Texas A&M Engineering Extension Service

August 5, 2016

Schedules Not Included

Agency Code:
716

Agency Name:
Texas A&M Engineering Extension Service

Prepared By:
Charley Todd

Date:
August 5, 2016

Request Level:
Baseline

For the schedules identified below, the Texas A&M Engineering Extension Service either has no information to report or the schedule is not applicable. Accordingly, these schedules have been excluded from the Texas A&M Engineering Extension Service Legislative Appropriations Request for the 2018-19 biennium.

Number	Name
Supporting Schedules:	
3B	Rider Revisions and Additions Request
3C	Rider Appropriations and Unexpended Balances Request
Part 5	Capital Budget
6B	Current Biennium One-Time Expenditure Schedule
6D	Federal Funds Tracking Schedule
6E	Estimated Revenue Collections Supporting Schedule
6F	Advisory Committee Supporting Schedule
Part 7	Administrative and Support Costs
Part 8	Summary of Requests for Capital Financing

Higher Education Supporting Schedules:

- 1A Other Educational and General Income
- 1B Health-related Institutions Patient Income
- 2 Selected Educational, General and Other Funds
- 8A Tuition Revenue Bonds
- 8B Tuition Revenue Bond Issuance History
- 8C Revenue Capacity for TRB Projects
- 8D Tuition Revenue Bonds Request by Project
- 9 Special Item Information

716 Texas A&M Engineering Extension Service

Director's General Statement

The Texas A&M Engineering Extension Service (TEEX) became a member of The Texas A&M University System in 1948 (Tex. Constitution Art. 7, Sec. 18). The founding purpose of the agency was to provide vocational and technical training programs on an extension basis to the citizens of the State of Texas. Today, TEEX is recognized as a state agency in the Texas Education Code (Sec 88.001 (5) and Sec 88 Subchapter D) and as an institution of higher education (Sec 61.003). TEEX impacts every region of the state through specialized education and training programs and services that reach members of the workforce from all levels of government, business, and industry.

On average, TEEX serves more than 170,000 individuals each year through over 6,500 classes, reflecting an institution-wide dedication to its mission of making a difference by providing training, developing practical solutions, and saving lives. The institution's major programs include fire services, homeland security, search and rescue, public safety and security, cyber-security, public works, economic development, and safety and health.

Headquartered in College Station, TEEX maximizes its resources through efficient and cost-effective facilities located strategically throughout the state that offer hands-on training for participants. Included in these locations are the renowned Brayton Fire Training Field, Disaster City®, and Emergency Operations Training Center in College Station, the A&M System RELLIS Campus in Bryan, the OSHA Southwest Education Center in Mesquite, the Zachery training center in San Antonio, the Center for Marine Training and Safety in Galveston, a Houston Center providing assistance to manufacturers and a training venue for other TEEX training, the Gateway facility in College Station which provides a base for Texas Task Force-1 operations, and the Frank M. Tejada Center in El Paso which concentrates on water and waste-water operations in the border regions.

The agency has been able to fulfill its Texas mission by successfully leveraging General Revenue funds entrusted to it by the Texas Legislature. These funds enable TEEX to deliver training programs that provide firefighting and emergency response services, law enforcement support, public works support to include clean drinking water, safe workplaces for public and private employees, workplace safety training for high school students, and training in cyber-security. The leveraged funds help fund the training and equipping of Texas Task Force 1 for elite search and rescue operations. During the period from May 2015 through April 2016, the Task Force rescued 152 people, evacuated 727 persons and checked on 376 people who were sheltering in place. All of these rescues and evacuations were in Texas. The agency's base General Revenue funds have allowed it to compete for and win federal funding related to training and homeland security.

