**759 University of Houston - Clear Lake**

---

**UNIVERSITY OVERVIEW:**

The University of Houston-Clear Lake (UHCL) was authorized in 1971 by House Bill 199 in the 62nd Texas Legislature. The measure came in the aftermath of a 1968 report by the Texas Higher Education Coordinating Board, Texas College and University System, calling for a second University of Houston campus to offer upper-level and graduate programs for students in the Houston metropolitan area. UHCL is situated on 524 acres midway between downtown Houston and the historic port of Galveston. The campus is adjacent to the Lyndon B. Johnson Space Center and Armand Bayou Nature Center. UHCL serves an advanced technology economy by providing undergraduate, graduate, and professional programs for over 8,900 students. UHCL offers 40 bachelor's, 45 master's, and three doctoral degrees. Since its inception in 1974, over 60,000 degrees have been awarded, with over 2,500 awarded in 2015-2016.

UHCL primarily serves the Houston-Galveston metropolitan area of Texas, which includes the Gulf Coast Community College Consortium consisting of Alvin Community College, Brazosport College, College of the Mainland, Galveston College, Houston Community College System, Lee College, Lone Star College System, San Jacinto College District, and Wharton County Junior College.

An important asset of UHCL is the Bay Area Houston region itself. UHCL is the intellectual cornerstone of this highly educated and fast-growing region in Texas. Through its strong partnerships with the community, UHCL provides advanced educational programs, innovative training, and research opportunities to the region. The Bay Area economic base rests on key industries including aerospace, petrochemical, international trade, healthcare, tourism, boating and recreation.

In the 2011 session of the Texas Legislature, the University of Houston-Clear Lake secured legislative authority for downward expansion in order to offer freshman and sophomore level courses. UHCL has admitted freshmen and sophomores since Fall 2014. In response to requests from area school districts, UHCL as a four-year university will work closely with both area school districts and community colleges to enhance the K-16 pipeline to increase the college-going and college graduation rates in our region. Special attention will be focused on first-time-in-college students as well as under-represented groups including Hispanic and African-American students. The University of Houston-Clear Lake will work collaboratively with other institutions in the University of Houston System to enhance student access and success.

**MISSION STATEMENT:**

The University of Houston-Clear Lake is a student-centered, community-minded, partnership-oriented university that offers bachelor's, master's and selected doctoral programs to enhance the educational, economic and cultural environment of the Houston-Galveston metropolitan region. UH-Clear Lake serves a diverse student body with special emphasis on undergraduate transfer, graduate and international students. The university offers the highest quality instruction and nationally accredited academic programs designed to develop the critical thinking, creative, quantitative, leadership and communication skills of students. The university conducts applied and basic research and engages in community and professional service that support both the economic development and the quality of life of the area. The university is committed to community engagement through partnerships with educational institutions, businesses, government agencies and nonprofit organizations.

**2018-2019 Baseline Request and Restoration of the 4% Reduction**

In compliance with the Policy Letter, UHCL's baseline request for 2018-2019 reflects a 4% reduction of the approved 2016-2017 biennial General Revenue Funds. The effect of this reduction in our funding for Institutional Enhancement will limit the extent we can serve our students with enhanced services for student retention. This

**Administrator's Statement**

10/17/2016 4:27:01PM

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**759 University of Houston - Clear Lake**

---

funding is especially critical as UHCL serves an increasing number of first-time-in-college students with a large percentage from under-represented groups. These students are often the first person in their families to attend college. UHCL also serves a large number of community college transfer students who often balance school with work. Many of these students attend school part-time; but do so year round including fall, spring, and summer sessions. This reduction in funding will impact our ability to offer a summer course schedule to meet the needs of these students. UH-Clear Lake requests that the 4% reduction, which was \$501,015 for the university, be restored in the FY18/FY19 budget.

**10% BIENNIAL BASE REDUCTION**

UHCL's FY2018/FY2019 budget reduction would be \$1,202,436. The majority of this reduction would come from two items---Downward Expansion and Institutional Enhancement. The impact of this level of reduction on UH-Clear Lake would be very significant given that UHCL only recently in Fall 2014 transitioned from an upper-level to a four-year university via downward expansion. For Fall 2017, UHCL will have its fourth class of incoming freshmen. The impact of the reduction in institutional enhancement funds would impact UHCL's continuing efforts to increase the retention and graduation rates for those who are first-time-in-college students as well as transfer students from area community colleges. Approximately 50% of UHCL's students are community college transfers.

**FUNDING REQUESTS FOR FISCAL YEARS 2018 AND 2019:**

**> Formula Funding**

The ability of the state's universities to fund their operations (particularly instruction), maintain affordability, increase student success, and provide the highly skilled workforce Texas needs to succeed depends upon the Legislature's commitment to fund higher education through base formula funding. The University of Houston-Clear Lake, as a first priority, requests an increase in the current level of funding in order to improve formula funding for core instructional and academic support operations. Our request is for the legislature to restore funding for the instruction and operations formula to the 2010-2011 level when the base weighted semester credit hour rate was 62.19. These funds would assist the university in increasing the college-going and college-graduation rates for the region served by UH-Clear Lake. The funds are especially critical given the changing demographics of the region and the number of first-generation college students.

