85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

751 Texas A&M University - Commerce

ADMINISTRATOR'S STATEMENT

Dr. Ray Keck, Interim President
Texas A&M University-Commerce

Texas A&M University-Commerce (A&M-Commerce) is the fifth oldest public university in Texas, with a distinguished 127-year history of service and commitment to the citizens of Northeast Texas and beyond. Founded as a normal college, the university continues to be a major producer of outstanding public school teachers and administrators, as well as college and university faculty, administrators, and leaders. A&M-Commerce has graduated thousands of students in the areas of humanities, sciences, business, and computer science, resulting in dramatic benefits for the rural service area of Northeast and East Texas. Located only sixty miles northeast of Dallas, the university increasingly reaches out to meet the needs of the growing and diverse Metroplex population. The institution provides opportunities for historically under-represented individuals and groups to attend college and achieve both economic and professional success. Many of its 100,000+ graduates have been first-generation college students, with females comprising the majority of graduates today. In fall 2015, African Americans and Hispanics constituted approximately 21 percent and 15 percent, respectively, of the institution's 12,302 students. The university takes great pride in the fact that enrollment trends reflect the ethnic composition of the primary service area for both Caucasian and African-American student populations. The university has identified as one of its strategic goals to achieve recognition as a Hispanic Serving Institution. Hispanic enrollment has almost doubled in five years, and the university has been designated as an "Emerging Hispanic-Serving Institution". A&M-Commerce was also recently ranked as one of the "Top 100 Colleges for Hispanics" by the Hispanic Outlook magazine. Moreover, the retention rates of underserved student populations are comparable to or exceed the rate of the majority students.

The university has recently experienced historic growth, absorbed reductions in state appropriations, and recruited outstanding faculty. To meet the demands of this rise in enrollment, we have become more creative and responsive in scheduling classes, increasing section sizes, and providing a variety of delivery formats. To accommodate the needs of a diverse student body, we must acknowledge that the higher education environment is changing. As a result, students need more intervention and support systems outside of class, and many also need financial assistance. This focus on meeting the needs of students has not gone unnoticed by our university. Texas A&M University-Commerce has been named #6 in the "Top Colleges in Texas: Shaping the Next Generation".

SIGNIFICANT CHANGES IN POLICY

The university has made significant changes in its organization and policies to sharpen its focus on student access and success. We are focused on high-quality growth through improved enrollment management practices. Specific strategic enrollment goals have been established to align with the Texas Higher Education Strategic Plan for 2015-2030: 60X30TX; and performance metrics have been established for retention, time-to-degree, and graduation. Partnerships with community colleges and school districts have been strengthened, and partnerships that leverage scholarship funds for targeted underserved populations have been established. These partnerships, which have resulted in seamless transitions to undergraduate and graduate degrees, have been recognized as models for the state. For example, the A&M-Commerce and Navarro College Partnership, which produces more than one hundred baccalaureate degrees each year, received the Texas Higher Education Coordinating Board Star Award in 2005, and the A&M-Commerce and Mesquite ISD Partnership received the Star Award in 2009. For decades, A&M-Commerce has been offering courses and programs to the Metroplex through the Universities Center at Dallas and the Mesquite Metroplex Center that lead to professional certifications and licensure, as well as graduate professional degrees for educators. Program sites have been added at Corsicana, Collin Higher Education Center, Midlothian, and Rockwall. Degree completion programs have been created and are being delivered via online, two-way interactive video and on-site, face-to-face instruction.

Texas A&M University-Commerce launched the state's first competency-based baccalaureate degree approved by Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) in spring 2014. This unique degree provides a model for the state to ease the cost of higher education and to reduce the time to

Automated Budget and Evaluation System of Texas (ABEST)

751 Texas A&M University - Commerce

degree by allowing students to accelerate their degree progression.

Our portfolio of undergraduate and graduate degree offerings is undergoing continuous review to ensure that the relevance and currency of our academic programs continue to meet the needs of an increasingly complex workforce and continue to contribute to the economic and social development of our region, the state of Texas, and the nation. We have targeted online baccalaureate degree completion programs, as well as online master's degree programs to ensure student access and success. Programs that are identified as low-producing and are determined to be no longer relevant are closed or merged with existing related programs that are already thriving or growing.

We also continue to build our selection of degree programs and strengthen our academic departments. Our BSN in Nursing and our MS in Computational Science were approved in 2012 and began enrolling students during the 2013-2014 academic year. Within the College of Education and Human Services we have established the School of Nursing and Health Sciences which houses the Department of Nursing and the Department of Health and Human Performance. Additionally, capitalizing on our rural location in Northeast Texas and on our specialized physical and faculty resources, we upgraded the Department of Agricultural Sciences into a separate School of Agriculture. In the fall of 2014, A&M-Commerce became the second four-year institution of higher learning in Texas to offer a BS degree in Equine Studies. Our Rodeo program enhances our sustainability and visibility in the equine sciences arena. Finally, our College of Humanities, Social Sciences, and Arts began offering a new MS degree in Applied Linguistics with an emphasis in Teaching English to Speakers of Other Languages (TESOL) in the 2014-2015 academic year. We are currently developing proposals for a new BS degree in Electrical Engineering, a BA in Latin American and U.S. Latino Studies, an MS in Nursing, and a Doctor of Business Administration. Development of each of these innovative degree programs has been prompted by identification of growing workforce needs in specific fields.

The Faculty Center for Teaching with Technology was realigned under the Department of Academic Affairs and renamed the Center for Faculty Excellence and Innovation. In addition to providing support for the use of technology to enhance instruction and student learning, it also collaborates with the Office of Research and Sponsored Programs to provide assistance to faculty in their pursuit of research and scholarly and creative endeavors.

Recruitment of veterans and military personnel is a strategic enrollment goal for A&M-Commerce, and the specific strategies implemented have resulted in the university's designation as a "Military Friendly College" for the past four years. The designation is reserved for the top 15% of colleges, universities and trade schools in the United States that are reaching out to America's veteran students.

Texas A&M University-Commerce has received many awards and recognitions for its focus on academic quality and affordability. The university's Teacher Education program was ranked #1 in the state and #9 nationally as a "Top Educator Program for Career Support". The Master of Business Administration was ranked #3 "Best Buy" for its AACSB accredited online program, and the Master of Accounting was ranked #4 "Best Buy." A&M-Commerce utilizes a variety of techniques and resources to reduce and minimize expenses imposed on students. As part of the institution's strategic plan, the University has incorporated several imperatives which focus on stewardship and student success, including internal strategies for maintaining status as one of the most affordable institutions within higher education in the State of Texas. A&M-Commerce is also well below most institutions in cost per full-time student equivalent, a position we have earned by implementing innovative initiatives that reduce costs while improving institutional effectiveness.