TEEX continues to take a leading role in enhancing the homeland security of the state, preparing Texas communities to prevent, protect against, respond to, and recover from acts of terrorism and natural disasters. In these efforts, TEEX works in conjunction with the Texas Division of Emergency Management, the Texas Department of Public Safety, the Texas Department of State Health Services and local jurisdictions throughout Texas. Through these collaborative efforts, TEEX conducts threat and risk assessments, and provides training and exercises of emergency responders and emergency managers for weapons of mass destruction, or natural disaster events.

TEEX facilitates the development of homeland security strategies and emergency management capabilities. These homeland security initiatives are conducted through the agency's National Emergency Response and Rescue Training Center (NERRTC); the Emergency Services Training Institute (ESTI), which includes the Texas Fire Training School; through a statewide law enforcement extension training program; and Texas Task Force 1 (TX-TF1), a state asset with search and rescue, swift-water rescue, and Weapons of Mass Destruction (WMD) response capability. Texas Task Force 1 is a federally recognized team and is part of the Federal Emergency Management Agency (FEMA) Urban Search and Rescue system. The Emergency Services Training Institute provides training to FEMA task forces in the United States.

716 Texas A&M Engineering Extension Service

TEEX programs provide an excellent opportunity for veterans to earn industry-validated certifications and thus enter the workforce quickly. Qualifying veterans may use GI Bill benefits for certain TEEX programs such as Unexploded Ordnance Technician, Basic Peace Officer, Certified Safety and Health Official, Environmental Technician, Recruit Fire Training Academy, Hazardous Materials Technician, CNC Technician, Cell Tower Technician, and Emergency Medical Technician/Paramedic. TEEX also supports the state's efforts to increase the number of college graduates in Texas. TEEX has established articulation agreements with Blinn College, Adelphi University, Texas A&M University – San Antonio, Bethel University, San Juan Community College, Odessa College, Northwestern State, Texas A&M University-Commerce, Tarleton State University, Texas A&M University, and is under negotiations with others to accept TEEX training for college credit.

Potential Request for Supplemental Appropriation

The state deployment of TX-TF1 is directed by the Texas Division of Emergency Management (TDEM). During deployments, TEEX incurs expenses for items including, but not limited to, consumables, lodging, and transportation, as well as salary expenses and backfill salary expenses for Task Force members. When a disaster is federalized, a portion of the expense will be paid by the Federal Emergency Management Agency (FEMA) and a portion will be paid by TDEM.

TDEM service on processing reimbursements is excellent, but if the total disaster expenses from all sources (not just TX-TF1), exceed available funding they will not be able to complete a full reimbursement of TEEX expenses. When this is the case, TEEX must seek assistance from the Texas Legislature via a supplemental appropriation to obtain reimbursement.

The last year has been an expensive disaster year for the State of Texas. The requests for reimbursement are still in the processing stage. TEEX will work closely with the LBB as we progress towards the 85th session to determine if a supplemental request will be necessary, and if it is, on the timely submission of the request.

Methodology for the 4% Decrease in Base Funding

The 4% reduction in base funding will be taken from the bill pattern strategy of Indirect Administration. TEEX is taking this approach to maintain the delivery of emergency response via Texas Task Force 1, and training and education through key extension programs in fire, law enforcement, and public works at the level that the agency was able to provide during the 2016 -2017 biennium. The General Revenue appropriations to TEEX in support of extension programs allow delivery to underserved and rural areas that TEEX would not be able deliver without the support of appropriations provided by the Texas Legislature. To offset this reduction in General Revenue funding in support of administrative functions, TEEX will divert a portion of recovered indirect funds from Methods of Finance other than General Revenue to offset the 4% reduction. The impact will be a reduction in funds available for future upgrades and expansion of facilities and curriculum. Because TEEX receives no appropriations for capital improvements, the long term effect will be increased difficulty in maintaining the required capacity and capabilities in up to date training methods and facilities to meet the continually expanding training needs of a growing Texas population.