**> Hazlewood Exemptions**

The University of Houston-Clear Lake is dedicated to supporting veterans and their families by expanding opportunities for them to earn a college degree. The Hazlewood Act is a crucial part of this equation. For UH-Clear Lake, Hazelwood exemptions increased from \$992,533 in fiscal year 2014 to \$1,508,278 in fiscal year 2016. Absent full state coverage for Hazlewood, UH-Clear Lake must fund these exemptions through other institutional resources, including tuition paid by other students. We recommend that the state appropriate resources to cover all Hazlewood exemptions.

**> Exceptional Items**

**1) Center for Autism and Developmental Disabilities**

**Administrator's Statement**

10/17/2016 4:27:01PM

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**759 University of Houston - Clear Lake**

---

In March 2016, the Centers for Disease Control and Prevention (CDC) released its newest estimate of autism prevalence among the nation's children with findings that 1 in 68 children have autism. In 2007 at the time of the first CDC prevalence report the finding was 1 in 150 children. Overall, less than half the children identified with autism (43 percent) had received comprehensive developmental evaluations by age 3. The report also found that African-American and Hispanic children continue to receive developmental evaluations later than white children and continue to be diagnosed with autism at lower rates.

The Center for Autism and Developmental Disabilities (CADD) at the University of Houston-Clear Lake (UHCL) was established in March 2008. CADD currently provides a variety of services including (1) individualized intervention services to children between the ages of 3 and 15 who are diagnosed with autism spectrum disorder, (2) assessment and treatment services to individuals of all ages who engage in severe problem behavior, (3) individualized services, in both Spanish and English, to individuals of all ages and diagnoses who have language or social skills deficits, (4) vocational assessments and short-term intervention services for individuals diagnosed with autism spectrum disorder ages 16 years and older who have difficulty obtaining or maintaining employment, (5) behavioral consultation services to children and teachers in area school districts and (6) family needs assessment and therapy services for parents and family members of children with autism spectrum disorder. For many of these services, CADD has significant waiting lists for children and parents seeking assistance. For example, for intervention services for children ages 3 to 15, there are currently 84 families on the waiting list.

In the 2015 session of the Texas Legislature, UHCL received \$24.6 million dollars for the construction of a Health Sciences and Classroom Building at the UHCL Pearland Campus which is the result of a public-public partnership between UHCL and the City of Pearland, Texas. The overall objective for this new Health Sciences and Classroom Building is to expand the number of health-related degree programs and services to the community. One option under consideration is to create a UHCL Pearland Campus Satellite Clinic for the Center for Autism and Developmental Disabilities to serve children and families in Pearland and the surrounding area. In addition, the operation of the clinic would help reduce the backlog or waiting list for families seeking services. This location would also be more convenient for those referred by CADD's partners in the Texas Medical Center including Texas Children's Hospital and UT Health.

We propose to use state funds to develop a Satellite Clinic for UHCL's Center for Autism and Developmental Disabilities at the UHCL Pearland Campus. The establishment of the clinic would require start-up funding for a board-certified behavior analyst, graduate assistants, limited support staff, video-audio equipment, and computers/laptops.

2) Houston Partnership for Environmental Studies

The Environmental Institute of Houston, which is located at the University of Houston-Clear Lake, addresses regional issues of environmental concern. EIH conducts research in a variety of areas including water resources, wetlands, fisheries, and wildlife conservation and management.

EIH research and technical services provided to the agencies and citizens of Texas directly meets the goals of many federal and state environmental regulatory programs and policies such as the Galveston Bay Plan, Texas Coastal Zone Management and the Clean Water Act. EIH has an established reputation of scientific credibility and objectivity in research on and resolution of environmental issues.

Communities and agencies have identified the need for additional infrastructure to enhance research, technical support and education in the areas of environmental analysis to address critical regional issues including disaster preparation, sustainability, resiliency, water quality, and conservation of water and other natural resources.

**759 University of Houston - Clear Lake**

---

Attainment of NELAC certification is required for practically all environmental contracts and grants administered by EPA and TCEQ that involve the collection of environmental data. Currently, EIH cannot pursue these funding opportunities and support the applied research needs of the local community due to the lack of appropriate approved instrumentation, methodology, and quality control. The end result is that EIH must contract a significant portion of this work to expensive commercial labs.

Increased funding for the Environmental Institute of Houston would be used to hire a lead lab manager and analyst to coordinate application for NELAC certification. The individual would supervise the operation and maintenance of the analytical laboratory, develop continuing external technical education programs for industry and government, and develop and provide an internal training program for staff and students. Requests to EIH for such services have already been received from the Houston Galveston Area Council, the Galveston Bay Estuary Program, and the Galveston County Health Department. The funding of this request is expected to increase grants and contracts to EIH up to \$300,000 per year at the minimum. This investment will also increase the capability of EIH to compete for much larger regional and national grants.

3) High Technologies Laboratory

Since the 1990s, widespread adoption of computers and the global computer networks (i.e., the Internet and the World Wide Web) have dramatically changed the nation's critical infrastructures, gradually but consistently encompassing industries across the board, including communications, commerce, education, energy, financial services, healthcare, manufacturing, and transportation. Particularly in developed countries such as the United States, which have very high Internet penetration rates, cyber threats against the infrastructures have posed serious problems. The State of Texas is one of the leading states in the U.S. in addressing the danger of cyber threats. Senate Bill 1597 required that each state agency submit a security plan to the Texas Department of Information Resources (DIR) by October 15 of each even-numbered year. Senate Bill 1134 further required that DIR develop strategies and a framework for the securing of cyber infrastructure by state agencies. That framework was outlined in Texas Administration Code, TAC 202, as the Texas Information Security Standards with which agencies and educational institutions must comply.