SIGNIFICANT CHANGES IN PROVISION OF SERVICE

- We greatly appreciate the tuition revenue bond funding provided last session for a new Nursing and Health Sciences Building. The new facility should open in January of 2019 and will be used to help promote excellence in healthcare by improving the quality and accessibility of healthcare in rural Northeast Texas while also expanding healthcare and wellness research.

Administrator's Statement

10/13/2016 3:45:17PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

751 Texas A&M University - Commerce

- Use of technology has been embraced campus-wide as a major means to control or reduce administrative costs. Savings have also been realized with system standardization, shared services and contract re-negotiations.
- Outsourcing has also been utilized to create efficiencies and reduce costs. Services that have been outsourced include information technology, custodial, facilities and project management, bookstore and food service.
- Institutional effectiveness has been strengthened, upgraded and standardized and has played a major role in a successful SACSCOC reaffirmation of accreditation in 2014.
- The stability in leadership has been strengthened with the arrival of new Deans for the College of Business and College of Education and Human Services. Moreover, the university has revised tenure, promotion, and post-tenure review processes to emphasize productivity and effectiveness in teaching, research, and service.
- The Advising Program has been enhanced through a focus on standardization, clear expectations and responsibilities, and accountability processes and metrics.
- The state-of-the-art Music Building opened to students and faculty in 2010. The Texas A&M University-Commerce wind ensemble and chorale has performed at the world famous Carnegie Hall in New York City in the Distinguished Concerts International New York's "Deep in the HeART of Texas." The facility serves as both an extraordinary laboratory for music education and as a cultural center for rural East Texas.
- The university will soon begin construction on an estimated \$29 million student residence hall through a public-private partnership (P3). The demand for on-campus housing continues to grow in response to the university's efforts in expanding undergraduate enrollment. The Phase III 490-bed residence hall has allowed for significant growth in our living and learning community.

SIGNIFICANT EXTERNALITIES

External factors impacting the delivery of instructional and service activities include the socioeconomic status of our student body, limited job opportunities in a small college town (Commerce population 8,276), and rising costs of our commuting students to come to our rural community. Therefore, the university is focused on expanding and improving the campus infrastructure and student support services. Since tuition deregulation, Texas A&M University-Commerce has had one of the lowest rates of increase of tuition, fees, and room and board costs among Texas public universities. Our rates still rank well below the state average in total costs to attend a Texas university as a full-time student.

Over the past five years, the Texas A&M University-Commerce Foundation has increased scholarship assistance by more than 100%. The increase is attributed to prioritizing scholarship needs, fundraising to address the need, and creating a more efficient and effective scholarship process to assist with recruitment and retention.

We are grateful for the new Nursing and Health Sciences building and understand the fiscal situation of the state for this upcoming budget cycle. As we anticipate our future needs, a new Library and Center for Educational Innovation and Faculty Development building will be crucial to accommodate the growing technological needs of our campus. In addition, the new library and Center will support our faculty as they continue to develop innovative, online programs to meet the needs of our students. These initiatives together will improve retention and graduation rates.

FUNDING FOR HIGHER EDUCATION

We recognize the financial situation facing the State of Texas and the difficult budget decisions that face the 85th Legislature. We also appreciate the efforts through zero-based budgeting to focus spending on the highest priority and most efficient activities that are vital investments to the future well-being of the State of Texas. As we testified last session, TAMUS has engaged in similar exercises since 2011. We have eliminated administrative positions and discontinued performing certain functions that are not core to our mission and redirected those savings to classrooms, research labs, and public service.

Administrator's Statement

10/13/2016 3:45:17PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

751 Texas A&M University - Commerce

Even as we continue to look for ways to improve our efficiency, we must also be clear that 4% reductions to budgets that have already been diligently scrubbed and reprioritized will mean we are left to manage significant budget reductions directly impacting teaching and support services to our students; reductions to significant research projects that directly impact our State's economy; and reductions in outreach and service efforts on which many citizens and public entities depend. Although a last resort, increased tuition may have to be considered to maintain the quality of programs and services you have charged us to provide. For these reasons, we respectfully request that you restore the 4% reduction in our baseline requests for both the formula and non-formula strategies.

Base Funding – Formula funding is the foundation our institutions depend upon to provide high quality teaching and support services for growing student populations to prepare them to meet the workforce needs of this state. The teaching function of our institutions is supported by two key sources of funding: state appropriations primarily through the formulas and students' tuition and fees. Our number one priority is maintaining the current formula funding rates in the base bill and in the final conference committee bill in order to cover enrollment growth through the spring 2017 semester. Any additional funding you can provide through the formulas to increase the rates to cover the cost of inflation on the state's share of the cost of educating students will help us keep our tuition and fees more manageable while also offering the courses and support services necessary to help students graduate in a timely manner.

Our A&M Agencies need base funding support much in the same manner as the formulas that provide basic, on-going support for the academics and health related institutions.

We also request support for other base funding streams be maintained at current levels, including support for research through the Texas Research University Fund and the Comprehensive University Fund and the continuation of Institutional Enhancement.

New Performance Measures – The performance measures added for higher education are important indicators for the legislature to track. We are glad to provide this outcome information. Out-year projections for these measures are held to current levels in this document. Tuition & fee charges and student debt measures are so closely connected to legislative appropriations that accurate projections for the future cannot be made at this time without a better indication of future funding amounts. However, regardless of appropriations levels, TAMUS commits to hold tuition at the lowest levels financially prudent and to look for every way to assist students in graduating well prepared, on time, and with the least debt possible.

Outcomes Based Funding - Our Board is increasingly incorporating performance and outcomes into our internal budget review processes. We welcome a continued dialog on this issue during the legislative session.

Capital – Thank you for the commitment you made to higher education last session through the increase in the Higher Education Fund and the authorization for facilities to address our critically needed classrooms and labs. We have moved forward immediately to build the critical teaching and research space you approved so we very much appreciate the policy letter exemption for appropriations needed to satisfy debt service requirements. We expect to have binding contracts on all of our projects that require two years of debt service. Providing the second year of debt service appropriations for the 2018-19 biennium is of the utmost importance to keep the projects on track.

Higher Education Group Health Insurance – We request funding to cover increases in enrollments and in health care costs that are beyond control. We also request restoration of some increment of the differential funding level for our employees' group insurance as compared to that provided for other state employees who are covered in the ERS group insurance plan.

