## Introduction

TIIMPLIE COLIIGE:

August I5, 2016
Honorable Chairman, Board of Trustees, and President
Temple Junior College District
2600 South I ${ }^{\text {st }}$ Street
Temple, TX 76504

Dear Board Members and President:

The proposed 2016-2017 fiscal year budget for the Temple Junior College District (the "District") totals $\$ 43,497,318$. The budget was developed with major consideration given to the strategic goals of the District and priorities established by the Board of Trustees.

It should be noted that a budget is a detailed financial plan reflecting the finances required to support instructional programs, student programs, and support services. In general, budgets are the mechanism by which an organization allocates the resources necessary to accomplish its mission in a given time frame. The budget furthermore serves as a control mechanism to match revenues to expenses and prevent financial deficits.

## BUDGET PROCESS

The budget process began by initially distributing budget request forms to all cost center managers. Each manager had the opportunity to reallocate funds among his/her functional areas to meet the changing goals and targeted actions of the District. If additional funds were needed, managers could request a formal budget hearing.

Budget hearings were conducted during the month of April. Each cost center manager presented his/her budget needs during open budget hearings before the College administrative team (Executive Cabinet). These hearings not only improve the quality of the budget, but also provide for open communication concerning District finances and priorities between various college personnel. The President and Executive Cabinet subsequently approved the proposed budget and funding requests.

## BUDGET SUMMARY

The annual budget, as presented, is balanced and includes all funds. The Fiscal Year 2016-2017 budgeted revenues and expenses each total $\$ 43,497,318$ and the following is a summary:

For 2016-2017, the total Educational \& General revenues are projected to decrease by $\$ 3,227,840$, or $6.2 \%$ from the 2015-2016 budgeted revenues, primarily due a significant decrease in Pell income. This decrease is a direct result of the recent decline in enrollment. Significant changes related to 2016-20I7 projected Educational \& General revenues include:

- Basic state appropriations are budgeted at $\$ 7,634,005$. This amount represents a modest decrease of approximately $\$ 12,000$ in budgeted basic state appropriations from the previous fiscal year. This will be the second year of the current biennium, so state funding is once again divided between three categories as follows:
o Core Operations \$500,000
o Student Success
\$688,161
o Contact Hour Funding
\$6,445,844

The District continues to receive the majority of state funding based on contact hours, but a portion ( $10 \%$ ) of the funding is tied to a success-points system in which colleges earn funding for students' academic milestones, such as earning an associate's degree or certificate, or transferring to a university.

- Tuition and fee revenue was adjusted downward last year due to several years of declining enrollment. For this upcoming year, these figures are roughly consistent with last year's numbers. Slight adjustments have been made due to the elimination of a couple of programs from the budget - Academie Musique and SubSea Robotics (in Business/Continuing Education).
o Tuition \$ 12,655,000
0 Fees \$ 4,739,075
o Remissions/Exemptions \$ $(1,530,500)$
- The total tax rate is being set at $\$ 0.2057$, with the proposed Maintenance and Operations rate at $\$ 0.1454$ and the Debt Service rate at $\$ 0.0603$. Last year's total tax rate was $\$ 0.2100$; therefore, the upcoming rate represents a $2.1 \%$ decrease in the overall tax rate.
- Tax revenue from local property taxes - after adjustments for Tax Increment Finance (TIF) District funding - is projected to be $\$ 8,307,74 \mathrm{I}$, a $2.9 \%$ increase over the previous budget.
- Total revenues are reduced by mandatory and non-mandatory transfers totaling $\$ 5, \mathrm{I} 22, \mathrm{I} 68$. This is a $\$ 679,238$, or $\mathrm{II} .7 \%$, decrease in transfers over the previous year. Transfers are used for revenue bond payments, general obligation bond payments, TIF District funding, and allocations to cover various plant-related needs. The majority of this decrease is the result of new tax abatements impacting the Panda Power facilities. These properties are part of the TIF, so transfers to the TIF will decrease significantly in the upcoming year.

For 2016-2017, total expenditures are projected to decrease $\$ 2,551,602$ or $5.5 \%$. The following is a summary of significant budget changes as compared to the 2015-2016 budget:

- Total Instruction expenses are projected to decrease by $\$ 201,595$, or $1.4 \%$ over the previous budget. This decrease is primarily the result of lower enrollments, therefore reductions in part-time and overload salaries.
- The most significant increase occurs within Public Service. The new budget of $\$ 969,77$ I is a $159.5 \%$ increase over the previous year. The large increase is the result of federal and state AEL programs which were actually begun shortly after the start of the previous fiscal year and will continue in the new budget year. The Career Pathways Initiative is also a new addition for the upcoming year.
- Scholarships \& Fellowships represents the most significant change within Total Expenditures for the upcoming year. Due to recent declines in enrollment, a downward adjustment of $\$ 3,000,000$ is being made to Pell Grant expenditures. It must be noted that this downward adjustment in expense will also necessitate a similar downward projection in revenue under Federal Funds. The decline in expenses will be offset by the corresponding decline in revenues.
- Debt Service obligations for the upcoming year remain relatively unchanged, separated between General Obligation Bonds and Revenue Bonds as follows:
o G.O. Bonds
\$2,156,269
o Revenue Bonds
\$1,553,2।2

Conservative projections have been applied to estimate revenues which are reasonably attainable. Budgeted expenses with significant increases have been reviewed for appropriateness and reasonableness. During the budget development process, major consideration was given to ensure necessary funding was provided to aid in the achievement of Strategic Goals, targeted actions, and the Quality Enhancement Plan. The budget hearings also provided an additional review of budget expenses related to instruction, student development, and administrative goals.

Based upon the District's budget development process, budget hearings, and internal reviews, I do not anticipate significant mid-year revisions. If significant revisions were to occur, it would most likely be the result of unanticipated changes in student enrollment.

Respectfully submitted,

# Van $\mathcal{D}$. Miller