Successful execution of legislation and the associated administrative codes hinges on ample supplies of computer and network professionals, especially those with up-to-date cybersecurity knowledge and skills. Difficulty in filling cybersecurity positions is a nation-wide issue facing employers, including those in the State of Texas. The complexity of securing a network system is amplified by challenges including the underlying cyber technologies and the cyber attackers' tactics which continue to evolve, and the threat and mitigation information which may not be effectively shared among organizations and agencies.

The University of Houston-Clear Lake (UHCL) established the Cyber Security Institute (CSI) in 2013, mainly in response to NASA Johnson Space Center's request for UHCL to establish such an entity to promote research, education, and collaboration of cybersecurity-related endeavors among academic, government, and industry sectors. The primary mission of UHCL's CSI is to improve the nation's cybersecurity landscape with a focus on the greater Houston region. From the beginning, the intention has been to develop the institute with input from major industries including aerospace, healthcare, energy, transportation/shipping, and government. UHCL's CSI has worked closely with the Bay Area Houston Economic Partnership and Bay Tech to successfully implement the Wagner-Peyser workforce development grant in cybersecurity.

We propose to use state funds to deliver a number of programs and services to individuals and organizations in the greater Houston region. These activities would include:

1. Expand cybersecurity professional training in key areas including network management and security, digital forensics and incident response, and virtualization

security.

2. Collaborate with the Bay Area Houston Economic Partnership and Bay Tech to offer public seminars and workshops to raise awareness of business owners on issues and good practices related to securing the cyber space.
3. Mentor small businesses to help them set up their cybersecurity practices by working with area chambers of commerce and economic development organizations.
4. Develop and offer undergraduate and graduate cybersecurity degree programs.
5. Offer cybersecurity summer camps for students from area school districts.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

------	-------------	----------	----------	----------	---------	---------

During the 82nd Legislature (2011), UHCL received authority to offer lower division courses to freshman and sophomore students. This authority for downward expansion was a key component to expanding access to higher education and enhancing student success, which are key goals in the state's higher education plan Closing the Gaps by 2015. UHCL joined our UH System sister institutions, starting in fall 2015, by providing an additional entry point for access to higher education. As a system of institutions we will be better able to meet the needs of our students in the greater Houston region and recruit students from the local high schools and offer scholarship programs to attract high caliber students.

Universities throughout the state that have expanded to 4 year found it necessary to seek additional state operating funds to provide this new access point to students within their regions. Upper level institutions do not have the structure in place to provide the support for this endeavor which starts with a small number of students.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Additional information for this strategy is available in Schedule 9, Special Item information.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The lab was created in FY83 as a project of the university and funded in FY84 as a special item. The mission is to integrate research and development activities in computer technology. Since the 1990s, widespread adoption of computers and the global computer networks (i.e., the Internet and the World Wide Web) have dramatically changed the nation’s critical infrastructures, gradually but consistently encompassing industries across the board, including communications, commerce, education, energy, financial services, healthcare, manufacturing, and transportation. Particularly, in developed countries such as the United States, which have very high Internet penetration rates, cyber threats against the infrastructures have posed serious problems. The State of Texas is one of the leading states in the U.S. in addressing the danger of cyber threats. The University of Houston-Clear Lake (UHCL) established the Cyber Security Institute (CSI) in 2013, mainly in response to NASA Johnson Space Center’s request for UHCL to establish such an entity to promote research, education, and collaboration of cybersecurity-related endeavors among academic, government, and industry sectors. The primary mission of UHCL’s CSI is to improve the nation’s cybersecurity landscape with a focus on the greater Houston region.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The mission of the Environmental Institute of Houston (EIH) is to advance understanding of the environment through interdisciplinary research, education, and outreach. EIH addresses regional issues of environmental concern and has become a leader in building partnerships in research, education and outreach. EIH conducts research on environmental issues with an emphasis on developing and implementing real-world solutions that incorporate community resiliency, waste minimization, energy conservation, and reduces the loss of natural resource services. EIH research activities are focused on urban land use, water resources, flood control, and fish and wildlife conservation, human health and resiliency. EIH provides experience and training for upcoming scientists by incorporating student researchers and promotes multi-disciplinary collaboration through partnerships with a diverse group of agencies, private companies and non-profits. EIH research and technical services provided meets the research and information needs, goals and requirements of multiple environmental regulatory programs. EIH provides technical and professional development for educators emphasizing environmental and science education. Educator workshops and credit courses are offered for area public and private schools, higher education, nature centers, parks, and other education providers. EIH provides technical knowledge through seminars and training workshops to citizens and professional audiences.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Texas Comprehensive Research Fund provides funding to promote increased research capacity at eligible general academic teaching institutions including those other than The University of Texas at Austin, Texas A&M University or any institution designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system. Funding is to be expended for the support and maintenance of educational and general activities, including research and student services, that promote increased research capacity. A legislatively determined amount of funding is allocated based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

