

REQUEST FOR LEGISLATIVE APPROPRIATIONS

For Fiscal Years 2018 and 2019

Submitted to the
Governor's Office of Budget and Planning
and the Legislative Budget Board

by

Texas A&M International University

Revised October 17, 2016

CERTIFICATE

Agency Name Texas A&M International University

This is to certify that the information contained in the agency Legislative Appropriation Request filed with the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division, is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the PDF file submitted via the LBB Document Submission application are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the Governor's office will be notified in writing in accordance with Article IX, Section 7.01 (2016-17 GAA).

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

761 Texas A&M International University

The South Texas Border Region:

As the nation's largest inland port, Laredo continues to be a thriving economic engine in a region propelled by the banking, international business, and manufacturing industries. In addition to the city's remarkable growth, 35% of its population is under 18 years of age, and 82% of those 25 years and older do not hold a baccalaureate degree—their children overwhelmingly the first in their family to attend college. For these young people to prosper economically and participate fully in the life of the State of Texas, a great proportion of them must enter and finish college.

Serving a young and productive population in a rapidly growing city, Texas A&M International University, too, has shared in this rapid growth. Its enrollment has more than doubled, mushrooming since 2001 to over 7,400 students. Thanks to the State's past investment and the University's prudent use of State funds to provide academic and financial support to these students, the University has proven its ability to attract, retain, and graduate students who in decades past would not have attended or graduated from college.

The University still has much it can do to fulfill its mission of improving "...the quality of lives for the citizens of the border region" and, given adequate needed funding, will continue its success in doing so.

Student Success:

Texas A&M International University aspires to become a premier international university of choice, serving as the agent of change for the people of the region, the nation, and the world through multicultural teaching, research, and service. Beginning with an aggressive outreach initiative taking crucial strategies for enrolling and succeeding at the University to high schools throughout the South Texas region, and anchored by a broad array of programs targeting academic success and personal growth, our Student Success Program unites the coordinated efforts of peer mentors, tutors, academic and financial advisors, and counselors.

The success of our program is evident in our enrollment growth, along with our retention and graduation rates of an overwhelmingly Hispanic population, most of whom (82%) receive some form of financial aid. The first-year, total, student persistence rate holds at 87%, and the six-year graduation rate is 49.2%. Over 80% of baccalaureate graduates are employed and/or enrolled in a graduate or professional school in Texas.

The University's accessibility, affordability and value added have earned national and international accolades. TAMIU was ranked No. 1 in the nation among the "Top 10 Colleges with the Highest Hispanic Enrollment" by U.S. News and World Report; 4th for "Best Bang for the Buck" among the nation's Southern Schools by Washington Monthly Magazine and 5th in Texas among schools providing the best value for tuition dollar, while earning a grade of "A" for value added for students by Money Magazine. The Economist ranked TAMIU 9th among the nation's Top 20 Colleges and Universities (the only Texas institution in the Top 20), specifically noting how the University boosts graduates' salaries above expectation.

Community College and Expanding School District Relationships:

Texas A&M International University has built a strong relationship with Laredo Community College (LCC). From 2+2 articulation agreements which ensure that students, while at LCC, enroll in courses necessary for their degree plan, to staffing an outreach office at the LCC campus to provide one-stop services to students wishing to transfer, the University and College share the goal of student success. The University pursues aggressive outreach to these students by conducting transfer fairs which assist students with the transition to the University. A \$3.8 million Department of Education Title V Grant enhances the transfer-student process, enabling students to seamlessly transition from an associate to a baccalaureate degree. This joint grant underscores University/College shared values improving the ease and transparency

Administrator's Statement

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

761 Texas A&M International University

of the transfer process, so students maintain degree attainment focus. Participating students have earned a GPA .25 points higher than their non-participating transfer student counterparts in select, grant-focused courses. This partnership advances the educational goals of both institutions, but most importantly, those of the students.

As a regional University of choice, the University has also extended this model agreement, actively seeking new Memorandum of Understandings (MOUs) with other community colleges, including Southwest Texas Junior College (Uvalde), Alamo Colleges (San Antonio), and San Jacinto College (Pasadena).

Most importantly, the University is reaching out to future students at an even earlier juncture: Early College High Schools (ECHS). The University has been at the forefront of targeted collaborations with local and regional school districts to develop Early College High Schools. The first such partnership is the ECHS with Laredo Independent School District, located adjacent to the campus and now ranked 12th in the State and 72nd in the Nation among Best High Schools. An ECHS partnership with Freer ISD initiated in 2015 has dramatically impacted student STAARS scores in its first year of operation with students posting a 10% improvement. Finally, the third cohort for the University's Texas Academy of International and STEM Studies will be welcomed in fall 2016. The Academy was established by legislation approved by the 79th Texas Legislature, and provides an innovative, accelerated curriculum for motivated Texas high school students with research and collaborative opportunities with partners like the University of Texas Health Science Center-San Antonio.

Veterans' Affairs:

Texas A&M International University is committed to being military friendly by assisting all veterans with the transition to University life. Upon admission to the University, veterans have a one-on-one meeting with the veteran affairs coordinator to review specific degree plan requirements and University services. Thereafter, veterans are assisted each semester with the educational benefit certification process to ensure timely awarding of veteran benefits and advised of important, upcoming events and deadlines. The veteran affairs coordinator also works with Laredo Community College and other institutions of higher education to assist veterans transferring between institutions to ensure accurate and timely benefit awards.

