve in Texas, generating federal dollars to be used in Texas.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Provide significant contributions to scientific foundation for fisheries management decision-makers; Advance scientific basis for management of coastal and open ocean resources; Provide ecological impact assessment for Texas desalination program to increase freshwater supply; Identify physical and chemical stressors to marine natural resources in estuaries and coastal waters; Advise petrochemical industries and agencies on response and mitigation strategies to preserve public health and environmental well-being; Advance understanding and potential technologies for physical and biological degradation of oil in the marine environment; Catalogue Arctic ecosystem responses to changing climate and their implications for optimizing energy extraction strategies; Determine volume and frequency of freshwater inflows required for sustainable Texas estuaries.

(4) Funding Source Prior to Receiving Special Item Funding:

The University of Texas at Austin and sponsored projects.

(5) Formula Funding:

N

(6) Startup Funding:

N

721 The University of Texas at Austin

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$3,300,000	Federal Grants & Contracts
	\$140,000	State Grants & Contracts
	\$3,600,000	Private Grants & Contracts
	\$350,000	Private Gifts/Earned Interest:
	\$650,000	Other Revenue
FY 2016-17	\$3,300,000	Federal Grants & Contracts
	\$180,000	State Grants & Contracts
	\$3,600,000	Private Grants & Contracts
	\$350,000	Private Gifts/Earned Interest:
	\$650,000	Other Revenue
FY 2017-18	\$4,000,000	Federal Grants & Contracts
	\$180,000	State Grants & Contracts
	\$3,500,000	Private Grants & Contracts
	\$350,000	Private Gifts/Earned Interest:
	\$750,000	Other Revenue
FY 2018-19	\$4,000,000	Federal Grants & Contracts
	\$180,000	State Grants & Contracts
	\$3,500,000	Private Grants & Contracts
	\$350,000	Private Gifts/Earned Interest:
	\$750,000	Other Revenue

(9) Consequences of Not Funding:

Failure to fund the Marine Science Institute would terminate the Texas' first established and internationally renowned marine research Institution. Loss of special item funding would force default on federal and private research grant commitments totaling approximately 8M annually, and Texas' commitment to manage a major 186,708 acre Mission-Aransas National Estuarine Research Reserve headquartered at the UTMSI. It would result in significant loss of employment, UTMSI being the largest employer in Port Aransas. Failure to fund would negate support for the state's marine fish hatcheries and restocking game fish efforts. Failure to fund would also lead to a significant reduction in the State's commitment to environmental research and higher education. It would reduce the state's ability to serve the economic engines of state, and eliminate an emergency response capability in the event of environmental catastrophes in Texas and greater Gulf of Mexico waters.

721 The University of Texas at Austin

Special Item: 10 **Institute for Geophysics**

(1) Year Special Item: 1972
Original Appropriations: \$1,048,093

(2) Mission of Special Item:

To provide a center for global geoscience research focusing on the structure and dynamics of the earth and its oceans and assessing resources and hazards of importance to humankind.

(3) (a) Major Accomplishments to Date:

UTIG's Scientist have accomplished the following:

Developed: first academic marine multichannel seismic program; Rapid Response program to investigate earthquakes, hurricane and tsunami hazards; NASA mission to search for life on Europa; and protocol to recover methane hydrates in Gulf of Mexico.

Established: Gulf Base Depositional Synthesis program, an ongoing academic-industry partnership in the Gulf of Mexico; PLATES program, an ongoing academic-industry partnership; 3-D marine multichannel seismic, aerogeophysical polar research and climate research programs at UT; global Marine Seismic Data Center; teacher development academies for teaching Earth and Space Science in Texas public schools; collaborative science team for space probe to Jupiter's icy moons; first offshore drilling coring project from near the center of the Chicxulub crater.

Studied: inner workings of Japanese tsunami factory; Hurricane Ike's underwater damage to Galveston; vertical motion of the bedrock in West Antarctica; giant ice cut channels beneath East Antarctic ice sheet; cause of 2004 major tsunami-generating earthquake in Sumatra; major west Antarctic glacier melting from below by geothermal heat; evidence for "great lake" on Jupiter's moon Europa; frequency of large earthquakes in western Solomon Islands; and erosion of Alaskan mountains by glaciers.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

New gravity and radar capabilities to enhance research expertise in polar and planetary geophysics; improved models and techniques for seismic imaging of the subsurface; and enhancement of collaborative research with geophysical colleagues in Mexico.