**DESCRIPTION / JUSTIFICATION:**

In compliance with the Policy Letter, UHCL's baseline request for 2018-2019 reflects a 4% reduction of the approved 2016-2017 biennial General Revenue Funds. The effect of this reduction in our funding for Institutional Enhancement will limit the extent we can serve our students with enhanced services for student retention. This funding is especially critical as UHCL serves an increasing number of first-time-in-college students with a large percentage from under-represented groups. These students are often the first person in their families to attend college. UHCL also serves a large number of community college transfer students who often balance school with work. Many of these students attend school part-time; but do so year round including fall, spring, and summer sessions. This reduction in funding will impact our ability to offer a summer course schedule to meet the needs of these students. UH-Clear Lake requests that the 4% reduction, which was \$501,015 for the university, be restored in the FY18/FY19 budget.

**DESCRIPTION / JUSTIFICATION:**

The mission of the Environmental Institute of Houston (EIH) is to advance understanding of the environment through interdisciplinary research, education, and outreach. EIH addresses regional issues of environmental concern and has become a leader in building partnerships in research, education and outreach. EIH conducts research on environmental issues with an emphasis on developing and implementing real-world solutions that incorporate community resiliency, waste minimization, energy conservation, and reduces the loss of natural resource services. EIH research activities are focused on urban land use, water resources, flood control, and fish and wildlife conservation, human health and resiliency. EIH provides experience and training for upcoming scientists by incorporating student researchers and promotes multi-disciplinary collaboration through partnerships with a diverse group of agencies, private companies and non-profits. EIH research and technical services provided meets the research and information needs, goals and requirements of multiple environmental regulatory programs. EIH provides technical and professional development for educators emphasizing environmental and science education. Educator workshops and credit courses are offered for area public and private schools, higher education, nature centers, parks, and other education providers. EIH provides technical knowledge through seminars and training workshops to citizens and professional audiences.

**DESCRIPTION / JUSTIFICATION:**

The lab was created in FY83 as a project of the university and funded in FY84 as a special item. The mission is to integrate research and development activities in computer technology. Since the 1990s, widespread adoption of computers and the global computer networks (i.e., the Internet and the World Wide Web) have dramatically changed the nation's critical infrastructures, gradually but consistently encompassing industries across the board, including communications, commerce, education, energy, financial services, healthcare, manufacturing, and transportation. Particularly, in developed countries such as the United States, which have very high Internet penetration rates, cyber threats against the infrastructures have posed serious problems. The State of Texas is one of the leading states in the U.S. in addressing the danger of cyber threats. The University of Houston-Clear Lake (UHCL) established the Cyber Security Institute (CSI) in 2013, mainly in response to NASA Johnson Space Center's request for UHCL to establish such an entity to promote research, education, and collaboration of cybersecurity-related endeavors among academic, government, and industry sectors. The primary mission of UHCL's CSI is to improve the nation's cybersecurity landscape with a focus on the greater Houston region.

**FULL-TIME EQUIVALENT POSITIONS (FTE):** 5.0 5.0

**EXCEPTIONAL ITEM(S) INCLUDED IN STRATEGY:**

Restoration of the 4% Reduction

**6.A. Historically Underutilized Business Supporting Schedule**  
 85th Regular Session, Agency Submission, Version 1  
 Automated Budget and Evaluation System of Texas (ABEST)

Date: **10/17/2016**  
 Time: **4:27:17PM**

Agency Code: **759**      Agency: **University of Houston - Clear Lake**

COMPARISON TO STATEWIDE HUB PROCUREMENT GOALS

**A. Fiscal Year 2014 - 2015 HUB Expenditure Information**

Statewide HUB Goals	Procurement Category	% Goal	HUB Expenditures FY 2014			Total Expenditures FY 2014		HUB Expenditures FY 2015			Total Expenditures FY 2015	
			% Actual	Diff	Actual \$	% Goal	% Actual	Diff	Actual \$	% Goal	Actual \$	
11.2%	Heavy Construction	0.0 %	0.0%	0.0%	\$0	\$0	0.0 %	0.0%	0.0%	\$0	\$0	
21.1%	Building Construction	9.3 %	9.3%	0.0%	\$15,957	\$171,215	0.0 %	0.0%	0.0%	\$0	\$165,370	
32.9%	Special Trade	39.7 %	39.7%	0.0%	\$1,103,120	\$2,777,594	0.6 %	1.7%	1.1%	\$16,877	\$1,016,613	
23.7%	Professional Services	25.4 %	25.4%	0.0%	\$19,007	\$74,773	0.3 %	0.4%	0.1%	\$208	\$55,570	
26.0%	Other Services	13.8 %	13.8%	0.0%	\$503,654	\$3,644,842	7.9 %	12.6%	4.7%	\$506,685	\$4,012,712	
21.1%	Commodities	54.5 %	54.5%	0.0%	\$3,813,927	\$6,996,580	49.3 %	49.3%	0.0%	\$2,836,804	\$5,758,832	
	<b>Total Expenditures</b>		<b>39.9%</b>		<b>\$5,455,665</b>	<b>\$13,665,004</b>		<b>30.5%</b>		<b>\$3,360,574</b>	<b>\$11,009,097</b>	

**B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals**

**Attainment:**

The agency attained or exceeded three (3) of the five (5) goals, or 39.9% of the applicable statewide HUB procurement goals in fiscal year 2014. The agency attained or exceeded one (1) of the five (5) goals or 42% of the applicable statewide HUB procurement goals in fiscal year 2015.