Student Financial Aid – Thank you for the increase in financial aid for students last session; students and their families are the beneficiaries. Because it is so important to

Administrator's Statement

10/13/2016 3:45:17PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

751 Texas A&M University - Commerce

these families, we request increased support for student financial aid, including TEXAS Grants and other financial aid programs. However, please recognize that since it is a method of paying for tuition and fees that otherwise would have to be paid by students and their families, student financial aid does not increase much needed funding for the universities.

We appreciate the relief provided by the 84th Legislature for the Hazlewood Legacy program that supports our veteran students and veterans' families. While we do not anticipate that the recent court ruling will cause an increase in the already rapid growth in the veteran students and their families served through the Hazlewood program, the current rates of growth of Legacy students continue to be an increasing cost to our institutions.

PURPOSE OF NEW FUNDING REQUESTED AS EXCEPTIONAL ITEMS

Restore 4% Reduction

A&M-Commerce requests funding to restore the proposed 4% (\$310,178) appropriation reduction. This is critical in order to maintain a stable base of funding for our educational mission and to achieve performance targets. A reduction of this magnitude would alter the growth of certain academic programs, limit the advancement of online and dual enrollment courses, and also reduce the state-wide growth of competency-based education.

Bachelor of Science in Electrical Engineering Program Development

A&M-Commerce is requesting one-time funding for \$1,008,000 (biennial amount) to support the implementation of a new Bachelor of Science in Electrical Engineering (BSEE) program. The BSEE will be the third undergraduate engineering program in the Department of Engineering & Technology and will build upon the success of the existing programs.

The engineering programs at A&M-Commerce were implemented in large part to the urging and needs of regional technology-based companies in Northeast Texas and the Dallas/Fort Worth (DFW) Metroplex. These companies have supported the current programs in a variety of ways, including donations, internships, employment, and joint educational/industry projects. Seeking to build upon the success of the Construction and Industrial Engineering programs, the regional technology industry sector is now supporting the expansion of A&M-Commerce's engineering programs to include Electrical Engineering. The demand is also supported by various outside and private entities. Recent research of regional companies supports this data with more than 450 openings for electrical engineers in the A&M-Commerce service region. THECB data showed that the regional schools awarded far fewer degrees than needed last year.

Institute for Mental Health Research and Outreach for Rural Texas

A&M-Commerce is requesting \$2,633,000 (biennial amount) to establish an Institute for Mental Health Research and Outreach for Rural Texas. East Texas counties have higher suicide rates than other areas of the state, and nationally, the rate of suicide is on the increase, up 24% from 1999 to 2014. The rate of suicide was 15% higher in counties with a population of less than 20,000. The objective is to research issues and provide solutions that can be scaled to all rural counties in Texas.

Rural adolescents commit suicide at roughly twice the rate of their counterparts in urban settings, according to a study published last year in the journal JAMA Pediatrics. Rural Texans are more likely to be older white males, a group with higher rates of death by suicide. The impact of suicide and mental health issues in rural communities was featured prominently in the Texas Tribune on May 29, 2016.

Administrator's Statement

10/13/2016 3:45:17PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

751 Texas A&M University - Commerce

Texas is home to 17 million veterans. Approximately 8% experience severe mental health and substance abuse needs. More than 4.3 million Texans, including 1.2 million children, live with some form of mental health disorder. For rural Texans who seek mental health care, finding a professional can sometimes require driving hundreds of miles. Of the state's 254 counties, approximately 200 are designated as Mental Health Professional Shortage Areas.

IMPACT OF PRELIMINARY 4% REDUCTION

To lose momentum at this point would be detrimental for our university and the state. We are making good progress in awarding undergraduate degrees to students who are at-risk—those who are in need of the personal attention we can deliver as a mid-size school. Reductions would impact student cost of attendance and student debt.

We must continue to grow and offer academic programs that are current with the times and employer demands, and while obsolete programs will be phased out, it will be necessary to recruit quality faculty to offer degrees that will equip our students with the knowledge and skills necessary to obtain the careers needed by our state to quality programs. Students don't just need a degree—they need the right degree so that they can be successful in the job market. It is important to A&M-Commerce and to the state that we continue to put forth the effort and the dollars for meeting our performance goals in access, participation, and success.

We have already made significant strides and are making every effort to practice wise stewardship of available resources, committing ourselves to operational practices based on assessment and continuous improvement, and meeting our stakeholders' expectations with regard to transparency and accountability. We must continuously sharpen our ability to make the best use of the funds we have available to ensure the successful delivery of our mission.

A four percent reduction the FY 2018 and FY 2019 baseline funding would additionally impact the following programs:

1. Industrial Engineering Program - Reducing this special item funding would impact our ability to recruit students to the program and would reduce funding for lab maintenance and lab safety.
2. Educational Outreach - A reduction in this special item funding would limit the expansion of online and dual enrollment course offerings and will impact our ability to develop and implement the Assistive Technology Lab to support the preparation of new teachers for East Texas school districts.
3. Institute for Competency-Based Education - Reductions in this funding would limit the ability to conduct competency-based education research and share best practices with universities and community colleges in the State. The research is intended to help the State find alternative, affordable ways to deliver quality education to its citizens and meet state goals.

IMPACT OF A 10% REDUCTION

An additional reduction would further affect student performance measures and negatively impact the stability of high-producing programs. An additional ten percent reduction to the FY 2018 and FY 2019 baseline funding would specifically impact the following programs:

1. Industrial Engineering Program – Further reductions to this special item funding could impact our class offerings which would negatively impact our graduation rates. It would limit our ability to recruit additional students to this STEM program and would also eliminate funding for the lab safety coordinator position.
2. Educational Outreach – An additional reduction in this special item funding would limit our ability to expand online and dual enrollment course offerings, eliminate

Administrator's Statement

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

751 Texas A&M University - Commerce

the equivalent of two staff positions, and reduce an adjunct faculty position.

3. Institute for Competency-Based Education – Without adequate funding innovation could be stymied, and duplication of efforts across institutions could result in less effective use of state resources. With this Institute, Texas can continue to develop its growing national reputation at the forefront of higher education innovation to support student success and fulfill the goals of 60x30TX.

CRIMINAL HISTORY BACKGROUND CHECKS

Since 9-11, Texas A&M University-Commerce considers all positions to be security sensitive, and national criminal background checks are conducted on all candidates when they are selected for employment. The State Auditor’s Office (SAO) has developed a reporting form for reporting our criminal background check procedures, as required by the General Appropriations Act (80th Legislature), Article IX, Section 19.68. A&M-Commerce defers to The Texas A&M University System Rule 33.99.14 Criminal History Record Information—Employees and Applicants for performing criminal history background checks.

