---

#### Overview

The University of Houston-Downtown (UHD) continues to mature as an institution, growing in academic reputation, complexity, and outreach. After 40 years of operating as an open-admissions institution, UHD has been implementing admission standards for both First-Time-In-College (FTIC) and Transfer students for the past three years. Another major change has been the growth of graduate programs in the last few years. Anchored by the Master of Business Administration (MBA) program, Masters-level enrollments have increased from just over 200 students in Fall 2012 to more than 1,000 in Fall 2015. However, transfer students continue to make up two-thirds of UHD's enrollment. Given the challenge of students accumulating excess hours in transferring to UHD and of the rising indebtedness of students, UHD is taking steps to strengthen its working relationships with its community college partners, including Houston Community College and Lone Star College.

In addition, UHD is now poised to grow its physical campus, having recently acquired a long-targeted tract of land located directly adjacent to its campus in downtown Houston, on which will be constructed the Science & Technology Building that was funded during the 84th legislative session.

In recent years, most budget increases at UHD have been dedicated to enhancing student success-initiatives such as expanding the number of advisors, peer tutors, and faculty mentors, as well as adding scholarships. When the state returned to UHD its \$1.5 million B-On-Time allocation, the institution used the funds to support retention scholarships for 880 FTIC students with a requirement to complete 24 credits a year in good standing. As we enter the fall 2016 semester, 78% of the students met the requirements. This result, along with improvement in other metrics such as increases in the number of hours completed, overall GPA, and the ABC rate in gateway courses (college algebra), are indicators of the transformational changes happening at UHD to improve student success.

#### Adjustments Made to Comply with the 4% Baseline Cut Made to the 2016-17 Appropriation

In compliance with the policy letter issued by the Office of the Governor, Budget Division and the Legislative Budget Board, UHD has reduced by 4% its base appropriation. The 4% reduction is being applied just to an institution's existing special items plus worker's compensation. Because of this, the total biennial cut for UH-Downtown (UHD) would amount to \$226,956. With a current, unrestricted operating budget of \$137 million, a cut of this magnitude would not be considered insurmountable. However, a closer examination of UHD's operation reveals that such a cut would have a negative impact on UHD.

First, it should be noted that other than the Institutional Enhancement item, which is provided to all state universities, UHD receives very little in the way of special item funding. In fact, on a per student basis, UHD's special items appropriation is among the lowest in the state. Other institutions with multiple special items will be able to make disproportional cuts to those items in order to protect core operating funds. More than 80% of UHD's total special item funding comes through Institutional Enhancement (I/E). For all Texas public universities I/E funding is operating funds. Of the \$226,956 that UHD would have to cut, more than \$183,000 would come from the Institutional Enhancement strategy. This would only add to UHD's ongoing challenge of identifying sufficient operating funds to fulfill its mission.

In order to remain affordable to the students it serves, UHD has one of the lowest tuition rates in the state, approximately 15% below the statewide average. UHD also receives the lowest Appropriated Funds-per-FTE Student of any Texas public university, at \$3,703. As a result, UHD is significantly understaffed, with a Staff-to-Faculty ratio that is far below the state average and a Student-to-Faculty ratio that is one of the highest in the state. While UHD's 4% cut may appear minimal, its impact is significant when viewed in the context of the resources that the university needs to support underrepresented students who come to the university under-prepared to do college work. A measure of UHD's resource struggle is the fact that reallocation of existing resources has become a significant way to fund the increasing the number of advisors, faculty mentors, peer tutors and scholarships.

**784 University of Houston - Downtown**

---

University of Houston System 2018-19 Legislative Priorities

The University of Houston-Downtown legislative priorities are congruent with the UH System priorities. The university's highest priority is an increase to base formula funding. UHD appreciates the progress that the legislature has made in the last two sessions to restore formula funding to 2011 levels. The momentum that UHD has developed in the past few years in terms of improving student success would be greatly enhanced if the 85th legislature would close the remaining 11% gap. Approximately 80% of UHD's full-time students receive on average \$10,000 in scholarships, grants and loans per year, an indication of how important financial aid is to students. In FY16, 1,194 students received over \$6.5 million in Texas Grant funding. This funding allows students to work less, enroll in more classes, and graduate in a timely manner. Congruent with UHD's student success metrics, the Texas Grant requires students to earn 24 credit hours a year while remaining in good standing. UHD urges the legislature to increase funding for the Texas Grant program.

For the third consecutive year (sixth total), in 2017 UHD has been named a Military Friendly School, as one of the top universities in the nation committed to the success of service members. Over 500 veterans are enrolled at UHD. A challenge associated with serving these veterans is that since 2013, UHD's Hazlewood exemption has increased from \$958,269 to \$1,682,629 in 2016. The university asks that the state appropriate resources to cover all the exemptions that support veterans and their families, thereby lowering the burden placed on other students to cover this cost.

While we recognize the challenge that faces the legislature due to a decrease in oil and gas related revenues, we ask that UHD's 4% cut be restored. A 4% cut of \$183,000 to the university's operating budget will reduce the already insufficient number of faculty and staff needed to support student success.

These are exciting times for UHD as its multi-year plan for institutional transformation is beginning to show clear signs of success. An increase to UHD's state appropriation by the 85th legislature will greatly contribute to UHD sustaining its momentum.

**Significant Changes in Policy**

In recent years, UHD has seen significant changes in policy and in the way that it operates. The new admission standards, along with improved advising, cutting-edge pedagogy, and an institutional commitment to further strengthen ties with community college partners, are already beginning to move the needle on student success. The UHD Progress Card, which tracks key performance measures that are reviewed annually by the UHS Board of Regents, shows steady improvement in the First-Year Retention Rates for both Transfer students and FTICs. These improvements in retention are a precursor for improved graduation rates.