716 Texas A&M Engineering Extension Service

Methodology for the 10% Reduction Schedule

TEEX has historically been very successful in leveraging General Revenue funds to attract additional federal and private funding sources to provide education and training programs, to include programs for targeted areas of the workforce and underserved geographic areas of the state. The average ratio achieved by TEEX over the last five years has been 12 dollars of additional revenue for every dollar of General Revenue appropriated. In the past TEEX has taken a larger portion of the reductions for the ten percent general revenue-related base reduction schedule from the administrative categories in an attempt to minimize the impact on direct training activities. The balance of the reduction was then reduced proportionally among the training programs. For the ten percent reduction exercise for the FY 2018-2019 biennium TEEX will not be able to use the same methodology as used in the past because the 4% reduction is being taken from administrative functions. The result is that the additional 10% reduction would directly impact training programs, with proportional loss in the total number trained in various categories.

Safe Working Environment

In accordance with the Texas A&M University System regulation 33.99.14, TEEX is committed to providing a safe working environment for its employees. Therefore, a criminal history will be obtained on current employees and the finalists for each TEEX position.

Texas A&M University System-wide Funding Issues and Needs

We recognize the financial situation facing the State of Texas and the difficult budget decisions that face the 85th Legislature. We also appreciate the efforts through zero-based budgeting to focus spending on the highest priority and most efficient activities that are vital investments to the future well-being of the State of Texas. As we testified last session, TAMUS has engaged in similar exercises since 2011. We have eliminated administrative positions and discontinued performing certain functions that are not core to our mission and redirected those savings to classrooms, research labs, and public service.

Even as we continue to look for ways to improve our efficiency, we must also be clear that 4% reductions to budgets that have already been diligently scrubbed and reprioritized will mean we are left to manage significant budget reductions directly impacting teaching and support services to our students; reductions to significant research projects that directly impact our State's economy; and reductions in outreach and service efforts on which many citizens and public entities depend. Although a last resort, increased tuition may have to be considered to maintain the quality of programs and services you have charged us to provide. For these reasons, we respectfully request that you restore the 4% reduction in our baseline requests for both the formula and non-formula strategies.

Base Funding – Formula funding is the foundation our institutions depend upon to provide high quality teaching and support services for growing student populations to prepare them to meet the workforce needs of this state. The teaching function of our institutions is supported by two key sources of funding: state appropriations primarily through the formulas and students' tuition and fees. Our number one priority is maintaining the current formula funding rates in the base bill and in the final conference committee bill in order to cover enrollment growth through the spring 2017 semester. Any additional funding you can provide through the formulas to increase the rates to cover the cost of inflation on the state's share of the cost of educating students will help us keep our tuition and fees more manageable while also offering the courses and support services necessary to help students graduate in a timely manner.

Our A&M Agencies need base funding support much in the same manner as the formulas that provide basic, on-going support for the academics and health related institutions.

716 Texas A&M Engineering Extension Service

We also request support for other base funding streams be maintained at current levels, including support for research through the Texas Research University Fund and the Comprehensive University Fund and the continuation of Institutional Enhancement.

New Performance Measures – The performance measures added for higher education are important indicators for the legislature to track. We are glad to provide this outcome information. Out-year projections for these measures are held to current levels in this document. Tuition & fee charges and student debt measures are so closely connected to legislative appropriations that accurate projections for the future cannot be made at this time without a better indication of future funding amounts. However, regardless of appropriations levels, TAMUS commits to hold tuition at the lowest levels financially prudent and to look for every way to assist students in graduating well prepared, on time, and with the least debt possible.

Outcomes Based Funding - Our Board is increasingly incorporating performance and outcomes into our internal budget review processes. We welcome a continued dialog on this issue during the legislative session.

Capital – Thank you for the commitment you made to higher education last session through the increase in the Higher Education Fund and the authorization for facilities to address our critically needed classrooms and labs. We have moved forward immediately to build the critical teaching and research space you approved so we very much appreciate the policy letter exemption for appropriations needed to satisfy debt service requirements. We expect to have binding contracts on all of our projects that require two years of debt service. Providing the second year of debt service appropriations for the 2018-19 biennium is of the utmost importance to keep the projects on track.