**Applicability:**

The "Heavy Construction" category does not apply to agency operations in fiscal year 2014 or 2015. The University of Houston System does not do any heavy construction.

**Factors Affecting Attainment:**

Three (3) of the five (5) goals were met in 2014 due to special trade construction, professional services and commodities. The agency had a lot of HUB participation in the special trade category. In 2015 the agency met only one (1) of the five goals. It was due to little special trade construction and hardly any professional services were used this year.

**"Good-Faith" Efforts:**

Agency sponsors annual HUB Fair to promote HUBS to University departments & the community. Included in University Procurement training is information regarding how to find HUBS, contact them for a quote & use when possible. Exhibit at HUB procurement expo sponsored by the Houston Minority Supplier Development Council (HMSDC). Attend Procurement Connection Seminar & Expo sponsored by Statewide Historically Underutilized Business (HUB) Program. Attend HUB discussion workgroup meetings & Texas Universities HUB Coordinator Association (TUHCA) meetings to keep up with the rules & regulations regarding the HUB program. Have one on one sessions with potential HUB vendors & help get them certified through the state. The University was ranked second for agencies spending more than \$5 million, with largest percentages spent with HUBs 39.9% in FY2014 & was ranked twelfth in FY2015 spending 30.5% with HUBs.

**6.I. Percent Biennial Base Reduction Options**

**10 % REDUCTION**

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

Date: 10/17/2016

Time: 4:27:18PM

Agency code: 759 Agency name: University of Houston - Clear Lake

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2018	2019	Biennial Total	2018	2019	Biennial Total	

**1 High Technologies Laboratories**

**Category:** Programs - Service Reductions (Contracted)

**Item Comment:** Reduction to operating expenses that are used for supporting new research activities. A reduction could impede the continued development of the joint research among NASA, UHCL and area aerospace contractors.

Strategy: 3-2-1 High Technologies Laboratory

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$4,019	\$4,019	\$8,038
<b>General Revenue Funds Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$4,019</b>	<b>\$4,019</b>	<b>\$8,038</b>
<b>Item Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$4,019</b>	<b>\$4,019</b>	<b>\$8,038</b>

**FTE Reductions (From FY 2018 and FY 2019 Base Request)**

**2 Workers Compensation Insurance**

**Category:** Administrative - Operating Expenses

**Item Comment:** Reductions in coverage in the university's comprehensive insurance program.

Strategy: 1-1-4 Workers' Compensation Insurance

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$18,572	\$18,571	\$37,143
<b>General Revenue Funds Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$18,572</b>	<b>\$18,571</b>	<b>\$37,143</b>
<b>Item Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$18,572</b>	<b>\$18,571</b>	<b>\$37,143</b>

**FTE Reductions (From FY 2018 and FY 2019 Base Request)**

**3 Houston Partnership for Environmental Studies**

**Category:** Programs - Service Reductions (Other)

**6.I. Percent Biennial Base Reduction Options**

**10 % REDUCTION**

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

Date: 10/17/2016

Time: 4:27:18PM

Agency code: 759 Agency name: University of Houston - Clear Lake

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2018	2019	Biennial Total	2018	2019	Biennial Total	

**Item Comment:** The ability to compete for external funding would be compromised. Teachers and K-12 students would not be provided essential STEM environment education skills and training.

Strategy: 3-2-2 Houston Partnership for Environmental Studies

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$29,028	\$29,027	\$58,055	
<b>General Revenue Funds Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$29,028</b>	<b>\$29,027</b>	<b>\$58,055</b>	
<b>Item Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$29,028</b>	<b>\$29,027</b>	<b>\$58,055</b>	

**FTE Reductions (From FY 2018 and FY 2019 Base Request)**

**4 Center for Autism**

**Category:** Programs - Service Reductions (Other)

**Item Comment:** Reduction of assessment, treatment, intervention and behavioral consultation services.

Strategy: 3-2-3 Center for Autism and Developmental Disabilities

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$19,200	\$19,200	\$38,400	
<b>General Revenue Funds Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$19,200</b>	<b>\$19,200</b>	<b>\$38,400</b>	
<b>Item Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$19,200</b>	<b>\$19,200</b>	<b>\$38,400</b>	

**FTE Reductions (From FY 2018 and FY 2019 Base Request)**

**5 Institutional Enhancement**

**Category:** Programs - Service Reductions (Other)

**Item Comment:** This funding has been critical to maintain core operations. Loss of funding would have a negative impact on academic programs, delivery of instruction, and student access and success. Loss of funding would also impact UHCL's continuing efforts to increase retention and graduation rates for those who are first-time-in-college students, as well as transfer students from area community colleges.

**Special Item:**     1       **Institutional Enhancement**

**(1) Year Special Item:**           2000  
Original Appropriations:   \$1,009,369

**(2) Mission of Special Item:**

This item was first created by the 76th Legislature and has been adjusted numerous times over the years. Institutional Enhancement funds have become operating dollars for state universities, comparable in terms of use to what is received through the Operations Support formula and support academic programs and instruction.