High Priority Requests of The Texas A&M University System:

We recognize the financial situation facing the State of Texas and the difficult budget decisions that face the 85th Legislature. We also appreciate the efforts through zero-based budgeting to focus spending on the highest priority and most efficient activities that are vital investments to the future well-being of the State of Texas. As we testified last session, TAMUS has engaged in similar exercises since 2011. We have eliminated administrative positions and discontinued performing certain functions that are not core to our mission and redirected those savings to classrooms, research labs, and public service.

Even as we continue to look for ways to improve our efficiency, we must also be clear that 4% reductions to budgets that have already been diligently scrubbed and reprioritized will mean we are left to manage significant budget reductions directly impacting teaching and support services to our students; reductions to significant research projects that directly impact our State's economy; and reductions in outreach and service efforts on which many citizens and public entities depend. Although a last resort, increased tuition may have to be considered to maintain the quality of programs and services you have charged us to provide. For these reasons, we respectfully request that you restore the 4% reduction in our baseline requests for both the formula and non-formula strategies.

Base Funding – Formula funding is the foundation our institutions depend upon to provide high quality teaching and support services for growing student populations to prepare them to meet the workforce needs of this state. The teaching function of our institutions is supported by two key sources of funding: state appropriations primarily through the formulas and students' tuition and fees. Our number one priority is maintaining the current formula funding rates in the base bill and in the final conference committee bill in order to cover enrollment growth through the spring 2017 semester. Any additional funding you can provide through the formulas to

Administrator's Statement

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

761 Texas A&M International University

increase the rates to cover the cost of inflation on the state's share of the cost of educating students will help us keep our tuition and fees more manageable while also offering the courses and support services necessary to help students graduate in a timely manner.

Our A&M Agencies need base funding support much in the same manner as the formulas that provide basic, on-going support for the academics and health related institutions.

We also request support for other base funding streams be maintained at current levels, including support for research through the Texas Research University Fund and the Comprehensive University Fund and the continuation of Institutional Enhancement.

New Performance Measures – The performance measures added for higher education are important indicators for the legislature to track. We are glad to provide this outcome information. Out-year projections for these measures are held to current levels in this document. Tuition & fee charges and student debt measures are so closely connected to legislative appropriations that accurate projections for the future cannot be made at this time without a better indication of future funding amounts. However, regardless of appropriations levels, TAMUS commits to hold tuition at the lowest levels financially prudent and to look for every way to assist students in graduating well prepared, on time, and with the least debt possible.

Outcomes Based Funding - Our Board is increasingly incorporating performance and outcomes into our internal budget review processes. We welcome a continued dialog on this issue during the legislative session.

Capital – Thank you for the commitment you made to higher education last session through the increase in the Higher Education Fund and the authorization for facilities to address our critically needed classrooms and labs. We have moved forward immediately to build the critical teaching and research space you approved so we very much appreciate the policy letter exemption for appropriations needed to satisfy debt service requirements. We expect to have binding contracts on all of our projects that will require two years of debt service to ensure funding is available to satisfy those contracts. Providing the second year of debt service appropriations for the 2018-19 biennium is of the utmost importance to keep the projects on track.

Higher Education Group Health Insurance – We request funding to cover increases in enrollments and in health care costs that are beyond control. We also request restoration of some increment of the differential funding level for our employees' group insurance as compared to that provided for other state employees who are covered in the ERS group insurance plan.

Student Financial Aid – Thank you for the increase in financial aid for students last session; students and their families are the beneficiaries. Because it is so important to these families, we request increased support for student financial aid, including TEXAS Grants and other financial aid programs. However, please recognize that since it is a method of paying for tuition and fees that otherwise would have to be paid by students and their families, student financial aid does not increase much needed funding for the universities.

We appreciate the relief provided by the 84th Legislature for the Hazlewood Legacy program that supports our veteran students and veterans' families. While we do not anticipate that the recent court ruling will cause an increase in the already rapid growth in the veteran students and their families served through the Hazlewood program, the current rates of growth of Legacy students continue to be an increasing cost to our institutions.

High Priority Requests for Texas A&M International University:

Administrator's Statement

10/10/2016 4:46:52PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

761 Texas A&M International University

Base funding for the University consists of formula funding and the \$17,035,482 in three special items that are devoted to support and achieve students' retention and graduation success, namely: Institutional Enhancement (\$11,853,452), Academic and Student Support (\$3,682,030), and Outreach and Enrollment (\$1,500,000). Together, these three special item strategies fund 49% of Education & General (E&G) faculty and are therefore an integral part of the base funding for the University. Maintaining the success of graduating the students of the South Texas region depends upon continued appropriation of this base funding.

Existing Special Items – It is also vital that the University retain the funding for its remaining special items which include \$390,054 for the Institute for International Trade (IIT) and \$363,000 for the Small Business Development Center (SBDC). The IIT publishes the highly regarded International Trade Journal, a source of scholarship for faculty, students and the general academic community, and supports vital research to enhance the border region's competitive position. The SBDC also supports research with applied economics projects and provides for economic development by increasing capital access, business starts and expansions, job creation, and retention.