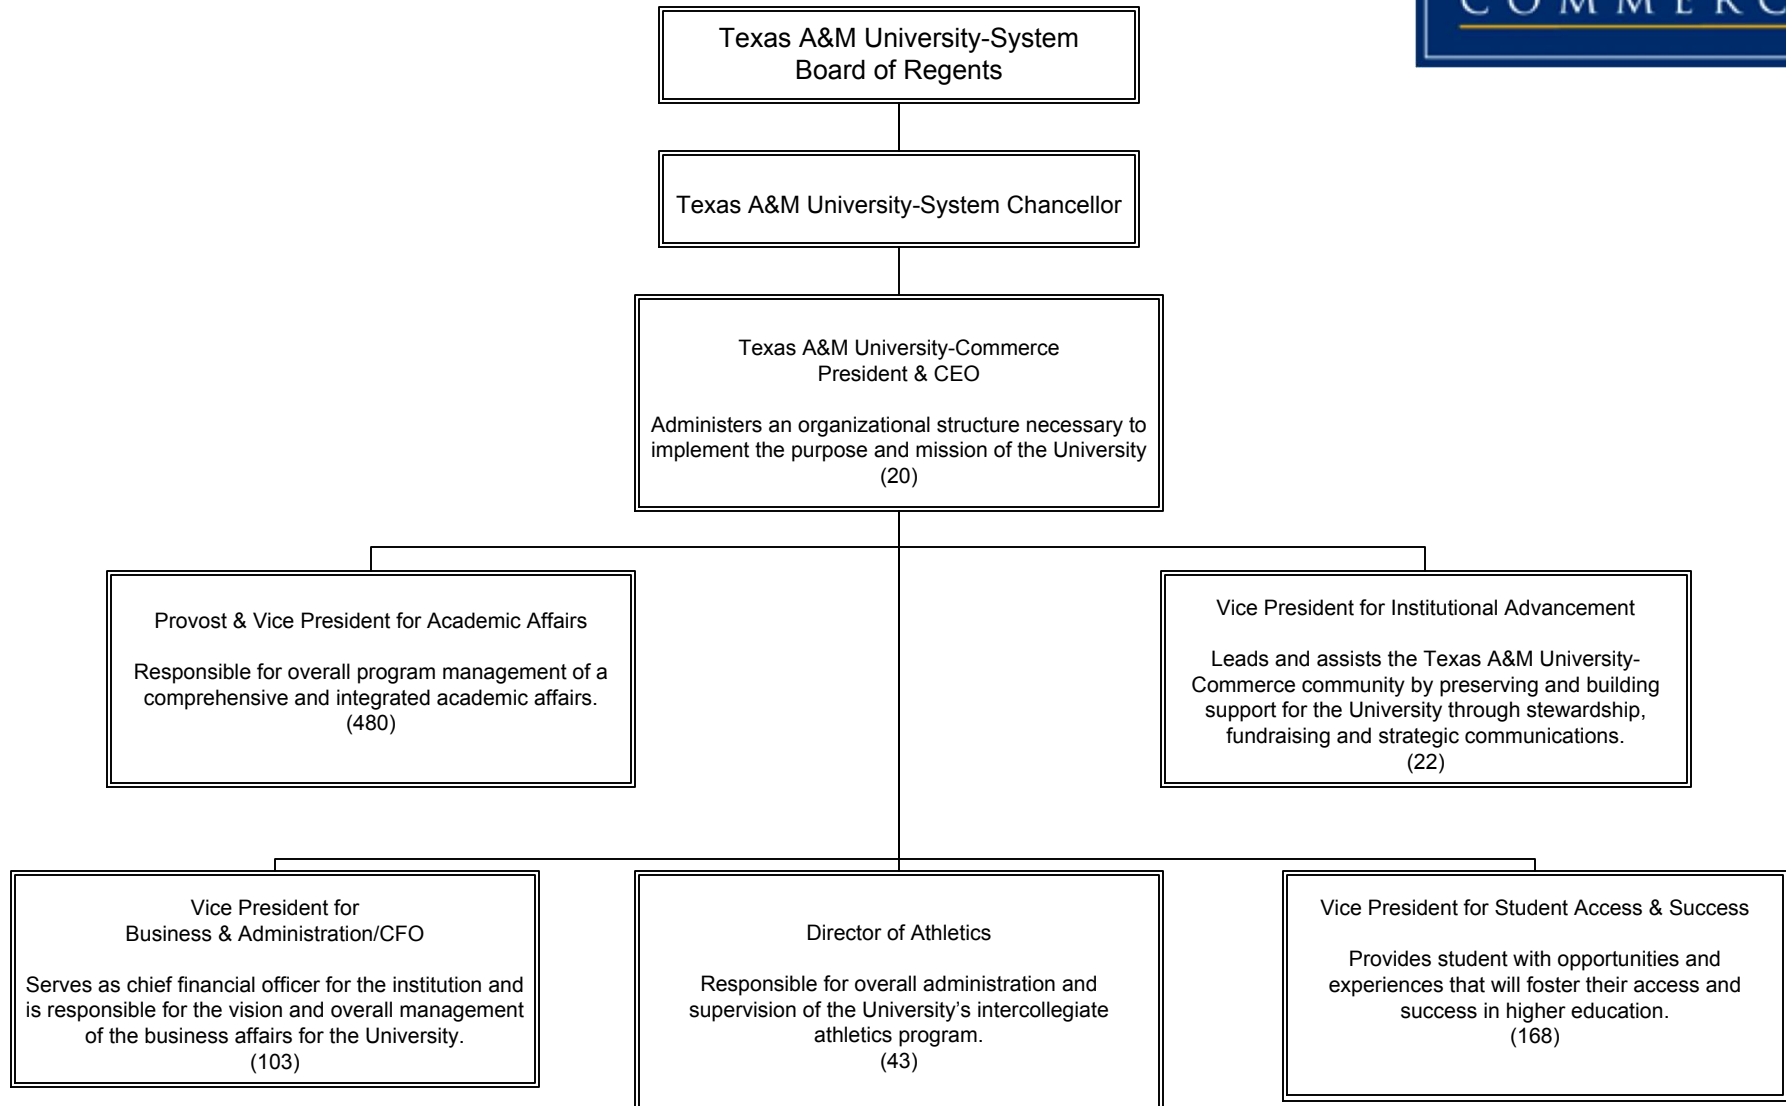

SUMMARY

Texas A&M University-Commerce has a history of placing high value on the individual and promoting positive relationships among students, faculty, and staff. The university’s core values of integrity, innovation, and imagination represent this tradition and include responsibility for the academic and social development of students, appreciation of knowledge and its creation, commitment to honesty, responsiveness to the needs of the community, and commitment to personal and corporate responsibility and accountability. By holding true to these values, A&M-Commerce can teach, conduct research, and provide for the public service needs for the area, the region, and the state. Our emphasis on globalization through our Quality Enhancement Plan extends our mission of access and success throughout the world and expands our students’ awareness of the dynamic international environment in which they will pursue their careers.