**(3) (a) Major Accomplishments to Date:**

The funding of this special item has allowed UHCL to establish new academic program initiatives and faculty to support the programs.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Continued funding would provide the ability to maintain and enhance the initiatives established in FY2000.

**(4) Funding Source Prior to Receiving Special Item Funding:**

N/A

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

N/A

**(9) Consequences of Not Funding:**

This funding has been critical to maintain core operations. Loss of funding would have a negative impact on academic programs, delivery of instruction, and student access and success. Loss of funding would also impact UHCL's continuing efforts to increase retention and graduation rates for those who are first-time-in-college students as well as transfer students from area community colleges.

---

**759 University of Houston - Clear Lake**

---

**Special Item:**     2       **Operations Support-Downward Expansion**

**(1) Year Special Item:**             2016  
Original Appropriations:   \$3,250,000

**(2) Mission of Special Item:**

During the 82nd Legislature (2011), UHCL received authority to offer lower division courses to freshman and sophomore students. This authority for downward expansion was a key component to expanding access to higher education and enhancing student success, which are key goals in the state's higher education plan Closing the Gaps by 2015. UHCL joined our UH System sister institutions, starting in fall 2014, by providing an additional entry point for access to higher education. As a system of institutions we will be better able to meet the needs of our students in the greater Houston region and recruit students from the local high schools and offer scholarship programs to attract high caliber students.

Universities throughout the state that have expanded to 4 year found it necessary to seek additional state operating funds to provide this new access point to students within their regions. Upper level institutions do not have the structure in place to provide the support for this new endeavor which starts with a small number of students.

**(3) (a) Major Accomplishments to Date:**

UHCL has admitted freshmen and sophomores since Fall 2014. UHCL has hired additional full-time and part-time faculty (47.5 FTE) to teach core courses and the First Year Experience course and additional staff (14 FTE) to provide support. Key support areas have been established to enhance student success. These include Student Success Center, Math Center, Placement Testing Center, Academic Advising Office, and a Veteran's Service Office.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

UHCL will continue to work closely with both area school districts and community colleges to enhance the K-16 pipeline to increase the college-going and college graduation rates in our region. Special attention will be focused on first-time in college students as well as under-represented groups. UHCL will work collaboratively with other institutions in the University of Houston System to enhance student access and success.

**(4) Funding Source Prior to Receiving Special Item Funding:**

University and departmental reserves, gift income, and student paid tuition and fees starting in FY15.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

Y

---

**759 University of Houston - Clear Lake**

---

**(8) Non-general Revenue Sources of Funding:**

University funds.

**(9) Consequences of Not Funding:**

The University must plan for steady growth in First Time in College (FTIC) enrollment and lower division transfers. Once support areas have been established, continued growth is contingent on resources needed to hire faculty to provide course offerings to meet the needs of the growing student body. Without additional resources, expanding access to higher education and enhancing student success will not be possible.

---

---

**759 University of Houston - Clear Lake**

---

**Special Item:**     3           **Center for Autism and Developmental Disabilities**

**(1) Year Special Item:**           2016  
Original Appropriations:   \$200,000

**(2) Mission of Special Item:**

The UHCL Center for Autism and Developmental Disabilities (CADD) is staffed by faculty and students in the Behavior Analysis, School Psychology, and Family Therapy graduate programs. CADD's goals are to support research on autism and developmental disabilities, train current and future professionals, and provide services to children and their families through partnerships with school districts and community organizations.

**(3) (a) Major Accomplishments to Date:**

The Center for Autism and Developmental Disabilities (CADD) at the University of Houston-Clear Lake (UHCL) was established in March 2008. CADD currently provides a variety of services including (1) individualized intervention services to children between the ages of 3 and 15 who are diagnosed with autism spectrum disorder, (2) assessment and treatment services to individuals of all ages who engage in severe problem behavior, (3) individualized services, in both Spanish and English, to individuals of all ages and diagnoses who have language or social skills deficits, (4) vocational assessments and short-term intervention services for individuals diagnosed with autism spectrum disorder ages 16 years and older who have difficulty obtaining or maintaining employment, (5) behavioral consultation services to children and teachers in area school districts and (6) family needs assessment and therapy services for parents and family members of children with autism spectrum disorder. For many of these services, CADD has significant waiting lists for families seeking assistance. FY 16 funding enabled us to expand our services, particularly for individuals aged 16 years and up. Nonetheless, at this, more than 200 families are waiting for intervention services from our center.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

CADD will continue to expand its services to families and professionals with the assistance of grants, contracts, and state funds. In particular, we would like to expand our reach to underserved areas. In the 2015 session of the Texas Legislature, UHCL received \$24.6 million dollars for the construction of a Health Sciences and Classroom Building at the UHCL Pearland Campus which is the result of a public-public partnership between UHCL and the City of Pearland, Texas. The overall objective for this new Health Sciences and Classroom Building is to expand the number of health-related degree programs and services to the community. One option under consideration is to create a UHCL Pearland Campus Satellite Clinic for CADD to serve children and families in Pearland and the surrounding area. In addition, the operation of the clinic would help reduce the backlog or waiting list for families seeking services. This location would also be more convenient for those referred by CADD's partners in the Texas Medical Center including Texas Children's Hospital and UT Health. We propose to use state funds to develop a Satellite Clinic for UHCL's Center for Autism and Developmental Disabilities at the UHCL Pearland Campus. The establishment of the clinic would require start-up funding for a board-certified behavior analyst, graduate assistants, limited support staff, video-audio equipment, and computers/laptops.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Gifts (~\$30,000 per year), grants (~\$50,000 per year), and contracts (~\$200,000 per year)