(4) Funding Source Prior to Receiving Special Item Funding:

UTMB Galveston (FY73) and UT Austin appropriation

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

721 The University of Texas at Austin

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$10,623,872	Federal funds
	\$2,565,724	Industry funds
	\$250,000	Private grants
	\$1,714,857	Other Revenue
FY 2016-17	\$10,305,158	Federal funds
	\$2,642,696	Industry funds
	\$250,000	Private grants
	\$1,766,303	Other Revenue
FY 2017-18	\$9,996,003	Federal funds
	\$2,721,977	Industry funds
	\$250,000	Private grants
	\$1,819,292	Other Revenue
FY 2018-19	\$9,696,123	Federal funds
	\$2,803,636	Industry funds
	\$250,000	Private grants
	\$1,873,871	Other Revenue

(9) Consequences of Not Funding:

UTIG is an internationally recognized research organization that initiates and carries out major seagoing and airborne geophysical data acquisition programs, involving students in all aspects of these projects. UTIG leverages state investment to obtain external federal and industry grants and contracts. Successfully carrying out these major expeditionary programs requires a stable, highly professional staff of scientists and technical support personnel. Without state support, UTIG could not hire and retain these individuals and fund the infrastructure needed to carry out complex field based research programs and practical student training in the geosciences. UTIG research is critical to understanding the dynamic earth and its oceans and assessing resources and hazards of importance to society.

721 The University of Texas at Austin

Special Item: 11 Bureau of Business Research

(1) Year Special Item: 1926
Original Appropriations: \$1

(2) Mission of Special Item:

To conduct research and disseminate information about Texas industries as a service to the state. BBR trains graduates in research methods.

BBR supports both the educational and research missions of the university. It trains undergraduate and graduate students in research methods and allows students to apply theory to current economic problems, using actual data. BBR provides research opportunities not only to graduate students but also to research staff, faculty, and other research professionals. Ultimately, research projects identify strategies to improve business performance and maintain a climate in which industries can compete and grow. Information development projects benefit both the institution and business community at large.

(3) (a) Major Accomplishments to Date:

The Bureau has contributed more than 150 studies of Texas industries in its 90 years of service. Known for its objective, nonpartisan research. The Bureau's current projects focus on high technology, entrepreneurship, international trade, and all crucial aspects of the Texas economy. The Bureau's applied research has real and immediate applications that businesses can use to enhance competitiveness. The Bureau continues to be a State Data Center Affiliate and a resource for companies, trade associations, economic development entities, and policymakers. In 2015, the Bureau expanded its economic research to include projects related to the impact of human trafficking and campus sexual assault and began a new initiative in evaluating the impact of identity theft on Texas consumers and businesses. Major new projects underway in 2016 include a study on the economic impact of forces under the Texas Military Department, and a national study on the impact and scope of the Direct Selling Association's member companies.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Study on economic impact of technology incubators and accelerators; more research initiatives into minority-owned businesses in Texas; more studies on human trafficking and campus sexual assault.

(4) Funding Source Prior to Receiving Special Item Funding:

Note. The original appropriation amount is not available, so \$1 was used per recommendation from the Legislative Budget Board on 2010 special item survey.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

721 The University of Texas at Austin

(8) Non-general Revenue Sources of Funding:

FY 2015-16 \$391,000 Other Revenue
FY 2016-17 \$270,000 Other Revenue
FY 2017-18 \$290,000 Other Revenue
FY 2018-19 \$310,000 Other Revenue

(9) Consequences of Not Funding:

Loss of research capacity; loss of research opportunities for 8 student assistants (6 undergraduates, 2 graduate students); loss of external dollars attracted by research and service programs.

721 The University of Texas at Austin

Special Item: 12 **McDonald Observatory**

(1) Year Special Item: 1933
Original Appropriations: \$1

(2) Mission of Special Item:

The mission of McDonald Observatory is to advance humanity's understanding of the universe through research in astronomy, to facilitate graduate and undergraduate education in astronomy at The University of Texas at Austin, to contribute to the public understanding of science in Texas and the nation, and to use astronomy as a tool to help Texas teachers meet state standards and excite Texas school children about careers in a scientific and technical field.