In examining student performance since the implementation of these admission standards, there has been marked improvement in several key areas. Not only are FTICs being retained at a higher rate, they are posting significantly higher GPAs in their first semester. In Fall 2012, prior to FTIC admission standards, the average GPA for an FTIC after one semester was 2.21. By Fall 2015, it had risen to 2.53. Since the implementation of admissions standards, students are attempting more hours (13.3 in Fall 2015 versus 12.3 in Fall 2012) and completing more hours (11.5 in Fall 2015 versus 9.5 in Fall 2012). During this period, the percentage of students who earned all of the hours they attempted jumped from 51 percent to 67 percent. Through course redesign and improved pedagogy, UHD students are performing better in courses that have historically been gateways to academic progress, such as Algebra I. In Fall 2012 the ABC Rate (percent of students earning an A, B, or C) for Algebra I was 54%. By Fall 2015 that ABC Rate in the redesigned Algebra I course had climbed to 69%.

While success with FTICs is vital, of equal importance is that UHD succeed with Transfer students, who comprise two-thirds of the enrollment of the university. The UHD strategic plan emphasizes the importance of developing strong alliances with our community college partners. To this end, the university has coordinated efforts to advise and guide students. UHD's most senior leaders meet regularly with their community college peers to explore ways they might advance the state's primary 60X30

### 784 University of Houston - Downtown

---

goal of having 60 percent of its 25-to-34-year-old workforce hold a postsecondary credential by 2030. With the THECB's plan placing a heavy emphasis on adult learners, UHD, with its average student being 27 years old, is well positioned to make a significant contribution.

UHD is similarly prepared to contribute to the other three goals outlined in the 60X30 plan. The second 2030 goal calls for Texas institutions to produce 550,000 students who will in that year be completing work on a degree or certificate. The 2,573 degrees and certificates awarded by UHD in 2014-15 was an all-time high and marked a 6.3% increase over the prior year. The third goal speaks to the importance of completed degree programs equipping students with identified marketable skills. UHD's mission statement underscores the institution's commitment to "providing strong academic and career preparation," and its College of Business has engaged business and industry leaders in program development to ensure that UHD business graduates enter the workforce ready to perform at a high level. Lastly, the 60X30 plan sets the goal of ensuring that by 2030, undergraduate student loan debt will not exceed 60 percent of the first year wage for graduates of Texas public universities. UHD prides itself on being among the best values in Texas public higher education. For FY2017 a student enrolling in 30 undergraduate hours at UHD will pay \$6,938, which is 13% below the FY2016 statewide average of \$7,986.

UHD is also the first institution in the state to offer a 5 year tuition guarantee, as befits our first-generation, Hispanic Serving Institution (HSI), minority serving, and veteran focus. Students taking 24 semester credit hours a year and remaining in good academic standing will be able to lock in tuition/fee rates for 15 consecutive semesters. This model better fits the UHD student profile and will ensure that students can graduate within the six years.

While UHD is evolving to become a different type of institution, in important ways it remains unchanged. Many of the students being served by UHD continue to come from groups historically underrepresented in higher education. At present, the UHD student body is 44% Hispanic, 25% African-American, 18% Anglo, and 10% Asian. More than 50% of UHD students are the first in their families to attend college. The majority work while attending school. These students require specific types of support in order to maximize the probability that they will succeed academically and ultimately earn a degree. They must be well advised, monitored through the early weeks of a new class, assisted as needed via faculty and/or peer tutoring, and mentored throughout their college careers. Many of these students may also need a strategic infusion of institutional scholarship funds to keep them on track. UHD remains committed to providing all of this needed support.

#### Significant Changes in Provision of Services

The changes made with admission standards are reshaping the student body at UHD in positive ways. Improved retention rates have resulted in UHD delivering a steadily increasing number of hours at the upper division level (Junior/Senior), and by raising the bar academically the university is coming to be viewed more favorably by prospective students. This is perhaps most evident at the graduate level, where UHD has seen tremendous growth over the past four years. Much of this growth has been driven by graduate certificates that the faculty in the College of Business developed with representatives from Houston corporations. These certificates, along with new Masters degrees in Non-Profit Management and Data Analytics, have increased the percentage of graduate SCHs from less than 1% in the Fall of 2012 to 4% in 2015.

While this growth at the graduate level is encouraging, UHD is and will remain an institution committed to undergraduate instruction. To enhance student success at the undergraduate level, UHD has taken numerous actions. Student advising has been strengthened considerably over the past five years, with 15 new advisor positions added and an expanded, technology-enabled Advising Center constructed in the core of the campus. The university also developed a Center for Teaching and Learning Excellence (CTLE) as a resource for faculty. Faculty work with the Center's staff to redesign courses so as to make them more effective for the learning needs of UHD students. UHD has also adopted best practices for improving retention, including placing cohorts of students into linked classes, and using student/peer instructors to supplement the work of the faculty in several of the courses that have been identified as gateways to academic progress.

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

### 784 University of Houston - Downtown

---

In Summer 2016, UHD radically revised its Orientation programs for both FTICs and Transfer students. Moving away from the one-day, mix-and-match sessions of the past, UHD moved to a college-specific, full week Orientation program that brought incoming students into contact with all aspects of the university experience. This included time spent in mock classes, sessions on the study habits needed for success at the university level, tours of the library and computer labs to familiarize students with the academic resources at their disposal, as well as intensive advising and deliberate class registration to ensure that all hours taken would count towards the student's chosen major. This new Orientation program, titled 'Gator Gateway' was extremely well attended and well received.