We are grateful for this opportunity to share with you our strategies and plans to provide an affordable education and to remain good stewards of all public resources.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

Organized Activities are activities or enterprises connected with instructional departments whose primary function is training for students. This strategy provides instructional and laboratory activities to complement the agricultural programs in our curriculum. Revenues are classified as General Revenue-Dedicated Funds, Other E&G Income. The costs are funded by the income derived from the goods and services produced as a by-product of the activities.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

Institutional Enhancement is a direct appropriation to institutions and was established by the Seventy-sixth Legislature (1999). These funds are intended to supplement an institution's base funding for core academic operations. These funds are expended for general institutional, academic and research support and are used to support recruitment, marketing, retention and student success initiatives.

Major accomplishments to date-

Access to Higher Education: Recruitment of students to work with faculty and professional staff to deliver quality instruction, and enrich academic support, research, scholarly activities, and student services.

Performance Targets: Improved and marketed academic programs; maintained equitable and competitive salaries.

Retention: Multiple strategies for retaining students and faculty.

Student Success Initiatives: Increased student retention; provided supplemental academic support; improved course availability; expanded library hours and enhanced technology; and built stronger relationships with school districts and industry partners.

Not funding this special item would severely impact our institution's ability to fund the core academic costs of the university. Without these funds, we would be required to reduce instructional positions and operating funds, which would impact access, success, and retention of students. Elimination of these funds would create critical budget needs and would impact our ability to meet the 60x30TX goals established by the State.

Expenditures for this strategy are included in Operations Support.

EXCEPTIONAL ITEM REQUEST

4.A. Exceptional Item Request Schedule
 85th Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/13/2016
 TIME: 3:47:38PM

Agency code: 751 Agency name: Texas A&M University - Commerce

CODE	DESCRIPTION	Excp 2018	Excp 2019
	Item Name: Restore 4% Item Priority: 1 IT Component: No Anticipated Out-year Costs: Yes Involve Contracts > \$50,000: No Includes Funding for the Following Strategy or Strategies: 03-05-01 Exceptional Item Request		

OBJECTS OF EXPENSE:

1001	SALARIES AND WAGES	155,089	155,089
TOTAL, OBJECT OF EXPENSE		\$155,089	\$155,089

METHOD OF FINANCING:

1	General Revenue Fund	155,089	155,089
TOTAL, METHOD OF FINANCING		\$155,089	\$155,089

FULL-TIME EQUIVALENT POSITIONS (FTE):

2.00	2.00
------	------

DESCRIPTION / JUSTIFICATION:

Even as we continue to look for ways to improve our efficiency, we must also be clear that 4% reductions to budgets that have already been diligently scrubbed and reprioritized will mean we are left to manage significant budget reductions directly impacting teaching and support services to our students; reductions to significant research projects that directly impact our State's economy; and reductions in outreach and service efforts on which many citizens and public entities depend. Although a last resort, increased tuition may have to be considered to maintain the quality of programs and services you have charged us to provide. For these reasons, we respectfully request that you restore the 4% reduction in our baseline requests for both the formula and non-formula strategies.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years: Continue to develop and deliver high-quality STEM programs, expand dual enrollment and online course offerings and continue the state-wide collaboration to further advance competency-based education.

Year established and funding source prior to receiving special item funding:

Formula funding:

Non-general revenue sources of funding:

Consequences of not funding: A four percent reduction the FY 2018 and FY 2019 baseline funding would additionally impact the following programs:

1. Industrial Engineering Program - Reducing this special item funding could impact our ability to recruit students to the program and would reduce funding for lab maintenance and lab safety.
2. Educational Outreach - A reduction in this special item funding would limit our ability to expand online and dual enrollment course offerings and will impact our ability to develop and implement the Assistive Technology Lab to support the preparation of new teachers for East Texas school districts.
3. Institute for Competency-Based Education - Reductions in this funding would limit the ability to conduct competency-based education research and share best practices with universities and community colleges in the State. The research is intended to help the State find alternative, affordable ways to deliver quality education to its citizens

TOTAL, METHOD OF FINANCING		\$368,000	\$640,000
FULL-TIME EQUIVALENT POSITIONS (FTE):		1.00	3.00

DESCRIPTION / JUSTIFICATION:

The requested one-time funding is needed to support the implementation of a new Bachelor of Science in Electrical Engineering (BSEE) program. The BSEE will be the third undergraduate engineering program in the Department of Engineering & Technology and will build upon the success of the existing programs. The engineering programs at A&M-Commerce were implemented in large part to the urging and needs of regional technology-based companies in Northeast Texas and the Dallas/Fort Worth (DFW) Metroplex. These companies have supported the current programs in a variety of ways, including donations, internships, employment, and joint educational/industry projects. Seeking to build upon the success of the Construction and Industrial Engineering programs, the regional technology industry sector is now supporting the expansion of A&M-Commerce's engineering programs to include Electrical Engineering. The demand is also supported by various outside and private entities.

EXTERNAL/INTERNAL FACTORS:

Major accomplishments to date and expected over the next two years:

1. Fully implement a BS Electrical Engineering degree
2. Develop and equip two EE instructional/research labs
3. Establish 2+2 transfer agreements with regional 2-year institutions
4. Establish the necessary processes and procedures necessary for ABET accreditation, which will be sought following the first graduates from the program.
5. Approval Board of Regents of The A&M University System – April 2016
6. Approval Board of Trustees of the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) – June 2016

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A for 2018-2019

Non-general revenue sources of funding: The University has funded one tenure-track faculty line for the BSEE program, and will use HEF allocations to fund classroom remodeling, furnishings, and instructional equipment for this program.

Consequences of not funding: This degree program will address recent reports that show the growing concern for the shortage of engineers and scientists in the United States. It also addresses the THECB goals to raise the number of degrees in STEM disciplines and supports the Texas Workforce Commission's forecast of an employment growth rate of 17.2% over the next decade for electrical engineers in Texas.