Exceptional Items – The University is requesting the following exceptional item to provide the resources necessary to sustain growth and achieve the goals of the Coordinating Board's 60x30TX plan:

- Restoration of the 4% reduction - \$702,638 (biennial amount) – This item will permit Texas A&M International University to maintain its educational offerings and success in retaining and graduating its students.
- Interdisciplinary Engineering Degree Program - \$6,000,000 (biennial amount, expiring after 3 biennia) – This item will permit Texas A&M International University to expand its existing engineering offerings to include a focus on petroleum engineering and computer science.
- Si Texas Border Health Initiative - \$2,400,000 (biennial amount, expiring after 2 biennia) - A collaborative effort between Texas A&M International University and nine community health care service providers, this item will support a fully coordinated, comprehensive health care delivery system in Laredo and the surrounding region.

Capital Projects – The University has a calculated deficit of 229,336 square feet according to the Texas Higher Education Coordinating Board (as of fall 2015), and is grateful for the capital project approved last legislative session which will help reduce this deficit. Although we believe we have a real need to renovate our Kinesiology and Convocation Building to create a larger indoor space for University-wide events and add on to our Fine and Performing Arts building to expand our offerings in these disciplines, realizing the economic impact of the drop in the price of oil, no capital projects are being requested at this time.

Effects of a 4% Reduction:

A 4% reduction for the University amounts to \$702,638. The University has proactively looked for savings since the cuts of 2003, eliminating various administrative positions and outsourcing its foodservice, bookstore, custodial, and housing operations. Under the leadership of Chancellor John Sharp, in FY 2013, the remaining facilities operations were outsourced, and in FY 2014, a System-wide study by Price Waterhouse Coopers identified additional opportunities to redirect savings into the instructional mission of the University. As previously discussed, the University is dependent on three special item strategies to fund 49% of E&G faculty, with formula funding covering the balance. The generous increases of the past two sessions have still left the University just below its appropriation prior to the 2011 cuts, and we fear additional cuts now will negatively impact our ability to provide quality instruction to our students.

Effects of a 10% Reduction:

A 10% reduction for the University amounts to \$1,686,331. A reduction of this significance would almost certainly result in layoffs and the replacement of full-time

Administrator's Statement

10/10/2016 4:46:52PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

761 Texas A&M International University

faculty with lower-cost adjuncts. Unfortunately, the scarcity of qualified adjuncts in the Laredo region makes it impossible to substitute adjuncts for full-time faculty without compromising the quality of the academic programs. It is very likely that a reduction of academic program offerings would also follow. The University would have to restructure and downsize significantly, resulting in a substantial reduction in enrollment.

Criminal Background Checks:

The University has a University rule which outlines the process for conducting criminal background checks on all new hires in accordance with Texas A&M University System regulations.

Summary of Request:

The creation of Texas A&M International University has brought new life to the citizens of South Texas. Today, TAMIU is a University of choice providing access to excellence focused on a measurably better life for all. With appropriate resources, the overwhelmingly Hispanic young men and women of this region build better lives of meaning and purpose for themselves, their families and the State of Texas. Adequate funding to sustain existing and new initiatives will ensure fulfillment of the University's mission, support student success, achieve the goals of the 60x30TX plan, and continue to extend the great American dream to all.

AGENCY MISSION

Texas A&M International University (TAMIU), a member of The Texas A&M University System, prepares students for leadership roles in an increasingly complex, culturally diverse state, national, and global society. TAMIU provides a learning environment built on a solid academic foundation in the arts and sciences. The University offers a range of baccalaureate and master's programs and the Doctor of Philosophy degree in International Business Administration. In addition, the University pursues a progressive agenda for global study and understanding across all disciplines.

Through instruction, faculty and student research, and public service, Texas A&M International improves the quality of lives for citizens of the border region, the state of Texas, and national and international communities.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support.

The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

STRATEGY DESCRIPTION AND JUSTIFICATION:

To provide funds for the statutorily mandated unemployment compensation insurance program (Article 8309b, V.A.C.S.). This program provides income continuation for regular employees impacted by reductions in force. The program is part of a total compensation and benefit package that is designed to assist in attracting and retaining quality employees.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model.

The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

------	-------------	----------	----------	----------	---------	---------

Academic and Student Support represents 7% of the University’s total appropriations and funds 9% of E&G faculty. It is base funding for the University. Over the next two years, this special item funding will be used to retain and recruit faculty members and to provide opportunities for them to engage in sponsored research, which will increase revenues to the State of Texas. In addition, the funding of these faculty positions helps decrease our reliance on adjunct faculty, which is critical for maintaining and improving persistence rates for first- and second-year students.

Additional information on Academic and Student Support is available in Schedule 9, Special Item Information.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Institute supports the international mission of the University by collecting and publishing economic indicators for the Texas-Mexico border region, promoting research on international trade and related issues, and encouraging scholarly productivity of its faculty and students. This funding has made possible the establishment of a database containing monthly border trade, including vehicular, passenger, truck, rail and pedestrian traffic on all major Texas-Mexico border points of entry. This information is available to business, government agencies, other institutions and the general public. The funding also supports numerous studies and research monographs and publications dealing with economic development and competitiveness of the border region.