Strengthening its partnerships with area community colleges continues to be a priority for UHD. Over the past 10 years the number of students transferring to UHD from community colleges has increased by over 50 percent. The university now embeds advisors at these 2-year schools, where they are able to work closely with their community college peers to ensure the best possible experience for the many students who are choosing the 2+2 option. Students who are jointly advised are much more likely to enroll in courses that not only satisfy their certificate or associate degree requirements, but are also transferrable to UHD and applicable to their pursuit of a baccalaureate degree. UHD and partners like Houston Community College (HCC) and Lone Star College (LSC) now offer 2+2 students a variety of AA/BA, AS/BS, and AAS/BAAS tracks. As a result of this collaboration, UHD and its community college partners are able to reduce the total number of earned hours for students who transfer in and graduate, thereby reducing the time-to-degree for those students and keeping to a minimum the amount of student loan debt that might be incurred.

UHD continues to be a university that meets students where they are. Serving many adult and working students, this means providing instruction that can fit busy schedules. UHD offers face-to-face instruction at several remote locations around Houston, including UHD Northwest, located at Lone Star College's University Park campus. Fall 2015 face-to-face (F2F) enrollment at this site increased by 14% over the previous year. UHD's area of greatest growth continues to be in on-line and hybrid instruction. In Fall 2015, on-line courses accounted for 26% of all UHD hours, while hybrid courses, which are a mixture of F2F and on-line, accounted for another 11 percent.

As the University continues to mature and evolve, it is critical that facilities and infrastructure keep pace. In Fall 2015, UHD opened its newest building, the Girard Street Building (GSB). The GSB is built on a podium of three levels of garage, replacing spaces lost with the demolition of an aging garage previously in that location. In addition, the GSB provides new state-of-the-art space for numerous important student services functions, including the Admissions Office, Testing Services, Disability Services, and Veterans Services. On the west end of the GSB is UHD's new Welcome Center. The Welcome Center, with its striking views of downtown Houston, provides programming space for Orientation and community events and serves as a much-needed 'front door' for prospective students and other visitors coming to campus.

UHD is now working to construct a new Science and Technology (S&T) Building, made possible by the tuition revenue bonds approved by the legislature during the 84th session. A long-sought 17 acre parcel was acquired in the spring of this year. This parcel nearly doubles the total land holdings of UHD, providing an ideal location for the new S&T Building and the expanded footprint needed to support the institution's Facilities Master Plan. UHD is in the final stages of selecting a design/build team for the S&T Building, which is expected to be completed by the summer of 2019.

#### Significant Externalities

The State's increased emphasis on student success, when combined with the fact that legislative funding for higher education is still below 2011 levels, has presented major challenges for the University of Houston-Downtown. The university's decision to adopt a minimal admission standards in 2013 was driven in part by legislative actions such as the scaling back or elimination of funding for developmental course work, repeated courses, and hours in excess of the state's undergraduate cap on hours attempted by students. Further, as we enter this 85th legislative session there remains considerable support to at least partially fund higher education institutions on a performance basis, with future funding tied to measures of student success. UHD is encouraged that the Texas Higher Education Coordinating Board's proposed

## Administrator's Statement

Automated Budget and Evaluation System of Texas (ABEST)

---

### 784 University of Houston - Downtown

---

performance based model recognizes the importance of having simple and clear metrics, such as increases in the total number of degrees awarded, and that many universities in the state that are serving underrepresented and underprepared students require additional funding for student support initiatives not funded in the traditional I&O formula. Such funding would allow UHD to move forward on its highest priority, student success, and in so doing better align itself with the Coordinating Board's 60X30 goals.

Like most institutions, UHD is increasingly concerned about student indebtedness. As the cost of attending college continues to rise, access to financial aid takes on ever-growing importance. Most financial aid comes through the federal government, and for low-income students the Pell Grant program is the lifeline to higher education. In 2012-13 the Department of Education put in place new Pell Lifetime Eligibility Usage (Pell LEU) rules, reducing the maximum eligibility for Pell from 18 semesters to 12. This change made it all the more critical that students pursue their degrees in a timely manner. UHD, which serves many first-generation college students, had a number of students who were impacted by this change. In 2013-14, the year after this change was made, UHD's mix of federal financial aid was 35% Pell Grants and 65% student loans. Just two years later those figures had shifted to 31% Pell and 69% loans. Putting that in dollar terms, this meant \$2 million less in Pell grants and \$5.5 million more in loans for UHD students.

While UHD has a long history of maintaining affordability, in the battle against student debt, low tuition and fee rates alone are not enough. The keys to reducing student indebtedness, beyond offering reasonable rates, are to minimize the number of hours a student takes that are beyond what is needed for their degree, and to increase students' overall financial literacy. With FTIC students, it is critical that they declare their major as early as possible, so that they can be well-advised and placed on a guided pathway to their degree. For Transfer students, it is important to minimize the number of surplus credit hours that they bring with them from other institutions. For students who are starting their college career at a community college with plans to eventually transfer to a 4-year school, their level of indebtedness, like their level of academic success, depends on UHD and the community college working together to create clear pathways from the associate degree to the bachelor's degree, and jointly advising these students.