Higher Education Group Health Insurance – We request funding to cover increases in enrollments and in health care costs that are beyond control. We also request restoration of some increment of the differential funding level for our employees' group insurance as compared to that provided for other state employees who are covered in the ERS group insurance plan.

Student Financial Aid – Thank you for the increase in financial aid for students last session; students and their families are the beneficiaries. Because it is so important to these families, we request increased support for student financial aid, including TEXAS Grants and other financial aid programs. However, please recognize that since it is a method of paying for tuition and fees that otherwise would have to be paid by students and their families, student financial aid does not increase much needed funding for the universities.

We appreciate the relief provided by the 84th Legislature for the Hazlewood Legacy program that supports our veteran students and veterans' families. While we do not anticipate that the recent court ruling will cause an increase in the already rapid growth in the veteran students and their families served through the Hazlewood program, the current rates of growth of Legacy students continue to be an increasing cost to our institutions.

716 Texas A&M Engineering Extension Service

Exceptional Items

TEEX is requesting two exceptional items to sustain the ability to deliver needed training and to improve emergency response throughout Texas.

1. Reinstatement of the 4% Reduction in Base Funding

Requested Amount: \$502,341 (Year 1: \$251,171; Year 2: \$251,170). The out-year requirements will remain the same as the request for the FY 18-19 biennium.

First and foremost, TEEX requests reinstatement of the 4% reduction to the base budget. TEEX funds the deployments of Texas Task Force 1 (TX-TF1) from recovered indirect of non General Revenue until reimbursements are received from FEMA and/or the Texas Division of Emergency Management (TDEM). As of July 1, 2016, TEEX had \$8,342,562 in expenses that have been incurred but not yet reimbursed for state ordered deployments since May 2015. The Agency does not receive any direct state appropriations in advance to cover deployment expenses. It often takes up to a year (sometime significantly longer) from incurrence of expenses until reimbursement. The result is that TEEX foregoes earnings that it may have received on recovered indirect from methods of finance other than General Revenue. The estimated amount of annual lost earnings, based upon recent deployment history, is \$208,564.

The combined amount of the 4% reduction and the lost earnings on recovered indirect from non General Revenue sources is an overall reduction in available funding of \$459,735 annually, or \$919,470 for the biennium. TEEX uses recovered indirect to fund infrastructure and training improvements to meet increasing training needs across Texas. The loss of available funds impacts the amounts available for long term improvements in capacity and capability to meet the future training needs of Texas.

2. Texas Regional Search & Rescue System.

Requested Amount: \$11,500,800 (Year 1: \$9,340,800; Year 2: \$2,160,000). Subsequent years will require \$2,160,000 annually.

Program Description: This exceptional item will allow TEEX to create a regional response capability by purchasing a standardized Urban Search and Rescue (US&R) equipment cache for each Department of Public Safety Region of the State that allows for self-sufficient lifesaving operations for 24 hours, and which facilitates reduced response time. The requested funding will fund TEEX standardized general and position specific US&R training to all regional task force members.

Members of TX-TF1 Regional Task Forces will be considered volunteers. For nineteen years the members of TX-TF1 have volunteered their time to attend training. On average the task force conducts 28,000 participant hours of training a year. The annual value of the volunteer hours is calculated using the task force pay schedule at \$947,800. Based on the fire service average cost for training of \$35/hour the annual net value of the task force training delivered is \$980,000. Total investment by team members for training due to volunteer attendance and delivery is \$1,927,800 annually.

Incidents such as the West fertilizer explosion, the Garland and Rowlett tornadoes, the floods in Hays, Jasper, Fort Bend and Navarro Counties and tropical storms and hurricanes such as Alex, Rita and Ike demonstrate the need for a tiered Statewide Search and Rescue Regional Response System.