------	-------------	----------	----------	----------	---------	---------

The Institute will continue to publish the highly regarded International Trade Journal and will create a database for manuscript submissions and acceptance information for the Journal. The Institute is also working on a partnership with Taylor & Francis/Routledge, the Journal's current publishers, to get the Journal into the Social Science Citation Index which provides researchers and students with access to bibliographic and citation information needed to find research data, journals and researchers. The Institute will also expand cross-border relationships with Mexican and Central American businesses and continue to provide research opportunities in international business for faculty. As the Institute matures and becomes more established in the academic community, it will be able to attract higher level scholars, elevating the scholarly standing of the University. Its International Trade Journal, already well-established in its 30th year of publication, should continue to become increasingly selective and more widely known.

Additional information on the Institute for International Trade is available in Schedule 9, Special Item Information.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Small Business Development Center offers services which promote the growth, expansion, innovation, increased productivity, and improved management for small businesses. These services, which include individual business counseling and technical assistance, group training seminars and workshops, advocacy, and research information, not only facilitate new business start-ups and help existing business expand, but also strengthen the economies of Webb, Zapata and Jim Hogg counties.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The South-West Texas Border Small Business Development Center (SBDC) Network provides consulting and technical assistance to the small business community in Webb, Zapata, and Jim Hogg Counties. The goal is to help start and grow small businesses in the region.

- The mission of the SBDC is to aid entrepreneurs in creating regional economic growth through development and expansion of small businesses by fostering innovation, increased productivity, and improved management.
- The Eagle Ford Shale has generated an enormous economic impact in the region, and there is no sign of it diminishing in the near future.
- Entrepreneurs offer new ideas and services in many areas, including road expansion and maintenance, housing, food service, and more.
- New and expanded small businesses will increase employment opportunities in the region.
- Allows for development of new partnerships with local financial institutions who will fund these entrepreneurial efforts.

Additional information on the Small Business Development Center is available in Schedule 9, Special Item Information.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The 74th Texas Legislature authorized an expansion of the University to 4-year status in fall, 1995. The South Texas Border Initiative supported the hiring of faculty and staff to handle the rapid growth in enrollment and the expansion of academic programs. Institutional Enhancement currently funds 24% of the University's total appropriation and 40% of E&G faculty. It represents a significant portion of base funding.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

As mentioned above, Institutional Enhancement represents 24% of the University's total appropriations, funds 40% of E&G faculty, and is a significant portion of the University's base funding. Over the next two years, this special item funding will be used to retain and recruit faculty members and to provide opportunities for them to engage in sponsored research, which will increase revenues to the State of Texas. In addition, the funding of these faculty positions helps decrease our reliance on adjunct faculty, which is critical for maintaining and improving persistence rates for first-and second-year students.

Additional information on Institutional Enhancement is available in Schedule 9, Special Item Information.

------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The University prepares students for success through an aggressive outreach to local and regional schools, establishing one-on-one relationships to guide high school students through the financial aid process. Upon entering the University, a comprehensive program of advisement and academic support ensures retention and timely graduation. This funding enables the University to provide non-traditional students with the environment and tools necessary for success and makes Closing the Gaps possible. The resources provided by this funding enable the State’s underserved population to become productive participants in the Texas economy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

- TAMIU will increase outreach to high school students beyond a 120 mile radius of the University therefore increasing overall student enrollment and semester credit hour production.
- Increased offerings of required supplemental instruction for challenging core courses resulting in increased GPA and increased retention rates.
- Expansion of summer academic boot camp offerings in mathematics and writing.
- Initiation of HB 5 College Prep Courses in mathematics and language arts made possible because of TAMIU with local area high schools and local community college.
- Expanded Texas Success Initiative Assessment (TSIA) testing in area high schools to increase participation and college readiness.
- Offer more diverse Freshman Seminar course options in the core curriculum that include service learning, honors, study abroad, and study away experiences.

Additional information on Outreach and Enrollment is available in Schedule 9, Special Item Information.

DESCRIPTION / JUSTIFICATION:

This item would permit Texas A&M International University to maintain its educational offerings and success in retaining and graduating its students.

- Supports 5 faculty positions.
- Allows quality of programs to remain high by not negatively impacting teaching and research.
- Provides for additional course offerings to assist with students' time to degree.
- The generous increases of the past two sessions have still left the University just below its appropriation prior to the 2011 cuts, and we fear additional cuts now will negatively impact our ability to provide quality instruction to our students.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years:

- Boasting the highest persistence rate among regional universities in the Texas A&M University System, Texas A&M International University believes it can improve persistence and 6-year graduation rates.
- The Higher Education Coordinating Board's 60x30TX plan will be supported.
- The State's underserved population will become productive participants in the Texas economy.

Year established and funding source prior to receiving special item funding:

FULL-TIME EQUIVALENT POSITIONS (FTE):		12.00	12.00

DESCRIPTION / JUSTIFICATION:

This item would permit Texas A&M International University to expand its existing engineering offerings to include a focus on petroleum engineering and computer science.