#### Purpose of New Funding Being Requested

UHD opens its request for new funding by asking the legislature to restore funding for the Instruction and Operations (I&O) formula to the 2010-11 rate. For that biennium, the base SCH rate for the I&O formula was \$62.19/SCH. Due to temporary stimulus funding received through the American Recovery and Reinvestment Act (ARRA) of 2009, the full impact of the Great Recession was not felt in the Texas higher education formulas until the 2012-2013 biennium, when the base SCH rate was reduced to \$53.71/SCH. By the 2016-2017 biennium this rate had been increased to just \$55.39/SCH, still 11% below the base funding that had been provided three sessions ago. In addition to its request for increased formula funding, UHD is also asking for an increase to the Texas Grant funds and for relief to cover Hazlewood exemptions and the state's 4% cut. UHD is also requesting funding for two exceptional items.

#### Center for Urban Agriculture & Sustainability (\$600,000 for the biennium)

The Center for Urban Agriculture & Sustainability (CUAS) was established in 2015 with institutional and private funding. The mission of the CUAS is to create and support sustainable neighborhoods throughout Houston by engaging UHD and the external community in teaching, research and professional development and promoting best practices in business, technology, science and engagement. UHD requests exceptional item funding to expand CUAS through the construction of a greenhouse and outside agricultural laboratory. This greenhouse/lab will be placed on land that will be adjacent to the new Science & Technology Building, a project funded during the last session that is now getting underway. Included in this request is funding for a staff position to help support and expand the current initiatives led by faculty. UHD is requesting \$375,000 in FY2018 and \$225,000 in FY2019, for a biennial total of \$600,000.

Automated Budget and Evaluation System of Texas (ABEST)

---

**784 University of Houston - Downtown**

---

**Internships – A Pathway to Career Success (\$700,000 for the biennium)**

In spring 2015, the Center for Community Engagement and Service Learning (CCESL) was established with institutional funding and private philanthropy. The mission of the CCESL is to connect the university to the community by cultivating local and regional relationships with non-profit organizations, government agencies, businesses, and individuals, thus enhancing student learning, developing responsible citizenship, and serving the community. Recognizing UHD's excellence in this area, in 2015 the Carnegie Foundation designated UHD with its coveted Community Engagement Classification. UHD was the only institution in Houston and one of only five institutions in Texas to earn this designation.

UHD requests funding to provide summer stipends for students pursuing internships in their junior and senior year with non-profit organizations, which are hard-pressed to attract students due to their inability to provide paid internships. This item also recognizes that for minority students, like those served by UHD, taking an unpaid internship is often not an option due to their financial obligations. Through this request, UHD is seeking to enhance career exploration pathways by proposing stipends to support 8-week summer internships (20hr/week). To qualify for this stipend, students would be required to take 6 credit hours in the summer, allowing them to stay on track to graduate in a timely manner while obtaining valuable work experience. Summarizing, this internship initiative will help students build their careers and at the same time enhance the non-profit workforce in the Greater Houston Metropolitan area. UHD is requesting \$300,000 for FY2018 to support internships for 75 students and an additional \$400,000 in FY2019 to support internships for 100 students.

**Proposed 10% Biennial Base Reduction**

An additional 10% reduction of UHD's GR-related base budget would cut its 2018-19 appropriation by \$544,696. This amount combined with the 4% cut would total \$771,652 over the biennium. In effect, this would have the state taking back 17% of the \$4.4 million of new general revenue appropriated to UHD for the 2016-17 biennium. Because UHD has only two special items, \$622,451 of the \$771,652 will come from Institutional Enhancement funds. As is the case with the 4% cut, UHD uses Institutional Enhancement to fund general operations, not unlike the way it uses its I&O funding. Since personnel makes up two-thirds of the university's operational budget, a 10% reduction would almost inevitably require the elimination of full-time faculty and staff positions. Students would face problems with course availability, and departments would have to hire part-time adjuncts to replace permanent faculty. In other words, the likelihood of students earning a degree in a timely manner would be diminished. Campuses with substantial endowments and more advantaged student bodies can ameliorate such cuts; these rollbacks would cut into UHD sinew.

**Conclusion**

As UH-Downtown prepares for the 2018-2019 biennium, it is truly a university in transition. Its priority of increasing the number of students who graduate with certificates and degrees aligns with the state's 60X30 goal of doubling by 2030 the number of Texans ages 24-35 with postsecondary credentials or degrees. As mentioned above, in 2015 UHD increased the number of degrees and certificates it awarded by 6.3%. At that rate by 2030, UHD will also double the number of academic credentials it awards. In order to achieve this benchmark, UHD, in accord with the 60X30 plan, will continue to work with business, industry, educational and governmental agencies to create curricula and programs that develop students' marketable skills. In terms of the 60X30 plan to limit student debt, UHD will sustain its track record of affordable tuition and fees as well as its effort to decrease the excess semester credit hours that students attempt when completing an associate and bachelor's degree.

UH-Downtown is very grateful to the 84th legislature that significantly increased its state appropriations. Not only was its base funding increased, but its Higher Education Assistance Fund (HEAF) allocation was increased by 50%, and it was awarded a \$60 million Capital Construction Bond (CCB) to construct a Science &

Technology building. These additional resources are vital to the continued growth and development of the university. With continued legislative support, especially with such items as base formula funding, Texas Grants, and Hazlewood exemptions, UHD will continue to serve the diverse population of the state of Texas in achieving their academic and career goals.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expenses, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

These funds serve as seed money for community-based efforts to revitalize two separate economically depressed north side neighborhoods - the predominately African-American Acres Homes subdivision and the largely Hispanic area known as the near north side. Projects in both areas have their own boards that oversee a variety of economic development and community enhancement efforts. These boards, which are required to provide periodic status reports to the university leadership, operate with a high degree of autonomy.