On behalf of the thousands of Texans who benefit from the state's assistance to TEEX, the agency expresses its appreciation for the support that the Legislature and the Governor's office have provided in the past. TEEX looks forward to continued support as the agency trains, serves and responds to the needs of Texas citizens.

716 Texas A&M Engineering Extension Service

TEXAS A&M ENGINEERING EXTENSION SERVICE (TEEX)

The Director oversees the Texas A&M Engineering Extension Service (TEEX), a member of The Texas A&M University System. The position provides administrative and strategic leadership to develop and enhance the training, technical assistance, and emergency response mission of the agency to serve the State of Texas.

The Deputy Director oversees the agency operations, which include all programs, human resources, contracts, and policy issues. This position is also responsible for the agency's strategic principles of safety, emergency services, infrastructure, public works and utilities. Additionally, the Deputy Director serves as the liaison between the various A&M system members and represents the agency at the Director's request or in his absence.

The Associate Agency Director/Chief Financial Officer (CFO) of TEEX oversees the financial operations of the agency, which include all fiscal operations, budgets and payroll distribution, contracts and grants, and institutional financial data. The CFO has oversight of environmental safety and health, strategic planning, capital planning, enterprise risk management, facility management, and policy issues. The CFO serves as the liaison between the A&M system members on issues within the assigned areas of responsibility.

The Associate Agency Director/Chief Information Officer (CIO) of TEEX oversees information management and security, disaster recovery, accessibility compliance, business process improvement, and information technology adoption for the agency. The CIO serves as the liaison with the Texas Department of Information Resources (DIR) and with the Texas A&M University system members on information technology governance and implementation.

CERTIFICATE

Agency Name: Texas A&M Engineering Extension Service

This is to certify that the information contained in the agency Legislative Appropriations Request filed with the Legislative Budget Board (LBB) and the Office of the Governor, Budget Division, is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the PDF file submitted via the LBB Document Submission application are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the Governor's office will be notified in writing in accordance with Article IX, Section 7.01 (2016-17 GAA).

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas A&M Engineering Extension Service is directed by Texas Civil Statute Article 2508 and the Texas Education Code CH.88: Texas Const. Article 7, Section 18 to provide basic and advanced training on an extension basis to the citizens of Texas. The agency provides critical training programs for local governmental officials from throughout the state to assist them in complying with ever-changing and complex regulations, as well as with legislative-mandated educational requirements in areas such as fire protection, law enforcement, water/wastewater, solid waste, environmental quality and transportation. The end result is that Texas is a much better and safer place in which to live and work.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

Maintaining a technically qualified staff has become increasingly difficult for local governments because of reductions in revenue, elimination of federal programs, and the adoption of higher environmental and safety standards by state and federal entities. This issue is further complicated by dwindling staff, changing technology, and the possibility of adverse litigation for failure to comply with adopted standards. A substantial commitment is required by both local and state governments for compliance with the educational requirements of state law in areas such as fire protection, law enforcement, and public works. General Revenue funding allows TEEX to offer affordable training to the public sector.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas A&M Engineering Extension Service is directed by Texas Civil Statute Article 2508 and the Texas Education Code CH.88: Texas Const. Article 7, Section 18 to provide basic and advanced training on an extension basis to the citizens of Texas. The agency provides critical training programs that teach state-of-the-art skills to the workforce in areas such as fire protection, law enforcement, safety and public works, enabling the state to compete in a global economy and fostering the development of responsible, productive and self-sufficient citizens. The Texas A&M Engineering Extension Service has training facilities such as the Brayton Fire Training Field, Disaster City™ and mobile water/wastewater and confined space laboratories that are unique to the agency and not found in the private sector. Additionally, the private sector plays a key role in response to emergencies, natural disasters and terrorist incidents. Training provided through the Texas A&M Engineering Extension Service is integral to the state of Texas in ensuring preparedness for business and industry.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

In order for Texas industries to compete in the global marketplace, a quality trained workforce must be available. The responsibility for such a workforce must be shared by the state, educational institutions and the industries being served. Financial commitments must be made by state and local governments and partnerships developed if industries are to be competitive in today's marketplace. This strategy has the potential to be impacted by the rate of technological change occurring in the marketplace. The Texas A&M Engineering Extension Service has the expertise to upgrade the skills of individuals in many targeted occupational areas.