DESCRIPTION / JUSTIFICATION:

East Texas counties have higher suicide rates than other areas of the state and, nationally, the rate of suicide is on the increase, up 24% from 1999 to 2014. The rate of suicide was 15% higher in counties with a population of less than 20,000. The objective is to research issues and provide solutions that can be scaled to all rural counties in Texas. Rural adolescents commit suicide at roughly twice the rate of their counterparts in urban settings, according to a study published last year in the journal JAMA Pediatrics. Rural Texans are more likely to be older white males, a group with higher rates of death by suicide. Full funding at \$2,633,000 will permit the hiring of a director, and faculty and graduate assistants for teaching, research, and service at the Mental Health Center. It will also provide funding for community outreach and the editorship of Rural Mental Health Journal, and administrative support personnel to staff the 24 hour Crisis Intervention Unit and handle insurance billing. Funding will also provide for faculty research start-up costs and research support, development, and implementation of an annual Mental Health Forum. It will also provide for guest speakers, testing equipment and supplies, and office furnishings.

EXTERNAL/INTERNAL FACTORS:

Texas is home to 17 million veterans. Approximately 8% experience severe mental health and substance abuse needs. More than 4.3 million Texans, including 1.2 million children, live with some form of mental health disorder. For rural Texans who seek mental health care, finding a professional can sometimes require driving hundreds of miles. Of the state's 254 counties, approximately 200 are designated as Mental Health Professional Shortage Areas. Rural Texans often face economic hardships and are more likely to be veterans, another group with disproportionately high suicide.

Major accomplishments to date and expected over the next two years: This Institute will provide research results and solutions that can be scaled to all rural counties in Texas.

4.A. Exceptional Item Request Schedule
 85th Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/13/2016
 TIME: 3:47:38PM

Agency code: 751

Agency name:
Texas A&M University - Commerce

CODE	DESCRIPTION	Excp 2018	Excp 2019
-------------	--------------------	------------------	------------------

Year established and funding source prior to receiving special item funding: N/A

Formula funding: N/A

Non-general revenue sources of funding: Several donors have expressed an interest in supporting this initiative.

Consequences of not funding: The impact of suicide and mental health issues in rural communities was featured prominently in the Texas Tribune on May 29, 2016.

Without funding, the University will lose a valuable opportunity to help address this health crisis facing many Texans including a significant number of veterans. Research and outreach is desperately needed especially in rural Texas where adequate numbers of mental health professionals are limited.

DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :

An estimated reduction of \$200,000 is anticipated for fiscal year 2020 through 2022 as external donations and grants are sought to support the Institute.

ESTIMATED ANTICIPATED OUT-YEAR COSTS FOR ITEM:

	2020	2021	2022
	\$1,122,000	\$1,122,000	\$1,122,000

B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals

Attainment:

Texas A&M University-Commerce exceeded one of five, or 20%, of the applicable statewide HUB procurement goals in FY 2014.
 Texas A&M University-Commerce exceeded four of five, or 80%, of the applicable statewide HUB procurement goals in FY 2015.

Applicability:

Building Construction contracts are normally managed and recorded in the accounting records of Texas A&M University System; therefore, the local campus will not show significant amounts of these type expenditures. The Other Services category is affected by the maintenance and service agreements for equipment, software and other specialized items. Heavy Construction is N/A.

Factors Affecting Attainment:

Texas A&M University-Commerce aggressively exceeds the minimum required solicitations in all applicable categories. Due to the location of A&M-Commerce and minimal response from HUB vendors in the region, we were unable to meet the Statewide goals in all categories. The number and types of projects that we have available for competitive bidding, vary from year to year.

"Good-Faith" Efforts:

Texas A&M University-Commerce "Good Faith Effort" is exhibited by soliciting various minority groups on most solicitations. Purchasing requires the HSP on purchases of \$100,000 or more when subcontracting opportunities are probable. Texas A&M University-Commerce encourages HUB participation in all contracts. The University includes Minority/Women Organizations when soliciting bids. Development of the Purchasing website promotes the HUB Program and encourages HUB solicitations in all purchases. Vendors and employees can access the site for more information concerning the HUB Program, contracting opportunities, and HUB certification. The HUB Coordinator participates in EOFs, training programs, and Texas University HUB Coordinators Alliance (TUHCA). Our HUB

751 Texas A&M University - Commerce

Special Item: 1 **Institutional Enhancement**

(1) Year Special Item: 2000
Original Appropriations: \$1,345,340

(2) Mission of Special Item:

To supplement an institution's base funding for core academic operations. The Seventy-sixth legislature, 1999, Regular Session, merged numerous special items for certain institutions into a new appropriation, Institutional Enhancement.

Institutional Enhancement funds are expended for general institutional, academic and research support. These funds are used to support instruction, recruitment, marketing, retention and student success initiatives. Furthermore, this special item funding supports the development of mission-specific instructional programs, enables the continuation of improvements regarding technological advances in computer and science labs, and enhances existing programs across the university.

(3) (a) Major Accomplishments to Date:

Access to Higher Education: Recruitment of students to work with faculty and professional staff to deliver high quality instruction, and enrich academic support, research, scholarly activities, and student services.

Performance Targets: Improved and marketed academic programs; maintained equitable and competitive salaries.

Retention: Multiple strategies for retaining students and faculty.

Student Success Initiatives: Increased student retention; provided supplemental academic support; improved course availability; expanded library hours and enhanced technology; expanded the University's global reach; and built stronger relationships with school districts and industry partners.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continue to develop and deliver high-quality undergraduate and graduate programs. This special item helps promote the increase of retention and graduation of students as well as achieving the performance measures, as the University continues to promote excellence in teaching, research, innovation, and empowers students to build lives of lasting accomplishment.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

751 Texas A&M University - Commerce

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

(9) Consequences of Not Funding:

Not funding this special item would severely impact our institution's ability to fund the core academic function of the university. A reduction to these funds would overall negatively impact access, success, and retention of students.

751 Texas A&M University - Commerce

Special Item: 2 **Institute for Competency Based Education (ICBE)**

(1) Year Special Item: 2016
Original Appropriations: \$743,500

(2) Mission of Special Item:

To conduct research on competency-based education and share best practices with universities and community colleges in the state. The Institute engages in work that supports all four goals of the state's higher education strategic plan, 60x30TX.