In recent years a portion of the annual allocation has been made available to the university. UHD faculty can apply for Community Development grants to fund programs that involve UHD students. UHD students worked to introduce inquiry-based learning of science to elementary school teachers and students. Other UHD students focused on community campaigns to spay, neuter, and vaccinate animals. In Kegan State jail, graduate English majors developed and implemented a prison literacy program to prepare incarcerated young men to take the GED. UHD STEM undergraduate students mentored middle school aged students, encouraging them to consider attending college and majoring in STEM.

The community needs that are addressed through this item far outstrip the funding available. The funds support youth leadership and development programs, summer educational enrichment programs for at-risk children, supplemental nutrition, women’s empowerment, and other vital community needs.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

This item was first created by the 76th Legislature and has been adjusted numerous times over the years. While the basis for this funding ties back to discontinued special items that were rolled up into a single line, the fact is that Institutional Enhancement funds have become de facto operating dollars for state universities, comparable in terms of use to what is received through the Operations Support formula.

The Texas Comprehensive Research Fund provides funding to promote increased research capacity at eligible general academic teaching institutions including those other than The University of Texas at Austin, Texas A&M University or any institution designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system. Funding is to be expended for the support and maintenance of educational and general activities, including research and student services, that promote increased research capacity. A legislatively determined amount of funding is allocated based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

<b>FULL-TIME EQUIVALENT POSITIONS (FTE):</b>		1.00	1.00

**DESCRIPTION / JUSTIFICATION:**

UHD requests as an exceptional item restoration of the 4% reduction that had been, as instructed, incorporated into its initial 2018-2019 LAR submission. The reduction was applied to existing special items, which for UHD are Institutional Enhancement and Community Development. Workers' Compensation Insurance was reduced by \$6,040 (annual). The total biennial reduction amounted to \$226,956.

Because UHD has historically received a minimal amount of special item funding, the majority of the 4% reduction – approximately 81% - came from Institutional Enhancement (I/E). For Texas public universities I/E funding is overwhelmingly used to fund basic operations, and because it is general revenue it is primarily used by all to pay faculty and staff salaries. It is entirely reasonable to suggest that at UHD this \$91,537 (annual) of I/E money funds 1.5 Academic Advisor or Financial Aid Counselor positions, or a full-time faculty position in Natural Sciences, Mathematics, or Criminal Justice, or perhaps 2 police officer positions.

The remaining \$15,901 (annual) of the reduction came from UHD's Community Development item. This money is used to support community development projects in some of Houston's lowest-income neighborhoods, With these funds UHD faculty and students are able to engage these communities through service learning projects, enriching both the communities and the students/faculty.

Restoration of this \$113,478 (annual) will enable UHD to maintain its current staffing level, which is currently well below the state norm, and continue its work in the area of community engagement, something for which UHD has been nationally recognized (Carnegie designation).

**4.A. Exceptional Item Request Schedule**  
 85th Regular Session, Agency Submission, Version 1  
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: 10/17/2016  
 TIME: 8:13:38PM

Agency code: 784

Agency name:  
**University of Houston - Downtown**

CODE	DESCRIPTION	Excp 2018	Excp 2019
------	-------------	-----------	-----------

**EXTERNAL/INTERNAL FACTORS:**

UHD currently receives the lowest Appropriated Funds-per-FTSE of any public university in Texas. Despite this, UHD strives to keep higher education affordable for the students it serves, offering tuition/fee rates that are among the lowest in the state. For this reason, the 4% reduction, particularly as it disproportionately hits Institutional Enhancement, will be operationally impactful for UHD. Among Texas public universities, UHD already has one of the lowest, if not the lowest, FT Staff-to-FT Faculty ratios in the state. This 4% reduction, if sustained, will likely result in there being even fewer staff to serve the students/faculty of UHD.

Major accomplishments to date and expected over the next two years: Has been used to support core operations, primarily in the form of salary/benefits funds for needed faculty/staff positions. If restored, will be used to support core operations, primarily in the form of salary/benefits funds for needed faculty/staff positions.

Year established and funding source prior to receiving special item funding: 2018, existing Institutional Enhancement special item funds.

Formula funding: None

Non-general revenue sources of funding: None

Consequences of not funding: The cost of not having these funds restored would be reduced staff/faculty to serve the students attending UHD, many of whom are at-risk and need more support, not less.

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

Because UHD is currently receiving these funds that are proposed to be cut, the out-year costs would remain at the same level of funding. The cost of not having these funds restored would be reduced staff/faculty to serve the students attending the university, many of whom are at-risk and need more support, not less.

**DESCRIPTION / JUSTIFICATION:**

UHD requests exceptional item funding to expand its Center for Urban Agriculture & Sustainability (CUAS) through the construction of a greenhouse and outside agricultural laboratory. This greenhouse/lab will be placed on land that will be adjacent to the new Science & Technology Building, a project funded during the last session that is now getting underway. Included in this request is funding for a staff position to help support and expand the current initiatives led by faculty. Houston is the fourth largest city and one of the fastest growing in the country. However, according to the 2016 Healthy Living Matters report, the average age of farmers in the region is 57 years old. Despite an aging agricultural workforce, demand for both locally grown and organic food is increasing, with most of that demand now being met by product that is imported from out of state. For the stability of the Harris County food system, the economic benefit of the region, and the health of its people, Houston needs to create a healthy, sustainable food system that supports the creation of new urban farms, community gardens, and backyard growing. Given the clear link between the quality of food systems and childhood obesity, improving the food systems in Houston should reduce the staggering costs of childhood obesity in the region. In Harris County 1 in 3 children are overweight or obese, and obesity in Harris County is now estimated to cost \$3 billion annually. Houston has a number of non-profit organizations and local agencies dedicated to addressing issues of sustainable planning and food availability. There is a need for an academic center in the downtown area that can conduct applied research and connect research to these active community groups. UHD's CUAS will address goals – increasing urban food production, becoming a leader in sustainable technologies and business, reducing our global carbon footprint, and creating stable urban ecosystems.