- Supports 12 faculty positions and 6 graduate students, along with equipment and infrastructure in specialized laboratories, as the program is built-out over 6 years.
- Leverages partnerships with the oil industry in South Texas and supplements existing donations and pledges by these partners amounting to \$2,000,000.
- Permits an institution serving a 92% Hispanic population to expand offerings in critical STEM fields.
- Expands ability to compete for federal grants in STEM fields and to work with the Department of Homeland Security.
- Creates an opportunity not now available at any of the seven South Texas universities.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years:

- The goals of the Higher Education Coordinating Board's 60x30TX plan will be supported.
- The number of highly competent, well-qualified engineers who will be employed in the oil/energy and computer science and security industries in Texas will be increased.
- The State's underserved population will become productive participants in the Texas economy, while also addressing the shortage of engineers in South Texas.

------	------

DESCRIPTION / JUSTIFICATION:

A collaborative effort between Texas A&M International University and nine community healthcare service providers, this item will support a fully coordinated, comprehensive healthcare delivery system in Laredo and the surrounding region.

- Supports 7 nursing, healthcare, and support staff to manage a system of integrated behavioral health to provide a continuum of care for those with obesity, diabetes and depression.
- Magnifies impact of a \$1,200,000 annual grant from Methodist Healthcare Ministries which must be matched dollar for dollar.
- Creates a more informed community regarding healthcare services in the region related to obesity, diabetes and mental health.
- Provides more thorough health screenings with better coordination of care.
- Leads to greater follow-up care through a Prevention Care Model Unit to increase the likelihood that clients attend appointments, take medication, and follow their treatment plan.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years:

- This effort will provide a continuum of care for those with obesity, diabetes, and depression—conditions prevalent in lower income regions of South Texas.
- The initiative seeks to increase the effectiveness of existing services by increasing the level of integration of behavioral health—from prevention to compliance with medical treatment plans—reducing high-cost, reactive care visits to emergency rooms.

4.A. Exceptional Item Request Schedule
 85th Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/10/2016
 TIME: 4:49:03PM

Agency code: 761

Agency name:
 Texas A&M International University

CODE	DESCRIPTION	Excp 2018	Excp 2019
------	-------------	-----------	-----------

Year established and funding source prior to receiving special item funding:

Special Item does not exist at present.

Formula funding:

Non-general revenue sources of funding:

Consequences of not funding:

•Any reduction in funding will lead to a scaled back implementation by the University, as the grant requires a dollar for dollar match. This would lessen the effectiveness of the program's impact.

DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :

2018-2019 Requested Amount: \$2,400,000, expiring after 2 biennia.

ESTIMATED ANTICIPATED OUT-YEAR COSTS FOR ITEM:

	2020	2021	2022
	\$1,200,000	\$1,200,000	\$1,200,000

Agency code: 761 Agency name: Texas A&M International University

Code	Description	Excp 2018	Excp 2019
Item Name: Restoration of 4% Reduction			
Allocation to Strategy: 3-1-3 Academic and Student Support			
OBJECTS OF EXPENSE:			
1005	FACULTY SALARIES	351,319	351,319
TOTAL, OBJECT OF EXPENSE		\$351,319	\$351,319

B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals

Attainment:

Texas A&M International University exceeded two of five, or 40%, of the applicable statewide HUB procurement goals in FY 2014.

Texas A&M International University exceeded two of five, or 40%, of the applicable statewide HUB procurement goals in FY 2015.

Applicability:

Heavy Construction category has not been applicable for fiscal years 2014 or 2015. Texas A&M International University Building Construction projects are typically managed through the Texas A&M University System.

Factors Affecting Attainment:

The number and types of projects the University bids per year vary depending on then-current needs and funding availability. Texas A&M International University ensures that HUB vendors are included in all possible solicitations, regardless of dollar value.

"Good-Faith" Efforts:

Texas A&M International University (TAMIU) continues to maintain a proactive program to support and promote HUB awareness through contact with University department staff. The Procurement Card training continues to focus in large part on instructing cardholders on the HUB program and on the importance of allowing HUBs to bid/contract for goods and services; and, also on how to effectively search for HUBs on the CMBL. Purchasing staff communicates with departments on the importance of doing business with HUBs as well. TAMIU continually explores ways to increase our level of HUB utilization through peer networking and by working closely with other State agencies to identify new HUB vendors. We actively participate in economic opportunity forums to increase HUB vendor base. The Purchasing Department solicits various minority groups on solicitations and encourages HUB participation in all contracts. Development of the Purchasing website promotes the HUB Program and encourages HUB solicitations in all purchases. TAMIU remains committed to supporting the State HUB program.

761 Texas A&M International University

Special Item: 1 **Institutional Enhancement**

(1) Year Special Item: 2000
Original Appropriations: \$5,872,337

(2) Mission of Special Item:

The 74th Texas Legislature authorized an expansion of the University to 4-year status in fall, 1995. The South Texas Border Initiative supported the hiring of faculty and staff to handle the rapid growth in enrollment and the expansion of academic programs. Institutional Enhancement currently funds 24% of the University's total appropriation and 40% of E&G faculty. It represents a significant portion of base funding.