**(5) Formula Funding:**

N

---

**759 University of Houston - Clear Lake**

---

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

2016 – Contracts with private agencies and school districts: \$98,000; Federal grants (NIH): \$181,000; UH-Main: \$14,000; Texas Children’s Hospital: \$31,000

2017 – Contracts with private agencies and school districts: \$70,000; Federal grants (NIH): \$181,000; UH-Main: \$14,000; Texas Children’s Hospital: \$31,000

2018 – Federal grants (NIH): \$200,000; other contracts and grants TBD

2019 – Federal grants (NIH): \$210,000; other contracts and grants TBD

**(9) Consequences of Not Funding:**

Initiatives and expanded services launched in FY 16 and 17, including telehealth services to reach underserved, rural populations and special programs for adults with autism, would be reduced or discontinued pending the securement of alternative sources of support. The proposed Pearland Satellite Clinic, which would greatly enhance the accessibility of our services to low-income families residing near downtown and the Texas Medical Center, would be postponed until we could locate alternative sources of support.

**759 University of Houston - Clear Lake**

---

**Special Item:**     4       **Houston Partnership for Environmental Studies**

**(1) Year Special Item:**             1994  
Original Appropriations:   \$250,000

**(2) Mission of Special Item:**

The mission of the Environmental Institute of Houston (EIH) is to advance understanding of the environment through interdisciplinary research, education, and outreach. EIH addresses regional issues of environmental concern and has become a leader in building partnerships in research, education and outreach. EIH conducts research on environmental issues with an emphasis on developing and implementing real-world solutions that incorporate community resiliency, waste minimization, energy conservation, and reduces the loss of natural resource services. EIH research activities are focused on urban land use, water resources, flood control, and fish and wildlife conservation, human health and resiliency. EIH provides experience and training for upcoming scientists by incorporating student researchers and promotes multi-disciplinary collaboration through partnerships with a diverse group of agencies, private companies and non-profits. EIH research and technical services provided meets the research and information needs, goals and requirements of multiple environmental regulatory programs. EIH provides technical and professional development for educators emphasizing environmental and science education. Educator workshops and credit courses are offered for area public and private schools, higher education, nature centers, parks, and other education providers. EIH provides technical knowledge through seminars and training workshops to citizens and professional audiences.

**(3) (a) Major Accomplishments to Date:**

1. EIH has developed significant partnerships among 3 universities, 13 agencies, several private companies and non-profit organisms, and over 20 school districts. UH and UHCL researchers have leveraged over 290 small seed grants into over \$11.0 million in grant and contract funding over the last 10 years. 2. Environmental educators on the EIH staff train more teachers in national Environmental Education (EE) curricula than any other university in Texas. These funds have provided support for over 15 graduate and 10 undergraduate students per year. 3. EIH staff engage and support stakeholder efforts on all significant issues in the Houston and Southeast Texas region: air pollution, water pollution, flooding and freshwater supply. 4. EIH researchers are actively working through interagency contracts with local planning and state agencies to conduct water and air quality monitoring in local watersheds and schools. EIH has also assisted through contracts and grants various state and federal agencies including TCEQ, TPWD, HGAC, City of San Marcos, EPA, GCBO, CBBEP, TRA, BRA, TWDB, USFWS, and Harris County, Galveston Bay Estuary Program, National Wildlife Federation, and Galveston Bay Foundation.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Communities and agencies have identified the need for additional infrastructure to enhance research, technical support and education in the areas of environmental analysis to address critical regional issues including storm disaster preparation, sustainability, resiliency, water quality, and conservation of water and other natural resources. Increased funding for the Environmental Institute of Houston would be used to hire a lead lab manager and analyst to coordinate application for NELAC certification. The individual would supervise the operation and maintenance of the analytical laboratory, develop continuing external technical education programs for industry and government, and develop and provide an internal training program for staff and students. This funding request is expected to increase external grants and contracts to EIH at least five fold and will also increase the capability of EIH to compete for much larger regional and national grants.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Corporate gifts and recovered indirect costs.

---

**759 University of Houston - Clear Lake**

---

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

2016 -\$2M

2017 -\$1.5M

2018 -\$1.5M

2019 -\$1.5M

**(9) Consequences of Not Funding:**

If the institute was not funded, UHCL/UH and the state will likely lose up to \$3M annually in non-general revenue funding secured by various P1 investigators at UH, UHCL and EIH. The support of state funds enable EIH to maintain a minimum level of funding for key staff and start-up grants. EIH is also involved with numerous projects that support local government, schools and the community at large; no other organization provides these educational, outreach and technical support programs. Teachers and K-12 students would not be provided essential STEM environmental education skills and training. Funds provided to EIH generate an average 100%-500% return per fiscal year in terms of additional federal and private grant/contract funds. Without the necessary match funds EIH will not be able to support existing infrastructure (6 vehicles, 6 vessels, 10 computers, and lab equipment) to compete for external funding and meet the research needs of local and state communities. Attainment of NELAC certification is required for most environmental contracts and grants administered by EPA and TCEQ that involve the collection of environmental data. Currently, EIH cannot pursue these funding opportunities and support the applied research needs of the local community due to the lack of appropriate approved instrumentation, methodology, and quality control. The end result is that EIH must contract a significant portion of this work to expensive commercial labs.