**EXTERNAL/INTERNAL FACTORS:**

The City of Houston has leveraged millions of dollars into green energy and other sustainability initiatives. Non-profit organizations such as Houston Tomorrow have supported policy and funding for sustainable development. The CUAS is engaged with community research projects, for example, working with Texas A&M AgriLife Extension Service for Harris County to conduct experiments on plant varieties and organic pesticides for urban environments. The CUAS has created solar-powered irrigation systems both at the UHD Sustainability Garden and Target Hunger's Kashmere Gardens. The CUAS will also initiate a project at the new Seeds of the Soil garden in

<b>CODE</b>	<b>DESCRIPTION</b>	<b>Excp 2018</b>	<b>Excp 2019</b>
-------------	--------------------	------------------	------------------

Houston’s Fifth Ward. These community connections, including a collaboration with Houston Community College, will allow more students to engage in finding solutions to grow Houston’s urban agriculture. UHD plans to develop continuing education certificates in the areas of urban agriculture and sustainability to educate the community. Educating UHD students with the initiatives of the CUAS will directly impact the neighborhoods where many UHD students live.

Major accomplishments to date and expected over the next two years: This program grew out of a USDA NIFA grant funded 6 years ago. Recently, we built gardens and infrastructure (solar irrigation systems). Food from these gardens is distributed by non-profits to the homeless. Next year, students will work on research projects (organic pesticides, variety trials for urban environments). Continuing education will support demand for local food and a sustainable Houston.

Year established and funding source prior to receiving special item funding: CUAS was established in 2015 with institutional and funding from WCA waste management company. In 2016, USDA NIFA awarded UHD a \$250,000 grant for development of the CUAS.

Formula funding: None

Non-general revenue sources of funding: Federal, institutional, private.

Consequences of not funding: Seek alternate funding.

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

The vision of the CUAS is that Houston citizens will apply their knowledge and resources to create sustainable neighborhoods throughout the city. To this end in the out-years, costs would include staffing of the center including the greenhouse and gardens as well as a scaling up of this multi-disciplinary program through entrepreneurial projects across the city.

**DESCRIPTION / JUSTIFICATION:**

UHD requests funding to provide summer stipends for students pursuing internships in their junior and senior year with non-profit organizations, which are hard-pressed to attract students due to their inability to provide paid internships. This item recognizes that internships are among the most impactful in creating a smooth transition from the classroom to careers and will extend our existing initiatives of community engagement. This item also recognizes that minority students, like those served by UHD, have long been underrepresented when it comes to participation in internship programs as low-income students, taking an unpaid internship is often not an option due to their financial obligations.

UHD's mission focuses on academic and career preparation, and has a strong commitment to serving minority students and the Houston Metropolitan area. UHD has been successful at providing experiential learning opportunities such as undergraduate research, study-abroad, and community engagement experiences for its students. These drive students to engage in higher-order thinking as they pair their classroom learning with "real-world" experiences. Through this request, UHD is seeking to enhance career exploration pathways by proposing stipends to support 8-week summer internships (20hr/week). To qualify for this stipend, students would be required to take 6 credit hours in the summer, allowing them to stay on track to graduate in a timely manner while obtaining valuable work experience.

Furthermore, internship opportunities will be developed with non-profit organizations, thus supporting the non-profit sector in Greater Houston. In addition to a Masters in Non-Profit Management that is closely tied to the non-profit sector, UHD programs in criminal justice, social work, and business have also developed strong relationships with community partners. UHD plans to leverage these existing relationships to encourage private philanthropy to support the program.

**EXTERNAL/INTERNAL FACTORS:**

Nearly 60% of employers taking part in National Association of Colleges and Employer's (NACE) Job Outlook 2015 survey said that they prefer to hire job candidates with work experience gained through internships or co-op experiences. Nationally, more than half of intern/co-op students had served in their preferred industry but only 25%

<b>CODE</b>	<b>DESCRIPTION</b>	<b>Excp 2018</b>	<b>Excp 2019</b>
-------------	--------------------	------------------	------------------

worked for non-profit organizations. Moreover, African-American and Hispanic-American students are less likely to have had an internship experience than White, multiracial, or international students. With UHD's student population being 45% Hispanic and 25% African American, its graduates are at a disadvantage even before they enter into the workforce.

At UHD less than 5% of students have access to internship opportunities, and that includes mandatory internships for certain programs, which have proven to be very impactful. In the Urban Education program, where field experience in a classroom is part of their graduation requirement, 93% of students get a job in their field upon graduation. This internship initiative builds on UHD's nationally recognized track record in community engagement and will help students build their careers in one of the fastest growing sectors in our region.

Major accomplishments to date and expected over the next two years: UHD was designated the 2012 US President's Higher Education Community Service Honor Roll with Distinction and the 2015 Community Engagement Classification from The Carnegie Foundation. UHD plans to build on its strength in community engagement by doubling the number of internships available to UHD students.

Year established and funding source prior to receiving special item funding: In spring 2015, the Center for Community Engagement and Service Learning was established with institutional funding and private philanthropy.

Formula Funding: None

Non-general revenue sources of funding: Institutional & private.