(3) (a) Major Accomplishments to Date:

Construction of the McDonald Observatory's principal telescopes - the 82-inch in 1930, the 107-inch in 1969, and most notable, the 432-inch Hobby-Eberly Telescope (HET) in 1999, the telescope with the world's largest primary mirror.

Research on a variety of fundamental questions in astronomy undertaken on these telescopes by Texas faculty, research scientists, postdocs, and graduate students contributes greatly to the high ranking of UT among US astronomy programs. Noteworthy are the Observatory's efforts in the fields of education and outreach, areas in which we are preeminent in the world. In 2002, the Frank N. Bash Visitors' Center at McDonald, opened and now serves 70,000 visitors a year. The Center is the focus for our highly regarded K-12 teachers' workshops, school visits, and videoconferences to classrooms across the state. Our outreach efforts also include the daily radio program StarDate and the StarDate magazine. Education and outreach activities are privately funded.

Research highlights of the past decade include the discovery and characterization of planets around other stars, studies of the most metal-poor, and thus oldest stars in the Milky Way, pioneering observations of stars at the end of their lives as white dwarfs or supernovae, studies of the stellar populations in the Milky Way, and novel observations of nearby and distant galaxies to constrain dark energy and dark matter.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

HET upgrade dedication ceremony. Commissioning new Low Resolution Spectrograph (LRS2), which will obtain spectra of several types of astronomical targets. Upgrading High Resolution Spectrograph (HRS) to assist in producing high-precision radial velocities for exoplanet studies. Deploy the remaining 62 of 78 Visible Integral-Field Replicable Unit Spectrographs (VIRUS), which are comprised of two spectrographs fed by a 448-fiber integral field unit to increase data acquisition, data archiving, and data analysis through the university's Texas Advanced Computing Center, which has created a great excitement among the many Texas scientist and scientist worldwide.

(4) Funding Source Prior to Receiving Special Item Funding:

None. The original appropriation amount is not available, so \$1 was used per recommendation from the Legislative Budget Board on 2010 special item survey.

(5) Formula Funding:

N

721 The University of Texas at Austin

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$1,630,896	Federal Funds
	\$728,950	Private & Other
	\$2,047,198	Other Revenue
FY 2016-17	\$1,663,514	Federal Funds
	\$743,529	Private & Other
	\$2,088,142	Other Revenue
FY 2017-18	\$1,500,000	Federal Funds
	\$758,400	Private & Other
	\$2,129,905	Other Revenue
FY 2018-19	\$1,600,000	Federal Funds
	\$773,568	Private & Other
	\$2,172,503	Other Revenue

(9) Consequences of Not Funding:

Without funding, one of the nation's most distinguished and productive observatories would be lost. Return on the \$30 million investment valued in the HET would be curtailed and the \$40 million enhancement provided by HETDEX would not be realized. The partnerships involved in HET and HETDEX would be broken between UT and Penn State, Munich, TX A&M, Potsdam, Oxford University and Gottingen. Other valued scientific collaborations with universities that use the McDonald telescopes or employ other telescopes at McDonald would be broken: Rice University, Texas Christian University, Texas Tech University, TX A&M and TX A&M Commerce, the UT at El Paso, Boston University, the Las Cumbres Observatory, and Gottingen. UT's participation in the design, construction, and operation of the Giant Magellan Telescope, a 24.5-meter telescope to be completed by 2021 (funding permitting) would be at risk; UT is a founding partner with Texas A&M, and other select US and international (Australia, Korea) organizations. In addition, the Austin economy would lose an estimated \$4 million in funding from non-State grants and private funding. The area around Fort Davis would lose about 60 permanent jobs. Closure of McDonald would negatively impact the tourist traffic that brings about \$8 million to Jeff Davis County. Training of K-12 teachers and students statewide to meet state standards and to excite Texas school children about careers in scientific fields would be cut, if not eliminated.