(3) (a) Major Accomplishments to Date:

Funding 91 FTE faculty.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

As mentioned above, Institutional Enhancement represents 24% of the University's total appropriations, funds 40% of E&G faculty, and is a significant portion of the University's base funding. Over the next two years, this special item funding will be used to retain and recruit faculty members and to provide opportunities for them to engage in sponsored research, which will increase revenues to the State of Texas. In addition, the funding of these faculty positions helps decrease our reliance on adjunct faculty, which is critical for maintaining and improving persistence rates for first-and second-year students.

(4) Funding Source Prior to Receiving Special Item Funding:

The Institutional Enhancement special item was the result of the consolidation of several special items by the 74th Legislature, plus the addition of an initial \$1M per year for academic enhancement purposes.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

761 Texas A&M International University

Institutional enhancement represents base funding for this institution. It is critical that this base funding continue to ensure both the quality and survival of programs. Without this base funding source, access to programs, such as nursing, engineering and teacher preparation, would have to be reduced, which the State has deemed a high priority.

761 Texas A&M International University

Special Item: 2 **Academic and Student Support**

(1) Year Special Item: 2014
Original Appropriations: \$1,841,015

(2) Mission of Special Item:

Academic and Student Support provides resources to recruit and retain faculty to provide students with a quality education, along with student scholarships and assistantships.

(3) (a) Major Accomplishments to Date:

Funding 21 FTE faculty.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Academic and Student Support represents 7% of the University's total appropriations and funds 9% of E&G faculty. It is base funding for the University. Over the next two years, this special item funding will be used to retain and recruit faculty members and to provide opportunities for them to engage in sponsored research, which will increase revenues to the State of Texas. In addition, the funding of these faculty positions helps decrease our reliance on adjunct faculty, which is critical for maintaining and improving persistence rates for first-and second-year students.

(4) Funding Source Prior to Receiving Special Item Funding:

The Academic and Student Support special item was created by a budget structure change of two special items approved in the 83rd Legislative Session.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Academic and Student Support represents base funding for this institution. It is critical that this base funding continue to ensure both the quality and survival of programs. Without this base funding source, access to programs, such as nursing, engineering and teacher preparation, would have to be reduced, which the State has deemed a high priority.

Schedule 9: Special Item Information
85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

761 Texas A&M International University

761 Texas A&M International University

Special Item: 3 Outreach & Enrollment

(1) Year Special Item: 2012
Original Appropriations: \$1,000,000

(2) Mission of Special Item:

The University prepares students for success through intensive outreach to local and regional schools, establishing one-on-one relationships to guide high school students through the admissions and financial aid processes. Upon entering the University, a comprehensive program of orientation, advisement, and academic support ensures retention and timely graduation. This funding enables the University to provide non-traditional students in an underserved region with the environment and tools necessary for success and makes “Closing the Gaps” possible. The resources provided by this funding enable the State’s underserved population to become productive participants in the Texas economy.

(3) (a) Major Accomplishments to Date:

- Funds 2% E&G faculty
- Increased freshmen applications by 87% (from fall 2009 to fall 2015).
- Increased first time freshmen enrollment by 23% (from fall 2009 to fall 2015).
- Increased the percentage of enrolled students ranked in the top 25% to 48% (fall 2015).
- Increased first time freshmen's retention rate to 76.5% (fall 2014 returning fall 2015).
- Increased first time freshmen's cumulative first year GPA from 2.52 to 2.7 (from fall 2010 to fall 2015).
- Reduced second term suspension rates for freshmen from 11.2% to 7% (from fall 2009 to fall 2014).
- Expanded Advising and Mentoring Center services for first- and second-year students up to 60 semester credit hours staffed by full-time professional Academic Advisors and part-time Student Mentors.
- Funded a second retention specialist for freshmen and sophomore students to support early alert referrals, provisionally admitted students, developmental education students, and students placed on probation.
- Increased the number of tutoring services and supplemental instruction sessions.
- Increased offering summer academic boot camps and expanded workshop and bridging session offerings to enhance college readiness.
- Increased the number of orientation sessions for new and transfer students, as well as parent orientation programs. All student orientations are now mandatory.
- Expanded outreach and access through Enrollment Specialists in the Laredo, San Antonio, Rio Grande Valley and Houston regions.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- Focus the University offerings and support services to increase overall student engagement and retention targeting an 80% retention rate.
- Increase semester credit hour enrollment through personalized academic advising.
- Expand supplemental instruction for challenging core courses.
- Expansion of summer academic boot camp, workshops and bridge program offerings in mathematics, reading, and writing.
- Review and retarget the HB 5 College Prep Course content in mathematics and language arts with local and area high schools and community college.
- Expanded Texas Success Initiative Assessment (TSIA) through B-Virtual testing.
- Continue to diversify Freshman Seminar course options to personalize the needs of students.
- Institutionalize Signature Courses for all freshmen students.

761 Texas A&M International University

(4) Funding Source Prior to Receiving Special Item Funding:

There was no funding source prior to receiving this.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

Flat Advising fee charged to students.