Consequences of not funding: Seek alternate funding.

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

UHD plans to leverage the existing community relationships to encourage private and public philanthropy to support this program. The goal is to at least double the number of students doing summer internships and not allowing their financial obligation to refrain them from achieving their career goals.

**ESTIMATED ANTICIPATED OUT-YEAR COSTS FOR ITEM:**

**B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals**

**Attainment:**

The agency attained four of the five applicable UHD HUB procurement goals in FY 2014 in the following categories: Special Trade Construction, Professional Services, Other Services and Commodities but in FY 2015 the university attained three UHD HUB goals in the Building Construction, Special Trade and Professional Services categories.

**Applicability:**

Five of the six categories of eligible expenditures are relevant to a university, although some are more ongoing than others. The Heavy Construction procurement category is not applicable to university expenditures. In any given year the university will have considerable expenditures in both the Commodities and Other Services categories. Expenditures in the Construction and Professional Service categories are generally tied to building projects, which require extraordinary funding and occur intermittently.

**Factors Affecting Attainment:**

UH-Downtown strives to live up to the spirit of HUB laws by making efforts to engage Black and Hispanic owned businesses. In FY 2014, almost 50% of HUB volume was with Black and Hispanic owned businesses. In FY 2015 Black and Hispanic owned businesses accounted for 51% of the total. A number of large volume businesses (office supplies, computer equipment) have now established third-party arrangements that have enabled agencies to improve their HUB participation rates.

**"Good-Faith" Efforts:**

The University made the following good faith efforts to comply with statewide HUB procurement goals as stated by Goals 20.13 TAC 20 Section Chap. 20.11 through 20.28.

**6.A. Historically Underutilized Business Supporting Schedule**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

Date: **10/17/2016**  
Time: **8:13:40PM**

---

Agency Code: **784** Agency: **University of Houston - Downtown**

- \* Sponsored two HUB fairs to promote HUBs to university departments and within community.
- \* Held purchasing workshops and training sessions conducted with emphasis on HUB programs.
- \* Established exhibits at HUB procurement expos sponsored by the Houston Minority Business Council (HMBC).
- \* Attended HUB discussion meetings to keep up with HUB rules and regulations.
- \* Cultivated relationships with the new HUB vendors and introduced them to the university community.

**6.I. Percent Biennial Base Reduction Options**

**10 % REDUCTION**

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

Date: 10/17/2016

Time: 8:13:40PM

Agency code: 784 Agency name: University of Houston - Downtown

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET
	2018	2019	Biennial Total	2018	2019	Biennial Total	

**1 Community Development Project**

**Category:** Programs - Service Reductions (Other)

**Item Comment:** The Community Development special item is funded entirely with general revenue funds and will be subject to 10 percent reduction. These funds support community-based initiatives. The impact will be fewer service learning opportunities for UHD students.

Strategy: 3-3-1 Community Development Project

General Revenue Funds

1 General Revenue Fund	\$0	\$0	\$0	\$38,163	\$38,163	\$76,326
<b>General Revenue Funds Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$38,163</b>	<b>\$38,163</b>	<b>\$76,326</b>
<b>Item Total</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$38,163</b>	<b>\$38,163</b>	<b>\$76,326</b>

**FTE Reductions (From FY 2018 and FY 2019 Base Request)**

**2 Institutional Enhancement**

**Category:** Administrative - Operating Expenses

**Item Comment:** The majority of UHD's non-formula special item funding comes through the Institutional Enhancement item, an item that all institutions receive and money that is universally treated as general use operating dollars, not unlike Instruction & Operations formula dollars. If the 10 percent GR-related base budget reduction is enacted UHD would have \$439,378 less in the upcoming biennium to meet basic operating needs. Needed new faculty lines could not be added, the hiring of critical students support staff positions would be put off, class sizes could increase and fewer courses would be put on the schedule. The overall effect would be to diminish the university experience for UHD students in ways that would reduce their likelihood of earning a degree, or earning a degree in a timely manner.

Strategy: 3-4-1 Institutional Enhancement

General Revenue Funds

---

**784 University of Houston - Downtown**

---

**Special Item:**     1       **Community Development**

**(1) Year Special Item:**             2000  
Original Appropriations:   \$300,000

**(2) Mission of Special Item:**

These funds serve as seed money for community-based efforts to revitalize two separate economically depressed north side neighborhoods - the predominately African-American Acres Homes subdivision and the largely Hispanic area known as the near north side. Projects in both areas have their own boards that oversee a variety of economic development and community enhancement efforts. These boards, which are required to provide periodic status reports to the university leadership, operate with a high degree of autonomy.

**(3) (a) Major Accomplishments to Date:**

The bulk of the funds directly support youth leadership and development programs, summer educational enrichment programs for at-risk children, supplemental nutrition, women's empowerment, and other vital community needs.

The service learning allocation made to UHD supports community needs in a more indirect way, providing grants to faculty members who build community engagements/service learning into their curricula. Four examples of these grants are projects that UHD students engaged in at Crockett Elementary School, Freddie's Hope Rescue Ranch, Kegan State Jail, and Burbank Middle School. Last year, 133 UHD students spent a total of 1,347 hours in these community centers addressing such issues as prison literacy, STEM education, and animal health.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Funds received for the FY2018/19 biennium will be used for much the same purpose as the funds received in previous biennia. The University is grateful that a portion of the funding provided through this item is made available to support its efforts in service learning.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Unfunded

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

---

**784 University of Houston - Downtown**

---

**(8) Non-general Revenue Sources of Funding:**

None

**(9) Consequences of Not Funding:**

An opportunity to lift these economically depressed neighborhoods would be lost, as would the opportunity to provide community development service learning opportunities to UHD Students.