**759 University of Houston - Clear Lake**

---

**Special Item:**     5       **High Technologies Laboratory**

**(1) Year Special Item:**             1984  
Original Appropriations:   \$150,000

**(2) Mission of Special Item:**

The lab was created in FY83 as a project of the university and funded in FY84 as a special item. The mission is to integrate research and development activities in computer technology. Since the 1990s, widespread adoption of computers and the global computer networks (i.e., the Internet and the World Wide Web) have dramatically changed the nation's critical infrastructures, gradually but consistently encompassing industries across the board, including communications, commerce, education, energy, financial services, healthcare, manufacturing, and transportation. Particularly, in developed countries such as the United States, which have very high Internet penetration rates, cyber threats against the infrastructures have posed serious problems. The State of Texas is one of the leading states in the U.S. in addressing the danger of cyber threats. The University of Houston-Clear Lake (UHCL) established the Cyber Security Institute (CSI) in 2013, mainly in response to NASA Johnson Space Center's request for UHCL to establish such an entity to promote research, education, and collaboration of cybersecurity-related endeavors among academic, government, and industry sectors. The primary mission of UHCL's CSI is to improve the nation's cybersecurity landscape with a focus on the greater Houston region.

**(3) (a) Major Accomplishments to Date:**

Since it was established, the Cyber Security Institute has hosted seminars and workshops to raise public awareness of cyber threats and related issues, including the Cybersecurity for Business Leaders and the Industry Advisory seminars. Collaborating with BayTech, University of Houston, and San Jacinto College District, the CSI succeeded in securing the Wagner-Peyser workforce development grant, and has developed a new certificate in Network Management & Security; the certificate is composed of four courses, and has been offered continually three times a year since 2014. From the beginning, the intention has been to develop the institute with input from major industries including aerospace, healthcare, energy, transportation/shipping, and government. UHCL's CSI has worked closely with the Bay Area Houston Economic Partnership and the Bay Tech to successfully implement the Wagner-Peyser workforce development grant in cybersecurity, and to seek other state and federal grants related to enhancing the state's and the nation's cybersecurity capabilities.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

---

**759 University of Houston - Clear Lake**

---

Successful execution of cyber-related legislations hinge on ample supplies of computer and network professionals, especially those with up-to-date cybersecurity knowledge and skills. Difficulty in filling cybersecurity positions is a nation-wide issue facing employers, including those in the State of Texas. The complexity of securing a network system is amplified by challenges including the underlying cyber technologies and the cyber attackers' tactics which continue to evolve, and the threat and mitigation information which may not be effectively shared among organizations and agencies. We propose to use state funds to deliver a number of programs and services to individuals and organizations in the greater Houston region. These activities would include:

1. Expand cybersecurity professional training in key areas including cyber ops, network management and security, digital forensics and incident response, and virtualization security.
2. Collaborate with the Bay Area Houston Economic Partnership and the Bay Tech to offer public seminars and workshops to raise awareness of business owners on issues and good practices related to securing the cyber space.
3. Mentor small businesses to help them set up their cybersecurity practices by working with area chambers of commerce and economic development organizations.
4. Develop and offer undergraduate and graduate cybersecurity degree programs.
5. Offer cybersecurity summer camps for students from area school districts.

**(4) Funding Source Prior to Receiving Special Item Funding:**

1-time university funds were provided for start-up.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

N/A

**(9) Consequences of Not Funding:**

If this item is not funded, it could significantly impede the continued development of the joint research among NASA, UHCL and the area aerospace contractors.

**759 University of Houston - Clear Lake**

---

**Special Item:**     6       **Restoration of 4% Reduction**

**(1) Year Special Item:**           2018  
Original Appropriations:   \$250,508

**(2) Mission of Special Item:**

In compliance with the Policy Letter, UHCL's baseline request for 2018-2019 reflects a 4% reduction of the approved 2016-2017 biennial General Revenue Funds. The effect of this reduction in our funding will limit the extent we can serve our students with enhanced services for student retention. This funding is especially critical as UHCL serves an increasing number of first-time-in-college students with a large percentage from under-represented groups. These students are often the first person in their families to attend college. UHCL also serves a large number of community college transfer students who often balance school with work. Many of these students attend school part-time; but do so year round including fall, spring, and summer sessions. This reduction in funding will impact our ability to offer a summer course schedule to meet the needs of these students. UH-Clear Lake requests that the 4% reduction, which was \$501,015 for the biennium, be restored in the FY18/FY19 budget.

**(3) (a) Major Accomplishments to Date:**

Continued funding will allow us to meet the needs of our students.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Continue to provide services/courses as needed by our students, thereby improving retention.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Biennial General Revenue Funds as part of Institutional Enhancement - 2016 - \$250,507; 2017 - \$250,508

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

N/A

---

**759 University of Houston - Clear Lake**

---

**(9) Consequences of Not Funding:**

The reduction would impact the services and summer courses we could offer our students, many who are first-time-in-college, from under-represented groups, or balancing part-time education with work.

---