(9) Consequences of Not Funding:

Without funding, these effective programs, as currently delivered, would be eliminated. Reduction of funding would also hinder TAMIU's ability to support non-traditional students and obliterate any hope for students whose personal environment is incapable of supporting the academic rigor required of a university experience. The elimination of funding would prevent the University from fulfilling its legislative mandate of providing a higher education to an underserved population and "Closing the Gaps".

761 Texas A&M International University

Special Item: 4 **Institute for International Trade**

(1) Year Special Item: 1979
Original Appropriations: \$69,945

(2) Mission of Special Item:

The Institute supports the international mission of the University by collecting and publishing economic indicators for the Texas-Mexico border region, promoting research on international trade and related issues, and encouraging scholarly productivity of its faculty and students. The Institute was originally a part of the Graduate School of International Trade. When the College of Business Administration was established, the Institute served as an internal think tank for the University, and the border region. The Institute for International Trade published the NAFTA Digest for several years prior to the establishment of NAFTA, and for several subsequent years. It also published the Border Business Indicators using a database established at the University and the International Trade Journal, a highly regarded scholarly quarterly now in its 30th year of publication. The same Special Item funding has also made possible the establishment of a database containing monthly border trade including vehicular, passenger, truck, rail and pedestrian traffic on all major Texas-Mexico border points of entry. This information is available to business, government agencies, other institutions and the general public. Numerous studies and research monographs and publications dealing with economic development and competitiveness of the border region have been made possible through these funds.

(3) (a) Major Accomplishments to Date:

The Institute has become a major source of information on international trade with emphasis on Western Hemispheric Trade issues, especially those relating to economic interaction between Texas and Mexico. Several partnerships have been established, including one with Tec de Monterrey, Universidad Regiomontana, Universidad Autonoma de Nuevo Leon to promote scholarly research beneficial to the border region. Scholars from around the world, particularly NAFTA countries and Central and South American countries, attend our annual conference where they present studies that help raise the level of education, the knowledge base, and thus the standard of living of the border region enabling its population to reach for the standard the rest of Texas and the United States to enjoy. Support for undergraduate and graduate research has been made possible through this funding, and the University as a whole has been able to achieve a higher quality manifested in its accreditation by SACS and its School of Business accreditation by AACSB--International. The PhD program in International Business Administration has made the publication of the International Trade Journal even more important to the University. Faculty members serve on its Editorial Advisory Board, and PhD students have engaged in the publication of the Journal through manuscript reviews and other ways, allowing them to apprentice and use the journal as a training platform.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The Institute will continue to publish the highly regarded International Trade Journal, and will maintain a database for manuscript submissions and acceptance information for the Journal. The Institute is also working on a partnership with Taylor & Francis/Routledge, the Journal's current publishers, to get the Journal into the Social Science Citation Index which provides researchers and students with access to bibliographic and citation information needed to find research data, journals and researchers. Routledge, Taylor & Francis Group has also applied to have the International Trade Journal included in the 2018 edition of the Academic Journal Guide. The Institute will also expand cross-border relationships with Mexican and Central American businesses and continue to provide research opportunities in international business for faculty. As the Institute matures and becomes more established in the academic community, it will be able to attract higher level scholars, elevating the scholarly standing of the University. Its International Trade Journal, already well-established in its 30th year of publication, should continue to become increasingly selective and more widely known.

761 Texas A&M International University

(4) Funding Source Prior to Receiving Special Item Funding:

These programs did not exist prior to funding and were established thanks to the Special Item.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

The continuation of funding for the Institute is essential to the State's goal of bringing the border region to a level on par with the rest of the State. Failure to fund the Institute could seriously jeopardize the survival of many businesses in the Texas-Mexico border region. But for such funding, programs to fortify higher education of the border region could not have materialized, and continued funding will support vital research by faculty and students to enhance the border region's competitive position. Furthermore, the continued enhancement of the International Trade Journal's reputation as a source of scholarship for faculty, students, and the general academic community will be seriously hampered if funding were eliminated.

761 Texas A&M International University

Special Item: 5 **Small Business Development**

(1) Year Special Item: 2008
Original Appropriations: \$150,000

(2) Mission of Special Item:

The mission of the TAMIU Small Business Development Center is to create growth, expansion, innovation, increased productivity and improved management for entrepreneurs. This is accomplished through activities of counseling, training, technical assistance, advocacy, research studies, resource information and coordination with the U.S. Small Business Administration and other community business support services.

TAMIU SBDC services the small businesses and rural communities of Webb, Zapata and Jim Hogg Counties. Our certified professionals work closely with small business owners to achieve success resulting in economic development.

The vision of the TAMIU SBDC is to be recognized as the leader in economic development and delivery of highly effective counseling and training services.

(3) (a) Major Accomplishments to Date:

The SBDC program supports the growth and development of the Texas economy by assisting in job creation, economic diversification, and business expansion. And by providing business advising, training, and research activities.

Field offices have been strategically located and allow the TAMIU SBDC to have a certified business advisor at each location. Small business owners can easily visit any of our accessible locations for one-on-one counseling.

Training workshops are held at TAMIU and at the end of each training session, clients are asked to complete a survey. This has provided the opportunity to modify, enhance and diversify training programs to meet the needs of the small business community.