---

---

**784 University of Houston - Downtown**

---

**Special Item:**     2       **Institutional Enhancement**

**(1) Year Special Item:**             2000  
Original Appropriations:   \$2,292,477

**(2) Mission of Special Item:**

This item was first created by the 76th Legislature and has been adjusted numerous times over the years. While the basis for this funding ties back to discontinued special items that were rolled up into a single line, the fact is that Institutional enhancement funds have become de facto operating dollars for state universities, comparable in terms of use to what is received through the Operations Support formula.

**(3) (a) Major Accomplishments to Date:**

The Institutional Enhancement (I/E) item is an anomaly, as unlike traditional special items it is not provided to support some very specific need. Rather, I/E funds support general operations. Given this, it is a challenge to identify 'major accomplishments' that can be tied to this funding. The major accomplishment is that the funding helps UHD cover general operating expenses.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Funds received for the FY2018/19 biennium will be used for much the same purpose as I/E funds received in previous biennia - to address general operating needs.

**(4) Funding Source Prior to Receiving Special Item Funding:**

The Academic Support Lab and CEC were separately funded special items prior to the establishment of Institutional Enhancement. The other items were either unfunded or underfunded.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

None

**(9) Consequences of Not Funding:**

As with most institutions of higher ed in Texas, UHD uses Institutional Enhancement funds to support many of its core operations. Losing this funding would have the effect of an across-the-board decrease in state support.

---

**784 University of Houston - Downtown**

---

**Special Item:**     3       **Restoration of the 4% Reduction**

**(1) Year Special Item:**             2018  
Original Appropriations:   \$113,478

**(2) Mission of Special Item:**

These funds, which are not new funds but rather a restoration of currently appropriated funds that were reduced in the initial 2018-2019 LAR submission, are used to support core university operations. The back-story of the Institutional Enhancement (I/E) item is that it was created during a period when the state was seeking to reduce the number of special items appropriated to Texas public universities. Many special items were eliminated at that time, with the funding instead provided as 'institutional enhancement' so as to hold universities harmless (revenue neutral). The special items that were replaced had been highly restrictive, whereas this new 'institutional enhancement' money could be used to address a broader range of needs. Over time I/E funds quickly became de facto operating funds for those that receive it. UHD will continue to use these Institutional Enhancement funds to meet basic operational needs.

**(3) (a) Major Accomplishments to Date:**

Has been used to support core operations, primarily in the form of salary/benefits funds for needed faculty/staff positions.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

If restored, will be used to support core operations, primarily in the form of salary/benefits funds for needed faculty/staff positions.

**(4) Funding Source Prior to Receiving Special Item Funding:**

Existing Institutional Enhancement special item funds.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

None

**(9) Consequences of Not Funding:**

---

**784 University of Houston - Downtown**

---

The cost of not having these funds restored would be reduced staff/faculty to serve the students attending UHD, many of whom are at-risk and need more support, not less.

---

---

**784 University of Houston - Downtown**

---

**Special Item:**     4       **Center for Urban Agriculture & Sustainability**

**(1) Year Special Item:**           2018  
Original Appropriations:   \$375,000

**(2) Mission of Special Item:**

These funds will be used to expand its Center for Urban Agriculture & Sustainability (CUAS) through the construction of a greenhouse and outside agricultural laboratory. UH's CUAS will address goals – increasing urban food production, becoming a leader in sustainable technologies and business, reducing our global carbon footprint, and creating stable urban ecosystems.

**(3) (a) Major Accomplishments to Date:**

Recently, we built gardens and infrastructure (solar irrigation systems). Food from these gardens is distributed by non-profits to the homeless. Next year, students will work on research projects (organic pesticides, variety trials for urban environments). Continuing education will support demand for local food and a sustainable Houston.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Continuing education will support demand for local food and a sustainable Houston.

**(4) Funding Source Prior to Receiving Special Item Funding:**

In 2015 CUAS utilized institutional and private funding from WCA waste management company. In 2016, USDA NIFA awarded UH a \$250,000 grant for development of the CUAS.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

FY2015 institutional and private funding. FY2016 federal funding.

**(9) Consequences of Not Funding:**

Seek alternate funding.

---

**784 University of Houston - Downtown**

---

**Special Item:**     5       **Internships - A Pathway to Career Success**

**(1) Year Special Item:**             2018  
Original Appropriations:   \$300,000

**(2) Mission of Special Item:**

These funds will be used to provide summer stipends for students pursuing internships in their junior and senior year with non-profit organizations, which are hard-pressed to attract students due to their inability to provide paid internships. This item recognizes that internships are among the most impactful in creating a smooth transition from the classroom to careers and will extend our existing initiatives of community engagement. This item also recognizes that minority students, like those served by UHD, have long been underrepresented when it comes to participation in internship programs as low-income students, taking an unpaid internship is often not an option due to their financial obligations.

**(3) (a) Major Accomplishments to Date:**

UHD was designated the 2012 US President’s Higher Education Community Service Honor Roll with Distinction and the 2015 Community Engagement Classification from The Carnegie Foundation.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

UHD plans to build on its strength in community engagement by doubling the number of internships available to UHD students.

**(4) Funding Source Prior to Receiving Special Item Funding:**

In spring 2015, the Center for Community Engagement and Service Learning was established with institutional funding and private philanthropy.

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**(8) Non-general Revenue Sources of Funding:**

Institutional and private funding.

**(9) Consequences of Not Funding:**

Seek alternate funding.