721 The University of Texas at Austin

Special Item: 13 **Center for Advanced Studies in Astronomy**

(1) Year Special Item: 1991
Original Appropriations: \$1,000,000

(2) Mission of Special Item:

The mission of the Center for Advanced Studies in Astronomy is

- (i) to operate the Hobby-Eberly Telescope (HET) on behalf of the HET consortium comprising UT Austin, Penn State University, Ludwig-Maximilians-Universität Munich and Georg-August-Universität Göttingen;
- (ii) to catalyze construction of astronomical telescopes and instrumentation for observational research;
- (iii) to advance humanity's understanding of the Universe through forefront observational research in astronomy;
- (iv) to promote public education in astronomy through professional publications, public programs, and educational media.

(3) (a) Major Accomplishments to Date:

CASA established world leadership in developing an innovative method of constructing a very large telescope using an array of smaller mirrors: the Hobby-Eberly Telescope's (HET) primary mirror at a diameter of 36' is the largest in the world. HET is undergoing an extensive upgrade to dramatically increase its field of view and power and reach of its instrumentation. The area of sky that the upgraded HET can access at a single point has increased by a factor of 120 over the original HET. HET will be one of the most capable of its generation of telescopes, poised at the frontier of astronomical frontiers such as dark energy, cosmology, exoplanet astronomy, and galaxy evolution. Discoveries with the HET include extraordinary findings about

- (i) planets around other stars and lower-mass planets in coordination with NASA's space-based Kepler telescope;
- (ii) supermassive black holes in the centers of galaxies;
- (iii) maps of dark matter in galaxies where dark matter greatly dominates the more conventional matter such as stars and gas;
- (iv) the most luminous exploding stars (supernovae) ever discovered and insight into how these explosions occur.

CASA initiated UT Austin's HET Dark Energy Experiment (HETDEX) and participated in the Giant Magellan Telescope (GMT) project. HETDEX will address the number one question in physics--What is dark energy? The GMT will be a 24.5-meter telescope operated by a consortium consisting of TX A&M, other US and Australian and Korean institutions.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Completion and maintenance of the HET extensive upgrade that has dramatically increased both its field of view and power of reach to produce more cutting-edge astronomical data on key topics than HET has been able to produce in the last 20 years. Ongoing participation and contribution to the Giant Magellan Telescope (GMT), which will lead the world in light-gathering power and the spatial detail that it can resolve including priority scientific areas such as exoplanets, cosmology, the first stars and galaxies to form in the universe, and galaxy evolution when it comes online in 2022.

(4) Funding Source Prior to Receiving Special Item Funding:

None

721 The University of Texas at Austin

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

FY 2015-16	\$500,000	Federal Grant Funds
	\$1,000,000	HET Partner Contributions/Operating Budget
	\$500,000	Private & Other
	\$200,000	Other Revenue
FY 2016-17	\$500,000	Federal Grant Funds
	\$1,000,000	HET Partner Contributions/Operating Budget
	\$500,000	Private & Other
	\$200,000	Other Revenue
FY 2017-18	\$300,000	Federal Grant Funds
	\$1,000,000	HET Partner Contributions/Operating Budget
FY 2018-19	\$300,000	Federal Grant Funds
	\$1,000,000	HET Partner Contributions/Operating Budget

(9) Consequences of Not Funding:

Operation of the HET will cease without this Special Item. Our HET partners are unable to assume the cost of annual operations. Return on the current \$30 million and the planned HETDEX \$40 million investment in the HET will be compromised. Prestige and regard for the State and UT Austin will be lost with our HET and HETDEX partners. Opportunities for future collaborative ventures -- an increasingly common circumstance in astronomy - will be negatively impacted. Loss of operations funding will result in a loss of 22 jobs and about \$1 million to the Jeff Davis county and surrounding area. Researchers in the UT Astronomy Program will lose their most valuable competitive edge in the ever increasingly fierce competition for external funding; State funds will not be leveraged. Closure of the HET will lessen UT Austin's ability to attract top graduate students, young researchers and faculty. The flagship project HETDEX will be terminated. This UT Austin led \$40 million project involving Texas A&M is designed to answer the number one question in physics, if not in all of science -- What is Dark Energy? HETDEX has garnered national and international respect as the leading experiment in the field.