The TAMIU SBDC has also established a “Small Business Management Certification Program”. The program consists of business courses in the areas of starting a business, preparing a business plan, financial control, government opportunities, financial management via QuickBooks, customer services, marketing a business via social media, and legal issues. Individuals are required to complete two online business courses and attend a goal planning session with one of our certified business advisors. Completion of the program enhances their management skills and provides a good foundation for success. Many have expanded their business and/or started a new business due to the certification program.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The TAMIU SBDC will continue to provide the high standard of economic development by increasing capital access, business starts, business expansions, job creation and retention. We will also assist entrepreneurs with confidential consulting services and management and technical training necessary for the improvement of operating and/or starting a business. In addition we will continue with the TAMIU SBDC Small Business Management Certification Program in both Laredo and Zapata, Texas, and plan to expand this program to Hebbronville, Texas.

761 Texas A&M International University

(4) Funding Source Prior to Receiving Special Item Funding:

There was no funding source prior to receiving this.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

Primarily federal grants (U.S. Small Business Administration) and some user fees from training activities.

(9) Consequences of Not Funding:

The SBDC program is a major contributor toward fulfilling the University's public service mission with over 25,000 businesses served annually. It contributes to our University's research mission with applied economics projects and technology commercialization support and to the teaching mission. TAMIU SBDC Certified Business Advisors conduct market research to help companies export Texas goods and services. In addition, they help new businesses implement the QuickBooks software to better manage revenues, expenses, payroll, benefits and taxes. Without funding, client services like these would be reduced or eliminated. There would also be a loss of federal funds available to support business development extension services in the 79-county South-West Texas Border Region which would affect all partner-institutions of the Regional SBDC network.

761 Texas A&M International University

Special Item: 6 **Interdisciplinary Engineering Degree Program**

(1) Year Special Item: 2018
Original Appropriations: \$3,000,000

(2) Mission of Special Item:

This item would permit Texas A&M International University to expand its existing engineering offerings to include a focus on petroleum engineering and computer science.

- Supports 12 faculty positions and 6 graduate students, along with equipment and infrastructure in specialized laboratories, as the program is built-out over 6 years.
- Leverages partnerships with the oil industry in South Texas and supplements existing donations and pledges by these partners amounting to \$2,000,000.
- Permits an institution serving a 92% Hispanic population to expand offerings in critical STEM fields.
- Expands ability to compete for federal grants in STEM fields and to work with the Department of Homeland Security.
- Creates an opportunity not now available at any of the seven South Texas universities.

(3) (a) Major Accomplishments to Date:

New special item will fund 12 FTE faculty and 6 part-time graduate students.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- The goals of the Higher Education Coordinating Board's 60x30TX plan will be supported.
- The number of highly competent, well-qualified engineers who will be employed in the oil/energy and computer science and security industries in Texas will be increased.
- The State's underserved population will become productive participants in the Texas economy, while also addressing the shortage of engineers in South Texas.

(4) Funding Source Prior to Receiving Special Item Funding:

Special Item does not exist at present.

(5) Formula Funding:

N

(6) Startup Funding:

Y

(7) Transition Funding:

N

761 Texas A&M International University

(8) Non-general Revenue Sources of Funding:

Donations and pledges are onetime funding and will not be ongoing.

(9) Consequences of Not Funding:

Program implementation would be severely delayed as faculty and equipment purchases would be phased in only as funding becomes available.

761 Texas A&M International University

Special Item: 7 **Si Texas Border Health Initiative**

(1) Year Special Item: 2018
Original Appropriations: \$1,200,000

(2) Mission of Special Item:

A collaborative effort between Texas A&M International University and nine community healthcare service providers, this item will support a fully coordinated, comprehensive healthcare delivery system in Laredo and the surrounding region.

- Supports 7 nursing, healthcare, and support staff to manage a system of integrated behavioral health to provide a continuum of care for those with obesity, diabetes and depression.
- Magnifies impact of a \$1,200,000 annual grant from Methodist Healthcare Ministries which must be matched dollar for dollar.
- Creates a more informed community regarding healthcare services in the region related to obesity, diabetes and mental health.
- Provides more thorough health screenings with better coordination of care.
- Leads to greater follow-up care through a Prevention Care Model Unit to increase the likelihood that clients attend appointments, take medication, and follow their treatment plan.

(3) (a) Major Accomplishments to Date:

New special item will fund 7 FTE faculty and support staff.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- This effort will provide a continuum of care for those with obesity, diabetes, and depression—conditions prevalent in lower income regions of South Texas.
- The initiative seeks to increase the effectiveness of existing services by increasing the level of integration of behavioral health—from prevention to compliance with medical treatment plans—reducing high-cost, reactive care visits to emergency rooms.

(4) Funding Source Prior to Receiving Special Item Funding:

Special Item does not exist at present.

(5) Formula Funding:

N

(6) Startup Funding:

Y

(7) Transition Funding:

N

761 Texas A&M International University

(8) Non-general Revenue Sources of Funding:

Grant matching funds through FY 2021.

(9) Consequences of Not Funding:

Any reduction in funding will lead to a scaled back implementation by the University, as the grant requires a dollar for dollar match. This would lessen the effectiveness of the program's impact.