(3) (a) Major Accomplishments to Date:

1. Established the physical location of the Institute on the campus of Texas A&M University-Commerce and developed an Institute website and social media presence.
2. Collaborated with the THECB and College for All Texans Foundation (CFAT) on TAB*Lab, a statewide conference focused on developing affordable baccalaureates.
3. Worked with the THECB and CFAT to develop a request for proposals for institutions to apply for funds to develop affordable baccalaureates.
4. Providing ongoing support to the current TAB Program, a BAAS in Organizational Leadership, which has experienced an enrollment growth of 2600 percent. The average student is 37 years old and completes the degree in less than a year.
5. Collaborating with Eastfield College and the North Texas Community College Consortium on the Prior Learning Assessment Portal Project, funded by a Perkins Leadership Grant. This includes helping to organize and lead a series of conferences and workshops to assist state institutions in implementing PLA, as well as the development of a web portal to share resources.
6. Executive Director recognized for "exceptional service" to the national Competency-Based Education Network (C-BEN).
7. Presented on CBE to a variety of stakeholders, including C-BEN, the U.S. Distance Learning Association, Blackboard IPC conference, CBE4CC, South Texas College, TAMU-K, and TAMU-CC, advancing the understanding and knowledge of CBE, contributing to state and national conversations.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Become DACUM (Developing a Curriculum) certified in order to better assist state institutions with the development of CBE programs aligned with workforce needs.
2. Obtain at least one major grant from a national foundation focused on higher education innovation to fund research on CBE student outcomes.
3. Organize, with the Consortium of CBE, at least two statewide events to share best practices in program development and research.
4. Develop at least one additional TAB program at TAMU-C and assist up to eight Texas institutions with the development of TAB programs.
5. Publish at least two articles/reports on CBE research in national publications.
6. Create a statewide portal to share competencies and curricula, as well as information regarding a networked group of CBE development consultants.

(4) Funding Source Prior to Receiving Special Item Funding:

None

751 Texas A&M University - Commerce

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

(9) Consequences of Not Funding:

Over 3 million Texas residents have little or no postsecondary credit. Only 35 percent of 25-34 year-olds have an associate's degree or higher, a lower rate of attainment than the preceding generation of adults, and well below the state's goal of 60 percent by 2030. These trends show that our emerging workforce is losing ground. To achieve the state's 60x30TX goals, it is imperative that we develop innovative models to address this challenge. Competency-based education is proving to be one of the most effective models to serve this student population and is mentioned specifically as a strategy within 60x30TX. The Institute works across the state to coordinate efforts, conduct research on outcomes and other related subjects, and to support the expansion of CBE both at Texas A&M University-Commerce and at other public institutions of higher education across the state. Without this Institute, innovation could be stymied, and duplication of efforts across institutions could result in less effective use of state resources. With this Institute, Texas can continue to develop its growing national reputation at the forefront of higher education innovation to support student success and fulfill the goals of 60x30TX.

751 Texas A&M University - Commerce

Special Item: 3 **Mesquite/Metroplex/Northeast Texas (NE Texas Educational Partnership)**

(1) Year Special Item: 1994
Original Appropriations: \$200,000

(2) Mission of Special Item:

To expand and enhance the development of collaborative partnerships between Texas A&M University - Commerce and the schools and communities serving Northeast Texas. The intent is to further the improvement of educational opportunities for children, youth, and adults of the communities.

(3) (a) Major Accomplishments to Date:

1. Expanded dual credit offerings for core curriculum at three partner schools, which enrolled 256 students.
2. Expanded the number of schools where we offer dual credit to include Boles ISD and Caddo Mills ISD.
3. Participated in numerous college readiness/dual credit events at partner high schools. Provided excellent customer service and timely assistance to our partner districts.
4. The Pride Prep Academy will begin this school year. The Academy, an Early College High School, was cited in the last LAR as "Stem Academy".
5. Initiated formal in-service for both University personnel and Southern Association of Colleges and Schools Commission on Colleges' (SACSCOC) qualified high school teachers that provide dual credit instruction.
6. Formalization of processes through a dual credit manual.
7. Increased the number of courses delivered online to just over 480 courses per semester - more than any other institution in the Texas A&M System.
8. Relocated the former Center for Teaching with Technology to the Division of Academic Affairs as the Center for Faculty Excellence and Innovation (CFEI) with, among others, continuing oversight of online instructional development, implementation, and support.
9. Added course designers and other support personnel to assist faculty in the design, development, and implementation of new online courses, and in the re-design, update, and improvement of existing online courses.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Continued attention to quality dual credit and college readiness programming with our partner schools.
2. Development of college readiness outreach/information activities targeting high school juniors, including SAT/ACT prep assistance.
3. Tiered expansion of the Pride Prep Academy as the program enters its second and third years.
4. Continue to expand full accessibility for online courses beyond those designated as "Priority Courses".
5. Continue to expand portfolio of online course offerings for degree completion.
6. Select and operationalize new LMS platform for online course delivery, migrate a sample of online courses into the new LMS, and run new system on a parallel basis with current system for up to two semesters.
7. Migrate all online courses into new LMS and discontinue reliance on old platform.
8. Develop and implement Assistive Technology Lab to enhance the training of teachers, many of whom will begin their teaching careers in school districts in rural East Texas.

751 Texas A&M University - Commerce

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

(9) Consequences of Not Funding:

Dual credit opportunities have led to increasing numbers of historically underrepresented and economically disadvantaged students attempting dual credit and succeeding. The availability of reduced-cost college-level instruction to a broadened audience enables students to experience success. Elimination of funding would drastically curtail access to those positively affected by its current level of availability. It will also substantially diminish our ability to collaborate and share available resources and personnel. This will result in current and future students suffering the consequences of not being able to participate in higher education. Without funding, we will not be able to design, develop, and implement online course offerings or online degree completion options for those students unable to take face-to-face courses. We will not have the ability to meet full accessibility requirements for online courses in which there are students with documented disabilities and other online courses, nor have the ability to implement and test migration of online courses to a new LMS platform. The effects of no funding will also significantly impact faculty and instructors. It is necessary to provide support for faculty seeking to develop new online courses or improve/update existing online courses, as well as assisting high school dual credit instructors in obtaining the necessary qualification to meet SACSCOC standards.

751 Texas A&M University - Commerce

Special Item: 4 **Bachelor of Science Degree in Industrial Engineering**

(1) Year Special Item: 2002
Original Appropriations: \$375,351

(2) Mission of Special Item:

The mission of the Bachelor of Science in Industrial Engineering program is to provide high quality industrial engineering graduates that will support business and industry engineering endeavors with an emphasis on quality and productivity improvement in the A&M-Commerce service region in Northeast Texas and throughout the State of Texas.