FULL TIME EQUIVALENT POSITIONS:		27.6	28.1	31.5	29.8	29.8

STRATEGY DESCRIPTION AND JUSTIFICATION:

Inherent within the Texas A&M Engineering Extension Service’s mission statement is developing practical solutions. Practical solutions are derived from the technical assistance the agency provides. The need for technical assistance from highly qualified and experienced subject-matter experts has never been greater in Texas and the United States than it is today, particularly in the areas of homeland security, fire protection, law enforcement, safety and public works. Recent federal and state legislation, population growth and migration, deteriorating infrastructure, technological changes and reductions in military spending are adversely impacting Texas. Abundant information exists that needs to be channeled to those solving problems related to homeland security, the environment, public health, infrastructure and economic stability. Technical assistance is the medium or linkage between such information and the end user. This strategy advances and expands the Texas A&M Engineering Extension Service’s statewide extension mission to take training, subject-matter expertise and research results and apply them to real-world problems.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Training and technical assistance are intricately linked and are vital to solving many of the problems the state currently faces. However, informing and educating public and private sector entities of the availability of technical assistance from highly qualified and experienced subject-matter experts is frequently costly and time-consuming. Additionally, many entities are unaware of technical assistance’s ability to solve many of the problems they face on a regular basis.

FULL TIME EQUIVALENT POSITIONS:		22.7	22.9	25.1	24.0	24.0

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas A&M Engineering Extension Service is the state agency responsible for search and rescue operations under the State of Texas Emergency Management Plan. As part of this mandate, the Texas A&M Engineering Extension Service serves as the sponsoring agency for Texas Task Force 1, which was established in the 1997 Legislative Session. This nationally recognized elite search and rescue team has more than 540 members drawn from 68 emergency services organizations from throughout the state and responds to both natural and man-made disasters under the direction of the Texas Division of Emergency Management. As the sponsoring agency for Texas Task Force 1, the Texas A&M Engineering Extension Service is responsible for ensuring the team's operational readiness, which consists of organizing, equipping, training, exercising, and maintaining a search and rescue capability for the state.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The current annual cost of maintaining operational readiness for the team is more than \$2,800,000, of which \$1,500,000 is from General Revenue.

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy includes the indirect and support costs needed to support the training programs offered by TEEX. Included in this strategy are those costs which are not directly attributable to any specific strategy. Costs included for the Texas A&M Engineering Extension Service include general administration (agency directors), financial services, human resources administration, public information, communications, special projects, and network and information services.

FULL-TIME EQUIVALENT POSITIONS (FTE):		3.00	3.00

DESCRIPTION / JUSTIFICATION:

First and foremost, TEEEX requests reinstatement of the 4% reduction to the base budget. TEEEX funds the deployments of Texas Task Force 1 (TX-TF1) from recovered indirect of non General Revenue until reimbursements are received from FEMA and/or the Texas Division of Emergency Management (TDEM). As of July 1, 2016 TEEEX had \$8,342,562 in expenses that have been incurred but not yet reimbursed for state ordered deployments since May 2015. The Agency does not receive any direct state appropriations in advance to cover deployment expenses. It often takes up to a year (sometime significantly longer) from incurrence of expenses until reimbursement. The result is that TEEEX foregoes earnings that it may have received on recovered indirect from methods of finance other than General Revenue. The estimated amount of annual lost earnings, based upon recent deployment history, is \$208,564.