(3) (a) Major Accomplishments to Date:

1. The Bachelor of Science in Industrial Engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.
2. Program graduates are employed and contributing to their field of study. Employers include, but not limited to, L-3, Campbell Soup, Texas Instruments, Lowes Distribution Center, Schlumberger, Raytheon, Turner Industries, Cytec Industries, Saputo Dairy Foods, Flowserve, and AT&T.
3. Program graduates have been accepted into Masters and Doctorate programs. Graduate Schools include, but not limited to, Texas A&M University, University of Texas at Austin, University of Texas at Arlington, University of North Texas, and Texas A&M University-Commerce.
4. Continued program growth. Majors: Fall 2008 - 79; Fall 2014 - 104; 100 total graduates with 33 over the past 3 year period.
5. The percentage of women in the program is 22% (Fall 2015). National average is 19.9% for undergraduate engineering programs.
6. Successful joint industry/program projects, including Raytheon, L-3 Communications, Flowserve Corp., Guaranty Bank, JCM Manufacturing, Hunt County Medical, and Campbell Soup.
7. A&M-Commerce/Raytheon student project was recognized as one of the top three internal funded develop efforts for Raytheon in 2012.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. ABET Reaffirmation in Fall 2017
2. Departmental initiatives will result in a continued increase in the percentage of women in the program.
3. Applied research areas will be established to support the diverse regional technology industries.
4. Increase and enhance industry/program partnerships through applied research and/or joint industry/student projects
5. Continue to increase the number of program majors with a 5-year goal to double the number by 2020 (i.e. 104 to 200).

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Y

(6) Startup Funding:

N

751 Texas A&M University - Commerce

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

(9) Consequences of Not Funding:

Texas has a critical need for engineering graduates. The Texas Workforce Commission projects growth in the demand for industrial engineers over the next decade at the local, state, and national levels. The projected need in Dallas County, Tarrant County, Northeast Texas, and North Central Texas over the next decade is 880 industrial engineers, which cannot be met by the graduates from Industrial Engineering programs in the region. Currently only A&M-Commerce and the University of Texas at Arlington have programs to meet these needs. If funding is reduced, the university would have to seek approval for an increase in tuition, create a degree program fee to provide the necessary revenue, or reduce program offerings. Engineering and technology fields are key to maintaining the economic vitality of Texas. Reducing STEM programs would come at a time when the Texas Comptroller office is forecasting the Texas economy needs a 22% increase in STEM jobs over the next two years. Without these special item funds the university would be required to reduce instructional positions and operating funds, impacting access, success, and retention of students who have the ability and initiative to be successful, but not necessarily the resources or the geographical flexibility to pursue an engineering degree at a flagship institution. Reduction of funding would also reduce the number of graduates coming from a critical STEM field.

751 Texas A&M University - Commerce

Special Item: 5 **Bachelor of Science in Electrical Engineering Program**

(1) Year Special Item: 2018
Original Appropriations: \$1,008,000

(2) Mission of Special Item:

The requested funding is needed to support the implementation of a new Bachelor of Science in Electrical Engineering (BSEE) program. The BSEE will be the third undergraduate engineering program in the Department of Engineering & Technology and will build upon the success of the existing programs. The engineering programs at A&M-Commerce were implemented in large part to the urging and needs of regional technology-based companies in Northeast Texas and the Dallas/Fort Worth (DFW) Metroplex. These companies have supported the current programs in a variety of ways, including donations, internships, employment, and joint educational/industry projects. Seeking to build upon the success of the Construction and Industrial Engineering programs, the regional technology industry sector is now supporting the expansion of A&M-Commerce's engineering programs to include Electrical Engineering. The demand is also supported by various outside and private entities.

(3) (a) Major Accomplishments to Date:

1. Approval Board of Regents of The A&M University System – April 2016
2. Approval Board of Trustees of the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) – June 2016
3. Awaiting approval from the THECB

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Fully implement a BS Electrical Engineering degree
2. Develop and equip two EE instructional/research labs
3. Establish 2+2 transfer agreements with regional 2-year institutions
4. Establish the necessary processes and procedures necessary for ABET accreditation, which will be sought following the first graduates from the program.
5. Additional funding would provide the initial funding to implement this engineering program after which the program will continue to grow and will be self-sustaining based on student tuition and state reimbursement funding.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

Y

751 Texas A&M University - Commerce

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

The University has funded one tenure-track faculty line for the BSEE program, and will use HEF allocations to fund classroom remodeling, furnishings, and instructional equipment for this program.

(9) Consequences of Not Funding:

This degree program will address recent reports that show the growing concern for the shortage of engineers and scientists in the United States. It also addresses the THECB goals to raise the number of degrees in STEM disciplines and supports the Texas Workforce Commission's forecast of an employment growth rate of 17.2% over the next decade for electrical engineers in Texas.

751 Texas A&M University - Commerce

Special Item: 6 **Institute for Mental Health Research and Outreach for Rural Texas**

(1) Year Special Item: 2018
Original Appropriations: \$2,633,000

(2) Mission of Special Item:

East Texas counties have higher suicide rates than other areas of the state and, nationally, the rate of suicide is on the increase, up 24% from 1999 to 2014. The rate of suicide was 15% higher in counties with a population of less than 20,000. The objective is to research issues and provide solutions that can be scaled to all rural counties in Texas.

Rural adolescents commit suicide at roughly twice the rate of their counterparts in urban settings, according to a study published last year in the journal JAMA Pediatrics. Rural Texans are more likely to be older white males, a group with higher rates of death by suicide.

Full funding at \$2,633,000 will permit the hiring of a director, and faculty and graduate assistants for teaching, research, and service at the Mental Health Center. It will also provide funding for community outreach and the editorship of Rural Mental Health Journal, and administrative support personnel to staff the 24 hour Crisis Intervention Unit and handle insurance billing. Funding will also provide for faculty research start-up costs and research support, development, and implementation of an annual Mental Health Forum. It will also provide for guest speakers, testing equipment and supplies, and office furnishings.

(3) (a) Major Accomplishments to Date:

Initiated discussions to develop partnerships with Hunt County Regional Hospital District. Actively pursuing sponsorships and grant opportunities.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

This Institute will provide research results and solutions that can be scaled to all rural counties in Texas.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

Several donors have expressed an interest in supporting this initiative.

Schedule 9: Special Item Information

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

10/13/2016 3:47:47PM

751 Texas A&M University - Commerce

(9) Consequences of Not Funding:

The impact of suicide and mental health issues in rural communities was featured prominently in the Texas Tribune on May 29, 2016. Without funding, the University will lose a valuable opportunity to help address this health crisis facing many Texans including a significant number of veterans. Research and outreach is desperately needed especially in rural Texas where adequate numbers of mental health professionals are limited.