EXTERNAL/INTERNAL FACTORS:

The combined amount of the 4% reduction and the lost earnings on recovered indirect from non General Revenue sources is an overall reduction in available funding of \$459,735 annually, or \$919,470 for the biennium. TEEEX uses recovered indirect to fund infrastructure and training improvements to meet increasing training needs across Texas. The loss of available funds impacts the amounts available for long term improvements in capacity and capability to meet the future training needs of Texas.

DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :

Restoration of base funding

DESCRIPTION / JUSTIFICATION:

Program Description: This exceptional item will allow TEEEX to create a regional response capability by purchasing a standardized Urban Search and Rescue (US&R) equipment cache for each Department of Public Safety Region of the State that allows for self-sufficient lifesaving operations for 24 hours, and which facilitates reduced response time. The requested funding will fund TEEEX standardized general and position specific US&R training to all regional task force members.

Incidents such as the West fertilizer explosion, the Garland and Rowlett tornadoes, the floods in Hays, Jasper, Fort Bend and Navarro Counties and tropical storms and hurricanes such as Alex, Rita and Ike demonstrate the need for a tiered Statewide Search and Rescue Regional Response System.

EXTERNAL/INTERNAL FACTORS:

Members of TX-TF1 Regional Task Forces will be considered volunteers. For nineteen years the members of TX-TF1 have volunteered their time to attend training. On average the task force conducts 28,000 participant hours of training a year. The annual value of the volunteer hours is calculated using the task force pay schedule at \$947,800. Based on the fire service average cost for training of \$35/hour the annual net value of the task force training delivered is \$980,000. Total investment by team members for training due to volunteer attendance and delivery is \$1,927,800 annually.

On behalf of the thousands of Texans who benefit from the state's assistance to TEEEX, the agency expresses its appreciation for the support that the Legislature and the Governor's office have provided in the past. TEEEX looks forward to continued support as the agency trains, serves and responds to the needs of Texas citizens.

Agency Code: 716 Agency name: Texas A&M Engineering Extension Service

GOAL: 3 Provide Emergency Response

OBJECTIVE: 1 Provide Emergency Response

STRATEGY: 1 Provide Texas Task Force One Capabilities

Service Categories:

Service: 33 Income: A.2 Age: B.3

CODE DESCRIPTION	Excp 2018	Excp 2019
OBJECTS OF EXPENSE:		
1001 SALARIES AND WAGES	680,400	680,400
1002 OTHER PERSONNEL COSTS	129,600	129,600
2003 CONSUMABLE SUPPLIES	375,000	375,000
2005 TRAVEL	141,510	141,510
2009 OTHER OPERATING EXPENSE	8,014,290	833,490
Total, Objects of Expense	\$9,340,800	\$2,160,000

METHOD OF FINANCING:

1 General Revenue Fund

Total, Method of Finance

9,340,800	2,160,000
\$9,340,800	\$2,160,000

FULL-TIME EQUIVALENT POSITIONS (FTE):

18.0 18.0

EXCEPTIONAL ITEM(S) INCLUDED IN STRATEGY:

Search and Rescue Regional Response System

4.C. Exceptional Items Strategy Request
 85th Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 8/10/2016
TIME: 5:19:03PM

Agency Code: 716 Agency name: Texas A&M Engineering Extension Service

GOAL: 5 Indirect Administration
 OBJECTIVE: 1 Indirect Administration
 STRATEGY: 1 Indirect Administration

Service Categories:

Service: 09 Income: A.2 Age: B.3

CODE DESCRIPTION	Excp 2018	Excp 2019

COMPARISON TO STATEWIDE HUB PROCUREMENT GOALS

A. Fiscal Year 2014 - 2015 HUB Expenditure Information

Statewide HUB Goals	Procurement Category	% Goal	HUB Expenditures FY 2014			Total Expenditures FY 2014	% Goal	HUB Expenditures FY 2015			Total Expenditures FY 2015
			% Actual	Diff	Actual \$	% Actual		Diff	Actual \$		
11.2%	Heavy Construction	72.6 %	2.4%	-70.2%	\$6,494	\$273,066	19.5 %	40.3%	20.8%	\$13,628	\$33,843
21.1%	Building Construction	8.3 %	57.6%	49.3%	\$1,431,145	\$2,483,909	8.3 %	55.9%	47.6%	\$1,787,301	\$3,197,026
32.9%	Special Trade	47.1 %	22.3%	-24.8%	\$128,268	\$576,116	41.7 %	22.5%	-19.2%	\$105,851	\$471,348
23.7%	Professional Services	6.2 %	0.0%	-6.2%	\$0	\$26,619	6.2 %	0.0%	-6.2%	\$0	\$20,305
26.0%	Other Services	17.8 %	4.3%	-13.5%	\$247,717	\$5,766,504	17.3 %	6.6%	-10.7%	\$396,011	\$5,977,118
21.1%	Commodities	30.4 %	29.4%	-1.0%	\$1,971,419	\$6,714,021	31.4 %	32.5%	1.1%	\$1,935,614	\$5,963,266
	Total Expenditures		23.9%		\$3,785,043	\$15,840,235		27.1%		\$4,238,405	\$15,662,906

B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained or exceeded 2 of 6 or 33% of the Statewide HUB procurement goals for FY14 and 3 of 6 or 50% in FY15.

The agency exceeded 1 of 6 or 16% of the Agency HUB procurement goals in FY14.

The Agency attained or exceeded 3 of 6 or 50% of the Agency HUB procurement goals in FY15.

Applicability:

The agency had expenditures in all procurement categories, however, the agency had minimal expenditures in the "Heavy Construction and the Professional Services" categories in FY14 and FY15.

Factors Affecting Attainment:

A challenge that the agency faces is the significant procurement purchases for highly specialized equipment and services which facilitate the agency's emergency response operations that are unique to contract requirements.

"Good-Faith" Efforts:

The agency made the following good faith efforts in Fiscal Years 2014 and 2015 to comply with statewide HUB procurement goals per the Texas Government Code Chapter 2161 and the Texas Administrative Code Title 34, Part 1, Chapter 20, Subchapter B:

* Participated in the Texas Procurement and Support Services HUB Discussion Workgroup and Texas Universities HUB Coordinators Alliance Central/Gulf Coast Chapter meetings

6.A. Historically Underutilized Business Supporting Schedule
85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

Date: 8/4/2016
Time: 10:22:32AM

Agency Code: 716 Agency: Texas A&M Engineering Extension Service

- * Hosted numerous and diverse Specialized HUB Vendor Forums
- * TEEX was represented at numerous Economic Opportunity Forums and Spot Bid Fairs throughout the State
- * Member of the TAMUS Cooperative Mentor/Protégé Program where the agency co-sponsored a mentor/protégé agreement
- * Conducted TEEX HUB Committee meetings to share vendor information and provide oversight
- * Attended pre-bid meetings to explain and to ensure that potential respondents understand and comply with HUB subcontracting plan requirements

USE OF HOMELAND SECURITY FUNDS

During FY15 TX-TF1 responded to the Austin-Travis Co Heavy Rains, West Texas "Pecos River" Flooding, March Severe Weather, May Severe Weather, Brownwood Flooding and Tropical Storm Bill. During FY16 TX-TF1 responded to Hurricane Joaquin IST, October Severe Weather (2), November Severe Weather, Thanksgiving Floods, December Winter Weather, March Severe Weather, April Severe Weather (3), May Severe Weather (2), June Severe Weather. Note that there were 14 events responded to in FY16 as opposed to 6 events in FY15. This is reflected in the increased costs to Other Operating Expenses in FY16.
